Neurological Surgery	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	<p>spinal cord syrinx history, chiari 1 malformation; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; years; There has been treatment or conservative therapy.; Headache, dizziness, neck pain, back pain, eye pain&amp;#x0D; difficulty focusing; NSAID'S &amp;#x0D; Exedrin Headache&amp;#x0D; PT; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology</p>	1
-------------------------	----------	---	--	---

Neurological Surgery	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	<p>The patient has failed a course of anti-inflammatory medication or steroids.; This is a request for cervical spine MRI; It is not known if there has been a supervised trial of conservative management for at least six weeks.; Acute or Chronic neck and/or back pain; It is not known if the patient demonstrate neurological deficits.; No, this patient did not have a recent course of supervised physical Therapy.</p>	1
-------------------------	----------	---	--	---

Neurological Surgery	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	The patient has failed a course of anti-inflammatory medication or steroids.; This is a request for cervical spine MRI; It is not known if there has been a supervised trial of conservative management for at least six weeks.; Acute or Chronic neck and/or back pain; Yes, the patient demonstrate neurological deficits.; No, there is not a documented evidence of extremity weakness on physical examination.; No, there is no evidence of recent development of unilateral muscle wasting.; It is not known if this patient had a recent course of supervised physical Therapy.	1
Neurological Surgery	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	The patient has failed a course of anti-inflammatory medication or steroids.; This is a request for cervical spine MRI; There has been a supervised trial of conservative management for at least 6 weeks.; Acute or Chronic neck and/or back pain; It is not known if the patient demonstrate neurological deficits.; No, this patient did not have a recent course of supervised physical Therapy.	1
Neurological Surgery	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	The patient has failed a course of anti-inflammatory medication or steroids.; This is a request for cervical spine MRI; There has been a supervised trial of conservative management for at least 6 weeks.; Acute or Chronic neck and/or back pain; No, the patient does not demonstrate neurological deficits.; It is not known if this patient had a recent course of supervised physical Therapy.	1
Neurological Surgery	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	The patient has failed a course of anti-inflammatory medication or steroids.; This is a request for cervical spine MRI; There has been a supervised trial of conservative management for at least 6 weeks.; Acute or Chronic neck and/or back pain; No, the patient does not demonstrate neurological deficits.; No, this patient did not have a recent course of supervised physical Therapy.	9

Neurological Surgery	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	The patient has failed a course of anti-inflammatory medication or steroids.; This is a request for cervical spine MRI; There has been a supervised trial of conservative management for at least 6 weeks.; Acute or Chronic neck and/or back pain; Yes, the patient demonstrate neurological deficits.; No, there is not a documented evidence of extremity weakness on physical examination.; No, there is no evidence of recent development of unilateral muscle wasting.; No, this patient did not have a recent course of supervised physical Therapy.	8
Neurological Surgery	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	The patient has not failed a course of anti-inflammatory medication or steroids.; This is a request for cervical spine MRI; There has been a supervised trial of conservative management for at least 6 weeks.; Acute or Chronic neck and/or back pain; No, the patient does not demonstrate neurological deficits.; No, this patient did not have a recent course of supervised physical Therapy.; Yes, the patient had six weeks of Chiropractic care related to this episode.	1
Neurological Surgery	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	The patient has not failed a course of anti-inflammatory medication or steroids.; This is a request for cervical spine MRI; There has been a supervised trial of conservative management for at least 6 weeks.; Acute or Chronic neck and/or back pain; Yes, the patient demonstrate neurological deficits.; No, there is not a documented evidence of extremity weakness on physical examination.; No, there is no evidence of recent development of unilateral muscle wasting.; No, this patient did not have a recent course of supervised physical Therapy.; Yes, the patient had six weeks of Chiropractic care related to this episode.	1

Neurological Surgery	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	The patient is not presenting new symptoms.; This study is being ordered for follow-up.; This is a request for cervical spine MRI; "The patient is being seen by or is the ordering physician an oncologist, neurologist, neurosurgeon, or orthopedist."; The last spine MRI was performed more than 6 months ago.; Known Tumor with or without metastasis	1
Neurological Surgery	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	The patient is presenting new symptoms.; This study is being ordered for follow-up.; This is a request for cervical spine MRI; "The patient is being seen by or is the ordering physician an oncologist, neurologist, neurosurgeon, or orthopedist."; Known Tumor with or without metastasis	1
Neurological Surgery	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	This 56 year old male presents with neck and right arm pain. He also complains of numbness in his right arm to his hand. He also complains of issues swallowing since surgery. He states the symptoms began two years ago and have progressively worsened despi; This is a request for cervical spine MRI; Acute or Chronic neck and/or back pain; The patient does have new or changing neurologic signs or symptoms.; There is reflex abnormality.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; There is not x-ray evidence of a recent cervical spine fracture.; Deep Tendon Reflexes: Biceps Right 1+ Left 1+; Triceps Right 1+ Left 1+; Brachioradialis Right 1+ Left 1+; Knee Jerks Right 1+ Left 1+; Ankle Jerks Right 1+ Left 1+; Pathologic Reflexes: Upper Extremities; No spread of Brachio	1
Neurological Surgery	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	This is a request for cervical spine MRI; "The patient has been seen by, or the ordering physician is, a neuro-specialist, orthopedist, or oncologist."; Follow-up to Surgery or Fracture within the last 6 months	9

Neurological Surgery	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	This is a request for cervical spine MRI; Acute or Chronic neck and/or back pain; The patient does have new or changing neurologic signs or symptoms.; The patient does have new signs or symptoms of bladder or bowel dysfunction.	4
Neurological Surgery	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	This is a request for cervical spine MRI; Acute or Chronic neck and/or back pain; The patient does have new or changing neurologic signs or symptoms.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; There is x-ray evidence of a recent cervical spine fracture.	2
Neurological Surgery	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	This is a request for cervical spine MRI; Acute or Chronic neck and/or back pain; The patient does not have new or changing neurologic signs or symptoms.; The patient has had back pain for over 4 weeks.; The patient has seen the doctor more then once for these symptoms.; The physician has directed conservative treatment for the past 6 weeks.; The patient has completed 6 weeks of physical therapy?	4
Neurological Surgery	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	This is a request for cervical spine MRI; Acute or Chronic neck and/or back pain; Yes, the patient demonstrate neurological deficits.; yes, there is a documented evidence of extremity weakness on physical examination.	77
Neurological Surgery	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	This is a request for cervical spine MRI; Follow-up to Surgery or Fracture within the last 6 months; The patient has been seen by or is the ordering physician an oncologist, neurologist, neurosurgeon, or orthopedist.	4
Neurological Surgery	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	This is a request for cervical spine MRI; It is not known if there has been a supervised trial of conservative management for at least six weeks.; Acute or Chronic neck and/or back pain; No, the patient does not demonstrate neurological deficits.; Yes, this patient had a recent course of supervised physical Therapy.	1

Neurological Surgery	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	This is a request for cervical spine MRI; Neurological deficits; No, the patient is not experiencing or presenting new symptoms of upper extremity weakness?; No, the patient is not demonstrating unilateral muscle wasting.; Yes, the patient is experiencing or presenting new symptoms of Bowel or bladder dysfunction.	1
Neurological Surgery	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	This is a request for cervical spine MRI; Neurological deficits; Yes, the patient is experiencing or presenting new symptoms of upper extremity weakness.	24
Neurological Surgery	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	This is a request for cervical spine MRI; None of the above; &lt;Enter Additional Clinical Information&gt;; No, the patient is not experiencing or presenting new symptoms of upper extremity weakness?; No, the patient is not demonstrating unilateral muscle wasting.; No, the patient is not experiencing or presenting new symptoms of Bowel or bladder dysfunction.; No, the patient is not experiencing new onset of parathesia diagnosed by a neurologist; No, the patient is not experiencing or presenting x-ray evidence of a recent fracture.	1
Neurological Surgery	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	This is a request for cervical spine MRI; None of the above; Yes, the patient is experiencing or presenting new symptoms of upper extremity weakness.	1
Neurological Surgery	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	This is a request for cervical spine MRI; Pre-Operative Evaluation; No, the last Cervical spine MRI was not performed within the past two weeks.	5
Neurological Surgery	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	This is a request for cervical spine MRI; There has been a supervised trial of conservative management for at least 6 weeks.; Acute or Chronic neck and/or back pain; It is not known if the patient demonstrate neurological deficits.; Yes, this patient had a recent course of supervised physical Therapy.	1

Neurological Surgery	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	This is a request for cervical spine MRI; There has been a supervised trial of conservative management for at least 6 weeks.; Acute or Chronic neck and/or back pain; No, the patient does not demonstrate neurological deficits.; Yes, this patient had a recent course of supervised physical Therapy.	16
Neurological Surgery	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	This is a request for cervical spine MRI; There has not been a supervised trial of conservative management for at least 6 weeks.; Acute or Chronic neck and/or back pain; No, the patient does not demonstrate neurological deficits.;	2
Neurological Surgery	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	This is a request for cervical spine MRI; There has not been a supervised trial of conservative management for at least 6 weeks.; Acute or Chronic neck and/or back pain; No, the patient does not demonstrate neurological deficits.; Here for f/u of worsening neck pain and headaches and arm pain.Cont w neck pain that radiates to the bilateral shoulder/scapular area. will feel a sharp shooting pain in arms. Bilateral hand numbness and left arm feels weak. Also notes headaches. Now gets	1
Neurological Surgery	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	This is a request for cervical spine MRI; There has not been a supervised trial of conservative management for at least 6 weeks.; Acute or Chronic neck and/or back pain; Yes, the patient demonstrate neurological deficits.; No, there is not a documented evidence of extremity weakness on physical examination.; No, there is no evidence of recent development of unilateral muscle wasting.; dexterity issues	1
Neurological Surgery	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	This is a request for cervical spine MRI; There is no evidence of tumor or metastasis on a bone scan or x-ray.; Suspected Tumor with or without Metastasis;	1
Neurological Surgery	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	This is a request for cervical spine MRI; There is no evidence of tumor or metastasis on a bone scan or x-ray.; Suspected Tumor with or without Metastasis; &lt;Enter Additional Clinical Information&gt;	1

Neurological Surgery	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	This is a request for cervical spine MRI; There is no evidence of tumor or metastasis on a bone scan or x-ray.; Suspected Tumor with or without Metastasis; trying to rule out tumor	1
Neurological Surgery	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	This is a request for cervical spine MRI; Trauma or recent injury; none; No, the patient does not have new or changing neurological signs or symptoms.	1
Neurological Surgery	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	This is a request for cervical spine MRI; Trauma or recent injury; Yes, the patient have new or changing neurological signs or symptoms.; Yes, the patient is experiencing or presenting new symptoms of upper extremity weakness.	2
Neurological Surgery	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	unknown; This study is being ordered for a neurological disorder.; 12/20/2017; There has been treatment or conservative therapy.; shoulder pain that radiates down n to the arm , low back pain; anti inflammatory , pt; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurological Surgery	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material		1
Neurological Surgery	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	There are no documented clinical findings of immune system suppression.; This is a request for a thoracic spine MRI.; The patient is not experiencing back pain associated with abdominal pain.; The caller indicated the the study was not ordered for: Chronic Back pain, Trauma, Known or suspected tumor with or without metastasis, Follow up to or Pre-operative evaluation, or Neurological deficits."; S-shaped scoliosis of thoracolumbar spine, 19 degrees dextroconvex within the thoracic spine	1

Neurological Surgery	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	&lt; Enter answer here - or Type In Unknown If No Info Given. &gt;; This study is being ordered for a neurological disorder.; 9/2015; There has been treatment or conservative therapy.; The pt has lower back & extremity pain, associated bowel & bladder incontinence; Lumbar epidural injections & pain medication; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurological Surgery	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	&lt; Enter answer here - or Type In Unknown If No Info Given. &gt;; This study is being ordered for a neurological disorder.; SURGERY MAY 2017; There has been treatment or conservative therapy.; PATIENT IS BEDRIDDEN & CAN NO LONGER FEEL HER LEGS OR WALK.; PATIENT IS AN ARNOLD-CHIARI PATIENT WHO HAD RECENT SURGERY AND NOW CAN NOT FEEL HER LEGS. DR. HAS ORDERED THESE TESTS STAT; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurological Surgery	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	&lt; Enter answer here - or Type In Unknown If No Info Given. &gt;; This study is being ordered for Inflammatory/ Infectious Disease.; 03/01/2017; There has been treatment or conservative therapy.; Headaches, speech therapy, dizziness; Medication, Nsaids, therapy; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

Neurological Surgery	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	&lt; Enter answer here - or Type In Unknown If No Info Given. &gt;; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 6/26/17; There has been treatment or conservative therapy.; spastic gait; PT, medication; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurological Surgery	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	4
Neurological Surgery	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	; This is a request for a thoracic spine MRI.; Acute or Chronic back pain; The patient does not have new or changing neurologic signs or symptoms.; The patient has had back pain for over 4 weeks.; The patient has seen the doctor more then once for these symptoms.; The physician has not directed conservative treatment for the past 6 weeks.	1
Neurological Surgery	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	; This is a request for a thoracic spine MRI.; Neurological deficits; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; ; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is recent evidence of a thoracic spine fracture.	1

Neurological Surgery	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	; This study is being ordered for a neurological disorder.; 10/01/2017; There has been treatment or conservative therapy.; LE weakness and numbness x 8-9mos with associated right hip pain; Pain meds; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurological Surgery	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	; This study is being ordered for a neurological disorder.; Duration: years; It is not known if there has been any treatment or conservative therapy.; Frequency Frequently &#x0D; Severity: Average pain level over the last week 5/10 &#x0D; Location: Neck &#x0D; Quality: Aching; Throbbing; Shooting; Tingling &#x0D; Timing: Cannot identify &#x0D; Context/Mechanism: Cannot identify &#x0D; Aggravating Factors: forward flexion; coughing/s; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurological Surgery	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 11/2017; There has been treatment or conservative therapy.; back pain&#x0D; left leg pain&#x0D; left groin pain&#x0D; dizziness&#x0D; gait imbalance&#x0D; left leg weakness; physical therapy&#x0D; NSAID's &#x0D; heat; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

Neurological Surgery	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; LANE HAS A HISTORY OF A MYELOMENINGOCELE REPAIRED IN INFANCY. HE DOES NOT HAVE A VENTRICULOPERITONEAL SHUNT.; It is not known if there has been any treatment or conservative therapy.; He moves his upper extremities very well, but has limited mobility of his lower extremities. his breathing is unlabored. his abdomen is soft, nontender, nondistended.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
-------------------------	----------	---	---	---

Neurological Surgery	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	; This study is being ordered for trauma or injury.; 12/19/2017; There has been treatment or conservative therapy.; right arm pain/tingling; left hand pain; right side neck pain; headaches; NSAIDS(meloxicam); Muscle Relaxants; PT started; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
-------------------------	----------	---	---	---

Neurological Surgery	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	<p>36 year old female presents with history of Valsalva exacerbated suboccipital headaches as well as upper back pain, neck pain , right arm pain, dizziness, falling episodes as well as palpitations, orthostatic lightheadedness, fine motor issues, gait imbal; This study is being ordered for Congenital Anomaly.; Reported by patient.; Duration: months; There has been treatment or conservative therapy.; Duration: months ; Frequency Constantly ; Severity: Average pain level over the last week 1/10 ; Location: Low back Both; Mid-back Both; Neck Both ; Quality: Aching; Throbbing; Tingling; Numb ; Timing: Cannot identify ; Context/Mechanism: Cannot identify ; Patient was referred by another physician. See attached clinicals.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology</p>	1
-------------------------	----------	---	---	---

Neurological Surgery	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	<p>Chiar I. Obtain cine flow and spine completions. Cardiology referral, suspect POTS. F/U after, may need SOD; This study is being ordered for a neurological disorder.; 12/31/17; There has been treatment or conservative therapy.; New onset dizziness, near syncope in Oct. Ha sdeveloped SO headaches, pressure, right ear pressure, right incoordination, numbness, gait issues, imbalance. Can barely get up an dwalk short distances. MRI head with 7 mm tonsillar herniation C/W Chiari. No ; Patient was referred to us for further treatment.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology</p>	1
-------------------------	----------	---	---	---

Neurological Surgery	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	Chiari I with dysautonomia. To get completion MRIs and dysautonomia eval. Probably has type I EDS.; This study is being ordered for a neurological disorder.; Duration: 6 years; There has been treatment or conservative therapy.; ; Medications; Reviewed Medications; aloe vera; 01/02/18 entered Melissa Jones; B12; 01/02/18 entered Melissa Jones; ibuprofen 800 mg tablet; Take 1 tablet(s) 3 times a day by oral route.; 01/02/18 entered Melissa Jones; iron; 01/02/18 entered Melis; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurological Surgery	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	Considering her symptoms and the size of the fluid space in the center of the thoracic cord I feel this is more consistent with a syrinx than just a hydromyelia. We will ask for the enhanced MRI. We will also follow up with the CT scan of the chest to f; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Neurological Surgery	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	g93.5; This study is being ordered for a metastatic disease.; There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

Neurological Surgery	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	<p>Here for MRI F/U. Studies how minimal low tonsils and excellent flow. She has had some headaches and visual issues and may need to see eye doc when headaches are severe. Also having burning in thorax and legs at times. Has T spine syrinx not imaged this t; This study is being ordered for a neurological disorder.; 8/2/16; There has been treatment or conservative therapy.; Known to me. Last study showed stable T spine small syrinx. She had LP for possible IIH which was OP 7. Has a lot of headaches and has known mild Chiari and sister with Chiari. she has been a lot worse the last three weeks. Will schedule new studies in Dec; Fioricet; 07/17/17 entered Jeana Russell; Imitrex; 07/17/17 entered Jeana Russell; metoprolol tartrate 25 mg tablet; 08/15/17 filled Caremark; Neurontin; 08/02/16 entered Tana Nowlin; SUMA triptan 25 mg tablet; 08/15/17 filled Caremark; topiramate; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MD's specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology</p>	1
Neurological Surgery	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	<p>It is not known if the patient has any neurological deficits.; This is a request for a thoracic spine MRI.; There has been a supervised trial of conservative management for at least 6 weeks.; The study is being ordered due to chronic back pain or suspected degenerative disease.; The patient is experiencing sensory abnormalities such as numbness or tingling.</p>	1

Neurological Surgery	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	It is not known if there are documented findings of immune system suppression.; This is a request for a thoracic spine MRI.; It is not known if the patient is experiencing back pain associated with abdominal pain.; The caller indicated the the study was not ordered for: Chronic Back pain, Trauma, Known or suspected tumor with or without metastasis, Follow up to or Pre-operative evaluation, or Neurological deficits."; &lt;Enter Additional Clinical Information&gt;	1
Neurological Surgery	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	Mid Back Pain &#x0D; Issues started about Many Years . &#x0D; Reason for Visit: 76 yr old right handed female here for mid back pain for many years unrelated to any specific incident.. Did have an accident many years ago with a TBI.&#x0D; Cont w mid back pain between th; This is a request for a thoracic spine MRI.; Neurological deficits; The patient does have new or changing neurologic signs or symptoms.; There is no weakness or reflex abnormality.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is recent evidence of a thoracic spine fracture.	1
Neurological Surgery	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	MRI of the entire neuroaxis to evaluate for metastasis; This study is being ordered for a metastatic disease.; There are 3 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

Neurological Surgery	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	numbness to arms as well, checking for lesions in the spinal cord; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 10 years ago; There has been treatment or conservative therapy.; pain, numbness, weakness in both legs, weakness worse in left leg; pain medication, shots, patient is obese,; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurological Surgery	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	Patient c/o pain in the neck, bilateral shoulder, BUE, and BLE that is described as a sharp stabbing numbing ache.; This is a request for a thoracic spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; It is not known if there is weakness or reflex abnormality.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is recent evidence of a thoracic spine fracture.	1
Neurological Surgery	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	PATIENT IS COMING BACK FOR HER 1 YEAR FOLLOW UP POST SURGERY AND PHYSICIAN HAS ORDERED THE MRI AS PART OF THE EVALUATION FOR SCOLIOSIS AND IDENTIFIED A SYRINX AND CHIARI MALFORMATION .; This study is being ordered for a neurological disorder.; 10/11/2016; There has been treatment or conservative therapy.; SYRINX; ON 11/14/2016 SHE UNDERWENT A CHIARI DECOMPRESSION SURGERY.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

Neurological Surgery	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	<p>Patient was found to 4/5 strength on physical exam to bilateral hip flexors. MRI of cervical and thoracic spine to rule out compressive lesion, cord pathology, disc pathology, and arthritis.; This study is being ordered for a neurological disorder.; Approximately 2015; There has been treatment or conservative therapy.; Chronic low cervical, thoracic, and low back pain with radiation into bilateral lower extremities. She has painful paresthesias to lower extremities and reports weakness/heaviness. She also has spasms and jerking movements of legs and left upper arm.; Patient has completed course of physical therapy and pharmacological management with Baclofen, Clonazepam, and Gabapentin.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology</p>	1
Neurological Surgery	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	<p>Pt suffers with a suspicious mass on the left forearm at T 12.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.</p>	1
Neurological Surgery	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	<p>She is 14 years out from removal of huge neurofibroma in her right chest requiring hemilaminotomy at T2-T3; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; November 2014; It is not known if there has been any treatment or conservative therapy.; neck and right shoulder/arm pain and numbness. neurofibroma tumor, had it removed once in 2003, was told there was a possibility it would grow back.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology</p>	1

Neurological Surgery	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	spinal cord syrinx history, chiari 1 malformation; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; years; There has been treatment or conservative therapy.; Headache, dizziness, neck pain, back pain, eye pain&#x0D; difficulty focusing; NSAID'S &#x0D; Exedrin Headache&#x0D; PT; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurological Surgery	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	The patient does have neurological deficits.; This is a request for a thoracic spine MRI.; The study is being ordered due to chronic back pain or suspected degenerative disease.; ; The patient is experiencing or presenting symptoms of lower extremity weakness documented on physical exam.	1
Neurological Surgery	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	The patient does have neurological deficits.; This is a request for a thoracic spine MRI.; The study is being ordered due to chronic back pain or suspected degenerative disease.; none; The patient is experiencing or presenting symptoms of lower extremity weakness documented on physical exam.	1
Neurological Surgery	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	The patient does have neurological deficits.; This is a request for a thoracic spine MRI.; The study is being ordered due to chronic back pain or suspected degenerative disease.; The patient is experiencing or presenting symptoms of abnormal gait.	7
Neurological Surgery	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	The patient does have neurological deficits.; This is a request for a thoracic spine MRI.; The study is being ordered due to chronic back pain or suspected degenerative disease.; The patient is experiencing or presenting symptoms of radiculopathy documented on EMG or nerve conduction study.	1

Neurological Surgery	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	The patient does not have any neurological deficits.; This is a request for a thoracic spine MRI.; There has been a supervised trial of conservative management for at least 6 weeks.; The study is being ordered due to chronic back pain or suspected degenerative disease.	3
Neurological Surgery	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	The patient is not presenting new symptoms.; This study is being ordered for follow-up.; This is a request for a thoracic spine MRI.; Known Tumor with or without metastasis; The patient has been seen by or is the ordering physician an oncologist, neurologist, neurosurgeon, or orthopedist.; The last Thoracic Spine MRI was performed more than 10 months ago.	1
Neurological Surgery	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	The patient is presenting new symptoms.; This study is being ordered for follow-up.; The patient is not undergoing active treatment for cancer.; This is a request for a thoracic spine MRI.; "The patient is being seen by or is the ordering physician an oncologist, neurologist, neurosurgeon, or orthopedist."; The study is being ordered due to known tumor with or without metastasis.	1
Neurological Surgery	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	This 60 year old male presents with numbness and tingling in his legs and feet. He also complains of low back pain with bilateral hip pain. He has a history of right-sided weakness due to a stroke fourteen years ago. He reports having a PVD work-up in his; This is a request for a thoracic spine MRI.; Neurological deficits; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; Medical Decision Making; Interpretation of Data; I have personally read, studied, and interpreted the MRI of the Lumbar Spine without contrast that was performed on 02/19/2018 as abnormal with the finding of: 1. Large broad-based left paracentral disc; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is recent evidence of a thoracic spine fracture.	1

Neurological Surgery	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	This is a request for a thoracic spine MRI.; "The caller indicated that there is not a known condition of: Tumor, Infection or Neurological deficits."; The study is being ordered due to pre-operative evaluation.;	1
Neurological Surgery	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	This is a request for a thoracic spine MRI.; "The caller indicated that there is not x-ray or laboratory evidence of: Osteomyelitis, Meningitis, Septic Arthritis or discitis, or a paraspinal abscess."; The study is being ordered due to known or suspected infection or abscess.; He is 2 weeks postop (12/14/18) from his laminectomy with resection of what has been shown on pathology to be just basically a big degenerative cyst (7x3x1mm) within the filum terminale. I will see him back for followup again in one month. I want to rep	1
Neurological Surgery	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	This is a request for a thoracic spine MRI.; "The patient has been seen by, or the ordering physician is, a neuro-specialist, orthopedist, or oncologist."; The study is being ordered due to follow-up to surgery or fracture within the last 6 months.	3
Neurological Surgery	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	This is a request for a thoracic spine MRI.; Acute or Chronic back pain; The patient does not have new or changing neurologic signs or symptoms.; The patient has had back pain for over 4 weeks.; The patient has seen the doctor more then once for these symptoms.; The physician has directed conservative treatment for the past 6 weeks.; The patient has completed 6 weeks of physical therapy?	1
Neurological Surgery	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	This is a request for a thoracic spine MRI.; Follow-up to Surgery or Fracture within the last 6 months; The patient has been seen by or is the ordering physician an oncologist, neurologist, neurosurgeon, or orthopedist.	1
Neurological Surgery	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	This is a request for a thoracic spine MRI.; The study is being ordered due to Neurological deficits.; back pain; The patient is experiencing or presenting symptoms of lower extremity weakness documented on physical exam.	1

Neurological Surgery	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	This is a request for a thoracic spine MRI.; The study is being ordered due to Neurological deficits.; The patient is experiencing or presenting symptoms of abnormal gait.	2
Neurological Surgery	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	This is a request for a thoracic spine MRI.; There is evidence of tumor or metastasis on a bone scan or x-ray.; The study is being ordered due to suspected tumor with or without metastasis.	1
Neurological Surgery	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	This is a request for a thoracic spine MRI.; There is laboratory or x-ray evidence of osteomyelitis.; Known or Suspected Infection or abscess	1
Neurological Surgery	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	This study is being ordered for staging.; This is a request for a thoracic spine MRI.; "The patient is being seen by or is the ordering physician an oncologist, neurologist, neurosurgeon, or orthopedist."; The study is being ordered due to known tumor with or without metastasis.	1
Neurological Surgery	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	unknown; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; several years ago; There has been treatment or conservative therapy.; pain in back and down both legs, pain and weakness bi lateral in legs.; medications, injections, at home exercises.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurological Surgery	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		2

Neurological Surgery	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	&lt; Enter answer here - or Type In Unknown If No Info Given. &gt;; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; It is not known if the patient does have new or changing neurologic signs or symptoms.; It is not known if the patient has had back pain for over 4 weeks.	1
Neurological Surgery	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	&lt; Enter answer here - or Type In Unknown If No Info Given. &gt;; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; There is reflex abnormality.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.; Decreased ankle reflex on left	1
Neurological Surgery	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	&lt; Enter answer here - or Type In Unknown If No Info Given. &gt;; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; Document exam findings 3/5; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	1
Neurological Surgery	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	&lt; Enter answer here - or Type In Unknown If No Info Given. &gt;; The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has none of the above	3

Neurological Surgery	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	&lt; Enter answer here - or Type In Unknown If No Info Given. &gt;; This study is being ordered for a neurological disorder.; &lt; Enter date of initial onset here - or Type In Unknown If No Info Given &gt;; It is not known if there has been any treatment or conservative therapy.; &lt; Describe primary symptoms here - or Type In Unknown If No Info Given &gt;; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurological Surgery	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	&lt; Enter answer here - or Type In Unknown If No Info Given. &gt;; This study is being ordered for a neurological disorder.; 11/12/2015; There has been treatment or conservative therapy.; Chronic neck and back pain, pain radiates to shoulder and hips, limited range of motions and reflexes.; Medications, Physical therapy, home exercise and injections.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurological Surgery	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	&lt; Enter answer here - or Type In Unknown If No Info Given. &gt;; This study is being ordered for a neurological disorder.; 7/2017; There has been treatment or conservative therapy.; neck and back pain; Anti-inflammatory, therapy; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

Neurological Surgery	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	&lt; Enter answer here - or Type In Unknown If No Info Given. &gt;; This study is being ordered for a neurological disorder.; 9/2015; There has been treatment or conservative therapy.; The pt has lower back & extremity pain, associated bowel & bladder incontinence; Lumbar epidural injections & pain medication; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurological Surgery	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	&lt; Enter answer here - or Type In Unknown If No Info Given. &gt;; This study is being ordered for Inflammatory/ Infectious Disease.; 03/01/2017; There has been treatment or conservative therapy.; Headaches, speech therapy, dizziness; Medication, Nsaids, therapy; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurological Surgery	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	&lt; Enter answer here - or Type In Unknown If No Info Given. &gt;; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 2016; It is not known if there has been any treatment or conservative therapy.; &lt; Describe primary symptoms here - or Type In Unknown If No Info Given &gt;; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

Neurological Surgery	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI. ; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; There is no weakness or reflex abnormality.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; It is not known if the patient has a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	2
Neurological Surgery	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; There is reflex abnormality.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.;	1
Neurological Surgery	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; ; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; It is not known if the patient has a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	1
Neurological Surgery	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; ; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	1

Neurological Surgery	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; Low back pain; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	1
Neurological Surgery	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	; The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has none of the above	1
Neurological Surgery	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	; This study is being ordered for a neurological disorder.; 10/01/2017; There has been treatment or conservative therapy.; LE weakness and numbness x 8-9mos with associated right hip pain; Pain meds; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurological Surgery	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	; This study is being ordered for a neurological disorder.; Duration: years; It is not known if there has been any treatment or conservative therapy.; Frequency Frequently &#x0D; Severity: Average pain level over the last week 5/10 &#x0D; Location: Neck &#x0D; Quality: Aching; Throbbing; Shooting; Tingling &#x0D; Timing: Cannot identify &#x0D; Context/Mechanism: Cannot identify &#x0D; Aggravating Factors: forward flexion; coughing/s; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

Neurological Surgery	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; ; There has been treatment or conservative therapy.; ; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
-------------------------	----------	--	---	---

Neurological Surgery	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 11/2017; There has been treatment or conservative therapy.; back pain&#x0D; left leg pain&#x0D; left groin pain&#x0D; dizziness&#x0D; gait imbalance&#x0D; left leg weakness; physical therapy&#x0D; NSAID's &#x0D; heat; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
-------------------------	----------	--	---	---

Neurological Surgery	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; LANE HAS A HISTORY OF A MYELOMENINGOCELE REPAIRED IN INFANCY. HE DOES NOT HAVE A VENTRICULOPERITONEAL SHUNT.; It is not known if there has been any treatment or conservative therapy.; He moves his upper extremities very well, but has limited mobility of his lower extremities. his breathing is unlabored. his abdomen is soft, nontender, nondistended.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
-------------------------	----------	---	---	---

Neurological Surgery	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	; This study is being ordered for trauma or injury.; 12/19/2017; There has been treatment or conservative therapy.; right arm pain/tingling; left hand pain; right side neck pain; headaches; NSAIDS(meloxicam); Muscle Relaxants; PT started; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
-------------------------	----------	---	---	---

Neurological Surgery	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	<p>1. Low back pain -&amp;#x0D; Mrs. Baker presents today to follow-up after a radiofrequency neurotomy. She is known to my clinic since September 2016 with lumbar and cervical pain.&amp;#x0D; &amp;#x0D; MRI L-spine 1/20/2017 at OA - on my review today, there is evidence of asymmetric; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; Severity: Average pain level over the last week 5/10 &amp;#x0D; Location: Low back Right; Leg(s) Right &amp;#x0D; Quality: Stabbing; Tingling; Numb &amp;#x0D; Associated Symptoms: weakness; falls;; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.</p>	1
-------------------------	----------	---	--	---

Neurological Surgery	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	<p>31 year old 9 months s/p SOD with cranioplasty. Has had multiple joint pain as well as right ear face pain (origin), memory issues. Has hypermobility on exam and pending dysautonomia w/u and geneticist eval. Due for new studies in April which are ordered.; This study is being ordered for a neurological disorder.; 3/8/16; There has been treatment or conservative therapy.; Kayla is a 29-year-old female who is referred to the neurosurgery clinic by Dr. Blankenship. She presents with posterior neck and upper back pain with radiating pain, numbness and tingling that extends into the right scapular region and down the entire ri; Anterior cervical discectomy, with fusion and plating - 08/17/2016 - C5/6, C6/7; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology</p>	1
-------------------------	----------	---	---	---

Neurological Surgery	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	<p>36 year old female presents with history of Valsalva exacerbated suboccipital headaches as well as upper back pain, neck pain , right arm pain, dizziness, falling episodes as well as palpitations, orthostatic lightheadedness, fine motor issues, gait imbal; This study is being ordered for Congenital Anomaly.; Reported by patient.; Duration: months; There has been treatment or conservative therapy.; Duration: months ; Frequency Constantly ; Severity: Average pain level over the last week 1/10 ; Location: Low back Both; Mid-back Both; Neck Both ; Quality: Aching; Throbbing; Tingling; Numb ; Timing: Cannot identify ; Context/Mechanism: Cannot identify ; Patient was referred by another physician. See attached clinicals.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology</p>	1
Neurological Surgery	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	<p>Chiar I. Obtain cine flow and spine completions. Cardiology referral, suspect POTS. F/U after, may need SOD; This study is being ordered for a neurological disorder.; 12/31/17; There has been treatment or conservative therapy.; New onset dizziness, near syncope in Oct. Ha sdeveloped SO headaches, pressure, right ear pressure, right incoordination, numbness, gait issues, imbalance. Can barely get up an dwalk short distances. MRI head with 7 mm tonsillar herniation C/W Chiari. No ; Patient was referred to us for further treatment.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology</p>	1

Neurological Surgery	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Chiari I with dysautonomia. To get completion MRIs and dysautonomia eval. Probably has type I EDS.; This study is being ordered for a neurological disorder.; Duration: 6 years; There has been treatment or conservative therapy.; ; Medications; Reviewed Medications; aloe vera; 01/02/18 entered Melissa Jones; B12; 01/02/18 entered Melissa Jones; ibuprofen 800 mg tablet; Take 1 tablet(s) 3 times a day by oral route.; 01/02/18 entered Melissa Jones; iron; 01/02/18 entered Melis; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurological Surgery	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	CT DONE 2/15/18 RECOMMENDS MRI FOR FOLLOW-UP OF SEVERE CANAL STENOSIS ON L 4/5 ; ; MRI IMPRESSION: SEVERE L 4/5 CANAL STENOSIS SECONDARY TO BROAD BASED DISC BULGE, FACEL ARTHROPATHY AND LIGAMENTUM FLAVUM HYPERTROPHY.; ; DR WANTS TO RULE OUT AN ADJACENT LE; The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has none of the above	1
Neurological Surgery	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Donnie had an anterior cervical fusion performed in October and tolerated that procedure well since that procedure is also had a total knee on the right which she also tolerated continues to have lower back pain with radiation into the left leg and hip co; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; There is no weakness or reflex abnormality.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	1

Neurological Surgery	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Dr. Moore is requesting a MRI with and without contrast to follow up on L3-L4 intradural-extramedullary schwannoma.; The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has none of the above	1
Neurological Surgery	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	evaluate new onset of right arm weakness and pain; evaluate back pain with left leg pain in pt. w/ previous back surgery; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 1.5 months ago; 12/1/2017; There has been treatment or conservative therapy.; left hip/groin and left leg pain, numbness, tingling; right arm pain, numbness/tingling, weakness; neck pain; previous back surgery 6/2017; PT; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurological Surgery	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	f/u p lami with Dr. Evans on Oct 6, 2017. States he is still having a lot of trouble with his right sided sciatic pain. Only notes occ. back pain.; The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has none of the above	1

Neurological Surgery	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Here for f/u of worsening pain, after carrying some plants in and he slipped and fell. feels like the pain is up higher, just below the shoulder blades, pain radiates to the low back to the hip/buttock area down the left leg. No foot numbness, just some t; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; There is no weakness or reflex abnormality.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	1
-------------------------	----------	---	---	---

Neurological Surgery	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Here for MRI F/U. Studies how minimal low tonsils and excellent flow. She has had some headaches and visual issues and may need to see eye doc when headaches are severe. Also having burning in thorax and legs at times. Has T spine syrinx not imaged this t; This study is being ordered for a neurological disorder.; 8/2/16; There has been treatment or conservative therapy.; Known to me. Last study showed stable T spine small syrinx. She had LP for possible IIH which was OP 7. Has a lot of headaches and has known mild Chiari and sister with Chiari. she has been a lot worse the last three weeks. Will schedule new studies in Dece; Fioricet; 07/17/17 entered Jeana Russell; Imitrex; 07/17/17 entered Jeana Russell; metoprolol tartrate 25 mg tablet; 08/15/17 filled Caremark; Neurontin; 08/02/16 entered Tana Nowlin; SUMA triptan 25 mg tablet; 08/15/17 filled Caremark; topiramate; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
-------------------------	----------	---	--	---

Neurological Surgery	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	I have told the gentleman it is very likely that I am going to recommend that we get him in for injections, change his medication, and get him into an aggressive active physical therapy program before we discuss doing anything else. I told him that I need; This study is being ordered for trauma or injury.; 1-8-18; There has been treatment or conservative therapy.; ; ; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurological Surgery	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	L44 HNP FOUND ON CT LUMNAT, 2/16/18, SEVERE BACK PAIN Musculoskeletal: positive for gait problem; TAKING MOTRIN, AND HAS BEEN DOING HOME EXERCISES WITH NO HELP; The study requested is a Lumbar Spine MRI.; Neurological deficits; The patient does have new or changing neurologic signs or symptoms.; It is not known if there is weakness or reflex abnormality.; It is not known if the patient has new signs or symptoms of bladder or bowel dysfunction.; It is not known if the patient has a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	1
Neurological Surgery	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	LUMBAR RADICULOPATHY WITH FOOT DROP, MRI 8/2016 SHOWED DISK HERNIATION NEED TO DO MRI TO ENSURE THIS IS THE CASE, AND TO PLAN FOR SURGERY.; The study requested is a Lumbar Spine MRI.; Pre-Operative Evaluation; Surgery is not scheduled within the next 4 weeks.	1
Neurological Surgery	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	MRI of the entire neuroaxis to evaluate for metastasis; This study is being ordered for a metastatic disease.; There are 3 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

Neurological Surgery	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	none; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; bilateral leg weakness; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	1
Neurological Surgery	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	NONE; This study is being ordered for a neurological disorder.; 02/1998; There has not been any treatment or conservative therapy.; pain radiating to both legs, neck and back pain, pain radiating from neck to arms, numbness and weakness in hands; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurological Surgery	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Patient called our office on 03/26/2018 after previous surgery on 12/11/2017. Surgery performed: Left L2-3 Partial Facetectomy, Left L2-3 Foraminotomy. We saw the patient back in the office on 12/21/2017 and the patient had no complaints, and stated that ; The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has none of the above	1
Neurological Surgery	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Patient continues to have pain after decompression surgery. May need to have another surgery at another level but MRI is necessary to determine this.; The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has none of the above	1

Neurological  
Surgery

Approval

72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material

Patient has 6 years of progressive low back pain radiating to her posterior right leg with N/T. She has tried LESIs and PT with only temporary relief. She has an old MRI report that I have reviewed which shows possible stenosis especially at L4/5. We will; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; There is no weakness or reflex abnormality.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.

1

Neurological  
Surgery

Approval

72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material

Patient is a 20 y/o female with progressively worsening low back pain. The numbness, tingling, and weakness in both of her legs is affecting her daily activities.; The study requested is a Lumbar Spine MRI.; Neurological deficits; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; Patient has numbness, tingling, weakness, and pain in bilateral lower extremities. Patient also has severe pain in lower back. She has completed physical therapy, and medication management with no relief. Patient also has decreased range of motion of lowe; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.

1

Neurological Surgery	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	<p>PATIENT IS COMING BACK FOR HER 1 YEAR FOLLOW UP POST SURGERY AND PHYSICIAN HAS ORDERED THE MRI AS PART OF THE EVALUATION FOR SCOLIOSIS AND IDENTIFIED A SRRINX AND CHIARI MALFOTMATION .; This study is being ordered for a neurological disorder.; 10/11/2016; There has been treatment or conservative therapy.; SYRINX; ON 11/14/2016 SHE UNDERWNT A CHIARI DECOMPRESSION SURGERY.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology</p>	1
Neurological Surgery	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	<p>Previous abnormal imaging; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; &amp;lt; Enter date of initial onset here - or Type In Unknown If No Info Given &amp;gt;; There has been treatment or conservative therapy.; Excessive urination, neck and low back pain with numbness and tingling; injections/injection therapy, exercise therapy, medication; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology</p>	1
Neurological Surgery	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	<p>Pt had PT x10 visits w/ no improvement; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; There is no weakness or reflex abnormality.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.</p>	1

Neurological Surgery	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Pt suffers with neck and back pain.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Neurological Surgery	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Rule out cord compression; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; one year ago; There has been treatment or conservative therapy.; worsening aching and tingling and radiating from middle back to legs Hyper reflexia from the exam; PT and injection with mild relief and muscle relaxers; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurological Surgery	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Shayla Gibson is now 62 years old and returns for follow-up. I last saw this patient in November 2015. We had planned to do a lumbar fusion for her. She and her husband ended up down in Florida with their RV and she went to the Laser Spine Institute. ; The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has none of the above	1
Neurological Surgery	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	She was pretty much pain free after surgery. She had hemilaminectomy L 4-5 on 1/12/18. She is now having a lot of symptoms that seem to be worse back pain and legs going numb, with tingling and burning. I have advised her that this far out from surgery, ; The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has none of the above significant facet changes noted at 4-5 and 5-1.; The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has none of the above	1
Neurological Surgery	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		1

Neurological Surgery	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Significant radiating pain 3 weeks post op 3 level lumbar fusion.; The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has none of the above	1
Neurological Surgery	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	spinal cord syrinx history, chiari 1 malformation; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; years; There has been treatment or conservative therapy.; Headache, dizziness, neck pain, back pain, eye pain; difficulty focusing; NSAID'S ; Exedrin Headache; PT; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurological Surgery	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; The patient does have a new foot drop.	4
Neurological Surgery	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; The patient does have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.	2
Neurological Surgery	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does not have new or changing neurologic signs or symptoms.; The patient has had back pain for over 4 weeks.; The patient has seen the doctor more then once for these symptoms.; The physician has directed conservative treatment for the past 6 weeks.; The patient has completed 6 weeks of physical therapy?	8

Neurological Surgery	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does not have new or changing neurologic signs or symptoms.; The patient has had back pain for over 4 weeks.; The patient has seen the doctor more than once for these symptoms.; The physician has directed conservative treatment for the past 6 weeks.; The patient has not completed 6 weeks of physical therapy?; The patient has been treated with medication.; The patient was treated with an Epidural.	1
Neurological Surgery	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	The study requested is a Lumbar Spine MRI.; Follow-up to Surgery or Fracture within the last 6 months; The patient has been seen by or is the ordering physician an oncologist, neurologist, neurosurgeon, or orthopedist.	5
Neurological Surgery	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	The study requested is a Lumbar Spine MRI.; It is unknown if the patient has acute or chronic back pain.; This procedure is being requested for Follow-up to surgery or fracture within the last 6 months; The patient been seen by or the ordering physician is a neuro-specialist, orthopedist, or oncologist.	1
Neurological Surgery	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	The study requested is a Lumbar Spine MRI.; It is unknown if the patient has acute or chronic back pain.; This procedure is being requested for Neurologic deficits	5
Neurological Surgery	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	The study requested is a Lumbar Spine MRI.; Neurological deficits; The patient does have new or changing neurologic signs or symptoms.; The patient does have a new foot drop.	1
Neurological Surgery	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	The study requested is a Lumbar Spine MRI.; Neurological deficits; The patient does have new or changing neurologic signs or symptoms.; The patient does have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.	1
Neurological Surgery	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	The study requested is a Lumbar Spine MRI.; Pre-Operative Evaluation; No, the last Lumbar spine MRI was not performed within the past two weeks.; Surgery is scheduled within the next 4 weeks.	2

Neurological Surgery	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	The study requested is a Lumbar Spine MRI.; The patient does NOT have acute or chronic back pain.; The patient has Symptoms or x-ray evidence of a recent fracture; This procedure is being requested for Trauma or recent injury	1
Neurological Surgery	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	The study requested is a Lumbar Spine MRI.; The patient does NOT have acute or chronic back pain.; This procedure is being requested for Follow-up to surgery or fracture within the last 6 months; The patient been seen by or the ordering physician is a neuro-specialist, orthopedist, or oncologist.	4
Neurological Surgery	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	The study requested is a Lumbar Spine MRI.; The patient does NOT have acute or chronic back pain.; This procedure is being requested for Known or suspected tumor with or without metastasis	2
Neurological Surgery	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	The study requested is a Lumbar Spine MRI.; The patient does NOT have acute or chronic back pain.; This procedure is being requested for Neurologic deficits	5
Neurological Surgery	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	The study requested is a Lumbar Spine MRI.; The patient does NOT have acute or chronic back pain.; This procedure is being requested for Pre-operative evaluation; The patient has not had a Lumbar Spine MRI performed within the past 2 weeks.	3
Neurological Surgery	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has 6 weeks of completed conservative care in the past 3 months or had a spine injection	135
Neurological Surgery	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has an Abnormal nerve study involving the lumbar spine	1
Neurological Surgery	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has an Abnormal x-ray indicating a significant abnormality	8
Neurological Surgery	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has completed Treatment with a facet joint or epidural injection in the past 6 weeks	2

Neurological Surgery	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has Neurological deficit(s)	81
Neurological Surgery	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	The study requested is a Lumbar Spine MRI.; There is laboratory or x-ray evidence of osteomyelitis.; Known or Suspected Infection or abscess	1
Neurological Surgery	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	This is well known patient to me s/p L5/S1 far lateral discectomy and then left L5/S1 decompression and fusion for left leg pain in the L5 distribution. Unfortunately she is still having L5 radiculopathy. We will obtain an MRI lumbar spine w/wo, MRI lumba; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 2-23-2017; There has been treatment or conservative therapy.; This 49 year old female presents with S/P Left L5/S1 Decompression and Fusion. She still complains of posterior left leg pain. She also complains of numbness and tingling in the left leg. This occurs daily. She has some relief initially but pain is back ; 5 INJECTIONS 2017&#x0D; 2 SURGERIES 2017&#x0D; PHYSICIAL THERAPY &#x0D; AND MEDICATIONS 2017&#x0D; AND BONE STIMULATOR; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

Neurological Surgery	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	unknown; This study is being ordered for a neurological disorder.; 12/20/2017; There has been treatment or conservative therapy.; shoulder pain that radiates down n to the arm , low back pain; anti inflammatory , pt; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurological Surgery	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	unknown; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; several years ago; There has been treatment or conservative therapy.; pain in back and down both legs, pain and weakness bi lateral in legs.; medications, injections, at home exercises.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurological Surgery	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	We will also proceed with a new MRI of the Lumbar spine for surgical planning due to time passed since his last imaging study.; The study requested is a Lumbar Spine MRI.; Pre-Operative Evaluation; It is not known when surgery is scheduled.	1

Neurological Surgery	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	X-Ray; The decision was made to obtain a full series of X-rays (AP,lateral,flexion,and extension) of the lumbar spine My personal reading and interpretation of this study shows: 1.Mild degenerative changes, worse at L5/S1; The study requested is a Lumbar Spine MRI.; Neurological deficits; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; Patient is s/p L5/S1 left diskectomy in 2015. She had a very difficult time recovering from surgery but has been doing well until about one year ago she started having left calf pain that has progressed to LBP and posterior left leg pain. She has no weakn; It is not known if the patient has new signs or symptoms of bladder or bowel dysfunction.; It is not known if the patient has a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	1
Neurological Surgery	Approval	72192 Computed tomography, pelvis; without contrast material	&lt; Enter answer here - or Type In Unknown If No Info Given. &gt;; This study is being ordered for a neurological disorder.; 9/1/18; There has been treatment or conservative therapy.; edema; PT, medications,; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurological Surgery	Approval	72192 Computed tomography, pelvis; without contrast material	; There is not a known tumor.; This study is being ordered as pre-operative evaluation.; "The ordering physician is NOT an oncologist, urologist, gynecologist, gastroenterologist or surgeon or PCP ordering on behalf of a specialist who has seen the patient."; There is NO known pelvic infection.; This is a request for a Pelvis CT.; Yes this is a request for a Diagnostic CT	1
Neurological Surgery	Approval	72192 Computed tomography, pelvis; without contrast material	; This study is being ordered for some other reason than the choices given.; This is a request for a Pelvis CT.; Yes this is a request for a Diagnostic CT	1

Neurological Surgery	Approval	72196 Magnetic resonance (eg, proton) imaging, pelvis; with contrast material(s)	Continues to have point tenderness over sciatic nerve over right lower buttock area MRI scan lumbar spine was negative. Will get MRI of the lumbar plexus will also send over to Neurology for 2nd opinion concerning her peripheral neuropathy. Her reflex is ; This is a request for a Pelvis MRI.; The request is not for any of the listed indications.	1
Neurological Surgery	Approval	72196 Magnetic resonance (eg, proton) imaging, pelvis; with contrast material(s)	This is a request for a Pelvis MRI.; The request is for suspicion of pelvic inflammatory disease or abscess.	1
Neurological Surgery	Approval	72196 Magnetic resonance (eg, proton) imaging, pelvis; with contrast material(s)	This is well known patient to me s/p L5/S1 far lateral discectomy and then left L5/S1 decompression and fusion for left leg pain in the L5 distribution. Unfortunately she is still having L5 radiculopathy. We will obtain an MRI lumbar spine w/wo, MRI lumba; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 2-23-2017; There has been treatment or conservative therapy.; This 49 year old female presents with S/P Left L5/S1 Decompression and Fusion. She still complains of posterior left leg pain. She also complains of numbness and tingling in the left leg. This occurs daily. She has some relief initially but pain is back ; 5 INJECTIONS 2017&#x0D; 2 SURGERIES 2017&#x0D; PHYSICAL THERAPY &#x0D; AND MEDICATIONS 2017&#x0D; AND BONE STIMULATOR; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

Neurological Surgery	Approval	72196 Magnetic resonance (eg, proton) imaging, pelvis; with contrast material(s)	We reviewed the MRI scan demonstrating bulging discs at L4-5 L5-S1. Incidentally noted a huge Tarlov cyst over the sacrum with significant bony remodeling will get the MRI scan of the sacrum and return to clinic to be on the safe side.; This is a request for a Pelvis MRI.; The study is being ordered for joint pain or suspicion of joint or bone infection.; The study is being ordered for tail bone pain or injury.	1
Neurological Surgery	Approval	73220 Magnetic resonance (eg, proton) imaging, upper extremity, other than joint; without contrast material(s), followed by contrast material(s) and further sequences	The request is for an upper extremity non-joint MRI.; This is a preoperative or recent postoperative evaluation.	1
Neurological Surgery	Approval	73220 Magnetic resonance (eg, proton) imaging, upper extremity, other than joint; without contrast material(s), followed by contrast material(s) and further sequences	The request is for an upper extremity non-joint MRI.; This is not a preoperative or recent postoperative evaluation.; There is not suspicion of upper extremity neoplasm or tumor or metastasis.; There is no suspicion of upper extremity bone or soft tissue infection.; The ordering physician is not an orthopedist.; There is not a history of upper extremity trauma or injury.	1
Neurological Surgery	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		2
Neurological Surgery	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	The requested study is a Shoulder MRI.; Study being ordered due to non-acute or chronic pain.; The patient has completed and failed a course of conservative treatment of at least 4 weeks.; The ordering physician is an orthopedist.	1
Neurological Surgery	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	The requested study is a Shoulder MRI.; Study being ordered due to non-acute or chronic pain.; The patient has completed and failed a course of conservative treatment of at least 4 weeks.; The ordering physician is not an orthopedist.; There is documented findings of severe pain on motion.	5

Neurological Surgery	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	The requested study is a Shoulder MRI.; Study being ordered for post-operative evaluation.; The ordering physician is not an orthopedist.; It is not known if there are documented findings of joint infection.; There are documented physical or plain film findings of delayed or failed healing.	1
Neurological Surgery	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	The requested study is a Shoulder MRI.; The pain is described as chronic; The request is for shoulder pain.; The physician has directed conservative treatment for the past 6 weeks.; The patient has completed 6 weeks of physical therapy?	2
Neurological Surgery	Approval	73721 Magnetic resonance (eg, proton) imaging, any joint of lower extremity; without contrast material	This is a requests for a hip MRI.; The member has failed a 4 week course of conservative management in the past 3 months.; The hip pain is chronic.; The request is for hip pain.	2
Neurological Surgery	Approval	73721 Magnetic resonance (eg, proton) imaging, any joint of lower extremity; without contrast material	This is a requests for a hip MRI.; This study is not being ordered in conjunction with a pelvic MRI.; "There is no a history (within the last six months) of significant trauma, dislocation, or injury to the hip."; There is not a suspicion of AVN.; The patient is not receiving long-term steroid therapy (Prednisone or Cortisone).; The patient does not have an abnormal plain film study of the hip other than arthritis.; The patient has not used a cane or crutches for greater than four weeks.; The patient has been treated with and failed a course of supervised physical therapy.; The patient has a documented limitation of their range of motion.	1
Neurological Surgery	Approval	74150 Computed tomography, abdomen; without contrast material	This is a request for a CT abdomen to evaluate lumboperitoneal shunt to rule out shunt tubing breakage or kinking. Patient with upper abdominal swelling, pain, tenderness on palpation. This is new onset and worsening.; This is a request for an Abdomen CT.; This study is being ordered as a pre-op or post op evaluation.; The requested study is for post-operative evaluation.; The requested study is not a first follow up study for a post operative complication.; Yes this is a request for a Diagnostic CT	1

Neurological Surgery	Approval	74150 Computed tomography, abdomen; without contrast material	This is a request for a CT abdomen to evaluate lumboperitoneal shunt tubing to evaluate for kinking or breakage. Patient is having shunt malfunction with signs of increased intracranial pressure. Opening pressure during lumbar puncture was 30 cm H2O; This is a request for an Abdomen CT.; This study is being ordered for another reason besides Kidney/Ureteral stone, &#x0D; Known Tumor, Cancer, Mass, or R/O metastases, Suspicious Mass or Tumor, Organ Enlargement, &#x0D; Known or suspected infection such as pancreatitis, etc..; There are no findings of Hematuria, Lymphadenopathy,weight loss,abdominal pain,diabetic patient with gastroparesis; Yes this is a request for a Diagnostic CT	1
Neurological Surgery	Approval	74174 Computed tomographic angiography, abdomen and pelvis, with contrast material(s), including noncontrast images, if performed, and image postprocessing	This is a request for CT Angiography of the Abdomen and Pelvis.	1
Neurological Surgery	Approval	74175 Computed tomographic angiography, abdomen, with contrast material(s), including noncontrast images, if performed, and image postprocessing	; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Neurological Surgery	Approval	75635 Computed tomographic angiography, abdominal aorta and bilateral iliofemoral lower extremity runoff, with contrast material(s), including noncontrast images, if performed, and image postprocessing	Yes, this is a request for CT Angiography of the abdominal arteries.	1
Neurological Surgery	Approval	76390 Magnetic resonance spectroscopy	This is a request for MRS.	1

Neurological Surgery	Disapproval	70450 Computed tomography, head or brain; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for a brain/head CT.; Changing neurologic symptoms best describes the reason that I have requested this test.	1
Neurological Surgery	Disapproval	70450 Computed tomography, head or brain; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for a brain/head CT.; Known or suspected blood vessel abnormality (AVM, aneurysm) with documented new or changing signs and or symptoms best describes the reason that I have requested this test.; This is NOT a Medicare member.	3
Neurological Surgery	Disapproval	70450 Computed tomography, head or brain; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for a brain/head CT.; 'None of the above' best describes the reason that I have requested this test.; None of the above best describes the reason that I have requested this test.	1
Neurological Surgery	Disapproval	70450 Computed tomography, head or brain; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for a brain/head CT.; Recent (in the past month) head trauma with neurologic symptoms/findings best describes the reason that I have requested this test.	1
Neurological Surgery	Disapproval	70450 Computed tomography, head or brain; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for a brain/head CT.; The headache's character is unknown.; Headache best describes the reason that I have requested this test.	1
Neurological Surgery	Disapproval	70450 Computed tomography, head or brain; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for a brain/head CT.; The patient has a chronic headache, longer than one month; Headache best describes the reason that I have requested this test.	1
Neurological Surgery	Disapproval	70450 Computed tomography, head or brain; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for a brain/head CT.; The patient has a known brain tumor.; Known or suspected tumor best describes the reason that I have requested this test.; There are documented neurologic findings suggesting a primary brain tumor.; This is NOT a Medicare member.	2
Neurological Surgery	Disapproval	70450 Computed tomography, head or brain; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for a brain/head CT.; The patient has Fluid on the brain (hydrocephalus).; Known or suspected congenital anomaly best describes the reason that I have requested this test.; None of the above best describes the reason that I have requested this test.	1

Neurological Surgery	Disapproval	70496 Computed tomographic angiography, head, with contrast material(s), including noncontrast images, if performed, and image postprocessing	Radiology Services Denied Not Medically Necessary	Yes, this is a request for CT Angiography of the brain.	1
Neurological Surgery	Disapproval	70540 Magnetic resonance (eg, proton) imaging, orbit, face, and/or neck; without contrast material(s)	Radiology Services Denied Not Medically Necessary	; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 10/2016; There has been treatment or conservative therapy.; left sided neck pain with left arm pain, stops at elbow; PT, Surgery on neck &#x0D; muscle relaxer&#x0D; NSAID's &#x0D; Tylenol&#x0D; pain medication; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurological Surgery	Disapproval	70544 Magnetic resonance angiography, head; without contrast material(s)	Radiology Services Denied Not Medically Necessary	There is not an immediate family history of aneurysm.; The patient does not have a known aneurysm.; The patient has had a recent MRI or CT for these symptoms.; There has not been a stroke or TIA within the past two weeks.; This is a request for a Brain MRA.	1
Neurological Surgery	Disapproval	70544 Magnetic resonance angiography, head; without contrast material(s)	Radiology Services Denied Not Medically Necessary	There is not an immediate family history of aneurysm.; The patient does not have a known aneurysm.; The patient has not had a recent MRI or CT for these symptoms.; There has not been a stroke or TIA within the past two weeks.; This is a request for a Brain MRA.	4
Neurological Surgery	Disapproval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Radiology Services Denied Not Medically Necessary	9 month S/P resection right PF meningioma. No recurrent mass on current studies. She has incisional pain but otherwise is fairing well. Neuro - intact. F/U 6 months with new MRI head with gado. She has ongoing LB issues. Xrays incl flex ext today demonstr; This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The patient has a chronic or recurring headache.	1

Neurological Surgery	Disapproval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Radiology Services Denied Not Medically Necessary	Pt. has h/a's, worsening w/movement-no relief w/pain meds, C-Spine shows Chiari malformation-possible surgery needed, Chiari decompression.; This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The patient has a chronic or recurring headache.	1
Neurological Surgery	Disapproval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Radiology Services Denied Not Medically Necessary	This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The headache is described as chronic or recurring.; It is not known if the headache is presenting with a sudden change in severity, associated with exertion, or a mental status change.; There are recent neurological symptoms or deficits such as one sided weakness, speech impairments, or vision defects.	1
Neurological Surgery	Disapproval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Radiology Services Denied Not Medically Necessary	This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Requested for evaluation of tumor; A biopsy has been completed to determine tumor tissue type.	2
Neurological Surgery	Disapproval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Radiology Services Denied Not Medically Necessary	unknown; This request is for a Brain MRI; This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The study is being requested for evaluation of a headache.; The headache is described as chronic or recurring.; This headache is not described as sudden, severe or chronic recurring.; The headache is not presenting with a sudden change in severity, associated with exertion, or a mental status change.; It is not known if the headache is presenting with a sudden change in severity, associated with exertion, or a mental status change.; There are recent neurological symptoms or deficits such as one sided weakness, speech impairments, or vision defects.; There are not recent neurological symptoms or deficits such as one sided weakness, speech impairments, or vision defects.; There is not a family history (parent, sibling or child of the patient) of AVM (arteriovenous malformation).	1

Neurological Surgery	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	Periodic evaluation of known fractures from MVA; This study is being ordered for trauma or injury.; MVA 07/06/2017; There has been treatment or conservative therapy.; Post MVA with a C6 facet and laminar fracture. He also has a kyphotic deformity at C5 on top of an old C6-7 fusion. Limited range of motion; PHYSICAL THERAPY, MEDICATIONS, COLLARS, ICE, HEAT, LIFE STYLE CHANGES; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurological Surgery	Disapproval	72125 Computed tomography, cervical spine; without contrast material	Radiology Services Denied Not Medically Necessary	; This study is not to be part of a Myelogram.; This is a request for a Cervical Spine CT; There is no reason why the patient cannot have a Cervical Spine MRI.	1
Neurological Surgery	Disapproval	72125 Computed tomography, cervical spine; without contrast material	Radiology Services Denied Not Medically Necessary	Cannot rise from feet without assistance. Significant kyphosis. Positive sagittal balance. Unable to stand straight. Broad base of disc herniation.; This study is being ordered for Inflammatory/ Infectious Disease.; 08/22/2017; There has been treatment or conservative therapy.; Pain that radiates down right and left posterior thigh, knee, and anterior calf. Constant and aggravated with activity. Weakness and difficulty walking.; Ten weeks of conservative management for the back. Injections as well. Medication. Ice packs and heat.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurological Surgery	Disapproval	72125 Computed tomography, cervical spine; without contrast material	Radiology Services Denied Not Medically Necessary	evaluating patient for osteophytic neural foraminal stenosis; This study is not to be part of a Myelogram.; This is a request for a Cervical Spine CT; There is no reason why the patient cannot have a Cervical Spine MRI.	1

Neurological Surgery	Disapproval	72125 Computed tomography, cervical spine; without contrast material	Radiology Services Denied Not Medically Necessary	Extreme weakness L arm and hand. Pre op scheduled for R shoulder surgery 1/9/18; The patient does have neurological deficits.; It is not known if the patient has failed a course of anti-inflammatory medication or steroids.; This study is not to be part of a Myelogram.; This is a request for a Cervical Spine CT; This study is being ordered due to chronic neck pain or suspected degenerative disease.; There has not been a supervised trial of conservative management for at least 6 weeks.; The patient is experiencing sensory abnormalities such as numbness or tingling.; There is a reason why the patient cannot have a Cervical Spine MRI.; This study is being ordered for another reason besides Abnormal gait, Lower extremity weakness, Asymmetric reflexes, Documented evidence of Multiple Sclerosis, &#x0D; Bowel or bladder dysfunction, Evidence of new foot drop, etc...	1
Neurological Surgery	Disapproval	72125 Computed tomography, cervical spine; without contrast material	Radiology Services Denied Not Medically Necessary	No info given.; This study is not to be part of a Myelogram.; This is a request for a Cervical Spine CT; There is no reason why the patient cannot have a Cervical Spine MRI.	1
Neurological Surgery	Disapproval	72125 Computed tomography, cervical spine; without contrast material	Radiology Services Denied Not Medically Necessary	Periodic evaluation of known fractures from MVA; This study is being ordered for trauma or injury.; MVA 07/06/2017; There has been treatment or conservative therapy.; Post MVA with a C6 facet and laminar fracture. He also has a kyphotic deformity at C5 on top of an old C6-7 fusion. Limited range of motion; PHYSICAL THERAPY, MEDICATIONS, COLLARS, ICE, HEAT, LIFE STYLE CHANGES; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurological Surgery	Disapproval	72125 Computed tomography, cervical spine; without contrast material	Radiology Services Denied Not Medically Necessary	Pt suffers with neurological deficits and pain.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1

Neurological Surgery	Disapproval	72125 Computed tomography, cervical spine; without contrast material	Radiology Services Denied Not Medically Necessary	Pt taking meds, Ibuprofen, clozapam, Hydrocodone, Tylenol, Flexerill, Pt states pain is severe; This study is being ordered for a neurological disorder.; 03/01/2018; There has not been any treatment or conservative therapy.; pain in neck radiates to the bottom of skull, numbness and tingling in arms and fingers, positive Arthrilgais back pain, gait problems, joint swelling, weakness, numbness, and headaches; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurological Surgery	Disapproval	72125 Computed tomography, cervical spine; without contrast material	Radiology Services Denied Not Medically Necessary	same as what was typed in the last box; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 01/17/2018; There has been treatment or conservative therapy.; persistent pain after surgery with subsequent fall after surgery with return of pre-surgical pain and tingling and numbness of upper extremities; post op complications and also subsequent fall after surgery with return of pre-surgical symptoms of pain, tingling to extremities; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurological Surgery	Disapproval	72125 Computed tomography, cervical spine; without contrast material	Radiology Services Denied Not Medically Necessary	The patient does have neurological deficits.; This study is not to be part of a Myelogram.; This is a request for a Cervical Spine CT; This study is being ordered due to chronic neck pain or suspected degenerative disease.; There is a reason why the patient cannot have a Cervical Spine MRI.; The patient is experiencing or presenting symptoms of Lower extremity weakness.	1

Neurological Surgery	Disapproval	72125 Computed tomography, cervical spine; without contrast material	Radiology Services Denied Not Medically Necessary	This study is to be part of a Myelogram.; This is a request for a Cervical Spine CT	1
				Cannot rise from feet without assistance. Significant kyphosis. Positive sagittal balance. Unable to stand straight. Broad base of disc herniation.; This study is being ordered for Inflammatory/ Infectious Disease.; 08/22/2017; There has been treatment or conservative therapy.; Pain that radiates down right and left posterior thigh, knee, and anterior calf. Constant and aggravated with activity. Weakness and difficulty walking.; Ten weeks of conservative management for the back. Injections as well. Medication. Ice packs and heat.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT	
Neurological Surgery	Disapproval	72128 Computed tomography, thoracic spine; without contrast material	Radiology Services Denied Not Medically Necessary	Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurological Surgery	Disapproval	72128 Computed tomography, thoracic spine; without contrast material	Radiology Services Denied Not Medically Necessary	Pt suffers with neurological deficits and pain.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1

Neurological Surgery	Disapproval	72128 Computed tomography, thoracic spine; without contrast material	Radiology Services Denied Not Medically Necessary	she has had an extensive work up including a lot of GI studies and interventions. she has had some trigger point injections in her abdominal muscles. she has been taking tramadol and now Vicodin but the pain is getting worse. the open MRI she had reveals ; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; Approx June 2015, symptoms have gotten worse within the last 9 months; There has been treatment or conservative therapy.; deep boring pain behind her xiphoid process half way between her skin and spine. pain is sharp. she has difficulty taking a deep breath, coughing, sneezing, sitting with this pain; physical therapy, oral steroids, pain management with injections, complete work up from GI that is negative; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurological Surgery	Disapproval	72128 Computed tomography, thoracic spine; without contrast material	Radiology Services Denied Not Medically Necessary	THIS IS A PREOPERATIVE SCAN FOR SURGERY. THIS PATIENT IS SCHEDULED FOR SURGERY ON 1/26/18.; This is a request for a thoracic spine CT.; There is no reason why the patient cannot undergo a thoracic spine MRI.; Yes this is a request for a Diagnostic CT	1
Neurological Surgery	Disapproval	72131 Computed tomography, lumbar spine; without contrast material	Radiology Services Denied Not Medically Necessary	&lt; Enter answer here - or Type In Unknown If No Info Given. &gt;; This study is being ordered for a neurological disorder.; 3/7/18; There has been treatment or conservative therapy.; numbness and tingling in arms, pain; epidural injection, medication, chiropractor, heat and ice; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

Neurological Surgery	Disapproval	72131 Computed tomography, lumbar spine; without contrast material	Radiology Services Denied Not Medically Necessary	; This study is being ordered for trauma or injury.; 01/10/18; There has been treatment or conservative therapy.; Mild acute compression fractures of the T4 and T5 vertebral bodies.; Acute fracture of the T4 spinous process.; Grade 1 anterolisthesis of L5 upon S1 with bilateral pars defects.; This may be chronic. ; 10/10 mid and lower pain; oxycodone; cyclobenzaprine; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
-------------------------	-------------	--	--	---	---

Neurological Surgery	Disapproval	72131 Computed tomography, lumbar spine; without contrast material	Radiology Services Denied Not Medically Necessary	Cannot rise from feet without assistance. Significant kyphosis. Positive sagittal balance. Unable to stand straight. Broad base of disc herniation.; This study is being ordered for Inflammatory/ Infectious Disease.; 08/22/2017; There has been treatment or conservative therapy.; Pain that radiates down right and left posterior thigh, knee, and anterior calf. Constant and aggravated with activity. Weakness and difficulty walking.; Ten weeks of conservative management for the back. Injections as well. Medication. Ice packs and heat.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
-------------------------	-------------	--	--	---	---

Neurological Surgery	Disapproval	72131 Computed tomography, lumbar spine; without contrast material	Radiology Services Denied Not Medically Necessary	Pt taking meds, Ibuprofen, clozapam, Hydrocodone, Tylenol, Flexerill, Pt states pain is severe; This study is being ordered for a neurological disorder.; 03/01/2018; There has not been any treatment or conservative therapy.; pain in neck radiates to the bottom of skull, numbness and tingling in arms and fingers, positive Arthrilgais back pain, gait problems, joint swelling, weakness, numbness, and headaches; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurological Surgery	Disapproval	72131 Computed tomography, lumbar spine; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for a lumbar spine CT.; The patient does not have a history of severe low back trauma or lumbar injury.; This is not a preoperative or recent postoperative evaluation.; This study is not part of a myelogram or discogram.; The patient is experiencing symptoms of radiculopathy for six weeks or more.; Yes this is a request for a Diagnostic CT	1
Neurological Surgery	Disapproval	72131 Computed tomography, lumbar spine; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for a lumbar spine CT.; The patient has a history of severe low back trauma or lumbar injury.; Yes this is a request for a Diagnostic CT	2
Neurological Surgery	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	&lt; Enter answer here - or Type In Unknown If No Info Given. &gt;; This is a request for cervical spine MRI; Acute or Chronic neck and/or back pain; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; ARM WEAKNESS; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; There is not x-ray evidence of a recent cervical spine fracture.	1

Neurological Surgery	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	&lt; Enter answer here - or Type In Unknown If No Info Given. &gt;; This is a request for cervical spine MRI; Acute or Chronic neck and/or back pain; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; weakness of left arm 3 out of 5, radiating pain with tingling into the fingers and unable to do daily activities with his hands; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; There is not x-ray evidence of a recent cervical spine fracture.	1
Neurological Surgery	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	&lt; Enter answer here - or Type In Unknown If No Info Given. &gt;; This is a request for cervical spine MRI; Acute or Chronic neck and/or back pain; The patient does not have new or changing neurologic signs or symptoms.; The patient has had back pain for over 4 weeks.; The patient has not seen the doctor more then once for these symptoms.	1
Neurological Surgery	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	&lt; Enter answer here - or Type In Unknown If No Info Given. &gt;; This study is being ordered for a neurological disorder.; 1month ago for back pain.; There has been treatment or conservative therapy.; &lt; Describe primary symptoms here - or Type In Unknown If No Info Given &gt;; Physical therapy; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

Neurological Surgery	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	&lt; Enter answer here - or Type In Unknown If No Info Given. &gt;; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 9/21/2017; There has been treatment or conservative therapy.; BACK PAIN; injection PAIN MANGMENT MEDICATION; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurological Surgery	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Neurological Surgery	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	; This is a request for cervical spine MRI; Acute or Chronic neck and/or back pain; The patient does have new or changing neurologic signs or symptoms.; It is not known if there is weakness or reflex abnormality.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; It is not known if there is x-ray evidence of a recent cervical spine fracture.	1
Neurological Surgery	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	; This is a request for cervical spine MRI; Acute or Chronic neck and/or back pain; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; ; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; There is not x-ray evidence of a recent cervical spine fracture.	2

Neurological Surgery	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	Now with continuing difficulty with neck pain without complaints of arm pain. Will redo MRI scan cervical spine and consider doing C6-7 Marcaine disc space injection. Pending the results of the MRI scan cervical; This is a request for cervical spine MRI; Acute or Chronic neck and/or back pain; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; Tenderness:. ~Ulevel C left paraspinal. Flexion was restricted to degrees and painful . Extension was restricted to and painful.eflex and 2/4 Achilles Reflex. (Nondermatomal diminished sensation of the upper extremities as well as lower extremities as we; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; There is not x-ray evidence of a recent cervical spine fracture.	1
Neurological Surgery	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	numbness and tingling of hands and feet; This is a request for cervical spine MRI; Acute or Chronic neck and/or back pain; The patient does have new or changing neurologic signs or symptoms.; There is no weakness or reflex abnormality.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; There is not x-ray evidence of a recent cervical spine fracture.	1
Neurological Surgery	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	Patient is having severe neck and back pain. Increased falls, with numbness/tingling of all extremities. Unable to ambulate without the use of a walker.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Neurological Surgery	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	PATIENT IS SCHEDULED FOR LESI AND DR SCHLESINGER IS REQUESTING MRI FOR PROCEDURE PLANNING PURPOSES.; This is a request for cervical spine MRI; Acute or Chronic neck and/or back pain; The patient does not have new or changing neurologic signs or symptoms.; The patient has had back pain for over 4 weeks.; The patient has seen the doctor more then once for these symptoms.; It is not known if the physician has directed conservative treatment for the past 6 weeks.	1

Neurological Surgery	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	She is complaining of severe pain in her neck, thoracic spine and lumbar spine. The pain is progressively getting worse.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Neurological Surgery	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	symptoms getting progressively worse; This study is being ordered for a neurological disorder.; more than 1 year ago; There has been treatment or conservative therapy.; leg pain, numbness, tingling and weakness; bed rest, heat, PT, injection , medications; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurological Surgery	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for cervical spine MRI; Acute or Chronic neck and/or back pain; Yes, the patient demonstrate neurological deficits.; yes, there is a documented evidence of extremity weakness on physical examination.	1
Neurological Surgery	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for cervical spine MRI; There has been a supervised trial of conservative management for at least 6 weeks.; Acute or Chronic neck and/or back pain; No, the patient does not demonstrate neurological deficits.; Yes, this patient had a recent course of supervised physical Therapy.	2
Neurological Surgery	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for cervical spine MRI; There has not been a supervised trial of conservative management for at least 6 weeks.; Acute or Chronic neck and/or back pain; No, the patient does not demonstrate neurological deficits.; motor vehicle accident injured neck	1
Neurological Surgery	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	unknown; This is a request for cervical spine MRI; Acute or Chronic neck and/or back pain; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; weakness and numbness in hands; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; There is not x-ray evidence of a recent cervical spine fracture.	1

Neurological Surgery	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	unknown; This study is being ordered for a neurological disorder.; unknown; There has been treatment or conservative therapy.; numbness in the hand; joint pain; numbness in legs;; pt; botiocs injections; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurological Surgery	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	Will fax in clinicals; This is a request for cervical spine MRI; Acute or Chronic neck and/or back pain; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; Will fax in clinicals; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; There is not x-ray evidence of a recent cervical spine fracture.	1
Neurological Surgery	Disapproval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	Radiology Services Denied Not Medically Necessary	There are no documented clinical findings of immune system suppression.; This is a request for a thoracic spine MRI.; The patient is not experiencing back pain associated with abdominal pain.; The caller indicated the the study was not ordered for: Chronic Back pain, Trauma, Known or suspected tumor with or without metastasis, Follow up to or Pre-operative evaluation, or Neurological deficits."; middle and low back pain with new onset of LLE numbness and weakness	1
Neurological Surgery	Disapproval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	Radiology Services Denied Not Medically Necessary	&lt; Enter answer here - or Type In Unknown If No Info Given. &gt;; This study is being ordered for a neurological disorder.; 6/16; There has been treatment or conservative therapy.; &lt; Describe primary symptoms here - or Type In Unknown If No Info Given &gt;; physical; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

Neurological Surgery	Disapproval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	Radiology Services Denied Not Medically Necessary	; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
				; This is a request for a thoracic spine MRI.; Neurological deficits; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; numbness between shoulder blades; It is not known if the patient has new signs or symptoms of bladder or bowel dysfunction.; It is not known if the patient has a new foot drop.; There is recent evidence of a thoracic spine fracture.	
Neurological Surgery	Disapproval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	Radiology Services Denied Not Medically Necessary		1
				she has had an extensive work up including a lot of GI studies and interventions. she has had some trigger point injections in her abdominal muscles. she has been taking tramadol and now Vicodin but the pain is getting worse. the open MRI she had reveals ; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; Approx June 2015, symptoms have gotten worse within the last 9 months; There has been treatment or conservative therapy.; deep boring pain behind her xiphoid process half way between her skin and spine. pain is sharp. she has difficulty taking a deep breath, coughing, sneezing, sitting with this pain; physical therapy, oral steroids, pain management with injections, complete work up from GI that is negative; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT	
Neurological Surgery	Disapproval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	Radiology Services Denied Not Medically Necessary	Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
				She is complaining of severe pain in her neck, thoracic spine and lumbar spine. The pain is progressively getting worse.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	
Neurological Surgery	Disapproval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	Radiology Services Denied Not Medically Necessary		1

Neurological Surgery	Disapproval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	Radiology Services Denied Not Medically Necessary	The patient does have neurological deficits.; This is a request for a thoracic spine MRI.; The study is being ordered due to chronic back pain or suspected degenerative disease.; &lt;Enter Additional Clinical Information&gt;; The patient is experiencing or presenting symptoms of lower extremity weakness documented on physical exam.	1
Neurological Surgery	Disapproval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	Radiology Services Denied Not Medically Necessary	The patient does have neurological deficits.; This is a request for a thoracic spine MRI.; The study is being ordered due to chronic back pain or suspected degenerative disease.; ; The patient is experiencing or presenting symptoms of lower extremity weakness documented on physical exam.	1
Neurological Surgery	Disapproval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	Radiology Services Denied Not Medically Necessary	The patient does have neurological deficits.; This is a request for a thoracic spine MRI.; The study is being ordered due to chronic back pain or suspected degenerative disease.; 32 year old female with a host of symptoms including neck pain, memory issues , weakness falls, multiple joint aches and family history of Lupus. Last MRI with relatively normal tonsils and no crowding. Som issues with occasional dizziness.&#x0D; ROS ? Lupus, ; The patient is experiencing or presenting symptoms of lower extremity weakness documented on physical exam.	1
Neurological Surgery	Disapproval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	Radiology Services Denied Not Medically Necessary	The patient does have neurological deficits.; This is a request for a thoracic spine MRI.; The study is being ordered due to chronic back pain or suspected degenerative disease.; The patient is experiencing or presenting symptoms of abnormal gait.	1
Neurological Surgery	Disapproval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for a thoracic spine MRI.; "The patient has been seen by, or the ordering physician is, a neuro-specialist, orthopedist, or oncologist."; The study is being ordered due to follow-up to surgery or fracture within the last 6 months.	1

Neurology	Approval	70540 Magnetic resonance (eg, proton) imaging, orbit, face, and/or neck; without contrast material(s)		1
Neurology	Approval	70540 Magnetic resonance (eg, proton) imaging, orbit, face, and/or neck; without contrast material(s)	; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1

Neurology	Approval	70540 Magnetic resonance (eg, proton) imaging, orbit, face, and/or neck; without contrast material(s)	intermittent shocking sharp pain over left side of her face. Moderate in intensity when occurs, no current pain. Ongoing for one month. Exacerbated by cold, touching or hot sensations to her face. Relieved by time. Reports on abx from urgent care. States; This study is being ordered for a neurological disorder.; Unknown; There has been treatment or conservative therapy.; She states some misalignment of her L jaw as well, with clicking, that could be TMJ. ; rash (face gets really red). ; tinnitus; headaches; intermittent shocking sharp pain over left side of her face. Moderate in intensity when occurs, no current pain. On; female with clinical trigeminal neuralgia, controlled by Tegretol TID now, though she was prescribed BID. She states some misalignment of her L jaw as well, with clicking, that could be TMJ. She hasn't seen a dentist for it.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurology	Approval	70540 Magnetic resonance (eg, proton) imaging, orbit, face, and/or neck; without contrast material(s)	There is not a suspicion of an infection or abscess.; This examination is being requested to evaluate lymphadenopathy or mass.; This is a request for an Orbit MRI.; There is not a history of orbit or face trauma or injury.	1
Neurology	Approval	70540 Magnetic resonance (eg, proton) imaging, orbit, face, and/or neck; without contrast material(s)	There is not a suspicion of an infection or abscess.; This examination is NOT being requested to evaluate lymphadenopathy or mass.; There is not a suspicion of a bone infection (osteomyelitis).; There is a suspicion of an orbit or face neoplasm, tumor, or metastasis.; This is a request for an Orbit MRI.; There is not a history of orbit or face trauma or injury.	2

Neurology	Approval	70544 Magnetic resonance angiography, head; without contrast material(s)	&lt; Enter answer here - or Type In Unknown If No Info Given. &gt;; This study is being ordered for a metastatic disease.; There are 3 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurology	Approval	70544 Magnetic resonance angiography, head; without contrast material(s)	&lt; Enter answer here - or Type In Unknown If No Info Given. &gt;; This study is being ordered for a neurological disorder.; 02/03/2017; There has been treatment or conservative therapy.; headaches/vision loss/parathesia; Meds/spinal tap; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurology	Approval	70544 Magnetic resonance angiography, head; without contrast material(s)	&lt; Enter answer here - or Type In Unknown If No Info Given. &gt;; This study is being ordered for a neurological disorder.; 03/2015; There has been treatment or conservative therapy.; &gt;right facial drop right eye drooping. right sided weakness,; medication,; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

Neurology	Approval	70544 Magnetic resonance angiography, head; without contrast material(s)	&lt; Enter answer here - or Type In Unknown If No Info Given. &gt;; This study is being ordered for a neurological disorder.; 10/17; There has not been any treatment or conservative therapy.; weakness, migraines, decreased strength and grip, left foot drop; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurology	Approval	70544 Magnetic resonance angiography, head; without contrast material(s)	&lt; Enter answer here - or Type In Unknown If No Info Given. &gt;; This study is being ordered for a neurological disorder.; 2 weeks ago; There has not been any treatment or conservative therapy.; memory lost.....dizziness; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurology	Approval	70544 Magnetic resonance angiography, head; without contrast material(s)	&lt; Enter answer here - or Type In Unknown If No Info Given. &gt;; This study is being ordered for a neurological disorder.; 8/15/17; There has been treatment or conservative therapy.; &lt; Describe primary symptoms here - or Type In Unknown If No Info Given &gt;; medication; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurology	Approval	70544 Magnetic resonance angiography, head; without contrast material(s)	; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	3

Neurology	Approval	70544 Magnetic resonance angiography, head; without contrast material(s)	<p>; This study is being ordered for a neurological disorder.; may 2017; There has been treatment or conservative therapy.; visual and balance issues, very unsteady; ; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology</p>	1
Neurology	Approval	70544 Magnetic resonance angiography, head; without contrast material(s)	<p>; This study is being ordered for a neurological disorder.; WILL JUST UPLOAD NOTES; There has been treatment or conservative therapy.; ; ; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology</p>	1

Neurology	Approval	70544 Magnetic resonance angiography, head; without contrast material(s)	<p>For: (I63.30) Cerebral infarction due to thrombosis of cerebral artery and (H47.539) Disorder of visual pathways in vascular disorder, unspecified side; 1. MRI brain without contrast; 2. MRA head without contrast.; This study is being ordered for Vascular Disease.; This 44 year old male presents with stroke.; Mr. Ridgle returns to the clinic today for follow up on stroke. He has started to have a similar pain along the occipital region of his head as he did during his stroke. This will last for about 3-5 minutes and; There has been treatment or conservative therapy.; 44 year old man with HTN, DM, HLD, and morbid obesity with left sided infarct with resultant right hemianopsia and mild aphasia. He is now having worsening headaches and changes in his vision.; Plan:; For: (I63.30) Cerebral infarction due to thrombosis of cerebral artery and (H47.539) Disorder of visual pathways in vascular disorder, unspecified side; 1. MRI brain without contrast; 2. MRA head without contrast; 3. Advised to return to have yearly eye exam; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology</p>	1
Neurology	Approval	70544 Magnetic resonance angiography, head; without contrast material(s)	<p>G44.009 Atypical cluster headache, R/O TUMOR; Problem #1: Worsening headaches. She describes a pain at the vertex of her head which has gotten worse and is a bit of a change from her prior headache pattern. She wanted to submit for an MRI of her brain ; There is not an immediate family history of aneurysm.; The patient does not have a known aneurysm.; The patient has not had a recent MRI or CT for these symptoms.; There has not been a stroke or TIA within the past two weeks.; This is a request for a Brain MRA.</p>	1

Neurology	Approval	70544 Magnetic resonance angiography, head; without contrast material(s)	<p>headache came on just after orgasm and was severe in nature. She describes the pain as being very intense and frontal and described as a severe pressure sensation. This would last approximately 3-4 minutes before lessening. Around the same time, she also n; This study is being ordered for a neurological disorder.; Nov 2017; There has been treatment or conservative therapy.; Primary headache associated with sexual activity; limit stimulants; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology</p>	1
Neurology	Approval	70544 Magnetic resonance angiography, head; without contrast material(s)	<p>Ms. Paige U Harris is a 20 y.o. female with cerebral venous sinus thrombosis treated, and had a symptomatic seizure, likely due to the infarct from the CSVT. Cont Keppra Paige U Harris, 20 y.o. old African American female who had been diagnosed with ulcer; There is not an immediate family history of aneurysm.; The patient does not have a known aneurysm.; The patient has not had a recent MRI or CT for these symptoms.; There has not been a stroke or TIA within the past two weeks.; This is a request for a Brain MRA.</p>	1
Neurology	Approval	70544 Magnetic resonance angiography, head; without contrast material(s)	<p>Pt suffers with headaches, and a history transverse venous sinus thrombosis.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.</p>	1

Neurology	Approval	70544 Magnetic resonance angiography, head; without contrast material(s)	<p>She reports onset of headaches around June 2017 that started initially as pain in her left ear associated with left-sided headache. She states that it has been worse over the past several weeks. She tells me that she has a pain in her left ear and the sen; This study is being ordered for a metastatic disease.; There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology</p>	1
Neurology	Approval	70544 Magnetic resonance angiography, head; without contrast material(s)	<p>The pain is located at the back of the neck in the upper part and then goes all around the head. The pain duration varies, recently she had the pain lasted for 42 hrs. On average the pain last for about a day. She describes the pain is constant ache. She ; This study is being ordered for trauma or injury.; 01/01/2008; There has been treatment or conservative therapy.; Neck pain is going since 2008, Migraine, The pain is located at the back of the neck in the upper part and then goes all around the head. The pain duration varies, recently she had the pain lasted for 42 hrs. On average the pain last for about a day. She ; Medications: She tried Maxalt, lmitrex, relpax did not help. She is on Topamax 50 mg in the morning and she is taking Nortryptaline 100 mg at night. She feels nortryptaline is helping probably helping her sleep. She gets Dilaudid and phenergan and iv flui; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology</p>	1
Neurology	Approval	70544 Magnetic resonance angiography, head; without contrast material(s)	<p>There is an immediate family history of aneurysm.; This is a request for a Brain MRA.</p>	9

Neurology	Approval	70544 Magnetic resonance angiography, head; without contrast material(s)	There is not an immediate family history of aneurysm.; The patient does not have a known aneurysm.; The patient has had a recent MRI or CT for these symptoms.; There has been a stroke or TIA within the past 2 weeks.; This is a request for a Brain MRA.	2
Neurology	Approval	70544 Magnetic resonance angiography, head; without contrast material(s)	There is not an immediate family history of aneurysm.; The patient does not have a known aneurysm.; The patient has had a recent MRI or CT for these symptoms.; There has not been a stroke or TIA within the past two weeks.; This is a request for a Brain MRA.	6
Neurology	Approval	70544 Magnetic resonance angiography, head; without contrast material(s)	There is not an immediate family history of aneurysm.; The patient does not have a known aneurysm.; The patient has not had a recent MRI or CT for these symptoms.; There has been a stroke or TIA within the past 2 weeks.; This is a request for a Brain MRA.	7
Neurology	Approval	70544 Magnetic resonance angiography, head; without contrast material(s)	There is not an immediate family history of aneurysm.; The patient does not have a known aneurysm.; The patient has not had a recent MRI or CT for these symptoms.; There has not been a stroke or TIA within the past two weeks.; This is a request for a Brain MRA.	6
Neurology	Approval	70544 Magnetic resonance angiography, head; without contrast material(s)	This is a request for a head and neck MR Angiogram.; There is not an immediate family history of aneurysm.; The patient does not have a known aneurysm.; The patient has not had a recent MRI or CT for these symptoms.; There has not been a stroke or TIA within the past two weeks.; "There is a sudden onset of one-sided weakness, speech impairment, vision defects or severe dizziness."; This patient does not have an abnormal ultrasound of the neck.	1
Neurology	Approval	70544 Magnetic resonance angiography, head; without contrast material(s)	Will just upload notes.; There is not an immediate family history of aneurysm.; The patient does not have a known aneurysm.; The patient has had a recent MRI or CT for these symptoms.; There has not been a stroke or TIA within the past two weeks.; This is a request for a Brain MRA.	1

Neurology	Approval	70547 Magnetic resonance angiography, neck; without contrast material(s)	&lt; Enter answer here - or Type In Unknown If No Info Given. &gt;; This study is being ordered for a metastatic disease.; There are 3 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurology	Approval	70547 Magnetic resonance angiography, neck; without contrast material(s)	&lt; Enter answer here - or Type In Unknown If No Info Given. &gt;; This study is being ordered for Vascular Disease.; 12/29/2017; There has not been any treatment or conservative therapy.; HEADACHE VISUAL DISTURBANCE;; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurology	Approval	70547 Magnetic resonance angiography, neck; without contrast material(s)	The patient has had a recent MRI or CT for these symptoms.; This is a request for a Neck MR Angiography. The patient has not had a recent MRI or CT for these symptoms.; There has been a stroke or TIA within the past 2 weeks.; This is a request for a Neck MR Angiography.	1
Neurology	Approval	70547 Magnetic resonance angiography, neck; without contrast material(s)	The patient has not had a recent MRI or CT for these symptoms.; There has not been a stroke or TIA within the past two weeks.; "There is a sudden onset of one-sided weakness, speech impairment, vision defects or severe dizziness."; This is a request for a Neck MR Angiography.	2
Neurology	Approval	70547 Magnetic resonance angiography, neck; without contrast material(s)	This is a request for a head and neck MR Angiogram.; There is not an immediate family history of aneurysm.; The patient does not have a known aneurysm.; The patient has not had a recent MRI or CT for these symptoms.; There has not been a stroke or TIA within the past two weeks.; "There is a sudden onset of one-sided weakness, speech impairment, vision defects or severe dizziness."; This patient does not have an abnormal ultrasound of the neck.	1

Neurology	Approval	70547 Magnetic resonance angiography, neck; without contrast material(s)	This is a request for a Neck MR Angiography.; The patient had an ultrasound (doppler) of the neck or carotid arteries.; The ultrasound showed stenosis (narrowing) of the artery.	1
Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		4
Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	&lt; Enter answer here - or Type In Unknown If No Info Given. &gt;; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
			&lt; Enter answer here - or Type In Unknown If No Info Given. &gt;; This request is for a Brain MRI; It is unknown if the study is being requested for evaluation of a headache.; Not requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation,multiple sclerosis, or seizures; It is not known if the condition is associated with headache, blurred or double vision or a change in sensation noted on exam.; It is not known if a metabolic work-up done including urinalysis, electrolytes, and complete blood count with results completed.; The patient does NOT have dizziness, fatigue or malaise, Bell's Palsy, a congenital abnormality, loss of smell, hearing loss or vertigo.	2
Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		
Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	&lt; Enter answer here - or Type In Unknown If No Info Given. &gt;; This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The headache is described as chronic or recurring.; The headache is not presenting with a sudden change in severity, associated with exertion, or a mental status change.; There are not recent neurological symptoms or deficits such as one sided weakness, speech impairments, or vision defects.; There is not a family history (parent, sibling or child of the patient) of AVM (arteriovenous malformation).	1

Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	&lt; Enter answer here - or Type In Unknown If No Info Given. &gt;; This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The headache is described as sudden and severe.; There are NO recent neurological deficits on exam such as one sided weakness, speech impairments or vision defects.; There is not a new and sudden onset of a headache less than 1 week not improved by medications.; There is not a family history (parent, sibling, or child) of stroke, aneurysm, or AVM (arteriovenous malformation)	2

Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	.MRI of the head done October 27, 2017 at St. Bernard shows mass in the left cavernous sinus protruding into the sphenoid sinus. Extends into the sella and displaces the glands of the right. More likely cavernous sinus source that is a pituitary mass. Dif; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Not requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation,multiple sclerosis, or seizures; The condition is not associated with headache, blurred or double vision or a change in sensation noted on exam.; A metabolic work-up done including urinalysis, electrolytes, and complete blood count with results was not completed.; The patient does NOT have dizziness, fatigue or malaise, Bell's Palsy, a congenital abnormality, loss of smell, hearing loss or vertigo.	1
Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	14
Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	; This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The headache is described as chronic or recurring.; The headache is not presenting with a sudden change in severity, associated with exertion, or a mental status change.; There are not recent neurological symptoms or deficits such as one sided weakness, speech impairments, or vision defects.; It is not known if there is a family history (parent, sibling or child of the patient) of AVM (arteriovenous malformation).	1
Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	; This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The patient does not have a sudden severe, chronic or recurring or a thunderclap headache.	1
Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	; This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The patient has a chronic or recurring headache.	6

Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	; This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The patient has dizziness.; The patient has a sudden and severe headache.; The patient had a recent onset (within the last 3 months) of neurologic symptoms.	2
Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	; This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The patient has vision changes.; The patient has a sudden and severe headache.; The patient had a recent onset (within the last 3 months) of neurologic symptoms.	1
Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; It is unknown if the patient had a recent onset (within the last 4 weeks) of neurologic symptoms.; This study is being ordered for Multiple Sclerosis.; It is unknown if this study is being ordered as a 12 month annual follow up.; The patient has new symptoms.	1
Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Not requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation,multiple sclerosis, or seizures; The condition is not associated with headache, blurred or double vision or a change in sensation noted on exam.; A metabolic work-up done including urinalysis, electrolytes, and complete blood count with results completed.; The lab results were normal; The patient is experiencing fatigue or malaise.	1

Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Not requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation,multiple sclerosis, or seizures; The condition is not associated with headache, blurred or double vision or a change in sensation noted on exam.; A metabolic work-up done including urinalysis, electrolytes, and complete blood count with results was not completed.; The patient does NOT have dizziness, fatigue or malaise, Bell's Palsy, a congenital abnormality, loss of smell, hearing loss or vertigo.	1
Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Not requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation,multiple sclerosis, or seizures; The condition is not associated with headache, blurred or double vision or a change in sensation noted on exam.; It is not known if a metabolic work-up done including urinalysis, electrolytes, and complete blood count with results completed.; The patient is experiencing fatigue or malaise.	1
Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Requested for evaluation of Multiple Sclerosis; It is not known if the patient has undergone treatment for multiple sclerosis.; It is not known if there are intermittent or new neurological symptoms or deficits such as one-sided weakness, speech impairments, or vision defects.	1
Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Requested for evaluation of seizures; It is not known if there has been a previous Brain MRI completed.	1
Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Requested for evaluation of seizures; There has been a previous Brain MRI completed.; The results of the previous brain MRI are unknown.	1

Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; The patient does not have dizziness, fatigue or malaise, sudden change in mental status, Bell's palsy, Congenital abnormality, loss of smell, hearing loss or vertigo.; It is unknown why this study is being ordered.	2
Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; The patient does not have dizziness, one sided arm or leg weakness, the inability to speak, or vision changes.; The patient had a recent onset (within the last 4 weeks) of neurologic symptoms.; This study is being ordered for Multiple Sclerosis.; The patient has new symptoms.	2
Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; The patient has Bell's Palsy.; It is unknown why this study is being ordered.	1
Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; The patient has dizziness.; It is unknown why this study is being ordered.	2
Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; The patient has vertigo.; It is unknown why this study is being ordered.	1
Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; The patient has vision changes.; The patient had a recent onset (within the last 4 weeks) of neurologic symptoms.; This study is being ordered for trauma or injury.	1
Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	; This study is being ordered for a neurological disorder.; ; There has been treatment or conservative therapy.; ; ; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	; This study is being ordered for a neurological disorder.; ; There has not been any treatment or conservative therapy.; ; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	; This study is being ordered for a neurological disorder.; 03/13/17; There has been treatment or conservative therapy.; ; ; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	; This study is being ordered for a neurological disorder.; 1/19/2018; There has been treatment or conservative therapy.; weakness shortness of breathe dyspnea headache and insomnia; medications pain relievers; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	; This study is being ordered for a neurological disorder.; may 2017; There has been treatment or conservative therapy.; visual and balance issues, very unsteady; ; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	<p>; This study is being ordered for a neurological disorder.; WILL JUST UPLOAD NOTES; There has been treatment or conservative therapy.; ; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology</p>	2
Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	<p>; This study is being ordered for Inflammatory/ Infectious Disease.; THIS IS FOR FOLLOW UP WITH PATIENT WITH KNOWN MS. HOWEVER THESE DAYS DOUBLE STUDY + BLUE CROSS = AUTOMATIC REVIEW. WILL JUST FAX NOTES.; There has been treatment or conservative therapy.; ; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology</p>	1
Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	<p>2.&amp;#x0D; Assessment&amp;#x0D; Neck pain (M54.2).&amp;#x0D; &amp;#x0D; Patient Plan&amp;#x0D; We will acquire a follow-up MRI brain scan to ensure stability of her meningioma. She will also need MRI imaging of the neck to rule out focal disc extrusions or other structural abnormalities. She mig; This study is being ordered for a metastatic disease.; There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology</p>	1

Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	<p>35-year-old lady with a couple of upper motor neuron findings on exam. She has had a significant workup that it has been in years past. Her symptoms been present since her second C-section. Because of the APB and upgoing toe on the right I am concerned; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; The patient does not have dizziness, one sided arm or leg weakness, the inability to speak, or vision changes.; The patient had a recent onset (within the last 4 weeks) of neurologic symptoms.; This study is being ordered for Multiple Sclerosis.; The patient has new symptoms.</p>	1
-----------	----------	--	--	---

Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	<p>35-year-old with acute onset of transverse myelitis with a prior episode of vertigo, Her symptoms are terribly suspicious for possible MS. At this point time she does have a family history on with her sister having MS. I do think she an MRI brain C-spine ; This study is being ordered for Congenital Anomaly.; 35-year-old with acute onset of transverse myelitis with a prior episode of vertigo, Her symptoms are terribly suspicious for possible MS. At this point time she does have a family history on with her sister having MS; There has not been any treatment or conservative therapy.; we will not prescribe any medications we have a better idea of what were dealing with; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology</p>	1
-----------	----------	--	--	---

Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	44-year-old lady with intracerebral hemorrhage after trauma. I will repeat her MRI. Try to get her previous neurologist records. She also has benign paroxysmal positional vertigo. We performed a Epley maneuver to the left today. I gave her the instru; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; The patient has dizziness.; The patient had a recent onset (within the last 4 weeks) of neurologic symptoms.; This study is being ordered for trauma or injury.	1
Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	45 years old right handed male, who presents with 3 years history of slowing of gait, stumbling, shuffling and off balance. No falls. He also noted difficulties with fine motor skills such as getting dressed, tightening his shoes and buttoning his shirt. ; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Not requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation,multiple sclerosis, or seizures; The condition is not associated with headache, blurred or double vision or a change in sensation noted on exam.; A metabolic work-up done including urinalysis, electrolytes, and complete blood count with results completed.; The lab results were normal; The patient does NOT have dizziness, fatigue or malaise, Bell's Palsy, a congenital abnormality, loss of smell, hearing loss or vertigo.	1

Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	<p>54 year old woman with daily and worsening headaches, tenderness to touch throughout her body, sleep problems, and history or reported CTS.; This study is being ordered for a neurological disorder.; several years for headaches &amp;#x0D; &amp;#x0D; neck pain and other symptoms for last 3 years; There has been treatment or conservative therapy.; migraines that are triggered by weathered, stress, cold, and heat that become more severe. &amp;#x0D; &amp;#x0D; neck pain w numbness and tingling in upper extremities.; medications for both migraines and neck pain with pain management and carpal tunnel injections.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDS specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology</p>	1
-----------	----------	--	---	---

Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	<p>59 year old woman with parkinsonism, likely vascular. She has a fairly classic tremor and gait but otherwise quick movements and normal volume and facial expression. She did not improve with Sinemet but has with propranolol. She reports some memory issues; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Not requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation, multiple sclerosis, or seizures; The condition is not associated with headache, blurred or double vision or a change in sensation noted on exam.; It is not known if a metabolic work-up done including urinalysis, electrolytes, and complete blood count with results completed.; The patient is experiencing dizziness.</p>	1
-----------	----------	--	--	---

Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	6MOS FOLLOW UP ; Provider Plan; Stable, time for lab and MR brain. IF stable, fu 6 mo. 1. Assessment; Multiple sclerosis (G35).; Provider Plan 06/14/2017 VISIT; she is stable onTecfidera. her labs are also stable with a normal lymphocyte count. ; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; This study is being ordered for Multiple Sclerosis.; This study is NOT being ordered as a 12 month annual follow up.; This is a routine follow up.	1
Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Abnormal brain MRI; This study is being ordered for a neurological disorder.; &lt; Enter date of initial onset here - or Type In Unknown If No Info Given &gt;; There has not been any treatment or conservative therapy.; tingling, weakness, there was an abnormal Brain MRI; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	absent seizures.; This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The patient has a chronic or recurring headache.	1
Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Acute unilateral hearing loss with constant headache for the past year after undergoing diving concerns me for some sort of barotrauma.; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Not requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation,multiple sclerosis, or seizures; It is not known if the patient had a normal audiogram.; The patient is experiencing hearing loss.	1

Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Arachnoid Cyst; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Requested for evaluation of tumor; A biopsy has not been completed to determine tumor tissue type.; There are not recent neurological symptoms such as one-sided weakness, speech impairments, or vision defects.; There is not a new and sudden onset of headache (less than 1 week) not improved by pain medications.; The tumor is not a pituitary tumor or pituitary adenoma.	1
Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	At this point in time I would recommend that we get an MRI of the brain and orbits to make sure there is nothing else neurologically going on involving the trigeminal nerve distribution. We'll also do a sedimentation rate, ANA, CRP and CBC. I discussed wi; This study is being ordered for a neurological disorder.; 12/29/2017; There has been treatment or conservative therapy.; her right side over the last 3 weeks she has had a constellation of symptoms including constant pain that is more than just a deep ache above the right eye and retro-orbital he. Her vision has not been impaired. She also has had intermittent sharp pains s; She has been taking gabapentin for pain; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Cerebral infarction; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Closed head injury with migraine headaches and dizziness.; This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The patient has dizziness.; The patient has a sudden and severe headache.; The patient had a recent onset (within the last 3 months) of neurologic symptoms.	1

Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	<p>concussion; This request is for a Brain MRI; The study is being requested for evaluation of a headache.; This headache is not described as sudden, severe or chronic recurring.; It is not known if the headache is presenting with a sudden change in severity, associated with exertion, or a mental status change.; It is not known if there are recent neurological symptoms or deficits such as one sided weakness, speech impairments, or vision defects.; It is not known if there is a family history (parent, sibling or child of the patient) of AVM (arteriovenous malformation).</p>	1
Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	<p>CONTINUOUS HEADACHES; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 6-01-2017; There has not been any treatment or conservative therapy.; &amp;lt; Describe primary symptoms here - or Type In Unknown If No Info Given &amp;gt;; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology</p>	1
Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	<p>cystic lesion dorsal to the splenium of the corpus callosum measuring 5 x 3 mm could represent small arachnoid cyst or potentially cystic encephalomalacia from prior splenule injury. Suggest a six-month follow-up brain MRI with and without contrast to ens; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Requested for evaluation of tumor; A biopsy has not been completed to determine tumor tissue type.; There are not recent neurological symptoms such as one-sided weakness, speech impairments, or vision defects.; There is not a new and sudden onset of headache (less than 1 week) not improved by pain medications.; The tumor is not a pituitary tumor or pituitary adenoma.</p>	1

Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Description: Nonintractable headache, unspecified chronicity pattern, unspecified headache type (R51). The patient has worsening headaches. Some of the headaches do have migrainous features, but there are some other concerning features to her history in; This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The patient has a chronic or recurring headache.	1
-----------	----------	--	--	---

Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Diminished concentration; difficulty with short term memory; had staring spells; blood work done 01/26/2018.; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Not requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation, multiple sclerosis, or seizures; The condition is not associated with headache, blurred or double vision or a change in sensation noted on exam.; It is not known if a metabolic work-up done including urinalysis, electrolytes, and complete blood count with results completed.; The patient does NOT have dizziness, fatigue or malaise, Bell's Palsy, a congenital abnormality, loss of smell, hearing loss or vertigo.	1

Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	For: (R25.1) Tremor, unspecified; 1. MRI brain without contrast. Pending this and labwork, will consider either Propranolol or Topamax.; Assessment/ Plan; 62 year old man with a C6 radiculopathy that is likely the etiology of his shoulder complaints. He; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Not requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation, multiple sclerosis, or seizures; The condition is not associated with headache, blurred or double vision or a change in sensation noted on exam.; It is not known if a metabolic work-up done including urinalysis, electrolytes, and complete blood count with results completed.; The patient does NOT have dizziness, fatigue or malaise, Bell's Palsy, a congenital abnormality, loss of smell, hearing loss or vertigo.	1
Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	HA AFTER TBI; This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The patient has a chronic or recurring headache.	1
Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	history of left ica dissection /occlusion, history of stroke; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Requested for evaluation of stroke or aneurysm; There are not recent neurological symptoms such as one sided weakness, speech impairments, or vision defects.; There is not a family history (parent, sibling or child of the patient) of AVM (arteriovenous malformation).	1

Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Hospital seizure followup; On neurological examination he does not have any focal deficits; History consistent with epilepsy. Complex partial seizure with secondary generalization; I will obtain MRI and EEG; I will start him on Keppra. Reviewed side ; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Requested for evaluation of seizures; It is not known if there has been a previous Brain MRI completed.	1
Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	I am concerned about some new examination findings. He has a left upper extremity pronator drift, left sided hyperreflexia, and upgoing plantar response on the left hand side. I worry about stroke in the interim; We have also not obtained an updated ; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Requested for evaluation of seizures; There has been a previous Brain MRI completed.; The brain MRI was normal.	1
Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	I will also send for MRI of the brain to look for any underlying structural abnormality that could be contributing. I will also look at his MRI of the brain and MRI of the cervical spine given his intermittent right hemibody numbness.; This study is being ordered for a neurological disorder.; 1/2/2016; There has been treatment or conservative therapy.; numbness, memory loss,sensory neuropathy, cognitive impairment; CT head done 10/3/2017; insulin for diabetes; referred to counseling prn;; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	<p>I will obtain an MRI of the brain, cervical and thoracic spine with and without contrast to look for any evidence of multiple sclerosis disease progression. For now, he will continue Copaxone 20 mg daily, but we'll discuss whether we need to move to a mor; This study is being ordered for a neurological disorder.; Diagnosed with multiple sclerosis in 2004.; There has been treatment or conservative therapy.; relapsing remitting multiple sclerosis and migraines he has had new symptoms of right arm and leg numbness since his last visit; Medications tried:&amp;#x0D; - Topamax 25 mg bid&amp;#x0D; - Magnesium 250 mg bid&amp;#x0D; - Tylenol &amp;#x0D; - sumatriptan did not really help&amp;#x0D; - Fioricet usually works&amp;#x0D; - Decadron (made him agitated); One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology</p>	1
Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	<p>Impression&amp;#x0D; 'Dizziness" that consists of oscillopsia. All of this may relate to eye imbalance, but associated occipital pressure is worrisome for a posterior fossa lesion. MRI of the brain and ophthalmology evaluation are requested.; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; The patient has dizziness.; It is unknown why this study is being ordered.</p>	1
Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	<p>In the last 2 days, she has been feeling tremulous on the inside (nothing visible) on the outside ... The dyesthesias continue. Ms. Rachel Jean Stewart is a 24 y.o. female with cervicgia and arm heaviness, now having spells of facial numbness, pupillar; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; The patient has dizziness.; The patient had a recent onset (within the last 4 weeks) of neurologic symptoms.; This study is being ordered for Multiple Sclerosis.; The patient has new symptoms.</p>	1

Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	INCREASED FALLS, URINARY INCONSTINENCE, LOSS OF CONSCIENCES, LIGHT HEADEDNESS, LOWER BACK AND MUSCLE STIFFNESS, HIP FLEXORS; This study is being ordered for a neurological disorder.; AUG 2017; There has been treatment or conservative therapy.; LOWER EXTREMITY PAIN AND NUMBNESS, PARATHESIA, SPINAL CORD LESION CONCERN; MEDICATIONS; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	increased frequency and worsening symptoms; This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The patient has a chronic or recurring headache.	1
Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Increased reflexes on the left as compared to the right, in the setting of positive liver meets, certainly concerning for cervical pathology, anything from cervical stenosis, cord compression, demyelinating event such as transverse myelitis or multiple sc; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Not requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation,multiple sclerosis, or seizures; The condition is not associated with headache, blurred or double vision or a change in sensation noted on exam.; It is not known if a metabolic work-up done including urinalysis, electrolytes, and complete blood count with results completed.; The patient does NOT have dizziness, fatigue or malaise, Bell's Palsy, a congenital abnormality, loss of smell, hearing loss or vertigo.	1

Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	<p>intermittent shocking sharp pain over left side of her face. Moderate in intensity when occurs, no current pain. Ongoing for one month. Exacerbated by cold, touching or hot sensations to her face. Relieved by time. Reports on abx from urgent care. States; This study is being ordered for a neurological disorder.; Unknown; There has been treatment or conservative therapy.; She states some misalignment of her L jaw as well, with clicking, that could be TMJ. ; rash (face gets really red). ; tinnitus; headaches; intermittent shocking sharp pain over left side of her face. Moderate in intensity when occurs, no current pain. On; female with clinical trigeminal neuralgia, controlled by Tegretol TID now, though she was prescribed BID. She states some misalignment of her L jaw as well, with clicking, that could be TMJ. She hasn't seen a dentist for it.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MD's specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology</p>	1
-----------	----------	--	--	---

Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	<p>Ischemic stroke, reasonable suspicion of embolic to right occipital lobe, underlying atrial fibrillation Left frontal lobe lesion that may represent underlying meningioma; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Not requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation, multiple sclerosis, or seizures; It is not known if the condition is associated with headache, blurred or double vision or a change in sensation noted on exam.; It is not known if a metabolic work-up done including urinalysis, electrolytes, and complete blood count with results completed.; The patient does NOT have dizziness, fatigue or malaise, Bell's Palsy, a congenital abnormality, loss of smell, hearing loss or vertigo.</p>	1
-----------	----------	--	--	---

Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	known multiple sclerosis, annual MRI.; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 03/08/2017; There has been treatment or conservative therapy.; Paresthesia of skin; Rebif; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	LAST MRI 2014. Additional information: Tolerating Dilantin 300mg per day, Clonazepam 1mg PRN, and Vimpat 200mg bid. No neg side effects to medications. Last seizure 2012. Takes lamictal for bi-polar. Has finished college. May go back to grad school. Has; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Requested for evaluation of seizures; There has been a previous Brain MRI completed.; The brain MRI was normal.	1
Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	long history of headaches with recent change in character the headaches. causing some component the dizziness as well as the cognitive impairment; This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The patient has dizziness.; The patient has a sudden and severe headache.; The patient had a recent onset (within the last 3 months) of neurologic symptoms.	1
Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Memory loss, aphasia; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Requested for evaluation of seizures; There has been a previous Brain MRI completed.; The results of the previous brain MRI are unknown.	1
Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Memory loss, confusion; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; The patient has a sudden change in mental status.; It is unknown why this study is being ordered.	1

Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	memory loss; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Not requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation, multiple sclerosis, or seizures; The condition is not associated with headache, blurred or double vision or a change in sensation noted on exam.; It is not known if a metabolic work-up done including urinalysis, electrolytes, and complete blood count with results completed.; The patient does NOT have dizziness, fatigue or malaise, Bell's Palsy, a congenital abnormality, loss of smell, hearing loss or vertigo.	1
Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Migraine headaches with visual disturbance; This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The patient has vision changes.; The patient has a sudden and severe headache.; The patient had a recent onset (within the last 3 months) of neurologic symptoms.	1
Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	migraines.; This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The patient has dizziness.; The patient has a sudden and severe headache.; The patient had a recent onset (within the last 3 months) of neurologic symptoms.	1
Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	migraines; This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The patient has a chronic or recurring headache.	1
Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Mr. Cody W Rice is a 24 y.o. male with motor tics affecting the face primarily, but sometimes shoulders and neck. An increase in Klonopin was offered, but he countered memory loss with it. We can try Risperidone instead.; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; The patient does not have dizziness, fatigue or malaise, sudden change in mental status, Bell's palsy, Congenital abnormality, loss of smell, hearing loss or vertigo.; It is unknown why this study is being ordered.	1

Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Mr.Thomas is now 31 year old right handed male with history, signs and symptoms of Multiple Sclerosis and a touch of depression.&#x0D; Differential Diagnoses include Inflammatory disease Acute disseminated encephalomyelitis Behcet disease Granulomatosis angiit; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Ms. Pamela Moore is a 60 y.o. female ended up with pneumonia 3 times between 2016 and 2017, and after treatment, ended up with enough weakness in the LEs to the point that she had to quit her job. She couldn't stand very long anymore. There was a lot of ; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; The patient has dizziness.; The patient had a recent onset (within the last 4 weeks) of neurologic symptoms.; This study is being ordered for Multiple Sclerosis.; The patient has new symptoms.	1
Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Ms. Sandra S Dobson is a 57 y.o. female who had seen Dr Gustafson for memory loss, but at the time, she had a lot of things happening in her life. Dr Gustafson discussed the possibility of tests, but they decided to wait until she got through the stress ; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Not requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation,multiple sclerosis, or seizures; The condition is not associated with headache, blurred or double vision or a change in sensation noted on exam.; It is not known if a metabolic work-up done including urinalysis, electrolytes, and complete blood count with results completed.; The patient is experiencing fatigue or malaise.	1

Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	<p>Ms. Susan R Scott is a 61 y.o. right-handed white female with PMH below, being seen for the above complaints. The patient reports that she's had some long and short-term memory changes going on for possibly 4/2-5 years and gradually getting worse. She is ; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Not requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation,multiple sclerosis, or seizures; The condition is not associated with headache, blurred or double vision or a change in sensation noted on exam.; It is not known if a metabolic work-up done including urinalysis, electrolytes, and complete blood count with results completed.; The patient is experiencing fatigue or malaise.</p>	1
-----------	----------	--	--	---

Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	<p>numbness and tingling.; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Not requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation,multiple sclerosis, or seizures; The condition is not associated with headache, blurred or double vision or a change in sensation noted on exam.; A metabolic work-up done including urinalysis, electrolytes, and complete blood count with results completed.; The lab results were normal; The patient is experiencing dizziness.</p>	1
-----------	----------	--	--	---

Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	<p>Parkinson's disease for 3 yrs. Symptoms are worsening, right foot drop and tremors are getting worse.; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Not requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation, multiple sclerosis, or seizures; The condition is not associated with headache, blurred or double vision or a change in sensation noted on exam.; A metabolic work-up done including urinalysis, electrolytes, and complete blood count with results was not completed.; The patient does NOT have dizziness, fatigue or malaise, Bell's Palsy, a congenital abnormality, loss of smell, hearing loss or vertigo.</p>	1
Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	<p>patient has a previous abnormal MRI. This is a follow up to determine if there is a change on imaging.; This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The headache is described as chronic or recurring.; The headache is not presenting with a sudden change in severity, associated with exertion, or a mental status change.; There are not recent neurological symptoms or deficits such as one sided weakness, speech impairments, or vision defects.; There is not a family history (parent, sibling or child of the patient) of AVM (arteriovenous malformation).</p>	1

Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	patient has multiple sclerosis assess disease and recent exacerbation; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 12/01/2014; There has been treatment or conservative therapy.; right lower extremity sensory changes and weakness, right hand weakness, blurry vision; medication,; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	PATIENT HAS PARKINSON DISEASE; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Not requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation,multiple sclerosis, or seizures; The condition is not associated with headache, blurred or double vision or a change in sensation noted on exam.; A metabolic work-up done including urinalysis, electrolytes, and complete blood count with results was not completed.; The patient does NOT have dizziness, fatigue or malaise, Bell's Palsy, a congenital abnormality, loss of smell, hearing loss or vertigo.	1
Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	POOR MEMORY:&#x0D; Mrs. Watson indicates that she feels that her memory is good or at least age- consistent and that her family has not noticed a particular problem. An aunt-in law is with her and says really the family has not noticed particular memory probl; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; The patient has dizziness.; The patient had a recent onset (within the last 4 weeks) of neurologic symptoms.; This study is being ordered for stroke or TIA (transient ischemic attack).	1

Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	<p>Problem #1: Worsening headaches. She describes a pain at the vertex of her head which has gotten worse and is a bit of a change from her prior headache pattern. She wanted to submit for an MRI of her brain with contrast and given this is a change/worse; This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The patient has a sudden and severe headache.; The patient has NOT had a recent onset (within the last 3 months) of neurologic symptoms.</p>	1
-----------	----------	--	--	---

Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	<p>PT HAS HAD A NEUROLOGIC EVALUATION RECENTLY IN RUSSIA FOR THIS PROBLEM AND HAS RECORDS WITH HER. PT STATES THAT SYMPTOMS ARE PERSISTENT AND WORSENING.; This study is being ordered for a neurological disorder.; pt reports that symptoms began approx. seven years and was first evaluated by neurology in Russia 12/2017; There has been treatment or conservative therapy.; ; records from a neurology evaluation in Russia indicate that pt was evaluated with an EEG, ultrasound of the carotid arteries which showed stenosis of up to 65% in both vertebral arteries, and mri of brain which revealed "signs of encephalopathy and hydro; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology</p>	1
-----------	----------	--	---	---

Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Pt has had cardiac eval. and has had multiple medications tried for syncope without success and is now being referred to neurology from cardiology for neurologic eval of symptoms; This study is being ordered for a neurological disorder.; May of 2017; There has been treatment or conservative therapy.; Alteration in awareness, vision changes, unable to respond to verbal stimuli, dizziness.; Pt has been evaluated by Cardiology. With a head up tilt table test, Cardiac Cath. , echo and ep study, pt has been tried on multiple meds by cardiology for treatment of syncope without success; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Pt has right trigeminal neuroglia. She has sensory change on the right side of her face along with numbness and pain.; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; The patient does not have dizziness, fatigue or malaise, sudden change in mental status, Bell's palsy, Congenital abnormality, loss of smell, hearing loss or vertigo.; It is unknown why this study is being ordered.	1
Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Pt is experiencing post traumatic seizures; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Requested for evaluation of seizures; There has been a previous Brain MRI completed.; The results of the previous brain MRI are unknown.	1

Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Pt is s/p fall with head trauma July of 2017 and has since had severe intermittent headaches which she explains as feeling as if her head will explode , spells of weakness, dizziness and vision changes.; This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The patient has vision changes.; The patient has a sudden and severe headache.; The patient had a recent onset (within the last 3 months) of neurologic symptoms.	1
Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Pt says he is loosing his short term memory; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Requested due to trauma or injury.; There are not new, intermittent symptoms or deficits such as one sided weakness, speech impairments, or vision defects.; The trauma or injury to the head ocured more than 1 week ago.	1
Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Pt suffers with headaches, and a history tranverse venus sinus thrombosis.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Pt who already sees our clinic for Restless leg syndrome and Peripheral neuropathy with parenthesis and gait instability is now beginning to experience memory disturbance. We would like a new MRI to make sure everything is clear.; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Not requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation,multiple sclerosis, or seizures; The condition is not associated with headache, blurred or double vision or a change in sensation noted on exam.; A metabolic work-up done including urinalysis, electrolytes, and complete blood count with results was not completed.; The patient does NOT have dizziness, fatigue or malaise, Bell's Palsy, a congenital abnormality, loss of smell, hearing loss or vertigo.	1

Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	pts headaches have not responded to medications and we are wanting to r/o ms so we cant start different treatment; This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The patient has a chronic or recurring headache.	1
Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	R/O lesions or tumors on brain and spine; This study is being ordered for a neurological disorder.; &lt; Enter date of initial onset here - or Type In Unknown If No Info Given &gt;; There has been treatment or conservative therapy.; headaches, and tremors; OTC inflammatory, and nerve blocks; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Requested Exam&#x0D; Requested Exam: MRI - 70553 MRI BRAIN W/O & W/DYE&#x0D; Anticipated Date: 02/13/2018&#x0D; Reporting: Routine Reporting&#x0D; Signed STARK form: Yes&#x0D; (or valid exception noted in Additional Info)&#x0D; Additional Info: &#x0D; &#x0D; Clinical Information&#x0D; History; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Not requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation,multiple sclerosis, or seizures; The condition is not associated with headache, blurred or double vision or a change in sensation noted on exam.; A metabolic work-up done including urinalysis, electrolytes, and complete blood count with results was not completed.; The patient does NOT have dizziness, fatigue or malaise, Bell's Palsy, a congenital abnormality, loss of smell, hearing loss or vertigo.	1

Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	She has strong family history of seizures in father&#x0D; Her EEG is typical for spike adn polyspike waves indicating epileptogenicity; This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The patient has a chronic or recurring headache.	1
Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	she reports 4 days history of numbness from her waist line down to both lower extremities with weakness in both legs. She reports difficulties with walking and balance.&#x0D; &#x0D; No symptoms in her upper extremities. No visual disturbance, no speech dysfunction,; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	She reports last week she had a sudden loss of consciousness and fell off her porch. Unsure how long she was out. She was alone. She had right sided facial drooping and numbness afterwards. Resolved after about 4 hours. This is the first time she has had ; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; The patient has dizziness.; The patient had a recent onset (within the last 4 weeks) of neurologic symptoms.; This study is being ordered for stroke or TIA (transient ischemic attack).	1
Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	She reports onset of headaches around June 2017 that started initially as pain in her left ear associated with left-sided headache. She states that it has been worse over the past several weeks. She tells me that she has a pain in her left ear and the sen; This study is being ordered for a metastatic disease.; There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	symptoms are getting worse; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
-----------	----------	--	--	---

The pain is located at the back of the neck in the upper part and then goes all around the head. The pain duration varies, recently she had the pain lasted for 42 hrs. On average the pain last for about a day. She describes the pain is constant ache. She ; This study is being ordered for trauma or injury.; 01/01/2008; There has been treatment or conservative therapy.; Neck pain is going since 2008, Migraine, The pain is located at the back of the neck in the upper part and then goes all around the head. The pain duration varies, recently she had the pain lasted for 42 hrs. On average the pain last for about a day. She ; Medications: She tried Maxalt, Imitrex, relpax did not help. She is on Topamax 50 mg in the morning and she is taking Nortryptaline 100 mg at night. She feels nortryptaline is helping probably helping her sleep. She gets Dilaudid and phenergan and iv flui; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology

Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
-----------	----------	--	--	---

Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	<p>The patient returns for her seizure disorder. She denies any seizures since she was last here and is compliant with her Keppra. He still takes her vitamin B6 supplements. She is seeing a chiropractor who apparently obtained plain skull film and wants t; This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The headache is described as chronic or recurring.; The headache is not presenting with a sudden change in severity, associated with exertion, or a mental status change.; There are not recent neurological symptoms or deficits such as one sided weakness, speech impairments, or vision defects.; There is not a family history (parent, sibling or child of the patient) of AVM (arteriovenous malformation).</p>	1
-----------	----------	--	--	---

Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	<p>This 49 year old female presents with memory problems.&amp;#x0D; Ms. Daniels is a 49 year old woman who comes to the clinic today for evaluation of memory problems. She has been having memory problems for about the last year and a half. About 1 year ago she was at; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Not requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation,multiple sclerosis, or seizures; The condition is not associated with headache, blurred or double vision or a change in sensation noted on exam.; It is not known if a metabolic work-up done including urinalysis, electrolytes, and complete blood count with results completed.; The patient does NOT have dizziness, fatigue or malaise, Bell's Palsy, a congenital abnormality, loss of smell, hearing loss or vertigo.</p>	1
-----------	----------	--	--	---

Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	<p>This 51 year old male presents with memory difficulties. Mr. Dunn is a 51 year old man who comes to the clinic today for evaluation of memory difficulties. He has an extensive history of head injuries including MVA, motorcycle accidents, jet-ski and boat; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Not requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation, multiple sclerosis, or seizures; The condition is not associated with headache, blurred or double vision or a change in sensation noted on exam.; A metabolic work-up done including urinalysis, electrolytes, and complete blood count with results was not completed.; The patient does NOT have dizziness, fatigue or malaise, Bell's Palsy, a congenital abnormality, loss of smell, hearing loss or vertigo.</p>	1
Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	<p>This 60 year old female presents with seizures. Ms. Lee returns to the clinic today for follow up on seizures. Since weaning off of her Keppra she has started to feel better. While she was taking Keppra she would feel sleepy and drugged throughout the day; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Requested for evaluation of seizures; There has been a previous Brain MRI completed.; The brain MRI was normal.</p>	1

Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	This is for tracking MS, these questions are irrelevant not to mention this is a triple study so that means automatic review. Will just upload notes.; This study is being ordered for a neurological disorder.; 01/15/2017; There has been treatment or conservative therapy.; This is for tracking MS, these questions are irrelevant not to mention this is a triple study so that means automatic review. Will just upload notes.; This is for tracking MS, these questions are irrelevant not to mention this is a triple study so that means automatic review. Will just upload notes.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	This request is for a Brain MRI; It is unknown if the study is being requested for evaluation of a headache.; Not requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation, multiple sclerosis, or seizures; The condition is associated with headache, blurred or double vision or a change in sensation noted on exam.; The patient is experiencing vertigo	1
Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	This request is for a Brain MRI; It is unknown if the study is being requested for evaluation of a headache.; Requested for evaluation of tumor; It is not known if a biopsy has been completed to determine tumor tissue type.; There are recent neurological symptoms such as one-sided weakness, speech impairments, or vision defects.	1
Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The headache is described as chronic or recurring.; It is not known if the headache is presenting with a sudden change in severity, associated with exertion, or a mental status change.; There are recent neurological symptoms or deficits such as one sided weakness, speech impairments, or vision defects.	1

Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The headache is described as chronic or recurring.; The headache is not presenting with a sudden change in severity, associated with exertion, or a mental status change.; There are recent neurological symptoms or deficits such as one sided weakness, speech impairments, or vision defects.	34
Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The headache is described as chronic or recurring.; The headache is presenting with a sudden change in severity, associated with exertion, or a mental status change.	154
Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The headache is described as sudden and severe.; There recent neurological deficits on exam such as one sided weakness, speech impairments or vision defects.	38
Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The patient had a thunderclap headache or worst headache of the patient's life (within the last 3 months).	6
Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The patient has one sided arm or leg weakness.; The patient has a sudden and severe headache.; The patient had a recent onset (within the last 3 months) of neurologic symptoms.	1
Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The patient has the inability to speak.; The patient has a sudden and severe headache.; The patient had a recent onset (within the last 3 months) of neurologic symptoms.	1

Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	This request is for a Brain MRI; The study is being requested for evaluation of a headache.; This headache is not described as sudden, severe or chronic recurring.; The headache is not presenting with a sudden change in severity, associated with exertion, or a mental status change.; There are recent neurological symptoms or deficits such as one sided weakness, speech impairments, or vision defects.	2
Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	This request is for a Brain MRI; The study is being requested for evaluation of a headache.; This headache is not described as sudden, severe or chronic recurring.; The headache is presenting with a sudden change in severity, associated with exertion, or a mental status change.	5
Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; There is a new and sudden onset of a headache less than 1 week not improved by medications.; The headache is described as a "thunderclap" or the worst headache of the patient's life.; Not requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation,multiple sclerosis, or seizures; The patient has Bell's Palsy.	1
Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Not requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation,multiple sclerosis, or seizures; It is not known if the condition is associated with headache, blurred or double vision or a change in sensation noted on exam.; A metabolic work-up done including urinalysis, electrolytes, and complete blood count with results completed.; The lab results were abnormal; The patient is experiencing dizziness.	1

Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Not requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation,multiple sclerosis, or seizures; The condition is associated with headache, blurred or double vision or a change in sensation noted on exam.; The patient does NOT have dizziness, fatigue or malaise, Bell's Palsy, a congenital abnormality, loss of smell, hearing loss or vertigo.	30
Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Not requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation,multiple sclerosis, or seizures; The condition is associated with headache, blurred or double vision or a change in sensation noted on exam.; The patient is experiencing dizziness.	20
Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Not requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation,multiple sclerosis, or seizures; The condition is associated with headache, blurred or double vision or a change in sensation noted on exam.; The patient is experiencing fatigue or malaise.	4
Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Not requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation,multiple sclerosis, or seizures; The condition is associated with headache, blurred or double vision or a change in sensation noted on exam.; The patient is experiencing vertigo	3

Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Not requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation,multiple sclerosis, or seizures; The condition is not associated with headache, blurred or double vision or a change in sensation noted on exam.; A metabolic work-up done including urinalysis, electrolytes, and complete blood count with results completed.; The lab results were abnormal; The patient does NOT have dizziness, fatigue or malaise, Bell's Palsy, a congenital abnormality, loss of smell, hearing loss or vertigo.	1
Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Not requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation,multiple sclerosis, or seizures; The condition is not associated with headache, blurred or double vision or a change in sensation noted on exam.; A metabolic work-up done including urinalysis, electrolytes, and complete blood count with results completed.; The lab results were abnormal; The patient is experiencing dizziness.	1
Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Not requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation,multiple sclerosis, or seizures; The patient has not undergone treatment for a congenital abnormality (such as hydrocephalus or craniosynostosis).; There are recent neurological symptoms or deficits such as one-sided weakness, speech impairments, or vision defects.; The patient has a congenital abnormality.	2

Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Not requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation,multiple sclerosis, or seizures; The patient has undergone treatment for a congenital abnormality (such as hydrocephalus or craniosynostosis).; The patient has a congenital abnormality.	1
Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Requested due to trauma or injury.; There are new, intermittent symptoms or deficits such as one sided weakness, speech impairments, or vision defects.	4
Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Requested for evaluation of infection or inflammation; The patient does not have a fever, stiff neck AND positive laboratory findings (like elevated WBC or abnormal Lumbar puncture fluid examination that indicate inflammatory disease or an infection.; The doctor does not note on exam that the patient has delirium or acute altered mental status.; The patient does have a Brain CT showing abscess, brain infection, meningitis or encephalitis.; This is NOT a Medicare member.	1
Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Requested for evaluation of infection or inflammation; The patient has a fever, stiff neck AND positive laboratory findings (like elevated WBC or abnormal Lumbar puncture fluid examination that indicate inflammatory disease or an infection.; This is NOT a Medicare member.	1

Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Requested for evaluation of Multiple Sclerosis; The patient has not undergone treatment for multiple sclerosis.; There are intermittent or new neurological symptoms or deficits such as one-sided weakness, speech impairments, or vision defects.	20
Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Requested for evaluation of Multiple Sclerosis; The patient has undergone treatment for multiple sclerosis.	90
Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Requested for evaluation of seizures; There has been a previous Brain MRI completed.; The brain MRI was abnormal.	8
Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Requested for evaluation of seizures; There has not been a previous Brain MRI completed.	76
Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Requested for evaluation of stroke or aneurysm; It is not known if there are recent neurological symptoms such as one sided weakness, speech impairments, or vision defects.; There a family history (parent, sibling or child of the patient) of AVM (arteriovenous malformation).	1
Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Requested for evaluation of stroke or aneurysm; There are recent neurological symptoms such as one sided weakness, speech impairments, or vision defects.	29
Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Requested for evaluation of tumor; A biopsy has been completed to determine tumor tissue type.	18

Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Requested for evaluation of tumor; A biopsy has not been completed to determine tumor tissue type.; There are recent neurological symptoms such as one-sided weakness, speech impairments, or vision defects.	4
Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Requested for evaluation of tumor; It is not known if a biopsy has been completed to determine tumor tissue type.; There are recent neurological symptoms such as one-sided weakness, speech impairments, or vision defects.	1
Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; The patient has one sided arm or leg weakness.; The patient had a recent onset (within the last 4 weeks) of neurologic symptoms.; This study is being ordered for stroke or TIA (transient ischemic attack).	5
Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; The patient has the inability to speak.; The patient had a recent onset (within the last 4 weeks) of neurologic symptoms.; This study is being ordered for stroke or TIA (transient ischemic attack).	1
Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; This study is being ordered for a tumor.	4
Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; This study is being ordered for Multiple Sclerosis.; The patient is taking Tysabri (Natalizumab).	1
Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; This study is being ordered for Multiple Sclerosis.; This study is being ordered as a 12 month annual follow up.; This is a routine follow up.	5

Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; This study is being ordered for seizures.; There has been a change in seizure pattern or a new seizure.	32
Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; This study is being ordered for seizures.; There has NOT been a change in seizure pattern or a new seizure.; This is a new patient.	1
Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Tremor:Started around 6 months ago. He says they're more on resting. No problems navigating tight spaces. No falls. Sense of smell okay. No APD. No family history of tremors,Headaches: Going on for more than 15 years. Got better in the interim. Started ba; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Not requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation,multiple sclerosis, or seizures; It is not known if the condition is associated with headache, blurred or double vision or a change in sensation noted on exam.; It is not known if a metabolic work-up done including urinalysis, electrolytes, and complete blood count with results completed.; The patient does NOT have dizziness, fatigue or malaise, Bell's Palsy, a congenital abnormality, loss of smell, hearing loss or vertigo.	1
Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	unknown; This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The headache is described as chronic or recurring.; The headache is not presenting with a sudden change in severity, associated with exertion, or a mental status change.; There are not recent neurological symptoms or deficits such as one sided weakness, speech impairments, or vision defects.; There is not a family history (parent, sibling or child of the patient) of AVM (arteriovenous malformation).	1

Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Unknown; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; The patient has dizziness.; It is unknown why this study is being ordered.	1
Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	unknown; This study is being ordered for a neurological disorder.; 03/01/2018; There has been treatment or conservative therapy.; numbness, tingling, migraines; therapeutic life style changes, medication,; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	unknown; This study is being ordered for a neurological disorder.; about two Months ago.; There has been treatment or conservative therapy.; abnormal CT of head,; medications; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	unknown; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 03/2015; There has been treatment or conservative therapy.; nausea constipation and rash, new and enhancing lesion; pt was on medications; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	UNKNOWN; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; JULY 2017; There has not been any treatment or conservative therapy.; PREVIOUS BRAIN MRI SHOWED ABNORMALITIES, ARM NUMBNESS, HEADACHES; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Will fax in clinicals; This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The patient has a chronic or recurring headache.	1
Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	WILL JUST UPLOAD NOTES; This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The headache is described as chronic or recurring.; The headache is not presenting with a sudden change in severity, associated with exertion, or a mental status change.; There are not recent neurological symptoms or deficits such as one sided weakness, speech impairments, or vision defects.; There is not a family history (parent, sibling or child of the patient) of AVM (arteriovenous malformation).	1
Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	WILL JUST UPLOAD NOTES; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Not requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation, multiple sclerosis, or seizures; The condition is not associated with headache, blurred or double vision or a change in sensation noted on exam.; A metabolic work-up done including urinalysis, electrolytes, and complete blood count with results was not completed.; The patient is experiencing dizziness.	1

Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Worsening headache; This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The patient has a chronic or recurring headache.	1
Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	worsening syMPTOMS of MS; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 11/1/2016; There has been treatment or conservative therapy.; pain in left side of head, seizures, migraines, fatigue, bladder disfunction , right leg heaviness; MEDICATION; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	worsening symptoms; This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The patient has a chronic or recurring headache.	1
Neurology	Approval	71250 Computed tomography, thorax; without contrast material	Abnormal finding on examination of the chest, chest wall and or lungs describes the reason for this request.; This is a request for a Chest CT.; Yes this is a request for a Diagnostic CT	1
Neurology	Approval	71250 Computed tomography, thorax; without contrast material	Abnormal laboratory test describes the reason for this request.; This is a request for a Chest CT.; Yes this is a request for a Diagnostic CT	1
Neurology	Approval	71250 Computed tomography, thorax; without contrast material	New pt referral for myasthenia gravis.experiencing left eyelid ptosis. She was then referred to Dr. Morse. He checked the myasthenia gravis antibodies and all the antibodies including binding, blocking and modulating were elevated. She was started on Mest; A Chest/Thorax CT is being ordered.; The study is being ordered for none of the above.; This study is being ordered for non of the above.; Yes this is a request for a Diagnostic CT	1

Neurology	Approval	71250 Computed tomography, thorax; without contrast material	'None of the above' describes the reason for this request.; Another abnormality is related to the suspicion of cancer in this patient.; This is a request for a Chest CT.; This study is benign requested for suspected cancer or tumor.; Yes this is a request for a Diagnostic CT	1
Neurology	Approval	71250 Computed tomography, thorax; without contrast material 71275 Computed tomographic angiography, chest (noncoronary), with contrast material(s), including noncontrast images, if performed, and image postprocessing	unknown; This study is being ordered for a neurological disorder.; 1/19/2018; There has been treatment or conservative therapy.; Dysphasia weight loss shortness of breath and weakness; Medication pain relievers; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurology	Approval	71550 Magnetic resonance (eg, proton) imaging, chest (eg, for evaluation of hilar and mediastinal lymphadenopathy); without contrast material(s)	This study is requested to evaluate suspected pulmonary embolus.; Yes, this is a request for a Chest CT Angiography.	1
Neurology	Approval	71550 Magnetic resonance (eg, proton) imaging, chest (eg, for evaluation of hilar and mediastinal lymphadenopathy); without contrast material(s)	This is a request for a chest MRI.	2
Neurology	Approval	71550 Magnetic resonance (eg, proton) imaging, chest (eg, for evaluation of hilar and mediastinal lymphadenopathy); without contrast material(s)	This study is being ordered for a work-up of a suspicious mass.; There is radiographic or physical evidence of a lung or chest mass.; This is a request for a chest MRI.	1

Neurology	Approval	72125 Computed tomography, cervical spine; without contrast material	Ms. Glenda L Malena is a 48 y.o. female with a diagnosis of Complex Regional Pain Syndrome, from repeated occupational trauma. She was having LUE symptoms, but now has RLE symptoms, which is an atypical distribution. I would be worried about DJD with rad; This study is not to be part of a Myelogram.; This is a request for a Cervical Spine CT; Call does not know if there is a reason why the patient cannot have a Cervical Spine MRI.	1
Neurology	Approval	72125 Computed tomography, cervical spine; without contrast material	The patient does have neurological deficits.; This study is not to be part of a Myelogram.; This is a request for a Cervical Spine CT; This study is being ordered due to chronic neck pain or suspected degenerative disease.; There is a reason why the patient cannot have a Cervical Spine MRI.; The patient is experiencing or presenting symptoms of Abnormal gait.	2
Neurology	Approval	72125 Computed tomography, cervical spine; without contrast material	The patient does have neurological deficits.; This study is not to be part of a Myelogram.; This is a request for a Cervical Spine CT; This study is being ordered due to chronic neck pain or suspected degenerative disease.; There is a reason why the patient cannot have a Cervical Spine MRI.; The patient is experiencing or presenting symptoms of Evidence of new foot drop.	1
Neurology	Approval	72125 Computed tomography, cervical spine; without contrast material	The patient does have neurological deficits.; This study is not to be part of a Myelogram.; This is a request for a Cervical Spine CT; This study is being ordered due to chronic neck pain or suspected degenerative disease.; There is a reason why the patient cannot have a Cervical Spine MRI.; The patient is experiencing or presenting symptoms of Lower extremity weakness.	1
Neurology	Approval	72125 Computed tomography, cervical spine; without contrast material	This study is not to be part of a Myelogram.; This is a request for a Cervical Spine CT; This study is being ordered due to follow-up surgery or fracture within the last 6 months.; "The patient has been seen by, or the ordering physician is, a neuro-specialist, orthopedist, or oncologist."; There is a reason why the patient cannot have a Cervical Spine MRI.	1

Neurology	Approval	72125 Computed tomography, cervical spine; without contrast material	This study is not to be part of a Myelogram.; This is a request for a Cervical Spine CT; This study is being ordered due to neurological deficits.; The patient is experiencing or presenting symptoms of lower extremity motor weakness documented on physical exam.; There is a reason why the patient cannot have a Cervical Spine MRI.	2
Neurology	Approval	72128 Computed tomography, thoracic spine; without contrast material	This is a request for a thoracic spine CT.; The study is being ordered due to Neurological deficits.; There is a reason why the patient cannot undergo a thoracic spine MRI.; The patient is experiencing or presenting abnormal gait.; Yes this is a request for a Diagnostic CT	1
Neurology	Approval	72131 Computed tomography, lumbar spine; without contrast material	This is a request for a lumbar spine CT.; The patient does not have a history of severe low back trauma or lumbar injury.; This is a preoperative or recent post-operative evaluation.; Yes this is a request for a Diagnostic CT	2
Neurology	Approval	72131 Computed tomography, lumbar spine; without contrast material	This is a request for a lumbar spine CT.; The patient does not have a history of severe low back trauma or lumbar injury.; This is not a preoperative or recent postoperative evaluation.; This study is not part of a myelogram or discogram.; The patient is experiencing symptoms of radiculopathy for six weeks or more.; Yes this is a request for a Diagnostic CT	3
Neurology	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		2
Neurology	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	&lt; Enter answer here - or Type In Unknown If No Info Given. &gt;; This study is being ordered for a metastatic disease.; There are 3 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

Neurology	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	&lt; Enter answer here - or Type In Unknown If No Info Given. &gt;; This study is being ordered for a neurological disorder.; &lt; Enter date of initial onset here - or Type In Unknown If No Info Given &gt;; It is not known if there has been any treatment or conservative therapy.; NECK AND BACK PAIN HEADACHES; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurology	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	&lt; Enter answer here - or Type In Unknown If No Info Given. &gt;; This study is being ordered for a neurological disorder.; ; There has been treatment or conservative therapy.; Neck and back pain, numbness in left arm, headaches, leg pain, weakness in legs; Pain meds; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurology	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	&lt; Enter answer here - or Type In Unknown If No Info Given. &gt;; This study is being ordered for a neurological disorder.; 05/30/2012; There has been treatment or conservative therapy.; restless leg, headache, degenerative changes 6 years ago; physical therapy and meds; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

Neurology	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	&lt; Enter answer here - or Type In Unknown If No Info Given. &gt;; This study is being ordered for a neurological disorder.; 10/2017; There has been treatment or conservative therapy.; right upper back shoulder and back pain with right trunk and leg discomfort. Bladder Retention. Muscle tightness.; Physical Therapy, IV steroids, and Medications; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurology	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	&lt; Enter answer here - or Type In Unknown If No Info Given. &gt;; This study is being ordered for a neurological disorder.; 4/7/2017; There has been treatment or conservative therapy.; WEAKNESS , HEADACHES, TINGLING , BURNING SENSATION; MEDICATION /; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurology	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	&lt; Enter answer here - or Type In Unknown If No Info Given. &gt;; This study is being ordered for a neurological disorder.; 6/2017; There has been treatment or conservative therapy.; BRAIN LESIONS , HIGH TFH LEVEL, EXCESSIVE URINATION; STERIODS / MEDICATION /; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

Neurology	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	<p>&amp;lt; Enter answer here - or Type In Unknown If No Info Given. &amp;gt;; This study is being ordered for a neurological disorder.; 9/2017; There has been treatment or conservative therapy.; bilateral left extremity weakness, urinary retention, fatigue, left hand tremor; meds; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology</p>	1
-----------	----------	---	---	---

Neurology	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	<p>&amp;lt; Enter answer here - or Type In Unknown If No Info Given. &amp;gt;; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; &amp;lt; Enter date of initial onset here - or Type In Unknown If No Info Given &amp;gt;; It is not known if there has been any treatment or conservative therapy.; &amp;lt; Describe primary symptoms here - or Type In Unknown If No Info Given &amp;gt;; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology</p>	1

Neurology	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	8
Neurology	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	; This is a request for cervical spine MRI; Acute or Chronic neck and/or back pain; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; ; It is not known if the patient has new signs or symptoms of bladder or bowel dysfunction.; It is not known if there is x-ray evidence of a recent cervical spine fracture.	1
Neurology	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	; This is a request for cervical spine MRI; Acute or Chronic neck and/or back pain; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; neck pain; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; There is not x-ray evidence of a recent cervical spine fracture.	1
Neurology	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	; This is a request for cervical spine MRI; There is no laboratory or x-ray evidence of osteomyelitis.; Known or Suspected Multiple Sclerosis, Infection or abscess; There is not laboratory or x-ray evidence of meningitis.; There is not laboratory or x-ray evidence of a paraspinal abscess.; There is not laboratory or x-ray evidence of an infected disc, septic arthritis, or "discitis".	1

Neurology	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	; This study is being ordered for a neurological disorder.; ; There has been treatment or conservative therapy.; ; ; ; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurology	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	; This study is being ordered for a neurological disorder.; ; There has not been any treatment or conservative therapy.; ; ; ; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurology	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	; This study is being ordered for a neurological disorder.; 1/19/2018; There has been treatment or conservative therapy.; weakness shortness of breathe dyspnea headache and insomnia; medications pain relievers; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurology	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	; This study is being ordered for a neurological disorder.; will upload notes; There has been treatment or conservative therapy.; ; ; ; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

Neurology	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	; This study is being ordered for a neurological disorder.; YEARS AGO; There has been treatment or conservative therapy.; ; ; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurology	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	; This study is being ordered for Inflammatory/ Infectious Disease.; THIS IS FOR FOLLOW UP WITH PATIENT WITH KNOWN MS. HOWEVER THESE DAYS DOUBLE STUDY + BLUE CROSS = AUTOMATIC REVIEW. WILL JUST FAX NOTES.; There has been treatment or conservative therapy.; ; ; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurology	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; initial onset 2015 but got worse in sept if 2017. &#x0D; &#x0D; patient had an anterior cervical fusion on 10-25-17, is having numbness in all extremities; There has not been any treatment or conservative therapy.; bilateral hands and fingers numbness and tingling, grip issues and weakness in hands, and neck pain. &#x0D; unsteady gait; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

Neurology	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	<p>2. Assessment; Neck pain (M54.2). Patient Plan; We will acquire a follow-up MRI brain scan to ensure stability of her meningioma. She will also need MRI imaging of the neck to rule out focal disc extrusions or other structural abnormalities. She mig; This study is being ordered for a metastatic disease.; There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology</p>	1
-----------	----------	---	---	---

Neurology	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	<p>35-year-old with acute onset of transverse myelitis with a prior episode of vertigo, Her symptoms are terribly suspicious for possible MS. At this point time she does have a family history on with her sister having MS. I do think she an MRI brain C-spine ; This study is being ordered for Congenital Anomaly.; 35-year-old with acute onset of transverse myelitis with a prior episode of vertigo, Her symptoms are terribly suspicious for possible MS. At this point time she does have a family history on with her sister having MS; There has not been any treatment or conservative therapy.; we will not prescribe any medications we have a better idea of what were dealing with; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology</p>	1
-----------	----------	---	--	---

Neurology	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	54 year old woman with daily and worsening headaches, tenderness to touch throughout her body, sleep problems, and history or reported CTS.; This study is being ordered for a neurological disorder.; several years for headaches &#x0D; &#x0D; neck pain and other symptoms for last 3 years; There has been treatment or conservative therapy.; migraines that are triggered by weathered, stress, cold, and heat that become more severe. &#x0D; &#x0D; neck pain w numbness and tingling in upper extremities.; medications for both migraines and neck pain with pain management and carpal tunnel injections.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurology	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Abnormal brain MRI; This study is being ordered for a neurological disorder.; &lt; Enter date of initial onset here - or Type In Unknown If No Info Given &gt;; There has not been any treatment or conservative therapy.; tingling, weakness, there was an abnormal Brain MRI; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

Neurology	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	AMBETTER + DOUBLE STUDY= AUTOMATIC REVIEW. WILL JUST UPLOAD CLINICALS.; This study is being ordered for a neurological disorder.; AMBETTER + DOUBLE STUDY= AUTOMATIC REVIEW. WILL JUST UPLOAD CLINICALS.; There has not been any treatment or conservative therapy.; AMBETTER + DOUBLE STUDY= AUTOMATIC REVIEW. WILL JUST UPLOAD CLINICALS.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurology	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Carie L Cook is a 39 year old female who is here for evaluation of facial numbness. Patient reports that she has been having intermittent facial numbness/tingling for many years. It happens once every few days on right side of face and involves entire rig; This is a request for cervical spine MRI; There is no laboratory or x-ray evidence of osteomyelitis.; Known or Suspected Multiple Sclerosis, Infection or abscess; There is not laboratory or x-ray evidence of meningitis.; There is not laboratory or x-ray evidence of a paraspinal abscess.; There is not laboratory or x-ray evidence of an infected disc, septic arthritis, or "discitis".	1
Neurology	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Cerebral infarction; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1

Neurology	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	CONTINUOUS HEADACHES; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 6-01-2017; There has not been any treatment or conservative therapy.; &lt; Describe primary symptoms here - or Type In Unknown If No Info Given &gt;; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
-----------	----------	---	---	---

Neurology	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Enter answer here cervical radiculopathy, lumbar radiculopathy, neck pain, low back pain, muscle weakness upper/lower extremities. paresthsia of skin- or Type In Unknown If No Info Given.; This study is being ordered for a neurological disorder.; Enter date of initial onset here 02/26/2018- or Type In Unknown If No Info Given; It is not known if there has been any treatment or conservative therapy.; Describe primary symptoms here neck pain, low back pain, cervical radiculopathy and lumbar radiculopathy, numbness and tingling - or Type In Unknown If No Info Given; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
-----------	----------	---	--	---

Neurology	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Enter answer here TENSION HEADACHES AND CERVICAL RADICULOPATHY- or Type In Unknown If No Info Given.; This study is being ordered for a neurological disorder.; Enter date of initial onset here TENSION HEADACHES AND CERVICAL RADICULOPATHY - or Type In Unknown If No Info Given; There has been treatment or conservative therapy.; Describe primary symptoms here HEADACHES AND CERVICAL RADICULOPATHY- or Type In Unknown If No Info Given; Describe treatment / MEDICATIONS AND ER VISITIS conservative therapy here - or Type In Unknown If No Info Given; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurology	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Enter answer here ABNORMAL GAIT WITH DIFFICULTY WALKING, NUMBNESS AND TINGLING LOWER EXTREMITIES - or Type In Unknown If No Info Given.; This study is being ordered for a neurological disorder.; Enter date of initial onset here 01/15/2018 - or Type In Unknown If No Info Given; It is not known if there has been any treatment or conservative therapy.; ; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurology	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	evaluation of foot drop, bilateral neck pain and weakness. L-Spine MRI showed degenerative disc disease. Right neck stiff and tight all the time. Not able to move, goes numb and difficulty walking because of that. Dizziness, and loss of consciousness, low back; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1

Neurology	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	<p>FOLOW-UP FROM MRI PERFORMED IN 2011; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; UNKNOWN; There has been treatment or conservative therapy.; PATIENT HAS MS; UNKNOWN; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology</p>	1
Neurology	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	<p>Gait disorder (R26.9).&amp;#x0D; Dfficulty walking has been ascribed to "weakness"; however, examination today shows good strength but significant parkinsonism.&amp;#x0D; Try physical therapy and carbidopa levodopa&amp;#x0D; BAR of carbidopa levodopa was discussed.; This is a request for cervical spine MRI; Neurological deficits; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; Mrs. Watson notes that she cannot take care of herself because of weakness that has been progressive for four years and is associated with mild incontinence. Examination shows parkinsonian features. Formally strength is good. Further evaluation regardi; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; There is not x-ray evidence of a recent cervical spine fracture.</p>	1

Neurology	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	<p>I will also send for MRI of the brain to look for any underlying structural abnormality that could be contributing. I will also look at his MRI of the brain and MRI of the cervical spine given his intermittent right hemibody numbness.; This study is being ordered for a neurological disorder.; 1/2/2016; There has been treatment or conservative therapy.; numbness, memory loss,sensory neuropathy, cognitvie impairment; CT head done 10/3/2017; insulin for diabetes; referred to counseling prn;; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology</p>	1
-----------	----------	---	---	---

Neurology	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	<p>I will obtain an MRI of the brain, cervical and thoracic spine with and without contrast to look for any evidence of multiple sclerosis disease progression. For now, he will continue Copaxone 20 mg daily, but we'll discuss whether we need to move to a mor; This study is being ordered for a neurological disorder.; Diagnosed with multiple sclerosis in 2004.; There has been treatment or conservative therapy.; relapsing remitting multiple sclerosis and migraines he has had new symptoms of right arm and leg numbness since his last visit; Medications tried:&amp;#x0D; - Topamax 25 mg bid&amp;#x0D; - Magnesium 250 mg bid&amp;#x0D; - Tylenol &amp;#x0D; - sumatriptan did not really help&amp;#x0D; - Fioricet usually works&amp;#x0D; - Decadron (made him agitated); One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology</p>	1
-----------	----------	---	--	---

Neurology	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	INCREASED FALLS, URINARY INCONSTINENCE, LOSS OF CONSCIENCES, LIGHT HEADEDNESS, LOWER BACK AND MUSCLE STIFFNESS, HIP FLEXORS; This study is being ordered for a neurological disorder.; AUG 2017; There has been treatment or conservative therapy.; LOWER EXTREMITY PAIN AND NUMBNESS, PARATHESIA, SPINAL CORD LESION CONCERN; MEDICATIONS; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurology	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	known multiple sclerosis, annual MRI.; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 03/08/2017; There has been treatment or conservative therapy.; Paresthesia of skin; Rebif; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurology	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	left sided weakness and cervical radiculopathy; This is a request for cervical spine MRI; Acute or Chronic neck and/or back pain; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; ; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; It is not known if there is x-ray evidence of a recent cervical spine fracture.	1

Neurology	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Medications: // IBUPROFEN, 01/29/2018 LOSARTAN POTASSIUM, // NORTRIPTYLINE HCL, // PROAIR HFA, 01/29/2018 RIZATRIPTAN, // TIZANIDINE HCL, // TYLENOL; Duration of Medications: ; Reason for Study: throbbing, headache, nausea, numbness on right ; This is a request for cervical spine MRI; Acute or Chronic neck and/or back pain; The patient does have new or changing neurologic signs or symptoms.; There is no weakness or reflex abnormality.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; There is not x-ray evidence of a recent cervical spine fracture.	1
Neurology	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	migraines, lower back pain,; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 11/2017; There has been treatment or conservative therapy.; pt. have fatigue, pain and paroxysmal symptoms, spasticity and bladder problems; medication; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurology	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Mr.Thomas is now 31 year old right handed male with history, signs and symptoms of Multiple Sclerosis and a touch of depression.; Differential Diagnoses include Inflammatory disease Acute disseminated encephalomyelitis Behcet disease Granulomatosis angiit; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1

Neurology	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	MRI of cervical and lumbar spine to rule out cord compression due to disc disease. Patient has history of meningioma; This study is being ordered for a neurological disorder.; 10/2017; There has been treatment or conservative therapy.; neck pain, numbness, weakness, right facial numbness; Low back pain, numbness, pain of lower extremities, bowel incontinence; Hydrocodone, Meloxicam, and epidural injections; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurology	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	notes will be uploaded; This study is being ordered for a neurological disorder.; unknown; It is not known if there has been any treatment or conservative therapy.; Dysesthesia on both sides, memory loss, neuropathy, and word finding difficulty.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurology	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Numbness, tingling, chronic neck pain. Pain worse in evening.; This is a request for cervical spine MRI; Neurological deficits; The patient does not have new or changing neurologic signs or symptoms.; The patient has had back pain for over 4 weeks.; The patient has not seen the doctor more then once for these symptoms.	1
Neurology	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	pain; This study is being ordered for trauma or injury.; jan.30 2018; There has been treatment or conservative therapy.; pain, weakness; rehab; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

Neurology	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	patient has multiple sclerosis assess disease and recent exacerbation; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 12/01/2014; There has been treatment or conservative therapy.; right lower extremity sensory changes and weakness, right hand weakness, blurry vision; medication,; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurology	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Patient presents with diffuse muscle aches, bilateral leg weakness and gait dysfunction. We need to evaluate for cervical and or thoracic spine compression, neuromuscular and musculoskeletal disorder., One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Neurology	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Pt is having facial spasms as well as ble weakness and numbness; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Neurology	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	R/O lesions or tumors on brain and spine; This study is being ordered for a neurological disorder.; &lt; Enter date of initial onset here - or Type In Unknown If No Info Given &gt;; There has been treatment or conservative therapy.; headaches, and tremors; OTC inflammatory, and nerve blocks; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

Neurology	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	<p>She has had intermittent progressive weakness of her limbs admixed with complaints of diplopia. More recent to this, she complained of episodes of what she described as intermittent "twitching" of her limbs or her chest that consist of a flailing motion o; This is a request for cervical spine MRI; Neurological deficits; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; patient's casual gait was antalgic gait. She had some elements of astasia-abasia; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; There is not x-ray evidence of a recent cervical spine fracture.</p>	1
Neurology	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	<p>She has pain and numbness down the sides of her legs as well as allodynia in her arms. 35-year-old lady with a couple of upper motor neuron findings on exam. She has had a significant workup that it has been in years past. Her symptoms been present sinc; This is a request for cervical spine MRI; It is not known if there is laboratory evidence of osteomyelitis.; Known or Suspected Multiple Sclerosis, Infection or abscess; It is not known if there is laboratory or x-ray evidence of meningitis.; It is not known if there is laboratory or x-ray evidence of a paraspinal abscess.; It is not known if there is laboratory or x-ray evidence of an infected disc, septic arthritis, or "discitis".</p>	1
Neurology	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	<p>she reports 4 days history of numbness from her waist line down to both lower extremities with weakness in both legs. She reports difficulties with walking and balance.&amp;#x0D; &amp;#x0D; No symptoms in her upper extremities. No visual disturbance, no speech dysfunction,; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.</p>	1
Neurology	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	<p>symptoms are getting worse; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.</p>	1

Neurology	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	The patient has failed a course of anti-inflammatory medication or steroids.; This is a request for cervical spine MRI; There has been a supervised trial of conservative management for at least 6 weeks.; Acute or Chronic neck and/or back pain; No, the patient does not demonstrate neurological deficits.; It is not known if this patient had a recent course of supervised physical Therapy.	1
Neurology	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	The patient has failed a course of anti-inflammatory medication or steroids.; This is a request for cervical spine MRI; There has been a supervised trial of conservative management for at least 6 weeks.; Acute or Chronic neck and/or back pain; Yes, the patient demonstrate neurological deficits.; No, there is not a documented evidence of extremity weakness on physical examination.; No, there is no evidence of recent development of unilateral muscle wasting.; No, this patient did not have a recent course of supervised physical Therapy.	3
Neurology	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	The patient has not failed a course of anti-inflammatory medication or steroids.; This is a request for cervical spine MRI; There has been a supervised trial of conservative management for at least 6 weeks.; Acute or Chronic neck and/or back pain; No, the patient does not demonstrate neurological deficits.; No, this patient did not have a recent course of supervised physical Therapy.; No, the patient did not have six weeks of Chiropractic care related to this episode.;	1
Neurology	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	The patient has not failed a course of anti-inflammatory medication or steroids.; This is a request for cervical spine MRI; There has been a supervised trial of conservative management for at least 6 weeks.; Acute or Chronic neck and/or back pain; No, the patient does not demonstrate neurological deficits.; No, this patient did not have a recent course of supervised physical Therapy.; Yes, the patient had six weeks of Chiropractic care related to this episode.	1

Neurology	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	The patient is presenting new symptoms.; This study is being ordered for follow-up.; This is a request for cervical spine MRI; "The patient is being seen by or is the ordering physician an oncologist, neurologist, neurosurgeon, or orthopedist."; Known Tumor with or without metastasis	1
Neurology	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	This is a request for cervical spine MRI; Acute or Chronic neck and/or back pain; The patient does have new or changing neurologic signs or symptoms.; The patient does have new signs or symptoms of bladder or bowel dysfunction.	3
Neurology	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	This is a request for cervical spine MRI; Acute or Chronic neck and/or back pain; Yes, the patient demonstrate neurological deficits.; No, there is not a documented evidence of extremity weakness on physical examination.; Yes, there is evidence of recent development of unilateral muscle wasting.	1
Neurology	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	This is a request for cervical spine MRI; Acute or Chronic neck and/or back pain; Yes, the patient demonstrate neurological deficits.; yes, there is a documented evidence of extremity weakness on physical examination.	53
Neurology	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	This is a request for cervical spine MRI; Known or Suspected Multiple Sclerosis, Infection or abscess; ; No, the patient does not have new or changing neurological signs or symptoms.; yes, there are documented clinical findings of Multiple sclerosis.	1

Neurology	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	<p>This is a request for cervical spine MRI; Known or Suspected Multiple Sclerosis, Infection or abscess; ; Yes, the patient have new or changing neurological signs or symptoms.; No, the patient is not experiencing or presenting new symptoms of upper extremity weakness?; No, the patient is not demonstrating unilateral muscle wasting.; No, the patient is not experiencing or presenting new symptoms of Bowel or bladder dysfunction.; Yes, the patient is experiencing new onset of parathesia diagnosed by a neurologist.; No, the patient is not experiencing or presenting x-ray evidence of a recent fracture.; yes, there are documented clinical findings of Multiple sclerosis.</p>	3
-----------	----------	---	--	---

Neurology	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	<p>This is a request for cervical spine MRI; Known or Suspected Multiple Sclerosis, Infection or abscess; 1. Focal 4 mm T2 hyperintensity within the cervical cord at the C3-4 level. This could be related to gliosis or edema though other processes such as demyelinating disease not excluded. Recommend postcontrast imaging.&amp;#x0D; 2. Multilevel cervical spondylosis, w; Yes, the patient have new or changing neurological signs or symptoms.; No, the patient is not experiencing or presenting new symptoms of upper extremity weakness?; No, the patient is not demonstrating unilateral muscle wasting.; No, the patient is not experiencing or presenting new symptoms of Bowel or bladder dysfunction.; No, the patient is not experiencing new onset of parathesia diagnosed by a neurologist; No, the patient is not experiencing or presenting x-ray evidence of a recent fracture.; yes, there are documented clinical findings of Multiple sclerosis.</p>	1
-----------	----------	---	--	---

Neurology	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	<p>This is a request for cervical spine MRI; Known or Suspected Multiple Sclerosis, Infection or abscess; G35 MS (multiple sclerosis),STARTED FEELING A LITTLE BAD AND THEN 2/18/2018 HER EYE STARTED THROBING AND LIGHT SENSE BALANCE BAD WEAKNESS,MS STARTED WITH PROB COUPLE WEEKS AGO WORSE ON2/18/2018 EYEPN FOOT DROP WEAKNESS,1. Multiple Sclerosis</p> <p>On Copax; Yes, the patient have new or changing neurological signs or symptoms.; No, the patient is not experiencing or presenting new symptoms of upper extremity weakness?; No, the patient is not demonstrating unilateral muscle wasting.; No, the patient is not experiencing or presenting new symptoms of Bowel or bladder dysfunction.; No, the patient is not experiencing new onset of parathesia diagnosed by a neurologist; No, the patient is not experiencing or presenting x-ray evidence of a recent fracture.; yes, there are documented clinical findings of Multiple sclerosis.</p>	1
-----------	----------	---	--	---

Neurology	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	<p>This is a request for cervical spine MRI; Known or Suspected Multiple Sclerosis, Infection or abscess; This 40 year old female presents with possible multiple sclerosis. Ms. Dill is a 40 year old woman who comes to the clinic today for evaluation of possible multiple sclerosis. The morning of January 25, 2018 she woke up with unilateral numbness along her; Yes, the patient have new or changing neurological signs or symptoms.; No, the patient is not experiencing or presenting new symptoms of upper extremity weakness?; No, the patient is not demonstrating unilateral muscle wasting.; No, the patient is not experiencing or presenting new symptoms of Bowel or bladder dysfunction.; Yes, the patient is experiencing new onset of parathesia diagnosed by a neurologist.; No, the patient is not experiencing or presenting x-ray evidence of a recent fracture.; yes, there are documented clinical findings of Multiple sclerosis.</p>	1
-----------	----------	---	--	---

Neurology	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	This is a request for cervical spine MRI; Known or Suspected Multiple Sclerosis, Infection or abscess; Yes, the patient have new or changing neurological signs or symptoms.; No, the patient is not experiencing or presenting new symptoms of upper extremity weakness?; No, the patient is not demonstrating unilateral muscle wasting.; Yes, the patient is experiencing or presenting new symptoms of Bowel or bladder dysfunction.; yes, there are documented clinical findings of Multiple sclerosis.	1
Neurology	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	This is a request for cervical spine MRI; Known or Suspected Multiple Sclerosis, Infection or abscess; Yes, the patient have new or changing neurological signs or symptoms.; No, the patient is not experiencing or presenting new symptoms of upper extremity weakness?; Yes, the patient is demonstrating unilateral muscle wasting.; yes, there are documented clinical findings of Multiple sclerosis.	1
Neurology	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	This is a request for cervical spine MRI; Known or Suspected Multiple Sclerosis, Infection or abscess; Yes, the patient have new or changing neurological signs or symptoms.; Yes, the patient is experiencing or presenting new symptoms of upper extremity weakness.; yes, there are documented clinical findings of Multiple sclerosis.	22

Neurology	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	<p>This is a request for cervical spine MRI; Neurological deficits; #&amp;#x0D; Detail Type&amp;#x0D; Description&amp;#x0D; 1.&amp;#x0D; Assessment&amp;#x0D; Idiopathic intracranial hypertension (G93.2).&amp;#x0D; &amp;#x0D; Patient Plan&amp;#x0D; The patient likely has idiopathic intracranial hypertension, which we discussed. We discussed the importance of lumbar puncture with opening pres; No, the patient is not experiencing or presenting new symptoms of upper extremity weakness?; No, the patient is not demonstrating unilateral muscle wasting.; No, the patient is not experiencing or presenting new symptoms of Bowel or bladder dysfunction.; No, the patient is not experiencing new onset of parathesia diagnosed by a neurologist; No, the patient is not experiencing or presenting x-ray evidence of a recent fracture.</p>	1
Neurology	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	<p>This is a request for cervical spine MRI; Neurological deficits; &amp;lt;Enter Additional Clinical Information&amp;gt;; No, the patient is not experiencing or presenting new symptoms of upper extremity weakness?; No, the patient is not demonstrating unilateral muscle wasting.; No, the patient is not experiencing or presenting new symptoms of Bowel or bladder dysfunction.; Yes, the patient is experiencing new onset of parathesia diagnosed by a neurologist.; No, the patient is not experiencing or presenting x-ray evidence of a recent fracture.</p>	1
Neurology	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	<p>This is a request for cervical spine MRI; Neurological deficits; ; No, the patient is not experiencing or presenting new symptoms of upper extremity weakness?; No, the patient is not demonstrating unilateral muscle wasting.; No, the patient is not experiencing or presenting new symptoms of Bowel or bladder dysfunction.; No, the patient is not experiencing new onset of parathesia diagnosed by a neurologist; No, the patient is not experiencing or presenting x-ray evidence of a recent fracture.</p>	1

Neurology	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	<p>This is a request for cervical spine MRI; Neurological deficits; James E Robertson is a 60 y.o. male with a recent L MCA stroke, for which he got tPA. He has recovered pretty well from it. R side is still a little numb, RUE is still weak, R temporal visual field loss. However, I picked out hyperreflexia on the L side a; No, the patient is not experiencing or presenting new symptoms of upper extremity weakness?; No, the patient is not demonstrating unilateral muscle wasting.; No, the patient is not experiencing or presenting new symptoms of Bowel or bladder dysfunction.; Yes, the patient is experiencing new onset of parathesia diagnosed by a neurologist.; No, the patient is not experiencing or presenting x-ray evidence of a recent fracture.</p>	1
-----------	----------	---	--	---

Neurology	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	<p>This is a request for cervical spine MRI; Neurological deficits; Leg weakness, bilateral (R29.898).&amp;#x0D; Further diagnostic evaluations ordered today include(s) MRI LUMBAR SPINE W/O DYE to be performed, MRI NECK SPINE W/O DYE to be performed and MRI THORACIC SPINE W/O DYE to be performed.&amp;#x0D; &amp;#x0D; Osteoarthritis of lumbar spine,; No, the patient is not experiencing or presenting new symptoms of upper extremity weakness?; No, the patient is not demonstrating unilateral muscle wasting.; No, the patient is not experiencing or presenting new symptoms of Bowel or bladder dysfunction.; No, the patient is not experiencing new onset of parathesia diagnosed by a neurologist; No, the patient is not experiencing or presenting x-ray evidence of a recent fracture.</p>	1
-----------	----------	---	---	---

Neurology	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	This is a request for cervical spine MRI; Neurological deficits; Lhermittes; left worse than right; increased reflexes on left; No, the patient is not experiencing or presenting new symptoms of upper extremity weakness?; No, the patient is not demonstrating unilateral muscle wasting.; No, the patient is not experiencing or presenting new symptoms of Bowel or bladder dysfunction.; Yes, the patient is experiencing new onset of parathesia diagnosed by a neurologist.; No, the patient is not experiencing or presenting x-ray evidence of a recent fracture.	1
Neurology	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	This is a request for cervical spine MRI; Neurological deficits; Mr. Curtis L Loughridge is a 45 y.o. male with migraine headache, memory loss, neck pain, cervicgia, but also potential PTSD. He has a herniated disc at L4-5 on the R, accounting for the R radiculopathic symptoms. He needs to see NSGY again. We can inc; No, the patient is not experiencing or presenting new symptoms of upper extremity weakness?; No, the patient is not demonstrating unilateral muscle wasting.; No, the patient is not experiencing or presenting new symptoms of Bowel or bladder dysfunction.; Yes, the patient is experiencing new onset of parathesia diagnosed by a neurologist.; No, the patient is not experiencing or presenting x-ray evidence of a recent fracture.	1
Neurology	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	This is a request for cervical spine MRI; Neurological deficits; No, the patient is not experiencing or presenting new symptoms of upper extremity weakness?; Yes, the patient is demonstrating unilateral muscle wasting.	1
Neurology	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	This is a request for cervical spine MRI; Neurological deficits; The patient does have new or changing neurologic signs or symptoms.; The patient does have new signs or symptoms of bladder or bowel dysfunction.	2

Neurology	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	This is a request for cervical spine MRI; Neurological deficits; WILL UPLOAD NOTES; No, the patient is not experiencing or presenting new symptoms of upper extremity weakness?; No, the patient is not demonstrating unilateral muscle wasting.; No, the patient is not experiencing or presenting new symptoms of Bowel or bladder dysfunction.; No, the patient is not experiencing new onset of parathesia diagnosed by a neurologist; No, the patient is not experiencing or presenting x-ray evidence of a recent fracture.	1
Neurology	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	This is a request for cervical spine MRI; Neurological deficits; Yes, the patient is experiencing or presenting new symptoms of upper extremity weakness.	36
Neurology	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	This is a request for cervical spine MRI; None of the above; ; No, the patient is not experiencing or presenting new symptoms of upper extremity weakness?; No, the patient is not demonstrating unilateral muscle wasting.; No, the patient is not experiencing or presenting new symptoms of Bowel or bladder dysfunction.; No, the patient is not experiencing new onset of parathesia diagnosed by a neurologist; No, the patient is not experiencing or presenting x-ray evidence of a recent fracture.	1
Neurology	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	This is a request for cervical spine MRI; None of the above; BRAIN COMPRESSION. CHIARI MALFORMATION; No, the patient is not experiencing or presenting new symptoms of upper extremity weakness?; No, the patient is not demonstrating unilateral muscle wasting.; No, the patient is not experiencing or presenting new symptoms of Bowel or bladder dysfunction.; Yes, the patient is experiencing new onset of parathesia diagnosed by a neurologist.; No, the patient is not experiencing or presenting x-ray evidence of a recent fracture.	1

Neurology	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	<p>This is a request for cervical spine MRI; None of the above; G50.1 Atypical face pain,CONSTANT PAIN BELOW THE NASAL CAVITY,1. Facial pain &amp;#x0D; Additional information: Tolerated tapering off Desipramine. Now taking Gabapenting 300mg tid. Had some double vision but that has resolved. Concerned with weight gain.&amp;#x0D; PROC; No, the patient is not experiencing or presenting new symptoms of upper extremity weakness?; No, the patient is not demonstrating unilateral muscle wasting.; No, the patient is not experiencing or presenting new symptoms of Bowel or bladder dysfunction.; No, the patient is not experiencing new onset of parathesia diagnosed by a neurologist; No, the patient is not experiencing or presenting x-ray evidence of a recent fracture.</p>	1
Neurology	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	<p>This is a request for cervical spine MRI; None of the above; No, the patient is not experiencing or presenting new symptoms of upper extremity weakness?; No, the patient is not demonstrating unilateral muscle wasting.; No, the patient is not experiencing or presenting new symptoms of Bowel or bladder dysfunction.; Yes, the patient is experiencing new onset of parathesia diagnosed by a neurologist.; Yes, the patient is experiencing or presenting x-ray evidence of a recent fracture.</p>	1
Neurology	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	<p>This is a request for cervical spine MRI; None of the above; Unknown; No, the patient is not experiencing or presenting new symptoms of upper extremity weakness?; No, the patient is not demonstrating unilateral muscle wasting.; No, the patient is not experiencing or presenting new symptoms of Bowel or bladder dysfunction.; Yes, the patient is experiencing new onset of parathesia diagnosed by a neurologist.; No, the patient is not experiencing or presenting x-ray evidence of a recent fracture.</p>	1
Neurology	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	<p>This is a request for cervical spine MRI; None of the above; Yes, the patient is experiencing or presenting new symptoms of upper extremity weakness.</p>	4

Neurology	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	This is a request for cervical spine MRI; Pre-Operative Evaluation; No, the last Cervical spine MRI was not performed within the past two weeks.	1
Neurology	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	This is a request for cervical spine MRI; There has been a supervised trial of conservative management for at least 6 weeks.; Acute or Chronic neck and/or back pain; No, the patient does not demonstrate neurological deficits.; Yes, this patient had a recent course of supervised physical Therapy.	4
Neurology	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	This is a request for cervical spine MRI; There has been a supervised trial of conservative management for at least 6 weeks.; Acute or Chronic neck and/or back pain; Yes, the patient demonstrate neurological deficits.; No, there is not a documented evidence of extremity weakness on physical examination.; No, there is no evidence of recent development of unilateral muscle wasting.; Yes, this patient had a recent course of supervised physical Therapy.	1
Neurology	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	This is a request for cervical spine MRI; There has not been a supervised trial of conservative management for at least 6 weeks.; Acute or Chronic neck and/or back pain; No, the patient does not demonstrate neurological deficits.; unknown	1
Neurology	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	This is a request for cervical spine MRI; There has not been a supervised trial of conservative management for at least 6 weeks.; Acute or Chronic neck and/or back pain; Yes, the patient demonstrate neurological deficits.; No, there is not a documented evidence of extremity weakness on physical examination.; No, there is no evidence of recent development of unilateral muscle wasting.; 1. *arthralgias &#x0D; The patient presents with many different symptoms. She has quite a bit of joint pain and arthralgias involving her hands knees back. She has seen a rheumatologist recently in the Harrison area who diagnosed fibromyalgia and apparentl	1

Neurology	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	This is a request for cervical spine MRI; There is no laboratory or x-ray evidence of osteomyelitis.; Known or Suspected Multiple Sclerosis, Infection or abscess; ; No, there are no documented clinical findings of Multiple sclerosis.; No, there is not a laboratory or x-ray evidence of Meningitis.; No, there is not a laboratory or x-ray evidence of an infected disc, septic arthritis or "discitis".; No, there is no laboratory or x-ray evidence of a paraspinal abscess.	1
-----------	----------	---	--	---

Neurology	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	This is a request for cervical spine MRI; There is no laboratory or x-ray evidence of osteomyelitis.; Known or Suspected Multiple Sclerosis, Infection or abscess; 23-year-old lady with paroxysmal paresthesias as well as chronic numbness in the upper legs. She has a sensory level in the lower T-spine. My biggest concern is multiple sclerosis. Her reflexes are normal and there are no Babinski responses. We need M; No, there are no documented clinical findings of Multiple sclerosis.; No, there is not a laboratory or x-ray evidence of Meningitis.; No, there is not a laboratory or x-ray evidence of an infected disc, septic arthritis or "discitis".; No, there is no laboratory or x-ray evidence of a paraspinal abscess.	1
-----------	----------	---	---	---

Neurology	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	This is a request for cervical spine MRI; Trauma or recent injury; Yes, the patient have new or changing neurological signs or symptoms.; Yes, the patient is experiencing or presenting new symptoms of upper extremity weakness.	2
-----------	----------	---	--	---

Neurology	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	This is for tracking MS, these questions are irrelevant not to mention this is a triple study so that means automatic review. Will just upload notes.; This study is being ordered for a neurological disorder.; 01/15/2017; There has been treatment or conservative therapy.; This is for tracking MS, these questions are irrelevant not to mention this is a triple study so that means automatic review. Will just upload notes.; This is for tracking MS, these questions are irrelevant not to mention this is a triple study so that means automatic review. Will just upload notes.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurology	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Unknown; This is a request for cervical spine MRI; None of the above; It is not known if the patient does have new or changing neurologic signs or symptoms.; It is not known if the patient has had back pain for over 4 weeks.	1
Neurology	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	unknown; This study is being ordered for a neurological disorder.; 03/01/2018; There has been treatment or conservative therapy.; numbness, tingling, migraines; therapeutic life style changes, medication,; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

Neurology	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	unknown; This study is being ordered for a neurological disorder.; about two Months ago.; There has been treatment or conservative therapy.; abnormal CT of head,; medications; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurology	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	unknown; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 03/2015; There has been treatment or conservative therapy.; nausea constipation and rash, new and enhancing lesion; pt was on medications; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurology	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	UNKNOWN; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; JULY 2017; There has not been any treatment or conservative therapy.; PREVIOUS BRAIN MRI SHOWED ABNORMALITIES, ARM NUMBNESS, HEADACHES; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

Neurology	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	will just upload notes; This is a request for cervical spine MRI; Neurological deficits; The patient does have new or changing neurologic signs or symptoms.; There is no weakness or reflex abnormality.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; There is not x-ray evidence of a recent cervical spine fracture.	1
Neurology	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	worsening symptoms of MS; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 11/1/2016; There has been treatment or conservative therapy.; pain in left side of head, seizures, migraines, fatigue, bladder dysfunction, right leg heaviness; MEDICATION; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurology	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	&lt; Enter answer here - or Type In Unknown If No Info Given. &gt;; This study is being ordered for a metastatic disease.; There are 3 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

Neurology	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	&lt; Enter answer here - or Type In Unknown If No Info Given. &gt;; This study is being ordered for a neurological disorder.; 10/2017; There has been treatment or conservative therapy.; right upper back shoulder and back pain with right trunk and leg discomfort. Bladder Retention. Muscle tightness.; Physical Therapy, IV steroids, and Medications; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

Neurology	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	; This study is being ordered for a neurological disorder.; YEARS AGO; There has been treatment or conservative therapy.; ; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurology	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	35-year-old with acute onset of transverse myelitis with a prior episode of vertigo, Her symptoms are terribly suspicious for possible MS. At this point time she does have a family history on with her sister having MS. I do think she an MRI brain C-spine ; This study is being ordered for Congenital Anomaly.; 35-year-old with acute onset of transverse myelitis with a prior episode of vertigo, Her symptoms are terribly suspicious for possible MS. At this point time she does have a family history on with her sister having MS; There has not been any treatment or conservative therapy.; we will not prescribe any medications we have a better idea of what were dealing with; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurology	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	AMBETTER + DOUBLE STUDY= AUTOMATIC REVIEW. WILL JUST UPLOAD CLINICALS.; This study is being ordered for a neurological disorder.; AMBETTER + DOUBLE STUDY= AUTOMATIC REVIEW. WILL JUST UPLOAD CLINICALS.; There has not been any treatment or conservative therapy.; AMBETTER + DOUBLE STUDY= AUTOMATIC REVIEW. WILL JUST UPLOAD CLINICALS.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

Neurology	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	<p>Enter answer here ABNORMAL GAIT WITH DIFFICULTY WALKING, NUMBNESS AND TINGLING LOWER EXTREMITIES - or Type In Unknown If No Info Given.; This study is being ordered for a neurological disorder.; Enter date of initial onset here 01/15/2018 - or Type In Unknown If No Info Given; It is not known if there has been any treatment or conservative therapy.; ; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology</p>	1
-----------	----------	---	---	---

Neurology	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	<p>I will obtain an MRI of the brain, cervical and thoracic spine with and without contrast to look for any evidence of multiple sclerosis disease progression. For now, he will continue Copaxone 20 mg daily, but we'll discuss whether we need to move to a mor; This study is being ordered for a neurological disorder.; Diagnosed with multiple sclerosis in 2004.; There has been treatment or conservative therapy.; relapsing remitting multiple sclerosis and migraines he has had new symptoms of right arm and leg numbness since his last visit; Medications tried: - Topamax 25 mg bid; - Magnesium 250 mg bid; - Tylenol; - sumatriptan did not really help; - Fioricet usually works; - Decadron (made him agitated); One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology</p>	1
-----------	----------	---	--	---

Neurology	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	<p>INCREASED FALLS, URINARY INCONSTINENCE, LOSS OF CONSCIENCES, LIGHT HEADEDNESS, LOWER BACK AND MUSCLE STIFFNESS, HIP FLEXORS; This study is being ordered for a neurological disorder.; AUG 2017; There has been treatment or conservative therapy.; LOWER EXTREMITY PAIN AND NUMBNESS, PARATHESIA, SPINAL CORD LESION CONCERN; MEDICATIONS; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology</p>	1
-----------	----------	---	---	---

Neurology	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	<p>It is not known if the patient has failed a course of anti-inflammatory medication or steroids.; This is a request for a thoracic spine MRI.; It is not known if there has been a supervised trial of conservative management for at least six weeks.; The study is being ordered due to Neurological deficits.; The patient is experiencing sensory abnormalities such as numbness or tingling.; 23-year-old lady with paroxysmal paresthesias as well as chronic numbness in the upper legs. She has a sensory level in the lower T-spine. My biggest concern is multiple sclerosis. Her reflexes are normal and there are no Babinski responses. We need M; The patient is not experiencing or presenting symptoms of abnormal gait, lower extremity weakness, asymmetric reflexes, fracture, radiculopathy or bowel or bladder dysfunction.</p>	1
-----------	----------	---	--	---

Neurology	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	<p>MOTOR: normal tone, normal bulk, no fasciculations, no pronator drift, no abnormal movements, normal forearm rolling, normal finger tapping, normal strength everywhere except 4/5 L hip flexor weakness; This is a request for a thoracic spine MRI.; Neurological deficits; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; Ms. Kristina M Storment is a 31 y.o. female with mild dizziness and perhaps vertigo, but severe hip problems (s/p surgery). On exam, no cerebellar signs or clear vertigo, but she has clear and brisk hyperreflexia, suggestive of spinal cord trauma. She ha; It is not known if the patient has new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is recent evidence of a thoracic spine fracture.</p>	1
Neurology	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	<p>Ms. Pamela Moore is a 60 y.o. female ended up with pneumonia 3 times between 2016 and 2017, and after treatment, ended up with enough weakness in the LEs to the point that she had to quit her job. She couldn't stand very long anymore. There was a lot of ; This is a request for a thoracic spine MRI.; Neurological deficits; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; ; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is recent evidence of a thoracic spine fracture.</p>	1
Neurology	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	<p>pain; This study is being ordered for trauma or injury.; jan.30 2018; There has been treatment or conservative therapy.; pain, weakness; rehab; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology</p>	1

Neurology	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	Patient has Colon Cancer - Sever back pain. Follow up to make sure cancer has not spread due to severe Thoracic pain.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Neurology	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	Patient presents with diffuse muscle aches, bilateral leg weakness and gait dysfunction. We need to evaluate for cervical and or thoracic spine compression, neuromuscular and musculoskeletal disorder.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Neurology	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	she reports 4 days history of numbness from her waist line down to both lower extremities with weakness in both legs. She reports difficulties with walking and balance.&#x0D; &#x0D; No symptoms in her upper extremities. No visual disturbance, no speech dysfunction,; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Neurology	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	The patient does have neurological deficits.; It is not known if the patient has failed a course of anti-inflammatory medication or steroids.; This is a request for a thoracic spine MRI.; It is not known if there has been a supervised trial of conservative management for at least six weeks.; The study is being ordered due to chronic back pain or suspected degenerative disease.; The patient is experiencing sensory abnormalities such as numbness or tingling.; ; The patient is not experiencing or presenting symptoms of abnormal gait, lower extremity weakness, asymmetric reflexes, fracture, radiculopathy or bowel or bladder dysfunction.	1
Neurology	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	The patient does have neurological deficits.; This is a request for a thoracic spine MRI.; The study is being ordered due to chronic back pain or suspected degenerative disease.; ; The patient is experiencing or presenting symptoms of lower extremity weakness documented on physical exam.	1

Neurology	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	The patient does have neurological deficits.; This is a request for a thoracic spine MRI.; The study is being ordered due to chronic back pain or suspected degenerative disease.; Patient reports the following symptoms:&#xOD; Difficulty with the nerves in her legs and back. Dizziness, memory loss, Difficulty walking, numbness and tingling, headaches, neck and back pain, muscle aches and pains.; The patient is experiencing or presenting symptoms of lower extremity weakness documented on physical exam.	1
Neurology	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	The patient does have neurological deficits.; This is a request for a thoracic spine MRI.; The study is being ordered due to chronic back pain or suspected degenerative disease.; R20.2 Paresthesia &#xOD; History / Dx: Problem #1: Tingling in her hands. Nerve conduction studies do confirm carpal tunnel syndrome at the right wrist but no definite evidence at the left wrist. I have recommended carpal tunnel braces bilaterally for the ; The patient is experiencing or presenting symptoms of lower extremity weakness documented on physical exam.	1
Neurology	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	The patient does have neurological deficits.; This is a request for a thoracic spine MRI.; The study is being ordered due to chronic back pain or suspected degenerative disease.; The patient is experiencing or presenting symptoms of abnormal gait.	3
Neurology	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	The patient does have neurological deficits.; This is a request for a thoracic spine MRI.; There has been a supervised trial of conservative management for at least 6 weeks.; The study is being ordered due to chronic back pain or suspected degenerative disease.; The patient is experiencing sensory abnormalities such as numbness or tingling.; The patient is not experiencing or presenting symptoms of abnormal gait, lower extremity weakness, asymmetric reflexes, fracture, radiculopathy or bowel or bladder dysfunction.	2

Neurology	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	The patient does not have any neurological deficits.; This is a request for a thoracic spine MRI.; There has been a supervised trial of conservative management for at least 6 weeks.; The study is being ordered due to chronic back pain or suspected degenerative disease.	2
Neurology	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	This is a request for a thoracic spine MRI.; The study is being ordered due to Neurological deficits.; ; The patient is experiencing or presenting symptoms of lower extremity weakness documented on physical exam.	3
Neurology	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	This is a request for a thoracic spine MRI.; The study is being ordered due to Neurological deficits.; MS patient with new symptoms of brain and thoracic spine activity, waist down numbness bilateral legs; The patient is experiencing or presenting symptoms of lower extremity weakness documented on physical exam.	1
Neurology	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	This is a request for a thoracic spine MRI.; The study is being ordered due to Neurological deficits.; The patient is experiencing or presenting symptoms of abnormal gait.	3
Neurology	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	This is a request for a thoracic spine MRI.; The study is being ordered due to Neurological deficits.; The patient is experiencing or presenting symptoms of asymmetric reflexes.	2
Neurology	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	This is a request for a thoracic spine MRI.; The study is being ordered due to Neurological deficits.; The patient is experiencing or presenting symptoms of bowel or bladder dysfunction.	1
Neurology	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	This is a request for a thoracic spine MRI.; The study is being ordered due to Neurological deficits.; The patient is experiencing or presenting symptoms of radiculopathy documented on EMG or nerve conduction study.	1

Neurology	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	This is for tracking MS, these questions are irrelevant not to mention this is a triple study so that means automatic review. Will just upload notes.; This study is being ordered for a neurological disorder.; 01/15/2017; There has been treatment or conservative therapy.; This is for tracking MS, these questions are irrelevant not to mention this is a triple study so that means automatic review. Will just upload notes.; This is for tracking MS, these questions are irrelevant not to mention this is a triple study so that means automatic review. Will just upload notes.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurology	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	Weakness: Clinically, this has seemed most consistent with myasthenia although normal rep stim and antibody testing have been seen. She has had intermittent progressive weakness of her limbs admixed with complaints of diplopia. Prior work-up for myasthen; This is a request for a thoracic spine MRI.; Neurological deficits; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; Casual gait was antalgic and had some elements of astasia-abasia.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is recent evidence of a thoracic spine fracture.	1
Neurology	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		2
Neurology	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	&lt; Enter answer here - or Type In Unknown If No Info Given. &gt;; The study requested is a Lumbar Spine MRI.; It is unknown if the patient has acute or chronic back pain.; This procedure is being requested for None of the above	2

Neurology	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	&lt; Enter answer here - or Type In Unknown If No Info Given. &gt;; The study requested is a Lumbar Spine MRI.; Neurological deficits; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; legs; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	1
Neurology	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	&lt; Enter answer here - or Type In Unknown If No Info Given. &gt;; This study is being ordered for a neurological disorder.; &lt; Enter date of initial onset here - or Type In Unknown If No Info Given &gt;; It is not known if there has been any treatment or conservative therapy.; NECK AND BACK PAIN HEADACHES; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurology	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	&lt; Enter answer here - or Type In Unknown If No Info Given. &gt;; This study is being ordered for a neurological disorder.; ; There has been treatment or conservative therapy.; Neck and back pain, numbness in left arm, headaches, leg pain, weakness in legs; Pain meds; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

Neurology	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	&lt; Enter answer here - or Type In Unknown If No Info Given. &gt;; This study is being ordered for a neurological disorder.; 05/30/2012; There has been treatment or conservative therapy.; restless leg, headache, degenerative changes 6 years ago; physical therapy and meds; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurology	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	&lt; Enter answer here - or Type In Unknown If No Info Given. &gt;; This study is being ordered for a neurological disorder.; 6/2017; There has been treatment or conservative therapy.; BRAIN LESIONS , HIGH TFH LEVEL, EXCESSIVE URINATION; STERIODS / MEDICATION /; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurology	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	3
Neurology	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; back pain; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	1

Neurology	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	; The study requested is a Lumbar Spine MRI.; Neurological deficits; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; ; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; It is not known if the patient has a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	1
Neurology	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	; The study requested is a Lumbar Spine MRI.; Neurological deficits; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; ; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	1
Neurology	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	; This study is being ordered for a neurological disorder.; 2017; There has not been any treatment or conservative therapy.; WILL UPLOAD NOTES; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

Neurology	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	<p>Dfficulty walking has been ascribed to "weakness"; however, examination today shows good strength but significant parkinsonism..&amp;#x0D; Try physical therapy and carbidopa levodopa&amp;#x0D; BAR of carbidopa levodopa was discussed.&amp;#x0D; Further diagnostic evaluations ordere; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; WEAKNESS:&amp;#x0D; Mrs. Watson notes that she cannot take care of herself because of weakness that has been progressive for four years and is associated with mild incontinence. Examination shows parkinsonian features. Formally strength is good. Further evaluat; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.</p>	1
-----------	----------	---	--	---

Neurology	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	<p>Enter answer here cervical radiculopathy, lumbar radiculopathy, neck pain, low back pain, muscle weakness upper/lower extremities. paresthsia of skin- or Type In Unknown If No Info Given.; This study is being ordered for a neurological disorder.; Enter date of initial onset here 02/26/2018- or Type In Unknown If No Info Given; It is not known if there has been any treatment or conservative therapy.; Describe primary symptoms here neck pain, low back pain, cervical radiculopathy and lumbar radiculopathy, numbness and tingling - or Type In Unknown If No Info Given; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology</p>	1
-----------	----------	---	---	---

Neurology	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Evidence of Lumbar Radiculopathy found during an EMG procedure.; The study requested is a Lumbar Spine MRI.; Neurological deficits; The patient does have new or changing neurologic signs or symptoms.; There is reflex abnormality.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; It is not known if the patient has a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.; Mild changes of denervation in the lower lumbar paraspinal though the patient is very tender in this area which limited study.	1
Neurology	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Mr. Paul A Miller is a 36 y.o. male with sciatica bilaterally, helped with massages, stretching exercises. He has gone through PT and we need to check the MRI L spine. He has tingling down both legs, back pain, joint pain, and neck pain. He has complet; The study requested is a Lumbar Spine MRI.; Neurological deficits; The patient does have new or changing neurologic signs or symptoms.; There is no weakness or reflex abnormality.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	1
Neurology	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	MRI of cervical and lumbar spine to rule out cord compression due to disc disease. Patient has history of meningioma; This study is being ordered for a neurological disorder.; 10/2017; There has been treatment or conservative therapy.; neck pain, numbness, weakness, right facial numbness; Low back pain, numbness, pain of lower extremities, bowel incontinence; Hydrocodone, Meloxicam, and epidural injections; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

Neurology	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Ms Frances comes in with c/o heaviness in BUE over the last 2 weeks. She had a cervical laminectomy in Sept 2016 with Dr. Simpson. She will be scheduled asap for a MRI Cervical spine w/wo. She has undergone 2 lumbar surgeries in 2017 following the dx of e; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Neurology	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	patient is using cane; The study requested is a Lumbar Spine MRI.; Neurological deficits; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; muscle weakness in leg; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	1
Neurology	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	pt had MRI l_Spine in 2016 which showed l5 s1 protrusion; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; Ms Wilson comes in today for chronic pain management and her sleep study results which is positive. She requires a H2O pressure of 14 with her CPAP. She is to obtain her CPAP tomorrow. On her previous visit her uds level was high, therefore she had a UDS ; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	1
Neurology	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Pt is having facial spasms as well as ble weakness and numbness; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1

Neurology	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; It is not known if the patient does have new or changing neurologic signs or symptoms.; The patient has had back pain for over 4 weeks.; The patient has seen the doctor more then once for these symptoms.; The physician has directed conservative treatment for the past 6 weeks.; The patient has completed 6 weeks of physical therapy?	1
Neurology	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; The patient does have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.	1
Neurology	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	The study requested is a Lumbar Spine MRI.; It is unknown if the patient has acute or chronic back pain.; This procedure is being requested for Neurologic deficits	2
Neurology	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	The study requested is a Lumbar Spine MRI.; Neurological deficits; The patient does have new or changing neurologic signs or symptoms.; The patient does have a new foot drop.	1
Neurology	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	The study requested is a Lumbar Spine MRI.; Neurological deficits; The patient does have new or changing neurologic signs or symptoms.; The patient does have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.	1
Neurology	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	The study requested is a Lumbar Spine MRI.; The patient does NOT have acute or chronic back pain.; This procedure is being requested for Neurologic deficits	10
Neurology	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has 6 weeks of completed conservative care in the past 3 months or had a spine injection	17
Neurology	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has an Abnormal nerve study involving the lumbar spine	5

Neurology	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has Neurological deficit(s)	34
Neurology	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Unknown; The study requested is a Lumbar Spine MRI.; Neurological deficits; The patient does not have new or changing neurologic signs or symptoms.; The patient has had back pain for over 4 weeks.; The patient has not seen the doctor more then once for these symptoms.	1
Neurology	Approval	72196 Magnetic resonance (eg, proton) imaging, pelvis; with contrast material(s)	This is a request for a Pelvis MRI.; The request is for pelvic trauma or injury.	3
Neurology	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	2
Neurology	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	41-year-old with what may be a rotator cuff tear though her numbness does extend further down the arm.; The requested study is a Shoulder MRI.; The pain is described as chronic; The request is for shoulder pain.; The physician has directed conservative treatment for the past 6 weeks.; It is not known if the patient has completed 6 weeks of physical therapy?; The patient has been treated with medication.; It is not known if the patient has completed 6 weeks or more of Chiropractic care.; It is not known if the physician has directed a home exercise program for at least 6 weeks.; meloxicam, steroids, and cyclobenzaprine; The patient received medication other than joint injections(s) or oral analgesics.	1
Neurology	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	The requested study is a Shoulder MRI.; Study being ordered due to non-acute or chronic pain.; The patient has completed and failed a course of conservative treatment of at least 4 weeks.; The ordering physician is not an orthopedist.; There is documented findings of severe pain on motion.	5

Neurology	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	This is a request for an upper extremity joint MRI.; The patient does have documented weakness or partial loss of feeling in the upper extremity.; There has been a history of significant trauma, dislocation or injury to the joint within the past 6 weeks.; The patient does have an abnormal plain film study of the joint.	1
Neurology	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	This is a request for an upper extremity joint MRI.; The patient does have documented weakness or partial loss of feeling in the upper extremity.; There has been a history of significant trauma, dislocation or injury to the joint within the past 6 weeks.; The patient does not have an abnormal plain film study of the joint.; The patient has been treated with and failed a course of four weeks of supervised physical therapy.	1
Neurology	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	This is a request for a lower extremity MRI.; This is not a pulsatile mass.; "There is no evidence of tumor or mass from a previous exam, plain film, ultrasound, or previous CT or MRI."; There is not a suspicion of an infection.; The patient is not taking antibiotics.; This is not a study for a fracture which does not show healing (non-union fracture).; This is not a pre-operative study for planned surgery.	1
Neurology	Approval	73721 Magnetic resonance (eg, proton) imaging, any joint of lower extremity; without contrast material	This is a requests for a hip MRI.; This study is not being ordered in conjunction with a pelvic MRI.; "There is a history (within the last six months) of significant trauma, dislocation, or injury to the hip."; There is not a suspicion of AVN.; The patient is not receiving long-term steroid therapy (Prednisone or Cortisone).; The patient has a documented limitation of their range of motion.	1

Neurology	Approval	73721 Magnetic resonance (eg, proton) imaging, any joint of lower extremity; without contrast material	This is a requests for a hip MRI.; This study is not being ordered in conjunction with a pelvic MRI.; "There is no a history (within the last six months) of significant trauma, dislocation, or injury to the hip."; There is not a suspicion of AVN.; The patient is not receiving long-term steriod therapy (Prednisone or Cortisone).; The patient does not have an abnormal plain film study of the hip other than arthritis.; The patient has not used a cane or crutches for greater than four weeks.; The patient has not been treated with and failed a course of supervised physical therapy.; There is not a mass near the hip.; The patient has been treated with anti-inflammatory medications in conjunction with this complaint.; This is not for pre-operative planning.; The patient does not have a documented limitation of their range of motion.	2
Neurology	Approval	73721 Magnetic resonance (eg, proton) imaging, any joint of lower extremity; without contrast material	This is a requests for a hip MRI.; This study is not being ordered in conjunction with a pelvic MRI.; "There is no a history (within the last six months) of significant trauma, dislocation, or injury to the hip."; There is not a suspicion of AVN.; The patient is not receiving long-term steriod therapy (Prednisone or Cortisone).; The patient had an abnormal plain film study of the hip other than arthritis.; The patient has a documented limitation of their range of motion.	1
Neurology	Approval	74150 Computed tomography, abdomen; without contrast material	This is a request for an Abdomen CT.; This study is being ordered for a kidney/ureteral stone.; There is a known or a strong suspicion of kidney or ureteral stones.; Yes this is a request for a Diagnostic CT	1
Neurology	Approval	74150 Computed tomography, abdomen; without contrast material	This is a request for an Abdomen CT.; This study is being ordered for an infection such as pancreatitis, appendicitis, abscess, colitis and inflammatory bowel disease.; There are known or endoscopic findings of Inflammatory bowel disease.; Yes this is a request for a Diagnostic CT	1

Neurology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	This is a request for an abdomen-pelvis CT combination.; The reason for the study is suspicious mass or suspected tumor or metastasis.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; The patient did NOT have an abnormal abdominal Ultrasound, CT or MR study.; Yes this is a request for a Diagnostic CT	1
Neurology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; The patient had an amylase lab test.; The results of the lab test were abnormal.; Yes this is a request for a Diagnostic CT	1
Neurology	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)	Ms Frances comes in with c/o heaviness in BUE over the last 2 weeks. She had a cervical laminectomy in Sept 2016 with Dr. Simpson. She will be scheduled asap for a MRI Cervical spine w/wo. She has undergone 2 lumbar surgeries in 2017 following the dx of e; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Neurology	Approval	78608 Brain imaging, positron emission tomography (PET); metabolic evaluation	; This is a request for a Metabolic Brain PET scan; This study is being ordered for dementia.	1
Neurology	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body	This is a request for a Tumor Imaging PET Scan; This study is being ordered for something other than Breast CA, Lymphoma, Myeloma, Ovarian CA, Esophageal CA, Lung CA, Colorectal CA, Head/Neck CA, Melanoma, Soft Tissue Sarcoma, Pancreatic CA or Testicular CA.; This study is not being ordered for Cervical CA, Brain Cancer/Tumor or Mass, Thyroid CA or other solid tumor.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1

Neurology	Approval	93307 Echocardiography, transthoracic, real-time with image documentation (2D), includes M-mode recording, when performed, complete, without spectral or color Doppler echocardiography		This a request for an echocardiogram.; This is a request for a Transthoracic Echocardiogram.; This study is being ordered for Evaluation of Pulmonary Hypertension.	1
Neurology	Disapproval	70450 Computed tomography, head or brain; without contrast material	Radiology Services Denied Not Medically Necessary	&lt; Enter answer here - or Type In Unknown If No Info Given. &gt;; This is a request for a brain/head CT.; The study is NOT being requested for evaluation of a headache.; The patient has vision changes.; The patient had a recent onset (within the last 4 weeks) of neurologic symptoms.; This study is being ordered for stroke or aneurysm.; This study is being ordered for a previous stroke or aneurysm.	1
Neurology	Disapproval	70450 Computed tomography, head or brain; without contrast material	Radiology Services Denied Not Medically Necessary	; This is a request for a brain/head CT.; The study is being requested for evaluation of a headache.; The headache is described as chronic or recurring.	2
Neurology	Disapproval	70450 Computed tomography, head or brain; without contrast material	Radiology Services Denied Not Medically Necessary	; This is a request for a brain/head CT.; The study is NOT being requested for evaluation of a headache.; The patient has a sudden change in mental status.; This study is being ordered for something other than trauma or injury, evaluation of known tumor, stroke or aneurysm, infection or inflammation, multiple sclerosis or seizures.	1
Neurology	Disapproval	70450 Computed tomography, head or brain; without contrast material	Radiology Services Denied Not Medically Necessary	memory problems are going on for the past 2 years.Getting worse, forgets where she placed things, On MoCA she score 26/30. Lost 3 points in delayed recall and 1 point in executive domain.&#x0D; Likely early onset alzheimers.; This is a request for a brain/head CT.; The study is NOT being requested for evaluation of a headache.; The patient does not have dizziness, fatigue or malaise, sudden change in mental status, Bell's palsy, Congenital abnormality, loss of smell, hearing loss or vertigo.; This study is being ordered for something other than trauma or injury, evaluation of known tumor, stroke or aneurysm, infection or inflammation, multiple sclerosis or seizures.	1

Neurology	Disapproval	70450 Computed tomography, head or brain; without contrast material	Radiology Services Denied Not Medically Necessary	Pt. has spells while walking and will suddenly be on the floor or sitting in the chair and also fall onto the floor and remains briefly unresponsive until husband finds her and wakes her up. During these spells the pt. becomes unbalanced, dizzy, has chang; This is a request for a brain/head CT.; The study is NOT being requested for evaluation of a headache.; The patient has a sudden change in mental status.; This study is being ordered for something other than trauma or injury, evaluation of known tumor, stroke or aneurysm, infection or inflammation, multiple sclerosis or seizures.	1
Neurology	Disapproval	70450 Computed tomography, head or brain; without contrast material	Radiology Services Denied Not Medically Necessary	SEVERE HEADACHE, LOSS OF VISION IN LEFT EYE; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI. This is a request for a brain/head CT.; Changing	1
Neurology	Disapproval	70450 Computed tomography, head or brain; without contrast material	Radiology Services Denied Not Medically Necessary	neurologic symptoms best describes the reason that I have requested this test.	5
Neurology	Disapproval	70450 Computed tomography, head or brain; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for a brain/head CT.; Known or suspected blood vessel abnormality (AVM, aneurysm) with documented new or changing signs and or symptoms best describes the reason that I have requested this test.; This is NOT a Medicare member.	1
Neurology	Disapproval	70450 Computed tomography, head or brain; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for a brain/head CT.; 'None of the above' best describes the reason that I have requested this test.; None of the above best describes the reason that I have requested this test.	4
Neurology	Disapproval	70450 Computed tomography, head or brain; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for a brain/head CT.; The patient has a chronic headache, longer than one month; Headache best describes the reason that I have requested this test.	6
Neurology	Disapproval	70450 Computed tomography, head or brain; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for a brain/head CT.; The patient has the worst headache of patient's life with onset in the past 5 days; Headache best describes the reason that I have requested this test.; This is NOT a Medicare member.	1

Neurology	Disapproval	70486 Computed tomography, maxillofacial area; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for a Sinus CT.; This study is being ordered for pre-operative evaluation.; Yes this is a request for a Diagnostic CT	1
Neurology	Disapproval	70486 Computed tomography, maxillofacial area; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for a Sinus CT.; This study is being ordered for sinusitis.; The patient is NOT immune-compromised.; The patient's current rhinosinusitis symptoms are described as (sudden onset of 2 or more symptoms of nasal discharge, blockage or congestion, facial pain, pressure and reduction or loss of sense of smell, which are less than 12 wks in duration); It has been 14 or more days since onset; Yes this is a request for a Diagnostic CT	1
Neurology	Disapproval	70486 Computed tomography, maxillofacial area; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for a Sinus CT.; This study is being ordered for sinusitis.; The patient is NOT immune-compromised.; The patient's current rhinosinusitis symptoms are described as Recurrent Acute Rhinosinusitis (4 or more acute episodes per year); Yes this is a request for a Diagnostic CT	1
Neurology	Disapproval	70496 Computed tomographic angiography, head, with contrast material(s), including noncontrast images, if performed, and image postprocessing	Radiology Services Denied Not Medically Necessary	; This study is being ordered for Vascular Disease.; WILL JUST UPLOAD NOTES; There has been treatment or conservative therapy.; ; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurology	Disapproval	70496 Computed tomographic angiography, head, with contrast material(s), including noncontrast images, if performed, and image postprocessing	Radiology Services Denied Not Medically Necessary	Yes, this is a request for CT Angiography of the brain.	3

Neurology	Disapproval	70498 Computed tomographic angiography, neck, with contrast material(s), including noncontrast images, if performed, and image postprocessing	Radiology Services Denied Not Medically Necessary	; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Neurology	Disapproval	70540 Magnetic resonance (eg, proton) imaging, orbit, face, and/or neck; without contrast material(s)	Radiology Services Denied Not Medically Necessary	; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	2
Neurology	Disapproval	70540 Magnetic resonance (eg, proton) imaging, orbit, face, and/or neck; without contrast material(s)	Radiology Services Denied Not Medically Necessary	At this point in time I would recommend that we get an MRI of the brain and orbits to make sure there is nothing else neurologically going on involving the trigeminal nerve distribution. We'll also do a sedimentation rate, ANA, CRP and CBC. I discussed wi; This study is being ordered for a neurological disorder.; 12/29/2017; There has been treatment or conservative therapy.; her right side over the last 3 weeks she has had a constellation of symptoms including constant pain that is more than just a deep ache above the right eye and retro-orbital he. Her vision has not been impaired. She also has had intermittent sharp pains s; She has been taking gabapentin for pain; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurology	Disapproval	70540 Magnetic resonance (eg, proton) imaging, orbit, face, and/or neck; without contrast material(s)	Radiology Services Denied Not Medically Necessary	Blurry vision: &#x0D; Plan:&#x0D; MRI orbit wow contrast to rule out lesions as she has history of suspected MS in the past&#x0D; Refer to NeuroOphthalmology; There is not a suspicion of an infection or abscess.; This examination is NOT being requested to evaluate lymphadenopathy or mass.; There is not a suspicion of a bone infection (osteomyelitis).; There is NOT a suspicion of an orbit or face neoplasm, tumor, or metastasis.; This is a request for an Orbit MRI.; There is not a history of orbit or face trauma or injury.	1

Neurology	Disapproval	70540 Magnetic resonance (eg, proton) imaging, orbit, face, and/or neck; without contrast material(s)	Radiology Services Denied Not Medically Necessary	Headaches for ~15 years, etiology is unclear; This study is being ordered for trauma or injury.; 01/01/2003; There has been treatment or conservative therapy.; chronic headaches; Headaches for ~15 years, etiology is unclear, her chart stated TBI Other Ddx includes analgesic rebound headaches, possible migraines, tension headaches vs others. She is on Neurontin 100 mg TID for ? neuropathy, I recommended trial of Neurontin 100-100-2; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurology	Disapproval	70540 Magnetic resonance (eg, proton) imaging, orbit, face, and/or neck; without contrast material(s)	Radiology Services Denied Not Medically Necessary	This is for CPT 70543 MRI Orbit Face & Neck w/ & w/o contrast. This 53 year old female presents with ocular migraines. Ms. Schulte is a 53 year old woman who comes to the clinic today for evaluation of ocular migraines. She has been having headache; There is not a suspicion of an infection or abscess.; This examination is NOT being requested to evaluate lymphadenopathy or mass.; There is not a suspicion of a bone infection (osteomyelitis).; There is NOT a suspicion of an orbit or face neoplasm, tumor, or metastasis.; This is a request for a Face MRI.; It is unknown if there is a history of orbit or face trauma or injury.	1
Neurology	Disapproval	70544 Magnetic resonance angiography, head; without contrast material(s)	Radiology Services Denied Not Medically Necessary	; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	2
Neurology	Disapproval	70544 Magnetic resonance angiography, head; without contrast material(s)	Radiology Services Denied Not Medically Necessary	; There is not an immediate family history of aneurysm.; The patient does not have a known aneurysm.; The patient has not had a recent MRI or CT for these symptoms.; There has not been a stroke or TIA within the past two weeks.; This is a request for a Brain MRA.	1

Neurology	Disapproval	70544 Magnetic resonance angiography, head; without contrast material(s)	Radiology Services Denied Not Medically Necessary	DOUBLE STUDY + MRA = AUTOMATIC REVIEW REGARDLESS HOW WE ANSWER ANYTHING. WILL JUST FAX NOTES.; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; DOUBLE STUDY + MRA = AUTOMATIC REVIEW REGARDLESS HOW WE ANSWER ANYTHING. WILL JUST FAX NOTES.; There has been treatment or conservative therapy.; DOUBLE STUDY + MRA = AUTOMATIC REVIEW REGARDLESS HOW WE ANSWER ANYTHING. WILL JUST FAX NOTES.; DOUBLE STUDY + MRA = AUTOMATIC REVIEW REGARDLESS HOW WE ANSWER ANYTHING. WILL JUST FAX NOTES.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurology	Disapproval	70544 Magnetic resonance angiography, head; without contrast material(s)	Radiology Services Denied Not Medically Necessary	There is not an immediate family history of aneurysm.; The patient does not have a known aneurysm.; The patient has had a recent MRI or CT for these symptoms.; There has not been a stroke or TIA within the past two weeks.; This is a request for a Brain MRA.	3
Neurology	Disapproval	70544 Magnetic resonance angiography, head; without contrast material(s)	Radiology Services Denied Not Medically Necessary	There is not an immediate family history of aneurysm.; The patient does not have a known aneurysm.; The patient has not had a recent MRI or CT for these symptoms.; There has not been a stroke or TIA within the past two weeks.; This is a request for a Brain MRA.	5
Neurology	Disapproval	70544 Magnetic resonance angiography, head; without contrast material(s)	Radiology Services Denied Not Medically Necessary	will just upload or fax notes; There is not an immediate family history of aneurysm.; The patient does not have a known aneurysm.; The patient has had a recent MRI or CT for these symptoms.; There has not been a stroke or TIA within the past two weeks.; This is a request for a Brain MRA.	1

Neurology	Disapproval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Radiology Services Denied Not Medically Necessary	HEADACHES WITH EPISODIC CONFUSION; This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The patient has a chronic or recurring headache.	1
Neurology	Disapproval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Radiology Services Denied Not Medically Necessary	headaches, abnormal MRI; This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The patient has a chronic or recurring headache.	1

Neurology	Disapproval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Radiology Services Denied Not Medically Necessary	Member has falls.; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; The patient has dizziness.; It is unknown why this study is being ordered.	1
Neurology	Disapproval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Radiology Services Denied Not Medically Necessary	memory problems are going on for the past 2 years.Getting worse, On neurological examination no focal deficits. On MoCA she score 26/30. Lost 3 points in delayed recall and 1 point in executive domain.&#x0D; Likely early onset alzheimers.; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; The patient does not have dizziness, fatigue or malaise, sudden change in mental status, Bell's palsy, Congenital abnormality, loss of smell, hearing loss or vertigo.; It is unknown why this study is being ordered.	1
Neurology	Disapproval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Radiology Services Denied Not Medically Necessary	Ms. Leah D James is a 37 y.o. female who is concerned about MS, because she thinks that she had some symptoms. 5 years ago, she began having "chronic fatigue" after her last child. She was told about being a single parent. Then, a sleep study told her of; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; The patient has dizziness.; The patient had a recent onset (within the last 4 weeks) of neurologic symptoms.; This study is being ordered for Multiple Sclerosis.; The patient has new symptoms.	1
Neurology	Disapproval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Radiology Services Denied Not Medically Necessary	notes will be uploaded; This study is being ordered for a neurological disorder.; unknown; It is not known if there has been any treatment or conservative therapy.; Dysesthesia on both sides, memory loss, neuropathy, and word finding difficulty.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

Neurology	Disapproval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Radiology Services Denied Not Medically Necessary	PATIENT HAS UNDERGONE INJECTIONS, TREATMENT WITH MEDICATION WITH WHAT APPEARS TO BE CONSISTENT WITH FAILED LOW BACK SYNDROME.; This study is being ordered for a neurological disorder.; UNKNOWN; There has been treatment or conservative therapy.; WORSENING, RADIATING CERVICAL SPINE PAIN. HEADACHES WITH EPISODIC CONFUSION.; THERAPY WITH MOBIC ONCE A DAY. PLACED ON STEROID DOSE PACK; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurology	Disapproval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Radiology Services Denied Not Medically Necessary	Patient with chronic headache and trigeminal neuralgia with history of Chiari malformation on MRI without imaging follow-up needs new MRI for worsening headache.; This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The patient has a chronic or recurring headache.	1
Neurology	Disapproval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Radiology Services Denied Not Medically Necessary	Patient with head injury in accident worsening memory and cognitive function since.; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; The patient does NOT have a recent onset (within the last 4 weeks) of neurologic symptoms.; This study is being ordered for trauma or injury.	1
Neurology	Disapproval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Radiology Services Denied Not Medically Necessary	patient's headaches are worsening and more frequent; This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The patient has a chronic or recurring headache.	1
Neurology	Disapproval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Radiology Services Denied Not Medically Necessary	This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The headache is described as chronic or recurring.; The headache is presenting with a sudden change in severity, associated with exertion, or a mental status change.	1

Neurology	Disapproval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Radiology Services Denied Not Medically Necessary	This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The headache is described as sudden and severe.; There recent neurological deficits on exam such as one sided weakness, speech impairments or vision defects.	1
Neurology	Disapproval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Radiology Services Denied Not Medically Necessary	This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Requested for evaluation of seizures; There has not been a previous Brain MRI completed.	1
Neurology	Disapproval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Radiology Services Denied Not Medically Necessary	This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; This study is being ordered for seizures.; There has been a change in seizure pattern or a new seizure.	1
Neurology	Disapproval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Radiology Services Denied Not Medically Necessary	Urinary incontinence. Left sided weakness. Double vision. Fatigue.; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; The patient has fatigue or malaise; It is unknown why this study is being ordered.	1
Neurology	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	Abnormal imaging test describes the reason for this request.; This is a request for a Chest CT.; Yes this is a request for a Diagnostic CT	2
Neurology	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	Abnormal laboratory test describes the reason for this request.; This is a request for a Chest CT.; Yes this is a request for a Diagnostic CT	1
Neurology	Disapproval	72125 Computed tomography, cervical spine; without contrast material	Radiology Services Denied Not Medically Necessary	; This study is not to be part of a Myelogram.; This is a request for a Cervical Spine CT; Call does not know if there is a reason why the patient cannot have a Cervical Spine MRI.	1

Neurology	Disapproval	72125 Computed tomography, cervical spine; without contrast material	Radiology Services Denied Not Medically Necessary	Low back pain. Going on for more than past 15 years. She says she started having pain after she had multiple lumbar punctures when she was 19 years old for viral meningitis. Getting worse. Lower back. She has radiating pain to the side of her lower back to; This study is being ordered for a neurological disorder.; 09/18/2017; There has been treatment or conservative therapy.; Low back pain. Going on for more than past 15 years. She says she started having pain after she had multiple lumbar punctures when she was 19 years old for viral meningitis. Getting worse. Lower back. She has radiating pain to the side of her lower back to; FLEXERIL IN THE PAST; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurology	Disapproval	72125 Computed tomography, cervical spine; without contrast material	Radiology Services Denied Not Medically Necessary	tingling, tremors, dizziness, and frequent or severe headaches; Rest tremors In the right upper extremity. Cogwheel rigidity on the right Reduced arm swing on the right. Pull back test negative. pt stated he has pain in the left and right side of his neck ; This study is not to be part of a Myelogram.; This is a request for a Cervical Spine CT; There is no reason why the patient cannot have a Cervical Spine MRI.	1

Neurology	Disapproval	72131 Computed tomography, lumbar spine; without contrast material	Radiology Services Denied Not Medically Necessary	Low back pain. Going on for more than past 15 years. She says she started having pain after she had multiple lumbar punctures when she was 19 years old for viral meningitis. Getting worse. Lower back. She has radiating pain to the side of her lower back to; This study is being ordered for a neurological disorder.; 09/18/2017; There has been treatment or conservative therapy.; Low back pain. Going on for more than past 15 years. She says she started having pain after she had multiple lumbar punctures when she was 19 years old for viral meningitis. Getting worse. Lower back. She has radiating pain to the side of her lower back to; FLEXERIL IN THE PAST; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

Neurology	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary		1
Neurology	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI. ; This is a request for cervical spine MRI; Acute or Chronic neck and/or back pain; It is not known if the patient does have new or changing neurologic signs or symptoms.; It is not known if the patient has had back pain for over 4 weeks.	3
Neurology	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	; This is a request for cervical spine MRI; Acute or Chronic neck and/or back pain; It is not known if the patient does have new or changing neurologic signs or symptoms.; The patient has NOT had back pain for over 4 weeks.	1
Neurology	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	; This is a request for cervical spine MRI; Acute or Chronic neck and/or back pain; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; Patient is a 30-year-old woman who is referred here for evaluation of the possible Charcot-Marie-Tooth disease. Patient said that She has family history of Charcot Marie Tooth disease, including her father, her brother and sister. Patient has history of ; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; There is not x-ray evidence of a recent cervical spine fracture.	1

Neurology	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	; This is a request for cervical spine MRI; Neurological deficits; The patient does have new or changing neurologic signs or symptoms.; There is reflex abnormality.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; It is not known if there is x-ray evidence of a recent cervical spine fracture.; DocumReflex Scores: Tricep reflexes are 1+ on the right side and 1+ on the left side.; Bicep reflexes are 1+ on the right side and 1+ on the left side.; Brachioradialis reflexes are 1+ on the right side and 1+ on the left side.; Patel	1
Neurology	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	; This is a request for cervical spine MRI; Neurological deficits; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; ; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; There is not x-ray evidence of a recent cervical spine fracture.	1
Neurology	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	; This is a request for cervical spine MRI; There is no laboratory or x-ray evidence of osteomyelitis.; Known or Suspected Multiple Sclerosis, Infection or abscess; There is not laboratory or x-ray evidence of meningitis.; There is not laboratory or x-ray evidence of a paraspinal abscess.; There is not laboratory or x-ray evidence of an infected disc, septic arthritis, or "discitis".	2
Neurology	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	; This study is being ordered for a neurological disorder.; 03/13/17; There has been treatment or conservative therapy.; ; ; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

Neurology	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	; This study is being ordered for a neurological disorder.; pain; There has been treatment or conservative therapy.; neck pain, back pain; drug therapy; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurology	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	; This study is being ordered for trauma or injury.; 3 years ago had head injury, not sure of date; It is not known if there has been any treatment or conservative therapy.; intermittent headaches especially when he strains. If he tries to pick up something heavy or coughs that's when he has the headache. It is very intense for 1-2 minutes. 10/10 in severity. Sharp pain, Received neck injections in the past. Helped. Recently ; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurology	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	60-year-old with weakness and fatigue at this point in time neuromuscular workup has revealed only mild neuropathy nothing that would account for his significant amount of fatigue and weakness.; This study is being ordered for Congenital Anomaly.; unknown; There has not been any treatment or conservative therapy.; of numbness and tingling in like a feeling as well as weakness. He has had a nerve conduction study performed which did show moderate axonal demyelinating neuropathy; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

Neurology	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	Back pain with radiculopathy.; This study is being ordered for a neurological disorder.; 1980; There has been treatment or conservative therapy.; Back pain with radiculopathy; Gabapentin; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurology	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	Clinical Notes: She will continue her pain management at Dr. Ghaleb's office and I would continue her Strattera 40 mg to help her focus. She would also get an MRI of her brain and C-spine to rule out the possibility of multiple sclerosis in view of double; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Neurology	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	Headaches 2-3x a month, but quite severe when they occur. Fibromyalgia.Pt states she had a MVA in 2016. Numbness and tingling in bilateral feet. Pain in the left hip. Numbness left lower back down to left buttocks to back of thigh. Had PT with no relief. ; This is a request for cervical spine MRI; Neurological deficits; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; ; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; There is not x-ray evidence of a recent cervical spine fracture.	1

Neurology	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	It is not known if the patient has failed a course of anti-inflammatory medication or steroids.; This is a request for cervical spine MRI; It is not known if there has been a supervised trial of conservative management for at least six weeks.; Acute or Chronic neck and/or back pain; Yes, the patient demonstrate neurological deficits.; No, there is not a documented evidence of extremity weakness on physical examination.; No, there is no evidence of recent development of unilateral muscle wasting.; It is not known if this patient had a recent course of supervised physical Therapy.; No, the patient did not have six weeks of Chiropractic care related to this episode.;	1
Neurology	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	MS.; This is a request for cervical spine MRI; It is not known if there is laboratory evidence of osteomyelitis.; Known or Suspected Multiple Sclerosis, Infection or abscess; There is not laboratory or x-ray evidence of meningitis.; There is not laboratory or x-ray evidence of a paraspinal abscess.; There is not laboratory or x-ray evidence of an infected disc, septic arthritis, or "discitis".	1
Neurology	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	None; This is a request for cervical spine MRI; Acute or Chronic neck and/or back pain; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; Hand weakness finger weakness and wrist weakness; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; There is not x-ray evidence of a recent cervical spine fracture.	1
Neurology	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	numbness in the right shoulder area. No weakness in the arms.Bilateral hand action tremor, Neck pain - Seems consistent with cervical radiculopathy. Due to her tremor. Bilateral normal arm swing, normal turnaround, negative pullback test.; This is a request for cervical spine MRI; Acute or Chronic neck and/or back pain; The patient does have new or changing neurologic signs or symptoms.; There is no weakness or reflex abnormality.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; There is not x-ray evidence of a recent cervical spine fracture.	1

Neurology	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	PATIENT HAS UNDERGONE INJECTIONS, TREATMENT WITH MEDICATION WITH WHAT APPEARS TO BE CONSISTENT WITH FAILED LOW BACK SYNDROME.; This study is being ordered for a neurological disorder.; UNKNOWN; There has been treatment or conservative therapy.; WORSENING, RADIATING CERVICAL SPINE PAIN. HEADACHES WITH EPISODIC CONFUSION.; THERAPY WITH MOBIC ONCE A DAY. PLACED ON STEROID DOSE PACK; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurology	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	Problem #1: She was referred for chief issue of numbness and tingling in her left hand. EMG/NCV testing negative. Symptoms started early November. Her left arm felt swollen. She had an achy, dull discomfort that traveled all the way up to the left ar; This is a request for cervical spine MRI; None of the above; The patient does have new or changing neurologic signs or symptoms.; There is no weakness or reflex abnormality.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; There is not x-ray evidence of a recent cervical spine fracture.	1
Neurology	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	Still has pain in his neck with radiation down into the right arm. IF he holds a book or his iPad he begins having numbness and tingling in his arm and has to put it down and stop.&#x0D; Patient has tried and failed a 6 week regimen of PT as well.; This is a request for cervical spine MRI; Acute or Chronic neck and/or back pain; The patient does have new or changing neurologic signs or symptoms.; It is not known if there is weakness or reflex abnormality.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; It is not known if there is x-ray evidence of a recent cervical spine fracture.	1

Neurology	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	The patient has failed a course of anti-inflammatory medication or steroids.; This is a request for cervical spine MRI; There has been a supervised trial of conservative management for at least 6 weeks.; Acute or Chronic neck and/or back pain; No, the patient does not demonstrate neurological deficits.; It is not known if this patient had a recent course of supervised physical Therapy.	1
Neurology	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	The patient has not failed a course of anti-inflammatory medication or steroids.; This is a request for cervical spine MRI; There has been a supervised trial of conservative management for at least 6 weeks.; Acute or Chronic neck and/or back pain; No, the patient does not demonstrate neurological deficits.; No, this patient did not have a recent course of supervised physical Therapy.; No, the patient did not have six weeks of Chiropractic care related to this episode.; &Enter Additional Clinical Information&gt;	1
Neurology	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for cervical spine MRI; Acute or Chronic neck and/or back pain; The patient does have new or changing neurologic signs or symptoms.; The patient does have new signs or symptoms of bladder or bowel dysfunction.	1
Neurology	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for cervical spine MRI; Acute or Chronic neck and/or back pain; Yes, the patient demonstrate neurological deficits.; yes, there is a documented evidence of extremity weakness on physical examination.	1
Neurology	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for cervical spine MRI; Neurological deficits; ; No, the patient is not experiencing or presenting new symptoms of upper extremity weakness?; No, the patient is not demonstrating unilateral muscle wasting.; No, the patient is not experiencing or presenting new symptoms of Bowel or bladder dysfunction.; Yes, the patient is experiencing new onset of parathesia diagnosed by a neurologist.; No, the patient is not experiencing or presenting x-ray evidence of a recent fracture.	1

Neurology	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	<p>This is a request for cervical spine MRI; Neurological deficits; 3/6/18; Subjective: John Bracknell is a 31 y.o. male who complains of tingling and numbness in his left arm and leg, present for past couple of years. No weakness. Not in face. May lose control of his hand and does have pain in left arm. Numbness in l; No, the patient is not experiencing or presenting new symptoms of upper extremity weakness?; No, the patient is not demonstrating unilateral muscle wasting.; No, the patient is not experiencing or presenting new symptoms of Bowel or bladder dysfunction.; Yes, the patient is experiencing new onset of parathesia diagnosed by a neurologist.; No, the patient is not experiencing or presenting x-ray evidence of a recent fracture.</p>	1
-----------	-------------	---	---	--	---

Neurology	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	<p>This is a request for cervical spine MRI; Neurological deficits; Mr. Jon Zolliecoffer is a 20 y.o. male with DJD C/T/L spine, muscle cramping, paresthesias/numbness with radiation. His spina bifida history predisposes him to much pain, and DJD changes. He will likely need pain management, as well as imaging of the res; No, the patient is not experiencing or presenting new symptoms of upper extremity weakness?; No, the patient is not demonstrating unilateral muscle wasting.; No, the patient is not experiencing or presenting new symptoms of Bowel or bladder dysfunction.; Yes, the patient is experiencing new onset of parathesia diagnosed by a neurologist.; No, the patient is not experiencing or presenting x-ray evidence of a recent fracture.</p>	1
-----------	-------------	---	---	---	---

Neurology	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for cervical spine MRI; Neurological deficits; Numbness and tingling his hands bilaterally that has been ongoing for about a year. He has not had any neck imaging in the past and denies any prior neck injury. He does not have nay problems with his glucose levels and had his Gabapentin titrated up earl; No, the patient is not experiencing or presenting new symptoms of upper extremity weakness?; No, the patient is not demonstrating unilateral muscle wasting.; No, the patient is not experiencing or presenting new symptoms of Bowel or bladder dysfunction.; Yes, the patient is experiencing new onset of parathesia diagnosed by a neurologist.; No, the patient is not experiencing or presenting x-ray evidence of a recent fracture.	1
Neurology	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for cervical spine MRI; Neurological deficits; Yes, the patient is experiencing or presenting new symptoms of upper extremity weakness.	2
Neurology	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for cervical spine MRI; None of the above; &Enter Additional Clinical Information&gt;; No, the patient is not experiencing or presenting new symptoms of upper extremity weakness?; No, the patient is not demonstrating unilateral muscle wasting.; No, the patient is not experiencing or presenting new symptoms of Bowel or bladder dysfunction.; Yes, the patient is experiencing new onset of parathesia diagnosed by a neurologist.; No, the patient is not experiencing or presenting x-ray evidence of a recent fracture.	1
Neurology	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for cervical spine MRI; Pre-Operative Evaluation; Surgery is scheduled within the next 4 weeks.; The last Cervical Spine MRI was not performed within the past two weeks.	1
Neurology	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for cervical spine MRI; There has been a supervised trial of conservative management for at least 6 weeks.; Acute or Chronic neck and/or back pain; It is not known if the patient demonstrate neurological deficits.; Yes, this patient had a recent course of supervised physical Therapy.	1

Neurology	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for cervical spine MRI; There has been a supervised trial of conservative management for at least 6 weeks.; Acute or Chronic neck and/or back pain; Yes, the patient demonstrate neurological deficits.; No, there is not a documented evidence of extremity weakness on physical examination.; No, there is no evidence of recent development of unilateral muscle wasting.; Yes, this patient had a recent course of supervised physical Therapy.	1
Neurology	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for cervical spine MRI; There has not been a supervised trial of conservative management for at least 6 weeks.; Acute or Chronic neck and/or back pain; Yes, the patient demonstrate neurological deficits.; No, there is not a documented evidence of extremity weakness on physical examination.; No, there is no evidence of recent development of unilateral muscle wasting.; Impression; Occipital neuralgia may be due to disc, bone,, or muscular problems with the neck. Commonly it is of unknown cause and might derive from the inflammation.; Patient Plan; Continue efforts to use heat and neck pillows.; Ask your PT and OT colle	1
Neurology	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for cervical spine MRI; There is evidence of tumor or metastasis on a bone scan or x-ray.; Suspected Tumor with or without Metastasis	1
Neurology	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for cervical spine MRI; There is no laboratory or x-ray evidence of osteomyelitis.; Known or Suspected Multiple Sclerosis, Infection or abscess; ; No, there are no documented clinical findings of Multiple sclerosis.; No, there is not a laboratory or x-ray evidence of Meningitis.; No, there is not a laboratory or x-ray evidence of an infected disc, septic arthritis or "discitis".; No, there is no laboratory or x-ray evidence of a paraspinal abscess.	1

Neurology	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	UNKNOWN; This is a request for cervical spine MRI; Acute or Chronic neck and/or back pain; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; SUPPLE WITHOUT MENINGEAL SIGNS. SPASM NOTED IN THE CERVICAL SPINE WITH REDUCED RANGE OF MOTION.; It is not known if the patient has new signs or symptoms of bladder or bowel dysfunction.; There is not x-ray evidence of a recent cervical spine fracture.	1
Neurology	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	UNKNOWN; This is a request for cervical spine MRI; Neurological deficits; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; ARTHRITIC CHANGES NOTED ON PRIOR MRI AT THE C5-6 AND AT THE C6-7 DISC SPACE LEVELS. RADIATING COMPONENT AND NUMBNESS IN EXTREMITIES.; It is not known if the patient has new signs or symptoms of bladder or bowel dysfunction.; There is not x-ray evidence of a recent cervical spine fracture.	1
Neurology	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	unknown; This study is being ordered for Inflammatory/ Infectious Disease.; 03/03/2015; There has been treatment or conservative therapy.; CHRONIC NECK PAIN AND WORSENING LOW BACK PAIN. PRIOR HISTORY OF SURGERY TO CERVICAL SPINE WITH FUSIONS COUPLED WITH SEVERE ARTHRITIC, DEGENERATIVE CHANGES NOTES IN THE LOW BACK REGION. RADIATING NECK AND LOW BACK PAIN TO EXTREMITIES.; Medication Therapy; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

Neurology	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	Will FAX clinical; This is a request for cervical spine MRI; Neurological deficits; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; the Pt has weakness in left insraspirnatus, FPL; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; There is not x-ray evidence of a recent cervical spine fracture.	1
Neurology	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	worsening pain in arm on right side poss bilat CTS; This is a request for cervical spine MRI; Acute or Chronic neck and/or back pain; The patient does have new or changing neurologic signs or symptoms.; There is no weakness or reflex abnormality.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; There is not x-ray evidence of a recent cervical spine fracture.	1
Neurology	Disapproval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	Radiology Services Denied Not Medically Necessary	&lt; Enter answer here - or Type In Unknown If No Info Given. &gt;; This study is being ordered for a neurological disorder.; 9/2017; There has been treatment or conservative therapy.; &lt; Describe primary symptoms here - or Type In Unknown If No Info Given &gt;; RX; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurology	Disapproval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	Radiology Services Denied Not Medically Necessary	; This is a request for a thoracic spine MRI.; Neurological deficits; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; MS; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is recent evidence of a thoracic spine fracture.	1

Neurology	Disapproval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	Radiology Services Denied Not Medically Necessary	60-year-old with weakness and fatigue at this point in time neuromuscular workup has revealed only mild neuropathy nothing that would account for his significant amount of fatigue and weakness.; This study is being ordered for Congenital Anomaly.; unknown; There has not been any treatment or conservative therapy.; of numbness and tingling in like a feeling as well as weakness. He has had a nerve conduction study performed which did show moderate axonal demyelinating neuropathy; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurology	Disapproval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	Radiology Services Denied Not Medically Necessary	Chronic pain syndrome &#x0D; 1. Chronic pain syndrome - complains of midthoracic and lower back pain, questionable history of fibromyalgia.&#x0D; - Schedule MRI midthoracic back and MRI lumbar spine to further evaluate anatomical changes. Possible trigger point ; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Neurology	Disapproval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	Radiology Services Denied Not Medically Necessary	It is not known if the patient has any neurological deficits.; This is a request for a thoracic spine MRI.; There has been a supervised trial of conservative management for at least 6 weeks.; The study is being ordered due to chronic back pain or suspected degenerative disease.; The patient is experiencing sensory abnormalities such as numbness or tingling.	1

Neurology	Disapproval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	Radiology Services Denied Not Medically Necessary	migraines, lower back pain,; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 11/2017; There has been treatment or conservative therapy.; pt. have fatigue, pain and paroxysmal symptoms, spasticity and bladder problems; medication; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurology	Disapproval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	Radiology Services Denied Not Medically Necessary	The patient does have neurological deficits.; This is a request for a thoracic spine MRI.; The study is being ordered due to chronic back pain or suspected degenerative disease.; The patient is experiencing or presenting symptoms of abnormal gait.	3
Neurology	Disapproval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	Radiology Services Denied Not Medically Necessary	The patient does have neurological deficits.; This is a request for a thoracic spine MRI.; There has been a supervised trial of conservative management for at least 6 weeks.; The study is being ordered due to chronic back pain or suspected degenerative disease.; The patient is experiencing sensory abnormalities such as numbness or tingling.; The patient is not experiencing or presenting symptoms of abnormal gait, lower extremity weakness, asymmetric reflexes, fracture, radiculopathy or bowel or bladder dysfunction.	1
Neurology	Disapproval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for a thoracic spine MRI.; The study is being ordered due to Neurological deficits.; ; The patient is experiencing or presenting symptoms of lower extremity weakness documented on physical exam. &lt; Enter answer here - or Type In Unknown If No Info Given. &gt;; The study requested is a Lumbar Spine MRI.;	1
Neurology	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	None of the above; It is not known if the patient does have new or changing neurologic signs or symptoms.; It is not known if the patient has had back pain for over 4 weeks.	1

Neurology	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	&lt; Enter answer here - or Type In Unknown If No Info Given. &gt;; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; &lt; Enter date of initial onset here - or Type In Unknown If No Info Given &gt;; It is not known if there has been any treatment or conservative therapy.; &lt; Describe primary symptoms here - or Type In Unknown If No Info Given &gt;; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurology	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	&lt; Enter answer here - or Type In Unknown If No Info Given. &gt;; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 1/4/2017; There has been treatment or conservative therapy.; staring spells, imbalance; meds; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology ; The study requested is a Lumbar Spine MRI.; Neurological deficits; The patient does have new or changing neurologic signs or symptoms.; There is no weakness or reflex abnormality.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	1
Neurology	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary		1

Neurology	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	; The study requested is a Lumbar Spine MRI.; Neurological deficits; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; ; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	1
Neurology	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	; This study is being ordered for a neurological disorder.; pain; There has been treatment or conservative therapy.; neck pain, back pain; drug therapy; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurology	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	; This study is being ordered for a neurological disorder.; WILL JUST UPLOAD NOTES; There has been treatment or conservative therapy.; ; ; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

Neurology	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; initial onset 2015 but got worse in sept if 2017. &#x0D; &#x0D; patient had an anterior cervical fusion on 10-25-17, is having numbness in all extremities; There has not been any treatment or conservative therapy.; bilateral hands and fingers numbness and tingling, grip issues and weakness in hands, and neck pain. &#x0D; unsteady gait; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurology	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	AMBETTER=AUTOMATIC REVIEW, WILL JUST UPLOAD NOTES.; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; There is no weakness or reflex abnormality.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	1
Neurology	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	Back pain with radiculopathy.; This study is being ordered for a neurological disorder.; 1980; There has been treatment or conservative therapy.; Back pain with radiculopathy; Gabapentin; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

Neurology	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	Chronic pain syndrome &#x0D; 1. Chronic pain syndrome - complains of midthoracic and lower back pain, questionable history of fibromyalgia.&#x0D; - Schedule MRI midthoracic back and MRI lumbar spine to further evaluate anatomical changes. Possible trigger point ; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Neurology	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	D/D include benign cramp-fasciculation syndrome vs lumbar radiculopathy vs less likely myopathies/myositis. Will run some tests to identify the pathology.; The study requested is a Lumbar Spine MRI.; The patient does NOT have acute or chronic back pain.; The patient has none of the above.; This procedure is being requested for Trauma or recent injury	1
Neurology	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	Low back pain and bilateral leg pain and right foot pain. We need to evaluate for lumbosacral radiculopathy, peripheral neuropathy and right foot pathology including soft tissue injury and plantar fasciitis and complex regional pain syndrome.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Neurology	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	patient has lumbar degenerative disc disease and needs repeat lumbar Mri for follow up; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; Triceps 5/5 5/5 ( some give away weakness noted through out) &#x0D; EMG done 08/2017; There is electrodiagnostic evidence of presence of possible accessory right peroneal motor nerve which is a common variant branch of the superficial pe; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	1

Neurology	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	The study requested is a Lumbar Spine MRI.; Neurological deficits; The patient does have new or changing neurologic signs or symptoms.; The patient does have a new foot drop.	1
Neurology	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has Neurological deficit(s)	4
Neurology	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	unknown; This study is being ordered for Inflammatory/ Infectious Disease.; 03/03/2015; There has been treatment or conservative therapy.; CHRONIC NECK PAIN AND WORSENING LOW BACK PAIN. PRIOR HISTORY OF SURGERY TO CERVICAL SPINE WITH FUSIONS COUPLED WITH SEVERE ARTHRITIC, DEGENERATIVE CHANGES NOTES IN THE LOW BACK REGION. RADIATING NECK AND LOW BACK PAIN TO EXTREMITIES.; Medication Therapy; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Neurology	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	WILL JUST UPLOAD NOTES; The study requested is a Lumbar Spine MRI.; The patient does NOT have acute or chronic back pain.; This procedure is being requested for None of the above	1
Neurology	Disapproval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Radiology Services Denied Not Medically Necessary	&lt; Enter answer here - or Type In Unknown If No Info Given. &gt;; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Neurology	Disapproval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	Radiology Services Denied Not Medically Necessary	Low back pain and bilateral leg pain and right foot pain. We need to evaluate for lumbosacral radiculopathy, peripheral neuropathy and right foot pathology including soft tissue injury and plantar fasciitis and complex regional pain syndrome.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Neurology	Disapproval	76390 Magnetic resonance spectroscopy	Radiology Services Denied Not Medically Necessary	; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1

Neurology	Disapproval	78608 Brain imaging, positron emission tomography (PET); metabolic evaluation	Radiology Services Denied Not Medically Necessary	This is a request for a Metabolic Brain PET scan; This study is being ordered for refractory seizures.; This study is being ordered for pre-surgical evaluation.	1
Neurology	Disapproval	93307 Echocardiography, transthoracic, real-time with image documentation (2D), includes M-mode recording, when performed, complete, without spectral or color Doppler echocardiography	Radiology Services Denied Not Medically Necessary	This a request for an echocardiogram.; This is a request for a Transthoracic Echocardiogram.; This study is being ordered for another reason; This study is being ordered for evaluation of abnormal symptoms, physical exam findings, or diagnostic studies (chest x-ray or EKG) indicative of heart disease.; This is for the initial evaluation of abnormal symptoms, physical exam findings, or diagnostic studies (chest x-ray or EKG) indicatvie of heart disease.; The patient has shortness of breath; Shortness of breath is not related to any of the listed indications.	1
Nuclear Medicine	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Requested for evaluation of seizures; There has not been a previous Brain MRI completed.	1
OB/Gynecology	Approval	70450 Computed tomography, head or brain; without contrast material		C/o a ~2 week h/o bilateral temporal headaches. States has not had a seizure since September. States not relieved by snacks or headaches. States get brief, ~30 minute relief after sleeping. Will get CT head w/o contrast. Still smoking 1 PPD. Aware ; This is a request for a brain/head CT.; The study is being requested for evaluation of a headache.; The headache is described as sudden and severe.; The patient has dizziness.; The patient had a recent onset (within the last 4 weeks) of neurologic symptoms.	1
OB/Gynecology	Approval	70450 Computed tomography, head or brain; without contrast material		This is a request for a brain/head CT.; Recent (in the past month) head trauma with neurologic symptoms/findings best describes the reason that I have requested this test.	1
OB/Gynecology	Approval	70450 Computed tomography, head or brain; without contrast material		This is a request for a brain/head CT.; The patient has a new onset of a headache within the past month; Headache best describes the reason that I have requested this test.	1

OB/Gynecology	Approval	70450 Computed tomography, head or brain; without contrast material	This is a request for a brain/head CT.; The patient has a suspected brain tumor.; Known or suspected tumor best describes the reason that I have requested this test.; There are NO documented neurologic findings suggesting a primary brain tumor.	1
OB/Gynecology	Approval	70540 Magnetic resonance (eg, proton) imaging, orbit, face, and/or neck; without contrast material(s)	R/O tumor/obstruction; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 03/05/2018; There has not been any treatment or conservative therapy.; sudden vision loss, blurry vision; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
OB/Gynecology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	&lt; Enter answer here - or Type In Unknown If No Info Given. &gt;; This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The patient does not have a sudden severe, chronic or recurring or a thunderclap headache.	1
OB/Gynecology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	&lt; Enter answer here - or Type In Unknown If No Info Given. &gt;; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Not requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation, multiple sclerosis, or seizures; The condition is not associated with headache, blurred or double vision or a change in sensation noted on exam.; A metabolic work-up done including urinalysis, electrolytes, and complete blood count with results was not completed.; The patient does NOT have dizziness, fatigue or malaise, Bell's Palsy, a congenital abnormality, loss of smell, hearing loss or vertigo.	1

OB/Gynecology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	hyperprolalin level 56.5 looking at pituitary; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; The patient does not have dizziness, fatigue or malaise, sudden change in mental status, Bell's palsy, Congenital abnormality, loss of smell, hearing loss or vertigo.; It is unknown why this study is being ordered.	1
OB/Gynecology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	R/O tumor/obstruction; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 03/05/2018; There has not been any treatment or conservative therapy.; sudden vision loss, blurry vision; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
OB/Gynecology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The headache is described as chronic or recurring.; The headache is not presenting with a sudden change in severity, associated with exertion, or a mental status change.; There are recent neurological symptoms or deficits such as one sided weakness, speech impairments, or vision defects.	1
OB/Gynecology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The headache is described as chronic or recurring.; The headache is presenting with a sudden change in severity, associated with exertion, or a mental status change.	1
OB/Gynecology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The patient has one sided arm or leg weakness.; The patient has a sudden and severe headache.; The patient had a recent onset (within the last 3 months) of neurologic symptoms.	1

OB/Gynecology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Not requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation,multiple sclerosis, or seizures; The condition is not associated with headache, blurred or double vision or a change in sensation noted on exam.; A metabolic work-up done including urinalysis, electrolytes, and complete blood count with results completed.; The lab results were abnormal; The patient does NOT have dizziness, fatigue or malaise, Bell's Palsy, a congenital abnormality, loss of smell, hearing loss or vertigo.	2
OB/Gynecology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Requested for evaluation of tumor; A biopsy has not been completed to determine tumor tissue type.; There are not recent neurological symptoms such as one-sided weakness, speech impairments, or vision defects.; There is not a new and sudden onset of headache (less than 1 week) not improved by pain medications.; The tumor is a pituitary tumor or pituitary adenoma.; There are physical findings or laboratory values indicating abnormal pituitary hormone levels.; This is NOT a Medicare member.	1
OB/Gynecology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Unknown; This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The patient does not have a sudden severe, chronic or recurring or a thunderclap headache.	1
OB/Gynecology	Approval	71250 Computed tomography, thorax; without contrast material	"There IS evidence of a lung, mediastinal or chest mass noted within the last 30 days."; They did not have a previous Chest x-ray.; A Chest/Thorax CT is being ordered.; This study is being ordered for work-up for suspicious mass.; Yes this is a request for a Diagnostic CT	1
OB/Gynecology	Approval	71250 Computed tomography, thorax; without contrast material	; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	3

OB/Gynecology	Approval	71250 Computed tomography, thorax; without contrast material	INITIAL STAGING ENDOMETRIAL CARCINOMA; This study is being ordered for a metastatic disease.; There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
OB/Gynecology	Approval	71250 Computed tomography, thorax; without contrast material 71275 Computed tomographic angiography, chest (noncoronary), with contrast material(s), including noncontrast images, if performed, and image postprocessing	SURVEILLANCE OF CERVICAL CANCER; This study is being ordered for a metastatic disease.; There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology processed for Dr. Fan see tracking 055698011.; It is not known whether this study is requested to evaluate suspected pulmonary embolus.; This study is being ordered for another reason besides Known or Suspected Congenital Abnormality, Known or suspected Vascular Disease.; Yes, this is a request for a Chest CT Angiography.	1
OB/Gynecology	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	The study requested is a Lumbar Spine MRI.; The patient does NOT have acute or chronic back pain.; This procedure is being requested for Neurologic deficits	1
OB/Gynecology	Approval	72192 Computed tomography, pelvis; without contrast material	&lt; Enter answer here - or Type In Unknown If No Info Given. &gt;; This study is being ordered for known tumor, cancer, mass, or rule-out metastasis.; "The ordering physician is an oncologist, urologist, gynecologist, gastroenterologist or surgeon or PCP ordering on behalf of a specialist who has seen the patient."; This study is being ordered for initial staging.; This is a request for a Pelvis CT.; Yes this is a request for a Diagnostic CT	1

OB/Gynecology	Approval	72192 Computed tomography, pelvis; without contrast material	&lt; Enter answer here - or Type In Unknown If No Info Given. &gt;; This study is being ordered for some other reason than the choices given.; This is a request for a Pelvis CT.; Yes this is a request for a Diagnostic CT	1
OB/Gynecology	Approval	72192 Computed tomography, pelvis; without contrast material	; The patient is not undergoing active treatment for cancer.; This study is being ordered for known tumor, cancer, mass, or rule-out metastasis.; "The ordering physician is an oncologist, urologist, gynecologist, gastroenterologist or surgeon or PCP ordering on behalf of a specialist who has seen the patient."; This study is not being ordered for initial staging.; The patient is presenting new signs (e.g. lab findings or imaging) or symptoms.; This is a request for a Pelvis CT.; Yes this is a request for a Diagnostic CT	1
OB/Gynecology	Approval	72192 Computed tomography, pelvis; without contrast material	checking to see if size of fluid goes down bladder spasms and drainage want to see if fluid collection has decreased; This study is being ordered for some other reason than the choices given.; This is a request for a Pelvis CT.; Yes this is a request for a Diagnostic CT	1
OB/Gynecology	Approval	72192 Computed tomography, pelvis; without contrast material	Discussed with radiology-CT pelvis ordered to eval for fistula; This study is being ordered due to known or suspected infection.; "The ordering physician is a surgeon, gynecologist, urologist, gastroenterologist, or infectious disease specialist or PCP ordering on behalf of a specialist who has seen the patient."; This is a request for a Pelvis CT.; Yes this is a request for a Diagnostic CT	1
OB/Gynecology	Approval	72192 Computed tomography, pelvis; without contrast material	fluid collection; This study is being ordered because of a suspicious mass/ tumor.; "The patient has had a pelvic ultrasound, barium, CT, or MR study."; This is a request for a Pelvis CT.; There are documented physical findings (painless hematuria, etc.) consistent with an abdominal mass or tumor.; Yes this is a request for a Diagnostic CT	1
OB/Gynecology	Approval	72192 Computed tomography, pelvis; without contrast material	Member has cyst.; This study is being ordered for some other reason than the choices given.; This is a request for a Pelvis CT.; Yes this is a request for a Diagnostic CT	1

OB/Gynecology	Approval	72192 Computed tomography, pelvis; without contrast material	na; This study is being ordered because of a suspicious mass/ tumor.; "The patient has had a pelvic ultrasound, barium, CT, or MR study."; This is a request for a Pelvis CT.; There are documented physical findings (painless hematuria, etc.) consistent with an abdominal mass or tumor.; Yes this is a request for a Diagnostic CT	1
OB/Gynecology	Approval	72192 Computed tomography, pelvis; without contrast material	No additional information; This study is being ordered for some other reason than the choices given.; This is a request for a Pelvis CT.; Yes this is a request for a Diagnostic CT	1
OB/Gynecology	Approval	72192 Computed tomography, pelvis; without contrast material	pelvic pain; This study is being ordered for some other reason than the choices given.; This is a request for a Pelvis CT.; Yes this is a request for a Diagnostic CT	1
OB/Gynecology	Approval	72192 Computed tomography, pelvis; without contrast material	unknown; This study is being ordered for some other reason than the choices given.; This is a request for a Pelvis CT.; Yes this is a request for a Diagnostic CT	1
OB/Gynecology	Approval	72196 Magnetic resonance (eg, proton) imaging, pelvis; with contrast material(s)		1
OB/Gynecology	Approval	72196 Magnetic resonance (eg, proton) imaging, pelvis; with contrast material(s)	&lt; Enter answer here - or Type In Unknown If No Info Given. &gt;; This is a request for a Pelvis MRI.; The request is not for any of the listed indications.	1
OB/Gynecology	Approval	72196 Magnetic resonance (eg, proton) imaging, pelvis; with contrast material(s)	&lt; Enter answer here - or Type In Unknown If No Info Given. &gt;; This study is being ordered for a metastatic disease.; There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	2

OB/Gynecology	Approval	72196 Magnetic resonance (eg, proton) imaging, pelvis; with contrast material(s)	&lt; Enter answer here - or Type In Unknown If No Info Given. &gt;; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 11/2017; There has been treatment or conservative therapy.; Vaginal bleeding; Ultrasound; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
OB/Gynecology	Approval	72196 Magnetic resonance (eg, proton) imaging, pelvis; with contrast material(s)	; This is a request for a Pelvis MRI.; It is not known if surgery is planned for within 30 days.; The study is being ordered for endometriosis.; It is unknown if a diagnosis of endometriosis been established.; The study is being ordered as a pre surgical evaluation.	1
OB/Gynecology	Approval	72196 Magnetic resonance (eg, proton) imaging, pelvis; with contrast material(s)	; This is a request for a Pelvis MRI.; The patient had previous abnormal imaging including a CT, MRI or Ultrasound.; An abnormality was found in the uterus.; The study is being ordered for suspicion of tumor, mass, neoplasm, or metastatic disease.	1
OB/Gynecology	Approval	72196 Magnetic resonance (eg, proton) imaging, pelvis; with contrast material(s)	27 y.o. female Who presents to clinic as a return GYN for follow up in ED due to incidental finding on fibroids on CT. Discussed with patient the importance of MRI to identify size or fibroids. Discussed with patient possible medical management with Lupr; This is a request for a Pelvis MRI.; Yes, this is a preoperative study.; Surgery is not planned for within 30 days.; The study is being ordered for suspicion of pelvic inflammatory disease or abscess.	1
OB/Gynecology	Approval	72196 Magnetic resonance (eg, proton) imaging, pelvis; with contrast material(s)	fistula, unspecified fecal incontinence; This is a request for a Pelvis MRI.; The study is being ordered for something other than suspicion of tumor, mass, neoplasm, metastatic disease, PID, abscess, Evaluation of the pelvis prior to surgery or laparoscopy, Suspicion of joint or bone infect	1

OB/Gynecology	Approval	72196 Magnetic resonance (eg, proton) imaging, pelvis; with contrast material(s)	pre-op MRI; This is a request for a Pelvis MRI.; Surgery is not planned for within 30 days.; The study is being ordered for Evaluation of the pelvis prior to surgery or laparoscopy.	1
OB/Gynecology	Approval	72196 Magnetic resonance (eg, proton) imaging, pelvis; with contrast material(s)	serve dizmenira heavy period heavy flow and clots with headaches nv muscle pain; This is a request for a Pelvis MRI.; The study is being ordered for endometriosis.; A diagnosis of endometriosis has NOT been established.; The study is being ordered as follow up treatment.	1
OB/Gynecology	Approval	72196 Magnetic resonance (eg, proton) imaging, pelvis; with contrast material(s)	Sheila R Calvert is a 36 y.o.G1P1001 with suspected recurrent urethral diverticulum and urinary incontinence w/out sensation. Plan for cystoscopy to characterize tract and UDS to further delineate UI. Discussed in detail options including expectant mana; This is a request for a Pelvis MRI.; The study is being ordered for something other than suspicion of tumor, mass, neoplasm, metastatic disease, PID, abscess, Evaluation of the pelvis prior to surgery or laparoscopy, Suspicion of joint or bone infect	1
OB/Gynecology	Approval	72196 Magnetic resonance (eg, proton) imaging, pelvis; with contrast material(s)	This is a request for a Pelvis MRI.; The request is for evaluation of the pelvis prior to surgery or laparoscopy.	4
OB/Gynecology	Approval	72196 Magnetic resonance (eg, proton) imaging, pelvis; with contrast material(s)	This is a request for a Pelvis MRI.; The request is for suspicion of tumor, mass, neoplasm, or metastatic disease?	12
OB/Gynecology	Approval	72196 Magnetic resonance (eg, proton) imaging, pelvis; with contrast material(s)	Unknown; This is a request for a Pelvis MRI.; No, this is not a preoperative study.; The study is being ordered for suspicion of pelvic inflammatory disease or abscess.	1
OB/Gynecology	Approval	72196 Magnetic resonance (eg, proton) imaging, pelvis; with contrast material(s)	unknown; This is a request for a Pelvis MRI.; The request is not for any of the listed indications.	1
OB/Gynecology	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	This is a request for a Knee MRI.; The patient has not had recent plain films of the knee.; The ordering physician is not an orthopedist.; Suspected meniscus, tendon, or ligament injury; Yes, there is a known trauma involving the knee.; Pain greater than 3 days; Yes, patient has completed and failed a course of conservative treatment.; Physician directed course of non-steroidal anti-inflammatory medications	1

OB/Gynecology	Approval	74150 Computed tomography, abdomen; without contrast material	Abdominal pain and cyst; This is a request for an Abdomen CT.; This study is being ordered for another reason besides Kidney/Ureteral stone, &#x0D; Known Tumor, Cancer, Mass, or R/O metastases, Suspicious Mass or Tumor, Organ Enlargement, &#x0D; Known or suspected infection such as pancreatitis, etc.; There are no findings of Hematuria, Lymphadenopathy, weight loss, abdominal pain, diabetic patient with gastroparesis; Yes this is a request for a Diagnostic CT	1
OB/Gynecology	Approval	74174 Computed tomographic angiography, abdomen and pelvis, with contrast material(s), including noncontrast images, if performed, and image postprocessing	This is a request for CT Angiography of the Abdomen and Pelvis.	1
OB/Gynecology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		3
OB/Gynecology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	&lt; Enter answer here - or Type In Unknown If No Info Given. &gt;; This is a request for an abdomen-pelvis CT combination.; A urinalysis has been completed.; This study is being requested for abdominal and/or pelvic pain.; The results of the urinalysis were normal.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; The patient did not have a amylase or lipase lab test.; Yes this is a request for a Diagnostic CT	1
OB/Gynecology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	&lt; Enter answer here - or Type In Unknown If No Info Given. &gt;; This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is female.; A pelvic exam was performed.; The results of the exam are unknown.; Yes this is a request for a Diagnostic CT	1

OB/Gynecology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	3
OB/Gynecology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	33-year-old gravida 0 female with an LMP of 12/21/2017 using NuvaRing for contraception 6 weeks on and 1 week off presents for follow-up of pelvic pain. She states for the past year she has had daily pelvic pain that she describes as cramping in nature t; This is a request for an abdomen-pelvis CT combination.; A urinalysis has been completed.; This study is being requested for abdominal and/or pelvic pain.; The results of the urinalysis were abnormal.; The urinalysis was positive for something other than billirubin, ketones, nitrites, hematuria/blood, glucose or protein.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; The patient did not have a amylase or lipase lab test.; Yes this is a request for a Diagnostic CT	1
OB/Gynecology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	had a mass on vulva; This is a request for an abdomen-pelvis CT combination.; A urinalysis has not been completed.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; It is unknown if the patient had an Amylase or Lipase lab test.; Yes this is a request for a Diagnostic CT	1
OB/Gynecology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	INITIAL STAGING ENDOMETRIAL CARCINOMA; This study is being ordered for a metastatic disease.; There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

OB/Gynecology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	lab results., abnormal, post operative; pt. had a hysterectomy and is still bleeding; This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for acute pain.; There has been a physical exam.; The patient is female.; A pelvic exam was performed.; The results of the exam are unknown.; Yes this is a request for a Diagnostic CT	1
OB/Gynecology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	looking for place of IUD; This is a request for an abdomen-pelvis CT combination.; The reason for the study is pre-op or post op evaluation.; The study is requested for preoperative evaluation.; Surgery is not planned for within 30 days.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; Yes this is a request for a Diagnostic CT	1
OB/Gynecology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	none; This is a request for an abdomen-pelvis CT combination.; It is not known if a urinalysis has been completed.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; It is unknown if the patient had an Amylase or Lipase lab test.; Yes this is a request for a Diagnostic CT	1
OB/Gynecology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	pt. had surgery last week (12/27/2017); Post op complication; This is a request for an abdomen-pelvis CT combination.; A urinalysis has been completed.; This study is being requested for abdominal and/or pelvic pain.; The results of the urinalysis were normal.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; The patient did not have a amylase or lipase lab test.; Yes this is a request for a Diagnostic CT	1

OB/Gynecology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	SURVEILLANCE OF CERVICAL CANCER; This study is being ordered for a metastatic disease.; There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
OB/Gynecology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	The Pt has painful mensces, ultrasound abdominal wall and uterous thick.; This is a request for an abdomen-pelvis CT combination.; A urinalysis has been completed.; This study is being requested for abdominal and/or pelvic pain.; The results of the urinalysis were normal.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; The patient did not have a amylase or lipase lab test.; Yes this is a request for a Diagnostic CT	1
OB/Gynecology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	The Pt has umbilical hernia.; This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is female.; A pelvic exam was performed.; The results of the exam were abnormal.; Yes this is a request for a Diagnostic CT	1
OB/Gynecology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	This is a request for an abdomen-pelvis CT combination.; A urinalysis has been completed.; This study is being requested for abdominal and/or pelvic pain.; It is not known if the urinalysis results were normal or abnormal.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; It is unknown if the patient had an Amylase or Lipase lab test.; Yes this is a request for a Diagnostic CT	1

OB/Gynecology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	This is a request for an abdomen-pelvis CT combination.; A urinalysis has been completed.; This study is being requested for abdominal and/or pelvic pain.; The results of the urinalysis were abnormal.; The urinalysis was positive for something other than billirubin, ketones, nitrites, hematuria/blood, glucose or protein.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; The patient did not have a amylase or lipase lab test.; Yes this is a request for a Diagnostic CT	1
OB/Gynecology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	This is a request for an abdomen-pelvis CT combination.; A urinalysis has been completed.; This study is being requested for abdominal and/or pelvic pain.; The results of the urinalysis were normal.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; The patient did not have a amylase or lipase lab test.; Yes this is a request for a Diagnostic CT	1
OB/Gynecology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	This is a request for an abdomen-pelvis CT combination.; A urinalysis has not been completed.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; It is unknown if the patient had an Amylase or Lipase lab test.; Yes this is a request for a Diagnostic CT	1
OB/Gynecology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	This is a request for an abdomen-pelvis CT combination.; A urinalysis has not been completed.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; The patient did not have a amylase or lipase lab test.; Yes this is a request for a Diagnostic CT	2

OB/Gynecology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	This is a request for an abdomen-pelvis CT combination.; It is not known if a urinalysis has been completed.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for acute pain.; It is unknown if there has been a physical exam.; It is unknown if the patient had an Amylase or Lipase lab test.; Yes this is a request for a Diagnostic CT	1
OB/Gynecology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	This is a request for an abdomen-pelvis CT combination.; It is not known if a urinalysis has been completed.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; It is unknown if the patient had an Amylase or Lipase lab test.; Yes this is a request for a Diagnostic CT	2
OB/Gynecology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	This is a request for an abdomen-pelvis CT combination.; The reason for the study is none of the listed reasons.; It is not know if this study is being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; Yes this is a request for a Diagnostic CT	1
OB/Gynecology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	This is a request for an abdomen-pelvis CT combination.; The reason for the study is none of the listed reasons.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; Yes this is a request for a Diagnostic CT	1
OB/Gynecology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	This is a request for an abdomen-pelvis CT combination.; The reason for the study is pre-op or post op evaluation.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; Yes this is a request for a Diagnostic CT	3
OB/Gynecology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	This is a request for an abdomen-pelvis CT combination.; The reason for the study is suspicious mass or suspected tumor or metastasis.; It is not know if this study is being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; It is unknown if the patient had an abnormal abdominal Ultrasound, CT or MR study.; Yes this is a request for a Diagnostic CT	1

OB/Gynecology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	This is a request for an abdomen-pelvis CT combination.; The reason for the study is suspicious mass or suspected tumor or metastasis.; It is not known if the patient is presenting new symptoms.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; The last Abdomen/Pelvis CT was performed more than 10 months ago.; The patient had an abnormal abdominal Ultrasound, CT or MR study.; The patient has NOT completed a course of chemotherapy or radiation therapy within the past 90 days.; Yes this is a request for a Diagnostic CT	1
OB/Gynecology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	This is a request for an abdomen-pelvis CT combination.; The reason for the study is suspicious mass or suspected tumor or metastasis.; The patient is presenting new symptoms.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; The patient had an abnormal abdominal Ultrasound, CT or MR study.; The patient has NOT completed a course of chemotherapy or radiation therapy within the past 90 days.; Yes this is a request for a Diagnostic CT	2
OB/Gynecology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	This is a request for an abdomen-pelvis CT combination.; The reason for the study is suspicious mass or suspected tumor or metastasis.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; The patient had an abnormal abdominal Ultrasound, CT or MR study.; The patient completed a course of chemotherapy or radiation therapy within the past 90 days.; Yes this is a request for a Diagnostic CT	1
OB/Gynecology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	This is a request for an abdomen-pelvis CT combination.; There is a suspicious mass found using ultrasound, IVP, Endoscopy, colonoscopy, or sigmoidoscopy.; Suspicious Mass or Tumor; Yes this is a request for a Diagnostic CT	1

OB/Gynecology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; It is not known if the pain is acute or chronic.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is female.; A pelvic exam was performed.; The results of the exam are unknown.; Yes this is a request for a Diagnostic CT	1
OB/Gynecology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for acute pain.; There has been a physical exam.; The patient is female.; A pelvic exam was performed.; The results of the exam were abnormal.; Yes this is a request for a Diagnostic CT	2
OB/Gynecology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for acute pain.; There has been a physical exam.; The patient is female.; A pelvic exam was performed.; The results of the exam were normal.; The patient had an Ultrasound.; The Ultrasound was normal.; A contrast/barium x-ray has NOT been completed.; The patient did not have an endoscopy.; Yes this is a request for a Diagnostic CT	2
OB/Gynecology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for acute pain.; There has been a physical exam.; The patient is female.; It is not known if a pelvic exam was performed.; Yes this is a request for a Diagnostic CT	1
OB/Gynecology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is female.; A pelvic exam was performed.; The results of the exam are unknown.; Yes this is a request for a Diagnostic CT	2

OB/Gynecology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is female.; A pelvic exam was performed.; The results of the exam were abnormal.; Yes this is a request for a Diagnostic CT	2
OB/Gynecology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is female.; A pelvic exam was performed.; The results of the exam were normal.; The patient had an Ultrasound.; The Ultrasound was abnormal.; The ultrasound showed something other than Gall Stones, Kidney/Renal cyst, Aneurysm or a Pelvis Mass.; Yes this is a request for a Diagnostic CT	1
OB/Gynecology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is female.; A pelvic exam was performed.; The results of the exam were normal.; The patient had an Ultrasound.; The Ultrasound was normal.; A contrast/barium x-ray has NOT been completed.; The patient did not have an endoscopy.; Yes this is a request for a Diagnostic CT	1
OB/Gynecology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	This is a request for an abdomen-pelvis CT combination.; This study is not being requested for abdominal and/or pelvic pain.; The study is requested for hematuria.; Yes this is a request for a Diagnostic CT	2

OB/Gynecology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	<p>tory of Present Illness: 1. AUB; Pt called yesterday reporting heavy bleeding, passing clots/tissue, significant pain x 3 days. States she has not been sexually active so no chance poss preg. U/S and labs ordered; In recent past bleeding 3 of 4 wks.; This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for acute pain.; There has been a physical exam.; The patient is female.; A pelvic exam was performed.; The results of the exam were normal.; The patient had an Ultrasound.; The Ultrasound was normal.; A contrast/barium x-ray has NOT been completed.; The patient did not have an endoscopy.; Yes this is a request for a Diagnostic CT</p>	1
OB/Gynecology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	<p>VASCULAR; This is a request for an abdomen-pelvis CT combination.; The reason for the study is vascular disease.; There is not a known or suspicion of an abdominal aortic aneurysm.; There is not an abnormal abdominal/pelvic ultrasound.; This study is not being requested for abdominal and/or pelvic pain.; It is not known if the study is requested for hematuria.; Yes this is a request for a Diagnostic CT</p>	1
OB/Gynecology	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)	<p>&amp;lt; Enter answer here - or Type In Unknown If No Info Given. &amp;gt;; This study is being ordered for a metastatic disease.; There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology</p>	2

OB/Gynecology	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)	This request is for an Abdomen MRI.; This study is not being ordered for known tumor, suspicious mass or suspected tumor/metastasis, organ enlargement, known or suspected vascular disease, hematuria, follow-up trauma, or a pre-operative evaluation.; Upon level 2 US there was a cranial abnormality on the fetus. An abd MRI is needed to determine the extent of the abnormality. Also to help determine if the patient can deliver in NWA or in Little Rock.	1
OB/Gynecology	Approval	74712 Magnetic resonance (eg, proton) imaging, fetal, including placental and maternal pelvic imaging when performed; single or first gestation	This a request for a Fetal MRI.; An ultrasound of the mother been completed.; Possible airway obstruction has been identified or remains uncertain after an ultrasound.	1
OB/Gynecology	Approval	77058 Magnetic resonance imaging, breast, without and/or with contrast material(s); unilateral	&lt; Enter answer here - or Type In Unknown If No Info Given. &gt;; This is a request for Breast MRI.; This study is being ordered for a known history of breast cancer.; It is not known if this is an individual who has known breast cancer in the contralateral (other) breast.	1
OB/Gynecology	Approval	77058 Magnetic resonance imaging, breast, without and/or with contrast material(s); unilateral	; This is a request for Breast MRI.; This study is being ordered as a screening examination for known family history of breast cancer.; There are NOT benign lesions in the breast associated with an increased cancer risk.; There is NOT a pattern of breast cancer history in at least two first-degree relatives (parent, sister, brother, or children).	10
OB/Gynecology	Approval	77058 Magnetic resonance imaging, breast, without and/or with contrast material(s); unilateral	Due to this patient's family history of breast cancer and her being at high risk for breast cancer, bilateral breast MRI is being requested.; This is a request for Breast MRI.; This study is being ordered as a screening examination for known family history of breast cancer.; There are NOT benign lesions in the breast associated with an increased cancer risk.; There is NOT a pattern of breast cancer history in at least two first-degree relatives (parent, sister, brother, or children).	1

OB/Gynecology	Approval	77058 Magnetic resonance imaging, breast, without and/or with contrast material(s); unilateral	Enter answer here - or Type In Unknown If No Info Given; This is a request for Breast MRI.; This study is being ordered as a screening examination for known family history of breast cancer.; There are NOT benign lesions in the breast associated with an increased cancer risk.; There is NOT a pattern of breast cancer history in at least two first-degree relatives (parent, sister, brother, or children).	1
OB/Gynecology	Approval	77058 Magnetic resonance imaging, breast, without and/or with contrast material(s); unilateral	HER MOTHER HAD BILATERAL BREAST CANCER AT AGE 34 WHICH IN TURN PUTS MISS BROTHERS AT A VERY HIGH LIFETIME RISK OF 46.1%. BREAST MRI IS RECOMMENDED.; This is a request for Breast MRI.; This study is being ordered as a screening examination for known family history of breast cancer.; There are NOT benign lesions in the breast associated with an increased cancer risk.; There is NOT a pattern of breast cancer history in at least two first-degree relatives (parent, sister, brother, or children).	1
OB/Gynecology	Approval	77058 Magnetic resonance imaging, breast, without and/or with contrast material(s); unilateral	Per MD pt is at high risk for breast cancer. Pt with genetic predisposition to breast cancer. Family history of ovarian and breast cancer and known lynch syndrome. Also has suspicious area to breast that needs further eval with possible biopsy.; This is a request for Breast MRI.; This study is being ordered for known breast lesions.; No, this is not an individual who has known breast cancer in the contralateral (other) breast.; No, this is not a confirmed breast cancer.; No, this patient does not have axillary node adenocarcinoma.; It is not know if there are anatomic factors (deformity or extreme density) that make a simple mammogram impossible.; It is unknown if there are benign lesions in the breast associated with an increased cancer risk.	1

OB/Gynecology	Approval	77058 Magnetic resonance imaging, breast, without and/or with contrast material(s); unilateral	PT HAS A PALPABLE MASS IN LOWER QUADRANT OF LT BREAST WITH NEGATIVE ULTRASOUND AND SHE ALSO REPORTS BLOODY NIPPLE DISCHARGE FROM LT BREAST.; This is a request for Breast MRI.; This study is being ordered for known breast lesions.; No, this is not an individual who has known breast cancer in the contralateral (other) breast.; No, this is not a confirmed breast cancer.; No, this patient does not have axillary node adenocarcinoma.; No, there are no anatomic factors (deformity or extreme density) that make a simple mammogram impossible.; It is unknown if there are benign lesions in the breast associated with an increased cancer risk.	1
OB/Gynecology	Approval	77058 Magnetic resonance imaging, breast, without and/or with contrast material(s); unilateral	PT HAS LT NIPPLE RETRACTION WITH INDETERMINATE MAMMOGRAM AND ULTRASOUND. FURTHER EVALUATION WITH BREAST MRI IS RECOMMENDED.; This is a request for Breast MRI.; This study is being ordered for something other than known breast cancer, known breast lesions, screening for known family history, screening following genetic testing or a suspected implant rupture.	1
OB/Gynecology	Approval	77058 Magnetic resonance imaging, breast, without and/or with contrast material(s); unilateral	The patient had a Diagnostic Mammogram and an Ultrasound of her left breast on 2/20/18. It is recommended she have a breast MRI for a palpable nodularity without mammo or ultrasound correlation.; This is a request for Breast MRI.; This study is being ordered for something other than known breast cancer, known breast lesions, screening for known family history, screening following genetic testing or a suspected implant rupture.	1

OB/Gynecology	Approval	77058 Magnetic resonance imaging, breast, without and/or with contrast material(s); unilateral	The patient had a screening mammogram 8/28/17 with negative findings. With a known 1st degree family member history of breast cancer, it is recommended the patient alternate screening mammogram and breast MRI every 6 months.; This is a request for Breast MRI.; This study is being ordered as a screening examination for known family history of breast cancer.; There are NOT benign lesions in the breast associated with an increased cancer risk.; There is NOT a pattern of breast cancer history in at least two first-degree relatives (parent, sister, brother, or children).	1
OB/Gynecology	Approval	77058 Magnetic resonance imaging, breast, without and/or with contrast material(s); unilateral	The patient has a family history of breast cancer in her sister and an aunt, and also has a family history of ovarian cancer. The patient's lifetime risk for the development of breast cancer is 21.5% using the Tyrer-Cuzick Risk Assessment.; Mammogram in Ju; This is a request for Breast MRI.; This study is being ordered for something other than known breast cancer, known breast lesions, screening for known family history, screening following genetic testing or a suspected implant rupture.	1
OB/Gynecology	Approval	77058 Magnetic resonance imaging, breast, without and/or with contrast material(s); unilateral	The patient has a maternal aunt and 4 maternal cousins with a history of breast cancer. Her Lifetime Risk using the Tyrer-Cuzick model is 22%.; This is a request for Breast MRI.; This study is being ordered as a screening examination for known family history of breast cancer.; There are NOT benign lesions in the breast associated with an increased cancer risk.; There is NOT a pattern of breast cancer history in at least two first-degree relatives (parent, sister, brother, or children).	1
OB/Gynecology	Approval	77058 Magnetic resonance imaging, breast, without and/or with contrast material(s); unilateral	This is a request for Breast MRI.; This study is being ordered as a screening examination following genetic testing for breast cancer.; The patient has a lifetime risk score of greater than 20.	2

OB/Gynecology	Approval	77058 Magnetic resonance imaging, breast, without and/or with contrast material(s); unilateral	This is a request for Breast MRI.; This study is being ordered as a screening examination for known family history of breast cancer.; There are benign lesions in the breast associated with an increased cancer risk.; There is NOT a pattern of breast cancer history in at least two first-degree relatives (parent, sister, brother, or children).	2
OB/Gynecology	Approval	77058 Magnetic resonance imaging, breast, without and/or with contrast material(s); unilateral	This is a request for Breast MRI.; This study is being ordered as a screening examination for known family history of breast cancer.; There is a pattern of breast cancer history in at least two first-degree relatives (parent, sister, brother, or children). This is a request for Breast MRI.; This study is being ordered for a known history of breast cancer.; No, this is not an individual who has known breast cancer in the contralateral (other) breast.; Yes, this is a confirmed breast cancer.; Yes, the results of this MRI (size and shape of tumor) affect the patient's further management.	3
OB/Gynecology	Approval	77058 Magnetic resonance imaging, breast, without and/or with contrast material(s); unilateral	This is a request for Breast MRI.; This study is being ordered for known breast lesions.; There are benign lesions in the breast associated with an increased cancer risk.	6
OB/Gynecology	Approval	77058 Magnetic resonance imaging, breast, without and/or with contrast material(s); unilateral	UNKNOWN; This is a request for Breast MRI.; This study is being ordered as a screening examination for known family history of breast cancer.; It is unknown if there is a pattern of breast cancer history in at least two first-degree relatives (parent, sister, brother, or children).	5
OB/Gynecology	Approval	77058 Magnetic resonance imaging, breast, without and/or with contrast material(s); unilateral		1

OB/Gynecology	Approval	78813 Positron emission tomography (PET) imaging; whole body		This is a request for a Tumor Imaging PET Scan; The suspicion of cancer is based on an imaging study.; This study is being ordered to establish a cancer diagnosis.; This study is being ordered for something other than Breast CA, Lymphoma, Myeloma, Ovarian CA, Esophageal CA, Lung CA, Colorectal CA, Head/Neck CA, Melanoma, Soft Tissue Sarcoma, Pancreatic CA or Testicular CA.; This study is being requested for an other solid tumor.; This would be the first PET Scan performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
OB/Gynecology	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered for initial treatment (after a diagnosis of Cancer has been made).; This study is being ordered for something other than Breast CA, Lymphoma, Myeloma, Ovarian CA, Esophageal CA, Lung CA, Colorectal CA, Head/Neck CA, Melanoma, Soft Tissue Sarcoma, Pancreatic CA or Testicular CA.; This study is being requested for Cervical Cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
OB/Gynecology	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered for initial treatment (after a diagnosis of Cancer has been made).; This study is being requested for Breast Cancer.; This is for evaluation of axillary lymph nodes.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
OB/Gynecology	Disapproval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Radiology Services Denied Not Medically Necessary	doesn't have periods; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; The patient does not have dizziness, fatigue or malaise, sudden change in mental status, Bell's palsy, Congenital abnormality, loss of smell, hearing loss or vertigo.; It is unknown why this study is being ordered.	1

OB/Gynecology	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	'None of the above' describes the reason for this request.; This is a request for a Chest CT.; This study is being requested for Screening of Lung Cancer.; The patient is 54 years old or younger.; The patient has NOT had a Low Dose CT for Lung Cancer Screening or a Chest CT in the past 11 months.; Yes this is a request for a Diagnostic CT	1
OB/Gynecology	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	Reassessment of poorly differentiated carcinoma of the endometrium.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
OB/Gynecology	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	ABNORMAL CT; The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has none of the above	1
OB/Gynecology	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	Back pain with left leg radiation; The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has none of the above	1
OB/Gynecology	Disapproval	72192 Computed tomography, pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	flank pain, abnormal uterine bleeding; This study is being ordered for some other reason than the choices given.; This is a request for a Pelvis CT.; Yes this is a request for a Diagnostic CT	1
OB/Gynecology	Disapproval	72192 Computed tomography, pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	MRI requested and approved not completed yet; This study is being ordered because of a suspicious mass/tumor.; "The patient has NOT had a pelvic ultrasound, barium, CT, or MR study."; This is a request for a Pelvis CT.; There are documented physical findings (painless hematuria, etc.) consistent with an abdominal mass or tumor.; Yes this is a request for a Diagnostic CT	1
OB/Gynecology	Disapproval	72192 Computed tomography, pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	Pelvic pain and vaginal bleeding Already had full hysterectomy; This study is being ordered for some other reason than the choices given.; This is a request for a Pelvis CT.; Yes this is a request for a Diagnostic CT	1
OB/Gynecology	Disapproval	72192 Computed tomography, pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	several weeks of pelvic and perineal pain. Also fistula S/S. Pt wipes feces when she urinates. Pt is also passing gas out of her vagina.; This study is being ordered for some other reason than the choices given.; This is a request for a Pelvis CT.; Yes this is a request for a Diagnostic CT	1

OB/Gynecology	Disapproval	74150 Computed tomography, abdomen; without contrast material	Radiology Services Denied Not Medically Necessary	female pelvic pain; This is a request for an Abdomen CT.; This study is being ordered for another reason besides Kidney/Ureteral stone, &#x0D; Known Tumor, Cancer, Mass, or R/O metastases, Suspicious Mass or Tumor, Organ Enlargement, &#x0D; Known or suspected infection such as pancreatitis, etc.; There are no findings of Hematuria, Lymphadenopathy,weight loss,abdominal pain,diabetic patient with gastroparesis; Yes this is a request for a Diagnostic CT	1
OB/Gynecology	Disapproval	74150 Computed tomography, abdomen; without contrast material	Radiology Services Denied Not Medically Necessary	UNKNOWN; This is a request for an Abdomen CT.; This study is being ordered for another reason besides Kidney/Ureteral stone, &#x0D; Known Tumor, Cancer, Mass, or R/O metastases, Suspicious Mass or Tumor, Organ Enlargement, &#x0D; Known or suspected infection such as pancreatitis, etc.; There are no findings of Hematuria, Lymphadenopathy,weight loss,abdominal pain,diabetic patient with gastroparesis; Yes this is a request for a Diagnostic CT	1
OB/Gynecology	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	&lt; Enter answer here - or Type In Unknown If No Info Given. &gt;; This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for acute pain.; There has been a physical exam.; The patient is female.; A pelvic exam was performed.; The results of the exam were normal.; The patient did not have an Ultrasound.; Yes this is a request for a Diagnostic CT	1
OB/Gynecology	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	Pt has amenorrhea w/hxo diagnostic laparoscopy and D&amp;C w/CO constipation; This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is female.; A pelvic exam was performed.; The results of the exam were abnormal.; Yes this is a request for a Diagnostic CT	1

OB/Gynecology	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	Reassessment of poorly differentiated carcinoma of the endometrium.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
OB/Gynecology	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	Seen by GI, pain lower L side, in her pelvis, nausea, some blood in her stool, R/O cause of pain.; This is a request for an abdomen-pelvis CT combination.; A urinalysis has been completed.; This study is being requested for abdominal and/or pelvic pain.; The results of the urinalysis were normal.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; The patient did not have a amylase or lipase lab test.; Yes this is a request for a Diagnostic CT	1
OB/Gynecology	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; A urinalysis has not been completed.; This study is being requested for abdominal and/or pelvic pain.; It is not known if the pain is acute or chronic.; This is the first visit for this complaint.; The patient did not have a amylase or lipase lab test.; Yes this is a request for a Diagnostic CT	1
OB/Gynecology	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; A urinalysis has not been completed.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; The patient did not have a amylase or lipase lab test.; Yes this is a request for a Diagnostic CT	4
OB/Gynecology	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; It is not known if a urinalysis has been completed.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; It is unknown if the patient had an Amylase or Lipase lab test.; Yes this is a request for a Diagnostic CT	1

OB/Gynecology	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; It is not known if the pain is acute or chronic.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is female.; A pelvic exam was performed.; The results of the exam were normal.; The patient had an Ultrasound.; The Ultrasound was normal.; It is unknown if a contrast/barium x-ray has been completed.; The patient did not have an endoscopy.; Yes this is a request for a Diagnostic CT	1
OB/Gynecology	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for acute pain.; There has been a physical exam.; The patient is female.; A pelvic exam was NOT performed.; Yes this is a request for a Diagnostic CT	1
OB/Gynecology	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for acute pain.; There has been a physical exam.; The patient is female.; A pelvic exam was performed.; The results of the exam are unknown.; Yes this is a request for a Diagnostic CT	2
OB/Gynecology	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is female.; A pelvic exam was NOT performed.; Yes this is a request for a Diagnostic CT	1
OB/Gynecology	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is female.; A pelvic exam was performed.; The results of the exam are unknown.; Yes this is a request for a Diagnostic CT	2

OB/Gynecology	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is female.; A pelvic exam was performed.; The results of the exam were abnormal.; Yes this is a request for a Diagnostic CT	5
OB/Gynecology	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is female.; A pelvic exam was performed.; The results of the exam were normal.; The patient had an Ultrasound.; The Ultrasound was normal.; A contrast/barium x-ray has NOT been completed.; The patient did not have an endoscopy.; Yes this is a request for a Diagnostic CT	1
OB/Gynecology	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	unknown; This is a request for an abdomen-pelvis CT combination.; The reason for the study is none of the listed reasons.; It is not know if this study is being requested for abdominal and/or pelvic pain.; It is not known if the study is requested for hematuria.; Yes this is a request for a Diagnostic CT	1
OB/Gynecology	Disapproval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)	Radiology Services Denied Not Medically Necessary	&lt; Enter answer here - or Type In Unknown If No Info Given. &gt;; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1

OB/Gynecology	Disapproval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)	Radiology Services Denied Not Medically Necessary	&lt; Enter answer here - or Type In Unknown If No Info Given. &gt;; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 11/2017; There has been treatment or conservative therapy.; Vaginal bleeding; Ultrasound; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
OB/Gynecology	Disapproval	77058 Magnetic resonance imaging, breast, without and/or with contrast material(s); unilateral	Radiology Services Denied Not Medically Necessary	&lt; Enter answer here - or Type In Unknown If No Info Given. &gt;; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
OB/Gynecology	Disapproval	77058 Magnetic resonance imaging, breast, without and/or with contrast material(s); unilateral	Radiology Services Denied Not Medically Necessary	&lt; Enter answer here - or Type In Unknown If No Info Given. &gt;; This is a request for Breast MRI.; This study is being ordered for something other than known breast cancer, known breast lesions, screening for known family history, screening following genetic testing or a suspected implant rupture.	1
OB/Gynecology	Disapproval	77058 Magnetic resonance imaging, breast, without and/or with contrast material(s); unilateral	Radiology Services Denied Not Medically Necessary	; This is a request for Breast MRI.; This study is being ordered as a screening examination for known family history of breast cancer.; There are NOT benign lesions in the breast associated with an increased cancer risk.; There is NOT a pattern of breast cancer history in at least two first-degree relatives (parent, sister, brother, or children).	1
OB/Gynecology	Disapproval	77058 Magnetic resonance imaging, breast, without and/or with contrast material(s); unilateral	Radiology Services Denied Not Medically Necessary	This is a request for Breast MRI.; This study is being ordered as a screening examination for known family history of breast cancer.; There is a pattern of breast cancer history in at least two first-degree relatives (parent, sister, brother, or children).	1

OB/Gynecology	Disapproval	93307 Echocardiography, transthoracic, real-time with image documentation (2D), includes M-mode recording, when performed, complete, without spectral or color Doppler echocardiography	Radiology Services Denied Not Medically Necessary	states h/o seizures since approx age 18 y/o after an accident which also affected her vision, states she does not have a PCP or a neurologist; indicated the ED has put her on Dilantin in past but does not take an anti-epileptic drug on a regular basis; Re; This study is being ordered for a neurological disorder.; unknown; There has been treatment or conservative therapy.; High Risk Pregnancy with history of epileptic seizures; Medication; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
OB/Gynecology	Disapproval	93307 Echocardiography, transthoracic, real-time with image documentation (2D), includes M-mode recording, when performed, complete, without spectral or color Doppler echocardiography	Radiology Services Denied Not Medically Necessary	This a request for an echocardiogram.; This is a request for a Transthoracic Echocardiogram.; This study is being ordered for Evaluation of Left Ventricular Function.; The patient does not have a history of a recent heart attack or hypertensive heart disease.	1
OB/Gynecology	Disapproval	93312 Echocardiography, transesophageal, real-time with image documentation (2D) (with or without M-mode recording); including probe placement, image acquisition, interpretation and report	Radiology Services Denied Not Medically Necessary	states h/o seizures since approx age 18 y/o after an accident which also affected her vision, states she does not have a PCP or a neurologist; indicated the ED has put her on Dilantin in past but does not take an anti-epileptic drug on a regular basis; Re; This study is being ordered for a neurological disorder.; unknown; There has been treatment or conservative therapy.; High Risk Pregnancy with history of epileptic seizures; Medication; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

Obstetrics & Gynecology	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)	This request is for an Abdomen MRI.; This study is not being ordered for known tumor, suspicious mass or suspected tumor/metastasis, organ enlargement, known or suspected vascular disease, hematuria, follow-up trauma, or a pre-operative evaluation.; adrenal adenoma vs adrenal hyperplasia	1
Oncology	Approval	70486 Computed tomography, maxillofacial area; without contrast material	"This request is for face, jaw, mandible CT.239.8"; "There is a history of serious facial bone or skull, trauma or injury.fct"; Yes this is a request for a Diagnostic CT This is a request for neck soft tissue CT.; There has not been recent trauma or other injury to the neck.; There is suspicion of or known tumor, metastasis, lymphadenopathy, or mass.; Yes this is a request for a Diagnostic CT	1
Oncology	Approval	70490 Computed tomography, soft tissue neck; without contrast material		1
			Memory loss of unknown cause, increased frequency of headaches and increased severity of headaches; This request is for a Brain MRI; The study is being requested for evaluation of a headache.; This headache is not described as sudden, severe or chronic recurring.; It is not known if the headache is presenting with a sudden change in severity, associated with exertion, or a mental status change.; It is not known if there are recent neurological symptoms or deficits such as one sided weakness, speech impairments, or vision defects.; There is not a family history (parent, sibling or child of the patient) of AVM (arteriovenous malformation). Pt is being restaged; There are 4 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Oncology	
Oncology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		1
Oncology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		1
Oncology	Approval	71250 Computed tomography, thorax; without contrast material	'None of the above' describes the reason for this request.; Surveillance of a known cancer following treatment is related to this request for imaging of a known cancer or tumor; This is a request for a Chest CT.; This study is beign requested for known cancer or tumor; Yes this is a request for a Diagnostic CT	2

Oncology	Approval	71250 Computed tomography, thorax; without contrast material	'None of the above' describes the reason for this request.; The patient had an abnormal lab finding related to the suspicion of cancer in this patient.; This is a request for a Chest CT.; This study is beign requested for suspected cancer or tumor.; Yes this is a request for a Diagnostic CT	1
Oncology	Approval	71250 Computed tomography, thorax; without contrast material	There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Oncology	11
Oncology	Approval	71250 Computed tomography, thorax; without contrast material	There are 3 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Oncology	1
Oncology	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Pt is being restaged; There are 4 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Oncology	1
Oncology	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	Pt is being restaged; There are 4 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Oncology	1
Oncology	Approval	72196 Magnetic resonance (eg, proton) imaging, pelvis; with contrast material(s)	There are 3 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Oncology	1
Oncology	Approval	72196 Magnetic resonance (eg, proton) imaging, pelvis; with contrast material(s)	This is a request for a Pelvis MRI.; The request is for suspicion of tumor, mass, neoplasm, or metastatic disease?	1
Oncology	Approval	73721 Magnetic resonance (eg, proton) imaging, any joint of lower extremity; without contrast material	This is a requests for a hip MRI.; The member has failed a 4 week course of conservative management in the past 3 months.; The hip pain is chronic.; The request is for hip pain.	1
Oncology	Approval	74150 Computed tomography, abdomen; without contrast material	There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Oncology	1
Oncology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Oncology	9

Oncology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	There are 3 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Oncology	1
Oncology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	This is a request for an abdomen-pelvis CT combination.; A urinalysis has not been completed.; This study is being requested for abdominal and/or pelvic pain.; It is not known if the pain is acute or chronic.; This is the first visit for this complaint.; The patient did not have a amylase or lipase lab test.; Yes this is a request for a Diagnostic CT	1
Oncology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	This is a request for an abdomen-pelvis CT combination.; The reason for the study is known tumor.; This study is being ordered for follow-up.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; The patient is female.; The patient completed a course of chemotherapy or radiation therapy within the past 90 days.; Yes this is a request for a Diagnostic CT	1
Oncology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	This is a request for an abdomen-pelvis CT combination.; The reason for the study is known tumor.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; Yes this is a request for a Diagnostic CT	2
Oncology	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)	Pt is being restaged; There are 4 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Oncology	1

Oncology	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)	This request is for an Abdomen MRI.; This study is being ordered for suspicious mass or suspected tumor/metastasis.; "There are no documented physical findings (painless hematuria, etc.) consistent with an abdominal mass or tumor."; "The patient has had an abdominal ultrasound, CT, or MR study."; Pt is tumor removed by surgery of colon. Dr Dorroh needs this study to help evaluate if pt has metastasized tumor or if it has all been successfully removed also needs this test to help evaluate the rectal cancer for treatment planning	1
Oncology	Approval	78813 Positron emission tomography (PET) imaging; whole body	This is a request for a Tumor Imaging PET Scan; This study is being ordered for initial treatment (after a diagnosis of Cancer has been made).; This study is being requested for Breast Cancer.; It is unknown if this is for an evaluation of axillary lymph nodes.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Oncology	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body	This is a request for a Tumor Imaging PET Scan; This study is being ordered for something other than Breast CA, Lymphoma, Myeloma, Ovarian CA, Esophageal CA, Lung CA, Colorectal CA, Head/Neck CA, Melanoma, Soft Tissue Sarcoma, Pancreatic CA or Testicular CA.; This study is not being ordered for Cervical CA, Brain Cancer/Tumor or Mass, Thyroid CA or other solid tumor.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Oncology	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body	This is a request for a Tumor Imaging PET Scan; This study is being ordered for subsequent treatment.; This study is being requested for Lung Cancer.; The patient has been diagnosed with NON small lung cancer.; The study is NOT being ordered after completing a course of treatment initiated in the last 8 weeks or because they are experiencing new signs or symptoms.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1

				Memory Loss of unknown cause, increased frequency of headaches, increased severity of headaches; This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The headache is described as sudden and severe.; It is unknown if there recent neurological deficits on exam such as one sided weakness, speech impairments or vision defects.; It is not known if there is a new and sudden onset of a headache less than 1 week not improved by medications.; It is not known if there is a family history (parent, sibling, or child) of stroke, aneurysm, or AVM (arteriovenous malformation)	1
Oncology	Disapproval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Radiology Services Denied Not Medically Necessary		
Oncology	Disapproval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Radiology Services Denied Not Medically Necessary	none; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; The patient has dizziness.; It is unknown why this study is being ordered.	1
Oncology	Disapproval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	Radiology Services Denied Not Medically Necessary	&lt; Enter answer here - or Type In Unknown If No Info Given. &gt;; This is a request for an Ankle MRI.; Surgery or arthroscopy is not scheduled in the next 4 weeks.; The study is requested for ankle pain.; There is a suspicion of tendon or ligament injury.	1
Oncology	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Oncology	1
Oncology	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; The reason for the study is none of the listed reasons.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; Yes this is a request for a Diagnostic CT	1
Ophthalmology	Approval	70450 Computed tomography, head or brain; without contrast material		This is a request for a brain/head CT.; Recent (in the past month) head trauma with neurologic symptoms/findings best describes the reason that I have requested this test.	2
Ophthalmology	Approval	70450 Computed tomography, head or brain; without contrast material		This is a request for a brain/head CT.; The patient has a new onset of a headache within the past month; Headache best describes the reason that I have requested this test.	1

Ophthalmology	Approval	70450 Computed tomography, head or brain; without contrast material	watching every month and vision went from 20/40 to 20/70 in one month, cannot get an OCT, patient has glaucoma; This study is being ordered for a metastatic disease.; There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Ophthalmology	Approval	70480 Computed tomography, orbit, sella, or posterior fossa or outer, middle, or inner ear; without contrast material	"This request is for orbit,sella, int. auditory canal,temporal bone, mastoid, CT.239.8"; "There is not suspicion of bone infection, cholesteatoma, or inflammatory disease.ostct"; "There is a history of serious head or skull, trauma or injury.ostct"; Yes this is a request for a Diagnostic CT	4
Ophthalmology	Approval	70480 Computed tomography, orbit, sella, or posterior fossa or outer, middle, or inner ear; without contrast material	"This request is for orbit,sella, int. auditory canal,temporal bone, mastoid, CT.239.8"; "There is not suspicion of bone infection, cholesteatoma, or inflammatory disease.ostct"; "There is not a history of serious head or skull, trauma or injury.ostct"; "There is not suspicion of neoplasm, or metastasis.ostct"; This is a preoperative or recent postoperative evaluation.; Yes this is a request for a Diagnostic CT	1
Ophthalmology	Approval	70480 Computed tomography, orbit, sella, or posterior fossa or outer, middle, or inner ear; without contrast material	"This request is for orbit,sella, int. auditory canal,temporal bone, mastoid, CT.239.8"; "There is not suspicion of bone infection, cholesteatoma, or inflammatory disease.ostct"; "There is not a history of serious head or skull, trauma or injury.ostct"; "There is not suspicion of neoplasm, or metastasis.ostct"; This is not a preoperative or recent postoperative evaluation.; "There is not suspicion of acoustic neuroma, pituitary or other tumor. ostct"; Yes this is a request for a Diagnostic CT	2
Ophthalmology	Approval	70480 Computed tomography, orbit, sella, or posterior fossa or outer, middle, or inner ear; without contrast material	"This request is for orbit,sella, int. auditory canal,temporal bone, mastoid, CT.239.8"; "There is suspicion of bone infection, cholesteatoma, or inflammatory disease.ostct"; Yes this is a request for a Diagnostic CT	2

Ophthalmology	Approval	70480 Computed tomography, orbit, sella, or posterior fossa or outer, middle, or inner ear; without contrast material	&lt; Enter answer here - or Type In Unknown If No Info Given. &gt;; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; &lt; Enter date of initial onset here - or Type In Unknown If No Info Given &gt;; It is not known if there has been any treatment or conservative therapy.; &lt; Describe primary symptoms here - or Type In Unknown If No Info Given &gt;; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Ophthalmology	Approval	70480 Computed tomography, orbit, sella, or posterior fossa or outer, middle, or inner ear; without contrast material	watching every month and vision went from 20/40 to 20/70 in one month, cannot get an OCT, patient has glaucoma; This study is being ordered for a metastatic disease.; There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Ophthalmology	Approval	70486 Computed tomography, maxillofacial area; without contrast material	"This request is for face, jaw, mandible CT.239.8"; "There is a history of serious facial bone or skull, trauma or injury.fct"; Yes this is a request for a Diagnostic CT	1
Ophthalmology	Approval	70486 Computed tomography, maxillofacial area; without contrast material	"This request is for face, jaw, mandible CT.239.8"; "There is not a history of serious facial bone or skull, trauma or injury.fct"; "There is suspicion of neoplasm, tumor or metastasis.fct"; Yes this is a request for a Diagnostic CT	1

Ophthalmology	Approval	70486 Computed tomography, maxillofacial area; without contrast material	&lt; Enter answer here - or Type In Unknown If No Info Given. &gt;; "This request is for face, jaw, mandible CT.239.8"; "There is not a history of serious facial bone or skull, trauma or injury.fct"; "There is not a suspicion of neoplasm, tumor or metastasis.fct"; "There is not a suspicion of bone infection, [osteomyelitis].fct"; This is not a preoperative or recent postoperative evaluation.; Yes this is a request for a Diagnostic CT	1
Ophthalmology	Approval	70486 Computed tomography, maxillofacial area; without contrast material	This is a request for a Sinus CT.; This study is not being ordered for trauma, tumor, sinusitis, osteomyelitis, pre operative or a post operative evaluation.; Yes this is a request for a Diagnostic CT	1
Ophthalmology	Approval	70486 Computed tomography, maxillofacial area; without contrast material	This study is being ordered for follow-up to trauma.; This is a request for a Sinus CT.; Yes this is a request for a Diagnostic CT	1
Ophthalmology	Approval	70496 Computed tomographic angiography, head, with contrast material(s), including noncontrast images, if performed, and image postprocessing	Yes, this is a request for CT Angiography of the brain.	2
Ophthalmology	Approval	70540 Magnetic resonance (eg, proton) imaging, orbit, face, and/or neck; without contrast material(s)	&lt; Enter answer here - or Type In Unknown If No Info Given. &gt;; This study is being ordered for a metastatic disease.; There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

Ophthalmology	Approval	70540 Magnetic resonance (eg, proton) imaging, orbit, face, and/or neck; without contrast material(s)	&lt; Enter answer here - or Type In Unknown If No Info Given. &gt;; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; unknown; There has not been any treatment or conservative therapy.; headache, blurred vision; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Ophthalmology	Approval	70540 Magnetic resonance (eg, proton) imaging, orbit, face, and/or neck; without contrast material(s)	; This study is being ordered for a neurological disorder.; UNKNOWN pt states it was noted by two other doctors recently and need work up; There has not been any treatment or conservative therapy.; larger pupil, harder to focus; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Ophthalmology	Approval	70540 Magnetic resonance (eg, proton) imaging, orbit, face, and/or neck; without contrast material(s)	; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 04/25/15; It is not known if there has been any treatment or conservative therapy.; STRABISMUS; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

Ophthalmology	Approval	70540 Magnetic resonance (eg, proton) imaging, orbit, face, and/or neck; without contrast material(s)	; This study is being ordered for trauma or injury.; car wreck in 2008. severe whiplash; It is not known if there has been any treatment or conservative therapy.; ocular headaches, history of pituitary tumor, history of trauma, double vision, progressing hypertropia; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Ophthalmology	Approval	70540 Magnetic resonance (eg, proton) imaging, orbit, face, and/or neck; without contrast material(s)	It is unknown if there is a suspicion of an infection or abscess.; This examination is being requested to evaluate lymphadenopathy or mass.; This is a request for an Orbit MRI.; There is not a history of orbit or face trauma or injury.	1
Ophthalmology	Approval	70540 Magnetic resonance (eg, proton) imaging, orbit, face, and/or neck; without contrast material(s)	N ONE; This study is being ordered for a neurological disorder.; 0712/2017; There has not been any treatment or conservative therapy.; Pt has visual defect, pain, flashes, glares.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Ophthalmology	Approval	70540 Magnetic resonance (eg, proton) imaging, orbit, face, and/or neck; without contrast material(s)	no additional details; This study is being ordered for Inflammatory/ Infectious Disease.; last three weeks; There has not been any treatment or conservative therapy.; Vision loss, headache, hearing loss, numbness, scalp tenderness; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

Ophthalmology	Approval	70540 Magnetic resonance (eg, proton) imaging, orbit, face, and/or neck; without contrast material(s)	possible optic neuritis; There is not a suspicion of an infection or abscess.; This examination is NOT being requested to evaluate lymphadenopathy or mass.; There is not a suspicion of a bone infection (osteomyelitis).; There is NOT a suspicion of an orbit or face neoplasm, tumor, or metastasis.; This is a request for an Orbit MRI.; There is not a history of orbit or face trauma or injury.	1
Ophthalmology	Approval	70540 Magnetic resonance (eg, proton) imaging, orbit, face, and/or neck; without contrast material(s)	Previously diagnosed with Leber's orbit optic atrophy. Pt. has issues driving, is light sensitive, dull headaches, and gradual loss of vision.; There is not a suspicion of an infection or abscess.; This examination is NOT being requested to evaluate lymphadenopathy or mass.; There is not a suspicion of a bone infection (osteomyelitis).; It is unknown if there is a suspicion of an orbit or face neoplasm, tumor, or metastasis.; This is a request for an Orbit MRI.; There is not a history of orbit or face trauma or injury.	1
Ophthalmology	Approval	70540 Magnetic resonance (eg, proton) imaging, orbit, face, and/or neck; without contrast material(s)	Pt with daily headaches that started appx 2 months ago that did not respond to tylenol and motrin. On Tuesday Feb 20th, she began running fever and having body aches and tested positive for Flu B. Her pupils at that time were also dilated and she was havi; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 02/27/18; It is not known if there has been any treatment or conservative therapy.; ; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	2

Ophthalmology	Approval	70540 Magnetic resonance (eg, proton) imaging, orbit, face, and/or neck; without contrast material(s)	sudden vision loss; This study is being ordered for a metastatic disease.; There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Ophthalmology	Approval	70540 Magnetic resonance (eg, proton) imaging, orbit, face, and/or neck; without contrast material(s)	There is not a suspicion of an infection or abscess.; This examination is being requested to evaluate lymphadenopathy or mass.; This is a request for an Orbit MRI.; There is not a history of orbit or face trauma or injury.	2
Ophthalmology	Approval	70540 Magnetic resonance (eg, proton) imaging, orbit, face, and/or neck; without contrast material(s)	There is not a suspicion of an infection or abscess.; This examination is NOT being requested to evaluate lymphadenopathy or mass.; There is not a suspicion of a bone infection (osteomyelitis).; There is a suspicion of an orbit or face neoplasm, tumor, or metastasis.; This is a request for an Orbit MRI.; There is not a history of orbit or face trauma or injury.	1
Ophthalmology	Approval	70540 Magnetic resonance (eg, proton) imaging, orbit, face, and/or neck; without contrast material(s)	This is a request for a Face MRI.; There is a history of orbit or face trauma or injury.	1
Ophthalmology	Approval	70540 Magnetic resonance (eg, proton) imaging, orbit, face, and/or neck; without contrast material(s)	This patient has been complaining of constant eye pain and double vision.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Ophthalmology	Approval	70540 Magnetic resonance (eg, proton) imaging, orbit, face, and/or neck; without contrast material(s)	VISUAL FIELD TEST IS WORSENING; This study is being ordered for a metastatic disease.; There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

Ophthalmology	Approval	70544 Magnetic resonance angiography, head; without contrast material(s)	<p>&amp;lt; Enter answer here - or Type In Unknown If No Info Given. &amp;gt;; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 2/14/18; There has not been any treatment or conservative therapy.; daily headaches, dizzy , nauseous,; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology</p>	1
Ophthalmology	Approval	70544 Magnetic resonance angiography, head; without contrast material(s)	<p>headache, optic disc disorder; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 02/02/2018; There has not been any treatment or conservative therapy.; optic nerve swelling in bilateral eyes; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology</p>	1

Ophthalmology	Approval	70544 Magnetic resonance angiography, head; without contrast material(s)	newer onset anisocoria , hx several accidents and whiplash injury could mean traumatic but since it has been noted more recently by two different MD feel that we need to proceed with an imaging work up; possible horns syndrome needs MRI/MRA; Exam Noted ; This study is being ordered for a neurological disorder.; unknown- Recent on-set on anisocoria. Has been noted by two prior physicians per patient. Needs further work up; There has not been any treatment or conservative therapy.; Larger pupil. Harder to accommodate; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Ophthalmology	Approval	70544 Magnetic resonance angiography, head; without contrast material(s)	OCT was done horizontal and blurred doubled vision and distortion; This study is being ordered for a metastatic disease.; There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Ophthalmology	Approval	70544 Magnetic resonance angiography, head; without contrast material(s)	patient had ATV accident May 2016 possible cfs leak, has intercranial hypertension, has constant eye pain and headaches; There is not an immediate family history of aneurysm.; The patient does not have a known aneurysm.; The patient has not had a recent MRI or CT for these symptoms.; There has not been a stroke or TIA within the past two weeks.; This is a request for a Brain MRA.	1
Ophthalmology	Approval	70544 Magnetic resonance angiography, head; without contrast material(s)	There is an immediate family history of aneurysm.; This is a request for a Brain MRA.	1

Ophthalmology	Approval	70544 Magnetic resonance angiography, head; without contrast material(s)	There is not an immediate family history of aneurysm.; The patient does not have a known aneurysm.; The patient has had a recent MRI or CT for these symptoms.; There has not been a stroke or TIA within the past two weeks.; This is a request for a Brain MRA.	4
Ophthalmology	Approval	70544 Magnetic resonance angiography, head; without contrast material(s)	There is not an immediate family history of aneurysm.; The patient does not have a known aneurysm.; The patient has not had a recent MRI or CT for these symptoms.; There has not been a stroke or TIA within the past two weeks.; This is a request for a Brain MRA.	1
Ophthalmology	Approval	70544 Magnetic resonance angiography, head; without contrast material(s)	We are going to go ahead and get an MRI and MRV to evaluate for any sort of mass, cerebral venous sinus thrombosis or other. Based on the results of that, we can discuss a spinal tap versus headache medicines. I honestly think her optic discs look couple; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; patient having daily headaches along with ringing in her ears, dizziness, nausea, pressure type sensation and transient visual loss. year 2016; There has not been any treatment or conservative therapy.; patient is having daily headaches along with ringing in her ears, dizziness, nausea, pressure type sensation and transient visual loss; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

Ophthalmology	Approval	70547 Magnetic resonance angiography, neck; without contrast material(s)	<p>; This study is being ordered for a neurological disorder.; UNKNOWN pt states it was noted by two other doctors recently and need work up; There has not been any treatment or conservative therapy.; larger pupil, harder to focus; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology</p>	1
Ophthalmology	Approval	70547 Magnetic resonance angiography, neck; without contrast material(s)	<p>; This study is being ordered for trauma or injury.; patient noticed eye flicker in right eye in October 2017. had 5 heart stints placed in 2018. Had heart attack in 2017.; It is not known if there has been any treatment or conservative therapy.; pt. notes eye flickering temporarily in the right eye. black and white in color every 2 to 3 weeks lasting about 4 minutes. headaches and no eye pain during episodes.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology</p>	1
Ophthalmology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	<p>&amp;lt; Enter answer here - or Type In Unknown If No Info Given. &amp;gt;; This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The headache is described as chronic or recurring.; The headache is not presenting with a sudden change in severity, associated with exertion, or a mental status change.; There are not recent neurological symptoms or deficits such as one sided weakness, speech impairments, or vision defects.; There is not a family history (parent, sibling or child of the patient) of AVM (arteriovenous malformation).</p>	1

Ophthalmology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	&lt; Enter answer here - or Type In Unknown If No Info Given. &gt;; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; The patient has Bell's Palsy.; It is unknown why this study is being ordered.	1
Ophthalmology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	&lt; Enter answer here - or Type In Unknown If No Info Given. &gt;; This study is being ordered for a metastatic disease.; There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Ophthalmology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	&lt; Enter answer here - or Type In Unknown If No Info Given. &gt;; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; &lt; Enter date of initial onset here - or Type In Unknown If No Info Given &gt;; There has not been any treatment or conservative therapy.; double vision; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

Ophthalmology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	<p>&amp;lt; Enter answer here - or Type In Unknown If No Info Given. &amp;gt;; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 2/14/18; There has not been any treatment or conservative therapy.; daily headaches, dizzy , nauseous,; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology</p>	1
Ophthalmology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	<p>&amp;lt; Enter answer here - or Type In Unknown If No Info Given. &amp;gt;; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; Birth; There has been treatment or conservative therapy.; Caféauluti maculas and lisch nodules; ; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology</p>	1
Ophthalmology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	<p>&amp;lt; Enter answer here - or Type In Unknown If No Info Given. &amp;gt;; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; unknown; There has not been any treatment or conservative therapy.; headache, blurred vision; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology</p>	1

Ophthalmology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	<p>; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 04/25/15; It is not known if there has been any treatment or conservative therapy.; STRABISMUS; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology</p>	1
Ophthalmology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	<p>; This study is being ordered for trauma or injury.; car wreck in 2008. severe whiplash; It is not known if there has been any treatment or conservative therapy.; ocular headaches, history of pituitary tumor, history of trauma, double vision, progressing hypertropia; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology</p>	1
Ophthalmology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	<p>; This study is being ordered for trauma or injury.; patient noticed eye flicker in right eye in October 2017. had 5 heart stints placed in 2018. Had heart attack in 2017.; It is not known if there has been any treatment or conservative therapy.; pt. notes eye flickering temporarily in the right eye. black and white in color every 2 to 3 weeks lasting about 4 minutes. headaches and no eye pain during episodes.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology</p>	1

Ophthalmology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	elevated optic nerve; This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The headache is described as chronic or recurring.; The headache is not presenting with a sudden change in severity, associated with exertion, or a mental status change.; There are not recent neurological symptoms or deficits such as one sided weakness, speech impairments, or vision defects.; There is not a family history (parent, sibling or child of the patient) of AVM (arteriovenous malformation).	1
Ophthalmology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	headache, optic disc disorder; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 02/02/2018; There has not been any treatment or conservative therapy.; optic nerve swelling in bilateral eyes; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Ophthalmology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Injury two years ago, had headaches since, Done MEDS received little relief -headache begin with spasms of neck- headaches for 10years worsen in last six months; This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The headache is described as chronic or recurring.; The headache is not presenting with a sudden change in severity, associated with exertion, or a mental status change.; There are not recent neurological symptoms or deficits such as one sided weakness, speech impairments, or vision defects.; There is not a family history (parent, sibling or child of the patient) of AVM (arteriovenous malformation).	1

Ophthalmology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	N ONE; This study is being ordered for a neurological disorder.; 0712/2017; There has not been any treatment or conservative therapy.; Pt has visual defect, pain, flashes, glares.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Ophthalmology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	newer onset anisocoria , hx several accidents and whiplash injury could mean traumatic but since it has been noted more recently by two different MD feel that we need to proceed with an imaging work up; possible horners syndrome needs MRI/MRA; Exam Noted ; This study is being ordered for a neurological disorder.; unknown- Recent on-set on anisocoria. Has been noted by two prior physicians per patient. Needs further work up; There has not been any treatment or conservative therapy.; Larger pupil. Harder to accommodate; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Ophthalmology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	no additional details; This study is being ordered for Inflammatory/ Infectious Disease.; last three weeks; There has not been any treatment or conservative therapy.; Vision loss, headache, hearing loss, numbness, scalp tenderness; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

Ophthalmology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	OCT was done horizontal and blurred doubled vision and distortion; This study is being ordered for a metastatic disease.; There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Ophthalmology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Optic nerve head elevation.; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Requested for evaluation of infection or inflammation; The patient does not have a fever, stiff neck AND positive laboratory findings (like elevated WBC or abnormal Lumbar puncture fluid examination that indicate inflammatory disease or an infection.; The doctor does not note on exam that the patient has delirium or acute altered mental status.; The patient does not have a Brain CT showing abscess, brain infection, meningitis or encephalitis.; This is NOT a Medicare member.	1
Ophthalmology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	proptosis of right eye; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; The patient does not have dizziness, fatigue or malaise, sudden change in mental status, Bell's palsy, Congenital abnormality, loss of smell, hearing loss or vertigo.; It is unknown why this study is being ordered.	1

Ophthalmology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	<p>Pseudotumor cerebri. She has no active disc edema. She has no visual field defects. I am not sure if she has temporal pallor versus myopic tilt, but at this time she has no other deficits, so I would just monitor. I am going to see her back in six mon; This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The headache is described as chronic or recurring.; It is not known if the headache is presenting with a sudden change in severity, associated with exertion, or a mental status change.; There are not recent neurological symptoms or deficits such as one sided weakness, speech impairments, or vision defects.; It is not known if there is a family history (parent, sibling or child of the patient) of AVM (arteriovenous malformation).</p>	1
---------------	----------	--	---	---

Ophthalmology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	<p>Pt with daily headaches that started appx 2 months ago that did not respond to tylenol and motrin. On Tuesday Feb 20th, she began running fever and having body aches and tested positive for Flu B. Her pupils at that time were also dilated and she was havi; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 02/27/18; It is not known if there has been any treatment or conservative therapy.; ; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology</p>	1
---------------	----------	--	---	---

Ophthalmology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Pt. has headaches 3 to 4 times a week. papilledema associated with increased intracranial pressure. Ringing in ears. suspect IIH. papilledema vs. pseudopapilledema.; This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The headache is described as chronic or recurring.; It is not known if the headache is presenting with a sudden change in severity, associated with exertion, or a mental status change.; There are not recent neurological symptoms or deficits such as one sided weakness, speech impairments, or vision defects.; It is not known if there is a family history (parent, sibling or child of the patient) of AVM (arteriovenous malformation).	1
Ophthalmology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	rule out a tumor; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Not requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation,multiple sclerosis, or seizures; The condition is not associated with headache, blurred or double vision or a change in sensation noted on exam.; A metabolic work-up done including urinalysis, electrolytes, and complete blood count with results was not completed.; The patient does NOT have dizziness, fatigue or malaise, Bell's Palsy, a congenital abnormality, loss of smell, hearing loss or vertigo.	1
Ophthalmology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	sudden vision loss; This study is being ordered for a metastatic disease.; There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Ophthalmology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	This patient has been complaining of constant eye pain and double vision.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1

Ophthalmology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	This request is for a Brain MRI; It is unknown if the study is being requested for evaluation of a headache.; Not requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation,multiple sclerosis, or seizures; The condition is associated with headache, blurred or double vision or a change in sensation noted on exam.; The patient does NOT have dizziness, fatigue or malaise, Bell's Palsy, a congenital abnormality, loss of smell, hearing loss or vertigo.	1
Ophthalmology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The headache is described as chronic or recurring.; It is not known if the headache is presenting with a sudden change in severity, associated with exertion, or a mental status change.; There are recent neurological symptoms or deficits such as one sided weakness, speech impairments, or vision defects.	6
Ophthalmology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The headache is described as chronic or recurring.; The headache is presenting with a sudden change in severity, associated with exertion, or a mental status change.	7
Ophthalmology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The headache is described as sudden and severe.; There recent neurological deficits on exam such as one sided weakness, speech impairments or vision defects.	1
Ophthalmology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Not requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation,multiple sclerosis, or seizures; The condition is associated with headache, blurred or double vision or a change in sensation noted on exam.; The patient does NOT have dizziness, fatigue or malaise, Bell's Palsy, a congenital abnormality, loss of smell, hearing loss or vertigo.	5

Ophthalmology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Not requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation,multiple sclerosis, or seizures; The condition is associated with headache, blurred or double vision or a change in sensation noted on exam.; The patient is experiencing fatigue or malaise.	1
Ophthalmology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Requested for evaluation of infection or inflammation; The patient has a fever, stiff neck AND positive laboratory findings (like elevated WBC or abnormal Lumbar puncture fluid examination that indicate inflammatory disease or an infection.; This is NOT a Medicare member.	1
Ophthalmology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Requested for evaluation of Multiple Sclerosis; It is not known if the patient has undergone treatment for multiple sclerosis.; There are intermittent or new neurological symptoms or deficits such as one-sided weakness, speech impairments, or vision defects.	1
Ophthalmology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; This study is being ordered for a tumor.	1
Ophthalmology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	VISUAL FIELD TEST IS WORSENING; This study is being ordered for a metastatic disease.; There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

Ophthalmology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	<p>We are going to go ahead and get an MRI and MRV to evaluate for any sort of mass, cerebral venous sinus thrombosis or other. Based on the results of that, we can discuss a spinal tap versus headache medicines. I honestly think her optic discs look cuple; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; patient having daily headaches along with ringing in her ears, dizziness, nausea, pressure type sensation and transient visual loss. year 2016; There has not been any treatment or conservative therapy.; patient is having daily headaches along with ringing in her ears, dizziness, nausea, pressure type sensation and transient visual loss; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology</p>	1
Ophthalmology	Approval	71250 Computed tomography, thorax; without contrast material	<p>'None of the above' describes the reason for this request.; This study is being requested for a congenital abnormality; This is a request for a Chest CT.; This study is being requested for none of the above.; Yes this is a request for a Diagnostic CT</p>	1
Ophthalmology	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	<p>This is a request for cervical spine MRI; None of the above; &amp;lt;Enter Additional Clinical Information&amp;gt;; No, the patient is not experiencing or presenting new symptoms of upper extremity weakness?; No, the patient is not demonstrating unilateral muscle wasting.; No, the patient is not experiencing or presenting new symptoms of Bowel or bladder dysfunction.; No, the patient is not experiencing new onset of parathesia diagnosed by a neurologist; No, the patient is not experiencing or presenting x-ray evidence of a recent fracture.</p>	1

Ophthalmology	Disapproval	70450 Computed tomography, head or brain; without contrast material	Radiology Services Denied Not Medically Necessary	<p>&amp;lt; Enter answer here - or Type In Unknown If No Info Given. &amp;gt;; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; &amp;lt; Enter date of initial onset here - or Type In Unknown If No Info Given &amp;gt;; It is not known if there has been any treatment or conservative therapy.; &amp;lt; Describe primary symptoms here - or Type In Unknown If No Info Given &amp;gt;; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology</p> <p>This is a request for a brain/head CT.; The patient has a suspected tumor outside the brain.; Known or suspected tumor best describes the reason that I have requested this test.</p>	1
Ophthalmology	Disapproval	70450 Computed tomography, head or brain; without contrast material	Radiology Services Denied Not Medically Necessary	<p>&amp;lt; Enter answer here - or Type In Unknown If No Info Given. &amp;gt;; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; &amp;lt; Enter date of initial onset here - or Type In Unknown If No Info Given &amp;gt;; It is not known if there has been any treatment or conservative therapy.; &amp;lt; Describe primary symptoms here - or Type In Unknown If No Info Given &amp;gt;; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology</p>	1
Ophthalmology	Disapproval	70486 Computed tomography, maxillofacial area; without contrast material	Radiology Services Denied Not Medically Necessary	<p>&amp;lt; Enter answer here - or Type In Unknown If No Info Given. &amp;gt;; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; &amp;lt; Enter date of initial onset here - or Type In Unknown If No Info Given &amp;gt;; It is not known if there has been any treatment or conservative therapy.; &amp;lt; Describe primary symptoms here - or Type In Unknown If No Info Given &amp;gt;; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology</p>	1

Ophthalmology	Disapproval	70540 Magnetic resonance (eg, proton) imaging, orbit, face, and/or neck; without contrast material(s)	Radiology Services Denied Not Medically Necessary	&lt; Enter answer here - or Type In Unknown If No Info Given. &gt;; This study is being ordered for a neurological disorder.; 11/18/2016; There has been treatment or conservative therapy.; Decrease in vision.; Four different types of Eye drops and prescribed medications. Visual acuity is diminishing.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Ophthalmology	Disapproval	70540 Magnetic resonance (eg, proton) imaging, orbit, face, and/or neck; without contrast material(s)	Radiology Services Denied Not Medically Necessary	&lt; Enter answer here - or Type In Unknown If No Info Given. &gt;; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; &lt; Enter date of initial onset here - or Type In Unknown If No Info Given &gt;; There has not been any treatment or conservative therapy.; double vision; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	2
Ophthalmology	Disapproval	70540 Magnetic resonance (eg, proton) imaging, orbit, face, and/or neck; without contrast material(s)	Radiology Services Denied Not Medically Necessary	&lt; Enter answer here - or Type In Unknown If No Info Given. &gt;; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; Birth; There has been treatment or conservative therapy.; Caféauluti maculas and lisch nodules; ; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

Ophthalmology	Disapproval	70540 Magnetic resonance (eg, proton) imaging, orbit, face, and/or neck; without contrast material(s)	Radiology Services Denied Not Medically Necessary	There is not a suspicion of an infection or abscess.; This examination is being requested to evaluate lymphadenopathy or mass.; This is a request for an Orbit MRI.; It is unknown if there is a history of orbit or face trauma or injury.	1
Ophthalmology	Disapproval	70544 Magnetic resonance angiography, head; without contrast material(s)	Radiology Services Denied Not Medically Necessary	There is not an immediate family history of aneurysm.; The patient does not have a known aneurysm.; The patient has had a recent MRI or CT for these symptoms.; There has not been a stroke or TIA within the past two weeks.; This is a request for a Brain MRA.	1
Ophthalmology	Disapproval	70544 Magnetic resonance angiography, head; without contrast material(s)	Radiology Services Denied Not Medically Necessary	There is not an immediate family history of aneurysm.; The patient does not have a known aneurysm.; The patient has not had a recent MRI or CT for these symptoms.; There has not been a stroke or TIA within the past two weeks.; This is a request for a Brain MRA.	1
Ophthalmology	Disapproval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Radiology Services Denied Not Medically Necessary	&lt; Enter answer here - or Type In Unknown If No Info Given. &gt;; This study is being ordered for a neurological disorder.; 11/18/2016; There has been treatment or conservative therapy.; Decrease in vision.; Four different types of Eye drops and prescribed medications. Visual acuity is diminishing.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Oral/Maxillofacial	Approval	70336 Magnetic resonance (eg, proton) imaging, temporomandibular joint(s)		This is a request for a temporomandibular joint MRI.	3
Oral/Maxillofacial	Approval	70486 Computed tomography, maxillofacial area; without contrast material		"This request is for face, jaw, mandible CT.239.8"; "There is not a history of serious facial bone or skull, trauma or injury.fct"; "There is not a suspicion of neoplasm, tumor or metastasis.fct"; "There is not a suspicion of bone infection, [osteomyelitis].fct"; This is a preoperative or recent postoperative evaluation.; Yes this is a request for a Diagnostic CT	1
Oral/Maxillofacial	Disapproval	70336 Magnetic resonance (eg, proton) imaging, temporomandibular joint(s)	Radiology Services Denied Not Medically Necessary	This is a request for a temporomandibular joint MRI.	1

Orthopedics	Approval	70486 Computed tomography, maxillofacial area; without contrast material	"This request is for face, jaw, mandible CT.239.8"; "There is a history of serious facial bone or skull, trauma or injury.fct"; Yes this is a request for a Diagnostic CT This is a request for a Sinus CT.; This study is being ordered for sinusitis.; The patient is NOT immune-compromised.; The patient's current rhinosinusitis symptoms are described as Chronic Rhinosinusitis (episode is greater than 12 weeks); Yes this is a request for a Diagnostic CT	2
Orthopedics	Approval	70486 Computed tomography, maxillofacial area; without contrast material		1
Orthopedics	Approval	70490 Computed tomography, soft tissue neck; without contrast material	This is a request for neck soft tissue CT.; The study is being ordered for Follow Up.; The patient has a known tumor or metastasis in the neck.; The patient completed a course of chemotherapy or radiation therapy within the past 90 days.; Yes this is a request for a Diagnostic CT	1
Orthopedics	Approval	70490 Computed tomography, soft tissue neck; without contrast material	This is a request for neck soft tissue CT.; There has not been recent trauma or other injury to the neck.; There is no suspicion of or known tumor, metastasis, lymphadenopathy, or mass.; There is not a suspicion of an infection or abscess.; This is not being ordered by an ENT specialist.; Yes this is a request for a Diagnostic CT	1
Orthopedics	Approval	70490 Computed tomography, soft tissue neck; without contrast material	This is a request for neck soft tissue CT.; There has not been recent trauma or other injury to the neck.; There is suspicion of or known tumor, metastasis, lymphadenopathy, or mass.; Yes this is a request for a Diagnostic CT	1
Orthopedics	Approval	70540 Magnetic resonance (eg, proton) imaging, orbit, face, and/or neck; without contrast material(s)	"This is a request for orbit,face, or neck soft tissue MRI.239.8"; The study is ordered for suspicion of neoplasm, tumor or metatstasis	1

Orthopedics	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	&lt; Enter answer here - or Type In Unknown If No Info Given. &gt;; This request is for a Brain MRI; It is unknown if the study is being requested for evaluation of a headache.; Not requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation,multiple sclerosis, or seizures; It is not known if the condition is associated with headache, blurred or double vision or a change in sensation noted on exam.; It is not known if a metabolic work-up done including urinalysis, electrolytes, and complete blood count with results completed.; The patient does NOT have dizziness, fatigue or malaise, Bell's Palsy, a congenital abnormality, loss of smell, hearing loss or vertigo.	1
Orthopedics	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	; This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The headache is described as chronic or recurring.; The headache is not presenting with a sudden change in severity, associated with exertion, or a mental status change.; There are not recent neurological symptoms or deficits such as one sided weakness, speech impairments, or vision defects.; There is not a family history (parent, sibling or child of the patient) of AVM (arteriovenous malformation).	1
Orthopedics	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Headaches and occipital neck pain and head pain.; This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The headache is described as chronic or recurring.; It is not known if the headache is presenting with a sudden change in severity, associated with exertion, or a mental status change.; It is not known if there are recent neurological symptoms or deficits such as one sided weakness, speech impairments, or vision defects.; There is not a family history (parent, sibling or child of the patient) of AVM (arteriovenous malformation).	1

Orthopedics	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Not requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation, multiple sclerosis, or seizures; The condition is associated with headache, blurred or double vision or a change in sensation noted on exam.; The patient does NOT have dizziness, fatigue or malaise, Bell's Palsy, a congenital abnormality, loss of smell, hearing loss or vertigo.	1
Orthopedics	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; This study is being ordered for a tumor.	1
Orthopedics	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Unknown; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; Unknown; It is not known if there has been any treatment or conservative therapy.; Unknown; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Orthopedics	Approval	71250 Computed tomography, thorax; without contrast material	"There IS evidence of a lung, mediastinal or chest mass noted within the last 30 days."; A Chest/Thorax CT is being ordered.; This study is being ordered for work-up for suspicious mass.; Yes this is a request for a Diagnostic CT	1
Orthopedics	Approval	71250 Computed tomography, thorax; without contrast material	"There IS evidence of a lung, mediastinal or chest mass noted within the last 30 days."; They did not have a previous Chest x-ray.; A Chest/Thorax CT is being ordered.; This study is being ordered for work-up for suspicious mass.; Yes this is a request for a Diagnostic CT	1

Orthopedics	Approval	71250 Computed tomography, thorax; without contrast material	&lt; Enter answer here - or Type In Unknown If No Info Given. &gt;; This study is being ordered for a metastatic disease.; There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Orthopedics	Approval	71250 Computed tomography, thorax; without contrast material	; This study is being ordered for a metastatic disease.; There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Orthopedics	Approval	71250 Computed tomography, thorax; without contrast material	Abnormal finding on examination of the chest, chest wall and or lungs describes the reason for this request.; This is a request for a Chest CT.; Yes this is a request for a Diagnostic CT	3
Orthopedics	Approval	71250 Computed tomography, thorax; without contrast material	Abnormal imaging test describes the reason for this request.; This is a request for a Chest CT.; Yes this is a request for a Diagnostic CT	1
Orthopedics	Approval	71250 Computed tomography, thorax; without contrast material	'None of the above' describes the reason for this request.; This reason this study is being requested is unknown.; This is a request for a Chest CT.; This study is being requested for none of the above.; Yes this is a request for a Diagnostic CT	2
Orthopedics	Approval	71250 Computed tomography, thorax; without contrast material	The request is for a chest, thoracic or sterno-clavicular joint CT.; "There is a nodule,coin lesion or other lung mass.cxct"; Yes this is a request for a Diagnostic CT	1

Orthopedics	Approval	71250 Computed tomography, thorax; without contrast material	Unknown; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; Unknown; It is not known if there has been any treatment or conservative therapy.; Unknown; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Orthopedics	Approval	71550 Magnetic resonance (eg, proton) imaging, chest (eg, for evaluation of hilar and mediastinal lymphadenopathy); without contrast material(s)	&lt; Enter answer here - or Type In Unknown If No Info Given. &gt;; This study is NOT being ordered for a Work-up for Suspicious Mass, Known Tumor, Known or Suspected Inflammatory Disease, etc...; This is a request for a chest MRI.	1
Orthopedics	Approval	71550 Magnetic resonance (eg, proton) imaging, chest (eg, for evaluation of hilar and mediastinal lymphadenopathy); without contrast material(s)	Patient needs an MRI to confirm a right clavicle fracture.; This study is NOT being ordered for a Work-up for Suspicious Mass, Known Tumor, Known or Suspected Inflammatory Disease, etc...; This is a request for a chest MRI.	1
Orthopedics	Approval	72125 Computed tomography, cervical spine; without contrast material	It is not known if the patient has any neurological deficits.; This study is not to be part of a Myelogram.; This is a request for a Cervical Spine CT; This study is being ordered due to chronic neck pain or suspected degenerative disease.; There has been a supervised trial of conservative management for at least 6 weeks.; The patient is experiencing sensory abnormalities such as numbness or tingling.; There is a reason why the patient cannot have a Cervical Spine MRI.	4
Orthopedics	Approval	72125 Computed tomography, cervical spine; without contrast material	Patient already had an MRI. Pre-op Ct of the cervical spine; This study is not to be part of a Myelogram.; This is a request for a Cervical Spine CT; There is no reason why the patient cannot have a Cervical Spine MRI.	1

Approval

72125 Computed tomography,  
cervical spine; without contrast  
material

Post foraminotomies, left C3-4, C4-5, C5-6 on  
8/8/17; Adjacent segment degenerative disc  
disease, C3-4, with severe left foraminal narrowing and  
pain. Status post C4-6 ACDF, Dr Calhoun in August of  
2016 with continued severe left foraminal narrowing at  
C4; This study is being ordered for something other than:  
known trauma or injury, metastatic disease, a  
neurological disorder, inflammatory or infectious  
disease, congenital anomaly, or vascular disease.;  
01/27/2017; There has been treatment or conservative  
therapy.; Progressive pain in the neck, down L shoulder  
and arm with numbness. weakness in both hands.  
Lumbar pain radiating into L buttock; Physical  
Therapy; NSAIDS; Steroid Injections; One of  
the studies being ordered is NOT a Breast MRI, CT  
Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.;  
The ordering MDs specialty is NOT  
Hematologist/Oncologist, Thoracic Surgery, Oncology,  
Surgical Oncology or Radiation Oncology

1

Orthopedics	Approval	72125 Computed tomography, cervical spine; without contrast material	<p>Severity of problem is incapacitation. persistent pain in bilateral neck, bilateral lumbar, bilateral gluteal and bilateral legs. The pain is radiating to the bilateral back, to the fingers, bilateral foot and hands; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 9/28/2017; There has been treatment or conservative therapy.; balance disturbances, decreased mobility, disequilibrium, gait disturbance, hand clumsiness, numbness, spasms, tenderness. Tingling in legs, weakness in legs and thighs; Conservative care for nerve root impingement, physical therapy, medication, injections and lifestyle modifications; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology</p>	1
Orthopedics	Approval	72125 Computed tomography, cervical spine; without contrast material	<p>The patient does have neurological deficits.; This study is not to be part of a Myelogram.; This is a request for a Cervical Spine CT; This study is being ordered due to chronic neck pain or suspected degenerative disease.; There has been a supervised trial of conservative management for at least 6 weeks.; The patient is experiencing sensory abnormalities such as numbness or tingling.; There is a reason why the patient cannot have a Cervical Spine MRI.; This study is being ordered for another reason besides Abnormal gait, Lower extremity weakness, Asymmetric reflexes, Documented evidence of Multiple Sclerosis, Bowel or bladder dysfunction, Evidence of new foot drop, etc...</p>	1

Orthopedics	Approval	72125 Computed tomography, cervical spine; without contrast material	This study is not to be part of a Myelogram.; This is a request for a Cervical Spine CT; This study is being ordered due to follow-up surgery or fracture within the last 6 months.; "The patient has been seen by, or the ordering physician is, a neuro-specialist, orthopedist, or oncologist."; There is a reason why the patient cannot have a Cervical Spine MRI.	1
Orthopedics	Approval	72125 Computed tomography, cervical spine; without contrast material	This study is not to be part of a Myelogram.; This is a request for a Cervical Spine CT; This study is being ordered due to neurological deficits.; The patient is experiencing or presenting symptoms of radiculopathy.; There is a reason why the patient cannot have a Cervical Spine MRI.	1
Orthopedics	Approval	72125 Computed tomography, cervical spine; without contrast material	This study is to be part of a Myelogram.; This is a request for a Cervical Spine CT	1
Orthopedics	Approval	72128 Computed tomography, thoracic spine; without contrast material	; This is a request for a thoracic spine CT.; There is no reason why the patient cannot undergo a thoracic spine MRI.; Yes this is a request for a Diagnostic CT	2

material

Scheuermann's kyphosis, 80 degrees. Possible ankylosing spondylitis - A long discussion was had regarding his kyphotic deformity and likelihood of continued progression. It is already significantly affecting his life and he would like to proceed with surgery; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 12/01/17; There has been treatment or conservative therapy.; kyphotic deformity of 80 degrees, trouble lifting, back hunched over; brace; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology

1

Orthopedics	Approval	72128 Computed tomography, thoracic spine; without contrast material	<p>dull, itching and tingling. Her symptoms are not changing. Her symptoms are alleviated with muscle relaxers and bio freeze, and are aggravated with slumping and sitting.; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; AP and lateral x-ray of the thoracic spine ordered, obtained, and interpreted today reveals severe, isolated disc space narrowing, with degenerative changes at 1 level in the mid thoracic spine, difficult to tell which level exactly.&amp;#x0D; &amp;#x0D; AP and lateral x-r; There has been treatment or conservative therapy.; The pain is moderate to severe. The pain is burning, dull, itching and tingling. Her symptoms are not changing. Her symptoms are alleviated with muscle relaxers and bio freeze, and are aggravated with slumping and sitting.; She has been through multiple courses of physical therapy, without significant relief.&amp;#x0D; She has had 3 epidural steroid injections at C7-T1, by Dr. Paulus, without significant relief. These injections were done in October, November and December 2017.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology</p>	1
Orthopedics	Approval	72128 Computed tomography, thoracic spine; without contrast material	<p>The patient does not have any neurological deficits.; This is a request for a thoracic spine CT.; There has been a supervised trial of conservative management for at least 6 weeks.; The study is being ordered due to chronic back pain or suspected degenerative disease.; There is a reason why the patient cannot undergo a thoracic spine MRI.; Yes this is a request for a Diagnostic CT</p>	1

Approval

72131 Computed tomography,  
lumbar spine; without contrast  
material

; This study is being ordered for something other than:  
known trauma or injury, metastatic disease, a  
neurological disorder, inflammatory or infectious  
disease, congenital anomaly, or vascular disease.;  
9/26/17; There has been treatment or conservative  
therapy.; This is a 50-year-old gentleman who is  
approximately one month out from an anterior  
interbody fusion at T12-L1 secondary to infection. Dr.  
Michael Pollack aided in the approach for this. He has  
had a significant amount of pain around his wound with  
radi; I recommend CT and MRI of the thoracic and  
lumbar spine to evaluate his persistent thoracolumbar  
pain despite 3 months postop from reconstruction. He  
may require posterior instrumentation.&#x0D; &#x0D;  
Follow-up with me or Dr. McCarthy after the  
imaging&#x0D; &#x0D; Percoce; One of the studies being  
ordered is NOT a Breast MRI, CT Colonoscopy, EBCT,  
MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs  
specialty is NOT Hematologist/Oncologist, Thoracic  
Surgery, Oncology, Surgical Oncology or Radiation  
Oncology

Orthopedics	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	&lt; Enter answer here - or Type In Unknown If No Info Given. &gt;; This study is being ordered for Inflammatory/ Infectious Disease.; 5 months prior to 2/19/2018; There has been treatment or conservative therapy.; &lt; Describe primary symptoms here - or Type In Unknown If No Info Given &gt;; NSAIDS and Physical Therapy; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

Orthopedics	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	&lt; Enter answer here - or Type In Unknown If No Info Given. &gt;; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 09/01/2017; There has been treatment or conservative therapy.; Cervical -Neck pain, pain and weakness in bilateral arms. thoracic - mid back pain. PT says feels like on fire.; HOME EXCERCISE, Medications, steroids; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Orthopedics	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	&lt; Enter answer here - or Type In Unknown If No Info Given. &gt;; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 4 weeks ago; There has been treatment or conservative therapy.; numbness and tingling down arm, pain in neck,; medication, PT; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Orthopedics	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	; This is a request for cervical spine MRI; Acute or Chronic neck and/or back pain; The patient does have new or changing neurologic signs or symptoms.; There is no weakness or reflex abnormality.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; There is not x-ray evidence of a recent cervical spine fracture.	1

Orthopedics	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	; This is a request for cervical spine MRI; Acute or Chronic neck and/or back pain; The patient does have new or changing neurologic signs or symptoms.; There is reflex abnormality.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; There is not x-ray evidence of a recent cervical spine fracture.;	1
Orthopedics	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	; This is a request for cervical spine MRI; Acute or Chronic neck and/or back pain; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; ; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; There is not x-ray evidence of a recent cervical spine fracture.	1
Orthopedics	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	; This is a request for cervical spine MRI; Neurological deficits; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; Patient's bilateral upper extremities are examined. She has a bit of a difficult examination. She reports numbness and altered sensation, not just in the median nerve distribution but extending up into her forearms and then into her shoulders. She has ; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; There is not x-ray evidence of a recent cervical spine fracture.	1
Orthopedics	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	; This is a request for cervical spine MRI; None of the above; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; ; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; There is not x-ray evidence of a recent cervical spine fracture.	1

Orthopedics	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	; This study is being ordered for trauma or injury.; ; There has been treatment or conservative therapy.; left hip pain. He reports that he had a fall of approximately 4-5 stairs at home. He landed on his left hip. Since that time he has had left hip pain with any activity. He is to the point that he has difficulty even ambulating a few feet. The pain is; He had approximately 3 weeks of physical therapy for his left hip which did not help.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
-------------	----------	---	---	---

Orthopedics	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	; This study is being ordered for trauma or injury.; 11/2017; There has been treatment or conservative therapy.; THORACIC ADN LOW BACK PAIN, LEFT LOWER EXTREMITY RADICULAR PAIN; CHIROPRACTOR SINCE TIME OF INJURY AND APPLY ICE TO HER LOW ADN MID THORACIC BACK; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
-------------	----------	---	--	---

Orthopedics	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	<p>; This study is being ordered for trauma or injury.; Progress Note; The patient is a 55 y.o. male who was referred by Dr. O'Malley who has been evaluating him primarily for right shoulder pain. There is shoulder pathology on MRI, but Dr. O'Malley believes that there is a component of cervical radiculopathy; There has not been any treatment or conservative therapy.; Progress Note; The patient is a 55 y.o. male who was referred by Dr. O'Malley who has been evaluating him primarily for right shoulder pain. There is shoulder pathology on MRI, but Dr. O'Malley believes that there is a component of cervical radiculopathy; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology</p>	1
Orthopedics	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	<p>32-year-old white male presented to clinic today with right shoulder pain. His pain has been going on for greater than 6 months. He describes his pain as being aching, dull, stabbing, throbbing. His diagnosis is noted in the cc above. He is previously had; This is a request for cervical spine MRI; Pre-Operative Evaluation; It is not known when surgery is scheduled.</p>	1
Orthopedics	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	<p>Brachial Plexus tear and EMG was abnormal.; This study is being ordered for trauma or injury.; 12/18/2017; There has been treatment or conservative therapy.; left hand and finger numb and unable to lift arm, weakness, pain is 8-10, had emg testing; heat and ice, medication.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology</p>	1

Orthopedics	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Continued pain despite conservative therapy.; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 2008; There has been treatment or conservative therapy.; chronic cervical pain with radiation into the shoulders/arms. Chronic lumbar pain.; Home exercises, anti inflammatory; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
-------------	----------	---	---	---

Orthopedics	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Dr. McCarthy has seen and evaluated the patient with me today. We have visited with Karie and both of her parents regarding the new studies. The pulmonologist has given her clearance for surgery and advised that she is at moderate risk for complications; This study is being ordered for trauma or injury.; 11/29/17; There has been treatment or conservative therapy.; severe scoliosis, severe back pain; pt wears a vet device, she also wears a BiPAP at night; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
-------------	----------	---	---	---

Orthopedics	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	ED Notes; States was told to come to ED by Dr Pena after review of CT completed yesterday, possible "back fractures" pt with metastatic cancer. CT report reveals; Interval compression deformities of T1 vertebral body with greater than; 75% vertebral body ; This study is being ordered for a metastatic disease.; There are 3 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Orthopedics	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	EMG and nerve study which shows he has some right sided C5-6-7 radiculopathy.; This is a request for cervical spine MRI; Neurological deficits; The patient does have new or changing neurologic signs or symptoms.; It is not known if there is weakness or reflex abnormality.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; There is not x-ray evidence of a recent cervical spine fracture.	1
Orthopedics	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	I recommend cervical spine MRI and physical therapy for the left shoulder. She is agreeable to this plan. Cervical spine MRI will be ordered and a prescription for physical therapy for her left shoulder is provided. She will follow-up for MRI results.; This is a request for cervical spine MRI; Trauma or recent injury; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; Decreased sensation in index, long, and ring fingers compared to contralateral side. Wrist compression and Tinel's at the wrist negative. Elbow flexion and Tinel's at the elbow negative. Empty can test positive for pain and weakness.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; There is not x-ray evidence of a recent cervical spine fracture.	1

Orthopedics	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	neuro changes; This study is being ordered for trauma or injury.; onset 2 mo ago with fall, complete collapse of c4-c5 with debilitation from pain and radiculopathy; There has been treatment or conservative therapy.; severe debilitation from pain and radiculopathy and complete collapse of disk space; Nsaid.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Orthopedics	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Neurological deficits with acute onset pain which started four weeks ago, pt completed 4 weeks of physical therapy and had nsaid with no improvement, The is a preop eval.; This is a request for cervical spine MRI; Pre-Operative Evaluation; Surgery is not scheduled within the next 4 weeks.	1
Orthopedics	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	no info given; This is a request for cervical spine MRI; None of the above; It is not known if the patient does have new or changing neurologic signs or symptoms.; It is not known if the patient has had back pain for over 4 weeks.	1
Orthopedics	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	pain is 10 on a scale of 1-10-nerve test showed severe carpel tunnel-began Nov 2017-aching and throbbing in the arm and hand; This is a request for cervical spine MRI; Acute or Chronic neck and/or back pain; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; Pt has positive sturlings test with pain that radiates down the arm. Pt shows c-7 radiculopathy; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; There is not x-ray evidence of a recent cervical spine fracture.	1
Orthopedics	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	patient is in pain and has been for a length of time; This is a request for cervical spine MRI; Acute or Chronic neck and/or back pain; It is not known if the patient does have new or changing neurologic signs or symptoms.; It is not known if the patient has had back pain for over 4 weeks.	1

Orthopedics	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Referring patient for Cervical epidural steroid injections.; This is a request for cervical spine MRI; Acute or Chronic neck and/or back pain; The patient does not have new or changing neurologic signs or symptoms.; The patient has NOT had back pain for over 4 weeks.	1
Orthopedics	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	She has had mild right hemiplegia for a few years, which may be related to significant disc herniation in her neck. She has weakness to her legs as well and bladder urgency, frequency and some incontinence. She may have a large disc herniation in her lumb; This study is being ordered for trauma or injury.; Roughly 5 or 6 years ago; There has not been any treatment or conservative therapy.; Neck and her low back pain, right sided weakness, paresthesias to the right arm and leg, weakness, clumsiness, and increased urinary frequency urgency, and a couple of episodes of bladder incontinence.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Orthopedics	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	The patient has failed a course of anti-inflammatory medication or steroids.; This is a request for cervical spine MRI; There has been a supervised trial of conservative management for at least 6 weeks.; Acute or Chronic neck and/or back pain; It is not known if the patient demonstrate neurological deficits.; It is not known if this patient had a recent course of supervised physical Therapy.	1
Orthopedics	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	The patient has failed a course of anti-inflammatory medication or steroids.; This is a request for cervical spine MRI; There has been a supervised trial of conservative management for at least 6 weeks.; Acute or Chronic neck and/or back pain; It is not known if the patient demonstrate neurological deficits.; No, this patient did not have a recent course of supervised physical Therapy.	1

Orthopedics	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	The patient has failed a course of anti-inflammatory medication or steroids.; This is a request for cervical spine MRI; There has been a supervised trial of conservative management for at least 6 weeks.; Acute or Chronic neck and/or back pain; No, the patient does not demonstrate neurological deficits.; It is not known if this patient had a recent course of supervised physical Therapy.	3
Orthopedics	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	The patient has failed a course of anti-inflammatory medication or steroids.; This is a request for cervical spine MRI; There has been a supervised trial of conservative management for at least 6 weeks.; Acute or Chronic neck and/or back pain; No, the patient does not demonstrate neurological deficits.; No, this patient did not have a recent course of supervised physical Therapy.	9
Orthopedics	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	The patient has failed a course of anti-inflammatory medication or steroids.; This is a request for cervical spine MRI; There has been a supervised trial of conservative management for at least 6 weeks.; Acute or Chronic neck and/or back pain; Yes, the patient demonstrate neurological deficits.; No, there is not a documented evidence of extremity weakness on physical examination.; No, there is no evidence of recent development of unilateral muscle wasting.; It is not known if this patient had a recent course of supervised physical Therapy.	1
Orthopedics	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	The patient has failed a course of anti-inflammatory medication or steroids.; This is a request for cervical spine MRI; There has been a supervised trial of conservative management for at least 6 weeks.; Acute or Chronic neck and/or back pain; Yes, the patient demonstrate neurological deficits.; No, there is not a documented evidence of extremity weakness on physical examination.; No, there is no evidence of recent development of unilateral muscle wasting.; No, this patient did not have a recent course of supervised physical Therapy.	1

Orthopedics	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	The patient has not failed a course of anti-inflammatory medication or steroids.; This is a request for cervical spine MRI; There has been a supervised trial of conservative management for at least 6 weeks.; Acute or Chronic neck and/or back pain; No, the patient does not demonstrate neurological deficits.; No, this patient did not have a recent course of supervised physical Therapy.; It is not known if the patient had six weeks of Chiropractic care related to this episode.;	1
Orthopedics	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	The patient has not failed a course of anti-inflammatory medication or steroids.; This is a request for cervical spine MRI; There has been a supervised trial of conservative management for at least 6 weeks.; Acute or Chronic neck and/or back pain; No, the patient does not demonstrate neurological deficits.; No, this patient did not have a recent course of supervised physical Therapy.; No, the patient did not have six weeks of Chiropractic care related to this episode.;	1
Orthopedics	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	This is a request for cervical spine MRI; "The patient has been seen by, or the ordering physician is, a neuro-specialist, orthopedist, or oncologist."; Follow-up to Surgery or Fracture within the last 6 months	2
Orthopedics	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	This is a request for cervical spine MRI; Acute or Chronic neck and/or back pain; It is not known if the patient does have new or changing neurologic signs or symptoms.; The patient has had back pain for over 4 weeks.; The patient has seen the doctor more then once for these symptoms.; The physician has directed conservative treatment for the past 6 weeks.; The patient has completed 6 weeks of physical therapy?	11
Orthopedics	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	This is a request for cervical spine MRI; Acute or Chronic neck and/or back pain; The patient does have new or changing neurologic signs or symptoms.; The patient does have new signs or symptoms of bladder or bowel dysfunction.	1

Orthopedics	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	This is a request for cervical spine MRI; Acute or Chronic neck and/or back pain; The patient does have new or changing neurologic signs or symptoms.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; There is x-ray evidence of a recent cervical spine fracture.	2
Orthopedics	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	This is a request for cervical spine MRI; Acute or Chronic neck and/or back pain; The patient does not have new or changing neurologic signs or symptoms.; The patient has had back pain for over 4 weeks.; The patient has seen the doctor more then once for these symptoms.; The physician has directed conservative treatment for the past 6 weeks.; It is not known if the patient has completed 6 weeks of physical therapy?; The patient has been treated with medication.; the patient was treated with a facet joint injection.	2
Orthopedics	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	This is a request for cervical spine MRI; Acute or Chronic neck and/or back pain; The patient does not have new or changing neurologic signs or symptoms.; The patient has had back pain for over 4 weeks.; The patient has seen the doctor more then once for these symptoms.; The physician has directed conservative treatment for the past 6 weeks.; The patient has completed 6 weeks of physical therapy?	9
Orthopedics	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	This is a request for cervical spine MRI; Acute or Chronic neck and/or back pain; Yes, the patient demonstrate neurological deficits.; yes, there is a documented evidence of extremity weakness on physical examination.	56
Orthopedics	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	This is a request for cervical spine MRI; Neurological deficits; The patient does have new or changing neurologic signs or symptoms.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; There is x-ray evidence of a recent cervical spine fracture.	2
Orthopedics	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	This is a request for cervical spine MRI; Neurological deficits; Yes, the patient is experiencing or presenting new symptoms of upper extremity weakness.	28

Orthopedics	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	This is a request for cervical spine MRI; None of the above; &lt;Enter Additional Clinical Information&gt;; No, the patient is not experiencing or presenting new symptoms of upper extremity weakness?; No, the patient is not demonstrating unilateral muscle wasting.; No, the patient is not experiencing or presenting new symptoms of Bowel or bladder dysfunction.; No, the patient is not experiencing new onset of parathesia diagnosed by a neurologist; No, the patient is not experiencing or presenting x-ray evidence of a recent fracture.	2
Orthopedics	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	This is a request for cervical spine MRI; None of the above; na; No, the patient is not experiencing or presenting new symptoms of upper extremity weakness?; No, the patient is not demonstrating unilateral muscle wasting.; No, the patient is not experiencing or presenting new symptoms of Bowel or bladder dysfunction.; No, the patient is not experiencing new onset of parathesia diagnosed by a neurologist; No, the patient is not experiencing or presenting x-ray evidence of a recent fracture.	1
Orthopedics	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	This is a request for cervical spine MRI; Pre-Operative Evaluation; No, the last Cervical spine MRI was not performed within the past two weeks.	2
Orthopedics	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	This is a request for cervical spine MRI; There has been a supervised trial of conservative management for at least 6 weeks.; Acute or Chronic neck and/or back pain; It is not known if the patient demonstrate neurological deficits.; Yes, this patient had a recent course of supervised physical Therapy.	12
Orthopedics	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	This is a request for cervical spine MRI; There has been a supervised trial of conservative management for at least 6 weeks.; Acute or Chronic neck and/or back pain; No, the patient does not demonstrate neurological deficits.; Yes, this patient had a recent course of supervised physical Therapy.	19

Orthopedics	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	This is a request for cervical spine MRI; There has been a supervised trial of conservative management for at least 6 weeks.; Acute or Chronic neck and/or back pain; Yes, the patient demonstrate neurological deficits.; No, there is not a documented evidence of extremity weakness on physical examination.; No, there is no evidence of recent development of unilateral muscle wasting.; Yes, this patient had a recent course of supervised physical Therapy.	5
Orthopedics	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	This is a request for cervical spine MRI; There has not been a supervised trial of conservative management for at least 6 weeks.; Acute or Chronic neck and/or back pain; It is not known if the patient demonstrate neurological deficits.;	1
Orthopedics	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	This is a request for cervical spine MRI; There has not been a supervised trial of conservative management for at least 6 weeks.; Acute or Chronic neck and/or back pain; It is not known if the patient demonstrate neurological deficits.; Tricep reflexes are slightly diminished, cervical radiculopathy, taking anti-inflammatory, pain med, and muscle relaxers. None are helping.	1
Orthopedics	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	This is a request for cervical spine MRI; There has not been a supervised trial of conservative management for at least 6 weeks.; Acute or Chronic neck and/or back pain; Yes, the patient demonstrate neurological deficits.; No, there is not a documented evidence of extremity weakness on physical examination.; No, there is no evidence of recent development of unilateral muscle wasting.; History of Present Illness; The patient is a 48 y.o. female who was referred for evaluation of spondylolisthesis. She reports having long standing back pain for over years. About a month ago, she was getting out of a car and twisted. This produced a ne	1

Orthopedics	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	This is a request for cervical spine MRI; This is a request for cervical spine MRI; Acute or Chronic neck and/or back pain; Acute or Chronic neck and/or back pain; Yes, the patient demonstrate neurological deficits.; Yes, the patient demonstrate neurological deficits.; yes, there is a documented evidence of extremity weakness on physical examination.; yes, there is a documented evidence of extremity weakness on physical examination.	1
Orthopedics	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	This is a request for cervical spine MRI; Trauma or recent injury; &lt;Enter Additional Clinical Information&gt;; It is not known if the patient have new or changing neurological signs or symptoms.	1
Orthopedics	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	This is a request for cervical spine MRI; Trauma or recent injury; The patient does not have new or changing neurologic signs or symptoms.; The patient has had back pain for over 4 weeks.; The patient has seen the doctor more then once for these symptoms.; The physician has directed conservative treatment for the past 6 weeks.; The patient has completed 6 weeks of physical therapy?	1
Orthopedics	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	This is a request for cervical spine MRI; Trauma or recent injury; Yes, the patient have new or changing neurological signs or symptoms.; Yes, the patient is experiencing or presenting new symptoms of upper extremity weakness.	1
Orthopedics	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	unknown; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; unknown; It is not known if there has been any treatment or conservative therapy.; unknown; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

Orthopedics	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	There are no documented clinical findings of immune system suppression.; This is a request for a thoracic spine MRI.; The patient is not experiencing back pain associated with abdominal pain.; The caller indicated the the study was not ordered for: Chronic Back pain, Trauma, Known or suspected tumor with or without metastasis, Follow up to or Pre-operative evaluation, or Neurological deficits."; 3.23.18 pt was involved in a race car accident. he is having upper mid line back pain. needing to r/o compression fx from high impact injury.	1
Orthopedics	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	&lt; Enter answer here - or Type In Unknown If No Info Given. &gt;; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 09/01/2017; There has been treatment or conservative therapy.; Cervical -Neck pain, pain and weakness in bilateral arms. thoracic - mid back pain. PT says feels like on fire.; HOME EXCERCISE, Medications, steroids; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology ; This is a request for a thoracic spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; There is no weakness or reflex abnormality.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is recent evidence of a thoracic spine fracture.	1
Orthopedics	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material		1

Orthopedics	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	<p>; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 9/26/17; There has been treatment or conservative therapy.; This is a 50-year-old gentleman who is approximately one month out from an anterior interbody fusion at T12-L1 secondary to infection. Dr. Michael Pollack aided in the approach for this. He has had a significant amount of pain around his wound with radi; I recommend CT and MRI of the thoracic and lumbar spine to evaluate his persistent thoracolumbar pain despite 3 months postop from reconstruction. He may require posterior instrumentation.&amp;#x0D; &amp;#x0D; Follow-up with me or Dr. McCarthy after the imaging&amp;#x0D; &amp;#x0D; Percoce; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology</p>	1
-------------	----------	---	---	---

Orthopedics	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	<p>; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; January 2017; There has been treatment or conservative therapy.; Additionally she states the pain awakens her at night. It is present anytime she sits or stands for prolonged care to time; She has gone through at least 8 weeks of physical therapy and anti-inflammatory management without much relief.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology</p>	1
-------------	----------	---	--	---

Orthopedics	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	; This study is being ordered for trauma or injury.; ; There has been treatment or conservative therapy.; left hip pain. He reports that he had a fall of approximately 4-5 stairs at home. He landed on his left hip. Since that time he has had left hip pain with any activity. He is to the point that he has difficulty even ambulating a few feet. The pain is; He had approximately 3 weeks of physical therapy for his left hip which did not help.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
-------------	----------	---	---	---

Orthopedics	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	; This study is being ordered for trauma or injury.; 11/2017; There has been treatment or conservative therapy.; THORACIC ADN LOW BACK PAIN, LEFT LOWER EXTREMITY RADICULAR PAIN; CHIROPRACTOR SINCE TIME OF INJURY AND APPLY ICE TO HER LOW ADN MID THORACIC BACK; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
-------------	----------	---	--	---

Orthopedics	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	<p>AP and lateral x-ray of the lumbar spine ordered, obtained, and interpreted today reveals no specific finding. She does have some hyperlordosis. She has instrumentation from T11-L1. I see no obvious loosening of the screws. MRI of the cervical and l; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 1. L5-S1 disc bulge with left leg pain; 2. Status post T11-L1 decompression and fusion in July 2016 with Dr. Ahmed for what sounds like spinal cord compression. I reviewed the x-rays with the patient. I discussed with the patient that when they hurt ; There has been treatment or conservative therapy.; severe back pain radiating to the left leg with numbness in the left leg.; physical therapy with Rob Tillman; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology</p>	1
-------------	----------	---	--	---

Orthopedics	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	<p>Dr. McCarthy has seen and evaluated the patient with me today. We have visited with Karie and both of her parents regarding the new studies. The pulmonologist has given her clearance for surgery and advised that she is at moderate risk for complications; This study is being ordered for trauma or injury.; 11/29/17; There has been treatment or conservative therapy.; severe scoliosis, severe back pain; pt wears a vet device, she also wears a BiPAP at night; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology</p>	1
-------------	----------	---	--	---

Orthopedics	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	<p>ED Notes; States was told to come to ED by Dr Pena after review of CT completed yesterday, possible "back fractures" pt with metastatic cancer. CT report reveals; Interval compression deformities of T1 vertebral body with greater than; 75% vertebral body ; This study is being ordered for a metastatic disease.; There are 3 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology</p>	1
Orthopedics	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	<p>It is not known if the patient has any neurological deficits.; This is a request for a thoracic spine MRI.; There has been a supervised trial of conservative management for at least 6 weeks.; The study is being ordered due to chronic back pain or suspected degenerative disease.; The patient is experiencing sensory abnormalities such as numbness or tingling.</p>	1

Orthopedics	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	<p>dull, itching and tingling. Her symptoms are not changing. Her symptoms are alleviated with muscle relaxers and bio freeze, and are aggravated with slumping and sitting.; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; AP and lateral x-ray of the thoracic spine ordered, obtained, and interpreted today reveals severe, isolated disc space narrowing, with degenerative changes at 1 level in the mid thoracic spine, difficult to tell which level exactly.&amp;#x0D; &amp;#x0D; AP and lateral x-r; There has been treatment or conservative therapy.; The pain is moderate to severe. The pain is burning, dull, itching and tingling. Her symptoms are not changing. Her symptoms are alleviated with muscle relaxers and bio freeze, and are aggravated with slumping and sitting.; She has been through multiple courses of physical therapy, without significant relief.&amp;#x0D; She has had 3 epidural steroid injections at C7-T1, by Dr. Paulus, without significant relief. These injections were done in October, November and December 2017.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology</p>	1
Orthopedics	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	<p>The patient does have neurological deficits.; This is a request for a thoracic spine MRI.; The study is being ordered due to chronic back pain or suspected degenerative disease.; History Edith returns today in follow up. She had a L5-S1 steroid injection with Dr. Paul on 12/7/17. She reports that this gave her good relief of her leg pain for 6-7 weeks. She has had pain return which is primarily right sided lateral hip and thigh pa; The patient is experiencing or presenting symptoms of lower extremity weakness documented on physical exam.</p>	1

Orthopedics	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	The patient does have neurological deficits.; This is a request for a thoracic spine MRI.; There has been a supervised trial of conservative management for at least 6 weeks.; The study is being ordered due to chronic back pain or suspected degenerative disease.; The patient is experiencing sensory abnormalities such as numbness or tingling.; The patient is not experiencing or presenting symptoms of abnormal gait, lower extremity weakness, asymmetric reflexes, fracture, radiculopathy or bowel or bladder dysfunction.	2
Orthopedics	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	The patient does not have any neurological deficits.; This is a request for a thoracic spine MRI.; There has been a supervised trial of conservative management for at least 6 weeks.; The study is being ordered due to chronic back pain or suspected degenerative disease.	4
Orthopedics	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	This is a request for a thoracic spine MRI.; "The patient has been seen by, or the ordering physician is, a neuro-specialist, orthopedist, or oncologist.;" The study is being ordered due to follow-up to surgery or fracture within the last 6 months.	2
Orthopedics	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	This is a request for a thoracic spine MRI.; Acute or Chronic back pain; The patient does not have new or changing neurologic signs or symptoms.; The patient has had back pain for over 4 weeks.; The patient has seen the doctor more than once for these symptoms.; The physician has directed conservative treatment for the past 6 weeks.; The patient has completed 6 weeks of physical therapy?	2
Orthopedics	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	This is a request for a thoracic spine MRI.; The study is being ordered due to Neurological deficits.; The patient is experiencing or presenting symptoms of recent fracture on previous imaging studies.	1
Orthopedics	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	This is a request for a thoracic spine MRI.; There is evidence of tumor or metastasis on a bone scan or x-ray.; The study is being ordered due to suspected tumor with or without metastasis.	1

Orthopedics	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	This is a request for a thoracic spine MRI.; There is x-ray or laboratory evidence of septic arthritis or discitis (i.e., infected disk).; The study is being ordered due to known or suspected infection or abscess.	1
Orthopedics	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	This study is being ordered for follow-up.; The patient is undergoing active treatment for cancer.; This is a request for a thoracic spine MRI.; "The patient is being seen by or is the ordering physician an oncologist, neurologist, neurosurgeon, or orthopedist."; The study is being ordered due to known tumor with or without metastasis.	1
Orthopedics	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		4
Orthopedics	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	&lt; Enter answer here - or Type In Unknown If No Info Given. &gt;; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; L leg weakness Numbness; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	1
Orthopedics	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	&lt; Enter answer here - or Type In Unknown If No Info Given. &gt;; The study requested is a Lumbar Spine MRI.; Neurological deficits; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; significant weakness in left gastroc and is unable to do standing single leg, calf raise; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	1
Orthopedics	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	&lt; Enter answer here - or Type In Unknown If No Info Given. &gt;; The study requested is a Lumbar Spine MRI.; The patient does NOT have acute or chronic back pain.; This procedure is being requested for None of the above	1

Orthopedics	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	&lt; Enter answer here - or Type In Unknown If No Info Given. &gt;; This study is being ordered for a metastatic disease.; There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Orthopedics	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	&lt; Enter answer here - or Type In Unknown If No Info Given. &gt;; This study is being ordered for a neurological disorder.; july 2017; There has been treatment or conservative therapy.; &lt; Describe primary symptoms here - or Type In Unknown If No Info Given &gt;; Medication; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology ; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; There is no weakness or reflex abnormality.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	1
Orthopedics	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; ; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; It is not known if the patient has a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	3
Orthopedics	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; ; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; It is not known if the patient has a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	1

Orthopedics	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; lumbar pain and leg weakness upon examination; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	1
-------------	----------	---	--	---

Orthopedics	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does not have new or changing neurologic signs or symptoms.; The patient has had back pain for over 4 weeks.; The patient has seen the doctor more then once for these symptoms.; The physician has directed conservative treatment for the past 6 weeks.; The patient has not completed 6 weeks of physical therapy?; The patient has been treated with medication.; The patient was treated with oral analgesics.; The patient has not completed 6 weeks or more of Chiropractic care.; The physician has not directed a home exercise program for at least 6 weeks.	1
-------------	----------	---	--	---

Orthopedics	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	; This study is being ordered for trauma or injury.; 11/2017; There has been treatment or conservative therapy.; THORACIC ADN LOW BACK PAIN, LEFT LOWER EXTREMITY RADICULAR PAIN; CHIROPRACTOR SINCE TIME OF INJURY AND APPLY ICE TO HER LOW ADN MID THORACIC BACK; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
-------------	----------	---	--	---

Orthopedics	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	<p>; This study is being ordered for trauma or injury.; Progress Note; The patient is a 55 y.o. male who was referred by Dr. O'Malley who has been evaluating him primarily for right shoulder pain. There is shoulder pathology on MRI, but Dr. O'Malley believes that there is a component of cervical radiculopathy; There has not been any treatment or conservative therapy.; Progress Note; The patient is a 55 y.o. male who was referred by Dr. O'Malley who has been evaluating him primarily for right shoulder pain. There is shoulder pathology on MRI, but Dr. O'Malley believes that there is a component of cervical radiculopathy; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology</p>	1
Orthopedics	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	<p>Alison Pace is a 61-year-old white female with complaints of chronic lumbar/left lower extremity pain aggravated by standing and walking, relieved by sitting or lumbar flexion and right knee pain and swelling and locking sensation over the past several mo; The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has none of the above</p>	1
Orthopedics	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	<p>Continued pain despite conservative therapy.; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 2008; There has been treatment or conservative therapy.; chronic cervical pain with radiation into the shoulders/arms. Chronic lumbar pain.; Home exercises, anti inflammatories; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology</p>	1

Orthopedics	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Dr. McCarthy has seen and evaluated the patient with me today. We have visited with Karie and both of her parents regarding the new studies. The pulmonologist has given her clearance for surgery and advised that she is at moderate risk for complications; This study is being ordered for trauma or injury.; 11/29/17; There has been treatment or conservative therapy.; severe scoliosis, severe back pain; pt wears a vet device, she also wears a BiPAP at night; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Orthopedics	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	ED Notes; States was told to come to ED by Dr Pena after review of CT completed yesterday, possible "back fractures" pt with metastatic cancer. CT report reveals; Interval compression deformities of T1 vertebral body with greater than; 75% vertebral body ; This study is being ordered for a metastatic disease.; There are 3 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Orthopedics	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Left sided sciatica; ; RADIOGRAPHIC FINDINGS: AP pelvis weightbearing in office today shows no acute fracture or dislocation. There is no arthritis or any other abnormalities identified.; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; There is no weakness or reflex abnormality.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	1

Orthopedics	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	<p>On physical examination, there is pain to palpation of the lower lumbar spine. There is pain to flexion and extension as well as to side to side motion. There is pain to straight leg raising on the involved side, and to a lesser degree on the uninvolved; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; It is not known if there is weakness or reflex abnormality.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.</p>	1
Orthopedics	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	<p>Patient has severe low back and right leg pain. I hurts to stand, walk, bend, lift, or twist; The study requested is a Lumbar Spine MRI.; Neurological deficits; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; patient has an antalgic gait as she favors the right leg and walking. Inspection of lumbar spine reveals mild hyperlordosis. She has tenderness to palpation along the L4 and L5 region, right greater than left. Mild tenderness extending into the right sac; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.</p>	1

Orthopedics	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	<p>Patient saw PCP 12/19/17 and given medications. Patient has had a couple of weeks of PT. Still having lumbar pain.; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; It is not known if the patient does have new or changing neurologic signs or symptoms.; The patient has had back pain for over 4 weeks.; The patient has seen the doctor more then once for these symptoms.; The physician has directed conservative treatment for the past 6 weeks.; The patient has not completed 6 weeks of physical therapy?; The patient has been treated with medication.; The patient was treated with oral analgesics.; It is not known if the patient has completed 6 weeks or more of Chiropractic care.; It is not known if the physician has directed a home exercise program for at least 6 weeks.</p>	1
-------------	----------	---	--	---

Orthopedics	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	<p>Probable left L5-S1 foraminal collapse due to scoliosis with left L5 radiculopathy. Possible insertional hamstring strain.; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 10/1/1917; There has been treatment or conservative therapy.; Left buttock and thigh pain; Physical Therapy; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology</p>	1
-------------	----------	---	---	---

Orthopedics	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	<p>Requesting CT to confirm that there is not loosening or failure of implants. Requesting MRI to evaluate for residual or progressive stenosis. May be some residual stenosis at L5-S1 versus possible lateral recess stenosis at L4-5; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 5/1/17; There has been treatment or conservative therapy.; Patient is post L5-S1 decompression with foraminotomy, post L5-S1 fusion, lumbar scoliosis, convex to the left 31 degrees. continues to have persistant pain down the left buttock and leg; unknown; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology</p>	1
Orthopedics	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	<p>Severe lumbar radiculopathy to right lower extremity. Pt has difficulty ambulating or setting. Right lower extremity weakness with numbness into foot. Positive tension signs.; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; weakness and numbness of right leg and foot. positive tension signs. Pt has difficulty walking; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.</p>	1

Orthopedics	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	<p>She has had mild right hemiplegia for a few years, which may be related to significant disc herniation in her neck. She has weakness to her legs as well and bladder urgency, frequency and some incontinence. She may have a large disc herniation in her lumb; This study is being ordered for trauma or injury.; Roughly 5 or 6 years ago; There has not been any treatment or conservative therapy.; Neck and her low back pain, right sided weakness, paresthesias to the right arm and leg, weakness, clumsiness, and increased urinary frequency urgency, and a couple of episodes of bladder incontinence.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology</p>	1
Orthopedics	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	<p>Suspected grade 1 retro restates L5 S1 and degeneration of Lumbar sacraiol L5 S1 Possible need for neurosurgeon evaluation Possible surgery with possible fusion; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; Across L5 level - straight raising 50 degrees right left 50 degrees Forward flexion 45 degrees; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.</p>	1

Orthopedics	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	The patient is having low back pain and numbness that radiates down the right leg that is made worse by sitting. There has been no change in the symptoms with ice, heat, rest, Ibuprofen and muscle relaxers. The physician found the following on exam: Decr; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; Weakness to plantar flexion and Loss of achilles reflex.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; It is not known if the patient has a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	1
Orthopedics	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; It is not known if the patient does have new or changing neurologic signs or symptoms.; The patient has had back pain for over 4 weeks.; The patient has seen the doctor more then once for these symptoms.; The physician has directed conservative treatment for the past 6 weeks.; The patient has completed 6 weeks of physical therapy?	3
Orthopedics	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; The patient does have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.	3
Orthopedics	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.	1
Orthopedics	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is x-ray evidence of a recent lumbar fracture.	3

Orthopedics	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does not have new or changing neurologic signs or symptoms.; The patient has had back pain for over 4 weeks.; The patient has seen the doctor more than once for these symptoms.; The physician has directed conservative treatment for the past 6 weeks.; The patient has completed 6 weeks of physical therapy?	17
Orthopedics	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	The study requested is a Lumbar Spine MRI.; It is unknown if the patient has acute or chronic back pain.; This procedure is being requested for Follow-up to surgery or fracture within the last 6 months; The patient been seen by or the ordering physician is a neuro-specialist, orthopedist, or oncologist.	1
Orthopedics	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	The study requested is a Lumbar Spine MRI.; It is unknown if the patient has acute or chronic back pain.; This procedure is being requested for Pre-operative evaluation; The patient has not had a Lumbar Spine MRI performed within the past 2 weeks.	1
Orthopedics	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	The study requested is a Lumbar Spine MRI.; Neurological deficits; The patient does have new or changing neurologic signs or symptoms.; The patient does have a new foot drop.	2
Orthopedics	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	The study requested is a Lumbar Spine MRI.; Neurological deficits; The patient does have new or changing neurologic signs or symptoms.; The patient does have new signs or symptoms of bladder or bowel dysfunction.; It is not known if the patient has a new foot drop.	1
Orthopedics	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	The study requested is a Lumbar Spine MRI.; Pre-Operative Evaluation; No, the last Lumbar spine MRI was not performed within the past two weeks.; Surgery is scheduled within the next 4 weeks.	1
Orthopedics	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has 6 weeks of completed conservative care in the past 3 months or had a spine injection	135

Orthopedics	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has an Abnormal nerve study involving the lumbar spine	1
Orthopedics	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has an Abnormal x-ray indicating a significant abnormality	33
Orthopedics	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has completed Treatment with a facet joint or epidural injection in the past 6 weeks	2
Orthopedics	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has Neurological deficit(s)	46
Orthopedics	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Unilateral primary osteoarthritis, L hip. spinal stenosis, lumbar region; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 7/24/2017; There has been treatment or conservative therapy.; Pain, decreased mobility,; PT, oral medications, steroid injections; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

Orthopedics	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	unknown; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; unknown; It is not known if there has been any treatment or conservative therapy.; unknown; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Orthopedics	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Unknown; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; Weakness in legs; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	1
Orthopedics	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Unknown; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does not have new or changing neurologic signs or symptoms.; The patient has had back pain for over 4 weeks.; The patient has seen the doctor more then once for these symptoms.; The physician has not directed conservative treatment for the past 6 weeks.	1

Orthopedics	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Unknown; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 08/18/2016; There has been treatment or conservative therapy.; cervical spine pain; intermittently radiating into the posterior scalp and low back pain; radiating down the right leg. He describes an MVA 4 years ago which; initiated neck and low back pain. Symptoms have progressively worsened; since that time resultin; ; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology will fax; The study requested is a Lumbar Spine MRI.; None of the above; It is not known if the patient does have new or changing neurologic signs or symptoms.; It is not known if the patient has had back pain for over 4 weeks.	1
Orthopedics	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		1
Orthopedics	Approval	72192 Computed tomography, pelvis; without contrast material	; This study is being ordered as a follow-up to trauma.; There is NO laboratory or physical evidence of a pelvic bleed.; There are no physical or abnormal blood work consistent with peritonitis or pelvic abscess.; There is physical or radiological evidence of a pelvic fracture.; "The ordering physician is not a gastroenterologist, urologist, gynecologist, or surgeon or PCP ordering on behalf of a specialist who has seen the patient."; This is a request for a Pelvis CT.; Yes this is a request for a Diagnostic CT	1

Orthopedics	Approval	72192 Computed tomography, pelvis; without contrast material	MRI SHOWED MASS EFFECT ON THE DOME OF THE BLADDER, CORRELATION WITH CT SUGGESTED.; This study is being ordered for known tumor, cancer, mass, or rule-out metastasis.; "The ordering physician is an oncologist, urologist, gynecologist, gastroenterologist or surgeon or PCP ordering on behalf of a specialist who has seen the patient."; This study is being ordered for initial staging.; This is a request for a Pelvis CT.; Yes this is a request for a Diagnostic CT	1
Orthopedics	Approval	72192 Computed tomography, pelvis; without contrast material	patient knee surgery having hip pain and said he has been running fever of 101-102 for 3 to 4 days and some swelling to RT knee.; This study is being ordered due to known or suspected infection.; "The ordering physician is a surgeon, gynecologist, urologist, gastroenterologist, or infectious disease specialist or PCP ordering on behalf of a specialist who has seen the patient."; This is a request for a Pelvis CT.; Yes this is a request for a Diagnostic CT	1
Orthopedics	Approval	72192 Computed tomography, pelvis; without contrast material	Pt with abnormal MRI knee. IMPRESSION:&#x0D; Marked abnormality distal femur with what I suspect is a focal abscess&#x0D; along the posterior mid distal femur with surrounding marrow edema or&#x0D; even infectious changes in the marrow in osteomyelitis. Fluid&#x0D; collectio; This study is being ordered due to known or suspected infection.; "The ordering physician is a surgeon, gynecologist, urologist, gastroenterologist, or infectious disease specialist or PCP ordering on behalf of a specialist who has seen the patient."; This is a request for a Pelvis CT.; Yes this is a request for a Diagnostic CT	1
Orthopedics	Approval	72192 Computed tomography, pelvis; without contrast material	swelling of rt lower ext, rt leg pain. recent US negative for DVT. ct pelvis requested to eval circulation. look for abnormalities causing diffuse swelling of rt lower ext w negative Doppler.; This study is being ordered for some other reason than the choices given.; This is a request for a Pelvis CT.; Yes this is a request for a Diagnostic CT	1

Orthopedics	Approval	72196 Magnetic resonance (eg, proton) imaging, pelvis; with contrast material(s)	&lt; Enter answer here - or Type In Unknown If No Info Given. &gt;; This study is being ordered for a neurological disorder.; july 2017; There has been treatment or conservative therapy.; &lt; Describe primary symptoms here - or Type In Unknown If No Info Given &gt;; Medication; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Orthopedics	Approval	72196 Magnetic resonance (eg, proton) imaging, pelvis; with contrast material(s)	; This is a request for a Pelvis MRI.; The study is being ordered for something other than suspicion of tumor, mass, neoplasm, metastatic disease, PID, abscess, Evaluation of the pelvis prior to surgery or laparoscopy, Suspicion of joint or bone infect	1
Orthopedics	Approval	72196 Magnetic resonance (eg, proton) imaging, pelvis; with contrast material(s)	1/30/18 He was given an injection into his right greater trochanteric bursa today to see if this relieves his pain. Predominant amount of his pain is to the bursal region that he is having reported right groin pain. Due to his severe pain, acute onset, ; This is a request for a Pelvis MRI.; The request is not for any of the listed indications.	1
Orthopedics	Approval	72196 Magnetic resonance (eg, proton) imaging, pelvis; with contrast material(s)	pitting and ridging on his hands, stiffness and swelling; This is a request for a Pelvis MRI.; The request is not for any of the listed indications.	1
Orthopedics	Approval	72196 Magnetic resonance (eg, proton) imaging, pelvis; with contrast material(s)	right hip side and buttock pain; dose pak; and pain medication; This is a request for a Pelvis MRI.; The request is not for any of the listed indications.	1
Orthopedics	Approval	72196 Magnetic resonance (eg, proton) imaging, pelvis; with contrast material(s)	This is a pleasant 29-year-old female who presents follow-up coccygeal injection performed 2/2/18. &#x0D; She has history of coccydynia with C2-3 coccygeal fracture.Reports that she fractured her coccyx during a vaginal delivery several years ago. She starte; This is a request for a Pelvis MRI.; The request is not for any of the listed indications.	1

Orthopedics	Approval	72196 Magnetic resonance (eg, proton) imaging, pelvis; with contrast material(s)	This is a request for a Pelvis MRI.; The request is for evaluation of the pelvis prior to surgery or laparoscopy.	3
Orthopedics	Approval	72196 Magnetic resonance (eg, proton) imaging, pelvis; with contrast material(s)	This is a request for a Pelvis MRI.; The request is for pelvic trauma or injury.	14
Orthopedics	Approval	72196 Magnetic resonance (eg, proton) imaging, pelvis; with contrast material(s)	This is a request for a Pelvis MRI.; The request is for suspicion of joint or bone infection.	4
Orthopedics	Approval	73200 Computed tomography, upper extremity; without contrast material		3
Orthopedics	Approval	73200 Computed tomography, upper extremity; without contrast material	This is a request for an upper extremity, shoulder, scapula, elbow, hand, or wrist joint CT.; There is a history of upper extremity joint or long bone trauma or injury.	1
Orthopedics	Approval	73200 Computed tomography, upper extremity; without contrast material	This is a request for an upper extremity, shoulder, scapula, elbow, hand, or wrist joint CT.; There is a history of upper extremity joint or long bone trauma or injury.; Yes this is a request for a Diagnostic CT	77
Orthopedics	Approval	73200 Computed tomography, upper extremity; without contrast material	This is a request for an upper extremity, shoulder, scapula, elbow, hand, or wrist joint CT.; There is not a history of upper extremity joint or long bone trauma or injury.; This is a preoperative or recent postoperative evaluation.; Yes this is a request for a Diagnostic CT	19
Orthopedics	Approval	73200 Computed tomography, upper extremity; without contrast material	This is a request for an upper extremity, shoulder, scapula, elbow, hand, or wrist joint CT.; There is not a history of upper extremity joint or long bone trauma or injury.; This is not a preoperative or recent postoperative evaluation.; There is not suspicion of upper extremity neoplasm or tumor or metastasis.; There is not suspicion of upper extremity bone or joint infection.; The ordering physician is an orthopedist or rheumatologist.; Yes this is a request for a Diagnostic CT	5

Orthopedics	Approval	73200 Computed tomography, upper extremity; without contrast material	This is a request for an upper extremity, shoulder, scapula, elbow, hand, or wrist joint CT.; There is not a history of upper extremity joint or long bone trauma or injury.; This is not a preoperative or recent postoperative evaluation.; There is not suspicion of upper extremity neoplasm or tumor or metastasis.; There is not suspicion of upper extremity bone or joint infection.; The ordering physician is not an orthopedist or rheumatologist.; Yes this is a request for a Diagnostic CT	1
Orthopedics	Approval	73200 Computed tomography, upper extremity; without contrast material	This is a request for an upper extremity, shoulder, scapula, elbow, hand, or wrist joint CT.; There is not a history of upper extremity joint or long bone trauma or injury.; This is not a preoperative or recent postoperative evaluation.; There is suspicion of upper extremity neoplasm or tumor or metastasis.; Yes this is a request for a Diagnostic CT	1
Orthopedics	Approval	73200 Computed tomography, upper extremity; without contrast material	UNKNOWN; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; Feb 8, 2018; There has been treatment or conservative therapy.; SWELLING, REDNESS, TINGLING, HURTING WHILE LIFTING; PHYSICAL AND HOME THERAPY, INJECTIONS; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	2
Orthopedics	Approval	73206 Computed tomographic angiography, upper extremity, with contrast material(s), including noncontrast images, if performed, and image postprocessing	Yes, this is a request for CT Angiography of the upper extremity.	1

Orthopedics	Approval	73220 Magnetic resonance (eg, proton) imaging, upper extremity, other than joint; without contrast material(s), followed by contrast material(s) and further sequences	&lt; Enter answer here - or Type In Unknown If No Info Given. &gt;; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; unknown; There has been treatment or conservative therapy.; mbr has pain and stiffness in hip and hand popping in right 3rd finger; medication; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Orthopedics	Approval	73220 Magnetic resonance (eg, proton) imaging, upper extremity, other than joint; without contrast material(s), followed by contrast material(s) and further sequences	none; This study is being ordered for a neurological disorder.; 01/01/2008; There has been treatment or conservative therapy.; weakness, numb, tingle; meds; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Orthopedics	Approval	73220 Magnetic resonance (eg, proton) imaging, upper extremity, other than joint; without contrast material(s), followed by contrast material(s) and further sequences	PATIENT IS NEEDING A MRI OF THE RIGHT WRIST AND RIGHT HAND FOR A POSSIBLE TENDON RUPTURE OF THE EPL, OR POSSIBLE MALLET FINGER. PATIENT NEEDING THIS MRI FOR POSSIBLE SURGERY.; This study is being ordered for trauma or injury.; 2-6-18; There has been treatment or conservative therapy.; UNABLE TO MOVE RIGHT WRIST AND HAND. PATIENT HAS EFFUSION/SWELLING/PAIN. UNABLE TO FLEX THUMB AND WRIST.; PAID MEDICATION, BRACING, ICE, ELEVATED, REST, NSAIDS.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

Orthopedics	Approval	73220 Magnetic resonance (eg, proton) imaging, upper extremity, other than joint; without contrast material(s), followed by contrast material(s) and further sequences	The request is for an upper extremity non-joint MRI.; This is a preoperative or recent postoperative evaluation.	37
Orthopedics	Approval	73220 Magnetic resonance (eg, proton) imaging, upper extremity, other than joint; without contrast material(s), followed by contrast material(s) and further sequences	The request is for an upper extremity non-joint MRI.; This is not a preoperative or recent postoperative evaluation.; There is not suspicion of upper extremity neoplasm or tumor or metastasis.; There is no suspicion of upper extremity bone or soft tissue infection.; The ordering physician is an orthopedist.	17
Orthopedics	Approval	73220 Magnetic resonance (eg, proton) imaging, upper extremity, other than joint; without contrast material(s), followed by contrast material(s) and further sequences	The request is for an upper extremity non-joint MRI.; This is not a preoperative or recent postoperative evaluation.; There is not suspicion of upper extremity neoplasm or tumor or metastasis.; There is suspicion of upper extremity bone or soft tissue infection.	1
Orthopedics	Approval	73220 Magnetic resonance (eg, proton) imaging, upper extremity, other than joint; without contrast material(s), followed by contrast material(s) and further sequences	The request is for an upper extremity non-joint MRI.; This is not a preoperative or recent postoperative evaluation.; There is suspicion of upper extremity neoplasm or tumor or metastasis.	3
Orthopedics	Approval	73220 Magnetic resonance (eg, proton) imaging, upper extremity, other than joint; without contrast material(s), followed by contrast material(s) and further sequences	Unable to do any conservative treatment.; This study is being ordered for trauma or injury.; 02/22/2018; There has not been any treatment or conservative therapy.; Evaluate for rupture and mass; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		3

Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	&lt; Enter answer here - or Type In Unknown If No Info Given. &gt;; The pain is from a recent injury.; Surgery or arthroscopy is not scheduled in the next 4 weeks.; There is a suspicion of tendon or ligament injury.; This request is for a wrist MRI.; This study is requested for evaluation of wrist pain.	1
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	&lt; Enter answer here - or Type In Unknown If No Info Given. &gt;; The requested study is a Shoulder MRI.; The pain is described as chronic; The request is for shoulder pain.; The physician has directed conservative treatment for the past 6 weeks.; The patient has not completed 6 weeks of physical therapy?; It is not known if the patient has been treated with medication.; It is not known if the patient has completed 6 weeks or more of Chiropractic care.; It is not known if the physician has directed a home exercise program for at least 6 weeks.	1
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	&lt; Enter answer here - or Type In Unknown If No Info Given. &gt;; The requested study is a Shoulder MRI.; The pain is described as chronic; The request is for shoulder pain.; The physician has directed conservative treatment for the past 6 weeks.; The patient has not completed 6 weeks of physical therapy?; The patient has been treated with medication.; The patient has not completed 6 weeks or more of Chiropractic care.; The physician has directed a home exercise program for at least 6 weeks.; The home treatment did include exercise, prescription medication and follow-up office visits.; rest, ice, activity modification, stretching and strengthening exercises for at least four weeks; anti-inflammatory, Mobic, tylenol; The patient received medication other than joint injections(s) or oral analgesics.	1

Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	&lt; Enter answer here - or Type In Unknown If No Info Given. &gt;; The requested study is a Shoulder MRI.; The pain is from a recent injury.; Surgery or arthroscopy is not scheduled in the next 4 weeks.; The request is for shoulder pain.; There is a suspicion of tendon, ligament, rotator cuff injury or labral tear.	3
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	&lt; Enter answer here - or Type In Unknown If No Info Given. &gt;; The requested study is a Shoulder MRI.; The pain is from an old injury.; The request is for shoulder pain.; The physician has not directed conservative treatment for the past 6 weeks.	1
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	&lt; Enter answer here - or Type In Unknown If No Info Given. &gt;; The requested study is a Shoulder MRI.; The pain is not from a recent injury, old injury, chronic pain or a mass.; The request is for shoulder pain.	1
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	&lt; Enter answer here - or Type In Unknown If No Info Given. &gt;; This study is being ordered for Inflammatory/ Infectious Disease.; 5 months prior to 2/19/2018; There has been treatment or conservative therapy.; &lt; Describe primary symptoms here - or Type In Unknown If No Info Given &gt;; NSAIDS and Physical Therapy; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	&lt; Enter answer here - or Type In Unknown If No Info Given. &gt;; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 1/19/2018; There has been treatment or conservative therapy.; The pt has dull ache in right shoulder, numbness & tingling, non improvement w/conservative care with 3months since his injury.; NSAIDs, home exercise program,; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	&lt; Enter answer here - or Type In Unknown If No Info Given. &gt;; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 4 weeks ago; There has been treatment or conservative therapy.; numbness and tingling down arm, pain in neck,; medication, PT; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	; The pain is described as chronic; The member has not failed a 4 week course of conservative management in the past 3 months.; This is a request for an elbow MRI; The study is requested for evaluation of elbow pain.	1

Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	; The pain is from a recent injury.; Surgery or arthroscopy is not scheduled in the next 4 weeks.; There is a suspicion of tendon or ligament injury.; This is a request for an elbow MRI; The study is requested for evaluation of elbow pain.	1
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	; The requested study is a Shoulder MRI.; The pain is described as chronic; The request is for shoulder pain.; It is not known if the physician has directed conservative treatment for the past 6 weeks.	2
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	; The requested study is a Shoulder MRI.; The pain is described as chronic; The request is for shoulder pain.; The physician has directed conservative treatment for the past 6 weeks.; The patient has not completed 6 weeks of physical therapy?; The patient has been treated with medication.; The patient has not completed 6 weeks or more of Chiropractic care.; The physician has not directed a home exercise program for at least 6 weeks.; The patient received oral analgesics.	1
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	; The requested study is a Shoulder MRI.; The pain is described as chronic; The request is for shoulder pain.; The physician has not directed conservative treatment for the past 6 weeks.	1
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	; The requested study is a Shoulder MRI.; The pain is from a recent injury.; It is not know if surgery or arthroscopy is scheduled in the next 4 weeks.; The request is for shoulder pain.; There is a suspicion of tendon, ligament, rotator cuff injury or labral tear.	2
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	; The requested study is a Shoulder MRI.; The pain is from a recent injury.; Surgery or arthroscopy is not scheduled in the next 4 weeks.; The request is for shoulder pain.; There is a suspicion of tendon, ligament, rotator cuff injury or labral tear.	2

Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	<p>; The requested study is a Shoulder MRI.; The pain is from an old injury.; The request is for shoulder pain.; The physician has directed conservative treatment for the past 6 weeks.; The patient has not completed 6 weeks of physical therapy?; The patient has been treated with medication.; The patient has not completed 6 weeks or more of Chiropractic care.; It is not known if the physician has directed a home exercise program for at least 6 weeks.; The patient received oral analgesics.</p>	1
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	<p>; The requested study is a Shoulder MRI.; The pain is not from a recent injury, old injury, chronic pain or a mass.; The request is for shoulder pain.</p>	1
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	<p>; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; October 2017; There has been treatment or conservative therapy.; painful and limited range of motion. pain at night causing patient to wake not improved with conservative treatment; anti inflammatories, rest, home exercise program; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology</p>	2
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	<p>; This study is being ordered for trauma or injury.; ; It is not known if there has been any treatment or conservative therapy.; ; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology</p>	2

Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	<p>; This study is being ordered for trauma or injury.; ;  There has been treatment or conservative therapy.; ;  NSAID and completed Physical Therapy 8 weeks.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.;  The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology</p>	1
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	<p>02-21-18; 21-year-old male with left shoulder instability. He had a shoulder arthroscopy with labral repair by Dr. Smitherman roughly 3 years ago. He did okay for about 1-1/2 years postoperatively. Unfortunately, he had a recurrent injury. He sustained a ;  The requested study is a Shoulder MRI.; The pain is from a recent injury.; Surgery or arthroscopy is not scheduled in the next 4 weeks.; The request is for shoulder pain.;  There is a suspicion of tendon, ligament, rotator cuff injury or labral tear.</p>	1
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	<p>after surgery; The requested study is a Shoulder MRI.;  The pain is from a recent injury.; Surgery or arthroscopy is not scheduled in the next 4 weeks.; The request is for shoulder pain.; There is a suspicion of tendon, ligament, rotator cuff injury or labral tear.</p>	1

Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	<p>Bilateral shoulder bursitis and right elbow lateral epicondylitis. &amp;#x0D; &amp;#x0D; Patient has failed to improve with Physical Therapy, NSAIDS, Prednisone, Steriod injections and bracing.; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 11/17/2017; There has been treatment or conservative therapy.; Bilateral shoulder pain with radiculopathy to the right elbow. Patient has a positive Neer and Hawkins test. Positive tennis elbow stress test.; Non-Antisteroidal medication, Prednisone, Steriod injections, Physical Therapy, home exercises; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology</p>	3
-------------	----------	---	---	---

Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	<p>Bilateral shoulder pain and dysfunction. Pt not able to lift arms over her head. Significant night pain affecting her sleep. Bilateral shoulder impingement syndrome; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 7/3/17; There has been treatment or conservative therapy.; Bilateral shoulder pain with positive Neer, Hawkins and Jobe tests. Tenderness around the greater Tuberosity region.; Physical Therapy, Mobic and steroid injections; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology</p>	2
-------------	----------	---	---	---

Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	dog bite. ruling out structural damage; The pain is from a recent injury.; Surgery or arthroscopy is not scheduled in the next 4 weeks.; There is a suspicion of tendon or ligament injury.; This is a request for an elbow MRI; The study is requested for evaluation of elbow pain.	1
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Duration: 1 months; noticed two weeks ago pain progressed and has a knot &#x0D; Timing: cannot identify &#x0D; Context: cannot identify &#x0D; Alleviating Factors: narcotics &#x0D; Aggravating Factors: lifting; carrying; twisting; pushing/pulling; gripping; grasping; squeeze; The requested study is a Shoulder MRI.; The pain is from a known mass.; The diagnosis of Mass, Tumor, or Cancer has not been established.; The patient has had recent plain films, bone scan or ultrasound of the knee.; The imaging studies were not abnormal; The request is for shoulder pain.	1
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Enter answer here - or Type In Unknown If No She has a history of left-sided stroke. She had a recent EMG and showed mild-to-moderate compression of the left ulnar nerve at the cubital tunnel. She still complains of numbness and tingling in her ring and; The requested study is a Shoulder MRI.; The pain is described as chronic; The request is for shoulder pain.; The physician has directed conservative treatment for the past 6 weeks.; It is not known if the patient has completed 6 weeks of physical therapy?; It is not known if the patient has been treated with medication.; It is not known if the patient has completed 6 weeks or more of Chiropractic care.; The physician has directed a home exercise program for at least 6 weeks.; It is not known if The home treatment included exercise, prescription medication and follow-up office visits.	1

Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	<p>FELL ON SHOULDER MONTH AGO. HAS LIMITED ROM. INCREASED PAIN, AND LOSS OF FUNCTION. FEELS POPPING. OBRIENS-POSITIVE. SPEEDS-POSITIVE. HAWKINS- POSITIVE.NEERS-POSITIVE. XRAY 3/21/18- LEFT SHOULDER SHOWS AC JOINT ARTHROPATHY. NORMAL ALIGNMENT,NORMAL JOINT SPAC; The requested study is a Shoulder MRI.; The pain is from a recent injury.; Surgery or arthroscopy is not scheduled in the next 4 weeks.; The request is for shoulder pain.; There is a suspicion of tendon, ligament, rotator cuff injury or labral tear.</p>	1
-------------	----------	---	---	---

Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	<p>He has arthritis of the AC joint but not in the shoulder joint. We need to get more information before progressing with any treatment.; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 8/25/17; There has been treatment or conservative therapy.; Mr. Mosier is a 57 year old male referred by Dr. Meidema for bilateral shoulder pain six months duration left greater than right.&amp;#x0D; &amp;#x0D; On left side he has pain with WTB and ROM moderate severe.&amp;#x0D; &amp;#x0D; The shoulders pop&amp;#x0D; &amp;#x0D; Pain is worsened with activity. He has ; Medication, physical therapy, injections; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology</p>	1
-------------	----------	---	---	---

Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	<p>History of Present Illness: Left shoulder pain: The patient is an 82-year-old female who presents with increasing left shoulder pain. Upon further questioning she relates in her husband as well the longer history at least six months or more of left shoul; The requested study is a Shoulder MRI.; The pain is described as chronic; The request is for shoulder pain.; The physician has directed conservative treatment for the past 6 weeks.; It is not known if the patient has completed 6 weeks of physical therapy?; The patient has been treated with medication.; It is not known if the patient has completed 6 weeks or more of Chiropractic care.; The physician has directed a home exercise program for at least 6 weeks.; The home treatment did include exercise, prescription medication and follow-up office visits.; ; atenolol 25 mg tablet, once daily ; furosemide 40 mg tablet; triamcinolone acetone 0.1 % topical cream, Apply to Right Leg as Directed; Colcrys 0.6 mg tablet; potassium chloride ER 10 mEq tablet,extended release(part/cryst); Proctozone-HC 2.5 % topical ; The patient received medication other than joint injections(s) or oral analgesics.</p>	1
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	<p>History of right shoulder pain after a fall with reported recurrence of dislocation. This is after previous surgery for Bankart repair and SLAP repair back in 2010 with a history of two dislocations since that time, one about five years ago, and one just ; The requested study is a Shoulder MRI.; The pain is from a recent injury.; Surgery or arthroscopy is not scheduled in the next 4 weeks.; The request is for shoulder pain.; There is a suspicion of tendon, ligament, rotator cuff injury or labral tear.</p>	1

Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	<p>Left shoulder pain for 6 months. Continuing to get worse. The symptoms are made worse with bending, moving and lying in bed. No improvement with change in activity or Aspirin. On exam: Moderate acromioclavicular tenderness. Moderate pain over the supraspi; The requested study is a Shoulder MRI.; The pain is described as chronic; The request is for shoulder pain.; The physician has directed conservative treatment for the past 6 weeks.; The patient has not completed 6 weeks of physical therapy?; The patient has been treated with medication.; The patient has not completed 6 weeks or more of Chiropractic care.; The physician has not directed a home exercise program for at least 6 weeks.; The patient received oral analgesics.</p>	1
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	<p>Left wrist sprain; Postop left endoscopic carpal tunnel release and left cubital tunnel release, 01/09/18; The pain is from a recent injury.; Surgery or arthroscopy is not scheduled in the next 4 weeks.; There is not a suspicion of fracture not adequately determined by x-ray.; Tendon or ligament injury is not suspected.; This request is for a wrist MRI.; This study is requested for evaluation of wrist pain.</p>	1
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	<p>Limited active and passive motion in all planes. He has decreased strength to his left shoulder with rotator cuff resistance. He has weakness with grip strength in the left hand. He also has altered sensation in his left upper extremity. This extends into; The requested study is a Shoulder MRI.; The pain is from a recent injury.; It is not know if surgery or arthroscopy is scheduled in the next 4 weeks.; The request is for shoulder pain.; There is a suspicion of tendon, ligament, rotator cuff injury or labral tear.</p>	1

Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	locking and weakness; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; ; There has not been any treatment or conservative therapy.; pain; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Mr. Godwin is a 60 year old male I have previously seen for osteoarthritis of the knees and where he is 3 1/2 months s/p left TKA, but is here for new complaint of the left shoulder. He is scheduled for right TKA on 4-28-18.&#x0D; &#x0D; Left shoulder complaints be; The requested study is a Shoulder MRI.; The pain is described as chronic; The request is for shoulder pain.; It is not known if the physician has directed conservative treatment for the past 6 weeks.	1
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	MVA 4/11/17 SHOULDER AND HIP STILL HURTING. TRIED OBSERVATION, REST, HOME EXERCISE NSAIDS, TYLENOL, NAPROXEN. NOT GETTING BETTER, BEEN 9 MONTHS SINCE MVA.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	none; The requested study is a Shoulder MRI.; The pain is from an old injury.; The request is for shoulder pain.; The physician has not directed conservative treatment for the past 6 weeks.	1
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	none; This study is being ordered for a neurological disorder.; 01/01/2008; There has been treatment or conservative therapy.; weakness, numb, tingle; meds; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	<p>of shoulder; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 2017; There has been treatment or conservative therapy.; The shoulder showed again from the left side helped her temporarily but not anything long-term. Both shoulders are severely restricted as far as her activities are concerned. Forward elevation of about 70 only and she cannot get her hand to the top of h; rotator cuff surgery on that side before so undoubtedly she has rotator cuff arthropathy&amp;#x0D; inject the right shoulder with 80 mg Depo-Medrol and see if that doesn't help; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology</p>	2
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	<p>Onset: 2 years ago. Severity level is 8. It occurs occasionally and is fluctuating. Location: elbow. There is no radiation. The pain is aching and sharp. Context: there is no injury. The pain is aggravated by bending, lifting, movement, pushing and; The pain is described as chronic; The member has not failed a 4 week course of conservative management in the past 3 months.; This is a request for an elbow MRI; The study is requested for evaluation of elbow pain.</p>	1

Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	<p>patient reports pain in the right shoulder for 6 months. This was not the result of an injury. The patient has not had previous surgery on the shoulder. The pain is in the lateral aspect of the shoulder. Pain is increased or provoked by driving or mixi; The requested study is a Shoulder MRI.; The pain is described as chronic; The request is for shoulder pain.; The physician has directed conservative treatment for the past 6 weeks.; The patient has not completed 6 weeks of physical therapy?; The patient has been treated with medication.; The patient has not completed 6 weeks or more of Chiropractic care.; The physician has not directed a home exercise program for at least 6 weeks.; The patient received oral analgesics.</p>	1
-------------	----------	---	--	---

Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	<p>patient's pain is due to subacromial bursitis with the possibility of rotator cuff tear; bilateral shoulder pain that is worse EVEN AFTER ALL THE CONSERVATIVE TREATMENT; This study is being ordered for trauma or injury.; 01/12/2018; There has been treatment or conservative therapy.; Neer and Hawkins signs were positive on both sides; tender; over greater tuberosity;Supraspinatus on the right side was weak; with power of 4+, but the rest of rotator cuff and deltoid were strong with; power of 5. On the left side supraspinatus was weak; conservative management, including activity modification, NSAID, physical therapy, and steroid injection-injected 20 mg Depo-Medrol mixed with 3 mL 1% lidocaine; without epinephrine from posterolateral part of shoulder in subacromial space in both shoul; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology</p>	2
-------------	----------	---	--	---

Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Primary osteoarthritis, right shoulder; The requested study is a Shoulder MRI.; The pain is from a recent injury.; Surgery or arthroscopy is not scheduled in the next 4 weeks.; The request is for shoulder pain.; There is a suspicion of tendon, ligament, rotator cuff injury or labral tear.	1
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	PT HAD A POSSIBLE OLD INJURY OF DISLOCATION, HAS HAD CONSERVATIVE TX,HAS A POSITIVE APPREHENSION SIGN, TAKES IBUPROFEN; The requested study is a Shoulder MRI.; The pain is described as chronic; The request is for shoulder pain.; The physician has directed conservative treatment for the past 6 weeks.; It is not known if the patient has completed 6 weeks of physical therapy?; The patient has been treated with medication.; It is not known if the patient has completed 6 weeks or more of Chiropractic care.; The physician has directed a home exercise program for at least 6 weeks.; The home treatment did include exercise, prescription medication and follow-up office visits.; PATIENT USED REST AND ICE, HAD OT MODIFY ADL'S, USES IBUPROFEN, POSSIBLE OLD INJURY; The patient received oral analgesics.	1
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	pt had knee brace;; This study is being ordered for trauma or injury.; 10/11/2017; There has been treatment or conservative therapy.; decreased range of motion;; medications;; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Pt is a 51 years old RHD Female with LEFT shoulder pain after an oven blew up and knocked her into a door. Pt was seen in the ER on 3/19/2018. Pt complains of pain at night. No numbness and tingling. No previous surgeries or problems with this shoulder. T; The requested study is a Shoulder MRI.; The pain is from a recent injury.; It is not know if surgery or arthrscopy is scheduled in the next 4 weeks.; The request is for shoulder pain.; There is a suspicion of tendon, ligament, rotator cuff injury or labral tear.	1
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Pt is a 53 years old RHD Male with RIGHT shoulder pain. Pt complains of pain at night. No occasional numbness and tingling. She points anteriorly and to the biceps as the area that is most painful.; No previous surgeries or problems with this shoulder. T; The requested study is a Shoulder MRI.; The pain is described as chronic; The request is for shoulder pain.; The physician has directed conservative treatment for the past 6 weeks.; The patient has not completed 6 weeks of physical therapy?; The patient has been treated with medication.; The patient has not completed 6 weeks or more of Chiropractic care.; The physician has not directed a home exercise program for at least 6 weeks.; Oxycodone 15mg.; Mobic.; Steroid DP prescribed on 3/21/18; The patient received medication other than joint injections(s) or oral analgesics.	1
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Pt is a 57 years old RHD Male with LEFT shoulder pain for 5 months. No specific injury is noted. Positive pain at night. No numbness and tingling. No previous surgeries or problems with this shoulder. The pain is described as dull, achy pain that is inter; The requested study is a Shoulder MRI.; The pain is described as chronic; The request is for shoulder pain.; The physician has not directed conservative treatment for the past 6 weeks.	1

Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Pt is a 61 years old RHD Female with RIGHT shoulder pain for 1.5 years. No specific injury is noted. Positive pain at night. No associated numbness and tingling. No previous surgeries or problems with this shoulder. The pain is described as dull, achy pai; The requested study is a Shoulder MRI.; The pain is not from a recent injury, old injury, chronic pain or a mass.; The request is for shoulder pain.	1
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	R/O rotator cuff tear; The requested study is a Shoulder MRI.; The pain is described as chronic; The request is for shoulder pain.; The physician has directed conservative treatment for the past 6 weeks.; It is not known if the patient has completed 6 weeks of physical therapy?; The patient has been treated with medication.; It is not known if the patient has completed 6 weeks or more of Chiropractic care.; It is not known if the physician has directed a home exercise program for at least 6 weeks.; The patient received oral analgesics.	1
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Referred here today for left shoulder pain. He sustained a fall yesterday landing on his left upper extremity. He had complain of some mild irritation previous to his fall. He now complains of pain and difficulty with active elevation.Left shoulder shows ; The requested study is a Shoulder MRI.; The pain is from a recent injury.; It is not know if surgery or arthroscopy is scheduled in the next 4 weeks.; The request is for shoulder pain.; There is a suspicion of tendon, ligament, rotator cuff injury or labral tear.	1
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Right shoulder pain and limited range of motion. She has been taking Ibuprofen as needed and avoiding motions that cause pain. She hears a grinding noise with motion. She has a history of humerus fracture and surgery in 1981. The rotator cuff is weak on e; The requested study is a Shoulder MRI.; The pain is described as chronic; The request is for shoulder pain.; The physician has not directed conservative treatment for the past 6 weeks.	1

Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Right shoulder pain for many years that has progressively gotten worse in the last year. He has pain on the superior aspect that radiates to the elbow and numbness in the hand and fingers. He has limited range of motion and he has had multiple dislocation; The requested study is a Shoulder MRI.; The pain is described as chronic; The request is for shoulder pain.; The physician has not directed conservative treatment for the past 6 weeks.	1
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Right shoulder shows limited active motion. Rotator Cuff is clearly weak on testing; The requested study is a Shoulder MRI.; The pain is not from a recent injury, old injury, chronic pain or a mass.; The request is for shoulder pain.	1
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	ROTATOR CUFF TEAR; The requested study is a Shoulder MRI.; The pain is from a recent injury.; Surgery or arthroscopy is not scheduled in the next 4 weeks.; The request is for shoulder pain.; There is a suspicion of tendon, ligament, rotator cuff injury or labral tear.	1
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	The orthopedic surgeon ordering the MRI suspects the patient might have a rotator cuff tear, and he needs the MRI to confirm this. The patient has already had an arthrogram of this shoulder, and the doctor now wants an MRI.; The requested study is a Shoulder MRI.; The pain is from a recent injury.; It is not know if surgery or arthroscopy is scheduled in the next 4 weeks.; The request is for shoulder pain.; There is a suspicion of tendon, ligament, rotator cuff injury or labral tear.	1
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	The pain is described as chronic; The member has failed a 4 week course of conservative management in the past 3 months.; This is a request for an elbow MRI; The study is requested for evaluation of elbow pain.	5
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	The pain is described as chronic; The member has failed a 4 week course of conservative management in the past 3 months.; This request is for a wrist MRI.; This study is requested for evaluation of wrist pain.	4

Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	The pain is from a known mass.; It is unknown if a diagnosis of Mass, Tumor, or Cancer has been established.; The patient has had recent plain films, bone scan or ultrasound of the knee.; The imaging studies were abnormal.; This request is for a wrist MRI.; This study is requested for evaluation of wrist pain.	1
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	The pain is from a recent injury.; Surgery or arthroscopy is scheduled in the next 4 weeks.; There is a suspicion of tendon or ligament injury.; This request is for a wrist MRI.; This study is requested for evaluation of wrist pain.	2
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	The pain is from an old injury.; The member has failed a 4 week course of conservative management in the past 3 months.; This is a request for an elbow MRI; The study is requested for evaluation of elbow pain.	1
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	The pain is from an old injury.; The member has failed a 4 week course of conservative management in the past 3 months.; This request is for a wrist MRI.; This study is requested for evaluation of wrist pain.	2
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	The patient is having right shoulder pain, numbness, stiffness and popping for about 3 months. No recent injury but the patient does a lot of heavy lifting. There has been no change in the symptoms with ice, heat, rest and anti-inflammatory medication. An; The requested study is a Shoulder MRI.; The pain is described as chronic; The request is for shoulder pain.; The physician has directed conservative treatment for the past 6 weeks.; The patient has not completed 6 weeks of physical therapy?; The patient has been treated with medication.; The patient has not completed 6 weeks or more of Chiropractic care.; The physician has not directed a home exercise program for at least 6 weeks.; The patient received oral analgesics.	1

Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	The patient returns having had MRI scan of the neck. This was done at SMH on February 13. This shows significant disc degeneration at C4-5 C5-6 and C6-7. At C4-5 there is only mild central canal stenosis and minimal foraminal narrowing. C5-6 there is a br; The requested study is a Shoulder MRI.; The pain is described as chronic; The request is for shoulder pain.; The physician has directed conservative treatment for the past 6 weeks.; The patient has not completed 6 weeks of physical therapy?; The patient has not been treated with medication.; The patient has not completed 6 weeks or more of Chiropractic care.; It is not known if the physician has directed a home exercise program for at least 6 weeks.	1
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	The requested study is a Shoulder MRI.; "The caller indicated the study was not ordered for: Known or Suspicious Mass or Tumor with or without metastasis, Known or suspected Joint Infection, Aseptic Necrosis, Trauma, Chronic Pain, or Pre or Post operative evaluation.";	6
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	The requested study is a Shoulder MRI.; "The caller indicated the study was not ordered for: Known or Suspicious Mass or Tumor with or without metastasis, Known or suspected Joint Infection, Aseptic Necrosis, Trauma, Chronic Pain, or Pre or Post operative evaluation."; &lt; Enter answer here - or Type In Unknown If No Info Given. &gt;	1
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	The requested study is a Shoulder MRI.; "The caller indicated the study was not ordered for: Known or Suspicious Mass or Tumor with or without metastasis, Known or suspected Joint Infection, Aseptic Necrosis, Trauma, Chronic Pain, or Pre or Post operative evaluation."; Chronic L. shoulder pain and dysfunction. Differential diagnosis include:&#x0D; 1. Left shoulder AC joint arthrosis&#x0D; 2. SLAP lesion&#x0D; Pt has had physical Therapy, Steriod injections and NSAIDs with no relief	1

Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	The requested study is a Shoulder MRI.; "The caller indicated the study was not ordered for: Known or Suspicious Mass or Tumor with or without metastasis, Known or suspected Joint Infection, Aseptic Necrosis, Trauma, Chronic Pain, or Pre or Post operative evaluation."; Dr. Patrick Antoon kindly referred this very nice 24-year-old industrial mechanic. 2 recent injuries to his right shoulder with persistent pain. He lifted a 5 gallon pain bucket out of a pickup truck bed on October 17 and within 5 minutes had a great deal	1
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	The requested study is a Shoulder MRI.; "The caller indicated the study was not ordered for: Known or Suspicious Mass or Tumor with or without metastasis, Known or suspected Joint Infection, Aseptic Necrosis, Trauma, Chronic Pain, or Pre or Post operative evaluation."; Fall with injury left shoulder; 38-year-old mother of 10 fell from a chair 7 days ago wildly abducting her nondominant left shoulder. Severe pain and weakness since. Tried sling usage. No prior problems. Exam 7 days post injury shows good passi	1
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	The requested study is a Shoulder MRI.; "The caller indicated the study was not ordered for: Known or Suspicious Mass or Tumor with or without metastasis, Known or suspected Joint Infection, Aseptic Necrosis, Trauma, Chronic Pain, or Pre or Post operative evaluation."; Patient complaining of R shoulder pain. Pain located superior trapezius and shoulder region. Pain is aching and burning quality and getting worse. She has a positive cross body adduction. Scapular dyskinesis is noted	1
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	The requested study is a Shoulder MRI.; "The caller indicated the study was not ordered for: Known or Suspicious Mass or Tumor with or without metastasis, Known or suspected Joint Infection, Aseptic Necrosis, Trauma, Chronic Pain, or Pre or Post operative evaluation."; Patient is in pain.	1

Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	The requested study is a Shoulder MRI.; "The caller indicated the study was not ordered for: Known or Suspicious Mass or Tumor with or without metastasis, Known or suspected Joint Infection, Aseptic Necrosis, Trauma, Chronic Pain, or Pre or Post operative evaluation."; Possible rotator cuff tear	1
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	The requested study is a Shoulder MRI.; "The caller indicated the study was not ordered for: Known or Suspicious Mass or Tumor with or without metastasis, Known or suspected Joint Infection, Aseptic Necrosis, Trauma, Chronic Pain, or Pre or Post operative evaluation."; Pt has pain in the anterior and lateral aspect of the shoulder with radiculopathy towards the elbow. Pt is weak on isolation and painful on impingement provocative positions	1
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	The requested study is a Shoulder MRI.; "The caller indicated the study was not ordered for: Known or Suspicious Mass or Tumor with or without metastasis, Known or suspected Joint Infection, Aseptic Necrosis, Trauma, Chronic Pain, or Pre or Post operative evaluation."; R shoulder external rotator cuff strength testing with significant pain and guarding. Positive Neer, Jobe test with pain to Speed test. Chronic right shoulder pain and dysfunction and imaging findings consistent with Hamada Grade2 cuff tear.	1
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	The requested study is a Shoulder MRI.; "The caller indicated the study was not ordered for: Known or Suspicious Mass or Tumor with or without metastasis, Known or suspected Joint Infection, Aseptic Necrosis, Trauma, Chronic Pain, or Pre or Post operative evaluation."; R shoulder pain and mechanical symptoms concerning for possible superior labral tear. Positive Jobe Impingement, Positive O'Brien, Positive Kim test, Positive circumduction.	1

Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	The requested study is a Shoulder MRI.; "The caller indicated the study was not ordered for: Known or Suspicious Mass or Tumor with or without metastasis, Known or suspected Joint Infection, Aseptic Necrosis, Trauma, Chronic Pain, or Pre or Post operative evaluation."; R/O rotator cuff tear	1
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	The requested study is a Shoulder MRI.; "The caller indicated the study was not ordered for: Known or Suspicious Mass or Tumor with or without metastasis, Known or suspected Joint Infection, Aseptic Necrosis, Trauma, Chronic Pain, or Pre or Post operative evaluation."; recurrent right shoulder instability	1
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	The requested study is a Shoulder MRI.; "The caller indicated the study was not ordered for: Known or Suspicious Mass or Tumor with or without metastasis, Known or suspected Joint Infection, Aseptic Necrosis, Trauma, Chronic Pain, or Pre or Post operative evaluation."; Rule out rotator cuff tear	2
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	The requested study is a Shoulder MRI.; "The caller indicated the study was not ordered for: Known or Suspicious Mass or Tumor with or without metastasis, Known or suspected Joint Infection, Aseptic Necrosis, Trauma, Chronic Pain, or Pre or Post operative evaluation."; She fell about 6 weeks ago injuring her right shoulder. She continues to have difficulty moving the shoulder with pain in the shoulder and upper arm. She did not seek medical attention at the time.	1
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	The requested study is a Shoulder MRI.; "The caller indicated the study was not ordered for: Known or Suspicious Mass or Tumor with or without metastasis, Known or suspected Joint Infection, Aseptic Necrosis, Trauma, Chronic Pain, or Pre or Post operative evaluation."; snow skiing and fell February 5, 2018 worse at night advil 800 mg twice a day pain lifting her arm above her head	1

Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	The requested study is a Shoulder MRI.; "The caller indicated the study was not ordered for: Known or Suspicious Mass or Tumor with or without metastasis, Known or suspected Joint Infection, Aseptic Necrosis, Trauma, Chronic Pain, or Pre or Post operative evaluation."; Suspected tear	1
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	The requested study is a Shoulder MRI.; "The caller indicated the study was not ordered for: Known or Suspicious Mass or Tumor with or without metastasis, Known or suspected Joint Infection, Aseptic Necrosis, Trauma, Chronic Pain, or Pre or Post operative evaluation."; There is no deformity to the shoulder. No erythema or ecchymosis. Mildly TTP over the anterolateral shoulder. Active range of motion restricted in FF and abduction due to discomfort. Reduced internal rotation. Passive range of motion notes pain and crepit	1
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	The requested study is a Shoulder MRI.; "The caller indicated the study was not ordered for: Known or Suspicious Mass or Tumor with or without metastasis, Known or suspected Joint Infection, Aseptic Necrosis, Trauma, Chronic Pain, or Pre or Post operative evaluation."; Weakness and pain of the left shoulder. Positive for Jobe, Neer, and Hawkins Impingement. Positive O'Briens and Positive Biceps Provocation Signs. Due to the longevity of his symptoms as well as his weakness MRI is to evaluate his rotator cuff, biceps t	1
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	The requested study is a Shoulder MRI.; Study being ordered due to non-acute or chronic pain.; It is not known if the patient has completed and failed a course of conservative treatment.;	1
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	The requested study is a Shoulder MRI.; Study being ordered due to non-acute or chronic pain.; It is not known if the patient has completed and failed a course of conservative treatment.; &lt; Enter answer here - or Type In Unknown If No Info Given. &gt;	2

Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	The requested study is a Shoulder MRI.; Study being ordered due to non-acute or chronic pain.; It is not known if the patient has completed and failed a course of conservative treatment.; Left shoulder pain with impingement. Pain originally started in the neck saw Dr. Shahim and was given injections with no improvements	1
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	The requested study is a Shoulder MRI.; Study being ordered due to non-acute or chronic pain.; It is not known if the patient has completed and failed a course of conservative treatment.; No improvement with Therapy trouble sleeping ongoing for a long time and is getting worse. he has weakness. There is tenderness of the AC joint and the lateral shoulder.	1
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	The requested study is a Shoulder MRI.; Study being ordered due to non-acute or chronic pain.; It is not known if the patient has completed and failed a course of conservative treatment.; Pain worsened 2 weeks ago With a pulling mechanism. A he did have pain as long as 2-3 months ago that necessitated an MRI scan done on December 26, 2017 and this really show by report mostly interstitial signal consistent with tendinosis. He has not	1
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	The requested study is a Shoulder MRI.; Study being ordered due to non-acute or chronic pain.; It is not known if the patient has completed and failed a course of conservative treatment.; patient is in pain and has been.	1
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	The requested study is a Shoulder MRI.; Study being ordered due to non-acute or chronic pain.; It is not known if the patient has completed and failed a course of conservative treatment.; right shoulder pain / R/O RCT	1
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	The requested study is a Shoulder MRI.; Study being ordered due to non-acute or chronic pain.; The patient has completed and failed a course of conservative treatment of at least 4 weeks.; The ordering physician is an orthopedist.	412

Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	The requested study is a Shoulder MRI.; Study being ordered due to non-acute or chronic pain.; The patient has not completed and failed a course of conservative treatment of at least 4 weeks.;	7
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	The requested study is a Shoulder MRI.; Study being ordered due to non-acute or chronic pain.; The patient has not completed and failed a course of conservative treatment of at least 4 weeks.; &lt; Enter answer here - or Type In Unknown If No Info Given. &gt;	1
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	The requested study is a Shoulder MRI.; Study being ordered due to non-acute or chronic pain.; The patient has not completed and failed a course of conservative treatment of at least 4 weeks.; . She states that she has been very athletic and active in the past. She states that about 5-6 years ago she injured her shoulder. She states that she had it evaluated who told her that she may have a rotator cuff tear and should retire from playing softb	1
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	The requested study is a Shoulder MRI.; Study being ordered due to non-acute or chronic pain.; The patient has not completed and failed a course of conservative treatment of at least 4 weeks.; Doctor believes patient has a rotator cuff tear	1
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	The requested study is a Shoulder MRI.; Study being ordered due to non-acute or chronic pain.; The patient has not completed and failed a course of conservative treatment of at least 4 weeks.; IMPRESSION:&#x0D; Right shoulder impingement with rotator cuff tendinitis versus tear	1
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	The requested study is a Shoulder MRI.; Study being ordered due to non-acute or chronic pain.; The patient has not completed and failed a course of conservative treatment of at least 4 weeks.; injury on 1-12-18 r/o rct	1
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	The requested study is a Shoulder MRI.; Study being ordered due to non-acute or chronic pain.; The patient has not completed and failed a course of conservative treatment of at least 4 weeks.; Injury with numbness, tingling and instability	1

Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	The requested study is a Shoulder MRI.; Study being ordered due to non-acute or chronic pain.; The patient has not completed and failed a course of conservative treatment of at least 4 weeks.; Labral tear	1
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	The requested study is a Shoulder MRI.; Study being ordered due to non-acute or chronic pain.; The patient has not completed and failed a course of conservative treatment of at least 4 weeks.; lifting injury 2 weeks ago. felt and heard a pop.	1
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	The requested study is a Shoulder MRI.; Study being ordered due to non-acute or chronic pain.; The patient has not completed and failed a course of conservative treatment of at least 4 weeks.; Patient is experiencing pain in right shoulder, patient has taken off of work due to the pain in shoulder.	1
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	The requested study is a Shoulder MRI.; Study being ordered due to non-acute or chronic pain.; The patient has not completed and failed a course of conservative treatment of at least 4 weeks.; REFERRED TO ORTHOPEDIC.; XR Finding: Two views were obtained of the right shoulder. No acute fracture or dislocation is seen. There is a focus of dystrophic calcification adjacent to the greater tuberosity of the humerus suggestive of calcific tendini	1
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	The requested study is a Shoulder MRI.; Study being ordered due to non-acute or chronic pain.; The patient has not completed and failed a course of conservative treatment of at least 4 weeks.; Rotator Cuff Tear.	1
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	The requested study is a Shoulder MRI.; Study being ordered due to non-acute or chronic pain.; The patient has not completed and failed a course of conservative treatment of at least 4 weeks.; Unknown	1

Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	The requested study is a Shoulder MRI.; Study being ordered due to non-acute or chronic pain.; The patient has not completed and failed a course of conservative treatment of at least 4 weeks.; X-Ray shows prior greater tuberosity fx of l humeral head with possible osteonecrosis. Otherwise normal spacing, normal alignment.	1
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	The requested study is a Shoulder MRI.; Study being ordered due to trauma within past 72 hours.; The patient has had recent plain films of the shoulder.; The plain films were normal.; It is not known if the patient is experiencing joint locking or instability.; The patient has a documented limited range of motion on physical examination.	1
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	The requested study is a Shoulder MRI.; Study being ordered due to trauma within past 72 hours.; The patient has had recent plain films of the shoulder.; The plain films were normal.; The patient is experiencing joint locking or instability.	9
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	The requested study is a Shoulder MRI.; Study being ordered due to trauma within past 72 hours.; The patient has had recent plain films of the shoulder.; The plain films were normal.; The patient is NOT experiencing joint locking or instability.; The patient has a documented limited range of motion on physical examination.	3
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	The requested study is a Shoulder MRI.; Study being ordered due to trauma within past 72 hours.; The patient has had recent plain films of the shoulder.; The plain films were not normal.	6
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	The requested study is a Shoulder MRI.; Study being ordered due to trauma within past 72 hours.; The patient has had recent plain films of the shoulder.; The results of the plain films is not known.; The patient is experiencing joint locking or instability.	2
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	The requested study is a Shoulder MRI.; Study being ordered for post-operative evaluation.; The ordering physician is an orthopedist.	14

Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	The requested study is a Shoulder MRI.; Study being ordered for pre-operative evaluation; It is not known if the study is ordered prior to arthroscopic surgery.; "This study is not being ordered prior to a planned or scheduled open surgery (joint replacement, etc.)."; Pt reports the pain continues to get worse. No feelings of instability reported. Patient called to state that his shoulder is still giving him pain. The injection only gave him short-term relief.RIGHT shoulder sprain concerning for a labral tear.	1
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	The requested study is a Shoulder MRI.; Study being ordered for pre-operative evaluation; It is not known if the study is ordered prior to arthroscopic surgery.; "This study is not being ordered prior to a planned or scheduled open surgery (joint replacement, etc.)."; RIGHT shoulder pain for 3 months. No specific injury is noted. No pain at night. No associated numbness and tingling. He points anteriorly as the area that is most painful. No previous surgeries or problems with this shoulder. The pain is worse with over	1

This patient notes that she has about a 2-3 month history of pain and soreness in her left shoulder. This is been accompanied by a reproducible click in her lef	1
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	The requested study is a Shoulder MRI.; Study being ordered for pre-operative evaluation; It is not known if the study is ordered prior to arthroscopic surgery.; It is not known if the study is for pre-operative planning.;	2
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	The requested study is a Shoulder MRI.; Study being ordered for pre-operative evaluation; It is not known if the study is ordered prior to arthroscopic surgery.; It is not known if the study is for pre-operative planning.;; dislocated his shoulder&#x0D; 50degrees of active abduction.&#x0D; Passive glenohumeral abduction up to90 degrees&#x0D; Jobe and neer pos&#x0D; DD testing pos&#x0D; Acromioclavicular joint is nontender&#x0D; No overlying skin changes.&#x0D; Anterior apprehension testing ispositive	1
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	The requested study is a Shoulder MRI.; Study being ordered for pre-operative evaluation; It is not known if the study is ordered prior to arthroscopic surgery.; It is not known if the study is for pre-operative planning.;; Douglas Sparks is a 61 years old male from Calico Rock, AR. This patient is seen today for their intitial evaluation of bilateral shoulder pain. Numbness in the right hand. Chronic neck pain. This man states that he was in a motor vehicle accident app	1

Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	The requested study is a Shoulder MRI.; Study being ordered for pre-operative evaluation; It is not known if the study is ordered prior to arthroscopic surgery.; It is not known if the study is for pre-operative planning.; is a 53 years old RHD Male with bilateral shoulder pain on and off for 2+ years. No specific injury. Pt has some pain at night. No associated numbness and tingling. No previous surgeries or problems with this shoulder.The pain is described as dull, achy p	1
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	The requested study is a Shoulder MRI.; Study being ordered for pre-operative evaluation; It is not known if the study is ordered prior to arthroscopic surgery.; It is not known if the study is for pre-operative planning.; LT shoulder impingement. Pain increases at night. No injury.	1
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	The requested study is a Shoulder MRI.; Study being ordered for pre-operative evaluation; It is not known if the study is ordered prior to arthroscopic surgery.; It is not known if the study is for pre-operative planning.; Pt is a 35 years old RHD Female with LEFT shoulder pain for since October 2017. No specific injury is noted. Pain at night. No numbness and tingling. Pt reports she had a LT shoulder scope in January 2017 in Wisconsin and was doing well until she injured	1
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	The requested study is a Shoulder MRI.; Study being ordered for pre-operative evaluation; It is not known if the study is ordered prior to arthroscopic surgery.; It is not known if the study is for pre-operative planning.; Pt is a 36 years old LHD Male with LEFT shoulder pain after falling off a trailer while hauling hay last night. He reports pain from the anterior shoulder down to the elbow. No numbness or tingling is noted. He reports stabbing, constant 9/10 in severity	1

Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	The requested study is a Shoulder MRI.; Study being ordered for pre-operative evaluation; It is not known if the study is ordered prior to arthroscopic surgery.; It is not known if the study is for pre-operative planning.; Pt is a 55 years old RHD Male with LEFT shoulder pain and weakness for 1 year. &#x0D; No specific injury is noted. Positive pain at night. Occasional numbness and tingling. No previous surgeries or problems with this shoulder. The pain is described as a stabb	1
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	The requested study is a Shoulder MRI.; Study being ordered for pre-operative evaluation; It is not known if the study is ordered prior to arthroscopic surgery.; It is not known if the study is for pre-operative planning.; Pt is a 56 years old RHD Male with LEFT shoulder pain since a motorcycle accident in 1986, but has progressively got much worse over the past year. No recent injury noted. Pt points anterolateral as the area that is most painful. No numbness and tingling.	1
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	The requested study is a Shoulder MRI.; Study being ordered for pre-operative evaluation; It is not known if the study is ordered prior to arthroscopic surgery.; It is not known if the study is for pre-operative planning.; Pt is a 62 years old RHD Male with RIGHT shoulder pain for 10 days. No specific injury is noted. No pain at night. Some occasional numbness and tingling that radiated down the arm and into the fingers. Pt points to the shoulder blade and biceps as the are	1
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	The requested study is a Shoulder MRI.; Study being ordered for pre-operative evaluation; It is not known if the study is ordered prior to arthroscopic surgery.; It is not known if the study is for pre-operative planning.; Right shoulder impingement. MRI to Rule out RCT.	1
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	The requested study is a Shoulder MRI.; Study being ordered for pre-operative evaluation; It is not known if the study is ordered prior to arthroscopic surgery.; It is not known if the study is for pre-operative planning.; Right shoulder pain and impingement syndrome.	1

Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	The requested study is a Shoulder MRI.; Study being ordered for pre-operative evaluation; It is not known if the study is ordered prior to arthroscopic surgery.; It is not known if the study is for pre-operative planning.; Rotator cuff syndrome of left shoulder pt is not helping at all still painful	1
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	The requested study is a Shoulder MRI.; Study being ordered for pre-operative evaluation; It is not known if the study is ordered prior to arthroscopic surgery.; It is not known if the study is for pre-operative planning.; X-rays: For views of the left shoulder made. Acromioclavicular arthritis is noted. Humeral head acromial distance looks good. Impression: Impingement syndrome bursitis left shoulder with biceps tendinitis and probable rotator cuff tear..	1
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	The requested study is a Shoulder MRI.; Study being ordered for pre-operative evaluation; This study is being ordered prior to arthroscopic surgery.;	8
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	The requested study is a Shoulder MRI.; Study being ordered for pre-operative evaluation; This study is being ordered prior to arthroscopic surgery.; &lt; Enter answer here - or Type In Unknown If No Info Given. &gt;	3
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	The requested study is a Shoulder MRI.; Study being ordered for pre-operative evaluation; This study is being ordered prior to arthroscopic surgery.; . Patient returns for follow-up of her right shoulder. Her father is with her again today. Her symptoms are lingering. This is despite therapy and anti-inflammatories. At this point I would recommend we do an MR arthrogram to evaluate the superior lab	1

Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	The requested study is a Shoulder MRI.; Study being ordered for pre-operative evaluation; This study is being ordered prior to arthroscopic surgery.; 2.18.18 pt was working on his truck and he hurt his shoulder. he has had multiple shoulder disloactions. tenderness over ac joint, ac joint compression test is positive, + sulcas sign, r/o labral tear	1
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	The requested study is a Shoulder MRI.; Study being ordered for pre-operative evaluation; This study is being ordered prior to arthroscopic surgery.; chronic pain, motor vehicle accident, failed PT. limited range of motion, suspected tear	1
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	The requested study is a Shoulder MRI.; Study being ordered for pre-operative evaluation; This study is being ordered prior to arthroscopic surgery.; February 27, 2018; Michael G. Justus, M.D.; Searcy, AR; Fax: 501-207-5889; RE: Rita King, #1767373; DOB: 03/05/1958; Dear Dr. Justus: It was a pleasure to see your patient, Rita King, in the office today. My office notes are as follows;	1
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	The requested study is a Shoulder MRI.; Study being ordered for pre-operative evaluation; This study is being ordered prior to arthroscopic surgery.; He fell a little over a week ago when he tripped on a propane bottle. He landed on his left; outstretched shoulder. He has significant pain.He will continue physical; therapy for his shoulder. He was given a prescription for Norco 10 #60. s/p left L	1
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	The requested study is a Shoulder MRI.; Study being ordered for pre-operative evaluation; This study is being ordered prior to arthroscopic surgery.; His left shoulder was injected today. He will begin a physician based home exercise program and return as symptoms warrant. He called later 1/21 and states significant pain in the shoulder and plan is for MRI as he has already failed his injection. tender	1

Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	The requested study is a Shoulder MRI.; Study being ordered for pre-operative evaluation; This study is being ordered prior to arthroscopic surgery.; History of Present Illness: Left shoulder pain: The patient is a 57-year-old male with whom we have previously performed left rotator cuff tendon repair. Patient returns to clinic complaining of chronic left shoulder pain. The patient is in the process o	1
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	The requested study is a Shoulder MRI.; Study being ordered for pre-operative evaluation; This study is being ordered prior to arthroscopic surgery.; Impingement syndrome of left shoulder	1
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	The requested study is a Shoulder MRI.; Study being ordered for pre-operative evaluation; This study is being ordered prior to arthroscopic surgery.; IMPRESSION: Left rotator cuff tear versus humerus contusion; PLAN: X-ray and exam findings were reviewed with the patient and options were discussed. She like to order an MRI to rule out internal derangement of the left shoulder. I agree with this	1
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	The requested study is a Shoulder MRI.; Study being ordered for pre-operative evaluation; This study is being ordered prior to arthroscopic surgery.; Instability of right shoulder joint IMAGING Xray from the right shoulder is unremarkable.; IMPRESSION AND PLAN I suggested the patient has recurrent dislocation of the right shoulder. At this point, we are going to proceed with MR; arthrogram of the	1
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	The requested study is a Shoulder MRI.; Study being ordered for pre-operative evaluation; This study is being ordered prior to arthroscopic surgery.; Left shoulder pain: Patient returns complaining of left shoulder pain. The patient reports episodic pain in the left shoulder that has become worse recently. We examine the patient in the past and had requested MRI of shoulder. However this had never been	1

Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	The requested study is a Shoulder MRI.; Study being ordered for pre-operative evaluation; This study is being ordered prior to arthroscopic surgery.; LOOSE BODY SEEN ON XRAY	1
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	The requested study is a Shoulder MRI.; Study being ordered for pre-operative evaluation; This study is being ordered prior to arthroscopic surgery.; Mildly TTP over the anterolateral shoulder. Active range of motion restricted in FF and abduction due to discomfort. Reduced internal rotation. Passive range of motion notes pain and crepitus with the arm abducted to 90 and internally/externally rotated.	1
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	The requested study is a Shoulder MRI.; Study being ordered for pre-operative evaluation; This study is being ordered prior to arthroscopic surgery.; Pain in the left shoulder for several weeks now	1
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	The requested study is a Shoulder MRI.; Study being ordered for pre-operative evaluation; This study is being ordered prior to arthroscopic surgery.; Patient has continued severe pain in the Rt shoulder. He has pain and decreased ROM and his daily ADL's are compromised.	1
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	The requested study is a Shoulder MRI.; Study being ordered for pre-operative evaluation; This study is being ordered prior to arthroscopic surgery.; Patient has obvious Popeye bicep deformity with distal retraction present. There is a positive speed and Yergason test. MRI scan of the left shoulder to evaluate for possible labral and rotator cuff damage for preoperative planning	1
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	The requested study is a Shoulder MRI.; Study being ordered for pre-operative evaluation; This study is being ordered prior to arthroscopic surgery.; patient has pain 4 out of 10 . pain at night had a injury 2 weeks ago. pain with dls test bicep tenderness	1

Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	The requested study is a Shoulder MRI.; Study being ordered for pre-operative evaluation; This study is being ordered prior to arthroscopic surgery.; patient is in a lot of pain and has been for some time	1
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	The requested study is a Shoulder MRI.; Study being ordered for pre-operative evaluation; This study is being ordered prior to arthroscopic surgery.; patient sustained an anterior left shoulder dislocation on 1/25/18. suspected labral tear. history significant for labral repair several years ago. no relief with anti inflammatories	1
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	The requested study is a Shoulder MRI.; Study being ordered for pre-operative evaluation; This study is being ordered prior to arthroscopic surgery.; per dr, We will order MRI of her left shoulder today to evaluate for rotator cuff tear. I suspect that the patient will need to have a left shoulder scope. ASSESSMENT: Left shoulder rotator cuff tear &#x0D; Left shoulder biceps ten	1
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	The requested study is a Shoulder MRI.; Study being ordered for pre-operative evaluation; This study is being ordered prior to arthroscopic surgery.; Physical Examinations:&#x0D; left shoulder: severe pain and weakness with resisted abduction, rotator cuff tentative healthy, Hawkins same positive, near sign positive,&#x0D; plan: obtain MRI left shoulder with follow-up	1
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	The requested study is a Shoulder MRI.; Study being ordered for pre-operative evaluation; This study is being ordered prior to arthroscopic surgery.; Presents with the above complaint. Patient admits to having continued pain in the left shoulder. Patient states he has been bothered her for the past month. Patient denies any improvement following corticosteroid injection. Patient also complains of right	1

Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	The requested study is a Shoulder MRI.; Study being ordered for pre-operative evaluation; This study is being ordered prior to arthroscopic surgery.; progressively worsening pain for @ least 5 months that has not responded to conservative treatment (injection, anti inflammatories, HEP)	1
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	The requested study is a Shoulder MRI.; Study being ordered for pre-operative evaluation; This study is being ordered prior to arthroscopic surgery.; pt fell in October of 2017 she has failed physical therapy, steriod injections, rest ice and nsaid's has suspected rotator cuff tear	1
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	The requested study is a Shoulder MRI.; Study being ordered for pre-operative evaluation; This study is being ordered prior to arthroscopic surgery.; R shoulder tender to palpation at the acromial clavicular joint. Pain increased with cross body adduction, O'Brien and Hawkins maneuvers	1
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	The requested study is a Shoulder MRI.; Study being ordered for pre-operative evaluation; This study is being ordered prior to arthroscopic surgery.; Radiographs: Radiographs included a true AP, axillary lateral, and Alvis view. &#x0D; The patient does not have degenerative changes of the glenohumeral joint. &#x0D; There are degenerative changes of the AC joint. This is mild.&#x0D; There is a spur on the anterolat	1
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	The requested study is a Shoulder MRI.; Study being ordered for pre-operative evaluation; This study is being ordered prior to arthroscopic surgery.; Right biceps proximal tear&#x0D; He states that in mid December. He lifted a heavy load and felt a tearing sensation in his right shoulder admitted biceps region and is continuing to have discomfort with this. There is a difference in the biceps contour on the	1

Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	The requested study is a Shoulder MRI.; Study being ordered for pre-operative evaluation; This study is being ordered prior to arthroscopic surgery.; Right shoulder follow up: The date of surgery was September 22, 2017. The patient has history of right shoulder arthroscopy with distal clavicle resection and subacromial decompression. She did well initially recovering after surgery in physical therapy.	1
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	The requested study is a Shoulder MRI.; Study being ordered for pre-operative evaluation; This study is being ordered prior to arthroscopic surgery.; Right shoulder follow up: The patient has history of fall injuring the right of extremity. Previous examination was doubtful rotator cuff tendon tear right shoulder and the patient was referred to physical therapy. She returns noting some of the still com	1
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	The requested study is a Shoulder MRI.; Study being ordered for pre-operative evaluation; This study is being ordered prior to arthroscopic surgery.; right shoulder pain post trauma. positive hawkin's impingement. positive neer's impingement. significant weakness on exam. pre-operative evaluation	1
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	The requested study is a Shoulder MRI.; Study being ordered for pre-operative evaluation; This study is being ordered prior to arthroscopic surgery.; Right shoulder pain: The patient is a 60-year-old male presenting with two months of right shoulder pain. It is starting to interfere with sleep pattern. The patient complains of a deep pain and shoulder aggravated by elevation of the arm. He also reports	1
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	The requested study is a Shoulder MRI.; Study being ordered for pre-operative evaluation; This study is being ordered prior to arthroscopic surgery.; Shoulder pain that has been going on for about 3 years. She has also had a more recent injury the last few weeks that have greatly magnified her pain and increased her weakness. She has had some tingling in the arm as well in no specific distribution. It	1

Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	The requested study is a Shoulder MRI.; Study being ordered for pre-operative evaluation; This study is being ordered prior to arthroscopic surgery.; suspected labral tear right shoulder. painful range of motion with associated painful clicking. no relief with anti inflammatories	1
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	The requested study is a Shoulder MRI.; Study being ordered for pre-operative evaluation; This study is being ordered prior to arthroscopic surgery.; suspected rotator cuff tear after multiple falls, pain with lifting and range of motion	1
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	The requested study is a Shoulder MRI.; Study being ordered for pre-operative evaluation; This study is being ordered prior to arthroscopic surgery.; This patient had a dislocation and we need to ascertain if the labrum is torn or the rotator cuff	1
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	The requested study is a Shoulder MRI.; Study being ordered for suspicious mass/tumor/metastasis.; The patient has had recent plain films of the shoulder.; The plain films were not normal.	1
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	The requested study is a Shoulder MRI.; Study being ordered for suspicious mass/tumor/metastasis.; There are physical findings (palpable mass) of a suspicious mass or known primary site of cancer.; The patient has not had a recent bone scan.; The patient has had recent plain films of the shoulder.; The plain films were normal.; The patient has not had a recent CT of the shoulder.	1

Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	The requested study is a Shoulder MRI.; Study is being ordered for known/suspected joint infection.; The patient has not had a recent bone scan.; The patient has not had a recent ultrasound of the shoulder.; The plain films were normal.; There are no documented physical or laboratory findings of a joint infection.; patient is a 57-year-old right-handed man who was working at home in his shop when a ladder fell struck him directly on the superior aspect of the left shoulder. He has had pain since. Pain has persisted despite time and modification activities. He can; The patient has not had a recent CT of the shoulder.	1
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	The requested study is a Shoulder MRI.; The pain is described as chronic; The request is for shoulder pain.; The physician has directed conservative treatment for the past 6 weeks.; It is not known if the patient has completed 6 weeks of physical therapy?; The patient has been treated with medication.; The patient received joint injection(s).	1
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	The requested study is a Shoulder MRI.; The pain is described as chronic; The request is for shoulder pain.; The physician has directed conservative treatment for the past 6 weeks.; The patient has completed 6 weeks of physical therapy?	41
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	The requested study is a Shoulder MRI.; The pain is described as chronic; The request is for shoulder pain.; The physician has directed conservative treatment for the past 6 weeks.; The patient has not completed 6 weeks of physical therapy?; The patient has been treated with medication.; The patient has completed 6 weeks or more of Chiropractic care.; diclofenac sodium 20 mg/gram /actuation(2 %) solution in metered-dose pump; The patient received medication other than joint injections(s) or oral analgesics.	1

Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	The requested study is a Shoulder MRI.; The pain is described as chronic; The request is for shoulder pain.; The physician has directed conservative treatment for the past 6 weeks.; The patient has not completed 6 weeks of physical therapy?; The patient has been treated with medication.; The patient has completed 6 weeks or more of Chiropractic care.; It is not known what type of medication the patient received.	2
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	The requested study is a Shoulder MRI.; The pain is described as chronic; The request is for shoulder pain.; The physician has directed conservative treatment for the past 6 weeks.; The patient has not completed 6 weeks of physical therapy?; The patient has been treated with medication.; The patient received joint injection(s).	11
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	The requested study is a Shoulder MRI.; The pain is from a recent injury.; Surgery or arthroscopy is scheduled in the next 4 weeks.; The request is for shoulder pain.; There is a suspicion of tendon, ligament, rotator cuff injury or labral tear.	6
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	The requested study is a Shoulder MRI.; The pain is from an old injury.; The request is for shoulder pain.; The physician has directed conservative treatment for the past 6 weeks.; It is not known if the patient has completed 6 weeks of physical therapy?; The patient has been treated with medication.; The patient received joint injection(s).	1
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	The requested study is a Shoulder MRI.; The pain is from an old injury.; The request is for shoulder pain.; The physician has directed conservative treatment for the past 6 weeks.; The patient has completed 6 weeks of physical therapy?	14
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	The requested study is a Shoulder MRI.; The pain is from an old injury.; The request is for shoulder pain.; The physician has directed conservative treatment for the past 6 weeks.; The patient has not completed 6 weeks of physical therapy?; The patient has been treated with medication.; The patient received joint injection(s).	4

Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	This is a request for an upper extremity joint MRI.; The patient does have documented weakness or partial loss of feeling in the upper extremity.; There has been a history of significant trauma, dislocation or injury to the joint within the past 6 weeks.; The patient does have an abnormal plain film study of the joint.	17
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	This is a request for an upper extremity joint MRI.; The patient does have documented weakness or partial loss of feeling in the upper extremity.; There has been a history of significant trauma, dislocation or injury to the joint within the past 6 weeks.; The patient does not have an abnormal plain film study of the joint.; The patient has been treated with and failed a course of four weeks of supervised physical therapy.	21
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	This is a request for an upper extremity joint MRI.; The patient does have documented weakness or partial loss of feeling in the upper extremity.; There has been a history of significant trauma, dislocation or injury to the joint within the past 6 weeks.; The patient does not have an abnormal plain film study of the joint.; The patient has not been treated with and failed a course of four weeks of supervised physical therapy.; The patient has a documented limitation of their range of motion.; The patient has experienced pain for greater than six weeks.; The patient has been treated with anti-inflammatory medication in conjunction with this complaint.	2

Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	<p>This is a request for an upper extremity joint MRI.; The patient does have documented weakness or partial loss of feeling in the upper extremity.; There has been a history of significant trauma, dislocation or injury to the joint within the past 6 weeks.; The patient does not have an abnormal plain film study of the joint.; The patient has not been treated with and failed a course of four weeks of supervised physical therapy.; The patient has a documented limitation of their range of motion.; The patient has not experienced pain for greater than six weeks.; The patient has been treated with anti-inflammatory medication in conjunction with this complaint.; This study is being ordered by the operating surgeon for pre-operative planning.</p>	6

Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	<p>This is a request for an upper extremity joint MRI.; The patient does have documented weakness or partial loss of feeling in the upper extremity.; There is no history of significant trauma, dislocation or injury to the joint within the past 6 weeks.; The patient does have an abnormal plain film study of the joint.; The patient has not been treated with and failed a course of four weeks of supervised physical therapy.; The patient has a documented limitation of their range of motion.; The patient has experienced pain for greater than six weeks.; The patient has been treated with anti-inflammatory medication in conjunction with this complaint.</p>	7
-------------	----------	---	--	---

Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	This is a request for an upper extremity joint MRI.; The patient does have documented weakness or partial loss of feeling in the upper extremity.; There is no history of significant trauma, dislocation or injury to the joint within the past 6 weeks.; The patient does have an abnormal plain film study of the joint.; The patient has not been treated with and failed a course of four weeks of supervised physical therapy.; The patient has a documented limitation of their range of motion.; The patient has not experienced pain for greater than six weeks.; The patient has been treated with anti-inflammatory medication in conjunction with this complaint.; This study is being ordered by the operating surgeon for pre-operative planning.	1
-------------	----------	---	---	---

Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	This is a request for an upper extremity joint MRI.; The patient does have documented weakness or partial loss of feeling in the upper extremity.; There is no history of significant trauma, dislocation or injury to the joint within the past 6 weeks.; The patient does have an abnormal plain film study of the joint.; The patient has not been treated with and failed a course of four weeks of supervised physical therapy.; The patient has a documented limitation of their range of motion.; The patient has not experienced pain for greater than six weeks.; The patient has not been treated with anti-inflammatory medication in conjunction with this complaint.; This study is being ordered by the operating surgeon for pre-operative planning.	1
-------------	----------	---	---	---

Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	<p>This is a request for an upper extremity joint MRI.; The patient does have documented weakness or partial loss of feeling in the upper extremity.; There is no history of significant trauma, dislocation or injury to the joint within the past 6 weeks.; The patient does not have an abnormal plain film study of the joint.; The patient has been treated with and failed a course of four weeks of supervised physical therapy.; The patient does not have a documented limitation of their range of motion.; The patient has experienced pain for greater than six weeks.; The patient has been treated with anti-inflammatory medication in conjunction with this complaint.; This study is being ordered by the operating surgeon for pre-operative planning.</p>	2
-------------	----------	---	--	---

Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	<p>This is a request for an upper extremity joint MRI.; The patient does have documented weakness or partial loss of feeling in the upper extremity.; There is no history of significant trauma, dislocation or injury to the joint within the past 6 weeks.; The patient does not have an abnormal plain film study of the joint.; The patient has been treated with and failed a course of four weeks of supervised physical therapy.; The patient has a documented limitation of their range of motion.; The patient has experienced pain for greater than six weeks.; The patient has been treated with anti-inflammatory medication in conjunction with this complaint.</p>	12
-------------	----------	---	--	----

Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	<p>This is a request for an upper extremity joint MRI.; The patient does have documented weakness or partial loss of feeling in the upper extremity.; There is no history of significant trauma, dislocation or injury to the joint within the past 6 weeks.; The patient does not have an abnormal plain film study of the joint.; The patient has not been treated with and failed a course of four weeks of supervised physical therapy.; The patient does not have a documented limitation of their range of motion.; The patient has experienced pain for greater than six weeks.; The patient has been treated with anti-inflammatory medication in conjunction with this complaint.; This study is being ordered by the operating surgeon for pre-operative planning.</p>	2
-------------	----------	---	--	---

Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	<p>This is a request for an upper extremity joint MRI.; The patient does have documented weakness or partial loss of feeling in the upper extremity.; There is no history of significant trauma, dislocation or injury to the joint within the past 6 weeks.; The patient does not have an abnormal plain film study of the joint.; The patient has not been treated with and failed a course of four weeks of supervised physical therapy.; The patient does not have a documented limitation of their range of motion.; The patient has experienced pain for greater than six weeks.; The patient has been treated with anti-inflammatory medication in conjunction with this complaint.; This study is not being ordered by an operating surgeon for pre-operative planning.</p>	3
-------------	----------	---	---	---

Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	This is a request for an upper extremity joint MRI.; The patient does have documented weakness or partial loss of feeling in the upper extremity.; There is no history of significant trauma, dislocation or injury to the joint within the past 6 weeks.; The patient does not have an abnormal plain film study of the joint.; The patient has not been treated with and failed a course of four weeks of supervised physical therapy.; The patient has a documented limitation of their range of motion.; The patient has experienced pain for greater than six weeks.; The patient has been treated with anti-inflammatory medication in conjunction with this complaint.; This study is being ordered by the operating surgeon for pre-operative planning.	10
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	This is a request for an upper extremity joint MRI.; The patient does have documented weakness or partial loss of feeling in the upper extremity.; There is no history of significant trauma, dislocation or injury to the joint within the past 6 weeks.; The patient does not have an abnormal plain film study of the joint.; The patient has not been treated with and failed a course of four weeks of supervised physical therapy.; The patient has a documented limitation of their range of motion.; The patient has experienced pain for greater than six weeks.; The patient has been treated with anti-inflammatory medication in conjunction with this complaint.; This study is not being ordered by an operating surgeon for pre-operative planning.	3
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	This is a request for an upper extremity joint MRI.; The patient does not have documented weakness or partial loss of feeling in the upper extremity.; There has been a history of significant trauma, dislocation or injury to the joint within the past 6 weeks.; The patient does have an abnormal plain film study of the joint.	5

Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	This is a request for an upper extremity joint MRI.; The patient does not have documented weakness or partial loss of feeling in the upper extremity.; There has been a history of significant trauma, dislocation or injury to the joint within the past 6 weeks.; The patient does not have an abnormal plain film study of the joint.; The patient has been treated with and failed a course of four weeks of supervised physical therapy.	2
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	This is a request for an upper extremity joint MRI.; The patient does not have documented weakness or partial loss of feeling in the upper extremity.; There has been a history of significant trauma, dislocation or injury to the joint within the past 6 weeks.; The patient does not have an abnormal plain film study of the joint.; The patient has not been treated with and failed a course of four weeks of supervised physical therapy.; The patient does not have a documented limitation of their range of motion.; The patient has experienced pain for greater than six weeks.	1
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	This is a request for an upper extremity joint MRI.; The patient does not have documented weakness or partial loss of feeling in the upper extremity.; There has been a history of significant trauma, dislocation or injury to the joint within the past 6 weeks.; The patient does not have an abnormal plain film study of the joint.; The patient has not been treated with and failed a course of four weeks of supervised physical therapy.; The patient does not have a documented limitation of their range of motion.; The patient has not experienced pain for greater than six weeks.; The patient has been treated with anti-inflammatory medication in conjunction with this complaint.	2

Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	This is a request for an upper extremity joint MRI.; The patient does not have documented weakness or partial loss of feeling in the upper extremity.; There has been a history of significant trauma, dislocation or injury to the joint within the past 6 weeks.; The patient does not have an abnormal plain film study of the joint.; The patient has not been treated with and failed a course of four weeks of supervised physical therapy.; The patient has a documented limitation of their range of motion.	5
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	This is a request for an upper extremity joint MRI.; The patient does not have documented weakness or partial loss of feeling in the upper extremity.; There is no history of significant trauma, dislocation or injury to the joint within the past 6 weeks.; The patient does have an abnormal plain film study of the joint.; The patient has been treated with and failed a course of four weeks of supervised physical therapy.	2
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	This is a request for an upper extremity joint MRI.; The patient does not have documented weakness or partial loss of feeling in the upper extremity.; There is no history of significant trauma, dislocation or injury to the joint within the past 6 weeks.; The patient does have an abnormal plain film study of the joint.; The patient has not been treated with and failed a course of four weeks of supervised physical therapy.; The patient has a documented limitation of their range of motion.	3
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	This is a request for an upper extremity joint MRI.; The patient does not have documented weakness or partial loss of feeling in the upper extremity.; There is no history of significant trauma, dislocation or injury to the joint within the past 6 weeks.; The patient does not have an abnormal plain film study of the joint.; The patient has been treated with and failed a course of four weeks of supervised physical therapy.; The patient does not have a documented limitation of their range of motion.; The patient has experienced pain for greater than six weeks.	4

Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	This is a request for an upper extremity joint MRI.; The patient does not have documented weakness or partial loss of feeling in the upper extremity.; There is no history of significant trauma, dislocation or injury to the joint within the past 6 weeks.; The patient does not have an abnormal plain film study of the joint.; The patient has been treated with and failed a course of four weeks of supervised physical therapy.; The patient has a documented limitation of their range of motion.	1
-------------	----------	---	---	---

Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	This is a request for an upper extremity joint MRI.; The patient does not have documented weakness or partial loss of feeling in the upper extremity.; There is no history of significant trauma, dislocation or injury to the joint within the past 6 weeks.; The patient does not have an abnormal plain film study of the joint.; The patient has not been treated with and failed a course of four weeks of supervised physical therapy.; The patient does not have a documented limitation of their range of motion.; The patient has experienced pain for greater than six weeks.; The patient has been treated with anti-inflammatory medication in conjunction with this complaint.; This study is being ordered by the operating surgeon for pre-operative planning.	2
-------------	----------	---	---	---

Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	This is a request for an upper extremity joint MRI.; The patient does not have documented weakness or partial loss of feeling in the upper extremity.; There is no history of significant trauma, dislocation or injury to the joint within the past 6 weeks.; The patient does not have an abnormal plain film study of the joint.; The patient has not been treated with and failed a course of four weeks of supervised physical therapy.; The patient does not have a documented limitation of their range of motion.; The patient has experienced pain for greater than six weeks.; The patient has been treated with anti-inflammatory medication in conjunction with this complaint.; This study is not being ordered by an operating surgeon for pre-operative planning.	3
-------------	----------	---	--	---

Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	This is a request for an upper extremity joint MRI.; The patient does not have documented weakness or partial loss of feeling in the upper extremity.; There is no history of significant trauma, dislocation or injury to the joint within the past 6 weeks.; The patient does not have an abnormal plain film study of the joint.; The patient has not been treated with and failed a course of four weeks of supervised physical therapy.; The patient does not have a documented limitation of their range of motion.; The patient has not experienced pain for greater than six weeks.; The patient has not been treated with anti-inflammatory medication in conjunction with this complaint.; This study is not being ordered by an operating surgeon for pre-operative planning.	1
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	This is a request for an upper extremity joint MRI.; The patient does not have documented weakness or partial loss of feeling in the upper extremity.; There is no history of significant trauma, dislocation or injury to the joint within the past 6 weeks.; The patient does not have an abnormal plain film study of the joint.; The patient has not been treated with and failed a course of four weeks of supervised physical therapy.; The patient has a documented limitation of their range of motion.; The patient has experienced pain for greater than six weeks.; The patient has been treated with anti-inflammatory medication in conjunction with this complaint.; This study is not being ordered by an operating surgeon for pre-operative planning.	3
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	tingling, weakness.; The requested study is a Shoulder MRI.; The pain is described as chronic; The request is for shoulder pain.; The physician has not directed conservative treatment for the past 6 weeks.	1

Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Unable to do any conservative treatment.; This study is being ordered for trauma or injury.; 02/22/2018; There has not been any treatment or conservative therapy.; Evaluate for rupture and mass; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Orthopedics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	unknown; The requested study is a Shoulder MRI.; The pain is from a recent injury.; Surgery or arthroscopy is not scheduled in the next 4 weeks.; The request is for shoulder pain.; There is a suspicion of tendon, ligament, rotator cuff injury or labral tear.	1
Orthopedics	Approval	73700 Computed tomography, lower extremity; without contrast material	&lt; Enter answer here - or Type In Unknown If No Info Given. &gt;; This study is being ordered for Congenital Anomaly.; Birth; There has been treatment or conservative therapy.; Hip dysplasia; Physical Therapy, anti-inflammatory, uses walker; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	2

Orthopedics	Approval	73700 Computed tomography, lower extremity; without contrast material	<p>. Right BMC AP, lateral, oblique right foot x-rays with nondisplaced fifth metatarsal diaphyseal fracture and medial navicular fracture. AP, lateral, oblique right ankle x-rays with subtle medial malleolar fracture, possible medial talar A9585kpa3/, an; This study is being ordered for trauma or injury.; 01/02/2018; There has not been any treatment or conservative therapy.; Malikia Meadows is a 32-year-old who sustained MVA related right foot fracture 1/2/2018 and was seen in BMC ER where x-rays were obtained. She was hit head on another driver allegedly high on marijuana. She veered off the road to protect her 6-year-old pa; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology</p>	2
-------------	----------	---	--	---

Orthopedics	Approval	73700 Computed tomography, lower extremity; without contrast material	<p>; This study is being ordered for trauma or injury.; 2009; There has been treatment or conservative therapy.; This is a fifty-six-year-old female who was involved in a severe car accident in 1981, ultimately resulting in multiple procedures on both lower extremities. She had another injury in 2009, which ultimately resulted in large fracture blister on her left ; PT, NSAIDs; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology</p>	2
-------------	----------	---	---	---

Orthopedics	Approval	73700 Computed tomography, lower extremity; without contrast material	<p>; This study is being ordered for trauma or injury.; OCTOBER, 2015; There has been treatment or conservative therapy.; CONSTANT PAIN, STIFFNESS, DIFFICULTY WALKING; PHYSICAL THERAPY, STEROID INJECTIONS, ACL reconstruction as well as a poster lateral cor reconstruction. She later had a manipulation under anesthesia. In April 2017 she had a hardware removal for continued pain in the left knee.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology</p>	1
Orthopedics	Approval	73700 Computed tomography, lower extremity; without contrast material	<p>patient had surgery on left ankle in May,2017, he is still experiencing pain in both ankles.; This study is being ordered for trauma or injury.; May, 2017; There has been treatment or conservative therapy.; severity of pain increasing in both feet; surgery, casting/boot, modification of activity, physical therapy; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology</p>	2
Orthopedics	Approval	73700 Computed tomography, lower extremity; without contrast material	<p>pre op; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; &amp;lt; Enter date of initial onset here - or Type In Unknown If No Info Given &amp;gt;; It is not known if there has been any treatment or conservative therapy.; &amp;lt; Describe primary symptoms here - or Type In Unknown If No Info Given &amp;gt;; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology</p>	1

Orthopedics	Approval	73700 Computed tomography, lower extremity; without contrast material	PREOPERATIVE EVALUATION FOR CUTOM IMPLANTS FOR KNEE REPLACEMNT; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 01012017; There has been treatment or conservative therapy.; CHRONIC PAIN, CT FOR CUSTOM IMPLANTS FOR KNEE REPLACEMENT; PHYSICAL THERAPY, DICLOFENAC, MODIFIED ACTIVITY WITH NO CHANGE; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	2
Orthopedics	Approval	73700 Computed tomography, lower extremity; without contrast material	This is a preoperative or recent postoperative evaluation.; This is a request for a Knee CT; Yes this is a request for a Diagnostic CT	25
Orthopedics	Approval	73700 Computed tomography, lower extremity; without contrast material	This is a preoperative or recent postoperative evaluation.; This is a request for a Leg CT.; Yes this is a request for a Diagnostic CT	3
Orthopedics	Approval	73700 Computed tomography, lower extremity; without contrast material	This is a request for a foot CT.; "There is a history (within the past six weeks) of significant trauma, dislocation, or injury to the foot."; There is a suspected tarsal coalition.; There is a history of new onset of severe pain in the foot within the last two weeks.; The patient has a documented limitation of their range of motion.; Yes this is a request for a Diagnostic CT	6
Orthopedics	Approval	73700 Computed tomography, lower extremity; without contrast material	This is a request for a foot CT.; "There is a history (within the past six weeks) of significant trauma, dislocation, or injury to the foot."; There is not a suspected tarsal coalition.; There is a history of new onset of severe pain in the foot within the last two weeks.; Yes this is a request for a Diagnostic CT	6

Orthopedics	Approval	73700 Computed tomography, lower extremity; without contrast material	This is a request for a foot CT.; "There is not a history (within the past six weeks) of significant trauma, dislocation, or injury to the foot."; There is not a suspected tarsal coalition.; There is a history of new onset of severe pain in the foot within the last two weeks.; The patient has a documented limitation of their range of motion.; Yes this is a request for a Diagnostic CT	5
Orthopedics	Approval	73700 Computed tomography, lower extremity; without contrast material	This is a request for a foot CT.; "There is not a history (within the past six weeks) of significant trauma, dislocation, or injury to the foot."; There is not a suspected tarsal coalition.; There is a history of new onset of severe pain in the foot within the last two weeks.; The patient has an abnormal plain film study of the foot other than arthritis.; The patient does not have a documented limitation of their range of motion.; Yes this is a request for a Diagnostic CT	2
Orthopedics	Approval	73700 Computed tomography, lower extremity; without contrast material	This is a request for a foot CT.; The patient has not used a cane or crutches for greater than four weeks.; "There is not a history (within the past six weeks) of significant trauma, dislocation, or injury to the foot."; There is not a suspected tarsal coalition.; There is not a history of new onset of severe pain in the foot within the last two weeks.; The patient does not have an abnormal plain film study of the foot other than arthritis.; The patient has not been treated with and failed a course of supervised physical therapy.; The patient has not been treated with anti-inflammatory medications in conjunction with this complaint.; This is not for pre-operative planning.; The patient does not have a documented limitation of their range of motion.; Yes this is a request for a Diagnostic CT	1

Orthopedics	Approval	73700 Computed tomography, lower extremity; without contrast material	This is a request for a foot CT.; The patient has used a cane or crutches for greater than four weeks.; "There is not a history (within the past six weeks) of significant trauma, dislocation, or injury to the foot."; There is not a suspected tarsal coalition.; There is not a history of new onset of severe pain in the foot within the last two weeks.; The patient does not have an abnormal plain film study of the foot other than arthritis.; The patient has a documented limitation of their range of motion.; Yes this is a request for a Diagnostic CT	1
Orthopedics	Approval	73700 Computed tomography, lower extremity; without contrast material	This is a request for a hip CT.; This study is being ordered in conjunction with a pelvic CT.; There is not a suspected infection of the hip.; "There is a history (within the last six months) of significant trauma, dislocation, or injury to the hip."; There is not a suspicion of AVN.; The patient had an abnormal plain film study of the hip other than arthritis.; The patient has used a cane or crutches for greater than four weeks.; The patient has a documented limitation of their range of motion.; Yes this is a request for a Diagnostic CT	1
Orthopedics	Approval	73700 Computed tomography, lower extremity; without contrast material	This is a request for a hip CT.; This study is not being ordered in conjunction with a pelvic CT.; There is not a suspected infection of the hip.; "There is a history (within the last six months) of significant trauma, dislocation, or injury to the hip."; There is not a suspicion of AVN.; The patient has a documented limitation of their range of motion.; Yes this is a request for a Diagnostic CT	2

Orthopedics	Approval	73700 Computed tomography, lower extremity; without contrast material	This is a request for a hip CT.; This study is not being ordered in conjunction with a pelvic CT.; There is not a suspected infection of the hip.; "There is no a history (within the last six months) of significant trauma, dislocation, or injury to the hip."; There is not a suspicion of AVN.; The patient does not have an abnormal plain film study of the hip other than arthritis.; The patient has used a cane or crutches for greater than four weeks.; The patient has a documented limitation of their range of motion.; Yes this is a request for a Diagnostic CT	1
Orthopedics	Approval	73700 Computed tomography, lower extremity; without contrast material	This is a request for a hip CT.; This study is not being ordered in conjunction with a pelvic CT.; There is not a suspected infection of the hip.; "There is no a history (within the last six months) of significant trauma, dislocation, or injury to the hip."; There is not a suspicion of AVN.; The patient had an abnormal plain film study of the hip other than arthritis.; The patient has a documented limitation of their range of motion.; Yes this is a request for a Diagnostic CT	8
Orthopedics	Approval	73700 Computed tomography, lower extremity; without contrast material	This is a request for a hip CT.; This study is not being ordered in conjunction with a pelvic CT.; There is not a suspected infection of the hip.; The patient has been treated with and failed a course of supervised physical therapy.; There is not a mass adjacent to or near the hip.; "There is no a history (within the last six months) of significant trauma, dislocation, or injury to the hip."; There is a suspicion of AVN.; The patient had an abnormal plain film study of the hip other than arthritis.; The patient has not used a cane or crutches for greater than four weeks.; The patient has a documented limitation of their range of motion.; The patient has been treated with anti-inflammatory medication in conjunction with this complaint.; Yes this is a request for a Diagnostic CT	1
Orthopedics	Approval	73700 Computed tomography, lower extremity; without contrast material	This is a request for a Lower Extremity CT.; This is a preoperative or recent postoperative evaluation.; Yes this is a request for a Diagnostic CT	13

Orthopedics	Approval	73700 Computed tomography, lower extremity; without contrast material	This is a request for a Lower Extremity CT.; This is not a preoperative or recent postoperative evaluation.; There is no suspicion of a lower extremity neoplasm, tumor or metastasis.; There is no suspicion of lower extremity bone or joint infection.; There is a history of lower extremity joint or long bone trauma or injury.; Yes this is a request for a Diagnostic CT	1
Orthopedics	Approval	73700 Computed tomography, lower extremity; without contrast material	This is a request for a Lower Extremity CT.; This is not a preoperative or recent postoperative evaluation.; There is no suspicion of a lower extremity neoplasm, tumor or metastasis.; There is suspicion of lower extremity bone or joint infection.; Yes this is a request for a Diagnostic CT	1
Orthopedics	Approval	73700 Computed tomography, lower extremity; without contrast material	This is a request for a Lower Extremity CT.; This is not a preoperative or recent postoperative evaluation.; There is suspicion of a lower extremity neoplasm, tumor or metastasis.; Yes this is a request for a Diagnostic CT	1
Orthopedics	Approval	73700 Computed tomography, lower extremity; without contrast material	This is a request for an ankle CT.; "There is a history (within the past six weeks) of significant trauma, dislocation, or injury to the ankle."; There is a history of new onset of severe pain in the ankle within the last two weeks.; There is a suspected tarsal coalition.; The patient has a documented limitation of their range of motion.; Yes this is a request for a Diagnostic CT	2
Orthopedics	Approval	73700 Computed tomography, lower extremity; without contrast material	This is a request for an ankle CT.; "There is a history (within the past six weeks) of significant trauma, dislocation, or injury to the ankle."; There is a history of new onset of severe pain in the ankle within the last two weeks.; There is not a suspected tarsal coalition.; Yes this is a request for a Diagnostic CT	8

Orthopedics	Approval	73700 Computed tomography, lower extremity; without contrast material	This is a request for an ankle CT.; "There is not a history (within the past six weeks) of significant trauma, dislocation, or injury to the ankle."; There is a history of new onset of severe pain in the ankle within the last two weeks.; The patient had an abnormal plain film study of the ankle other than arthritis.; There is not a suspected tarsal coalition.; The patient does not have a documented limitation of their range of motion.; Yes this is a request for a Diagnostic CT	2
Orthopedics	Approval	73700 Computed tomography, lower extremity; without contrast material	This is a request for an ankle CT.; "There is not a history (within the past six weeks) of significant trauma, dislocation, or injury to the ankle."; There is a history of new onset of severe pain in the ankle within the last two weeks.; There is not a suspected tarsal coalition.; The patient has a documented limitation of their range of motion.; Yes this is a request for a Diagnostic CT	6
Orthopedics	Approval	73700 Computed tomography, lower extremity; without contrast material	This is a request for an ankle CT.; "There is not a history (within the past six weeks) of significant trauma, dislocation, or injury to the ankle."; There is not a history of new onset of severe pain in the ankle within the last two weeks.; The patient had an abnormal plain film study of the ankle other than arthritis.; There is not a suspected tarsal coalition.; The patient has a documented limitation of their range of motion.; Yes this is a request for a Diagnostic CT	1
Orthopedics	Approval	73700 Computed tomography, lower extremity; without contrast material	This is not a preoperative or recent postoperative evaluation.; There is no suspicion of a lower extremity neoplasm, tumor or metastasis.; There is no suspicion of lower extremity bone or joint infection.; There is a history of lower extremity joint or long bone trauma or injury.; This is a request for a Knee CT; Yes this is a request for a Diagnostic CT	1

Orthopedics	Approval	73700 Computed tomography, lower extremity; without contrast material	This is not a preoperative or recent postoperative evaluation.; There is no suspicion of a lower extremity neoplasm, tumor or metastasis.; There is no suspicion of lower extremity bone or joint infection.; There is a history of lower extremity joint or long bone trauma or injury.; This is a request for a Leg CT.; Yes this is a request for a Diagnostic CT	1
Orthopedics	Approval	73700 Computed tomography, lower extremity; without contrast material	This is not a preoperative or recent postoperative evaluation.; There is suspicion of a lower extremity neoplasm, tumor or metastasis.; This is a request for a Knee CT; Yes this is a request for a Diagnostic CT	1
Orthopedics	Approval	73706 Computed tomographic angiography, lower extremity, with contrast material(s), including noncontrast images, if performed, and image postprocessing	Yes, this is a request for CT Angiography of the lower extremity.	1
Orthopedics	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		11
Orthopedics	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	&lt; Enter answer here - or Type In Unknown If No Info Given. &gt;; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	2
Orthopedics	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	&lt; Enter answer here - or Type In Unknown If No Info Given. &gt;; This is a request for a foot MRI.; It is not known if surgery is planned for in the next 4 weeks.; The study is being oordered for infection.; There are physical exam findings, laboratory results, other imaging including bone scan or plain film confirming infection, inflammation and or aseptic necrosis.	1

Orthopedics	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	&lt; Enter answer here - or Type In Unknown If No Info Given. &gt;; This is a request for a foot MRI.; The study is being ordered for foot pain.; The patient has had foot pain for over 4 weeks.; The patient has been treated with anti-inflammatory medication for at least 6 weeks.	1
Orthopedics	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	&lt; Enter answer here - or Type In Unknown If No Info Given. &gt;; This is a request for a Knee MRI.; It is not known if patient had recent plain films of the knee.; It is not known if the ordering physician is an orthopedist.; There is no suspected meniscus,pre-op or post-op evaluation,non-acute Chronic Pain,suspected tumor or Aseptic Necrosis; There is no symptom of locking,Instability, Swelling,Redness,Limited range of motion or pain.	1
Orthopedics	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	&lt; Enter answer here - or Type In Unknown If No Info Given. &gt;; This is a request for a Knee MRI.; It is not known if patient had recent plain films of the knee.; The ordering physician is an orthopedist.; There is no suspected meniscus,pre-op or post-op evaluation,non-acute Chronic Pain,suspected tumor or Aseptic Necrosis; There is no symptom of locking,Instability, Swelling,Redness,Limited range of motion or pain.	1
Orthopedics	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	&lt; Enter answer here - or Type In Unknown If No Info Given. &gt;; This is a request for a Knee MRI.; The patient has not had recent plain films of the knee.; The ordering physician is an orthopedist.; Non-acute Chronic Pain; Pain greater than 3 days; No, patient has not completed and failed a course of conservative treatment.	1
Orthopedics	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	&lt; Enter answer here - or Type In Unknown If No Info Given. &gt;; This is a request for an Ankle MRI.; Surgery or arthroscopy is not scheduled in the next 4 weeks.; The study is requested for ankle pain.; There is a suspicion of tendon or ligament injury.	3

Orthopedics	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	<p>&amp;lt; Enter answer here - or Type In Unknown If No Info Given. &amp;gt;; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 3 years ago; There has been treatment or conservative therapy.; cervical spine: negative for drop arm test and speed test, restricted range of motion Knee: Pain to palpitation lack of reflex; PT, pain medication and anti-inflammatories; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology</p>	1
-------------	----------	---	---	---

Orthopedics	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	<p>&amp;lt; Enter answer here - or Type In Unknown If No Info Given. &amp;gt;; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; JUNE 10 2016; There has been treatment or conservative therapy.; PAIN; INFEDS , STEROID INJECTIONS , HOME EXERCISES; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology</p>	2
-------------	----------	---	---	---

Orthopedics	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	<p>&amp;lt; Enter answer here - or Type In Unknown If No Info Given. &amp;gt;; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; unknown; There has been treatment or conservative therapy.; pain. give way. instability; x-ray; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology</p>	2
Orthopedics	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	<p>&amp;lt; Enter answer here - or Type In Unknown If No Info Given. &amp;gt;; This study is being ordered for trauma or injury.; 10/26/2017; There has been treatment or conservative therapy.; pain, liming, not able to bare full weight,; therapy, pt had cast and boot,; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology</p>	1

Orthopedics	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	. This patient is seen today for their initial evaluation of left knee pain. Approximately 3 years ago this young lady was playing volleyball when she came down and twisted her left knee. She noted the posterior lateral joint pain at that time. After ; This study is being ordered for trauma or injury.; Unknown; It is not known if there has been any treatment or conservative therapy.; . This patient is seen today for their initial evaluation of left knee pain. Approximately 3 years ago this young lady was playing volleyball when she came down and twisted her left knee. She noted the posterior lateral joint pain at that time. After ; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Orthopedics	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	2
Orthopedics	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	; This is a request for a foot MRI.; The study is being ordered for foot pain.; The study is being ordered for acute pain.	1
Orthopedics	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	; This is a request for a Knee MRI.; No, the patient did not have a recent ultrasound of the knee.; The patient had recent plain films of the knee.; There are no physical findings (palpable mass) of a suspicious mass or known primary site of cancer.; The patient has not had a recent bone scan.; The plain films were normal.; Suspicious Mass or Suspected Tumor/ Metastasis	1

Orthopedics	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), and further sequences	; This is a request for an Ankle MRI.; It is not know if surgery or arthrscopy is scheduled in the next 4 weeks.; The study is requested for ankle pain.; There is a suspicion of tendon or ligament injury.	1
Orthopedics	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	; This is a request for an Ankle MRI.; Surgery or arthrscopy is not scheduled in the next 4 weeks.; The study is requested for ankle pain.; There is a suspicion of tendon or ligament injury.	1
Orthopedics	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	; This study is being ordered for a metastatic disease.; There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Orthopedics	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 10/25/2017; There has been treatment or conservative therapy.; Symptoms are aching and sharp pain. Symptoms worse with weight bearing and any activity.; knee injections, immobilization and bracing, home excercises, NSAIDS, Voltaren (diclofenac sodium) and analgesics; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	2

Orthopedics	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	; This study is being ordered for trauma or injury.; 10/2017; There has been treatment or conservative therapy.; He had pain and swelling in the knee. He feels pain at the joint line. He has occasional post activity swelling. His pain is mild to sometimes moderate in intensity.; anti-inflammatory medicines and ice; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	2
Orthopedics	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	; This study is being ordered for trauma or injury.; OCTOBER, 2015; There has been treatment or conservative therapy.; CONSTANT PAIN, STIFFNESS, DIFFICULTY WALKING; PHYSICAL THERAPY, STEROID INJECTIONS, ACL reconstruction as well as a poster lateral cor reconstruction. She later had a manipulation under anesthesia. In April 2017 she had a hardware removal for continued pain in the left knee.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Orthopedics	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	c/o deep medial pain with weightbearing for one month with no injury. pain at rest, swelling, popping; This is a request for a Knee MRI.; Suspected Aseptic Necrosis; Yes, the patient had recent plain films or bone scan of the knee.; No, the plain films/scans are not normal.	1

Orthopedics	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	Inspection of the right knee reveals a trace effusion. All patient was patellofemoral tenderness. Patient has full range of motion but a painful arc of extension. The knee is stable to anterior-posterior varus mild distress. Apley's compression test is eq; This study is being ordered for a metastatic disease.; There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	2
Orthopedics	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	left knee pain burning for 3 months. nothing makes it better.; This is a request for a Knee MRI.; The patient had recent plain films of the knee.; The results of the plain films is not known.; The ordering physician is an orthopedist.; Non-acute Chronic Pain; Pain greater than 3 days; It is not known if patient has completed and failed a course of conservative treatment.	1
Orthopedics	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	It ankle pain , painful ROM, pain at insertion point of Achilles tendon; This is a request for an Ankle MRI.; It is not know if surgery or arthrscopy is scheduled in the next 4 weeks.; The study is requested for ankle pain.; There is a suspicion of tendon or ligament injury.	1

Orthopedics	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	Motor vehicle accident, exam more consistent with reflex sympathetic dystrophy; inability to bear weight since the time of the accident; This study is being ordered for trauma or injury.; 11/18/2017; There has been treatment or conservative therapy.; bruising on the plantar surface of the foot following the accident with persistent purple discoloration, tenderness, bruising, inability to bear weight since; immobilized in a boot walker; takes gabapentin; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	2
Orthopedics	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	non displaced calcaneus fracture; This study is being ordered for trauma or injury.; 01/12/2018; There has been treatment or conservative therapy.; left ankle and foot pain; non weight bearing several x-rays doesn't show healing; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Orthopedics	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	None; This is a request for a foot MRI.; The study is being ordered for foot pain.; The study is being ordered for acute pain.	1

Orthopedics	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	Patient has had this pain for several years despite our conservative and surgical attempts to help him.; This study is being ordered for trauma or injury.; Patient has been having severe bilateral knee pain since at least 06/20/2015.; There has been treatment or conservative therapy.; Patient has burning, aching, throbbing, and stabbing pain in both knees. The patient's range of motion is significantly low.; Patient has had anti-inflammatory medications, pain medications, multiple injections, physical therapy, and surgery. Patient is still continuing to have issues with both of his knees.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	2
Orthopedics	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	Patient is a 55-year-old white male who fell from a deer stand over 12 feet about three months ago. He sustained a right tibial plateau fracture that was treated closed. He also had a lumbar fracture at that time. He is being followed by the neurosurgeon.; This is a request for a Knee MRI.; The patient had recent plain films of the knee.; The results of the plain films is not known.; The ordering physician is an orthopedist.; Non-acute Chronic Pain; Pain greater than 3 days; No, patient has not completed and failed a course of conservative treatment.	1
Orthopedics	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	Patient is in pain and has been for some time.; This is a request for a Knee MRI.; The patient had recent plain films of the knee.; The results of the plain films is not known.; It is not known if the study is ordered prior to arthroscopic surgery.; It is not known if the study is for pre-operative planning.; The ordering physician is an orthopedist.; Pre-operative Evaluation; Pain greater than 3 days; It is not known if patient has completed and failed a course of conservative treatment.	1

Orthopedics	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	Patient is in pain. He states pain is 9/10 on pain scale.; This is a request for a Knee MRI.; The patient had recent plain films of the knee.; The results of the plain films is not known.; The ordering physician is an orthopedist.; Non-acute Chronic Pain; Pain greater than 3 days; It is not known if patient has completed and failed a course of conservative treatment.	1
Orthopedics	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	Patient was in a motorcycle accident last month, landed on his right knee.; This is a request for a Knee MRI.; The patient had recent plain films of the knee.; The results of the plain films is not known.; The ordering physician is an orthopedist.; Non-acute Chronic Pain; Pain greater than 3 days; No, patient has not completed and failed a course of conservative treatment.	1
Orthopedics	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	pre op; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; &lt; Enter date of initial onset here - or Type In Unknown If No Info Given &gt;; It is not known if there has been any treatment or conservative therapy.; &lt; Describe primary symptoms here - or Type In Unknown If No Info Given &gt;; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Orthopedics	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	Pt. has pain, swelling, walking on side of foot, interfering w/work, DROM, malleolus found, tarsal tunnel w/tingling into the plantar foot.; This is a request for an Ankle MRI.; Surgery or arthroscopy is not scheduled in the next 4 weeks.; The study is requested for ankle pain.; There is a suspicion of tendon or ligament injury.	1

Orthopedics	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	r/o bone abcess; This is a request for a Knee MRI.; No, the patient did not have a recent ultrasound of the knee.; The patient has not had a recent bone scan.; The results of the plain films is not known.; It is not known if there are documented findings of joint infection.; Known or Suspected Joint Infection	1
Orthopedics	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	S/P toe amputation for Osteo with non healing surgical wound&#x0D; Dx: Status post amputation of great toe, left; This is a request for a foot MRI.; Surgery or other intervention is not planned for in the next 4 weeks.; The study is being oordered for infection.; There are physical exam findings, laboratory results, other imaging including bone scan or plain film confirming infection, inflammation and or aseptic necrosis.	1
Orthopedics	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	SHE HAS KNEE PAIN, AND POPPING AND NOW SWELLING; This is a request for a Knee MRI.; The study is requested for knee pain.; The pain is from a recent injury.; There is a suspicion of a meniscus, tendon, or ligament injury.; Surgery or arthrscopy is not scheduled in the next 4 weeks.	1
Orthopedics	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	Significant lumbar spondylosis and I suspect she may have some stenosis changes at L5-S1. Furthermore I think she probably has a medial meniscus tear of the right knee.; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; ; It is not known if there has been any treatment or conservative therapy.; ; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

Orthopedics	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	significant Valgus deformity. Tenderness at Lateral joint line. painful ROM. Lateral pseudo laxity. Sevier orthio arthritis with bone on bone articulation.; This is a request for a Knee MRI.; The study is not requested for knee pain.; Surgery or arthrscopy is not scheduled in the next 4 weeks.; The member has surgery planned.	1
Orthopedics	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	Sprain occurred 4/2017, has had PT and NSAIDs with continued pain.; This is a request for an Ankle MRI.; It is not know if surgery or arthrscopy is scheduled in the next 4 weeks.; The study is requested for ankle pain.; There is a suspicion of tendon or ligament injury.	1
Orthopedics	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	thats all i have; This study is being ordered for Congenital Anomaly.; She has had pain since her 2009 surgery. history of polyosteoarthritis She had multiple surgeries at Childrens Hospital in both knees and legs because of growth plate related issues.; There has been treatment or conservative therapy.; aching; sharp; constant; worsening swelling; catching/locking; popping/clicking&#x0D; Varus deformity She had multiple surgeries at Childrens Hospital in both knees and legs because of growth plate related issues. Her pain is located medially and has locking a; shes done therapy and home exercises, rest ices nsaid; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology This is a 51 year old female who comes in for a chief complaint of follow up foot phalanx fracture, involving the left foot. This occurs in the context of hitting her toe on something. and has been treated with boot walker. She has had no imaging studies.; This is a request for a foot MRI.; The study is being ordered for known fracture.; The study is being ordered for routine follow up.	2
Orthopedics	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		1

Orthopedics	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	This is a 58-year-old Caucasian female who comes in today for follow-up. She has seropositive rheumatoid arthritis and we've been escalating her dosage of methotrexate. We discontinued sulfasalazine after some intolerability issues. At her last visit, she; This is a request for a Knee MRI; It is not known if patient had recent plain films of the knee.; The ordering physician is an orthopedist.; Non-acute Chronic Pain; Pain greater than 3 days	1
Orthopedics	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	This is a request for a foot MRI.; "There is a history (within the past six weeks) of significant trauma, dislocation, or injury to the foot."; There is a suspected tarsal coalition.	2
Orthopedics	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	This is a request for a foot MRI.; "There is a history (within the past six weeks) of significant trauma, dislocation, or injury to the foot."; There is not a suspected tarsal coalition.; There is a history of new onset of severe pain in the foot within the last two weeks.	33
Orthopedics	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	This is a request for a foot MRI.; "There is a history (within the past six weeks) of significant trauma, dislocation, or injury to the foot."; There is not a suspected tarsal coalition.; There is not a history of new onset of severe pain in the foot within the last two weeks.; The patient has a documented limitation of their range of motion.	1
Orthopedics	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	This is a request for a foot MRI.; "There is not a history (within the past six weeks) of significant trauma, dislocation, or injury to the foot."; There is a suspected tarsal coalition.; There is a history of new onset of severe pain in the foot within the last two weeks.	2

Orthopedics	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	This is a request for a foot MRI.; "There is not a history (within the past six weeks) of significant trauma, dislocation, or injury to the foot."; There is not a suspected tarsal coalition.; There is a history of new onset of severe pain in the foot within the last two weeks.; The patient does not have an abnormal plain film study of the foot other than arthritis.; The patient has not used a cane or crutches for greater than four weeks.; The patient has not been treated with and failed a course of supervised physical therapy.; The patient has been treated with anti-inflammatory medications in conjunction with this complaint.; The patient does not have a documented limitation of their range of motion.	3
-------------	----------	---	--	---

Orthopedics	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	This is a request for a foot MRI.; "There is not a history (within the past six weeks) of significant trauma, dislocation, or injury to the foot."; There is not a suspected tarsal coalition.; There is a history of new onset of severe pain in the foot within the last two weeks.; The patient does not have an abnormal plain film study of the foot other than arthritis.; The patient has not used a cane or crutches for greater than four weeks.; The patient has not been treated with and failed a course of supervised physical therapy.; The patient has not been treated with anti-inflammatory medications in conjunction with this complaint.; This is for pre-operative planning.; The patient does not have a documented limitation of their range of motion.	1
-------------	----------	---	---	---

Orthopedics	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	This is a request for a foot MRI.; "There is not a history (within the past six weeks) of significant trauma, dislocation, or injury to the foot."; There is not a suspected tarsal coalition.; There is a history of new onset of severe pain in the foot within the last two weeks.; The patient does not have an abnormal plain film study of the foot other than arthritis.; The patient has not used a cane or crutches for greater than four weeks.; The patient has not been treated with and failed a course of supervised physical therapy.; The patient has not been treated with anti-inflammatory medications in conjunction with this complaint.; This is not for pre-operative planning.; The patient does not have a documented limitation of their range of motion.	1
Orthopedics	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	This is a request for a foot MRI.; "There is not a history (within the past six weeks) of significant trauma, dislocation, or injury to the foot."; There is not a suspected tarsal coalition.; There is a history of new onset of severe pain in the foot within the last two weeks.; The patient has a documented limitation of their range of motion.	13
Orthopedics	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	This is a request for a foot MRI.; "There is not a history (within the past six weeks) of significant trauma, dislocation, or injury to the foot."; There is not a suspected tarsal coalition.; There is a history of new onset of severe pain in the foot within the last two weeks.; The patient has an abnormal plain film study of the foot other than arthritis.; The patient does not have a documented limitation of their range of motion.	2

Orthopedics	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	This is a request for a foot MRI.; "There is not a history (within the past six weeks) of significant trauma, dislocation, or injury to the foot."; There is not a suspected tarsal coalition.; There is not a history of new onset of severe pain in the foot within the last two weeks.; The patient does not have an abnormal plain film study of the foot other than arthritis.; The patient has not used a cane or crutches for greater than four weeks.; The patient has been treated with and failed a course of supervised physical therapy.; The patient has been treated with anti-inflammatory medications in conjunction with this complaint.; The patient does not have a documented limitation of their range of motion.	1

Orthopedics	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	This is a request for a foot MRI.; "There is not a history (within the past six weeks) of significant trauma, dislocation, or injury to the foot."; There is not a suspected tarsal coalition.; There is not a history of new onset of severe pain in the foot within the last two weeks.; The patient does not have an abnormal plain film study of the foot other than arthritis.; The patient has not used a cane or crutches for greater than four weeks.; The patient has not been treated with and failed a course of supervised physical therapy.; The patient has been treated with anti-inflammatory medications in conjunction with this complaint.; This is not for pre-operative planning.; The patient does not have a documented limitation of their range of motion.	1
-------------	----------	---	---	---

Orthopedics	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	This is a request for a foot MRI.; "There is not a history (within the past six weeks) of significant trauma, dislocation, or injury to the foot."; There is not a suspected tarsal coalition.; There is not a history of new onset of severe pain in the foot within the last two weeks.; The patient does not have an abnormal plain film study of the foot other than arthritis.; The patient has not used a cane or crutches for greater than four weeks.; The patient has not been treated with and failed a course of supervised physical therapy.; The patient has not been treated with anti-inflammatory medications in conjunction with this complaint.; This is for pre-operative planning.; The patient does not have a documented limitation of their range of motion.	1
Orthopedics	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	This is a request for a foot MRI.; "There is not a history (within the past six weeks) of significant trauma, dislocation, or injury to the foot."; There is not a suspected tarsal coalition.; There is not a history of new onset of severe pain in the foot within the last two weeks.; The patient does not have an abnormal plain film study of the foot other than arthritis.; The patient has used a cane or crutches for greater than four weeks.; The patient has a documented limitation of their range of motion.	1
Orthopedics	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	This is a request for a foot MRI.; "There is not a history (within the past six weeks) of significant trauma, dislocation, or injury to the foot."; There is not a suspected tarsal coalition.; There is not a history of new onset of severe pain in the foot within the last two weeks.; The patient has an abnormal plain film study of the foot other than arthritis.; The patient has not used a cane or crutches for greater than four weeks.; The patient has not been treated with and failed a course of supervised physical therapy.; The patient has not been treated with anti-inflammatory medications in conjunction with this complaint.; This is for pre-operative planning.; The patient does not have a documented limitation of their range of motion.	1

Orthopedics	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), and further sequences	This is a request for a foot MRI.; The study is being ordered for known fracture.; The study is being ordered to evaluate a possible non union fracture.	1
Orthopedics	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	This is a request for a foot MRI.; The study is being ordered for foot pain.; The study is being ordered for chronic pain.; The patient has had foot pain for over 4 weeks.; The patient has been treated with a protective boot for at least 6 weeks.	1
Orthopedics	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	This is a request for a foot MRI.; The study is being ordered for foot pain.; The study is being ordered for chronic pain.; The patient has had foot pain for over 4 weeks.; The patient has been treated with crutches for at least 6 weeks.	2
Orthopedics	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	This is a request for a foot MRI.; There has been a recurrence of symptoms following surgery.; The surgery was less than 6 months ago.; The study is being ordered for a post op.	1
Orthopedics	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	This is a request for a Knee MRI.; It is not known if the study is ordered prior to arthroscopic surgery.; "This study is being ordered prior to a planned or scheduled open surgery (joint replacement, etc.)."; The ordering physician is an orthopedist.; Pre-operative Evaluation; Swelling greater than 3 days	1
Orthopedics	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	This is a request for a Knee MRI.; No, the patient did not have a recent ultrasound of the knee.; The patient had recent plain films of the knee.; There are physical findings (palpable mass) of a suspicious mass or known primary site of cancer.; The patient has not had a recent bone scan.; The plain films were normal.; ; Suspicious Mass or Suspected Tumor/ Metastasis	1

Orthopedics	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	This is a request for a Knee MRI.; No, the patient did not have a recent ultrasound of the knee.; The patient had recent plain films of the knee.; There are physical findings (palpable mass) of a suspicious mass or known primary site of cancer.; The patient has not had a recent bone scan.; The plain films were normal.; Mass found on previous imaging.; Suspicious Mass or Suspected Tumor/ Metastasis	1
Orthopedics	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	This is a request for a Knee MRI.; The ordering physician is an oncologist or orthopedist.; This study is being ordered for follow-up.; The patient is undergoing active treatment for cancer.; Known Tumor	2
Orthopedics	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	This is a request for a Knee MRI.; The ordering physician is an orthopedist.; Non-acute Chronic Pain; Instability	23
Orthopedics	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	This is a request for a Knee MRI.; The ordering physician is an orthopedist.; Non-acute Chronic Pain; Limited range of motion	2
Orthopedics	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	This is a request for a Knee MRI.; The ordering physician is an orthopedist.; Non-acute Chronic Pain; Locking	11

Orthopedics	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), without contrast material(s) and further sequences	This is a request for a Knee MRI.; The ordering physician is an orthopedist.; Non-acute Chronic Pain; Swelling greater than 3 days	12
Orthopedics	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	This is a request for a Knee MRI.; The ordering physician is an orthopedist.; Post-operative Evaluation	12
Orthopedics	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	This is a request for a Knee MRI.; The ordering physician is an orthopedist.; Suspected meniscus, tendon, or ligament injury	724
Orthopedics	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	This is a request for a Knee MRI.; The ordering physician is an orthopedist.; There is no suspected meniscus, pre-op or post-op evaluation, non-acute Chronic Pain, suspected tumor or Aseptic Necrosis; Swelling greater than 3 days	1
Orthopedics	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	This is a request for a Knee MRI.; The patient had recent plain films of the knee.; The plain films were normal.; It is not known if the study is ordered prior to arthroscopic surgery.; It is not known if the study is for pre-operative planning.; The ordering physician is an orthopedist.; Pre-operative Evaluation; Pain greater than 3 days	12
Orthopedics	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	This is a request for a Knee MRI.; The patient had recent plain films of the knee.; The plain films were normal.; The ordering physician is an orthopedist.; Non-acute Chronic Pain; Pain greater than 3 days	21

Orthopedics	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	This is a request for a Knee MRI.; The patient had recent plain films of the knee.; The plain films were normal.; The ordering physician is an orthopedist.; There is no suspected meniscus,pre-op or post-op evaluation,non-acute Chronic Pain,suspected tumor or Aseptic Necrosis; Pain greater than 3 days	3
Orthopedics	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	This is a request for a Knee MRI.; The patient had recent plain films of the knee.; The plain films were normal.; This study is being ordered prior to arthroscopic surgery.; The ordering physician is an orthopedist.; Pre-operative Evaluation; Pain greater than 3 days	1
Orthopedics	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	This is a request for a Knee MRI.; The patient had recent plain films of the knee.; The plain films were not normal.; his is a 15 year old female who comes in for a chief complaint of knee pain, involving the left knee. The knee pain is located all over the knee (diffuse). This occurred in the context of a gradual and insidious onset and Cheer Injury; in October 2017. T; Suspicious Mass or Suspected Tumor/ Metastasis	1
Orthopedics	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	This is a request for a Knee MRI.; The patient had recent plain films of the knee.; The plain films were not normal.; It is not known if the study is ordered prior to arthroscopic surgery.; It is not known if the study is for pre-operative planning.; The ordering physician is an orthopedist.; Pre-operative Evaluation; Pain greater than 3 days	8
Orthopedics	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	This is a request for a Knee MRI.; The patient had recent plain films of the knee.; The plain films were not normal.; The ordering physician is an orthopedist.; Non-acute Chronic Pain; Pain greater than 3 days	16

Orthopedics	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	This is a request for a Knee MRI.; The patient had recent plain films of the knee.; The plain films were not normal.; This study is being ordered prior to arthroscopic surgery.; The ordering physician is an orthopedist.; Pre-operative Evaluation; Pain greater than 3 days	6
Orthopedics	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	This is a request for a Knee MRI.; The patient had recent plain films of the knee.; The plain films were not normal.; This study is not being ordered prior to arthroscopic surgery.; "This study is being ordered prior to a planned or scheduled open surgery (joint replacement, etc.)."; The ordering physician is an orthopedist.; Pre-operative Evaluation; Pain greater than 3 days	6
Orthopedics	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	This is a request for a Knee MRI.; The patient had recent plain films of the knee.; The plain films were not normal.; WEIGHT BEARING AP AND LATERAL LEFT KNEE X-RAYS PERFORMED ON 01/11/2018 REVEAL AN IRREGULARITY/BONE LESION OF THE MEDIAL TIBIAL PLATEAU. ORDERING AN MRI OF THE LEFT KNEE WITHOUT AND WITH CONTRAST TO FURTHER EVALUATE THE BONE LESION.; Suspicious Mass or Suspected Tumor/ Metastasis	1
Orthopedics	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	This is a request for a Knee MRI.; The patient has not had recent plain films of the knee.; The ordering physician is an orthopedist.; Non-acute Chronic Pain; Pain greater than 3 days; Yes, patient has completed and failed a course of conservative treatment.; Physician directed course of non-steroidal anti-inflammatory medications	1
Orthopedics	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	This is a request for a Knee MRI.; The study is requested for knee pain.; The pain is described as chronic; The member has failed a 4 week course of conservative management in the past 3 months.	5

Orthopedics	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	This is a request for a Knee MRI.; The study is requested for knee pain.; The pain is from a recent injury.; There is a suspicion of a meniscus, tendon, or ligament injury.; Surgery or arthrscopy is scheduled in the next 4 weeks.	1
Orthopedics	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	This is a request for a Knee MRI.; This is a request for a Knee MRI.; The patient had recent plain films of the knee.; The plain films were not normal.; This study is not being ordered prior to arthroscopic surgery.; "This study is being ordered prior to a planned or scheduled open surgery (joint replacement, etc.)."; The ordering physician is an orthopedist.; The ordering physician is an orthopedist.; Pre-operative Evaluation; Non-acute Chronic Pain; Locking; There is no symptom of locking,Instability, Swelling,Redness,Limited range of motion or pain.	1
Orthopedics	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	This is a request for a Knee MRI.; This study is being ordered prior to arthroscopic surgery.; The ordering physician is an orthopedist.; Pre-operative Evaluation; Instability	8
Orthopedics	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	This is a request for a Knee MRI.; This study is being ordered prior to arthroscopic surgery.; The ordering physician is an orthopedist.; Pre-operative Evaluation; Limited range of motion	4
Orthopedics	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	This is a request for a Knee MRI.; This study is being ordered prior to arthroscopic surgery.; The ordering physician is an orthopedist.; Pre-operative Evaluation; Locking	1

Orthopedics	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	This is a request for a Knee MRI.; This study is being ordered prior to arthroscopic surgery.; The ordering physician is an orthopedist.; Pre-operative Evaluation; Swelling greater than 3 days	1
Orthopedics	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	This is a request for a Knee MRI.; This study is not being ordered prior to arthroscopic surgery.; "This study is being ordered prior to a planned or scheduled open surgery (joint replacement, etc.)."; The ordering physician is an orthopedist.; Pre-operative Evaluation; Limited range of motion	3
Orthopedics	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	This is a request for a lower extremity MRI.; There is a pulsatile mass.; "There is evidence of tumor or mass from a previous exam, plain film, ultrasound, or previous CT or MRI."; There is a suspicion of an infection.	2
Orthopedics	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	This is a request for a lower extremity MRI.; There is a pulsatile mass.; "There is evidence of tumor or mass from a previous exam, plain film, ultrasound, or previous CT or MRI."; There is not a suspicion of an infection.; The patient is not taking antibiotics.; This is not a study for a fracture which does not show healing (non-union fracture).; This is a pre-operative study for planned surgery.	1
Orthopedics	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	This is a request for a lower extremity MRI.; There is a pulsatile mass.; "There is evidence of tumor or mass from a previous exam, plain film, ultrasound, or previous CT or MRI."; There is not a suspicion of an infection.; The patient is not taking antibiotics.; This is not a study for a fracture which does not show healing (non-union fracture).; This is not a pre-operative study for planned surgery.	1

Orthopedics	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	This is a request for a lower extremity MRI.; There is a pulsatile mass.; "There is no evidence of tumor or mass from a previous exam, plain film, ultrasound, or previous CT or MRI."; There is a suspicion of an infection.; The patient is taking antibiotics.; This is not a study for a fracture which does not show healing (non-union fracture).; This is a pre-operative study for planned surgery.	1
Orthopedics	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	This is a request for a lower extremity MRI.; This is not a pulsatile mass.; "There is evidence of tumor or mass from a previous exam, plain film, ultrasound, or previous CT or MRI."	5
Orthopedics	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	This is a request for a lower extremity MRI.; This is not a pulsatile mass.; "There is no evidence of tumor or mass from a previous exam, plain film, ultrasound, or previous CT or MRI."; There is a suspicion of an infection.; The patient is not taking antibiotics.; This is not a study for a fracture which does not show healing (non-union fracture).; This is a pre-operative study for planned surgery.	2
Orthopedics	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	This is a request for a lower extremity MRI.; This is not a pulsatile mass.; "There is no evidence of tumor or mass from a previous exam, plain film, ultrasound, or previous CT or MRI."; There is a suspicion of an infection.; The patient is taking antibiotics.	3
Orthopedics	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	This is a request for a lower extremity MRI.; This is not a pulsatile mass.; "There is no evidence of tumor or mass from a previous exam, plain film, ultrasound, or previous CT or MRI."; There is not a suspicion of an infection.; The patient is not taking antibiotics.; This is a study for a fracture which does not show healing (non-union fracture).; This is a pre-operative study for planned surgery.	1

Orthopedics	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	This is a request for a lower extremity MRI.; This is not a pulsatile mass.; "There is no evidence of tumor or mass from a previous exam, plain film, ultrasound, or previous CT or MRI."; There is not a suspicion of an infection.; The patient is not taking antibiotics.; This is not a study for a fracture which does not show healing (non-union fracture).; This is a pre-operative study for planned surgery.	6
Orthopedics	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	This is a request for a lower extremity MRI.; This is not a pulsatile mass.; "There is no evidence of tumor or mass from a previous exam, plain film, ultrasound, or previous CT or MRI."; There is not a suspicion of an infection.; The patient is not taking antibiotics.; This is not a study for a fracture which does not show healing (non-union fracture).; This is not a pre-operative study for planned surgery.	8
Orthopedics	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	This is a request for an Ankle MRI.; "There is a history (within the past six weeks) of significant trauma, dislocation, or injury to the ankle."; There is a history of new onset of severe pain in the ankle within the last two weeks.; There is not a suspected tarsal coalition.	44
Orthopedics	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	This is a request for an Ankle MRI.; "There is a history (within the past six weeks) of significant trauma, dislocation, or injury to the ankle."; There is a suspected tarsal coalition.	4

Orthopedics	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	This is a request for an Ankle MRI.; "There is a history (within the past six weeks) of significant trauma, dislocation, or injury to the ankle."; There is not a history of new onset of severe pain in the ankle within the last two weeks.; The patient does not have an abnormal plain film study of the ankle other than arthritis.; The patient has not used a cane or crutches for greater than four weeks.; There is not a suspected tarsal coalition.; The patient has not been treated with and failed a course of supervised physical therapy.; The patient has been treated with anti-inflammatory medications in conjunction with this complaint.; The patient does not have a documented limitation of their range of motion.	2
Orthopedics	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	This is a request for an Ankle MRI.; "There is a history (within the past six weeks) of significant trauma, dislocation, or injury to the ankle."; There is not a history of new onset of severe pain in the ankle within the last two weeks.; The patient does not have an abnormal plain film study of the ankle other than arthritis.; The patient has not used a cane or crutches for greater than four weeks.; There is not a suspected tarsal coalition.; The patient has not been treated with and failed a course of supervised physical therapy.; The patient has not been treated with anti-inflammatory medications in conjunction with this complaint.; The patient does not have a documented limitation of their range of motion.; This study is not being ordered by an operating surgeon for pre-operative planning.	1
Orthopedics	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	This is a request for an Ankle MRI.; "There is a history (within the past six weeks) of significant trauma, dislocation, or injury to the ankle."; There is not a history of new onset of severe pain in the ankle within the last two weeks.; The patient had an abnormal plain film study of the ankle other than arthritis.; There is not a suspected tarsal coalition.; The patient does not have a documented limitation of their range of motion.	1

Orthopedics	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	This is a request for an Ankle MRI.; "There is a history (within the past six weeks) of significant trauma, dislocation, or injury to the ankle."; There is not a history of new onset of severe pain in the ankle within the last two weeks.; There is not a suspected tarsal coalition.; The patient has a documented limitation of their range of motion.	2
Orthopedics	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	This is a request for an Ankle MRI.; "There is not a history (within the past six weeks) of significant trauma, dislocation, or injury to the ankle."; There is a history of new onset of severe pain in the ankle within the last two weeks.; The patient does not have an abnormal plain film study of the ankle other than arthritis.; The patient has not used a cane or crutches for greater than four weeks.; There is not a suspected tarsal coalition.; The patient has been treated with and failed a course of supervised physical therapy.; The patient does not have a documented limitation of their range of motion.	1
Orthopedics	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	This is a request for an Ankle MRI.; "There is not a history (within the past six weeks) of significant trauma, dislocation, or injury to the ankle."; There is a history of new onset of severe pain in the ankle within the last two weeks.; The patient does not have an abnormal plain film study of the ankle other than arthritis.; The patient has not used a cane or crutches for greater than four weeks.; There is not a suspected tarsal coalition.; The patient has not been treated with and failed a course of supervised physical therapy.; The patient has been treated with anti-inflammatory medications in conjunction with this complaint.; The patient does not have a documented limitation of their range of motion.	5

Orthopedics	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	This is a request for an Ankle MRI.; "There is not a history (within the past six weeks) of significant trauma, dislocation, or injury to the ankle."; There is a history of new onset of severe pain in the ankle within the last two weeks.; The patient does not have an abnormal plain film study of the ankle other than arthritis.; The patient has not used a cane or crutches for greater than four weeks.; There is not a suspected tarsal coalition.; The patient has not been treated with and failed a course of supervised physical therapy.; The patient has not been treated with anti-inflammatory medications in conjunction with this complaint.; The patient does not have a documented limitation of their range of motion.; This study is being ordered by the operating surgeon for pre-operative planning.	1
Orthopedics	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	This is a request for an Ankle MRI.; "There is not a history (within the past six weeks) of significant trauma, dislocation, or injury to the ankle."; There is a history of new onset of severe pain in the ankle within the last two weeks.; The patient had an abnormal plain film study of the ankle other than arthritis.; There is not a suspected tarsal coalition.; The patient does not have a documented limitation of their range of motion.	12
Orthopedics	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	This is a request for an Ankle MRI.; "There is not a history (within the past six weeks) of significant trauma, dislocation, or injury to the ankle."; There is a history of new onset of severe pain in the ankle within the last two weeks.; There is a suspected tarsal coalition.	2
Orthopedics	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	This is a request for an Ankle MRI.; "There is not a history (within the past six weeks) of significant trauma, dislocation, or injury to the ankle."; There is a history of new onset of severe pain in the ankle within the last two weeks.; There is not a suspected tarsal coalition.; The patient has a documented limitation of their range of motion.	20

Orthopedics	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	This is a request for an Ankle MRI.; "There is not a history (within the past six weeks) of significant trauma, dislocation, or injury to the ankle."; There is not a history of new onset of severe pain in the ankle within the last two weeks.; The patient does not have an abnormal plain film study of the ankle other than arthritis.; The patient has not used a cane or crutches for greater than four weeks.; There is not a suspected tarsal coalition.; The patient has been treated with and failed a course of supervised physical therapy.; The patient has a documented limitation of their range of motion.	2

Orthopedics	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	This is a request for an Ankle MRI.; "There is not a history (within the past six weeks) of significant trauma, dislocation, or injury to the ankle."; There is not a history of new onset of severe pain in the ankle within the last two weeks.; The patient does not have an abnormal plain film study of the ankle other than arthritis.; The patient has not used a cane or crutches for greater than four weeks.; There is not a suspected tarsal coalition.; The patient has not been treated with and failed a course of supervised physical therapy.; The patient has not been treated with anti-inflammatory medications in conjunction with this complaint.; The patient does not have a documented limitation of their range of motion.; This study is not being ordered by an operating surgeon for pre-operative planning.	1
Orthopedics	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	This is a request for an Ankle MRI.; "There is not a history (within the past six weeks) of significant trauma, dislocation, or injury to the ankle."; There is not a history of new onset of severe pain in the ankle within the last two weeks.; The patient had an abnormal plain film study of the ankle other than arthritis.; There is not a suspected tarsal coalition.; The patient has a documented limitation of their range of motion.	1
Orthopedics	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	This is a request for an Ankle MRI.; Surgery or arthroscopy is scheduled in the next 4 weeks.; The study is requested for ankle pain.; There is a suspicion of tendon or ligament injury.	4
Orthopedics	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	This is a request for an Ankle MRI.; The pain is described as chronic; The member has failed a 4 week course of conservative management in the past 3 months.; The member has a recent injury.; The study is requested for a reason other than ankle pain.	1

Orthopedics	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	This is a request for an Ankle MRI.; The study is for a mass, tumor or cancer.; The diagnosis of Mass, Tumor, or Cancer has not been established.; The patient has had recent plain films, bone scan or ultrasound of the knee.; The imaging studies were abnormal.; The study is requested for a reason other than ankle pain.	1
Orthopedics	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	This is a request for an Ankle MRI.; There is a suspicion of fracture not adequately determined by x-ray.; The study is requested for ankle pain.; It is not known if there is a suspicion of tendon or ligament injury.	1
Orthopedics	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	This is a request for an Ankle MRI.; There is a suspicion of fracture not adequately determined by x-ray.; The study is requested for ankle pain.; Tendon or ligament injury is not suspected.	2
Orthopedics	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	Unknown; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 1/08/2018; There has been treatment or conservative therapy.; Sharp, dull, burning pain, rated 9/10, pain constant, medial aspect of bilateral knees, worse with weight bearing, kneeling or bending, positive McMurray's test, x rays mild joint space narrowing, suspecting meniscus tear, brace for better stability; Ice/heat, anti inflammatory and pain injection; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	2

Orthopedics	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	Unknown; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; Unknown; It is not known if there has been any treatment or conservative therapy.; Knee pain; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	2
Orthopedics	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	UNKNOWN; This study is being ordered for trauma or injury.; 2ND WEEK IN FEB; There has been treatment or conservative therapy.; TROUBLE WITH PROLONGED WALKING OR STANDING, LEFT KNEE IS CATCHING AND CANNOT BEND IT, BILATERAL SWELLING; DOSE PACK, STERIOD INJECTIONS, MEDICATIONS, POSITIVE MCMURRAYS TEST OF BILATERAL KNEES, XRAYS; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	2
Orthopedics	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	Will fax clinical information.; This is a request for a Knee MRI.; It is not known if patient had recent plain films of the knee.; It is not known if the ordering physician is an orthopedist.; There is no suspected meniscus,pre-op or post-op evaluation,non-acute Chronic Pain,suspected tumor or Aseptic Necrosis; There is no symptom of locking,Instability, Swelling,Redness,Limited range of motion or pain.	1
Orthopedics	Approval	73721 Magnetic resonance (eg, proton) imaging, any joint of lower extremity; without contrast material	&lt; Enter answer here - or Type In Unknown If No Info Given. &gt;; This is a requests for a hip MRI.; The member has not failed a 4 week course of conservative management in the past 3 months.; The hip pain is chronic.; The request is for hip pain.	1

Orthopedics	Approval	73721 Magnetic resonance (eg, proton) imaging, any joint of lower extremity; without contrast material	&lt; Enter answer here - or Type In Unknown If No Info Given. &gt;; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; unknown; There has been treatment or conservative therapy.; mbr has pain and stiffness in hip and hand popping in right 3rd finger; medication; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Orthopedics	Approval	73721 Magnetic resonance (eg, proton) imaging, any joint of lower extremity; without contrast material	; This is a requests for a hip MRI.; The hip pain is not due to a recent injury, old injury, Chronic Hip Pain or a Mass.; The request is for hip pain.	1

Orthopedics	Approval	73721 Magnetic resonance (eg, proton) imaging, any joint of lower extremity; without contrast material	<p>Kristen R Pack, RN &amp;#x0D; Registered Nurse &amp;#x0D; &amp;#x0D; &amp;#x0D; Hide copied text&amp;#x0D; Hover for attribution information&amp;#x0D; Called patient with MRI results and Dr. Cassat's recommendation to see Interventional Pain. Patient states that she has already been to see them and they ar; This study is being ordered for trauma or injury.; 04/29/2015&amp;#x0D; Musculoskeletal: Positive for arthralgias and back pain. &amp;#x0D; Skin: Negative. &amp;#x0D; Neurological: Positive for weakness and numbness.; There has been treatment or conservative therapy.; Positive for arthralgias and back pain&amp;#x0D; Neurological: Positive for weakness and numbness. &amp;#x0D; Positive for gait problem and joint swelling. &amp;#x0D; Right hip: She exhibits decreased range of motion.&amp;#x0D; Left hip: She exhibits decreased range of motion and tendernes; Pain clinic&amp;#x0D; &amp;#x0D; steroid injections &amp;#x0D; &amp;#x0D; Physical Therapy &amp;#x0D; &amp;#x0D; meloxicam&amp;#x0D; &amp;#x0D; gabapentin; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology</p>	2
Orthopedics	Approval	73721 Magnetic resonance (eg, proton) imaging, any joint of lower extremity; without contrast material	<p>locking and weakness; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; ; There has not been any treatment or conservative therapy.; pain; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology</p>	1

Orthopedics	Approval	73721 Magnetic resonance (eg, proton) imaging, any joint of lower extremity; without contrast material	MVA 4/11/17 SHOULDER AND HIP STILL HURTING. TRIED OBSERVATION, REST, HOME EXERCISE NSAIDS, TYLENOL, NAPROXEN. NOT GETTING BETTER, BEEN 9 MONTHS SINCE MVA.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Orthopedics	Approval	73721 Magnetic resonance (eg, proton) imaging, any joint of lower extremity; without contrast material	POST SURGERY PATIENT STILL EXPERIENCING CHRONIC HIP PAIN, TESTED INFECTION; This is a requests for a hip MRI.; It is not known if the member has failed a 4 week course of conservative management in the past 3 months.; The hip pain is chronic.; The request is for hip pain. Pre op eval; This is a requests for a hip MRI.; Surgery or arthroscopy is not scheduled in the next 4 weeks.; There is not a suspicion of fracture not adequately determined by x-ray.; Tendon or ligament injury is not suspected.; The hip pain is due to a recent injury.; The request is for hip pain.	1
Orthopedics	Approval	73721 Magnetic resonance (eg, proton) imaging, any joint of lower extremity; without contrast material	Probable left L5-S1 foraminal collapse due to scoliosis with left L5 radiculopathy. Possible insertional hamstring strain.; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 10/1/1917; There has been treatment or conservative therapy.; Left buttock and thigh pain; Physical Therapy; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

Orthopedics	Approval	73721 Magnetic resonance (eg, proton) imaging, any joint of lower extremity; without contrast material	Pt is a 20 years old Female with RIGHT hip pain. Pt reports she had a right hip labral repair in 2014 and was doing very well with it until she was in a MVA. She states she has had an increase in pain and numbness in the lateral hip after the accident. Pt; This study is being ordered for trauma or injury.; Pt is a 20 years old Female with RIGHT hip pain. Pt reports she had a right hip labral repair in 2014 and was doing very well with it until she was in a MVA. She states she has had an increase in pain and numbness in the lateral hip after the accident. Pt; There has been treatment or conservative therapy.; She states she has had an increase in pain and numbness in the lateral hip after the accident. The pain is described as stabbing, achy pain that is constant and 8 out of 10 in severity. The pain is worse with sitting and walking and better with lying do; Physical Therapy; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Orthopedics	Approval	73721 Magnetic resonance (eg, proton) imaging, any joint of lower extremity; without contrast material	This is a requests for a hip MRI.; The member has failed a 4 week course of conservative management in the past 3 months.; The hip pain is chronic.; The request is for hip pain.	11
Orthopedics	Approval	73721 Magnetic resonance (eg, proton) imaging, any joint of lower extremity; without contrast material	This is a requests for a hip MRI.; There is a suspicion of fracture not adequately determined by x-ray.; Tendon or ligament injuryis not suspected.; The hip pain is due to a recent injury.; The request is for hip pain.	1

Orthopedics	Approval	73721 Magnetic resonance (eg, proton) imaging, any joint of lower extremity; without contrast material	This is a requests for a hip MRI.; This study is being ordered in conjunction with a pelvic MRI.; "There is a history (within the last six months) of significant trauma, dislocation, or injury to the hip."; There is not a suspicion of AVN.; The patient is not receiving long-term steriod therapy (Prednisone or Cortisone).; The patient does not have an abnormal plain film study of the hip other than arthritis.; The patient has used a cane or crutches for greater than four weeks.; The patient has been treated with and failed a course of supervised physical therapy.; The patient has a documented limitation of their range of motion.	1
Orthopedics	Approval	73721 Magnetic resonance (eg, proton) imaging, any joint of lower extremity; without contrast material	This is a requests for a hip MRI.; This study is being ordered in conjunction with a pelvic MRI.; "There is a history (within the last six months) of significant trauma, dislocation, or injury to the hip."; There is not a suspicion of AVN.; The patient is not receiving long-term steriod therapy (Prednisone or Cortisone).; The patient had an abnormal plain film study of the hip other than arthritis.; The patient has not used a cane or crutches for greater than four weeks.; The patient has been treated with and failed a course of supervised physical therapy.; The patient has a documented limitation of their range of motion.	1
Orthopedics	Approval	73721 Magnetic resonance (eg, proton) imaging, any joint of lower extremity; without contrast material	This is a requests for a hip MRI.; This study is being ordered in conjunction with a pelvic MRI.; "There is no a history (within the last six months) of significant trauma, dislocation, or injury to the hip."; There is not a suspicion of AVN.; The patient is not receiving long-term steriod therapy (Prednisone or Cortisone).; The patient does not have an abnormal plain film study of the hip other than arthritis.; The patient has not used a cane or crutches for greater than four weeks.; The patient has been treated with and failed a course of supervised physical therapy.; There is not a mass near the hip.; The patient has been treated with anti-inflammatory medications in conjunction with this complaint.; This is for pre-operative planning.; The patient does not have a documented limitation of their range of motion.	1

Orthopedics	Approval	73721 Magnetic resonance (eg, proton) imaging, any joint of lower extremity; without contrast material	<p>This is a requests for a hip MRI.; This study is being ordered in conjunction with a pelvic MRI.; "There is no a history (within the last six months) of significant trauma, dislocation, or injury to the hip."; There is not a suspicion of AVN.; The patient is not receiving long-term steriod therapy (Prednisone or Cortisone).; The patient does not have an abnormal plain film study of the hip other than arthritis.; The patient has not used a cane or crutches for greater than four weeks.; The patient has not been treated with and failed a course of supervised physical therapy.; There is not a mass near the hip.; The patient has not been treated with anti-inflammatory medications in conjunction with this complaint.; This is not for pre-operative planning.; The patient has a documented limitation of their range of motion.</p>	1
Orthopedics	Approval	73721 Magnetic resonance (eg, proton) imaging, any joint of lower extremity; without contrast material	<p>This is a requests for a hip MRI.; This study is not being ordered in conjunction with a pelvic MRI.; "There is a history (within the last six months) of significant trauma, dislocation, or injury to the hip."; There is a suspicion of AVN.</p>	5
Orthopedics	Approval	73721 Magnetic resonance (eg, proton) imaging, any joint of lower extremity; without contrast material	<p>This is a requests for a hip MRI.; This study is not being ordered in conjunction with a pelvic MRI.; "There is a history (within the last six months) of significant trauma, dislocation, or injury to the hip."; There is not a suspicion of AVN.; The patient is not receiving long-term steriod therapy (Prednisone or Cortisone).; The patient does not have an abnormal plain film study of the hip other than arthritis.; The patient has not used a cane or crutches for greater than four weeks.; The patient has been treated with and failed a course of supervised physical therapy.; The patient does not have a documented limitation of their range of motion.</p>	2

Orthopedics	Approval	73721 Magnetic resonance (eg, proton) imaging, any joint of lower extremity; without contrast material	This is a requests for a hip MRI.; This study is not being ordered in conjunction with a pelvic MRI.; "There is a history (within the last six months) of significant trauma, dislocation, or injury to the hip."; There is not a suspicion of AVN.; The patient is not receiving long-term steroid therapy (Prednisone or Cortisone).; The patient does not have an abnormal plain film study of the hip other than arthritis.; The patient has not used a cane or crutches for greater than four weeks.; The patient has not been treated with and failed a course of supervised physical therapy.; There is not a mass near the hip.; The patient has not been treated with anti-inflammatory medications in conjunction with this complaint.; This is not for pre-operative planning.; The patient does not have a documented limitation of their range of motion.	1
Orthopedics	Approval	73721 Magnetic resonance (eg, proton) imaging, any joint of lower extremity; without contrast material	This is a requests for a hip MRI.; This study is not being ordered in conjunction with a pelvic MRI.; "There is a history (within the last six months) of significant trauma, dislocation, or injury to the hip."; There is not a suspicion of AVN.; The patient is not receiving long-term steroid therapy (Prednisone or Cortisone).; The patient had an abnormal plain film study of the hip other than arthritis.; The patient does not have a documented limitation of their range of motion.	1
Orthopedics	Approval	73721 Magnetic resonance (eg, proton) imaging, any joint of lower extremity; without contrast material	This is a requests for a hip MRI.; This study is not being ordered in conjunction with a pelvic MRI.; "There is a history (within the last six months) of significant trauma, dislocation, or injury to the hip."; There is not a suspicion of AVN.; The patient is not receiving long-term steroid therapy (Prednisone or Cortisone).; The patient has a documented limitation of their range of motion.	21
Orthopedics	Approval	73721 Magnetic resonance (eg, proton) imaging, any joint of lower extremity; without contrast material	This is a requests for a hip MRI.; This study is not being ordered in conjunction with a pelvic MRI.; "There is a history (within the last six months) of significant trauma, dislocation, or injury to the hip."; There is not a suspicion of AVN.; The patient is receiving long-term steroid therapy (Prednisone or Cortisone).	2

Orthopedics	Approval	73721 Magnetic resonance (eg, proton) imaging, any joint of lower extremity; without contrast material	This is a requests for a hip MRI.; This study is not being ordered in conjunction with a pelvic MRI.; "There is no a history (within the last six months) of significant trauma, dislocation, or injury to the hip."; There is a suspicion of AVN.; The patient is not receiving long-term steriod therapy (Prednisone or Cortisone).; The patient has a documented limitation of their range of motion.	6
Orthopedics	Approval	73721 Magnetic resonance (eg, proton) imaging, any joint of lower extremity; without contrast material	This is a requests for a hip MRI.; This study is not being ordered in conjunction with a pelvic MRI.; "There is no a history (within the last six months) of significant trauma, dislocation, or injury to the hip."; There is a suspicion of AVN.; The patient is receiving long-term steriod therapy (Prednisone or Cortisone).	1
Orthopedics	Approval	73721 Magnetic resonance (eg, proton) imaging, any joint of lower extremity; without contrast material	This is a requests for a hip MRI.; This study is not being ordered in conjunction with a pelvic MRI.; "There is no a history (within the last six months) of significant trauma, dislocation, or injury to the hip."; There is not a suspicion of AVN.; The patient is not receiving long-term steriod therapy (Prednisone or Cortisone).; The patient does not have an abnormal plain film study of the hip other than arthritis.; The patient has not used a cane or crutches for greater than four weeks.; The patient has been treated with and failed a course of supervised physical therapy.; The patient has a documented limitation of their range of motion.	9
Orthopedics	Approval	73721 Magnetic resonance (eg, proton) imaging, any joint of lower extremity; without contrast material	This is a requests for a hip MRI.; This study is not being ordered in conjunction with a pelvic MRI.; "There is no a history (within the last six months) of significant trauma, dislocation, or injury to the hip."; There is not a suspicion of AVN.; The patient is not receiving long-term steriod therapy (Prednisone or Cortisone).; The patient does not have an abnormal plain film study of the hip other than arthritis.; The patient has not used a cane or crutches for greater than four weeks.; The patient has not been treated with and failed a course of supervised physical therapy.; There is a mass near the hip.; The patient has a documented limitation of their range of motion.	1

Orthopedics	Approval	73721 Magnetic resonance (eg, proton) imaging, any joint of lower extremity; without contrast material	<p>This is a requests for a hip MRI.; This study is not being ordered in conjunction with a pelvic MRI.; "There is no a history (within the last six months) of significant trauma, dislocation, or injury to the hip."; There is not a suspicion of AVN.; The patient is not receiving long-term steriod therapy (Prednisone or Cortisone).; The patient does not have an abnormal plain film study of the hip other than arthritis.; The patient has not used a cane or crutches for greater than four weeks.; The patient has not been treated with and failed a course of supervised physical therapy.; There is not a mass near the hip.; The patient has been treated with anti-inflammatory medications in conjunction with this complaint.; This is for pre-operative planning.; The patient does not have a documented limitation of their range of motion.</p>	1

-------------	----------	--	--	---

Orthopedics	Approval	73721 Magnetic resonance (eg, proton) imaging, any joint of lower extremity; without contrast material	This is a requests for a hip MRI.; This study is not being ordered in conjunction with a pelvic MRI.; "There is no a history (within the last six months) of significant trauma, dislocation, or injury to the hip."; There is not a suspicion of AVN.; The patient is not receiving long-term steriod therapy (Prednisone or Cortisone).; The patient does not have an abnormal plain film study of the hip other than arthritis.; The patient has used a cane or crutches for greater than four weeks.; The patient has a documented limitation of their range of motion.	4
Orthopedics	Approval	73721 Magnetic resonance (eg, proton) imaging, any joint of lower extremity; without contrast material	This is a requests for a hip MRI.; This study is not being ordered in conjunction with a pelvic MRI.; "There is no a history (within the last six months) of significant trauma, dislocation, or injury to the hip."; There is not a suspicion of AVN.; The patient is not receiving long-term steriod therapy (Prednisone or Cortisone).; The patient had an abnormal plain film study of the hip other than arthritis.; The patient has a documented limitation of their range of motion.	13
Orthopedics	Approval	73721 Magnetic resonance (eg, proton) imaging, any joint of lower extremity; without contrast material	This is a requests for a hip MRI.; This study is not being ordered in conjunction with a pelvic MRI.; "There is no a history (within the last six months) of significant trauma, dislocation, or injury to the hip."; There is not a suspicion of AVN.; The patient is not receiving long-term steriod therapy (Prednisone or Cortisone).; The patient had an abnormal plain film study of the hip other than arthritis.; The patient has not used a cane or crutches for greater than four weeks.; The patient has been treated with and failed a course of supervised physical therapy.; The patient does not have a documented limitation of their range of motion.	2

Orthopedics	Approval	73721 Magnetic resonance (eg, proton) imaging, any joint of lower extremity; without contrast material	This is a requests for a hip MRI.; This study is not being ordered in conjunction with a pelvic MRI.; "There is no a history (within the last six months) of significant trauma, dislocation, or injury to the hip."; There is not a suspicion of AVN.; The patient is receiving long-term steriod therapy (Prednisone or Cortisone).; The patient had an abnormal plain film study of the hip other than arthritis.; The patient does not have a documented limitation of their range of motion.	1
Orthopedics	Approval	73721 Magnetic resonance (eg, proton) imaging, any joint of lower extremity; without contrast material	This is a requests for a hip MRI.; This study is not being ordered in conjunction with a pelvic MRI.; "There is no a history (within the last six months) of significant trauma, dislocation, or injury to the hip."; There is not a suspicion of AVN.; The patient is receiving long-term steriod therapy (Prednisone or Cortisone).; The patient has a documented limitation of their range of motion.	4
Orthopedics	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	This is a request for an abdomen-pelvis CT combination.; A urinalysis has not been completed.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; The patient did not have a amylase or lipase lab test.; Yes this is a request for a Diagnostic CT	1
Orthopedics	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	This is a request for an abdomen-pelvis CT combination.; The reason for the study is suspicious mass or suspected tumor or metastasis.; The patient is presenting new symptoms.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; The patient had an abnormal abdominal Ultrasound, CT or MR study.; The patient has NOT completed a course of chemotherapy or radiation therapy within the past 90 days.; Yes this is a request for a Diagnostic CT	1

Orthopedics	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		Unknown; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; Unknown; It is not known if there has been any treatment or conservative therapy.; Unknown; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology Chest pain describes the reason for this request.; This study is being requested for 'none of the above'.; This is a request for a Chest CT.; This study is being requested	1
Orthopedics	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	for none of the above.; Yes this is a request for a Diagnostic CT 'None of the above' describes the reason for this request.; Initial staging prior to treatment is related to this request for imaging of a known cancer or tumor; This is a request for a Chest CT.; This study is being requested	1
Orthopedics	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	for known cancer or tumor; Yes this is a request for a Diagnostic CT 1. Right upper extremity radiculopathy with normal MRI of the cervical spine; 2. Right shoulder internal derangement; This study is NOT being ordered for a Work-up for Suspicious Mass, Known Tumor, Known or Suspected Inflammatory Disease, etc...; This is a request for a chest MRI.	2
Orthopedics	Disapproval	71550 Magnetic resonance (eg, proton) imaging, chest (eg, for evaluation of hilar and mediastinal lymphadenopathy); without contrast material(s)	Radiology Services Denied Not Medically Necessary		1
Orthopedics	Disapproval	71550 Magnetic resonance (eg, proton) imaging, chest (eg, for evaluation of hilar and mediastinal lymphadenopathy); without contrast material(s)	Radiology Services Denied Not Medically Necessary	intercostal tear or occult rib fracture; This study is NOT being ordered for a Work-up for Suspicious Mass, Known Tumor, Known or Suspected Inflammatory Disease, etc...; This is a request for a chest MRI.	1

Orthopedics	Disapproval	72125 Computed tomography, cervical spine; without contrast material	Radiology Services Denied Not Medically Necessary	; This study is being ordered for a neurological disorder.; Several year history; There has been treatment or conservative therapy.; ; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDS specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Orthopedics	Disapproval	72125 Computed tomography, cervical spine; without contrast material	Radiology Services Denied Not Medically Necessary	; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 6/6/2016; There has been treatment or conservative therapy.; severe, persistent pain in the bilateral neck, bilateral shoulder, right arm, bilateral lumbar area, Pain is radiating to the right ankle, right arm, bilateral back, right calf and foot, bilateral gluteal area. symptoms include decreased mobility, disequ; Cervical esi w/ reaction. Lumbar injections. Tramadol, Remeron, gabapentin, Roxicodone, prednisone; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Orthopedics	Disapproval	72125 Computed tomography, cervical spine; without contrast material	Radiology Services Denied Not Medically Necessary	; This study is not to be part of a Myelogram.; This is a request for a Cervical Spine CT; There is no reason why the patient cannot have a Cervical Spine MRI.	1
Orthopedics	Disapproval	72125 Computed tomography, cervical spine; without contrast material	Radiology Services Denied Not Medically Necessary	1. C4-5 and C5-6 degenerative disc disease with C4-5 spondylolisthesis resulting in bilateral arm pain worse in the left; 2. Degenerative scoliosis, coronally and sagittally balanced with left-sided low back and buttock pain; This study is not to be part of a Myelogram.; This is a request for a Cervical Spine CT; There is no reason why the patient cannot have a Cervical Spine MRI.	1

Orthopedics	Disapproval	72125 Computed tomography, cervical spine; without contrast material	Radiology Services Denied Not Medically Necessary	It is not known if the patient has any neurological deficits.; This study is not to be part of a Myelogram.; This is a request for a Cervical Spine CT; This study is being ordered due to chronic neck pain or suspected degenerative disease.; There has been a supervised trial of conservative management for at least 6 weeks.; The patient is experiencing sensory abnormalities such as numbness or tingling.; There is a reason why the patient cannot have a Cervical Spine MRI. Patient has had an MRI and the surgeon believes that the patient needs a CT scan as well.; This study is not to be part of a Myelogram.; This is a request for a Cervical Spine CT; There is no reason why the patient cannot have a Cervical Spine MRI.	3
Orthopedics	Disapproval	72125 Computed tomography, cervical spine; without contrast material	Radiology Services Denied Not Medically Necessary	The orthopedic surgeon ordering the exam believes the patient might possibly have an aortic aneurysm. We need to get a CT scan of his cervical spine as soon as possible.; It is not known if the patient has any neurological deficits.; This study is not to be part of a Myelogram.; This is a request for a Cervical Spine CT; This study is being ordered due to trauma or acute injury within 72 hours.; There is a reason why the patient cannot have a Cervical Spine MRI.	1
Orthopedics	Disapproval	72125 Computed tomography, cervical spine; without contrast material	Radiology Services Denied Not Medically Necessary	This study is to be part of a Myelogram.; This is a request for a Cervical Spine CT	1
Orthopedics	Disapproval	72128 Computed tomography, thoracic spine; without contrast material	Radiology Services Denied Not Medically Necessary	; This study is being ordered for a neurological disorder.; Several year history; There has been treatment or conservative therapy.; ; ; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

Orthopedics	Disapproval	72128 Computed tomography, thoracic spine; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for a thoracic spine CT.; "The patient has been seen by, or the ordering physician is, a neuro-specialist, orthopedist, or oncologist.;" The study is being ordered due to follow-up to surgery or fracture within the last 6 months.; There is a reason why the patient cannot undergo a thoracic spine MRI.; Yes this is a request for a Diagnostic CT	1
Orthopedics	Disapproval	72128 Computed tomography, thoracic spine; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for a thoracic spine CT.; The caller indicated the the study was not ordered for: Chronic Back pain, Trauma, Known or suspected tumor with or without metastasis, Follow up to or Pre-operative evaluation, or Neurological deficits.;" There is a reason why the patient cannot undergo a thoracic spine MRI.; There are no documented clinical findings of immune system suppression or AIDS.; The patient is not experiencing thoracic back pain associated with chest pain.; Yes this is a request for a Diagnostic CT	1
Orthopedics	Disapproval	72131 Computed tomography, lumbar spine; without contrast material	Radiology Services Denied Not Medically Necessary	&lt; Enter answer here - or Type In Unknown If No Info Given. &gt;; This study is being ordered for trauma or injury.; 10/24/2017; There has been treatment or conservative therapy.; radiating pain, numbness and tingling in legs;; injections and medications; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

Orthopedics	Disapproval	72131 Computed tomography, lumbar spine; without contrast material	Radiology Services Denied Not Medically Necessary	; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 6/6/2016; There has been treatment or conservative therapy.; severe, persistent pain in the bilateral neck, bilateral shoulder, right arm, bilateral lumbar area, Pain is radiating to the right ankle, right arm, bilateral back, right calf and foot, bilateral gluteal area. symptoms include decreased mobility, disequ; Cervical esi w/ reaction. Lumbar injections. Tramadol, Remeron, gabapentin, Roxicodone, prednisone; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Orthopedics	Disapproval	72131 Computed tomography, lumbar spine; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for a lumbar spine CT.; The patient does not have a history of severe low back trauma or lumbar injury.; This is not a preoperative or recent postoperative evaluation.; This study is not part of a myelogram or discogram.; The patient is experiencing symptoms of radiculopathy for six weeks or more.; Yes this is a request for a Diagnostic CT	4
Orthopedics	Disapproval	72131 Computed tomography, lumbar spine; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for a lumbar spine CT.; The patient has a history of severe low back trauma or lumbar injury.; Yes this is a request for a Diagnostic CT	5
Orthopedics	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	&lt; Enter answer here - or Type In Unknown If No Info Given. &gt;; This is a request for cervical spine MRI; Acute or Chronic neck and/or back pain; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; Document exam findings; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; There is not x-ray evidence of a recent cervical spine fracture.	1

Orthopedics	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	&lt; Enter answer here - or Type In Unknown If No Info Given. &gt;; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 1/19/2018; There has been treatment or conservative therapy.; The pt has dull ache in right shoulder, numbness & tingling, non improvement w/conservative care with 3months since his injury.; NSAIDs, home exercise program,; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Orthopedics	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	&lt; Enter answer here - or Type In Unknown If No Info Given. &gt;; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 3 years ago; There has been treatment or conservative therapy.; cervical spine: negative for drop arm test and speed test, restricted range of motion Knee: Pain to palpitation lack of reflex; PT, pain medication and anti-inflammatories; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Orthopedics	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	2

Orthopedics	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	; This is a request for cervical spine MRI; Acute or Chronic neck and/or back pain; The patient does have new or changing neurologic signs or symptoms.; There is no weakness or reflex abnormality.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; There is not x-ray evidence of a recent cervical spine fracture.	3
Orthopedics	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	; This is a request for cervical spine MRI; Acute or Chronic neck and/or back pain; The patient does have new or changing neurologic signs or symptoms.; There is reflex abnormality.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; There is not x-ray evidence of a recent cervical spine fracture.; Cervical spine tenderness with Spurling's maneuver to the left and right. No focal neurologic deficits. Motion is full. Shoulder motion is full. Tenderness with palpitation over the C7 region posteriorly	1
Orthopedics	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	; This is a request for cervical spine MRI; Acute or Chronic neck and/or back pain; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; neck pain for over a year and has failed nsoids, steroids, HEP; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; There is not x-ray evidence of a recent cervical spine fracture.	1
Orthopedics	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	; This is a request for cervical spine MRI; Acute or Chronic neck and/or back pain; The patient does not have new or changing neurologic signs or symptoms.; The patient has had back pain for over 4 weeks.; The patient has seen the doctor more then once for these symptoms.; The physician has directed conservative treatment for the past 6 weeks.; The patient has not completed 6 weeks of physical therapy?; The patient has been treated with medication.; The patient was treated with oral analgesics.; The patient has not completed 6 weeks or more of Chiropractic care.; The physician has not directed a home exercise program for at least 6 weeks.	1

Orthopedics	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	; This is a request for cervical spine MRI; Acute or Chronic neck and/or back pain; The patient does not have new or changing neurologic signs or symptoms.; The patient has NOT had back pain for over 4 weeks.	1
Orthopedics	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	; This is a request for cervical spine MRI; Neurological deficits; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; Cervical spine positive Spurling maneuver to the left. No focal neurologic deficits. Negative Tinel's. Thenar strength returned. On the left wrist He has tenderness over the ulnar styloid and also in the anatomic snuffbox. Left shoulder motion is mar; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; There is not x-ray evidence of a recent cervical spine fracture.	1
Orthopedics	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	; This is a request for cervical spine MRI; Neurological deficits; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; He does have some paresthesias that run down onto the dorsum of the hand.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; There is not x-ray evidence of a recent cervical spine fracture.	1
Orthopedics	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	; This is a request for cervical spine MRI; Neurological deficits; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; Her pain presents on the left side of her chest, anterior aspect of her left shoulder, and left axilla, radiating down the anterior aspect of her arm into her second finger. She also reports numbness in her second finger. Her pain is constant and describe; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; There is not x-ray evidence of a recent cervical spine fracture.	1

Orthopedics	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	<p>; This is a request for cervical spine MRI; Trauma or recent injury; The patient does not have new or changing neurologic signs or symptoms.; The patient has had back pain for over 4 weeks.; The patient has seen the doctor more then once for these symptoms.; The physician has directed conservative treatment for the past 6 weeks.; The patient has not completed 6 weeks of physical therapy?; The patient has been treated with medication.; The patient was treated with oral analgesics.; The patient has not completed 6 weeks or more of Chiropractic care.; The physician has not directed a home exercise program for at least 6 weeks.</p>	1
Orthopedics	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	<p>; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; ; It is not known if there has been any treatment or conservative therapy.; ; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology</p>	1
Orthopedics	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	<p>; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; ; There has been treatment or conservative therapy.; ; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology</p>	1

Orthopedics	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; March 9, 2012.; There has been treatment or conservative therapy.; Ms. Liston is a 51-year-old left-hand-dominant woman seen for neck pain and migraines, as well as left arm symptoms. She also is having low back pain.&#x0D;&#x0D; She has had surgery in both areas. She had anterior cervical fusion at C5-6 on March 9, 2012. He h; TRAMADOL; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

Orthopedics	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	Chronic cervical pain with history of DDD; This is a request for cervical spine MRI; Acute or Chronic neck and/or back pain; It is not known if the patient does have new or changing neurologic signs or symptoms.; The patient has had back pain for over 4 weeks.; The patient has seen the doctor more then once for these symptoms.; The physician has directed conservative treatment for the past 6 weeks.; It is not known if the patient has completed 6 weeks of physical therapy?; The patient has been treated with medication.; other medications as listed.; It is not known if the patient has completed 6 weeks or more of Chiropractic care.; It is not known if the physician has directed a home exercise program for at least 6 weeks.; Ibuprofen	1
-------------	-------------	---	---	---	---

Orthopedics	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	<p>CONTINUE NECK PAIN AND WEAKNESS IN ARMS; This is a request for cervical spine MRI; Acute or Chronic neck and/or back pain; The patient does not have new or changing neurologic signs or symptoms.; The patient has had back pain for over 4 weeks.; The patient has seen the doctor more then once for these symptoms.; The physician has directed conservative treatment for the past 6 weeks.; The patient has not completed 6 weeks of physical therapy?; The patient has been treated with medication.; other medications as listed.; The patient has not completed 6 weeks or more of Chiropractic care.; The physician has directed a home exercise program for at least 6 weeks.; The home treatment did include exercise, prescription medication and follow-up office visits.; IT WAS FOR 8 WEEKS; MOTRIN ADVIL AND MOBIC AND NEUROTIN</p>	1
-------------	-------------	---	---	---	---

Orthopedics	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	<p>HISTORY OF PRESENT ILLNESS: 3/28/18 Mrs. Ramirez returns concerning her right shoulder and neck. She reports slight, transient improvement while taking the oral steroids but denies resolution of her pain or persistent improvement of her pain. She is taki; This is a request for cervical spine MRI; Acute or Chronic neck and/or back pain; The patient does have new or changing neurologic signs or symptoms.; There is reflex abnormality.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; There is not x-ray evidence of a recent cervical spine fracture.; Full range of motion; right periscapular pain is reproduced with full cervical extension and right lateral rotation. Left lateral rotation elicits left-sided neck pain</p>	1
-------------	-------------	---	---	---	---

Orthopedics	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	It is not known if the patient has failed a course of anti-inflammatory medication or steroids.; This is a request for cervical spine MRI; It is not known if there has been a supervised trial of conservative management for at least six weeks.; Acute or Chronic neck and/or back pain; It is not known if the patient demonstrate neurological deficits.; No, this patient did not have a recent course of supervised physical Therapy.; No, the patient did not have six weeks of Chiropractic care related to this episode.; Patient is having numbness into the hand thumb index and middle finger.The foraminal stenosis causing C5 problems radiating down the arm.	1
Orthopedics	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	Ms. Robertson is in today complaining of some pain and discomfort in her deep left shoulder, left-sided neck muscles. Both have been going on for a number of months. She has progressively worse. She has been having a difficult time to sleep on this sid; This is a request for cervical spine MRI; Acute or Chronic neck and/or back pain; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; Ms. Robertson is in today complaining of some pain and discomfort in her deep left shoulder, left-sided neck muscles. Both have been going on for a number of months. She has progressively worse. She has been having a difficult time to sleep on this sid; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; There is not x-ray evidence of a recent cervical spine fracture.	1
Orthopedics	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	na; This is a request for cervical spine MRI; Acute or Chronic neck and/or back pain; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; range of motion is decreased for cervical flexion; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; There is not x-ray evidence of a recent cervical spine fracture.	1

Orthopedics	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	None; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 2 months ago; There has been treatment or conservative therapy.; Pt is having pain in r shoulder that radiates into the arm Neck pain; Medications; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Orthopedics	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	Numbness and tingling. Neck pain radiating to left arm. Symptoms worsening over the last 4 months.; This is a request for cervical spine MRI; Neurological deficits; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; Weakness of hands when gripping.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; There is not x-ray evidence of a recent cervical spine fracture.	1
Orthopedics	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	Pain with neurological testing, R carpal tunnel syndrome, nerve test 2016, numbness; This is a request for cervical spine MRI; Acute or Chronic neck and/or back pain; The patient does have new or changing neurologic signs or symptoms.; There is no weakness or reflex abnormality.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; There is not x-ray evidence of a recent cervical spine fracture.	1
Orthopedics	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	pt completed 5 weeks of PT w/ no improvement; This is a request for cervical spine MRI; Acute or Chronic neck and/or back pain; The patient does have new or changing neurologic signs or symptoms.; There is no weakness or reflex abnormality.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; There is not x-ray evidence of a recent cervical spine fracture.	1

Orthopedics	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	pt had knee brace;; This study is being ordered for trauma or injury.; 10/11/2017; There has been treatment or conservative therapy.; decreased range of motion;; medications;; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology Pt has pain neck radiates to shoulders. Pt has had PT.; This is a request for cervical spine MRI; None of the above; The patient does not have new or changing neurologic signs or symptoms.; The patient has NOT had back pain for over 4 weeks.	1
Orthopedics	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	RADIOLOGY: Nerve conduction study of the left upper extremity shows an injury to the upper trunk of the brachial plexus PLAN: I'm going to order a MRI of the brachial plexus to evaluate for a brachial plexus injury. He was given a prescription for Neuront; This is a request for cervical spine MRI; Trauma or recent injury; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; He has decreased strength to his left shoulder with rotator cuff resistance. He has weakness with grip strength in the left hand. He also has altered sensation in his left upper extremity. This extends into the median and ulnar nerve distribution.c return; It is not known if the patient has new signs or symptoms of bladder or bowel dysfunction.; There is not x-ray evidence of a recent cervical spine fracture.	1
Orthopedics	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary		

Orthopedics	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	Right-hand-dominant patient with a 7 year history of this left upper extremity neuropathy/mononeuropathy in the distribution mostly of the ulnar nerve.; This is a request for cervical spine MRI; Neurological deficits; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; She does have weakness.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; It is not known if there is x-ray evidence of a recent cervical spine fracture.	1
Orthopedics	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	The pain is worse with overhead activity and reaching behind and better with rest and medications. Pt takes Tylenol. Pt cannot take anti-inflammatories d/t having stomach ulcers. Pt reports injection on 9/29/17 was no significant help. He reports having a; This is a request for cervical spine MRI; Acute or Chronic neck and/or back pain; The patient does have new or changing neurologic signs or symptoms.; There is no weakness or reflex abnormality.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; There is not x-ray evidence of a recent cervical spine fracture.	1
Orthopedics	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	The patient experiences pain, numbness, stiffness and tingling present for 3 years. There has been no change in the symptoms with ice, heat, rest, anti-inflammatory medication (diclofenac), muscle relaxers (cyclobenzaprine), physical therapy and epidural ; This is a request for cervical spine MRI; Acute or Chronic neck and/or back pain; The patient does have new or changing neurologic signs or symptoms.; It is not known if there is weakness or reflex abnormality.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; There is not x-ray evidence of a recent cervical spine fracture.	1

Orthopedics	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	The patient has failed a course of anti-inflammatory medication or steroids.; This is a request for cervical spine MRI; There has been a supervised trial of conservative management for at least 6 weeks.; Acute or Chronic neck and/or back pain; No, the patient does not demonstrate neurological deficits.; No, this patient did not have a recent course of supervised physical Therapy.	1
Orthopedics	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	The patient is not presenting new symptoms.; This study is being ordered for follow-up.; This is a request for cervical spine MRI; "The patient is being seen by or is the ordering physician an oncologist, neurologist, neurosurgeon, or orthopedist."; The last cervical spine MRI was performed within the last 6 months.; Known Tumor with or without metastasis; LACKIE IS A 15 YEAR OLD FEMALE WHO HAS A SACRAL ANEURYSMAL BONE SYST WHO PRESENTS IS FOLLOW-UP PATIENT. SHE RECENTLY HAD A IR GUIDED BIOPSY WHICH SHOWED BENIGN NONE LESION. SHE IS CURRENTLY WORKING TO GET SET UP FOR SCLEROTHERAPY TO HELP EITHER ELIMINATE	1
Orthopedics	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for cervical spine MRI; Acute or Chronic neck and/or back pain; It is not known if the patient does have new or changing neurologic signs or symptoms.; The patient has had back pain for over 4 weeks.; The patient has seen the doctor more then once for these symptoms.; The physician has directed conservative treatment for the past 6 weeks.; The patient has completed 6 weeks of physical therapy?	1
Orthopedics	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for cervical spine MRI; Acute or Chronic neck and/or back pain; The patient does not have new or changing neurologic signs or symptoms.; The patient has had back pain for over 4 weeks.; The patient has seen the doctor more then once for these symptoms.; The physician has directed conservative treatment for the past 6 weeks.; The patient has completed 6 weeks of physical therapy?	1

Orthopedics	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for cervical spine MRI; Follow-up to Surgery or Fracture within the last 6 months; The patient has been seen by or is the ordering physician an oncologist, neurologist, neurosurgeon, or orthopedist.	1
Orthopedics	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for cervical spine MRI; None of the above; ; No, the patient is not experiencing or presenting new symptoms of upper extremity weakness?; No, the patient is not demonstrating unilateral muscle wasting.; No, the patient is not experiencing or presenting new symptoms of Bowel or bladder dysfunction.; No, the patient is not experiencing new onset of parathesia diagnosed by a neurologist; No, the patient is not experiencing or presenting x-ray evidence of a recent fracture.	1
Orthopedics	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for cervical spine MRI; There has not been a supervised trial of conservative management for at least 6 weeks.; Acute or Chronic neck and/or back pain; It is not known if the patient demonstrate neurological deficits.; Pt is a 59 years old RHD Female with LEFT shoulder pain for 5 years. No specific injury is noted. Pt also complains of neck pain. No pain at night. Pt complains of numbness and tingling to the thumb, index, and long finger. The pain is described as a sha	1

Orthopedics	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; It is not known if the patient does have new or changing neurologic signs or symptoms.; The patient has had back pain for over 4 weeks.; The patient has not seen the doctor more then once for these symptoms.	1
Orthopedics	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; There is no weakness or reflex abnormality.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	2
Orthopedics	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; There is reflex abnormality.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.;	1
Orthopedics	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; low back pain with limited ROM, DECREASED SENSATION IN LOWER EXTREMITY, POSITIVE STRAIGHT LEG RAISE, HAS FAILED TREATMENT OF STEROIDS AND SUPERVISED PHYSICAL THERAPY. SYMPTOMS CONTINUE TO WORSEN AND AFFECT DAILY LIVING, ADL, JOB.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	1

Orthopedics	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does not have new or changing neurologic signs or symptoms.; The patient has had back pain for over 4 weeks.; The patient has seen the doctor more than once for these symptoms.; The physician has directed conservative treatment for the past 6 weeks.; The patient has not completed 6 weeks of physical therapy?; The patient has been treated with medication.; The patient was treated with oral analgesics.; The patient has not completed 6 weeks or more of Chiropractic care.; The physician has not directed a home exercise program for at least 6 weeks.	2
Orthopedics	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	; The study requested is a Lumbar Spine MRI.; Neurological deficits; The patient does have new or changing neurologic signs or symptoms.; There is reflex abnormality.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.; The lumbar spine and overlying skin are normal in appearance. There is tenderness to palpation at L5-S1. There is mild tenderness over the right SI joint. Range of motion is decreased in forward flexion and right lateral bend. Normal in extension, right l	1
Orthopedics	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	; The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has none of the above	1
Orthopedics	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; ; It is not known if there has been any treatment or conservative therapy.; ; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

Orthopedics	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; March 9, 2012.; There has been treatment or conservative therapy.; Ms. Liston is a 51-year-old left-hand-dominant woman seen for neck pain and migraines, as well as left arm symptoms. She also is having low back pain.; She has had surgery in both areas. She had anterior cervical fusion at C5-6 on March 9, 2012. He h; TRAMADOL; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Orthopedics	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	lateral shows what looks to be close to a grade 2 L5-S1 spondylolisthesis. The oblique x-rays show on the right side the possibility of a sclerotic margined lucency through the pars interarticularis for the left oblique. I do not see the "Scotty dog" in; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; It is not known if there is weakness or reflex abnormality.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	1

Orthopedics	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	LEFT HIP PAIN SECONDARY TO PIRIFORMIS SYNDROME VS POSSIBLE REFERRED LUMBAR PAIN. PATIENT STATES SEEN LITTLE IMPROVEMENT. MIDLINE BACK PAIN AND PARASTHESIAS TO TOES. POSTIVE JOINT PAIN, JOINT STIFFNESS, JOINT TENDERNESS,LIMPING.; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; There is no weakness or reflex abnormality.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; It is not known if the patient has a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	1
Orthopedics	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	Mild to moderate degenerative disease left hip complains of numbness on the lateral aspect of this thigh; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; There is no weakness or reflex abnormality.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	1
Orthopedics	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	na; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; There is reflex abnormality.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.; sensation is impacting the right leg...motor strength 5 over 5..reflexes are 2 over 4	1

Orthopedics	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	Pain in low back Pain in legs numbness and tingling. pain is constant. Rest does not relieve pain. Patient has tried Ibuprofen, Tramadol for months, it does not help; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; Patient has a complaint of numbness tingling and pain in legs. Low back pain . she has been on Ibuprofen and Tramadol for more than 2 months. Pain stays the same regardless of activity. Rest does not help pain, pain is constant. On a scale of 1-10 pain ; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	1
Orthopedics	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	Patient had a 4 wheeler accident over 6 months ago and pain all the way down left side. Patient has tried meloxicam as well as steroids with no relief.; The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has none of the above	1

Orthopedics	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	Pt is a 20 years old Female with RIGHT hip pain. Pt reports she had a right hip labral repair in 2014 and was doing very well with it until she was in a MVA. She states she has had an increase in pain and numbness in the lateral hip after the accident. Pt; This study is being ordered for trauma or injury.; Pt is a 20 years old Female with RIGHT hip pain. Pt reports she had a right hip labral repair in 2014 and was doing very well with it until she was in a MVA. She states she has had an increase in pain and numbness in the lateral hip after the accident. Pt; There has been treatment or conservative therapy.; She states she has had an increase in pain and numbness in the lateral hip after the accident. The pain is described as stabbing, achy pain that is constant and 8 out of 10 in severity. The pain is worse with sitting and walking and better with lying do; Physical Therapy; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Orthopedics	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	R/O herniated disc; The study requested is a Lumbar Spine MRI.; The patient does NOT have acute or chronic back pain.; This procedure is being requested for None of the above	1
Orthopedics	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	rle radiculopathy, lbp, walking tolerance on one block, r/o pinched nerve causing lbp and radiculopathy; The study requested is a Lumbar Spine MRI.; Neurological deficits; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; weakness upon palpation and rt leg weakness; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	1

Orthopedics	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	Severe Right side low back, hip and buttock pain. Mild enlargement or hypertrophy of the facet joints in lumbar spine. MRI of the Pelvis to Evaluate the SI joints and for any lumbosacral plexus pathology such as tumors.; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 12/21/2017; There has been treatment or conservative therapy.; Severe pain in low back, hips and buttocks; Anti-inflammatory medication, Multiple injections including facet blocks and epidural. 2 rounds of physical therapy; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Orthopedics	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	Shannon Rogers is a 37-year-old with complaints of left lumbar sacral pain/left lower extremity pain to the calf over the past 5 months. He is a welder and was lifting an oxygen tank when he felt something pop in his back.; Past medical history an; The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has none of the above	1

Orthopedics	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	Significant lumbar spondylosis and I suspect she may have some stenosis changes at L5-S1. Furthermore I think she probably has a medial meniscus tear of the right knee.; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; ; It is not known if there has been any treatment or conservative therapy.; ; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Orthopedics	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	The patient is having low back pain after an injury on 1-4-18. Patient has been treated by Dr. Allison in November and December of 2017 for a L1 Compression Fracture. There has been no change in the symptoms with Meloxicam and rest. On exam: Decreased lu; The study requested is a Lumbar Spine MRI.; Trauma or recent injury; It is not known if the patient does have new or changing neurologic signs or symptoms.; The patient has had back pain for over 4 weeks.; The patient has seen the doctor more then once for these symptoms.; The physician has directed conservative treatment for the past 6 weeks.; It is not known if the patient has completed 6 weeks of physical therapy?; The patient has been treated with medication.; The patient was treated with oral analgesics.; The patient has not completed 6 weeks or more of Chiropractic care.; The physician has not directed a home exercise program for at least 6 weeks.	1
Orthopedics	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; The patient does have a new foot drop.	1

Orthopedics	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does not have new or changing neurologic signs or symptoms.; The patient has had back pain for over 4 weeks.; The patient has seen the doctor more than once for these symptoms.; The physician has directed conservative treatment for the past 6 weeks.; The patient has completed 6 weeks of physical therapy?	1
Orthopedics	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has 6 weeks of completed conservative care in the past 3 months or had a spine injection	6
Orthopedics	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	unknown; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; numbness tingling and weakness radiating from back to lower extremity; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	1
Orthopedics	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	unknown; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does not have new or changing neurologic signs or symptoms.; The patient has had back pain for over 4 weeks.; The patient has seen the doctor more than once for these symptoms.; The physician has directed conservative treatment for the past 6 weeks.; The patient has not completed 6 weeks of physical therapy?; The patient has been treated with medication.; other medications as listed.; The patient has not completed 6 weeks or more of Chiropractic care.; The physician has directed a home exercise program for at least 6 weeks.; The home treatment did include exercise, prescription medication and follow-up office visits.; it was for 4 weeks and did not help patient excise program; motrin, aleave, steroid dose pack, zanaslex	1

Orthopedics	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	unknown; The study requested is a Lumbar Spine MRI.; Neurological deficits; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; numbness tingling and weakness in bilateral lower extremity; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	1

MRI of the Pelvis to Evaluate the SI joints and for any lumbosacral plexus pathology such as tumors.; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 12/21/2017; There has been treatment or conservative therapy.; Severe pain in low back, hips and buttocks; Anti-inflammatory medication, Multiple injections including facet blocks and epidural. 2 rounds of physical therapy; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

Orthopedics	Disapproval	72196 Magnetic resonance (eg, proton) imaging, pelvis; with contrast material(s)	Radiology Services Denied Not Medically Necessary	Unilateral primary osteoarthritis, L hip. spinal stenosis, lumbar region; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 7/24/2017; There has been treatment or conservative therapy.; Pain, decreased mobility,; PT, oral medications, steroid injections; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Orthopedics	Disapproval	72196 Magnetic resonance (eg, proton) imaging, pelvis; with contrast material(s)	Radiology Services Denied Not Medically Necessary	unknown; This is a request for a Pelvis MRI.; The request is not for any of the listed indications.	1
Orthopedics	Disapproval	73200 Computed tomography, upper extremity; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an upper extremity, shoulder, scapula, elbow, hand, or wrist joint CT.; There is not a history of upper extremity joint or long bone trauma or injury.; This is a preoperative or recent postoperative evaluation.; Yes this is a request for a Diagnostic CT	1
Orthopedics	Disapproval	73220 Magnetic resonance (eg, proton) imaging, upper extremity, other than joint; without contrast material(s), followed by contrast material(s) and further sequences	Radiology Services Denied Not Medically Necessary	Bilateral arthritic changes of the second and third MCP joints as well as his first CMC joints, and the right index finger DIP joint. He has some swelling and possible signs of a gangrenous cyst formation. He is not quite have full range of motion and do; This study is being ordered for Inflammatory/ Infectious Disease.; Unknown - years; There has been treatment or conservative therapy.; Pain, swelling triggering of right long finger, possible signs of gangrenous cyst formation; Splint&#x0D; &#x0D; Patient cannot take NSAIDs; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

Orthopedics	Disapproval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Radiology Services Denied Not Medically Necessary	&lt; Enter answer here - or Type In Unknown If No Info Given. &gt;; The pain is from an old injury.; It is not known if the member has failed a 4 week course of conservative management in the past 3 months.; This is a request for an elbow MRI; The study is requested for evaluation of elbow pain.	1
Orthopedics	Disapproval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Radiology Services Denied Not Medically Necessary	&lt; Enter answer here - or Type In Unknown If No Info Given. &gt;; The requested study is a Shoulder MRI.; The pain is described as chronic; The request is for shoulder pain.; It is not known if the physician has directed conservative treatment for the past 6 weeks.	1
Orthopedics	Disapproval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Radiology Services Denied Not Medically Necessary	; The requested study is a Shoulder MRI.; The pain is from an old injury.; The request is for shoulder pain.; The physician has directed conservative treatment for the past 6 weeks.; The patient has not completed 6 weeks of physical therapy?; The patient has been treated with medication.; The patient has not completed 6 weeks or more of Chiropractic care.; The physician has directed a home exercise program for at least 6 weeks.; The home treatment did include exercise, prescription medication and follow-up office visits.; He has tried some at home exercises without any relief of pain and or symptoms.1. Anti-inflammatory medicine Medrol Dosepak.. Hydrocodone for pain; The patient received oral analgesics.	1
Orthopedics	Disapproval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Radiology Services Denied Not Medically Necessary	; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; ; There has been treatment or conservative therapy.; ; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	3

Orthopedics	Disapproval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Radiology Services Denied Not Medically Necessary	12.5.17 pt missed the last step on a set of stairs and injured his shoulder when he tried to catch himself. pt has tenderness to palpations and and dec strength w supraspinatus testing. r/o cuff tear; The requested study is a Shoulder MRI.; The pain is from a recent injury.; It is not know if surgery or arthrscopy is scheduled in the next 4 weeks.; The request is for shoulder pain.; There is a suspicion of tendon, ligament, rotator cuff injury or labral tear.	1
Orthopedics	Disapproval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Radiology Services Denied Not Medically Necessary	Bilateral arthritic changes of the second and third MCP joints as well as his first CMC joints, and the right index finger DIP joint. He has some swelling and possible signs of a gangrenous cyst formation. He is not quite have full range of motion and do; This study is being ordered for Inflammatory/ Infectious Disease.; Unknown - years; There has been treatment or conservative therapy.; Pain, swelling triggering of right long finger, possible signs of gangrenous cyst formation; Splint&#x0D; &#x0D; Patient cannot take NSAIDs; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Orthopedics	Disapproval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Radiology Services Denied Not Medically Necessary	bypass; The requested study is a Shoulder MRI.; The pain is not from a recent injury, old injury, chronic pain or a mass.; The request is for shoulder pain.	1
Orthopedics	Disapproval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Radiology Services Denied Not Medically Necessary	Dislocated shoulder first week January, ER, taking medications, pain,; The requested study is a Shoulder MRI.; The pain is from a recent injury.; Surgery or arthrscopy is not scheduled in the next 4 weeks.; The request is for shoulder pain.; There is a suspicion of tendon, ligament, rotator cuff injury or labral tear.	1

Orthopedics	Disapproval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Radiology Services Denied Not Medically Necessary	<p>He has arthritis of the AC joint but not in the shoulder joint. We need to get more information before progressing with any treatment.; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 8/25/17; There has been treatment or conservative therapy.; Mr. Mosier is a 57 year old male referred by Dr. Meidema for bilateral shoulder pain six months duration left greater than right.&amp;#x0D;&amp;#x0D; On left side he has pain with WTB and ROM moderate severe.&amp;#x0D;&amp;#x0D; The shoulders pop&amp;#x0D;&amp;#x0D; Pain is worsened with activity. He has ; Medication, physical therapy, injections; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology</p>	1
Orthopedics	Disapproval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Radiology Services Denied Not Medically Necessary	<p>He works as a barber. He had an injury playing basketball 3 days ago and has had pain and inability to lift his arm since that time.&amp;#x0D; He has pain and weakness with supraspinatus resistance.PLAN: I am going to order an MRI of his left shoulder to evaluate ; The requested study is a Shoulder MRI.; The pain is from a recent injury.; Surgery or arthroscopy is not scheduled in the next 4 weeks.; The request is for shoulder pain.; There is a suspicion of tendon, ligament, rotator cuff injury or labral tear.</p>	1

Orthopedics	Disapproval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Radiology Services Denied Not Medically Necessary	None; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 2 months ago; There has been treatment or conservative therapy.; Pt is having pain in r shoulder that radiates into the arm Neck pain; Medications; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Orthopedics	Disapproval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Radiology Services Denied Not Medically Necessary	Patient is having chronic pain, limited range of motion. Unable to raise left arm above shoulder height with out severe pain.; The requested study is a Shoulder MRI.; The pain is described as chronic; The request is for shoulder pain.; The physician has not directed conservative treatment for the past 6 weeks.	1
Orthopedics	Disapproval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Radiology Services Denied Not Medically Necessary	PATIENT IS NEEDING A MRI OF THE RIGHT WRIST AND RIGHT HAND FOR A POSSIBLE TENDON RUPTURE OF THE EPL, OR POSSIBLE MALLET FINGER. PATIENT NEEDING THIS MRI FOR POSSIBLE SURGERY.; This study is being ordered for trauma or injury.; 2-6-18; There has been treatment or conservative therapy.; UNABLE TO MOVE RIGHT WRIST AND HAND. PATIENT HAS EFFUSION/SWELLING/PAIN. UNABLE TO FLEX THUMB AND WRIST.; PAID MEDICATION, BRACING, ICE, ELEVATED, REST, NSAIDS.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

Orthopedics	Disapproval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Radiology Services Denied Not Medically Necessary	pre-op evaluation; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 01/25/2018; There has been treatment or conservative therapy.; numbness, tingling, severe bilateral pain calcific medial lateral extenders and flexible tendons, permanent nerve damage, stiffness;; splint, medications, injections, ot therapy for hand, home exercise stretches; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	2
Orthopedics	Disapproval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Radiology Services Denied Not Medically Necessary	The requested study is a Shoulder MRI.; Study being ordered for pre-operative evaluation; This study is being ordered prior to arthroscopic surgery.; &lt; Enter answer here - or Type In Unknown If No Info Given. &gt;	1
Orthopedics	Disapproval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Radiology Services Denied Not Medically Necessary	The requested study is a Shoulder MRI.; The pain is described as chronic; The request is for shoulder pain.; The physician has directed conservative treatment for the past 6 weeks.; The patient has completed 6 weeks of physical therapy?	1
Orthopedics	Disapproval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Radiology Services Denied Not Medically Necessary	The requested study is a Shoulder MRI.; The pain is described as chronic; The request is for shoulder pain.; The physician has directed conservative treatment for the past 6 weeks.; The patient has not completed 6 weeks of physical therapy?; The patient has been treated with medication.; The patient received joint injection(s).	1

Orthopedics	Disapproval	73700 Computed tomography, lower extremity; without contrast material	Radiology Services Denied Not Medically Necessary	POSS LABRAL TEAR FROM FALL IN NOVEMBER; This study is being ordered for trauma or injury.; 11.6.17 SLIPPED ON PAVEMENT; There has been treatment or conservative therapy.; PAIN WITH STANDING, POSITIVE FABER TEST, PAIN WITH INTERNAL AND EXTERNAL ROTATION; PATIENT HAS HAD ACTIVITY MODIFICATION, TAKES TRAMADOL, IBUPROFEN AND NORCO FOR PAIN.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Orthopedics	Disapproval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	Radiology Services Denied Not Medically Necessary	&lt; Enter answer here - or Type In Unknown If No Info Given. &gt;; This is a request for an Ankle MRI.; Surgery or arthrscopy is not scheduled in the next 4 weeks.; The study is requested for ankle pain.; There is a suspicion of tendon or ligament injury.	1

Orthopedics	Disapproval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	Radiology Services Denied Not Medically Necessary	. This patient is seen today for their initial evaluation of left knee pain. Approximately 3 years ago this young lady was playing volleyball when she came down and twisted her left knee. She noted the posterior lateral joint pain at that time. After ; This study is being ordered for trauma or injury.; Unknown; It is not known if there has been any treatment or conservative therapy.; . This patient is seen today for their initial evaluation of left knee pain. Approximately 3 years ago this young lady was playing volleyball when she came down and twisted her left knee. She noted the posterior lateral joint pain at that time. After ; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Orthopedics	Disapproval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	Radiology Services Denied Not Medically Necessary	; This is a request for an Ankle MRI.; Surgery or arthroscopy is not scheduled in the next 4 weeks.; The study is requested for ankle pain.; There is a suspicion of tendon or ligament injury.	1

Orthopedics	Disapproval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	Radiology Services Denied Not Medically Necessary	; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; She presents today for evaluation bilateral knee pain from no known injury. This has been a chronic issue. X-rays are reviewed. She does have well maintained medial lateral compartments. There are degenerative changes of the patellofemoral compartments; There has been treatment or conservative therapy.; The pain is located lateral, anterior, tibial tubercle. She describes the symptoms as aching and burning. Symptoms improve with rest, heat, ice. The symptoms are worse with activity, deep knee bending, sleeping. The knee has given out or felt unstable. I; Steroid injections, home exercises, bracing, anti inflammatories and analgesics.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	2
Orthopedics	Disapproval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	Radiology Services Denied Not Medically Necessary	bypassed; This is a request for a Knee MRI.; It is not known if patient had recent plain films of the knee.; It is not known if the ordering physician is an orthopedist.; There is no suspected meniscus,pre-op or post-op evaluation,non-acute Chronic Pain,supsected tumor or Aseptic Necrosis; There is no symptom of locking,Instability, Swelling,Redness,Limited range of motion or pain.	1
Orthopedics	Disapproval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	Radiology Services Denied Not Medically Necessary	CHIEF COMPLAINT: Bilateral shin pain.&#x0D; &#x0D; HISTORY OF PRESENT ILLNESS: This is a pleasant 15-year-old female who has had bilateral shin pain for over a year. She is a competitive track athlete at her school, but is unable to compete because of shin pain.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	2

Orthopedics	Disapproval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	Radiology Services Denied Not Medically Necessary	<p>Focused exam of left lower extremity demonstrates flexible pes planus. He has exquisite pain 1 cm distal to the medial malleolus. No deltoid ligament insufficiency with stressing on the left compared to the right. With the calcaneus in the neutral posi; This is a request for an Ankle MRI.; Surgery or arthrscopy is not scheduled in the next 4 weeks.; The study is requested for ankle pain.; There is a suspicion of tendon or ligament injury.</p>	1
Orthopedics	Disapproval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	Radiology Services Denied Not Medically Necessary	<p>non displaced calcaneus fracture; This study is being ordered for trauma or injury.; 01/12/2018; There has been treatment or conservative therapy.; left ankle and foot pain; non weight bearing several x-rays doesn't show healing; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology</p>	1
Orthopedics	Disapproval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	Radiology Services Denied Not Medically Necessary	<p>Pt is a 62 years old Female with RIGHT ankle pain for 1 year. There is no specific injury noted. The pt points to the lateral ankle as the area that is most painful. She complains of occasional numbness/tingling. The pain is described as a sharp, achy pai; This is a request for an Ankle MRI.; It is not know if surgery or arthrscopy is scheduled in the next 4 weeks.; There is not a suspicion of fracture not adequately determined by x-ray.; The study is requested for ankle pain.; It is not known if there is a suspicion of tendon or ligament injury.</p>	1
Orthopedics	Disapproval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	Radiology Services Denied Not Medically Necessary	<p>This is a request for a foot MRI.; "There is not a history (within the past six weeks) of significant trauma, dislocation, or injury to the foot."; There is a suspected tarsal coalition.; There is a history of new onset of severe pain in the foot within the last two weeks.</p>	1

Orthopedics	Disapproval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	Radiology Services Denied Not Medically Necessary	This is a request for a foot MRI.; "There is not a history (within the past six weeks) of significant trauma, dislocation, or injury to the foot."; There is not a suspected tarsal coalition.; There is a history of new onset of severe pain in the foot within the last two weeks.; The patient does not have an abnormal plain film study of the foot other than arthritis.; The patient has not used a cane or crutches for greater than four weeks.; The patient has not been treated with and failed a course of supervised physical therapy.; The patient has not been treated with anti-inflammatory medications in conjunction with this complaint.; This is not for pre-operative planning.; The patient does not have a documented limitation of their range of motion.	1
Orthopedics	Disapproval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	Radiology Services Denied Not Medically Necessary	This is a request for a Knee MRI.; The ordering physician is an orthopedist.; Non-acute Chronic Pain; Instability	1
Orthopedics	Disapproval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	Radiology Services Denied Not Medically Necessary	This is a request for a Knee MRI.; The ordering physician is an orthopedist.; Non-acute Chronic Pain; Swelling greater than 3 days	1
Orthopedics	Disapproval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	Radiology Services Denied Not Medically Necessary	This is a request for a Knee MRI.; The ordering physician is an orthopedist.; Suspected meniscus, tendon, or ligament injury	6

Orthopedics	Disapproval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	Radiology Services Denied Not Medically Necessary	This is a request for a lower extremity MRI.; This is not a pulsatile mass.; "There is no evidence of tumor or mass from a previous exam, plain film, ultrasound, or previous CT or MRI."; There is not a suspicion of an infection.; The patient is not taking antibiotics.; This is not a study for a fracture which does not show healing (non-union fracture).; This is not a pre-operative study for planned surgery.	4
Orthopedics	Disapproval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	Radiology Services Denied Not Medically Necessary	This is a request for an Ankle MRI.; "There is a history (within the past six weeks) of significant trauma, dislocation, or injury to the ankle."; There is a history of new onset of severe pain in the ankle within the last two weeks.; There is not a suspected tarsal coalition. X-ray: 2 V LT knee show fracture well aligned and healing well with callous.&#x0D; 3 V LT foot show no obvious fracture or dislocation. Spur noted at the plantar fascia origin. &#x0D; &#x0D; Pt is 3 weeks s/p LT proximal fibula shaft fracture on 1/17/18. Pt is in a lace; This is a request for a foot MRI.; The study is being ordered for foot pain.; The study is being ordered for acute pain.	1
Orthopedics	Disapproval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	Radiology Services Denied Not Medically Necessary	&lt; Enter answer here - or Type In Unknown If No Info Given. &gt;; This is a requests for a hip MRI.; The study is not requested for any of the standard indications for Knee MRI; It is not known if the request is for hip pain.	1
Orthopedics	Disapproval	73721 Magnetic resonance (eg, proton) imaging, any joint of lower extremity; without contrast material	Radiology Services Denied Not Medically Necessary	POSS LABRAL TEAR FROM FALL IN NOVEMBER; This study is being ordered for trauma or injury.; 11.6.17 SLIPPED ON PAVEMENT; There has been treatment or conservative therapy.; PAIN WITH STANDING, POSITIVE FABER TEST, PAIN WITH INTERNAL AND EXTERNAL ROTATION; PATIENT HAS HAD ACTIVITY MODIFICATION, TAKES TRAMADOL, IBUPROFEN AND NORCO FOR PAIN,; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

Orthopedics	Disapproval	73721 Magnetic resonance (eg, proton) imaging, any joint of lower extremity; without contrast material	Radiology Services Denied Not Medically Necessary	This is a requests for a hip MRI.; This study is not being ordered in conjunction with a pelvic MRI.; "There is a history (within the last six months) of significant trauma, dislocation, or injury to the hip."; There is not a suspicion of AVN.; The patient is not receiving long-term steriod therapy (Prednisone or Cortisone).; The patient has a documented limitation of their range of motion.	1
Orthopedics	Disapproval	73721 Magnetic resonance (eg, proton) imaging, any joint of lower extremity; without contrast material	Radiology Services Denied Not Medically Necessary	This is a requests for a hip MRI.; This study is not being ordered in conjunction with a pelvic MRI.; "There is no a history (within the last six months) of significant trauma, dislocation, or injury to the hip."; There is not a suspicion of AVN.; The patient is not receiving long-term steriod therapy (Prednisone or Cortisone).; The patient does not have an abnormal plain film study of the hip other than arthritis.; The patient has not used a cane or crutches for greater than four weeks.; The patient has not been treated with and failed a course of supervised physical therapy.; There is not a mass near the hip.; The patient has been treated with anti-inflammatory medications in conjunction with this complaint.; This is not for pre-operative planning.; The patient does not have a documented limitation of their range of motion.	1
Osteopath	Approval	71250 Computed tomography, thorax; without contrast material		Pt suffers with breast cancer, pre mastectomy.; One of the studies being ordered is a Breast MRI, CT	1
Osteopath	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Osteopath	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		&lt; Enter answer here - or Type In Unknown If No Info Given. &gt;; The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has none of the above	1
Osteopath	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		; The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has none of the above	1

Osteopath	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		Pt suffers with breast cancer, pre mastectomy.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Osteopath	Disapproval	70450 Computed tomography, head or brain; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for a brain/head CT.; 'None of the above' best describes the reason that I have requested this test.; None of the above best describes the reason that I have requested this test.	1
Osteopath	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	Abnormal imaging test describes the reason for this request.; This is a request for a Chest CT.; Yes this is a request for a Diagnostic CT	1
Other	Approval	70486 Computed tomography, maxillofacial area; without contrast material		&lt; Enter answer here - or Type In Unknown If No Info Given. &gt;; This study is being ordered for Congenital Anomaly.; 2/22/2018; There has not been any treatment or conservative therapy.; &lt; Describe primary symptoms here - or Type In Unknown If No Info Given &gt;; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Other	Approval	70486 Computed tomography, maxillofacial area; without contrast material		This is a request for a Sinus CT.; This study is not being ordered for trauma, tumor, sinusitis, osteomyelitis, pre operative or a post operative evaluation.; Yes this is a request for a Diagnostic CT	1
Other	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		&lt; Enter answer here - or Type In Unknown If No Info Given. &gt;; This study is being ordered for a metastatic disease.; There are 3 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

Other	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Initial staging; This study is being ordered for a metastatic disease.; There are 3 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Other	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The headache is described as chronic or recurring.; The headache is not presenting with a sudden change in severity, associated with exertion, or a mental status change.; There are recent neurological symptoms or deficits such as one sided weakness, speech impairments, or vision defects.	1
Other	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The patient had a thunderclap headache or worst headache of the patient's life (within the last 3 months).	1
Other	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; This study is being ordered for a tumor.	1
Other	Approval	71250 Computed tomography, thorax; without contrast material	&lt; Enter answer here - or Type In Unknown If No Info Given. &gt;; This study is being ordered for a metastatic disease.; There are 3 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

Other	Approval	71250 Computed tomography, thorax; without contrast material	&lt; Enter answer here - or Type In Unknown If No Info Given. &gt;; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; N/a; There has been treatment or conservative therapy.; vomiting; PPI twice a day; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Other	Approval	71250 Computed tomography, thorax; without contrast material	Abnormal imaging test describes the reason for this request.; This is a request for a Chest CT.; Yes this is a request for a Diagnostic CT	1
Other	Approval	71250 Computed tomography, thorax; without contrast material	diagnosed by cardiologist; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 1/18/2018; There has not been any treatment or conservative therapy.; dizziness and chest pain; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Other	Approval	71250 Computed tomography, thorax; without contrast material	Initial staging; This study is being ordered for a metastatic disease.; There are 3 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Other	Approval	71250 Computed tomography, thorax; without contrast material	melanoma restaging; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1

Other	Approval	72128 Computed tomography, thoracic spine; without contrast material	&lt; Enter answer here - or Type In Unknown If No Info Given. &gt;; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; September; There has been treatment or conservative therapy.; back pain, flank pain, rib pain.; chiropractor and medication; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Other	Approval	72131 Computed tomography, lumbar spine; without contrast material	&lt; Enter answer here - or Type In Unknown If No Info Given. &gt;; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; September; There has been treatment or conservative therapy.; back pain, flank pain, rib pain.; chiropractor and medication; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Other	Approval	72131 Computed tomography, lumbar spine; without contrast material	This is a request for a lumbar spine CT.; The patient does not have a history of severe low back trauma or lumbar injury.; This is not a preoperative or recent postoperative evaluation.; This study is not part of a myelogram or discogram.; The patient is experiencing symptoms of radiculopathy for six weeks or more.; Yes this is a request for a Diagnostic CT	1

Other	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Lytic bone lesions seen on c-spine xrays, needs MRI c-spine w/ & w/o IV contrast; This is a request for cervical spine MRI; None of the above; It is not known if the patient does have new or changing neurologic signs or symptoms.; It is not known if the patient has had back pain for over 4 weeks.	1
Other	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	The patient has failed a course of anti-inflammatory medication or steroids.; This is a request for cervical spine MRI; It is not known if there has been a supervised trial of conservative management for at least six weeks.; Acute or Chronic neck and/or back pain; It is not known if the patient demonstrate neurological deficits.; It is not known if this patient had a recent course of supervised physical Therapy.	1
Other	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	The patient has failed a course of anti-inflammatory medication or steroids.; This is a request for cervical spine MRI; There has been a supervised trial of conservative management for at least 6 weeks.; Acute or Chronic neck and/or back pain; It is not known if the patient demonstrate neurological deficits.; It is not known if this patient had a recent course of supervised physical Therapy.	1
Other	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	This is a request for cervical spine MRI; Neurological deficits; Yes, the patient is experiencing or presenting new symptoms of upper extremity weakness.	1
Other	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	This is a request for a thoracic spine MRI.; "The patient has been seen by, or the ordering physician is, a neuro-specialist, orthopedist, or oncologist.;" The study is being ordered due to follow-up to surgery or fracture within the last 6 months.	1
Other	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	This is a request for a thoracic spine MRI.; Neurological deficits; The patient does have new or changing neurologic signs or symptoms.; The patient does have a new foot drop.	1

Other	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Pt was seen initially in July 2017 for bilateral radiculopathy. He was given anti-inflammatory. He pain has not improved. The pain occurs more frequently. He also has numbness and tingling in the left leg. He has also tried muscle relaxants, which h; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; There is no weakness or reflex abnormality.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	1
Other	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has 6 weeks of completed conservative care in the past 3 months or had a spine injection	2
Other	Approval	72196 Magnetic resonance (eg, proton) imaging, pelvis; with contrast material(s)	This is a request for a Pelvis MRI.; The request is for suspicion of tumor, mass, neoplasm, or metastatic disease?	1
Other	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	pt was lifting an object and felt pain and heard a pop and pain in shoulder. She is unable to raise her arm to shoulder height.; The requested study is a Shoulder MRI.; The pain is from a recent injury.; Surgery or arthroscopy is not scheduled in the next 4 weeks.; The request is for shoulder pain.; There is a suspicion of tendon, ligament, rotator cuff injury or labral tear.	1
Other	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	The requested study is a Shoulder MRI.; The pain is from an old injury.; The request is for shoulder pain.; The physician has directed conservative treatment for the past 6 weeks.; It is not known if the patient has completed 6 weeks of physical therapy?; The patient has been treated with medication.; The patient received joint injection(s).	1

Other	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	Non-healing wound.; This is a request for a foot MRI.; The study is not being ordered for foot pain, known dislocation, infection,suspected fracture, known fracture, pre op, post op or a known/palpated mass.	1
Other	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	ORTHOPEDIC TREATMENT SIGNIFICANT DEPTH; This is a request for a foot MRI.; It is not known if a plain x-ray of the area has been done.; The study is being ordered forfoot pain.; The study is being ordered for known or suspected septic arthritis or osteomyelitis.; It is unknown if the patient had abnormal lab studies.	1
Other	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	PAIN, LUMP ON ANKLE, NO TRAUMA, XRAY SHOWS NO FRACTURE; This is a request for an Ankle MRI.; Surgery or arthrscopy is not scheduled in the next 4 weeks.; There is not a suspicion of fracture not adequately determined by x-ray.; The study is requested for ankle pain.; Tendon or ligament injuryis not suspected.	1
Other	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	R/O osteomyelitis; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	2

Other	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	This is a request for a foot MRI.; "There is not a history (within the past six weeks) of significant trauma, dislocation, or injury to the foot."; There is not a suspected tarsal coalition.; There is not a history of new onset of severe pain in the foot within the last two weeks.; The patient does not have an abnormal plain film study of the foot other than arthritis.; The patient has not used a cane or crutches for greater than four weeks.; The patient has not been treated with and failed a course of supervised physical therapy.; The patient has not been treated with anti-inflammatory medications in conjunction with this complaint.; This is not for pre-operative planning.; The patient does not have a documented limitation of their range of motion.	1
Other	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	This is a request for a Knee MRI.; The ordering physician is not an orthopedist.; Suspected meniscus, tendon, or ligament injury; Yes, there is a known trauma involving the knee.; Locking	1
Other	Approval	74150 Computed tomography, abdomen; without contrast material	&lt; Enter answer here - or Type In Unknown If No Info Given. &gt;; This is a request for an Abdomen CT.; This study is being ordered as a pre-op or post op evaluation.; The requested study is for post-operative evaluation.; The requested study is not a first follow up study for a post operative complication.; Yes this is a request for a Diagnostic CT	1
Other	Approval	74150 Computed tomography, abdomen; without contrast material	; This is a request for an Abdomen CT.; This study is being ordered for a suspicious mass or tumor.; There is a suspicious mass found using ultrasound, IVP, Endoscopy, colonoscopy, or sigmoidoscopy.; Yes this is a request for a Diagnostic CT	1

Other	Approval	74150 Computed tomography, abdomen; without contrast material	<p>diagnosed by cardiologist; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 1/18/2018; There has not been any treatment or conservative therapy.; dizziness and chest pain; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology</p>	1
Other	Approval	74150 Computed tomography, abdomen; without contrast material	<p>Gastrointestinal: Positive for abdominal pain. Negative for abdominal distention, anal bleeding, blood in stool, constipation, diarrhea, nausea, rectal pain and vomiting. &amp;#x0D; Genitourinary: Negative. &amp;#x0D; Musculoskeletal: Positive for arthralgias (left lower ; This is a request for an Abdomen CT.; This study is being ordered for trauma.; This request is not for follow up to abdominal and/or pelvic trauma ordered by a specialist or PCP on behalf of a specialist who has seen the patient.; There is no recent trauma with physical findings or abnormal blood work indicating either peritonitis or abscess.; There are no physical findings or lab results indicating an intra-abdominal bleed.; Yes this is a request for a Diagnostic CT</p>	1
Other	Approval	74150 Computed tomography, abdomen; without contrast material	<p>This is a request for an Abdomen CT.; This study is being ordered as a pre-op or post op evaluation.; The requested study is for post-operative evaluation.; The requested study is a first follow up study for a post operative complication.; Yes this is a request for a Diagnostic CT</p>	1
Other	Approval	74150 Computed tomography, abdomen; without contrast material	<p>This is a request for an Abdomen CT.; This study is being ordered for an infection such as pancreatitis, appendicitis, abscess, colitis and inflammatory bowel disease.; There are known or endoscopic findings of Abscess.; Yes this is a request for a Diagnostic CT</p>	2

Other	Approval	74174 Computed tomographic angiography, abdomen and pelvis, with contrast material(s), including noncontrast images, if performed, and image postprocessing	This is a request for CT Angiography of the Abdomen and Pelvis.	1
Other	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	&lt; Enter answer here - or Type In Unknown If No Info Given. &gt;; This study is being ordered for a metastatic disease.; There are 3 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Other	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	&lt; Enter answer here - or Type In Unknown If No Info Given. &gt;; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; N/a; There has been treatment or conservative therapy.; vomiting; PPI twice a day; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Other	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	Initial staging; This study is being ordered for a metastatic disease.; There are 3 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Other	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	melanoma restaging; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1

Other	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	This is a request for an abdomen-pelvis CT combination.; The reason for the study is suspicious mass or suspected tumor or metastasis.; The patient is presenting new symptoms.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; The patient had an abnormal abdominal Ultrasound, CT or MR study.; The patient has NOT completed a course of chemotherapy or radiation therapy within the past 90 days.; Yes this is a request for a Diagnostic CT	1
Other	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for acute pain.; There has been a physical exam.; The patient is female.; A pelvic exam was NOT performed.; Yes this is a request for a Diagnostic CT	1
Other	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for acute pain.; There has been a physical exam.; The patient is male.; A rectal exam was not performed.; Yes this is a request for a Diagnostic CT	1
Other	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	This is a request for an abdomen-pelvis CT combination.; This study is not being requested for abdominal and/or pelvic pain.; The study is requested for hematuria.; Yes this is a request for a Diagnostic CT	2
Other	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)	Abnormal MRI; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Other	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)	This request is for an Abdomen MRI.; This study is being ordered for Known Tumor.; This study is being ordered for follow-up.; The patient is undergoing active treatment for cancer.; "The ordering physician is an oncologist, urologist, gastroenterologist, or surgeon."; &lt; Enter answer here - or Type In Unknown If No Info Given. &gt;	1

Other	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)		This request is for an Abdomen MRI.; This study is being ordered for Known Tumor.; This study is being ordered for staging.; "The ordering physician is not an oncologist, urologist, gastroenterologist, or surgeon."; na	1
Other	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered for initial treatment (after a diagnosis of Cancer has been made).; This study is being ordered for something other than Breast CA, Lymphoma, Myeloma, Ovarian CA, Esophageal CA, Lung CA, Colorectal CA, Head/Neck CA, Melanoma, Soft Tissue Sarcoma, Pancreatic CA or Testicular CA.; This study is being requested for an other solid tumor.; This would be the first PET Scan performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Other	Approval	93350 Echocardiography, transthoracic, real-time with image documentation (2D), includes M-mode recording, when performed, during rest and cardiovascular stress test using treadmill, bicycle exercise and/or pharmacologically induced stress, with interpretation and report;		This is a request for a Stress Echocardiogram.; The patient has NOT had cardiac testing including Stress Echocardiogram, Nuclear Cardiology (SPECT/MPI), Coronary CT angiography (CCTA) or Cardiac Catheterization in the last 2 years.; The member has known or suspected coronary artery disease.	1
Other	Disapproval	70450 Computed tomography, head or brain; without contrast material	Radiology Services Denied Not Medically Necessary	; This is a request for a brain/head CT.; The study is being requested for evaluation of a headache.; The headache is described as chronic or recurring.	1
Other	Disapproval	70486 Computed tomography, maxillofacial area; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for a Sinus CT.; This study is being ordered for sinusitis.; The patient is immune-compromised.; Yes this is a request for a Diagnostic CT	1

Other	Disapproval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Radiology Services Denied Not Medically Necessary	&lt; Enter answer here - or Type In Unknown If No Info Given. &gt;; This request is for a Brain MRI; It is unknown if the study is being requested for evaluation of a headache.; The patient does not have dizziness, fatigue or malaise, sudden change in mental status, Bell's palsy, Congenital abnormality, loss of smell, hearing loss or vertigo.; It is unknown why this study is being ordered. Intial Staging; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Other	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	; This study is being ordered for a neurological disorder.; ; There has been treatment or conservative therapy.; ; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Other	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	Patient reports continued neck and shoulder pain along with low back and LE pain. States she is experiencing radiation of neck pain into her shoulder and UEs and notes weakness and 'dropping items' on occasion. Also has LES discomfort and are 'heavy, ache; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Other	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	Spondylosis without myelopathy or radiculopathy, cervical region; This is a request for cervical spine MRI; Acute or Chronic neck and/or back pain; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; left upper extremity of arm hand shoulder, tingling,numbness.; It is not known if the patient has new signs or symptoms of bladder or bowel dysfunction.; There is not x-ray evidence of a recent cervical spine fracture.	1

Other	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	Unknown; This study is being ordered for a neurological disorder.; 9/25/17; There has been treatment or conservative therapy.; Low back pain OA w/ neuropathic Radiculopathy pain from neck to limb to back Severe weakness; PT Medication HEP; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Other	Disapproval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	Radiology Services Denied Not Medically Necessary	It is not known if there are documented findings of immune system suppression.; This is a request for a thoracic spine MRI.; The patient is not experiencing back pain associated with abdominal pain.; The caller indicated the the study was not ordered for: Chronic Back pain, Trauma, Known or suspected tumor with or without metastasis, Follow up to or Pre-operative evaluation, or Neurological deficits."; BACK PAIN	1
Other	Disapproval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	Radiology Services Denied Not Medically Necessary	Unknown; This study is being ordered for a neurological disorder.; 9/25/17; There has been treatment or conservative therapy.; Low back pain OA w/ neuropathic Radiculopathy pain from neck to limb to back Severe weakness; PT Medication HEP; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Other	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	; This study is being ordered for a neurological disorder.; ; There has been treatment or conservative therapy.; ; ; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

Other	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	Patient reports continued neck and shoulder pain along with low back and LE pain. States she is experiencing radiation of neck pain into her shoulder and UEs and notes weakness and 'dropping items' on occasion. Also has LES discomfort and are 'heavy, ache; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Other	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	The study requested is a Lumbar Spine MRI.; Neurological deficits; The patient does have new or changing neurologic signs or symptoms.; The patient does have a new foot drop.	1
Other	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	Unknown; This study is being ordered for a neurological disorder.; 9/25/17; There has been treatment or conservative therapy.; Low back pain OA w/ neuropathic Radiculopathy pain from neck to limb to back Severe weakness; PT Medication HEP; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Other	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	Initial Staging; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Other	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for acute pain.; There has been a physical exam.; The patient is female.; A pelvic exam was NOT performed.; Yes this is a request for a Diagnostic CT	1
Other	Disapproval	S8037 MAGNETIC RESONANCE CHOLANGIOPANCREATOGRAPHY (MRCP)	Radiology Services Denied Not Medically Necessary	Abnormal MRI; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Otolaryngology	Approval	70450 Computed tomography, head or brain; without contrast material			1

Otolaryngology	Approval	70450 Computed tomography, head or brain; without contrast material	pt has squamous cell carcinoma skin, scalp and neck.; This study is being ordered for a metastatic disease.; There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Otolaryngology	Approval	70480 Computed tomography, orbit, sella, or posterior fossa or outer, middle, or inner ear; without contrast material	"This request is for orbit,sella, int. auditory canal,temporal bone, mastoid, CT.239.8"; "There is not suspicion of bone infection, cholesteatoma, or inflammatory disease.ostct"; "There is not a history of serious head or skull, trauma or injury.ostct"; "There is not suspicion of neoplasm, or metastasis.ostct"; This is a preoperative or recent postoperative evaluation.	6
Otolaryngology	Approval	70480 Computed tomography, orbit, sella, or posterior fossa or outer, middle, or inner ear; without contrast material	"This request is for orbit,sella, int. auditory canal,temporal bone, mastoid, CT.239.8"; "There is not suspicion of bone infection, cholesteatoma, or inflammatory disease.ostct"; "There is not a history of serious head or skull, trauma or injury.ostct"; "There is not suspicion of neoplasm, or metastasis.ostct"; This is not a preoperative or recent postoperative evaluation.; "There is not suspicion of acoustic neuroma, pituitary or other tumor. ostct"	6
Otolaryngology	Approval	70480 Computed tomography, orbit, sella, or posterior fossa or outer, middle, or inner ear; without contrast material	"This request is for orbit,sella, int. auditory canal,temporal bone, mastoid, CT.239.8"; "There is not suspicion of bone infection, cholesteatoma, or inflammatory disease.ostct"; "There is not a history of serious head or skull, trauma or injury.ostct"; "There is not suspicion of neoplasm, or metastasis.ostct"; This is not a preoperative or recent postoperative evaluation.; "There is suspicion of acoustic neuroma, pituitary or other tumor. ostct"	1
Otolaryngology	Approval	70480 Computed tomography, orbit, sella, or posterior fossa or outer, middle, or inner ear; without contrast material	"This request is for orbit,sella, int. auditory canal,temporal bone, mastoid, CT.239.8"; "There is suspicion of bone infection, cholesteatoma, or inflammatory disease.ostct"	38

Otolaryngology	Approval	70480 Computed tomography, orbit, sella, or posterior fossa or outer, middle, or inner ear; without contrast material	"This request is for orbit,sella, int. auditory canal,temporal bone, mastoid, CT.239.8"; "There is suspicion of bone infection, cholesteatoma, or inflammatory disease.ostct"; Yes this is a request for a Diagnostic CT	2
Otolaryngology	Approval	70480 Computed tomography, orbit, sella, or posterior fossa or outer, middle, or inner ear; without contrast material	&lt; Enter answer here - or Type In Unknown If No Info Given. &gt;; This study is being ordered for a metastatic disease.; There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Otolaryngology	Approval	70480 Computed tomography, orbit, sella, or posterior fossa or outer, middle, or inner ear; without contrast material	&lt; Enter answer here - or Type In Unknown If No Info Given. &gt;; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 12/28/17; There has been treatment or conservative therapy.; Patient has swelling ,right eye swollen, facial pain, congestion.; Pain medication, and antibiotics; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Otolaryngology	Approval	70480 Computed tomography, orbit, sella, or posterior fossa or outer, middle, or inner ear; without contrast material	; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1

Otolaryngology	Approval	70480 Computed tomography, orbit, sella, or posterior fossa or outer, middle, or inner ear; without contrast material	; This study is being ordered for Inflammatory/ Infectious Disease.; 08/01/2017; There has been treatment or conservative therapy.; face pain and pressure, headaches, post nasal drainage; antibiotics, allergy medication, flonase, immunotherapy injections; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Otolaryngology	Approval	70480 Computed tomography, orbit, sella, or posterior fossa or outer, middle, or inner ear; without contrast material	No; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 08/01/2017; There has been treatment or conservative therapy.; Facial pain, pressure, swelling, ear pain, dry mouth; Patient does not feel normal on the left side of head. She feels fullness, pressure, pain. She has tried antibiotics, flonase, allergy medication. None of these seem to help. She also has facial swelling, dry mouth, and ear pain.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Otolaryngology	Approval	70486 Computed tomography, maxillofacial area; without contrast material		11
Otolaryngology	Approval	70486 Computed tomography, maxillofacial area; without contrast material	"This request is for face, jaw, mandible CT.239.8"; "There is a history of serious facial bone or skull, trauma or injury.fct"; Yes this is a request for a Diagnostic CT	4

Otolaryngology	Approval	70486 Computed tomography, maxillofacial area; without contrast material	"This request is for face, jaw, mandible CT.239.8"; "There is not a history of serious facial bone or skull, trauma or injury.fct"; "There is not a suspicion of neoplasm, tumor or metastasis.fct"; "There is not a suspicion of bone infection, [osteomyelitis].fct"; This is a preoperative or recent postoperative evaluation.; Yes this is a request for a Diagnostic CT	3
Otolaryngology	Approval	70486 Computed tomography, maxillofacial area; without contrast material	"This request is for face, jaw, mandible CT.239.8"; "There is not a history of serious facial bone or skull, trauma or injury.fct"; "There is suspicion of neoplasm, tumor or metastasis.fct"; Yes this is a request for a Diagnostic CT	2
Otolaryngology	Approval	70486 Computed tomography, maxillofacial area; without contrast material	&lt; Enter answer here - or Type In Unknown If No Info Given. &gt;; "This request is for face, jaw, mandible CT.239.8"; "There is not a history of serious facial bone or skull, trauma or injury.fct"; "There is not a suspicion of neoplasm, tumor or metastasis.fct"; "There is not a suspicion of bone infection, [osteomyelitis].fct"; This is not a preoperative or recent postoperative evaluation.; Yes this is a request for a Diagnostic CT	1
Otolaryngology	Approval	70486 Computed tomography, maxillofacial area; without contrast material	&lt; Enter answer here - or Type In Unknown If No Info Given. &gt;; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Otolaryngology	Approval	70486 Computed tomography, maxillofacial area; without contrast material	&lt; Enter answer here - or Type In Unknown If No Info Given. &gt;; This study is being ordered for sinusitis.; This is a request for a Sinus CT.; It is unknown if the patient is immune-compromised.; The patient's current rhinosinusitis symptoms are described as Chronic Rhinosinusitis (episode is greater than 12 weeks); Yes this is a request for a Diagnostic CT	2
Otolaryngology	Approval	70486 Computed tomography, maxillofacial area; without contrast material	&lt; Enter answer here - or Type In Unknown If No Info Given. &gt;; This study is being ordered for sinusitis.; This is a request for a Sinus CT.; The patient is NOT immune-compromised.; The patient's current rhinosinusitis symptoms are described as Chronic Rhinosinusitis (episode is greater than 12 weeks); Yes this is a request for a Diagnostic CT	1

Otolaryngology	Approval	70486 Computed tomography, maxillofacial area; without contrast material	&lt; Enter answer here - or Type In Unknown If No Info Given. &gt;; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 12/28/17; There has been treatment or conservative therapy.; Patient has swelling ,right eye swollen, facial pain, congestion.; Pain medication, and antibiotocs; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Otolaryngology	Approval	70486 Computed tomography, maxillofacial area; without contrast material	; This study is being ordered for Inflammatory/ Infectious Disease.; 08/01/2017; There has been treatment or conservative therapy.; face pain and pressure, headaches, post nasal drainage; antibiotics, allergy medication, flonase, immunotherapy injections; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Otolaryngology	Approval	70486 Computed tomography, maxillofacial area; without contrast material	; This study is being ordered for sinusitis.; This is a request for a Sinus CT.; It is unknown if the patient is immune-compromised.; The patient's current rhinosinusitis symptoms are described as Chronic Rhinosinusitis (episode is greater than 12 weeks); Yes this is a request for a Diagnostic CT	1
Otolaryngology	Approval	70486 Computed tomography, maxillofacial area; without contrast material	; This study is being ordered for sinusitis.; This is a request for a Sinus CT.; The patient is NOT immune-compromised.; The patient's current rhinosinusitis symptoms are described as Chronic Rhinosinusitis (episode is greater than 12 weeks); Yes this is a request for a Diagnostic CT	5

Otolaryngology	Approval	70486 Computed tomography, maxillofacial area; without contrast material	59-year-old gentleman with a multiple year history of recurrent sinus infections. He reports he has been on 8-9 rounds of antibiotics this last year with associated symptoms of increased nasal congestion, sinus pressure, purulent yellow drainage, which m; This study is being ordered for sinusitis.; This is a request for a Sinus CT.; The patient is NOT immune-compromised.; The patient's current rhinosinusitis symptoms are described as Recurrent Acute Rhinosinusitis (4 or more acute episodes per year); Yes this is a request for a Diagnostic CT	1
Otolaryngology	Approval	70486 Computed tomography, maxillofacial area; without contrast material	ADDISON IS A 8 YEAR OLD FEMALE WITH PET x4, T&A LAST SET OF TUBES PLACED IN 2016. SHE HAS A HISTORY OF UNREPAIRED TM PERFORATION. SHE HAD RIGHT SIDED OTORRHEA IN DECEMBER. SHE THEN WAS DIAGNOSED WITH A SINUS INFECTION AT THE BEGINNING OF FEBRUARY AND WAS ; "This request is for face, jaw, mandible CT.239.8"; "There is not a history of serious facial bone or skull, trauma or injury.fct"; "There is not a suspicion of neoplasm, tumor or metastasis.fct"; "There is not a suspicion of bone infection, [osteomyelitis].fct"; This is not a preoperative or recent postoperative evaluation.; Yes this is a request for a Diagnostic CT	1
Otolaryngology	Approval	70486 Computed tomography, maxillofacial area; without contrast material	As long as he can remember he has problems with sinus infections that last for months. Will take meds to go away and comes right back. Did take allergy meds for a while and nasal sprays seemed to give him headaches. Cant smell. THis has been for years. W; This study is being ordered for sinusitis.; This is a request for a Sinus CT.; The patient is NOT immune-compromised.; The patient's current rhinosinusitis symptoms are described as Chronic Rhinosinusitis (episode is greater than 12 weeks); Yes this is a request for a Diagnostic CT	1

Otolaryngology	Approval	70486 Computed tomography, maxillofacial area; without contrast material	Chronic sinusitis treated on multiple occasions with 4 weeks of continuous medication, antibiotics, flonase and steroids without symptoms improving.&#x0D; Associated symptoms include pain in both ears, ear discharge, headaches, hearing loss, rhinorrhea and a s; This study is being ordered for sinusitis.; This is a request for a Sinus CT.; The patient is NOT immune-compromised.; The patient's current rhinosinusitis symptoms are described as Chronic Rhinosinusitis (episode is greater than 12 weeks); Yes this is a request for a Diagnostic CT	1
Otolaryngology	Approval	70486 Computed tomography, maxillofacial area; without contrast material	Chronic Sinusitis. Bilateral facial pressure, headaches, foul taste / smell.; This study is being ordered for sinusitis.; This is a request for a Sinus CT.; The patient is NOT immune-compromised.; The patient's current rhinosinusitis symptoms are described as Chronic Rhinosinusitis (episode is greater than 12 weeks); Yes this is a request for a Diagnostic CT	1
Otolaryngology	Approval	70486 Computed tomography, maxillofacial area; without contrast material	CHRONIC SINUSITIS; This study is being ordered for sinusitis.; This is a request for a Sinus CT.; The patient is NOT immune-compromised.; The patient's current rhinosinusitis symptoms are described as Chronic Rhinosinusitis (episode is greater than 12 weeks); Yes this is a request for a Diagnostic CT	1
Otolaryngology	Approval	70486 Computed tomography, maxillofacial area; without contrast material	He has had trouble with chronic nasal obstruction for the past 8 years. He cannot breathe out of the left side of his nose. The right side is dry all of the time. He does have occasional nosebleeds. He uses Flonase as needed for the nasal obstruction. He ; This study is being ordered for sinusitis.; This is a request for a Sinus CT.; The patient is NOT immune-compromised.; The patient's current rhinosinusitis symptoms are described as Recurrent Acute Rhinosinusitis (4 or more acute episodes per year); Yes this is a request for a Diagnostic CT	1

Otolaryngology	Approval	70486 Computed tomography, maxillofacial area; without contrast material	Left upper gingival draining cyst; This study is not being ordered for trauma, tumor, sinusitis, osteomyelitis, pre operative or a post operative evaluation.; This is a request for a Sinus CT.; Yes this is a request for a Diagnostic CT	1
Otolaryngology	Approval	70486 Computed tomography, maxillofacial area; without contrast material	n/a; This study is being ordered for sinusitis.; This is a request for a Sinus CT.; The patient is NOT immune-compromised.; The patient's current rhinosinusitis symptoms are described as Chronic Rhinosinusitis (episode is greater than 12 weeks); Yes this is a request for a Diagnostic CT	1
Otolaryngology	Approval	70486 Computed tomography, maxillofacial area; without contrast material	nasal pharyngitis with Staph and some fluid seen on the sinus CT. He says his cough persisted but recently started to get worse over the past few months. Had cough, fever, and chills in early January. He was found to have pneumonia. Eventually it prog; This study is being ordered for sinusitis.; This is a request for a Sinus CT.; The patient is NOT immune-compromised.; The patient's current rhinosinusitis symptoms are described as Chronic Rhinosinusitis (episode is greater than 12 weeks); Yes this is a request for a Diagnostic CT	1
Otolaryngology	Approval	70486 Computed tomography, maxillofacial area; without contrast material	No; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 08/01/2017; There has been treatment or conservative therapy.; Facial pain, pressure, swelling, ear pain, dry mouth; Patient does not feel normal on the left side of head. She feels fullness, pressure, pain. She has tried antibiotics, flonase, allergy medication. None of these seem to help. She also has facial swelling, dry mouth, and ear pain.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

Otolaryngology	Approval	70486 Computed tomography, maxillofacial area; without contrast material	<p>Patient is having ongoing sinus infections since October 2017 she has been treated with a rounds taking antibiotics and antihistamines; This study is being ordered for sinusitis.; This is a request for a Sinus CT.; The patient is NOT immune-compromised.; The patient's current rhinosinusitis symptoms are described as Recurrent Acute Rhinosinusitis (4 or more acute episodes per year); Yes this is a request for a Diagnostic CT</p>	1
Otolaryngology	Approval	70486 Computed tomography, maxillofacial area; without contrast material	<p>Patient was 1st seen on 1-25-18 with complaints of nasal congestion and facial pressure for several years. She had not used any nasal sprays nor has been allergy tested. She was given nasal sprays, Azelastine 137mg, and Flonase to start. Patient returned ; This study is being ordered for sinusitis.; This is a request for a Sinus CT.; The patient is NOT immune-compromised.; The patient's current rhinosinusitis symptoms are described as (sudden onset of 2 or more symptoms of nasal discharge, blockage or congestion, facial pain, pressure and reduction or loss of sense of smell, which are less than 12 wks in duration); It has been 14 or more days since onset AND the patient failed a course of antibiotic treatment; Yes this is a request for a Diagnostic CT</p>	1
Otolaryngology	Approval	70486 Computed tomography, maxillofacial area; without contrast material	<p>Pt has recurrent sinusitis, headaches, lots of drainage, tried allergy shots; they didn't help; This study is being ordered for sinusitis.; This is a request for a Sinus CT.; The patient is NOT immune-compromised.; The patient's current rhinosinusitis symptoms are described as Recurrent Acute Rhinosinusitis (4 or more acute episodes per year); Yes this is a request for a Diagnostic CT</p>	1
Otolaryngology	Approval	70486 Computed tomography, maxillofacial area; without contrast material	<p>Recurrent acute rhinosinusitis; This study is being ordered for sinusitis.; This is a request for a Sinus CT.; The patient is NOT immune-compromised.; The patient's current rhinosinusitis symptoms are described as Recurrent Acute Rhinosinusitis (4 or more acute episodes per year); Yes this is a request for a Diagnostic CT</p>	1

Otolaryngology	Approval	70486 Computed tomography, maxillofacial area; without contrast material	she has had headaches, right sided jaw pain, PPP, PND and a foul taste in her mouth. She has been treated with 5 antibiotics since October and they did not help. She was on Cephalexon, Penicillin, Doxycycline and Cefdinir. She has been on at least 4 con; This study is being ordered for sinusitis.; This is a request for a Sinus CT.; The patient is NOT immune-compromised.; The patient's current rhinosinusitis symptoms are described as Chronic Rhinosinusitis (episode is greater than 12 weeks); Yes this is a request for a Diagnostic CT	1
Otolaryngology	Approval	70486 Computed tomography, maxillofacial area; without contrast material	she has multiple environmental allergies and is currently on immunotherapy. Reports allergies seem to be controlled, however, she has chronic nasal congestion and sinus pressure which seems to be worse on the left side. States she has problems breathing ; This study is being ordered for sinusitis.; This is a request for a Sinus CT.; The patient is immune-compromised.; Yes this is a request for a Diagnostic CT	1
Otolaryngology	Approval	70486 Computed tomography, maxillofacial area; without contrast material	sinusitis; This study is being ordered for sinusitis.; This is a request for a Sinus CT.; The patient is NOT immune-compromised.; The patient's current rhinosinusitis symptoms are described as Chronic Rhinosinusitis (episode is greater than 12 weeks); Yes this is a request for a Diagnostic CT	1
Otolaryngology	Approval	70486 Computed tomography, maxillofacial area; without contrast material	The current episode started more than 1 month ago. The problem has been rapidly worsening since onset. &#x0D; &#x0D; Associated symptoms include congestion, coughing, ear pain, headaches, a hoarse voice, sinus pressure, sneezing and a sore throat. &#x0D; &#x0D; Review of Sy; This study is being ordered for sinusitis.; This is a request for a Sinus CT.; The patient is NOT immune-compromised.; The patient's current rhinosinusitis symptoms are described as Recurrent Acute Rhinosinusitis (4 or more acute episodes per year); Yes this is a request for a Diagnostic CT	1

Otolaryngology	Approval	70486 Computed tomography, maxillofacial area; without contrast material	This is a request for a Sinus CT.; This study is being ordered for a known or suspected tumor.; Yes this is a request for a Diagnostic CT	17
Otolaryngology	Approval	70486 Computed tomography, maxillofacial area; without contrast material	This is a request for a Sinus CT.; This study is being ordered for follow-up to trauma.; Yes this is a request for a Diagnostic CT	4
Otolaryngology	Approval	70486 Computed tomography, maxillofacial area; without contrast material	This is a request for a Sinus CT.; This study is being ordered for osteomyelitis.; Yes this is a request for a Diagnostic CT	1
Otolaryngology	Approval	70486 Computed tomography, maxillofacial area; without contrast material	This is a request for a Sinus CT.; This study is being ordered for pre-operative evaluation.; Yes this is a request for a Diagnostic CT	21
Otolaryngology	Approval	70486 Computed tomography, maxillofacial area; without contrast material	This is a request for a Sinus CT.; This study is being ordered for sinusitis.; It is unknown if the patient is immune-compromised.; The patient's current rhinosinusitis symptoms are described as Chronic Rhinosinusitis (episode is greater than 12 weeks); Yes this is a request for a Diagnostic CT	8
Otolaryngology	Approval	70486 Computed tomography, maxillofacial area; without contrast material	This is a request for a Sinus CT.; This study is being ordered for sinusitis.; It is unknown if the patient is immune-compromised.; The patient's current rhinosinusitis symptoms are described as Recurrent Acute Rhinosinusitis (4 or more acute episodes per year); Yes this is a request for a Diagnostic CT	1
Otolaryngology	Approval	70486 Computed tomography, maxillofacial area; without contrast material	This is a request for a Sinus CT.; This study is being ordered for sinusitis.; It is unknown if the patient is immune-compromised.; The patient's current rhinosinusitis symptoms are unknown.; Yes this is a request for a Diagnostic CT	1
Otolaryngology	Approval	70486 Computed tomography, maxillofacial area; without contrast material	This is a request for a Sinus CT.; This study is being ordered for sinusitis.; The patient is immune-compromised.; Yes this is a request for a Diagnostic CT	8

Otolaryngology	Approval	70486 Computed tomography, maxillofacial area; without contrast material	This is a request for a Sinus CT.; This study is being ordered for sinusitis.; The patient is NOT immune-compromised.; The patient's current rhinosinusitis symptoms are described as (sudden onset of 2 or more symptoms of nasal discharge, blockage or congestion, facial pain, pressure and reduction or loss of sense of smell, which are less than 12 wks in duration); It has been 14 or more days since onset AND the patient failed a course of antibiotic treatment; Yes this is a request for a Diagnostic CT	5
Otolaryngology	Approval	70486 Computed tomography, maxillofacial area; without contrast material	This is a request for a Sinus CT.; This study is being ordered for sinusitis.; The patient is NOT immune-compromised.; The patient's current rhinosinusitis symptoms are described as Chronic Rhinosinusitis (episode is greater than 12 weeks); Yes this is a request for a Diagnostic CT	89
Otolaryngology	Approval	70486 Computed tomography, maxillofacial area; without contrast material	This is a request for a Sinus CT.; This study is being ordered for sinusitis.; The patient is NOT immune-compromised.; The patient's current rhinosinusitis symptoms are described as Recurrent Acute Rhinosinusitis (4 or more acute episodes per year); Yes this is a request for a Diagnostic CT	43
Otolaryngology	Approval	70486 Computed tomography, maxillofacial area; without contrast material	This is a request for a Sinus CT.; This study is being ordered for sinusitis.; The patient is NOT immune-compromised.; The patient's current rhinosinusitis symptoms are unknown.; Yes this is a request for a Diagnostic CT	1
Otolaryngology	Approval	70486 Computed tomography, maxillofacial area; without contrast material	This is a request for a Sinus CT.; This study is not being ordered for trauma, tumor, sinusitis, osteomyelitis, pre operative or a post operative evaluation.; Yes this is a request for a Diagnostic CT	4
Otolaryngology	Approval	70486 Computed tomography, maxillofacial area; without contrast material	This study is being ordered for a known or suspected tumor.; This is a request for a Sinus CT.; Yes this is a request for a Diagnostic CT	3
Otolaryngology	Approval	70486 Computed tomography, maxillofacial area; without contrast material	This study is being ordered for osteomyelitis.; This is a request for a Sinus CT.; Yes this is a request for a Diagnostic CT	1

Otolaryngology	Approval	70486 Computed tomography, maxillofacial area; without contrast material	This study is being ordered for post-operative evaluation.; This is a request for a Sinus CT.; Yes this is a request for a Diagnostic CT	1
Otolaryngology	Approval	70486 Computed tomography, maxillofacial area; without contrast material	This study is being ordered for pre-operative evaluation.; This is a request for a Sinus CT.; Yes this is a request for a Diagnostic CT	9
Otolaryngology	Approval	70486 Computed tomography, maxillofacial area; without contrast material	This study is being ordered for sinusitis.; This is a request for a Sinus CT.; The patient is NOT immune-compromised.; The patient's current rhinosinusitis symptoms are described as Chronic Rhinosinusitis (episode is greater than 12 weeks); Yes this is a request for a Diagnostic CT	1
Otolaryngology	Approval	70486 Computed tomography, maxillofacial area; without contrast material	Unknown; This study is being ordered for sinusitis.; This is a request for a Sinus CT.; The patient is NOT immune-compromised.; The patient's current rhinosinusitis symptoms are described as Chronic Rhinosinusitis (episode is greater than 12 weeks); Yes this is a request for a Diagnostic CT	1
Otolaryngology	Approval	70486 Computed tomography, maxillofacial area; without contrast material	will FAX; This study is being ordered for sinusitis.; This is a request for a Sinus CT.; The patient is NOT immune-compromised.; The patient's current rhinosinusitis symptoms are described as Recurrent Acute Rhinosinusitis (4 or more acute episodes per year); Yes this is a request for a Diagnostic CT	1
Otolaryngology	Approval	70490 Computed tomography, soft tissue neck; without contrast material		10
Otolaryngology	Approval	70490 Computed tomography, soft tissue neck; without contrast material	&lt; Enter answer here - or Type In Unknown If No Info Given. &gt;; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Otolaryngology	Approval	70490 Computed tomography, soft tissue neck; without contrast material	&lt; Enter answer here - or Type In Unknown If No Info Given. &gt;; This is a request for neck soft tissue CT.; The patient has a neck lump or mass.; There is a palpable neck mass or lump.; The neck mass is larger than 1 cm.; A fine needle aspirate was NOT done.; Yes this is a request for a Diagnostic CT	1

Otolaryngology	Approval	70490 Computed tomography, soft tissue neck; without contrast material	&lt; Enter answer here - or Type In Unknown If No Info Given. &gt;; This is a request for neck soft tissue CT.; The patient has a neck lump or mass.; There is NOT a palpable neck mass or lump.; Yes this is a request for a Diagnostic CT	1
Otolaryngology	Approval	70490 Computed tomography, soft tissue neck; without contrast material	&lt; Enter answer here - or Type In Unknown If No Info Given. &gt;; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 12/2017; There has been treatment or conservative therapy.; enlarged lymph nodes; &lt; Describe treatment / conservative therapy here - or Type In Unknown If No Info Given &gt;; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Otolaryngology	Approval	70490 Computed tomography, soft tissue neck; without contrast material	; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Otolaryngology	Approval	70490 Computed tomography, soft tissue neck; without contrast material	; This is a request for neck soft tissue CT.; The patient has a neck lump or mass.; There is a palpable neck mass or lump.; The neck mass is 1 cm or smaller.; The neck mass has been examined twice at least 30 days apart.; The lump did not get smaller.; A fine needle aspirate was NOT done.; Yes this is a request for a Diagnostic CT	1
Otolaryngology	Approval	70490 Computed tomography, soft tissue neck; without contrast material	; This is a request for neck soft tissue CT.; The study is being ordered for something other than Trauma or other injury, Neck lump/mass, Known tumor or metastasis in the neck, suspicious infection/abcess or a pre-operative evaluation.; Yes this is a request for a Diagnostic CT	1

Otolaryngology	Approval	70490 Computed tomography, soft tissue neck; without contrast material	Chronic neck pain with referred otalgia. In oral cavity, her tonsils are absent. We see no signs of acute infection or mass. I again recommend repeating CT of the neck with contrast as well as CT of the cervical spine and a pain management evaluation; This is a request for neck soft tissue CT.; The study is being ordered for something other than Trauma or other injury, Neck lump/mass, Known tumor or metastasis in the neck, suspicious infection/abcess or a pre-operative evaluation.; Yes this is a request for a Diagnostic CT	1
Otolaryngology	Approval	70490 Computed tomography, soft tissue neck; without contrast material	Evaluate parotitis. He was seen by Dr. Moyo on 01/24/18 for left parotid swelling and he was to begin Ceftin and a MDP. He was then seen on 02/01/18 and he was given a DecaMix injection and was to begin Keflex and Flagyl and follow up with ENT. He says; This is a request for neck soft tissue CT.; Surgery is NOT scheduled within the next 30 days.; The patient has a suspicious infection or abscess.; Yes this is a request for a Diagnostic CT	1
Otolaryngology	Approval	70490 Computed tomography, soft tissue neck; without contrast material	has been on antibiotics, has been infected for 3 weeks, a need aspirate was completed, no x rays; This is a request for neck soft tissue CT.; Surgery is NOT scheduled within the next 30 days.; The patient has a suspicious infection or abscess.; Yes this is a request for a Diagnostic CT	1
Otolaryngology	Approval	70490 Computed tomography, soft tissue neck; without contrast material	Left sided lymph node enlargement submandibular mass, tender needs ct soft tissue &#x0D; Lymphadenopathy: &#x0D; Head (left side): Submental, submandibular and posterior auricular adenopathy present. &#x0D; She has cervical adenopathy. &#x0D; Left cervical: Super; This is a request for neck soft tissue CT.; The patient has a neck lump or mass.; There is a palpable neck mass or lump.; The neck mass is 1 cm or smaller.; The neck mass has NOT been examined twice at least 30 days apart.; Yes this is a request for a Diagnostic CT	1

Otolaryngology	Approval	70490 Computed tomography, soft tissue neck; without contrast material	long-term heavy smoker. Recent finding of a right level II lymph node. Ultrasound favored a reactive lymph node. No otalgia. No dysphagia. &#x0D; &#x0D; &#x0D; Indirect laryngoscopy was attempted but not tolerated so flexible fiberoptic laryngoscopy was performed. Decon; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Otolaryngology	Approval	70490 Computed tomography, soft tissue neck; without contrast material	mass is on the pt tongue; This is a request for neck soft tissue CT.; The patient has a neck lump or mass.; There is a palpable neck mass or lump.; The neck mass is larger than 1 cm.; A fine needle aspirate was NOT done.; Yes this is a request for a Diagnostic CT	1
Otolaryngology	Approval	70490 Computed tomography, soft tissue neck; without contrast material	No info given.; This study is being ordered for a metastatic disease.; There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Otolaryngology	Approval	70490 Computed tomography, soft tissue neck; without contrast material	pt has squamous cell carcinoma skin, scalp and neck.; This study is being ordered for a metastatic disease.; There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Otolaryngology	Approval	70490 Computed tomography, soft tissue neck; without contrast material	Several month history of right-sided throat pain and ear pain. The patient is a recently exsmoker. Erythema of the right superior tonsillar pole with a palpable area of hardness. This was anesthetized and biopsied.&#x0D; Probable carcinoma of the tonsil; This is a request for neck soft tissue CT.; Surgery is NOT scheduled within the next 30 days.; The patient has a suspicious infection or abscess.; Yes this is a request for a Diagnostic CT	1

Otolaryngology	Approval	70490 Computed tomography, soft tissue neck; without contrast material	This is a request for neck soft tissue CT.; Surgery is scheduled within the next 30 days.; The study is being ordered as a pre-operative evaluation.; Yes this is a request for a Diagnostic CT	1
Otolaryngology	Approval	70490 Computed tomography, soft tissue neck; without contrast material	This is a request for neck soft tissue CT.; The study is being ordered for Initial Staging.; The patient has a known tumor or metastasis in the neck.; Yes this is a request for a Diagnostic CT	1
Otolaryngology	Approval	70490 Computed tomography, soft tissue neck; without contrast material	This is a request for neck soft tissue CT.; The study is being ordered for recent trauma or other injury.; Yes this is a request for a Diagnostic CT	1
Otolaryngology	Approval	70490 Computed tomography, soft tissue neck; without contrast material	This is a request for neck soft tissue CT.; There has been recent trauma or other injury to the neck.; Yes this is a request for a Diagnostic CT	1
Otolaryngology	Approval	70490 Computed tomography, soft tissue neck; without contrast material	This is a request for neck soft tissue CT.; There has not been recent trauma or other injury to the neck.; It is unknown if there is suspicion of or known tumor, metastasis, lymphadenopathy, or mass.; It is unknown if there is a suspicion of an infection or abscess.; This is being ordered by an ENT specialist.; Yes this is a request for a Diagnostic CT	2
Otolaryngology	Approval	70490 Computed tomography, soft tissue neck; without contrast material	This is a request for neck soft tissue CT.; There has not been recent trauma or other injury to the neck.; It is unknown if there is suspicion of or known tumor, metastasis, lymphadenopathy, or mass.; There is a suspicion of an infection or abscess.; Yes this is a request for a Diagnostic CT	3
Otolaryngology	Approval	70490 Computed tomography, soft tissue neck; without contrast material	This is a request for neck soft tissue CT.; There has not been recent trauma or other injury to the neck.; There is no suspicion of or known tumor, metastasis, lymphadenopathy, or mass.; There is a suspicion of an infection or abscess.; Yes this is a request for a Diagnostic CT	1
Otolaryngology	Approval	70490 Computed tomography, soft tissue neck; without contrast material	This is a request for neck soft tissue CT.; There has not been recent trauma or other injury to the neck.; There is no suspicion of or known tumor, metastasis, lymphadenopathy, or mass.; There is not a suspicion of an infection or abscess.; This is being ordered by an ENT specialist.; Yes this is a request for a Diagnostic CT	4

Otolaryngology	Approval	70490 Computed tomography, soft tissue neck; without contrast material	This is a request for neck soft tissue CT.; There has not been recent trauma or other injury to the neck.; There is suspicion of or known tumor, metastasis, lymphadenopathy, or mass.; Yes this is a request for a Diagnostic CT	59
Otolaryngology	Approval	70490 Computed tomography, soft tissue neck; without contrast material	trouble swallowing/neck mass/throat pain. &#x0D; With sig daily headaches not controlled with medical management and new right sided neck mass do feel pt would benefit from CT Neck and MRI Head for eval for headaches and right sided neck mass; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Otolaryngology	Approval	70490 Computed tomography, soft tissue neck; without contrast material	Unknown; This is a request for neck soft tissue CT.; Surgery is NOT scheduled within the next 30 days.; The patient has a suspicious infection or abscess.; Yes this is a request for a Diagnostic CT	1
Otolaryngology	Approval	70490 Computed tomography, soft tissue neck; without contrast material	Wants CT for Mass Removal, Pre-op evaluation; This is a request for neck soft tissue CT.; The patient has a neck lump or mass.; There is a palpable neck mass or lump.; The neck mass is larger than 1 cm.; A fine needle aspirate was NOT done.; Yes this is a request for a Diagnostic CT	1
Otolaryngology	Approval	70496 Computed tomographic angiography, head, with contrast material(s), including noncontrast images, if performed, and image postprocessing	&lt; Enter answer here - or Type In Unknown If No Info Given. &gt;; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; &lt; Enter date of initial onset here - or Type In Unknown If No Info Given &gt;; It is not known if there has been any treatment or conservative therapy.; &lt; Describe primary symptoms here - or Type In Unknown If No Info Given &gt;; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

Otolaryngology	Approval	70496 Computed tomographic angiography, head, with contrast material(s), including noncontrast images, if performed, and image postprocessing	Yes, this is a request for CT Angiography of the brain.	2
Otolaryngology	Approval	70498 Computed tomographic angiography, neck, with contrast material(s), including noncontrast images, if performed, and image postprocessing		1
Otolaryngology	Approval	70498 Computed tomographic angiography, neck, with contrast material(s), including noncontrast images, if performed, and image postprocessing	&lt; Enter answer here - or Type In Unknown If No Info Given. &gt;; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; &lt; Enter date of initial onset here - or Type In Unknown If No Info Given &gt;; It is not known if there has been any treatment or conservative therapy.; &lt; Describe primary symptoms here - or Type In Unknown If No Info Given &gt;; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Otolaryngology	Approval	70498 Computed tomographic angiography, neck, with contrast material(s), including noncontrast images, if performed, and image postprocessing	Yes, this is a request for CT Angiography of the Neck.	1
Otolaryngology	Approval	70540 Magnetic resonance (eg, proton) imaging, orbit, face, and/or neck; without contrast material(s)		1

Otolaryngology	Approval	70540 Magnetic resonance (eg, proton) imaging, orbit, face, and/or neck; without contrast material(s)	&lt; Enter answer here - or Type In Unknown If No Info Given. &gt;; This study is being ordered for Inflammatory/ Infectious Disease.; 2/3/18; There has been treatment or conservative therapy.; Several weeks of warning in the ears. autophonia.; Alahist AC Ipratropium Bromide; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Otolaryngology	Approval	70540 Magnetic resonance (eg, proton) imaging, orbit, face, and/or neck; without contrast material(s)	; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	2
Otolaryngology	Approval	70540 Magnetic resonance (eg, proton) imaging, orbit, face, and/or neck; without contrast material(s)	Cyclical periods of left severe larynx pain associated with coughing paroxysms and laryngospasm that I think are most consistent with a possible superior laryngeal nerve neuralgia type picture.; "This is a request for orbit,face, or neck soft tissue MRI.239.8"; The reason for the study is not for trauma, infection,cancer, mass, tumor, pre or post-operative evaluation	1
Otolaryngology	Approval	70540 Magnetic resonance (eg, proton) imaging, orbit, face, and/or neck; without contrast material(s)	There is a suspicion of an infection or abscess.; This is a request for a Face MRI.; There is not a history of orbit or face trauma or injury.	1
Otolaryngology	Approval	70540 Magnetic resonance (eg, proton) imaging, orbit, face, and/or neck; without contrast material(s)	There is not a suspicion of an infection or abscess.; This examination is being requested to evaluate lymphadenopathy or mass.; This is a request for a Face MRI.; There is not a history of orbit or face trauma or injury.	1
Otolaryngology	Approval	70540 Magnetic resonance (eg, proton) imaging, orbit, face, and/or neck; without contrast material(s)	Venous malformation, lesion on eyelid; There is not a suspicion of an infection or abscess.; This examination is NOT being requested to evaluate lymphadenopathy or mass.; There is not a suspicion of a bone infection (osteomyelitis).; There is NOT a suspicion of an orbit or face neoplasm, tumor, or metastasis.; This is a request for a Face MRI.; There is not a history of orbit or face trauma or injury.	1

Otolaryngology	Approval	70544 Magnetic resonance angiography, head; without contrast material(s)	; This study is being ordered for a neurological disorder.; PT IS HAVING MIGRAINES AND A BAD SMELL IN HIS NOSE AND HE HAS A HISTORY OF ANEURYSM; It is not known if there has been any treatment or conservative therapy.; PT IS HAVING MIGRAINES AND A BAD SMELL IN HIS NOSE; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Otolaryngology	Approval	70544 Magnetic resonance angiography, head; without contrast material(s)	MRI BRAIN WITH AND WITHOUT GAD AND MRA BRAIN ARE BEING ORDERED. ; A few weeks ago, she felt like she could hear a whooshing sound in the right ear. She feels like it is in time with her pulse. It is worse in the quiet and she can make it stop by turni; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Otolaryngology	Approval	70544 Magnetic resonance angiography, head; without contrast material(s)	There is not an immediate family history of aneurysm.; The patient does not have a known aneurysm.; The patient has not had a recent MRI or CT for these symptoms.; There has not been a stroke or TIA within the past two weeks.; This is a request for a Brain MRA.	1
Otolaryngology	Approval	70547 Magnetic resonance angiography, neck; without contrast material(s)		1
Otolaryngology	Approval	70547 Magnetic resonance angiography, neck; without contrast material(s)	The patient has not had a recent MRI or CT for these symptoms.; There has not been a stroke or TIA within the past two weeks.; "There is a sudden onset of one-sided weakness, speech impairment, vision defects or severe dizziness."; This is a request for a Neck MR Angiography.	1
Otolaryngology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		1

Otolaryngology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	&lt; Enter answer here - or Type In Unknown If No Info Given. &gt;; This request is for a Brain MRI; It is unknown if the study is being requested for evaluation of a headache.; Not requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation,multiple sclerosis, or seizures; It is not known if the condition is associated with headache, blurred or double vision or a change in sensation noted on exam.; It is not known if a metabolic work-up done including urinalysis, electrolytes, and complete blood count with results completed.; The patient does NOT have dizziness, fatigue or malaise, Bell's Palsy, a congenital abnormality, loss of smell, hearing loss or vertigo.	1
Otolaryngology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	&lt; Enter answer here - or Type In Unknown If No Info Given. &gt;; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Not requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation,multiple sclerosis, or seizures; The patient had a normal audiogram.; The patient is experiencing hearing loss.	4
Otolaryngology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	&lt; Enter answer here - or Type In Unknown If No Info Given. &gt;; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Requested due to trauma or injury.; There are not new, intermittent symptoms or deficits such as one sided weakness, speech impairments, or vision defects.; The trauma or injury to the head occurred more than 1 week ago.	1

Otolaryngology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	&lt; Enter answer here - or Type In Unknown If No Info Given. &gt;; This study is being ordered for Inflammatory/ Infectious Disease.; 2/3/18; There has been treatment or conservative therapy.; Several weeks of warning in the ears. autophonia.; Alahist AC Ipratropium Bromide; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Otolaryngology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Not requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation,multiple sclerosis, or seizures; A metabolic work up was not done including urinalysis, electrolytes and complete blood count with results completed.; The patient is experiencing loss of smell.	1
Otolaryngology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Requested for evaluation of tumor; A biopsy has not been completed to determine tumor tissue type.; There are not recent neurological symptoms such as one-sided weakness, speech impairments, or vision defects.; There is not a new and sudden onset of headache (less than 1 week) not improved by pain medications.; The tumor is not a pituitary tumor or pituitary adenoma.	5
Otolaryngology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; The patient does not have dizziness, fatigue or malaise, sudden change in mental status, Bell's palsy, Congenital abnormality, loss of smell, hearing loss or vertigo.; It is unknown why this study is being ordered.	1

Otolaryngology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	<p>; This study is being ordered for a neurological disorder.; PT IS HAVING MIGRAINES AND A BAD SMELL IN HIS NOSE AND HE HAS A HISTORY OF ANEURYSM; It is not known if there has been any treatment or conservative therapy.; PT IS HAVING MIGRAINES AND A BAD SMELL IN HIS NOSE; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology</p>	1
Otolaryngology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	<p>1 year history of intermittent phantosmia, described as a grass or kind of a rot smell that happens intermittently with no associated increased nasal congestion, purulent drainage, vision changes or loss or other significant headaches otherwise 2-3 year h; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Not requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation,multiple sclerosis, or seizures; It is not known if a metabolic work up was done including urinalysis, electrolytes and complete blood count with results completed.; The patient is experiencing loss of smell.</p>	1
Otolaryngology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	<p>26 year old with long hx of headaches, some photophobia, some nausea. These have been off an for years but more lately these headaches are almost daily. Severe. Lasts hours. Had headache 2 days ago that was excruciating. Lasted hours. Mom with hx of br; This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The headache is described as chronic or recurring.; The headache is not presenting with a sudden change in severity, associated with exertion, or a mental status change.; There are not recent neurological symptoms or deficits such as one sided weakness, speech impairments, or vision defects.; There is not a family history (parent, sibling or child of the patient) of AVM (arteriovenous malformation).</p>	1

Otolaryngology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	<p>but the major concern is repetitive headaches usually right sided but can be global. that are associated with vertigo. can be triggered by sounds and scents even during weather fronts. her mother has same symptoms and triggers. This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The headache is described as chronic or recurring.; It is not known if the headache is presenting with a sudden change in severity, associated with exertion, or a mental status change.; There are not recent neurological symptoms or deficits such as one sided weakness, speech impairments, or vision defects.; It is not known if there is a family history (parent, sibling or child of the patient) of AVM (arteriovenous malformation).</p>	1
Otolaryngology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	<p>Checking for tumor or growth, skull base dehiscence, or CSF leak.; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; NOT requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation, multiple sclerosis, or seizures; It is not known if a metabolic work up was done including urinalysis, electrolytes and complete blood count with results completed.; The patient is experiencing loss of smell.</p>	1
Otolaryngology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	<p>Cyclical periods of left severe larynx pain associated with coughing paroxysms and laryngospasm that I think are most consistent with a possible superior laryngeal nerve neuralgia type picture.; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; The patient does not have dizziness, fatigue or malaise, sudden change in mental status, Bell's palsy, Congenital abnormality, loss of smell, hearing loss or vertigo.; It is unknown why this study is being ordered.</p>	1

Otolaryngology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Disequilibrium with eyes closed, this has been a new phenomenon in the last 2 or 3 months. Some dizziness and lightheadedness when he gets up quickly, seems more cardiovascular than anything. Bilateral sensorineural hearing loss, fairly symmetrical.; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; The patient has a loss of smell.; It is unknown why this study is being ordered.	1
Otolaryngology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Facial Pain....Did a sinus Ct and bone abnormality on skull base; This request is for a Brain MRI; The study is being requested for evaluation of a headache.; This headache is not described as sudden, severe or chronic recurring.; The headache is not presenting with a sudden change in severity, associated with exertion, or a mental status change.; There are not recent neurological symptoms or deficits such as one sided weakness, speech impairments, or vision defects.; There is not a family history (parent, sibling or child of the patient) of AVM (arteriovenous malformation).	1
Otolaryngology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	He comes to the clinic for his ears. He states that he had a cold about 5 weeks ago and his right ear stopped up. He had his ears flushed, but it did not seem to help. He feels like his ear is a little distorted. &#x0D; &#x0D; EXAM: &#x0D; &#x0D; Constitutional &#x0D; &#x0D; Genet; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Not requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation, multiple sclerosis, or seizures; The patient had a normal audiogram.; The patient is experiencing hearing loss.	1

Otolaryngology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	headaches x 2 months, no relief from pain meds, ringing in ears.; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Requested for evaluation of tumor; A biopsy has not been completed to determine tumor tissue type.; There are not recent neurological symptoms such as one-sided weakness, speech impairments, or vision defects.; There is not a new and sudden onset of headache (less than 1 week) not improved by pain medications.; The tumor is not a pituitary tumor or pituitary adenoma.	1
Otolaryngology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	intermittent vertigo with normal hearing eval; This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The headache is described as chronic or recurring.; The headache is not presenting with a sudden change in severity, associated with exertion, or a mental status change.; There are not recent neurological symptoms or deficits such as one sided weakness, speech impairments, or vision defects.; There is not a family history (parent, sibling or child of the patient) of AVM (arteriovenous malformation).	1
Otolaryngology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	many year history of recurrent headaches. She has unilateral simple headaches with associated nausea, photophobia, but she 3 times a week reports she has aching pain over her forehead, around her eyes and over her cheeks, which can last multiple hours an; This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The patient has a chronic or recurring headache.	1
Otolaryngology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	MRI BRAIN WITH AND WITHOUT GAD AND MRA BRAIN ARE BEING ORDERED. ; A few weeks ago, she felt like she could hear a whooshing sound in the right ear. She feels like it is in time with her pulse. It is worse in the quiet and she can make it stop by turni; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1

Otolaryngology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	pt has disturbance of smell anosmia; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; The patient has a loss of smell.; It is unknown why this study is being ordered.	1
Otolaryngology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	r/u tumor; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Requested for evaluation of tumor; A biopsy has not been completed to determine tumor tissue type.; There are not recent neurological symptoms such as one-sided weakness, speech impairments, or vision defects.; There is not a new and sudden onset of headache (less than 1 week) not improved by pain medications.; It is not known if the tumor is a pituitary tumor or pituitary adenoma. Recurrent headaches most consistent with migraine variant versus cluster headaches. I recommend MRI of the brain with and without contrast, which we will look at both the brain and sinuses; This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The patient has a chronic or recurring headache.	1
Otolaryngology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Right sided aural fullness with vertigo. subjective hearing loss. could be a tumor or acoustic nueroma; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Requested for evaluation of tumor; A biopsy has not been completed to determine tumor tissue type.; There are not recent neurological symptoms such as one-sided weakness, speech impairments, or vision defects.; There is not a new and sudden onset of headache (less than 1 week) not improved by pain medications.; The tumor is not a pituitary tumor or pituitary adenoma.	1

Otolaryngology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Sametta J. Parker is a 44 year old African American/Black female that presents at this time for f/u on ENG 2-13-18 and sinus CT 2-7-18. Pt finished abx, but still having same symptoms. ; PT is having some cough and congestion of the nose.; Her sinus ; This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The headache is described as chronic or recurring.; It is not known if the headache is presenting with a sudden change in severity, associated with exertion, or a mental status change.; It is not known if there are recent neurological symptoms or deficits such as one sided weakness, speech impairments, or vision defects.; It is not known if there is a family history (parent, sibling or child of the patient) of AVM (arteriovenous malformation).	1
Otolaryngology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	This is a request for an Internal Auditory Canal MRI.; There is a suspected Acoustic Neuroma or tumor of the inner or middle ear.	48
Otolaryngology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	This is a request for an Internal Auditory Canal MRI.; There is not a suspected Acoustic Neuroma or tumor of the inner or middle ear.; There is not a suspected cholesteatoma of the ear.; The patient has not had a recent brain CT or MRI within the last 90 days.; There are neurologic symptoms or deficits such as one-sided weakness, speech impairments, vision defects or sudden onset of severe dizziness.	2
Otolaryngology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	This is a request for an Internal Auditory Canal MRI.; There is not a suspected Acoustic Neuroma or tumor of the inner or middle ear.; There is not a suspected cholesteatoma of the ear.; The patient has not had a recent brain CT or MRI within the last 90 days.; There are no neurologic symptoms or deficits such as one-sided weakness, speech impairments, vision defects or sudden onset of severe dizziness.; This is a pre-operative evaluation for a known tumor of the middle or inner ear.	1

Otolaryngology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	This is a request for an Internal Auditory Canal MRI.; There is not a suspected Acoustic Neuroma or tumor of the inner or middle ear.; There is not a suspected cholesteatoma of the ear.; The patient has not had a recent brain CT or MRI within the last 90 days.; There are no neurologic symptoms or deficits such as one-sided weakness, speech impairments, vision defects or sudden onset of severe dizziness.; This is not a pre-operative evaluation for a known tumor of the middle or inner ear.	2
Otolaryngology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The headache is described as chronic or recurring.; The headache is presenting with a sudden change in severity, associated with exertion, or a mental status change.	4
Otolaryngology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The headache is described as sudden and severe.; There are NO recent neurological deficits on exam such as one sided weakness, speech impairments or vision defects.; There is a new and sudden onset of a headache less than 1 week not improved by medications.; The headache is described as a "thunderclap" or the worst headache of the patient's life.	1
Otolaryngology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The headache is described as sudden and severe.; There recent neurological deficits on exam such as one sided weakness, speech impairments or vision defects.	1
Otolaryngology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The patient had a thunderclap headache or worst headache of the patient's life (within the last 3 months).	1

Otolaryngology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Not requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation,multiple sclerosis, or seizures; The condition is associated with headache, blurred or double vision or a change in sensation noted on exam.; The patient does NOT have dizziness, fatigue or malaise, Bell's Palsy, a congenital abnormality, loss of smell, hearing loss or vertigo.	1
Otolaryngology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Not requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation,multiple sclerosis, or seizures; The condition is associated with headache, blurred or double vision or a change in sensation noted on exam.; The patient is experiencing dizziness.	3
Otolaryngology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Not requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation,multiple sclerosis, or seizures; The patient did not have a normal audiogram.; The patient is experiencing hearing loss.	14
Otolaryngology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Requested for evaluation of stroke or aneurysm; There are recent neurological symptoms such as one sided weakness, speech impairments, or vision defects.	1
Otolaryngology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Requested for evaluation of tumor; A biopsy has been completed to determine tumor tissue type.	1

Otolaryngology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Requested for evaluation of tumor; A biopsy has not been completed to determine tumor tissue type.; There are not recent neurological symptoms such as one-sided weakness, speech impairments, or vision defects.; There is not a new and sudden onset of headache (less than 1 week) not improved by pain medications.; The tumor is a pituitary tumor or pituitary adenoma.; There are not physical findings or laboratory values indicating abnormal pituitary hormone levels.; There has not been a previous Brain MRI completed.; This is NOT a Medicare member.	1
Otolaryngology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Requested for evaluation of tumor; A biopsy has not been completed to determine tumor tissue type.; There are recent neurological symptoms such as one-sided weakness, speech impairments, or vision defects.	4
Otolaryngology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; The headache is described as a “thunderclap” or the worst headache of the patient’s life.; Requested for evaluation of tumor; It is not known if a biopsy has been completed to determine tumor tissue type.; There are not recent neurological symptoms such as one-sided weakness, speech impairments, or vision defects.; There is a new and sudden onset of headache (less than 1 week) not improved by pain medications.	1
Otolaryngology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; The patient has hearing loss.; The patient had an audiogram.; The results of the audiogram were abnormal.; It is unknown why this study is being ordered.	3
Otolaryngology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; This study is being ordered for a tumor.	2

Otolaryngology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	trouble swallowing/neck mass/throat pain. &#x0D; With sig daily headaches not controlled with medical management and new right sided neck mass do feel pt would benefit from CT Neck and MRI Head for eval for headaches and right sided neck mass; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Otolaryngology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	unknown; This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The headache is described as chronic or recurring.; The headache is not presenting with a sudden change in severity, associated with exertion, or a mental status change.; There are not recent neurological symptoms or deficits such as one sided weakness, speech impairments, or vision defects.; There is not a family history (parent, sibling or child of the patient) of AVM (arteriovenous malformation).	1
Otolaryngology	Approval	71250 Computed tomography, thorax; without contrast material	&lt; Enter answer here - or Type In Unknown If No Info Given. &gt;; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Otolaryngology	Approval	71250 Computed tomography, thorax; without contrast material	&lt; Enter answer here - or Type In Unknown If No Info Given. &gt;; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 12/2017; There has been treatment or conservative therapy.; enlarged lymph nodes; &lt; Describe treatment / conservative therapy here - or Type In Unknown If No Info Given &gt;; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

Otolaryngology	Approval	71250 Computed tomography, thorax; without contrast material	A Chest/Thorax CT is being ordered.; This study is being ordered for known tumor.; Yes this is a request for a Diagnostic CT	1
Otolaryngology	Approval	71250 Computed tomography, thorax; without contrast material	Abnormal imaging test describes the reason for this request.; This is a request for a Chest CT.; Yes this is a request for a Diagnostic CT	1
Otolaryngology	Approval	71250 Computed tomography, thorax; without contrast material	'None of the above' describes the reason for this request.; Initial staging prior to treatment is related to this request for imaging of a known cancer or tumor; This is a request for a Chest CT.; This study is being requested for known cancer or tumor; Yes this is a request for a Diagnostic CT	1
Otolaryngology	Approval	71250 Computed tomography, thorax; without contrast material	'None of the above' describes the reason for this request.; This study is being requested for 'none of the above'.; This is a request for a Chest CT.; This study is being requested for none of the above.; Yes this is a request for a Diagnostic CT	1
Otolaryngology	Approval	71250 Computed tomography, thorax; without contrast material	Pre-operative evaluation describes the reason for this request.; This is a request for a Chest CT.; Yes this is a request for a Diagnostic CT	2
Otolaryngology	Approval	72128 Computed tomography, thoracic spine; without contrast material	This is a request for a thoracic spine CT.; "The patient has been seen by, or the ordering physician is, a neuro-specialist, orthopedist, or oncologist."; The study is being ordered due to follow-up to surgery or fracture within the last 6 months.; There is a reason why the patient cannot undergo a thoracic spine MRI.; Yes this is a request for a Diagnostic CT	1
Otolaryngology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		1

Otolaryngology	Approval	78813 Positron emission tomography (PET) imaging; whole body	This is a request for a Tumor Imaging PET Scan; The suspicion of cancer is based on a more than 1 of the following; diagnostic test, imaging sstudy, or biopsy.; This study is being ordered to establish a cancer diagnosis.; This study is being ordered for something other than Breast CA, Lymphoma, Myeloma, Ovarian CA, Esophageal CA, Lung CA, Colorectal CA, Head/Neck CA, Melanoma, Soft Tissue Sarcoma, Pancreatic CA or Testicular CA.; This study is being requested for an other solid tumor.; This would be the first PET Scan performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Otolaryngology	Approval	78813 Positron emission tomography (PET) imaging; whole body	This is a request for a Tumor Imaging PET Scan; This study is being ordered for initial treatment (after a diagnosis of Cancer has been made).; This study is being requested for Head/Neck Cancer.; The patient does NOT have Thyroid or Brain cancer.; This would be the first PET Scan performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Otolaryngology	Approval	78813 Positron emission tomography (PET) imaging; whole body	This is a request for a Tumor Imaging PET Scan; This study is being ordered for subsequent treatment.; This study is being requested for Head/Neck Cancer.; The patient completed a course of treatment initiated within the last 8 weeks.; The patient does NOT have Thyroid or Brain cancer.; 1 PET Scans has already been performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Otolaryngology	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		1

Otolaryngology	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body	No info given.; This study is being ordered for a metastatic disease.; There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Otolaryngology	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body	This is a request for a Tumor Imaging PET Scan; It is unknown why the study is being ordered.; This study is being requested for Head/Neck Cancer.; The patient does NOT have Thyroid or Brain cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Otolaryngology	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body	This is a request for a Tumor Imaging PET Scan; This study is being ordered for initial treatment (after a diagnosis of Cancer has been made).; This study is being requested for Head/Neck Cancer.; The patient does NOT have Thyroid or Brain cancer.; This would be the first PET Scan performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	2
Otolaryngology	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body	This is a request for a Tumor Imaging PET Scan; This study is being ordered for something other than Breast CA, Lymphoma, Myeloma, Ovarian CA, Esophageal CA, Lung CA, Colorectal CA, Head/Neck CA, Melanoma, Soft Tissue Sarcoma, Pancreatic CA or Testicular CA.; This study is not being ordered for Cervical CA, Brain Cancer/Tumor or Mass, Thyroid CA or other solid tumor.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1

Otolaryngology	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body	This is a request for a Tumor Imaging PET Scan; This study is being ordered for subsequent treatment.; This study is being requested for Head/Neck Cancer.; The patient completed a course of treatment initiated within the last 8 weeks.; The patient does NOT have Thyroid or Brain cancer.; 1 PET Scans has already been performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Otolaryngology	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body	This is a request for a Tumor Imaging PET Scan; This study is being ordered for subsequent treatment.; This study is being requested for Head/Neck Cancer.; The patient is experiencing new signs or symptoms indicating a reoccurrence of cancer.; The patient does NOT have Thyroid or Brain cancer.; 1 PET Scans has already been performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Otolaryngology	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body	This is a request for a Tumor Imaging PET Scan; This study is being ordered for subsequent treatment.; This study is being requested for Head/Neck Cancer.; The patient is experiencing new signs or symptoms indicating a reoccurrence of cancer.; The patient does NOT have Thyroid or Brain cancer.; This would be the first PET Scan performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1

Otolaryngology	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body	This is a request for a Tumor Imaging PET Scan; This study is being ordered for subsequent treatment.; This study is being requested for Head/Neck Cancer.; The study is NOT being ordered after completing a course of treatment initiated in the last 8 weeks or because they are experiencing new signs or symptoms.; The patient does NOT have Thyroid or Brain cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Otolaryngology	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body	This is a request for a Tumor Imaging PET Scan; This study is being ordered to establish a cancer diagnosis.; There is existing evidence of metastasis or other tumor in the body.; This study is being requested for Head/Neck Cancer.; The patient does NOT have Thyroid or Brain cancer.; This would be the first PET Scan performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Otolaryngology	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body	This is a request for a Tumor Imaging PET Scan; This study is being ordered to establish a cancer diagnosis.; There is NOT existing evidence of metastasis or other tumor in the body.; There is a head and/or neck tumor that has been persistent over 3 months.; This study is being requested for Head/Neck Cancer.; The patient does NOT have Thyroid or Brain cancer.; This would be the first PET Scan performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1

Otolaryngology	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; This would be the first PET Scan performed on this patient for this cancer.; This is a Medicare member.; This study is being requested for None of the above; This Pet Scan is being ordered for something other than Prostate, Cervical, Breast Cancer or Melanoma; This study is being requested for Head/Neck Cancer; This Pet Scan is being requested for Initial Treatment Strategy (Diagnosis and/or Staging); This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Otolaryngology	Disapproval	70450 Computed tomography, head or brain; without contrast material	Radiology Services Denied Not Medically Necessary	CT of the head and neck to look for pituitary abnls and thyroid abnls - R pharyngeal abnls. Her pituitary is nonfunctional and her thyroid gland is becoming less functional. She has the sensation of a painful FB in the R pharynx; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Otolaryngology	Disapproval	70450 Computed tomography, head or brain; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for a brain/head CT.; The patient has a chronic headache, longer than one month; Headache best describes the reason that I have requested this test.	1
Otolaryngology	Disapproval	70450 Computed tomography, head or brain; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for a brain/head CT.; The patient has a suspected brain tumor.; Known or suspected tumor best describes the reason that I have requested this test.; There are documented neurologic findings suggesting a primary brain tumor.; This is NOT a Medicare member.	1
Otolaryngology	Disapproval	70480 Computed tomography, orbit, sella, or posterior fossa or outer, middle, or inner ear; without contrast material	Radiology Services Denied Not Medically Necessary	"This request is for orbit,sella, int. auditory canal,temporal bone, mastoid, CT.239.8"; "There is not suspicion of bone infection, cholesteatoma, or inflammatory disease.ostct"; "There is not a history of serious head or skull, trauma or injury.ostct"; "There is not suspicion of neoplasm, or metastasis.ostct"; This is not a preoperative or recent postoperative evaluation.; "There is not suspicion of acoustic neuroma, pituitary or other tumor. ostct"	1

Otolaryngology	Disapproval	70480 Computed tomography, orbit, sella, or posterior fossa or outer, middle, or inner ear; without contrast material	Radiology Services Denied Not Medically Necessary	; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Otolaryngology	Disapproval	70486 Computed tomography, maxillofacial area; without contrast material	Radiology Services Denied Not Medically Necessary		1
Otolaryngology	Disapproval	70486 Computed tomography, maxillofacial area; without contrast material	Radiology Services Denied Not Medically Necessary	&lt; Enter answer here - or Type In Unknown If No Info Given. &gt;; This study is being ordered for a metastatic disease.; There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Otolaryngology	Disapproval	70486 Computed tomography, maxillofacial area; without contrast material	Radiology Services Denied Not Medically Necessary	&lt; Enter answer here - or Type In Unknown If No Info Given. &gt;; This study is being ordered for sinusitis.; This is a request for a Sinus CT.; The patient is NOT immune-compromised.; The patient's current rhinosinusitis symptoms are described as Chronic Rhinosinusitis (episode is greater than 12 weeks); Yes this is a request for a Diagnostic CT	2
Otolaryngology	Disapproval	70486 Computed tomography, maxillofacial area; without contrast material	Radiology Services Denied Not Medically Necessary	; This study is being ordered for sinusitis.; This is a request for a Sinus CT.; The patient is NOT immune-compromised.; The patient's current rhinosinusitis symptoms are described as Chronic Rhinosinusitis (episode is greater than 12 weeks); Yes this is a request for a Diagnostic CT	1

Otolaryngology	Disapproval	70486 Computed tomography, maxillofacial area; without contrast material	Radiology Services Denied Not Medically Necessary	Evaluate sinus. She says she has had 2 sinus infections in the last year and her last one was January 2018. She has been treated with Cipro . She complains of PPP, PND, nasal congestion and headaches. She has a right sided nasal preference and she has; This study is being ordered for sinusitis.; This is a request for a Sinus CT.; The patient is NOT immune-compromised.; The patient's current rhinosinusitis symptoms are described as (sudden onset of 2 or more symptoms of nasal discharge, blockage or congestion, facial pain, pressure and reduction or loss of sense of smell, which are less than 12 wks in duration); It has been 14 or more days since onset AND the patient failed a course of antibiotic treatment; Yes this is a request for a Diagnostic CT	1
Otolaryngology	Disapproval	70486 Computed tomography, maxillofacial area; without contrast material	Radiology Services Denied Not Medically Necessary	findings of a small nonspecific enhancing nodular focus of left caudate head surface measuring 3 mm, which is nonspecific, with recommended repeat MRI in 6 months It also showed opacification of the right maxillary sinus with cortical thickening consist; This study is not being ordered for trauma, tumor, sinusitis, osteomyelitis, pre operative or a post operative evaluation.; This is a request for a Sinus CT.; Yes this is a request for a Diagnostic CT	1
Otolaryngology	Disapproval	70486 Computed tomography, maxillofacial area; without contrast material	Radiology Services Denied Not Medically Necessary	nasal congestion, and difficulty breathing when sleeping for years; This study is being ordered for sinusitis.; This is a request for a Sinus CT.; The patient is NOT immune-compromised.; The patient's current rhinosinusitis symptoms are described as (sudden onset of 2 or more symptoms of nasal discharge, blockage or congestion, facial pain, pressure and reduction or loss of sense of smell, which are less than 12 wks in duration); It has been less than 14 days since onset; Yes this is a request for a Diagnostic CT	1

Otolaryngology	Disapproval	70486 Computed tomography, maxillofacial area; without contrast material	Radiology Services Denied Not Medically Necessary	needs a CT scan of his sinuses because he has not had any imaging of it and with that history of longstanding sinusitis He has symptoms of pain over his face, pressure over his cheeks, drainage down in his throat, fever, feels it in his teeth; This study is being ordered for sinusitis.; This is a request for a Sinus CT.; The patient is NOT immune-compromised.; The patient's current rhinosinusitis symptoms are described as Recurrent Acute Rhinosinusitis (4 or more acute episodes per year); Yes this is a request for a Diagnostic CT	1
Otolaryngology	Disapproval	70486 Computed tomography, maxillofacial area; without contrast material	Radiology Services Denied Not Medically Necessary	Pt has a mass.; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 2015; There has been treatment or conservative therapy.; Pt has rlq pain.; Pt had septoplasty.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Otolaryngology	Disapproval	70486 Computed tomography, maxillofacial area; without contrast material	Radiology Services Denied Not Medically Necessary	sinus problems for 18 months, thick drainage, she has lots of nasal drainage , she had been on three rounds of antibiotics in last year; This study is being ordered for sinusitis.; This is a request for a Sinus CT.; The patient is NOT immune-compromised.; The patient's current rhinosinusitis symptoms are described as Recurrent Acute Rhinosinusitis (4 or more acute episodes per year); Yes this is a request for a Diagnostic CT	1
Otolaryngology	Disapproval	70486 Computed tomography, maxillofacial area; without contrast material	Radiology Services Denied Not Medically Necessary	symptoms have worsened despite treatment; This study is being ordered for sinusitis.; This is a request for a Sinus CT.; The patient is immune-compromised.; Yes this is a request for a Diagnostic CT	1

Otolaryngology	Disapproval	70486 Computed tomography, maxillofacial area; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for a Sinus CT.; This study is being ordered for a known or suspected tumor.; Yes this is a request for a Diagnostic CT	2
Otolaryngology	Disapproval	70486 Computed tomography, maxillofacial area; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for a Sinus CT.; This study is being ordered for post-operative evaluation.; Yes this is a request for a Diagnostic CT	1
Otolaryngology	Disapproval	70486 Computed tomography, maxillofacial area; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for a Sinus CT.; This study is being ordered for pre-operative evaluation.; Yes this is a request for a Diagnostic CT	5
Otolaryngology	Disapproval	70486 Computed tomography, maxillofacial area; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for a Sinus CT.; This study is being ordered for sinusitis.; It is unknown if the patient is immune-compromised.; The patient's current rhinosinusitis symptoms are described as Chronic Rhinosinusitis (episode is greater than 12 weeks); Yes this is a request for a Diagnostic CT	10
Otolaryngology	Disapproval	70486 Computed tomography, maxillofacial area; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for a Sinus CT.; This study is being ordered for sinusitis.; It is unknown if the patient is immune-compromised.; The patient's current rhinosinusitis symptoms are described as Recurrent Acute Rhinosinusitis (4 or more acute episodes per year); Yes this is a request for a Diagnostic CT	1
Otolaryngology	Disapproval	70486 Computed tomography, maxillofacial area; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for a Sinus CT.; This study is being ordered for sinusitis.; The patient is immune-compromised.; Yes this is a request for a Diagnostic CT	5
Otolaryngology	Disapproval	70486 Computed tomography, maxillofacial area; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for a Sinus CT.; This study is being ordered for sinusitis.; The patient is NOT immune-compromised.; The patient's current rhinosinusitis symptoms are described as (sudden onset of 2 or more symptoms of nasal discharge, blockage or congestion, facial pain, pressure and reduction or loss of sense of smell, which are less than 12 wks in duration); It has been 14 or more days since onset AND the patient failed a course of antibiotic treatment; Yes this is a request for a Diagnostic CT	2

Otolaryngology	Disapproval	70486 Computed tomography, maxillofacial area; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for a Sinus CT.; This study is being ordered for sinusitis.; The patient is NOT immune-compromised.; The patient's current rhinosinusitis symptoms are described as (sudden onset of 2 or more symptoms of nasal discharge, blockage or congestion, facial pain, pressure and reduction or loss of sense of smell, which are less than 12 wks in duration); It has been 14 or more days since onset; Yes this is a request for a Diagnostic CT	6
Otolaryngology	Disapproval	70486 Computed tomography, maxillofacial area; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for a Sinus CT.; This study is being ordered for sinusitis.; The patient is NOT immune-compromised.; The patient's current rhinosinusitis symptoms are described as Chronic Rhinosinusitis (episode is greater than 12 weeks); Yes this is a request for a Diagnostic CT	47
Otolaryngology	Disapproval	70486 Computed tomography, maxillofacial area; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for a Sinus CT.; This study is being ordered for sinusitis.; The patient is NOT immune-compromised.; The patient's current rhinosinusitis symptoms are described as Recurrent Acute Rhinosinusitis (4 or more acute episodes per year); Yes this is a request for a Diagnostic CT	16
Otolaryngology	Disapproval	70486 Computed tomography, maxillofacial area; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for a Sinus CT.; This study is being ordered for sinusitis.; The patient is NOT immune-compromised.; The patient's current rhinosinusitis symptoms are unknown.; Yes this is a request for a Diagnostic CT	1
Otolaryngology	Disapproval	70486 Computed tomography, maxillofacial area; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for a Sinus CT.; This study is not being ordered for trauma, tumor, sinusitis, osteomyelitis, pre operative or a post operative evaluation.; Yes this is a request for a Diagnostic CT	3
Otolaryngology	Disapproval	70490 Computed tomography, soft tissue neck; without contrast material	Radiology Services Denied Not Medically Necessary	; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	2

Otolaryngology	Disapproval	70490 Computed tomography, soft tissue neck; without contrast material	Radiology Services Denied Not Medically Necessary	CT of the head and neck to look for pituitary abnls and thyroid abnls - R pharyngeal abnls. Her pituitary is nonfunctional and her thyroid gland is becoming less functional. She has the sensation of a painful FB in the R pharynx; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Otolaryngology	Disapproval	70490 Computed tomography, soft tissue neck; without contrast material	Radiology Services Denied Not Medically Necessary	flexible scope down right side shows fullness in BOT and left vallecula/possible mass bil mobile cords; This is a request for neck soft tissue CT.; The patient has a neck lump or mass.; There is NOT a palpable neck mass or lump.; Yes this is a request for a Diagnostic CT	1
Otolaryngology	Disapproval	70490 Computed tomography, soft tissue neck; without contrast material	Radiology Services Denied Not Medically Necessary	Patient having pain related symptoms of TMJ. The doctor is making sure the patient doesnt have anything else going on at this time that would require medication or possibly surgery.; This is a request for neck soft tissue CT.; Surgery is NOT scheduled within the next 30 days.; The patient has a suspicious infection or abscess.; Yes this is a request for a Diagnostic CT	1
Otolaryngology	Disapproval	70490 Computed tomography, soft tissue neck; without contrast material	Radiology Services Denied Not Medically Necessary	Pt has a mass.; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 2015; There has been treatment or conservative therapy.; Pt has rlq pain.; Pt had septoplasty.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Otolaryngology	Disapproval	70490 Computed tomography, soft tissue neck; without contrast material	Radiology Services Denied Not Medically Necessary	pt has thyroid nodule and chronic neck pain.; This is a request for neck soft tissue CT.; The patient has a neck lump or mass.; There is a palpable neck mass or lump.; The neck mass is larger than 1 cm.; A fine needle aspirate was NOT done.; Yes this is a request for a Diagnostic CT	1

Otolaryngology	Disapproval	70490 Computed tomography, soft tissue neck; without contrast material	Radiology Services Denied Not Medically Necessary	unknown; This is a request for neck soft tissue CT.; The patient has a neck lump or mass.; There is a palpable neck mass or lump.; The size of the neck mass is unknown.; It is not known if the neck mass has been examined twice at least 30 days apart.; Yes this is a request for a Diagnostic CT	1
Otolaryngology	Disapproval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Radiology Services Denied Not Medically Necessary	&lt; Enter answer here - or Type In Unknown If No Info Given. &gt;; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; The patient has a congenital abnormality.; The patient has undergone treatment for a congenital abnormality (such as hydrocephalus or craniosynostosis).; The patient has vision changes.; The patient had a recent onset (within the last 4 weeks) of neurologic symptoms.; It is unknown if there has been a recent assessment of the patient's visual acuity.; It is unknown why this study is being ordered.	1
Otolaryngology	Disapproval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Radiology Services Denied Not Medically Necessary	&lt; Enter answer here - or Type In Unknown If No Info Given. &gt;; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; The patient has dizziness.; It is unknown why this study is being ordered.	1
Otolaryngology	Disapproval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Radiology Services Denied Not Medically Necessary	patient has bilateral hearing loss; This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The patient has a chronic or recurring headache.	1
Otolaryngology	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI. Abnormal finding on examination of the chest, chest wall and or lungs describes the reason for this request.;	3
Otolaryngology	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for a Chest CT.; Yes this is a request for a Diagnostic CT	1
Otolaryngology	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	Abnormal imaging test describes the reason for this request.; This is a request for a Chest CT.; Yes this is a request for a Diagnostic CT	1

Otolaryngology	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	long-term heavy smoker. Recent finding of a right level II lymph node. Ultrasound favored a reactive lymph node. No otalgia. No dysphagia. Indirect laryngoscopy was attempted but not tolerated so flexible fiberoptic laryngoscopy was performed. Decon; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Otolaryngology	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	'None of the above' describes the reason for this request.; This study is being requested for an unresolved cough; This is a request for a Chest CT.; This study is being requested for none of the above.; Yes this is a request for a Diagnostic CT	1
Otolaryngology	Disapproval	72125 Computed tomography, cervical spine; without contrast material	Radiology Services Denied Not Medically Necessary	Chronic neck pain with referred otalgia. In oral cavity, her tonsils are absent. We see no signs of acute infection or mass; This study is not to be part of a Myelogram.; This is a request for a Cervical Spine CT; Call does not know if there is a reason why the patient cannot have a Cervical Spine MRI.	1
Otolaryngology	Disapproval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Radiology Services Denied Not Medically Necessary	The requested study is a Shoulder MRI.; Study is being ordered for known/suspected joint infection.; It is not known if the patient has had a recent bone scan.; The patient has not had a recent ultrasound of the shoulder.; The results of the plain films is not known.; There are no documented physical or laboratory findings of a joint infection.; SHOULDER PAIN; The patient has not had a recent CT of the shoulder.	1

Otolaryngology	Disapproval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	Radiology Services Denied Not Medically Necessary	; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; CAPILLARY MALFORMATION; VENOUS MALFORMATION; It is not known if there has been any treatment or conservative therapy.; VASCULAR MALFORMATION; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	2
Pediatric Hematology	Approval	70490 Computed tomography, soft tissue neck; without contrast material		&lt; Enter answer here - or Type In Unknown If No Info Given. &gt;; This study is being ordered for a metastatic disease.; There are 4 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Pediatric Hematology	Approval	71250 Computed tomography, thorax; without contrast material		&lt; Enter answer here - or Type In Unknown If No Info Given. &gt;; This study is being ordered for a metastatic disease.; There are 4 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Pediatric Hematology	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		&lt; Enter answer here - or Type In Unknown If No Info Given. &gt;; This study is being ordered for a metastatic disease.; There are 5 or more exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	2

Pediatric Hematology	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		&lt; Enter answer here - or Type In Unknown If No Info Given. &gt;; This study is being ordered for a metastatic disease.; There are 4 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	4
Pediatric Hematology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		&lt; Enter answer here - or Type In Unknown If No Info Given. &gt;; This study is being ordered for a metastatic disease.; There are 4 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Pediatric Hematology	Disapproval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Radiology Services Denied Not Medically Necessary	&lt; Enter answer here - or Type In Unknown If No Info Given. &gt;; This study is being ordered for a metastatic disease.; There are 5 or more exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	2
Pediatric Hematology	Disapproval	73721 Magnetic resonance (eg, proton) imaging, any joint of lower extremity; without contrast material	Radiology Services Denied Not Medically Necessary	&lt; Enter answer here - or Type In Unknown If No Info Given. &gt;; This study is being ordered for a metastatic disease.; There are 5 or more exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	2

Pediatric Hematology	Disapproval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body	Radiology Services Denied Not Medically Necessary	&lt; Enter answer here - or Type In Unknown If No Info Given. &gt;; This study is being ordered for a metastatic disease.; There are 4 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Pediatric Oncology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Requested for evaluation of tumor; A biopsy has been completed to determine tumor tissue type.	2
Pediatric Oncology	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		Pt has brain tumor, post radiation metastatic disease check; This study is being ordered for a metastatic disease.; There are 3 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Pediatric Oncology	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material		Pt has brain tumor, post radiation metastatic disease check; This study is being ordered for a metastatic disease.; There are 3 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Pediatric Oncology	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		Pt has brain tumor, post radiation metastatic disease check; This study is being ordered for a metastatic disease.; There are 3 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

Pediatrics	Approval	70450 Computed tomography, head or brain; without contrast material	This is a request for a brain/head CT.; "There are recent neurological symptoms or deficits such as one-sided weakness, vision defects, speech impairments or sudden onset of severe dizziness."; This study is being requested for a recent head trauma or injury.	1
Pediatrics	Approval	70450 Computed tomography, head or brain; without contrast material	This is a request for a brain/head CT.; Changing neurologic symptoms best describes the reason that I have requested this test.	1
Pediatrics	Approval	70450 Computed tomography, head or brain; without contrast material	This is a request for a brain/head CT.; Recent (in the past month) head trauma with neurologic symptoms/findings best describes the reason that I have requested this test.	4
Pediatrics	Approval	70450 Computed tomography, head or brain; without contrast material	This is a request for a brain/head CT.; The patient has a new onset of a headache within the past month; Headache best describes the reason that I have requested this test.	1
Pediatrics	Approval	70450 Computed tomography, head or brain; without contrast material	This is a request for a brain/head CT.; The patient has an Abnormality of the skull bones (craniosynostosis); Known or suspected congenital anomaly best describes the reason that I have requested this test.; None of the above best describes the reason that I have requested this test.	1
Pediatrics	Approval	70480 Computed tomography, orbit, sella, or posterior fossa or outer, middle, or inner ear; without contrast material	"This request is for orbit,sella, int. auditory canal,temporal bone, mastoid, CT.239.8"; "There is not suspicion of bone infection, cholesteatoma, or inflammatory disease.ostct"; "There is not a history of serious head or skull, trauma or injury.ostct"; "There is not suspicion of neoplasm, or metastasis.ostct"; This is not a preoperative or recent postoperative evaluation.; "There is not suspicion of acoustic neuroma, pituitary or other tumor. ostct"	1
Pediatrics	Approval	70490 Computed tomography, soft tissue neck; without contrast material	This is a request for neck soft tissue CT.; There has not been recent trauma or other injury to the neck.; There is suspicion of or known tumor, metastasis, lymphadenopathy, or mass.; Yes this is a request for a Diagnostic CT	1

Pediatrics	Approval	70540 Magnetic resonance (eg, proton) imaging, orbit, face, and/or neck; without contrast material(s)	&lt; Enter answer here - or Type In Unknown If No Info Given. &gt;; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; &lt; Enter date of initial onset here - or Type In Unknown If No Info Given &gt;; It is not known if there has been any treatment or conservative therapy.; &lt; Describe primary symptoms here - or Type In Unknown If No Info Given &gt;; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	2
Pediatrics	Approval	70540 Magnetic resonance (eg, proton) imaging, orbit, face, and/or neck; without contrast material(s)	This is a request for a Face MRI.; There is a history of orbit or face trauma or injury.	1
Pediatrics	Approval	70544 Magnetic resonance angiography, head; without contrast material(s)	There is not an immediate family history of aneurysm.; The patient does not have a known aneurysm.; The patient has had a recent MRI or CT for these symptoms.; There has not been a stroke or TIA within the past two weeks.; This is a request for a Brain MRA.	1
Pediatrics	Approval	70544 Magnetic resonance angiography, head; without contrast material(s)	There is not an immediate family history of aneurysm.; The patient does not have a known aneurysm.; The patient has not had a recent MRI or CT for these symptoms.; There has not been a stroke or TIA within the past two weeks.; This is a request for a Brain MRA.	1
Pediatrics	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		1

Pediatrics	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	<p>&amp;lt; Enter answer here - or Type In Unknown If No Info Given. &amp;gt;; This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The headache is described as chronic or recurring.; The headache is not presenting with a sudden change in severity, associated with exertion, or a mental status change.; There are not recent neurological symptoms or deficits such as one sided weakness, speech impairments, or vision defects.; There is not a family history (parent, sibling or child of the patient) of AVM (arteriovenous malformation).</p>	2
------------	----------	--	--	---

Pediatrics	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	<p>&amp;lt; Enter answer here - or Type In Unknown If No Info Given. &amp;gt;; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; &amp;lt; Enter date of initial onset here - or Type In Unknown If No Info Given &amp;gt;; It is not known if there has been any treatment or conservative therapy.; &amp;lt; Describe primary symptoms here - or Type In Unknown If No Info Given &amp;gt;; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology</p>	2
------------	----------	--	--	---

Pediatrics	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	&lt; Enter answer here - or Type In Unknown If No Info Given. &gt;; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 1/30/2018; There has been treatment or conservative therapy.; &lt; Describe primary symptoms here - or Type In Unknown If No Info Given &gt;; Physical Therapy and Speech Therapy; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Pediatrics	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Requested for evaluation of seizures; It is not known if there has been a previous Brain MRI completed.	2
Pediatrics	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Requested for evaluation of tumor; It is not known if a biopsy has been completed to determine tumor tissue type.; It is not known if there are recent neurological symptoms such as one-sided weakness, speech impairments, or vision defects.; It is not known if there is a new and sudden onset of headache (less than 1 week) not improved by pain medications.; It is not known if the tumor is a pituitary tumor or pituitary adenoma.	1

Pediatrics	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	difficulty swallowing; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Not requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation,multiple sclerosis, or seizures; The condition is not associated with headache, blurred or double vision or a change in sensation noted on exam.; A metabolic work-up done including urinalysis, electrolytes, and complete blood count with results completed.; The lab results were normal; The patient does NOT have dizziness, fatigue or malaise, Bell's Palsy, a congenital abnormality, loss of smell, hearing loss or vertigo.	1
Pediatrics	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	headaches are worsening; This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The headache is described as chronic or recurring.; The headache is not presenting with a sudden change in severity, associated with exertion, or a mental status change.; It is not known if there are recent neurological symptoms or deficits such as one sided weakness, speech impairments, or vision defects.; There is not a family history (parent, sibling or child of the patient) of AVM (arteriovenous malformation).	1
Pediatrics	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	History of resection of right temporal pilocytic astrocytoma at around 7 years of age. He also has difficulty sleeping at night and takes clonidine at bedtime to help him sleep. He is taking amitriptyline 75 mg at bedtime.; This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The headache is described as chronic or recurring.; The headache is not presenting with a sudden change in severity, associated with exertion, or a mental status change.; There are not recent neurological symptoms or deficits such as one sided weakness, speech impairments, or vision defects.; It is not known if there is a family history (parent, sibling or child of the patient) of AVM (arteriovenous malformation).	1

Pediatrics	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	<p>Obstructive hydrocephalus; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Not requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation,multiple sclerosis, or seizures; It is not known if the condition is associated with headache, blurred or double vision or a change in sensation noted on exam.; It is not known if a metabolic work-up done including urinalysis, electrolytes, and complete blood count with results completed.; The patient does NOT have dizziness, fatigue or malaise, Bell's Palsy, a congenital abnormality, loss of smell, hearing loss or vertigo.</p>	1
Pediatrics	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	<p>Patient complains of Headache. Onset was about 2 weeks ago. Awoke screaming with frontal headache 12/23/2017; Headache does limit his activity and has awakened him from sleep 4 times.; This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The headache is described as sudden and severe.; There are NO recent neurological deficits on exam such as one sided weakness, speech impairments or vision defects.; It is not known if there is a new and sudden onset of a headache less than 1 week not improved by medications.; It is not known if there is a family history (parent, sibling, or child) of stroke, aneurysm, or AVM (arteriovenous malformation)</p>	1

Pediatrics	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	SHORT STATURE; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Not requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation,multiple sclerosis, or seizures; The condition is not associated with headache, blurred or double vision or a change in sensation noted on exam.; It is not known if a metabolic work-up done including urinalysis, electrolytes, and complete blood count with results completed.; The patient does NOT have dizziness, fatigue or malaise, Bell's Palsy, a congenital abnormality, loss of smell, hearing loss or vertigo.	1
------------	----------	--	--	---

Pediatrics	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	TAYLOR IS A 17 YEAR OLD THAT HAS A FORM OF CONSTITUTION AL DELAY IN PUBERTY. HIS WEIGHT MAY BE PLAYING A ROLE IN HIS LOW TESTERONE BOTH FROM INSULIN RESITANCE AND REDUCING HIS GONADAL DUNCTIONAND FORM A LOWER LEVEL OF SHBG.; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Not requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation,multiple sclerosis, or seizures; The condition is not associated with headache, blurred or double vision or a change in sensation noted on exam.; A metabolic work-up done including urinalysis, electrolytes, and complete blood count with results completed.; The lab results were normal; The patient does NOT have dizziness, fatigue or malaise, Bell's Palsy, a congenital abnormality, loss of smell, hearing loss or vertigo.	1
------------	----------	--	--	---

Pediatrics	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	This child has been sick since January. It started out as the Flu and then he was diagnosed with strep. Through out the whole time he has suffered with severe fatigue and hypersomnia. We have drawn labs, done xrays & urinalysis, and referred him to differ; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Not requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation,multiple sclerosis, or seizures; The condition is not associated with headache, blurred or double vision or a change in sensation noted on exam.; A metabolic work-up done including urinalysis, electrolytes, and complete blood count with results completed.; The lab results were normal; The patient is experiencing fatigue or malaise.	1
Pediatrics	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The headache is described as chronic or recurring.; The headache is not presenting with a sudden change in severity, associated with exertion, or a mental status change.; There are recent neurological symptoms or deficits such as one sided weakness, speech impairments, or vision defects.	1
Pediatrics	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The headache is described as chronic or recurring.; The headache is presenting with a sudden change in severity, associated with exertion, or a mental status change.	9
Pediatrics	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The headache is described as sudden and severe.; There are NO recent neurological deficits on exam such as one sided weakness, speech impairments or vision defects.; There is a new and sudden onset of a headache less than 1 week not improved by medications.; The headache is described as a “thunderclap” or the worst headache of the patient’s life.	2

Pediatrics	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The headache is described as sudden and severe.; There recent neurological deficits on exam such as one sided weakness, speech impairments or vision defects.	1
Pediatrics	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Not requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation,multiple sclerosis, or seizures; The condition is associated with headache, blurred or double vision or a change in sensation noted on exam.; The patient does NOT have dizziness, fatigue or malaise, Bell's Palsy, a congenital abnormality, loss of smell, hearing loss or vertigo.	1
Pediatrics	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Requested due to trauma or injury.; There are new, intermittent symptoms or deficits such as one sided weakness, speech impairments, or vision defects.	1
Pediatrics	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Requested for evaluation of infection or inflammation; The patient has a fever, stiff neck AND positive laboratory findings (like elevated WBC or abnormal Lumbar puncture fluid examination that indicate inflammatory disease or an infection.; This is NOT a Medicare member.	1
Pediatrics	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Requested for evaluation of Multiple Sclerosis; The patient has undergone treatment for multiple sclerosis.	1
Pediatrics	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Requested for evaluation of seizures; There has not been a previous Brain MRI completed.	2

Pediatrics	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Requested for evaluation of tumor; A biopsy has not been completed to determine tumor tissue type.; There are recent neurological symptoms such as one-sided weakness, speech impairments, or vision defects.	1
Pediatrics	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	unknown; This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The headache is described as sudden and severe.; There are NO recent neurological deficits on exam such as one sided weakness, speech impairments or vision defects.; There is not a new and sudden onset of a headache less than 1 week not improved by medications.; There is not a family history (parent, sibling, or child) of stroke, aneurysm, or AVM (arteriovenous malformation)	1
Pediatrics	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Will fax in clinicals; This study is being ordered for Inflammatory/ Infectious Disease.; Will fax in clinicals; There has not been any treatment or conservative therapy.; Will fax in clinicals; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Pediatrics	Approval	71250 Computed tomography, thorax; without contrast material	&lt; Enter answer here - or Type In Unknown If No Info Given. &gt;; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Pediatrics	Approval	71250 Computed tomography, thorax; without contrast material	Abnormal imaging test describes the reason for this request.; This is a request for a Chest CT.; Yes this is a request for a Diagnostic CT	1
Pediatrics	Approval	71250 Computed tomography, thorax; without contrast material	Chest pain describes the reason for this request.; This study is being requested for 'none of the above'.; This is a request for a Chest CT.; This study is being requested for none of the above.; Yes this is a request for a Diagnostic CT	2

Pediatrics	Approval	71250 Computed tomography, thorax; without contrast material	'None of the above' describes the reason for this request.; This study is being requested for 'none of the above'.; This is a request for a Chest CT.; This study is being requested for none of the above.; Yes this is a request for a Diagnostic CT	2
Pediatrics	Approval	71275 Computed tomographic angiography, chest (noncoronary), with contrast material(s), including noncontrast images, if performed, and image postprocessing	&lt; Enter answer here - or Type In Unknown If No Info Given. &gt;; It is not known whether this study is requested to evaluate suspected pulmonary embolus.; This study is being ordered for another reason besides Known or Suspected Congenital Abnormality, Known or suspected Vascular Disease.; Yes, this is a request for a Chest CT Angiography.	1
Pediatrics	Approval	71275 Computed tomographic angiography, chest (noncoronary), with contrast material(s), including noncontrast images, if performed, and image postprocessing	&lt; Enter answer here - or Type In Unknown If No Info Given. &gt;; This study is not requested to evaluate suspected pulmonary embolus.; This study will be performed in conjunction with a Chest CT.; Yes, this is a request for a Chest CT Angiography.	1
Pediatrics	Approval	72131 Computed tomography, lumbar spine; without contrast material	This is a request for a lumbar spine CT.; The patient does not have a history of severe low back trauma or lumbar injury.; This is not a preoperative or recent postoperative evaluation.; This study is not part of a myelogram or discogram.; The patient is not experiencing symptoms of radiculopathy for six weeks or more.; There is no neurologic symptoms of bowel or urinary bladder dysfunction.; There is no suspicion of lumbar spine infection.; There is no suspicion of lumbar spine neoplasm or tumor or metastasis.; Yes this is a request for a Diagnostic CT	1
Pediatrics	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Arnold Chiari Malformation; This study is being ordered for Congenital Anomaly.; Birth; There has been treatment or conservative therapy.; Yearly follow-up; Surgeries; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

Pediatrics	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	This is a request for cervical spine MRI; Acute or Chronic neck and/or back pain; Yes, the patient demonstrate neurological deficits.; yes, there is a documented evidence of extremity weakness on physical examination.	1
Pediatrics	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	This is a request for cervical spine MRI; There has been a supervised trial of conservative management for at least 6 weeks.; Acute or Chronic neck and/or back pain; It is not known if the patient demonstrate neurological deficits.; Yes, this patient had a recent course of supervised physical Therapy.	1
Pediatrics	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	This is a request for cervical spine MRI; There has not been a supervised trial of conservative management for at least 6 weeks.; Acute or Chronic neck and/or back pain; No, the patient does not demonstrate neurological deficits.;	1
Pediatrics	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	This is a request for cervical spine MRI; There is no laboratory or x-ray evidence of osteomyelitis.; Known or Suspected Multiple Sclerosis, Infection or abscess; MUSCLE TIGHTNESS,MUSCLE PAIN,BACK STIFFNESS,MRI L SPINE W/WO CONTRAST:Impression:&#x0D; &#x0D; 1. Large thoracic spinal cord syrinx extending from the T4 vertebral body level inferiorly towards the conus medullaris. This thoracic spinal cord syrinx is most pronounc; No, there are no documented clinical findings of Multiple sclerosis.; No, there is not a laboratory or x-ray evidence of Meningitis.; No, there is not a laboratory or x-ray evidence of an infected disc, septic arthritis or "discitis".; No, there is no laboratory or x-ray evidence of a paraspinal abscess.	1
Pediatrics	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	Arnold Chiari Malformation; This study is being ordered for Congenital Anomaly.; Birth; There has been treatment or conservative therapy.; Yearly follow-up; Surgeries; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

Pediatrics	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	This is a request for a thoracic spine MRI.; The study is being ordered due to Neurological deficits.; Physical Exam Findings: Pt with history of MONO in November. Cannot bend over to tie her shoes due to back stiffness and pain. Participates in soccer and dance, but has not been able to do these activities due to symptoms. MUSCLE TIGHTNESS, MUSCLE PAIN, BACK ; The patient is experiencing or presenting symptoms of lower extremity weakness documented on physical exam.	1
Pediatrics	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		1
Pediatrics	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	&lt; Enter answer here - or Type In Unknown If No Info Given. &gt;; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 1/30/2018; There has been treatment or conservative therapy.; &lt; Describe primary symptoms here - or Type In Unknown If No Info Given &gt;; Physical Therapy and Speech Therapy; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Pediatrics	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	; The study requested is a Lumbar Spine MRI.; The patient does NOT have acute or chronic back pain.; This procedure is being requested for None of the above	1

Pediatrics	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Arnold Chiari Malformation; This study is being ordered for Congenital Anomaly.; Birth; There has been treatment or conservative therapy.; Yearly follow-up; Surgeries; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Pediatrics	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	The study requested is a Lumbar Spine MRI.; The patient does NOT have acute or chronic back pain.; This procedure is being requested for Known or suspected tumor with or without metastasis	1
Pediatrics	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has 6 weeks of completed conservative care in the past 3 months or had a spine injection	3
Pediatrics	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has an Abnormal x-ray indicating a significant abnormality	1
Pediatrics	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has Neurological deficit(s)	2
Pediatrics	Approval	72196 Magnetic resonance (eg, proton) imaging, pelvis; with contrast material(s)		1
Pediatrics	Approval	72196 Magnetic resonance (eg, proton) imaging, pelvis; with contrast material(s)	; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; ; It is not known if there has been any treatment or conservative therapy.; ; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

Pediatrics	Approval	72196 Magnetic resonance (eg, proton) imaging, pelvis; with contrast material(s)	Hip pain along with back pain, Patient has had PT, oral steroids; This is a request for a Pelvis MRI.; The request is not for any of the listed indications.	1
Pediatrics	Approval	72196 Magnetic resonance (eg, proton) imaging, pelvis; with contrast material(s)	Right lower quadrant abdominal pain noted. It began 5 months ago. It is localized primarily in the right groin. He characterizes the pain as aching. It is typically of mild intensity. The discomfort occurs, on average, randomly esp when playing socce; This is a request for a Pelvis MRI.; The request is not for any of the listed indications.	1
Pediatrics	Approval	73220 Magnetic resonance (eg, proton) imaging, upper extremity, other than joint; without contrast material(s), followed by contrast material(s) and further sequences	&lt; Enter answer here - or Type In Unknown If No Info Given. &gt;; This study is being ordered for Inflammatory/ Infectious Disease.; 8/2017; There has been treatment or conservative therapy.; arthritis; medication, PT; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	2
Pediatrics	Approval	73220 Magnetic resonance (eg, proton) imaging, upper extremity, other than joint; without contrast material(s), followed by contrast material(s) and further sequences	The request is for an upper extremity non-joint MRI.; This is not a preoperative or recent postoperative evaluation.; There is not suspicion of upper extremity neoplasm or tumor or metastasis.; There is no suspicion of upper extremity bone or soft tissue infection.; The ordering physician is not an orthopedist.; There is a history of upper extremity trauma or injury.	1
Pediatrics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	The requested study is a Shoulder MRI.; "The caller indicated the study was not ordered for: Known or Suspicious Mass or Tumor with or without metastasis, Known or suspected Joint Infection, Aseptic Necrosis, Trauma, Chronic Pain, or Pre or Post operative evaluation."; SUBLUXATION TYPE EVENTS WHERE HER SHOULDER ROLLS OUT. THERE IS PAIN WHEN THIS OCCURS. PAIN IS MOSTLY ON THE LATERAL ANTERIOR ASPECT OF HER SHOULDER.	1

Pediatrics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	The requested study is a Shoulder MRI.; This study being ordered for suspected aseptic necrosis.; The patient has had recent plain films of the shoulder.; The plain films were not normal.; n/a	1
Pediatrics	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	The requested study is a Shoulder MRI.; This study being ordered for suspected aseptic necrosis.; The patient has had recent plain films of the shoulder.; The plain films were not normal.; pain in shoulder	1
Pediatrics	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	&lt; Enter answer here - or Type In Unknown If No Info Given. &gt;; This is a request for a Knee MRI.; It is not known if patient had recent plain films of the knee.; The ordering physician is an orthopedist.; Non-acute Chronic Pain; Pain greater than 3 days	1
Pediatrics	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	; This is a request for a Knee MRI.; It is not known if patient had recent plain films of the knee.; The ordering physician is an orthopedist.; There is no suspected meniscus,pre-op or post-op evaluation,non-acute Chronic Pain,supsected tumor or Aseptic Necrosis; Pain greater than 3 days	1
Pediatrics	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	; This is a request for a Knee MRI.; It is not known if patient had recent plain films of the knee.; The ordering physician is an orthopedist.; There is no suspected meniscus,pre-op or post-op evaluation,non-acute Chronic Pain,supsected tumor or Aseptic Necrosis; There is no symptom of locking,Instability, Swelling,Redness,Limited range of motion or pain.	1

Pediatrics	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	History / Dx: M62.89 Muscle tightness &#x0D; History / Dx: M79.605 Pain in left leg&#x0D; History / Dx: M79.604 Pain in right leg&#x0D; &#x0D; Duration of Symptoms: Start: 12/05/2017 &#x0D; &#x0D; Physical Exam Findings: muscle tightness, pain in bilateral legs, leg stiffness&#x0D; &#x0D; Pr; This study is being ordered for a neurological disorder.; History / Dx: M62.89 Muscle tightness &#x0D; History / Dx: M79.605 Pain in left leg&#x0D; History / Dx: M79.604 Pain in right leg&#x0D; &#x0D; Duration of Symptoms: Start: 12/05/2017 &#x0D; Physical Exam Findings: muscle tightness, pain in bilateral legs, leg stiffness&#x0D; &#x0D; Pr; There has not been any treatment or conservative therapy.; History / Dx: M62.89 Muscle tightness &#x0D; History / Dx: M79.605 Pain in left leg&#x0D; History / Dx: M79.604 Pain in right leg&#x0D; &#x0D; Duration of Symptoms: Start: 12/05/2017 &#x0D; &#x0D; Physical Exam Findings: muscle tightness, pain in bilateral legs, leg stiffness&#x0D; &#x0D; Pr; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	2
Pediatrics	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	This is a request for a Knee MRI.; It is not known if the ordering physician is an orthopedist.; Suspected meniscus, tendon, or ligament injury; Yes, there is a known trauma involving the knee.; Locking	1
Pediatrics	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	This is a request for a Knee MRI.; The ordering physician is an orthopedist.; Suspected meniscus, tendon, or ligament injury	2

Pediatrics	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s); and further sequences	This is a request for a Knee MRI.; The ordering physician is not an orthopedist.; Suspected meniscus, tendon, or ligament injury; Yes, there is a known trauma involving the knee.; Limited range of motion	1
Pediatrics	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	This is a request for a Knee MRI.; The patient had recent plain films of the knee.; The plain films were normal.; The ordering physician is not an orthopedist.; Suspected meniscus, tendon, or ligament injury; Yes, there is a known trauma involving the knee.; Pain greater than 3 days	1
Pediatrics	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	This is a request for a Knee MRI.; The patient had recent plain films of the knee.; The plain films were not normal.; The ordering physician is not an orthopedist.; Non-acute Chronic Pain; Pain greater than 3 days	1
Pediatrics	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	This is a request for a lower extremity MRI.; This is not a pulsatile mass.; "There is no evidence of tumor or mass from a previous exam, plain film, ultrasound, or previous CT or MRI."; There is not a suspicion of an infection.; The patient is not taking antibiotics.; This is not a study for a fracture which does not show healing (non-union fracture).; This is not a pre-operative study for planned surgery.	1
Pediatrics	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	This is a request for an Ankle MRI.; "There is a history (within the past six weeks) of significant trauma, dislocation, or injury to the ankle."; There is a history of new onset of severe pain in the ankle within the last two weeks.; There is not a suspected tarsal coalition.	1

Pediatrics	Approval	73721 Magnetic resonance (eg, proton) imaging, any joint of lower extremity; without contrast material	This is a requests for a hip MRI.; This study is not being ordered in conjunction with a pelvic MRI.; "There is a history (within the last six months) of significant trauma, dislocation, or injury to the hip."; There is not a suspicion of AVN.; The patient is not receiving long-term steriod therapy (Prednisone or Cortisone).; The patient had an abnormal plain film study of the hip other than arthritis.; The patient does not have a documented limitation of their range of motion.	1
Pediatrics	Approval	73721 Magnetic resonance (eg, proton) imaging, any joint of lower extremity; without contrast material	This is a requests for a hip MRI.; This study is not being ordered in conjunction with a pelvic MRI.; "There is no a history (within the last six months) of significant trauma, dislocation, or injury to the hip."; There is not a suspicion of AVN.; The patient is not receiving long-term steriod therapy (Prednisone or Cortisone).; The patient does not have an abnormal plain film study of the hip other than arthritis.; The patient has not used a cane or crutches for greater than four weeks.; The patient has been treated with and failed a course of supervised physical therapy.; There is a mass near the hip.; The patient does not have a documented limitation of their range of motion.	1
Pediatrics	Approval	73721 Magnetic resonance (eg, proton) imaging, any joint of lower extremity; without contrast material	This is a requests for a hip MRI.; This study is not being ordered in conjunction with a pelvic MRI.; "There is no a history (within the last six months) of significant trauma, dislocation, or injury to the hip."; There is not a suspicion of AVN.; The patient is not receiving long-term steriod therapy (Prednisone or Cortisone).; The patient does not have an abnormal plain film study of the hip other than arthritis.; The patient has not used a cane or crutches for greater than four weeks.; The patient has been treated with and failed a course of supervised physical therapy.; There is not a mass near the hip.; The patient has been treated with anti-inflammatory medications in conjunction with this complaint.; The patient does not have a documented limitation of their range of motion.	1

Pediatrics	Approval	74150 Computed tomography, abdomen; without contrast material	&lt; Enter answer here - or Type In Unknown If No Info Given. &gt;; This is a request for an Abdomen CT.; This study is being ordered for another reason besides Kidney/Ureteral stone, &#x0D; Known Tumor, Cancer, Mass, or R/O metastases, Suspicious Mass or Tumor, Organ Enlargement, &#x0D; Known or suspected infection such as pancreatitis, etc..; There are no findings of Hematuria, Lymphadenopathy,weight loss,abdominal pain,diabetic patient with gastroparesis; Yes this is a request for a Diagnostic CT	1
Pediatrics	Approval	74150 Computed tomography, abdomen; without contrast material	Abdominal pain for 9 days, nausea after eating and lower back pain.; This is a request for an Abdomen CT.; This study is being ordered for another reason besides Kidney/Ureteral stone, &#x0D; Known Tumor, Cancer, Mass, or R/O metastases, Suspicious Mass or Tumor, Organ Enlargement, &#x0D; Known or suspected infection such as pancreatitis, etc..; There are no findings of Hematuria, Lymphadenopathy,weight loss,abdominal pain,diabetic patient with gastroparesis; Yes this is a request for a Diagnostic CT	1
Pediatrics	Approval	74150 Computed tomography, abdomen; without contrast material	This is a request for an Abdomen CT.; This study is being ordered for a known tumor, cancer, mass, or rule out metastases.; This is not a request for initial staging of a known tumor other than prostate.; This patient does NOT have known prostate cancer with a PSA (prostate-specific antigen) greater than 10.; No, this is not a request for follow up to a known tumor or abdominal cancer.; Yes, there is a palpable or observed abdominal mass.; No, there has not been a recent abdominal CT scan.; Yes this is a request for a Diagnostic CT	1
Pediatrics	Approval	74150 Computed tomography, abdomen; without contrast material	This is a request for an Abdomen CT.; This study is being ordered for a kidney/ureteral stone.; There is a known or a strong suspicion of kidney or ureteral stones.; Yes this is a request for a Diagnostic CT	2

Pediatrics	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	&lt; Enter answer here - or Type In Unknown If No Info Given. &gt;; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Pediatrics	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	abnormal, labs, fever, joint pain; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; &lt; Enter date of initial onset here - or Type In Unknown If No Info Given &gt;; There has not been any treatment or conservative therapy.; unintentional weight loss; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Pediatrics	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	This is a request for an abdomen-pelvis CT combination.; A urinalysis has been completed.; This study is being requested for abdominal and/or pelvic pain.; The results of the urinalysis were abnormal.; The urinalysis was positive for hematuria/blood.; It is not known if the pain is acute or chronic.; This is the first visit for this complaint.; The patient did not have a amylase or lipase lab test.; Yes this is a request for a Diagnostic CT	1
Pediatrics	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	This is a request for an abdomen-pelvis CT combination.; A urinalysis has been completed.; This study is being requested for abdominal and/or pelvic pain.; The results of the urinalysis were abnormal.; The urinalysis was positive for ketones.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; The patient did not have a amylase or lipase lab test.; Yes this is a request for a Diagnostic CT	1

Pediatrics	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	This is a request for an abdomen-pelvis CT combination.; A urinalysis has been completed.; This study is being requested for abdominal and/or pelvic pain.; The results of the urinalysis were abnormal.; The urinalysis was positive for protein.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; The patient did not have a amylase or lipase lab test.; Yes this is a request for a Diagnostic CT	1
Pediatrics	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	This is a request for an abdomen-pelvis CT combination.; A urinalysis has been completed.; This study is being requested for abdominal and/or pelvic pain.; The results of the urinalysis were normal.; It is not known if the pain is acute or chronic.; This is the first visit for this complaint.; The patient did not have a amylase or lipase lab test.; Yes this is a request for a Diagnostic CT	1
Pediatrics	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	This is a request for an abdomen-pelvis CT combination.; A urinalysis has not been completed.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; The patient did not have a amylase or lipase lab test.; Yes this is a request for a Diagnostic CT	1
Pediatrics	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	This is a request for an abdomen-pelvis CT combination.; The reason for the study is follow up trauma.; There is laboratory or physical evidence of an intra-abdominal bleed.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; Yes this is a request for a Diagnostic CT	1
Pediatrics	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for acute pain.; There has been a physical exam.; The patient is female.; A pelvic exam was NOT performed.; Yes this is a request for a Diagnostic CT	2

Pediatrics	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for acute pain.; There has been a physical exam.; The patient is female.; It is not known if a pelvic exam was performed.; Yes this is a request for a Diagnostic CT	1
Pediatrics	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for acute pain.; There has been a physical exam.; The patient is male.; A rectal exam was not performed.; Yes this is a request for a Diagnostic CT	3
Pediatrics	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is female.; A pelvic exam was NOT performed.; Yes this is a request for a Diagnostic CT	2
Pediatrics	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is male.; A rectal exam was not performed.; Yes this is a request for a Diagnostic CT	1
Pediatrics	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is male.; It is not known if a rectal exam was performed.; Yes this is a request for a Diagnostic CT	1
Pediatrics	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	This is a request for an abdomen-pelvis CT combination.; This study is not being requested for abdominal and/or pelvic pain.; The study is requested for hematuria.; Yes this is a request for a Diagnostic CT	3

Pediatrics	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)		; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; ; It is not known if there has been any treatment or conservative therapy.; ; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Pediatrics	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)		This request is for an Abdomen MRI.; This study is not being ordered for known tumor, suspicious mass or suspected tumor/metastasis, organ enlargement, known or suspected vascular disease, hematuria, follow-up trauma, or a pre-operative evaluation.; INFLAMMATORY BOWEL DISEASE; MILD COLITIS ACTIVITY THAT AFFECTS HIS CONCERN ABOUT GENERAL FUNCTIONING.; PRIOR ELEVATION OF FECAL CALPROTECTIN	1
Pediatrics	Approval	74712 Magnetic resonance (eg, proton) imaging, fetal, including placental and maternal pelvic imaging when performed; single or first gestation		This a request for a Fetal MRI.; An ultrasound of the mother been completed.; Congenital anomalies of the spine has been identified or remains uncertain after an ultrasound.	1
Pediatrics	Approval	75557 Cardiac magnetic resonance imaging for morphology and function without contrast material;		This is a request for a heart or cardiac MRI	1
Pediatrics	Approval	93307 Echocardiography, transthoracic, real-time with image documentation (2D), includes M-mode recording, when performed, complete, without spectral or color Doppler echocardiography		This a request for an echocardiogram.; This is a request for a Transthoracic Echocardiogram.; This study is being ordered for Evaluation of Congenital Heart Defect.; This is for initial diagnosis of congenital heart disease.	1
Pediatrics	Disapproval	70450 Computed tomography, head or brain; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for a brain/head CT.; 'None of the above' describes the headache's character.; Headache best describes the reason that I have requested this test.	1

Pediatrics	Disapproval	70450 Computed tomography, head or brain; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for a brain/head CT.; The patient has a chronic headache, longer than one month; Headache best describes the reason that I have requested this test. This is a request for a brain/head CT.; The patient has a new onset of a headache within the past month;	4
Pediatrics	Disapproval	70450 Computed tomography, head or brain; without contrast material	Radiology Services Denied Not Medically Necessary	Headache best describes the reason that I have requested this test.	1
Pediatrics	Disapproval	70486 Computed tomography, maxillofacial area; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for a Sinus CT.; This study is being ordered for sinusitis.; The patient is NOT immune-compromised.; The patient's current rhinosinusitis symptoms are described as Recurrent Acute Rhinosinusitis (4 or more acute episodes per year); Yes this is a request for a Diagnostic CT	1
Pediatrics	Disapproval	70486 Computed tomography, maxillofacial area; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for a Sinus CT.; This study is not being ordered for trauma, tumor, sinusitis, osteomyelitis, pre operative or a post operative evaluation.; Yes this is a request for a Diagnostic CT	1
Pediatrics	Disapproval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Radiology Services Denied Not Medically Necessary	This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The headache is described as chronic or recurring.; It is not known if the headache is presenting with a sudden change in severity, associated with exertion, or a mental status change.; There are recent neurological symptoms or deficits such as one sided weakness, speech impairments, or vision defects.	1
Pediatrics	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	Chest pain describes the reason for this request.; The patient had an abnormal finding on physical exam related to the suspicion of cancer.; This is a request for a Chest CT.; This study is beign requested for suspected cancer or tumor.; Yes this is a request for a Diagnostic CT &lt; Enter answer here - or Type In Unknown If No Info Given. &gt;; This study is not to be part of a Myelogram.;	1
Pediatrics	Disapproval	72125 Computed tomography, cervical spine; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for a Cervical Spine CT; There is no reason why the patient cannot have a Cervical Spine MRI.	1

Pediatrics	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	It began 30 days ago. It is of moderate intensity. Aggravating factors include movement in general. Nothing relieves the symptoms. There are no associated symptoms. The pt hurt his upper back during football practice about a month ago. He was squatti; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Pediatrics	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	Will fax in clinicals; This study is being ordered for Inflammatory/ Infectious Disease.; Will fax in clinicals; There has not been any treatment or conservative therapy.; Will fax in clinicals; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Pediatrics	Disapproval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	Radiology Services Denied Not Medically Necessary	It began 30 days ago. It is of moderate intensity. Aggravating factors include movement in general. Nothing relieves the symptoms. There are no associated symptoms. The pt hurt his upper back during football practice about a month ago. He was squatti; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Pediatrics	Disapproval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	Radiology Services Denied Not Medically Necessary	Will fax in clinicals; This study is being ordered for Inflammatory/ Infectious Disease.; Will fax in clinicals; There has not been any treatment or conservative therapy.; Will fax in clinicals; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

Pediatrics	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	Will fax in clinicals; This study is being ordered for Inflammatory/ Infectious Disease.; Will fax in clinicals; There has not been any treatment or conservative therapy.; Will fax in clinicals; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Pediatrics	Disapproval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Radiology Services Denied Not Medically Necessary	The requested study is a Shoulder MRI.; "The caller indicated the study was not ordered for: Known or Suspicious Mass or Tumor with or without metastasis, Known or suspected Joint Infection, Aseptic Necrosis, Trauma, Chronic Pain, or Pre or Post operative evaluation."; JUVENILE IDIOPATHIC ARTHRITIS	1
Pediatrics	Disapproval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	Radiology Services Denied Not Medically Necessary	&lt; Enter answer here - or Type In Unknown If No Info Given. &gt;; This study is being ordered for Inflammatory/ Infectious Disease.; 12/05/2017; It is not known if there has been any treatment or conservative therapy.; muscle tightness, left and right leg pain, stiffness; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	4
Pediatrics	Disapproval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	Radiology Services Denied Not Medically Necessary	This is a request for a lower extremity MRI.; There is a pulsatile mass.; "There is no evidence of tumor or mass from a previous exam, plain film, ultrasound, or previous CT or MRI."; There is a suspicion of an infection.; The patient is not taking antibiotics.; This is not a study for a fracture which does not show healing (non-union fracture).; This is not a pre-operative study for planned surgery.	1

Pediatrics	Disapproval	74174 Computed tomographic angiography, abdomen and pelvis, with contrast material(s), including noncontrast images, if performed, and image postprocessing	Radiology Services Denied Not Medically Necessary	This is a request for CT Angiography of the Abdomen and Pelvis.	1
Pediatrics	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; A urinalysis has been completed.; This study is being requested for abdominal and/or pelvic pain.; The results of the urinalysis were normal.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; The patient did not have a amylase or lipase lab test.; Yes this is a request for a Diagnostic CT	1
Pediatrics	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is male.; A rectal exam was not performed.; Yes this is a request for a Diagnostic CT	1
Physical Medicine	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		The patient has failed a course of anti-inflammatory medication or steroids.; This is a request for cervical spine MRI; There has been a supervised trial of conservative management for at least 6 weeks.; Acute or Chronic neck and/or back pain; No, the patient does not demonstrate neurological deficits.; No, this patient did not have a recent course of supervised physical Therapy.	1

Physical Medicine	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	&lt; Enter answer here - or Type In Unknown If No Info Given. &gt;; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; &lt; Enter date of initial onset here - or Type In Unknown If No Info Given &gt;; It is not known if there has been any treatment or conservative therapy.; &lt; Describe primary symptoms here - or Type In Unknown If No Info Given &gt;; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Physical Medicine	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	&lt; Enter answer here - or Type In Unknown If No Info Given. &gt;; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 5 YRS AGO; There has been treatment or conservative therapy.; Pt has aching sharp throbbing pain which radiates to the leg, aggravated with movement.; Pt was taking medication for pain mgmt.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Physical Medicine	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	; The study requested is a Lumbar Spine MRI.; Pre-Operative Evaluation; Surgery is not scheduled within the next 4 weeks.	1
Physical Medicine	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has an Abnormal x-ray indicating a significant abnormality	1

Physical Medicine	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	<p>&amp;lt; Enter answer here - or Type In Unknown If No Info Given. &amp;gt;; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; &amp;lt; Enter date of initial onset here - or Type In Unknown If No Info Given &amp;gt;; It is not known if there has been any treatment or conservative therapy.; &amp;lt; Describe primary symptoms here - or Type In Unknown If No Info Given &amp;gt;; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology</p>	3
Physical Medicine	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	<p>This is a request for a lower extremity MRI.; This is not a pulsatile mass.; "There is no evidence of tumor or mass from a previous exam, plain film, ultrasound, or previous CT or MRI."; There is not a suspicion of an infection.; The patient is not taking antibiotics.; This is a study for a fracture which does not show healing (non-union fracture).; This is a pre-operative study for planned surgery.</p>	1
Physical Medicine	Approval	73721 Magnetic resonance (eg, proton) imaging, any joint of lower extremity; without contrast material	<p>&amp;lt; Enter answer here - or Type In Unknown If No Info Given. &amp;gt;; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; &amp;lt; Enter date of initial onset here - or Type In Unknown If No Info Given &amp;gt;; It is not known if there has been any treatment or conservative therapy.; &amp;lt; Describe primary symptoms here - or Type In Unknown If No Info Given &amp;gt;; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology</p>	1

Physical Medicine	Disapproval	72131 Computed tomography, lumbar spine; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for a lumbar spine CT.; The patient has a history of severe low back trauma or lumbar injury.; Yes this is a request for a Diagnostic CT	1
Physical Medicine	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does not have new or changing neurologic signs or symptoms.; The patient has had back pain for over 4 weeks.; The patient has seen the doctor more then once for these symptoms.; It is not known if the physician has directed conservative treatment for the past 6 weeks.	1
Physical Medicine	Disapproval	72196 Magnetic resonance (eg, proton) imaging, pelvis; with contrast material(s)	Radiology Services Denied Not Medically Necessary	Pt suffers with right leg exterior burning; and lower back and right pain.; This is a request for a Pelvis MRI.; The request is not for any of the listed indications.	1
Physical Medicine	Disapproval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	Radiology Services Denied Not Medically Necessary	&lt; Enter answer here - or Type In Unknown If No Info Given. &gt;; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; &lt; Enter date of initial onset here - or Type In Unknown If No Info Given &gt;; It is not known if there has been any treatment or conservative therapy.; &lt; Describe primary symptoms here - or Type In Unknown If No Info Given &gt;; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

Physical Medicine	Disapproval	73721 Magnetic resonance (eg, proton) imaging, any joint of lower extremity; without contrast material	Radiology Services Denied Not Medically Necessary	&lt; Enter answer here - or Type In Unknown If No Info Given. &gt;; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; &lt; Enter date of initial onset here - or Type In Unknown If No Info Given &gt;; It is not known if there has been any treatment or conservative therapy.; &lt; Describe primary symptoms here - or Type In Unknown If No Info Given &gt;; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Physical Medicine	Disapproval	73721 Magnetic resonance (eg, proton) imaging, any joint of lower extremity; without contrast material	Radiology Services Denied Not Medically Necessary	&lt; Enter answer here - or Type In Unknown If No Info Given. &gt;; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 5 YRS AGO; There has been treatment or conservative therapy.; Pt has aching sharp throbbing pain which radiates to the leg, aggravated with movement.; Pt was taking medication for pain mgmt.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Plastic Surgery	Approval	70450 Computed tomography, head or brain; without contrast material		This is a request for a brain/head CT.; 'None of the above' best describes the reason that I have requested this test.; None of the above best describes the reason that I have requested this test.	4

Plastic Surgery	Approval	70480 Computed tomography, orbit, sella, or posterior fossa or outer, middle, or inner ear; without contrast material	"This request is for orbit,sella, int. auditory canal,temporal bone, mastoid, CT.239.8"; "There is not suspicion of bone infection, cholesteatoma, or inflammatory disease.ostct"; "There is not a history of serious head or skull, trauma or injury.ostct"; "There is not suspicion of neoplasm, or metastasis.ostct"; This is not a preoperative or recent postoperative evaluation.; "There is not suspicion of acoustic neuroma, pituitary or other tumor. ostct"	1
Plastic Surgery	Approval	70486 Computed tomography, maxillofacial area; without contrast material	"This request is for face, jaw, mandible CT.239.8"; "There is a history of serious facial bone or skull, trauma or injury.fct"; Yes this is a request for a Diagnostic CT	3
Plastic Surgery	Approval	70486 Computed tomography, maxillofacial area; without contrast material	"This request is for face, jaw, mandible CT.239.8"; "There is not a history of serious facial bone or skull, trauma or injury.fct"; "There is not a suspicion of neoplasm, tumor or metastasis.fct"; "There is not a suspicion of bone infection, [osteomyelitis].fct"; This is a preoperative or recent postoperative evaluation.; Yes this is a request for a Diagnostic CT This is a request for a Sinus CT.; This study is being ordered for sinusitis.; It is unknown if the patient is immune-compromised.; The patient's current rhinosinusitis symptoms are described as Chronic Rhinosinusitis (episode is greater than 12 weeks); Yes this is a request for a Diagnostic CT	1
Plastic Surgery	Approval	70486 Computed tomography, maxillofacial area; without contrast material	There is not a suspicion of an infection or abscess.; This examination is NOT being requested to evaluate lymphadenopathy or mass.; There is not a suspicion of a bone infection (osteomyelitis).; There is a suspicion of an orbit or face neoplasm, tumor, or metastasis.; This is a request for an Orbit MRI.; There is not a history of orbit or face trauma or injury.	1
Plastic Surgery	Approval	70540 Magnetic resonance (eg, proton) imaging, orbit, face, and/or neck; without contrast material(s)	&lt; Enter answer here - or Type In Unknown If No Info Given. &gt;; This is a request for a Pelvis MRI.; The request is not for any of the listed indications.	1

Plastic Surgery	Approval	72196 Magnetic resonance (eg, proton) imaging, pelvis; with contrast material(s)	&lt; Enter answer here - or Type In Unknown If No Info Given. &gt;; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; &lt; Enter date of initial onset here - or Type In Unknown If No Info Given &gt;; It is not known if there has been any treatment or conservative therapy.; &lt; Describe primary symptoms here - or Type In Unknown If No Info Given &gt;; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Plastic Surgery	Approval	73220 Magnetic resonance (eg, proton) imaging, upper extremity, other than joint; without contrast material(s), followed by contrast material(s) and further sequences	&lt; Enter answer here - or Type In Unknown If No Info Given. &gt;; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; &lt; Enter date of initial onset here - or Type In Unknown If No Info Given &gt;; It is not known if there has been any treatment or conservative therapy.; &lt; Describe primary symptoms here - or Type In Unknown If No Info Given &gt;; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Plastic Surgery	Approval	73220 Magnetic resonance (eg, proton) imaging, upper extremity, other than joint; without contrast material(s), followed by contrast material(s) and further sequences	The request is for an upper extremity non-joint MRI.; This is not a preoperative or recent postoperative evaluation.; There is not suspicion of upper extremity neoplasm or tumor or metastasis.; There is no suspicion of upper extremity bone or soft tissue infection.; The ordering physician is not an orthopedist.; There is not a history of upper extremity trauma or injury.	1

Plastic Surgery	Approval	73700 Computed tomography, lower extremity; without contrast material	This is a request for a Lower Extremity CT.; This is a preoperative or recent postoperative evaluation.; Yes this is a request for a Diagnostic CT	1
Plastic Surgery	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	&lt; Enter answer here - or Type In Unknown If No Info Given. &gt;; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; &lt; Enter date of initial onset here - or Type In Unknown If No Info Given &gt;; It is not known if there has been any treatment or conservative therapy.; &lt; Describe primary symptoms here - or Type In Unknown If No Info Given &gt;; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	2
Plastic Surgery	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)	&lt; Enter answer here - or Type In Unknown If No Info Given. &gt;; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; &lt; Enter date of initial onset here - or Type In Unknown If No Info Given &gt;; It is not known if there has been any treatment or conservative therapy.; &lt; Describe primary symptoms here - or Type In Unknown If No Info Given &gt;; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

Plastic Surgery	Approval	77058 Magnetic resonance imaging, breast, without and/or with contrast material(s); unilateral		This is a request for Breast MRI.; This study is being ordered for a known history of breast cancer.; No, this is not an individual who has known breast cancer in the contralateral (other) breast.; Yes, this is a confirmed breast cancer.; Yes, the results of this MRI (size and shape of tumor) affect the patient's further management.	1
Plastic Surgery	Approval	77058 Magnetic resonance imaging, breast, without and/or with contrast material(s); unilateral		This is a request for Breast MRI.; This study is being ordered for a known history of breast cancer.; Yes, this is an individual who has known breast cancer in the contralateral (other) breast.	1
Plastic Surgery	Disapproval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Radiology Services Denied Not Medically Necessary	&lt; Enter answer here - or Type In Unknown If No Info Given. &gt;; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; &lt; Enter date of initial onset here - or Type In Unknown If No Info Given &gt;; It is not known if there has been any treatment or conservative therapy.; &lt; Describe primary symptoms here - or Type In Unknown If No Info Given &gt;; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Plastic Surgery	Disapproval	74150 Computed tomography, abdomen; without contrast material	Radiology Services Denied Not Medically Necessary	Pt had a fall-abdominoplasty in the past-possible hematoma or torn rectus; This is a request for an Abdomen CT.; This study is being ordered for trauma.; This request is not for follow up to abdominal and/or pelvic trauma ordered by a specialist or PCP on behalf of a specialist who has seen the patient.; There is no recent trauma with physical findings or abnormal blood work indicating either peritonitis or abscess.; There are no physical findings or lab results indicating an intra-abdominal bleed.; Yes this is a request for a Diagnostic CT	1

Podiatry	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has 6 weeks of completed conservative care in the past 3 months or had a spine injection	4
Podiatry	Approval	73700 Computed tomography, lower extremity; without contrast material	This is a request for a foot CT.; "There is a history (within the past six weeks) of significant trauma, dislocation, or injury to the foot."; There is not a suspected tarsal coalition.; There is a history of new onset of severe pain in the foot within the last two weeks.; Yes this is a request for a Diagnostic CT	5
Podiatry	Approval	73700 Computed tomography, lower extremity; without contrast material	This is a request for a foot CT.; "There is a history (within the past six weeks) of significant trauma, dislocation, or injury to the foot."; There is not a suspected tarsal coalition.; There is not a history of new onset of severe pain in the foot within the last two weeks.; The patient has an abnormal plain film study of the foot other than arthritis.; The patient does not have a documented limitation of their range of motion.; Yes this is a request for a Diagnostic CT	1
Podiatry	Approval	73700 Computed tomography, lower extremity; without contrast material	This is a request for a foot CT.; "There is not a history (within the past six weeks) of significant trauma, dislocation, or injury to the foot."; There is not a suspected tarsal coalition.; There is a history of new onset of severe pain in the foot within the last two weeks.; The patient has a documented limitation of their range of motion.; Yes this is a request for a Diagnostic CT	1
Podiatry	Approval	73700 Computed tomography, lower extremity; without contrast material	This is a request for a Lower Extremity CT.; This is a preoperative or recent postoperative evaluation.; Yes this is a request for a Diagnostic CT	1
Podiatry	Approval	73700 Computed tomography, lower extremity; without contrast material	This is a request for an ankle CT.; "There is not a history (within the past six weeks) of significant trauma, dislocation, or injury to the ankle."; There is a history of new onset of severe pain in the ankle within the last two weeks.; The patient had an abnormal plain film study of the ankle other than arthritis.; There is not a suspected tarsal coalition.; The patient does not have a documented limitation of their range of motion.; Yes this is a request for a Diagnostic CT	1

Podiatry	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	<p>"There is not a history (within the past six weeks) of significant trauma, dislocation, or injury to the foot."; There is not a suspected tarsal coalition.; There is not a history of new onset of severe pain in the foot within the last two weeks.; The patient does not have an abnormal plain film study of the foot other than arthritis.; The patient has not used a cane or crutches for greater than four weeks.; The patient has not been treated with and failed a course of supervised physical therapy.; The patient has been treated with anti-inflammatory medications in conjunction with this complaint.; This is for pre-operative planning.; The patient does not have a documented limitation of their range of motion.; This is a request for bilateral foot MRI.; Multiple firm, nodular masses on plantar aspect of RIGHT mid foot. Two firm, nodular masses on plantar aspect of LEFT forefoot. These masses do not appear to be attached to overlying skin structures. This masses are not movable. Pain with firm palpation t</p>	2
Podiatry	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	<p>&amp;lt; Enter answer here - or Type In Unknown If No Info Given. &amp;gt;; This is a request for a foot MRI.; The study is being ordered for foot pain.; The study is being ordered for chronic pain.; The patient has had foot pain for over 4 weeks.; The patient has been treated with something other than crutches, a protective boot, walking cast, immobilization, orthopedics, anti-inflammatory medication or a cast for at least 6 weeks.</p>	1

Podiatry	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	&lt; Enter answer here - or Type In Unknown If No Info Given. &gt;; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 10-2017; There has been treatment or conservative therapy.; Inflammation and pain; Walking boot,limited mobility.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	2
Podiatry	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	&lt; Enter answer here - or Type In Unknown If No Info Given. &gt;; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 6 MONTHS AGO; There has not been any treatment or conservative therapy.; LIMITED RANGE OF MOTION, PAIN; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	2
Podiatry	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	&lt; Enter answer here - or Type In Unknown If No Info Given. &gt;; This study is being ordered for trauma or injury.; &lt; Enter date of initial onset here - or Type In Unknown If No Info Given &gt;; It is not known if there has been any treatment or conservative therapy.; &lt; Describe primary symptoms here - or Type In Unknown If No Info Given &gt;; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	2

Podiatry	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	&lt; Enter answer here - or Type In Unknown If No Info Given. &gt;; This study is being ordered for trauma or injury.; 12/29/2017; There has been treatment or conservative therapy.; &lt; Describe primary symptoms here - or Type In Unknown If No Info Given &gt;; walking boot, xrays, within past two weeks Pt is unable to lift toes; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	2
Podiatry	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	; This study is being ordered for trauma or injury.; 10/18/2016; There has been treatment or conservative therapy.; ; Physical Therapy &#x0D; NSAIDS&#x0D; Injections&#x0D; Figure 8 brace&#x0D; Shoe Modifications; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	2
Podiatry	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	dr thinks its an Achilles tear; This is a request for an Ankle MRI.; Surgery or arthroscopy is not scheduled in the next 4 weeks.; The study is requested for ankle pain.; There is a suspicion of tendon or ligament injury.	1
Podiatry	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	Lot of pain, little mobility and real swollen, can't hardly walk; This is a request for an Ankle MRI.; Surgery or arthroscopy is not scheduled in the next 4 weeks.; The study is requested for ankle pain.; There is a suspicion of tendon or ligament injury.	1

Podiatry	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	STRESS FRACTURE; This is a request for a foot MRI.; The study is being ordered for foot pain.; The study is NOT being ordered for chronic pain, acute pain, rule out tarsal coalition, known or suspected septic arthritis or osteomyelitis, tendonitis, neuroma or plantar fasciitis.	1
Podiatry	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	This is a request for a foot MRI.; "There is a history (within the past six weeks) of significant trauma, dislocation, or injury to the foot."; There is a suspected tarsal coalition.	6
Podiatry	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	This is a request for a foot MRI.; "There is a history (within the past six weeks) of significant trauma, dislocation, or injury to the foot."; There is not a suspected tarsal coalition.; There is a history of new onset of severe pain in the foot within the last two weeks.	7
Podiatry	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	This is a request for a foot MRI.; "There is a history (within the past six weeks) of significant trauma, dislocation, or injury to the foot."; There is not a suspected tarsal coalition.; There is not a history of new onset of severe pain in the foot within the last two weeks.; The patient does not have an abnormal plain film study of the foot other than arthritis.; The patient has not used a cane or crutches for greater than four weeks.; The patient has not been treated with and failed a course of supervised physical therapy.; The patient has not been treated with anti-inflammatory medications in conjunction with this complaint.; This is not for pre-operative planning.; The patient does not have a documented limitation of their range of motion.	1

Podiatry	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	This is a request for a foot MRI.; "There is not a history (within the past six weeks) of significant trauma, dislocation, or injury to the foot."; There is not a suspected tarsal coalition.; There is a history of new onset of severe pain in the foot within the last two weeks.; The patient does not have an abnormal plain film study of the foot other than arthritis.; The patient has not used a cane or crutches for greater than four weeks.; The patient has not been treated with and failed a course of supervised physical therapy.; The patient has been treated with anti-inflammatory medications in conjunction with this complaint.; The patient does not have a documented limitation of their range of motion.	5
Podiatry	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	This is a request for a foot MRI.; "There is not a history (within the past six weeks) of significant trauma, dislocation, or injury to the foot."; There is not a suspected tarsal coalition.; There is a history of new onset of severe pain in the foot within the last two weeks.; The patient does not have an abnormal plain film study of the foot other than arthritis.; The patient has not used a cane or crutches for greater than four weeks.; The patient has not been treated with and failed a course of supervised physical therapy.; The patient has not been treated with anti-inflammatory medications in conjunction with this complaint.; This is for pre-operative planning.; The patient does not have a documented limitation of their range of motion.	1
Podiatry	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	This is a request for a foot MRI.; "There is not a history (within the past six weeks) of significant trauma, dislocation, or injury to the foot."; There is not a suspected tarsal coalition.; There is a history of new onset of severe pain in the foot within the last two weeks.; The patient has a documented limitation of their range of motion.	12

Podiatry	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	This is a request for a foot MRI.; "There is not a history (within the past six weeks) of significant trauma, dislocation, or injury to the foot."; There is not a suspected tarsal coalition.; There is a history of new onset of severe pain in the foot within the last two weeks.; The patient has an abnormal plain film study of the foot other than arthritis.; The patient does not have a documented limitation of their range of motion.	1
Podiatry	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	This is a request for a foot MRI.; "There is not a history (within the past six weeks) of significant trauma, dislocation, or injury to the foot."; There is not a suspected tarsal coalition.; There is not a history of new onset of severe pain in the foot within the last two weeks.; The patient does not have an abnormal plain film study of the foot other than arthritis.; The patient has not used a cane or crutches for greater than four weeks.; The patient has been treated with and failed a course of supervised physical therapy.; The patient has been treated with anti-inflammatory medications in conjunction with this complaint.; The patient does not have a documented limitation of their range of motion.	1
Podiatry	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	This is a request for a foot MRI.; "There is not a history (within the past six weeks) of significant trauma, dislocation, or injury to the foot."; There is not a suspected tarsal coalition.; There is not a history of new onset of severe pain in the foot within the last two weeks.; The patient does not have an abnormal plain film study of the foot other than arthritis.; The patient has not used a cane or crutches for greater than four weeks.; The patient has not been treated with and failed a course of supervised physical therapy.; The patient has been treated with anti-inflammatory medications in conjunction with this complaint.; This is for pre-operative planning.; The patient has a documented limitation of their range of motion.	1

Podiatry                      Approval                      73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences

This is a request for a foot MRI.; "There is not a history (within the past six weeks) of significant trauma, dislocation, or injury to the foot."; There is not a suspected tarsal coalition.; There is not a history of new onset of severe pain in the foot within the last two weeks.; The patient does not have an abnormal plain film study of the foot other than arthritis.; The patient has not used a cane or crutches for greater than four weeks.; The patient has not been treated with and failed a course of supervised physical therapy.; The patient has been treated with anti-inflammatory medications in conjunction with this complaint.; This is not for pre-operative planning.; The patient does not have a documented limitation of their range of motion.

1

Podiatry                      Approval                      73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences

This is a request for a foot MRI.; "There is not a history (within the past six weeks) of significant trauma, dislocation, or injury to the foot."; There is not a suspected tarsal coalition.; There is not a history of new onset of severe pain in the foot within the last two weeks.; The patient does not have an abnormal plain film study of the foot other than arthritis.; The patient has not used a cane or crutches for greater than four weeks.; The patient has not been treated with and failed a course of supervised physical therapy.; The patient has been treated with anti-inflammatory medications in conjunction with this complaint.; This is not for pre-operative planning.; The patient has a documented limitation of their range of motion.

1

Podiatry	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	This is a request for a foot MRI.; "There is not a history (within the past six weeks) of significant trauma, dislocation, or injury to the foot."; There is not a suspected tarsal coalition.; There is not a history of new onset of severe pain in the foot within the last two weeks.; The patient does not have an abnormal plain film study of the foot other than arthritis.; The patient has not used a cane or crutches for greater than four weeks.; The patient has not been treated with and failed a course of supervised physical therapy.; The patient has not been treated with anti-inflammatory medications in conjunction with this complaint.; This is not for pre-operative planning.; The patient does not have a documented limitation of their range of motion.	2
Podiatry	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	This is a request for a foot MRI.; "There is not a history (within the past six weeks) of significant trauma, dislocation, or injury to the foot."; There is not a suspected tarsal coalition.; There is not a history of new onset of severe pain in the foot within the last two weeks.; The patient does not have an abnormal plain film study of the foot other than arthritis.; The patient has used a cane or crutches for greater than four weeks.; The patient has a documented limitation of their range of motion.	1
Podiatry	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	This is a request for a foot MRI.; "There is not a history (within the past six weeks) of significant trauma, dislocation, or injury to the foot."; There is not a suspected tarsal coalition.; There is not a history of new onset of severe pain in the foot within the last two weeks.; The patient has an abnormal plain film study of the foot other than arthritis.; The patient has a documented limitation of their range of motion.	1

Podiatry	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	This is a request for a foot MRI.; "There is not a history (within the past six weeks) of significant trauma, dislocation, or injury to the foot."; There is not a suspected tarsal coalition.; There is not a history of new onset of severe pain in the foot within the last two weeks.; The patient has an abnormal plain film study of the foot other than arthritis.; The patient has not used a cane or crutches for greater than four weeks.; The patient has not been treated with and failed a course of supervised physical therapy.; The patient has been treated with anti-inflammatory medications in conjunction with this complaint.; This is not for pre-operative planning.; The patient does not have a documented limitation of their range of motion.	1
Podiatry	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	This is a request for a foot MRI.; "There is not a history (within the past six weeks) of significant trauma, dislocation, or injury to the foot."; There is not a suspected tarsal coalition.; There is not a history of new onset of severe pain in the foot within the last two weeks.; The patient has an abnormal plain film study of the foot other than arthritis.; The patient has not used a cane or crutches for greater than four weeks.; The patient has not been treated with and failed a course of supervised physical therapy.; The patient has not been treated with anti-inflammatory medications in conjunction with this complaint.; This is for pre-operative planning.; The patient does not have a documented limitation of their range of motion.	1
Podiatry	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	This is a request for a foot MRI.; The study is being ordered for foot pain.; The study is being ordered for plantar fasciitis.; The patient has had foot pain for over 4 weeks.; The patient has been treated with crutches for at least 6 weeks.	1

Podiatry	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	This is a request for a lower extremity MRI.; This is not a pulsatile mass.; "There is no evidence of tumor or mass from a previous exam, plain film, ultrasound, or previous CT or MRI."; There is not a suspicion of an infection.; The patient is not taking antibiotics.; This is not a study for a fracture which does not show healing (non-union fracture).; This is a pre-operative study for planned surgery.	1
Podiatry	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	This is a request for a lower extremity MRI.; This is not a pulsatile mass.; "There is no evidence of tumor or mass from a previous exam, plain film, ultrasound, or previous CT or MRI."; There is not a suspicion of an infection.; The patient is not taking antibiotics.; This is not a study for a fracture which does not show healing (non-union fracture).; This is not a pre-operative study for planned surgery.	1
Podiatry	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	This is a request for an Ankle MRI.; "There is a history (within the past six weeks) of significant trauma, dislocation, or injury to the ankle."; There is a history of new onset of severe pain in the ankle within the last two weeks.; There is not a suspected tarsal coalition.	12
Podiatry	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	This is a request for an Ankle MRI.; "There is not a history (within the past six weeks) of significant trauma, dislocation, or injury to the ankle."; There is a history of new onset of severe pain in the ankle within the last two weeks.; The patient does not have an abnormal plain film study of the ankle other than arthritis.; The patient has not used a cane or crutches for greater than four weeks.; There is not a suspected tarsal coalition.; The patient has not been treated with and failed a course of supervised physical therapy.; The patient has been treated with anti-inflammatory medications in conjunction with this complaint.; The patient does not have a documented limitation of their range of motion.	2

Podiatry	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	This is a request for an Ankle MRI.; "There is not a history (within the past six weeks) of significant trauma, dislocation, or injury to the ankle."; There is a history of new onset of severe pain in the ankle within the last two weeks.; The patient does not have an abnormal plain film study of the ankle other than arthritis.; The patient has not used a cane or crutches for greater than four weeks.; There is not a suspected tarsal coalition.; The patient has not been treated with and failed a course of supervised physical therapy.; The patient has not been treated with anti-inflammatory medications in conjunction with this complaint.; The patient does not have a documented limitation of their range of motion.; This study is being ordered by the operating surgeon for pre-operative planning.	1
Podiatry	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	This is a request for an Ankle MRI.; "There is not a history (within the past six weeks) of significant trauma, dislocation, or injury to the ankle."; There is a history of new onset of severe pain in the ankle within the last two weeks.; The patient had an abnormal plain film study of the ankle other than arthritis.; There is not a suspected tarsal coalition.; The patient does not have a documented limitation of their range of motion.	3
Podiatry	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	This is a request for an Ankle MRI.; "There is not a history (within the past six weeks) of significant trauma, dislocation, or injury to the ankle."; There is a history of new onset of severe pain in the ankle within the last two weeks.; There is a suspected tarsal coalition.	3
Podiatry	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	This is a request for an Ankle MRI.; "There is not a history (within the past six weeks) of significant trauma, dislocation, or injury to the ankle."; There is a history of new onset of severe pain in the ankle within the last two weeks.; There is not a suspected tarsal coalition.; The patient has a documented limitation of their range of motion.	9

Podiatry	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	This is a request for an Ankle MRI.; "There is not a history (within the past six weeks) of significant trauma, dislocation, or injury to the ankle."; There is not a history of new onset of severe pain in the ankle within the last two weeks.; The patient does not have an abnormal plain film study of the ankle other than arthritis.; The patient has not used a cane or crutches for greater than four weeks.; There is not a suspected tarsal coalition.; The patient has been treated with and failed a course of supervised physical therapy.; The patient has a documented limitation of their range of motion.	1
----------	----------	---	--	---

Podiatry	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	This is a request for an Ankle MRI.; "There is not a history (within the past six weeks) of significant trauma, dislocation, or injury to the ankle."; There is not a history of new onset of severe pain in the ankle within the last two weeks.; The patient does not have an abnormal plain film study of the ankle other than arthritis.; The patient has not used a cane or crutches for greater than four weeks.; There is not a suspected tarsal coalition.; The patient has not been treated with and failed a course of supervised physical therapy.; The patient has been treated with anti-inflammatory medications in conjunction with this complaint.; The patient does not have a documented limitation of their range of motion.; This study is being ordered by the operating surgeon for pre-operative planning.	1
----------	----------	---	---	---

Podiatry                      Approval                      73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences

This is a request for an Ankle MRI.; "There is not a history (within the past six weeks) of significant trauma, dislocation, or injury to the ankle."; There is not a history of new onset of severe pain in the ankle within the last two weeks.; The patient does not have an abnormal plain film study of the ankle other than arthritis.; The patient has not used a cane or crutches for greater than four weeks.; There is not a suspected tarsal coalition.; The patient has not been treated with and failed a course of supervised physical therapy.; The patient has been treated with anti-inflammatory medications in conjunction with this complaint.; The patient does not have a documented limitation of their range of motion.; This study is not being ordered by an operating surgeon for pre-operative planning.

1

Podiatry                      Approval                      73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences

This is a request for an Ankle MRI.; "There is not a history (within the past six weeks) of significant trauma, dislocation, or injury to the ankle."; There is not a history of new onset of severe pain in the ankle within the last two weeks.; The patient does not have an abnormal plain film study of the ankle other than arthritis.; The patient has not used a cane or crutches for greater than four weeks.; There is not a suspected tarsal coalition.; The patient has not been treated with and failed a course of supervised physical therapy.; The patient has been treated with anti-inflammatory medications in conjunction with this complaint.; The patient has a documented limitation of their range of motion.; This study is not being ordered by an operating surgeon for pre-operative planning.

1

Podiatry                      Approval                      73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences

This is a request for an Ankle MRI.; "There is not a history (within the past six weeks) of significant trauma, dislocation, or injury to the ankle."; There is not a history of new onset of severe pain in the ankle within the last two weeks.; The patient does not have an abnormal plain film study of the ankle other than arthritis.; The patient has not used a cane or crutches for greater than four weeks.; There is not a suspected tarsal coalition.; The patient has not been treated with and failed a course of supervised physical therapy.; The patient has not been treated with anti-inflammatory medications in conjunction with this complaint.; The patient does not have a documented limitation of their range of motion.; This study is not being ordered by an operating surgeon for pre-operative planning.

1

Podiatry                      Approval                      73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences

This is a request for an Ankle MRI.; "There is not a history (within the past six weeks) of significant trauma, dislocation, or injury to the ankle."; There is not a history of new onset of severe pain in the ankle within the last two weeks.; The patient does not have an abnormal plain film study of the ankle other than arthritis.; The patient has not used a cane or crutches for greater than four weeks.; There is not a suspected tarsal coalition.; The patient has not been treated with and failed a course of supervised physical therapy.; The patient has not been treated with anti-inflammatory medications in conjunction with this complaint.; The patient has a documented limitation of their range of motion.; This study is being ordered by the operating surgeon for pre-operative planning.

1

Podiatry	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	This is a request for an Ankle MRI.; "There is not a history (within the past six weeks) of significant trauma, dislocation, or injury to the ankle."; There is not a history of new onset of severe pain in the ankle within the last two weeks.; The patient does not have an abnormal plain film study of the ankle other than arthritis.; The patient has not used a cane or crutches for greater than four weeks.; There is not a suspected tarsal coalition.; The patient has not been treated with and failed a course of supervised physical therapy.; The patient has not been treated with anti-inflammatory medications in conjunction with this complaint.; The patient has a documented limitation of their range of motion.; This study is not being ordered by an operating surgeon for pre-operative planning.	1
Podiatry	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	This is a request for an Ankle MRI.; The pain is from a recent injury.; Surgery or arthroscopy is scheduled in the next 4 weeks.; The member has a recent injury.; The study is requested for a reason other than ankle pain.	1
Podiatry	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	This is a request for an Ankle MRI.; There is a suspicion of fracture not adequately determined by x-ray.; The study is requested for ankle pain.; Tendon or ligament injury is not suspected.	2

Podiatry	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		Unknown; This study is being ordered for trauma or injury.; About 6 months ago.; There has been treatment or conservative therapy.; Pain in his ankle. Popping sounds. Bottom of his feet hurt a lot including major pain on his heel.; PT Shoe Insert put in his shoes. Steroid and cortisone injections. Surgery on his ankle and foot.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	2
Podiatry	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		waiting for mri results to see if surgery is needed; This is a request for an Ankle MRI.; Surgery or arthroscopy is not scheduled in the next 4 weeks.; The study is requested for ankle pain.; There is a suspicion of tendon or ligament injury.	1
Podiatry	Approval	73725 Magnetic resonance angiography, lower extremity, with or without contrast material(s)		unknown; Is this a request for one of the following? MR Angiogram lower extremity	1
Podiatry	Disapproval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	Radiology Services Denied Not Medically Necessary	"There is a history (within the past six weeks) of significant trauma, dislocation, or injury to the ankle."; There is a suspected tarsal coalition.; Doctor wants to evaluate both ankles; This is a request for a bilateral ankle MRI.	2
Podiatry	Disapproval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	Radiology Services Denied Not Medically Necessary	"There is a history (within the past six weeks) of significant trauma, dislocation, or injury to the foot."; There is not a suspected tarsal coalition.; There is a history of new onset of severe pain in the foot within the last two weeks.; This is a request for bilateral foot MRI.; trying to rule out fracture	2

Podiatry	Disapproval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	Radiology Services Denied Not Medically Necessary	"There is not a history (within the past six weeks) of significant trauma, dislocation, or injury to the foot."; There is a suspected tarsal coalition.; There is a history of new onset of severe pain in the foot within the last two weeks.; This is a request for bilateral foot MRI;	4
Podiatry	Disapproval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	Radiology Services Denied Not Medically Necessary	&lt; Enter answer here - or Type In Unknown If No Info Given. &gt;; This is a request for a foot MRI.; A plain x-ray of the area been done.; The study is being ordered for foot pain.; The study is being ordered for known or suspected septic arthritis or osteomyelitis.; The results of the plain film x-ray were abnormal.	1
Podiatry	Disapproval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	Radiology Services Denied Not Medically Necessary	&lt; Enter answer here - or Type In Unknown If No Info Given. &gt;; This is a request for an Ankle MRI.; The study is not requested for any of the standard indications for Knee MRI; The study is requested for a reason other than ankle pain.	1
Podiatry	Disapproval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	Radiology Services Denied Not Medically Necessary	&lt; Enter answer here - or Type In Unknown If No Info Given. &gt;; This study is being ordered for trauma or injury.; 11/13/2017; There has been treatment or conservative therapy.; &lt; Describe primary symptoms here - or Type In Unknown If No Info Given &gt;; physical therapy, boot, medication; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	2
Podiatry	Disapproval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	Radiology Services Denied Not Medically Necessary	Anti inflammatory Medications.; This is a request for a foot MRI.; The study is being ordered for foot pain.; The study is being ordered for neuroma.; The patient has had foot pain for over 4 weeks.; The patient has been treated with orthotics for at least 6 weeks.	1

Podiatry	Disapproval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	Radiology Services Denied Not Medically Necessary	foot and ankle pain multiple Xray previous abnormal CT; This is a request for an Ankle MRI.; Surgery or arthrscopy is not scheduled in the next 4 weeks.; The study is requested for ankle pain.; There is a suspicion of tendon or ligament injury.	1
Podiatry	Disapproval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	Radiology Services Denied Not Medically Necessary	night splint; This is a request for a foot MRI.; The study is being ordered for foot pain.; The study is being ordered for chronic pain.; The patient has had foot pain for over 4 weeks.; The patient has been treated with orthotics for at least 6 weeks.	1
Podiatry	Disapproval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	Radiology Services Denied Not Medically Necessary	Pt suffers with foot pain; R/O posterior tibia tear.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI. &lt; Enter answer here - or Type In Unknown If No Info Given. &gt;; The study requested is a Lumbar Spine MRI.; It is unknown if the patient has acute or chronic back pain.; This procedure is being requested for None of the above	2
Preventive Medicine	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material		The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has 6 weeks of completed conservative care in the past 3 months or had a spine injection	1
Preventive Medicine	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material			1
Psychiatry	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The patient had a thunderclap headache or worst headache of the patient's life (within the last 3 months).	1

Psychiatry	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	TSYCHOSIS; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Not requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation,multiple sclerosis, or seizures; The condition is not associated with headache, blurred or double vision or a change in sensation noted on exam.; A metabolic work-up done including urinalysis, electrolytes, and complete blood count with results was not completed.; The patient does NOT have dizziness, fatigue or malaise, Bell's Palsy, a congenital abnormality, loss of smell, hearing loss or vertigo.	1
Psychiatry	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	This is a request for a Knee MRI.; The ordering physician is not an orthopedist.; Non-acute Chronic Pain; Locking	1
Pulmonary Medicine	Approval	70450 Computed tomography, head or brain; without contrast material	Has completed therapy and assessing if he has had resolution of brain abscess; This study is being ordered for Inflammatory/ Infectious Disease.; 5/12/2017; There has been treatment or conservative therapy.; confusion; He was treated for Norcardia with Bactrim for a lengthy period of time; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Pulmonary Medicine	Approval	70450 Computed tomography, head or brain; without contrast material	This is a request for a brain/head CT.; Recent (in the past month) head trauma with neurologic symptoms/findings best describes the reason that I have requested this test. "This request is for face, jaw, mandible CT.239.8"; "There is not a history of serious facial bone or skull, trauma or injury.fct"; "There is suspicion of neoplasm, tumor or metastasis.fct"; Yes this is a request for a Diagnostic CT	1
Pulmonary Medicine	Approval	70486 Computed tomography, maxillofacial area; without contrast material		1

Pulmonary Medicine	Approval	70486 Computed tomography, maxillofacial area; without contrast material	; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Pulmonary Medicine	Approval	70486 Computed tomography, maxillofacial area; without contrast material	recurrent sinus infections; This study is being ordered for sinusitis.; This is a request for a Sinus CT.; The patient is NOT immune-compromised.; The patient's current rhinosinusitis symptoms are described as (sudden onset of 2 or more symptoms of nasal discharge, blockage or congestion, facial pain, pressure and reduction or loss of sense of smell, which are less than 12 wks in duration); It has been less than 14 days since onset AND the patient improved, then worsened; Yes this is a request for a Diagnostic CT This is a request for a Sinus CT.; This study is being ordered for sinusitis.; The patient is NOT immune- compromised.; The patient's current rhinosinusitis symptoms are described as Chronic Rhinosinusitis (episode is greater than 12 weeks); Yes this is a request for a Diagnostic CT	1
Pulmonary Medicine	Approval	70486 Computed tomography, maxillofacial area; without contrast material	This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Not requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation,multiple sclerosis, or seizures; The condition is associated with headache, blurred or double vision or a change in sensation noted on exam.; The patient does NOT have dizziness, fatigue or malaise, Bell's Palsy, a congenital abnormality, loss of smell, hearing loss or vertigo.	1
Pulmonary Medicine	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Requested for evaluation of infection or inflammation; The patient has a fever, stiff neck AND positive laboratory findings (like elevated WBC or abnormal Lumbar puncture fluid examination that indicate inflammatory disease or an infection.; This is NOT a Medicare member.	1
Pulmonary Medicine	Approval	71250 Computed tomography, thorax; without contrast material		63

Pulmonary Medicine	Approval	71250 Computed tomography, thorax; without contrast material	"There IS evidence of a lung, mediastinal or chest mass noted within the last 30 days."; A Chest/Thorax CT is being ordered.; This study is being ordered for work-up for suspicious mass.; Yes this is a request for a Diagnostic CT	1
Pulmonary Medicine	Approval	71250 Computed tomography, thorax; without contrast material	"There IS evidence of a lung, mediastinal or chest mass noted within the last 30 days."; They did not have a previous Chest x-ray.; A Chest/Thorax CT is being ordered.; This study is being ordered for work-up for suspicious mass.; Yes this is a request for a Diagnostic CT	1
Pulmonary Medicine	Approval	71250 Computed tomography, thorax; without contrast material	"There is no radiologic evidence of sarcoidosis, tuberculosis or fungal infection."; There is radiologic evidence of a lung abscess or empyema.; There is NO radiologic evidence of non-resolving pneumonia for 6 weeks after antibiotic treatment was prescribed.; A Chest/Thorax CT is being ordered.; This study is being ordered for known or suspected inflammatory disease or pneumonia.; Yes this is a request for a Diagnostic CT	2
Pulmonary Medicine	Approval	71250 Computed tomography, thorax; without contrast material	&lt; Enter answer here - or Type In Unknown If No Info Given. &gt;; "There is NO evidence of a lung, mediastinal or chest mass noted within the last 30 days."; A Chest/Thorax CT is being ordered.; This study is being ordered for work-up for suspicious mass.; Yes this is a request for a Diagnostic CT	1
Pulmonary Medicine	Approval	71250 Computed tomography, thorax; without contrast material	&lt; Enter answer here - or Type In Unknown If No Info Given. &gt;; A Chest/Thorax CT is being ordered.; The study is being ordered for none of the above.; This study is being ordered for non of the above.; Yes this is a request for a Diagnostic CT	5

Pulmonary Medicine	Approval	71250 Computed tomography, thorax; without contrast material	&lt; Enter answer here - or Type In Unknown If No Info Given. &gt;; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; &lt; Enter date of initial onset here - or Type In Unknown If No Info Given &gt;; There has been treatment or conservative therapy.; &lt; Describe primary symptoms here - or Type In Unknown If No Info Given &gt;; &lt; Describe treatment / conservative therapy here - or Type In Unknown If No Info Given &gt;; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Pulmonary Medicine	Approval	71250 Computed tomography, thorax; without contrast material	; "There IS evidence of a lung, mediastinal or chest mass noted within the last 30 days."; They had a previous Chest x-ray.; A Chest/Thorax CT is being ordered.; This study is being ordered for work-up for suspicious mass.; Yes this is a request for a Diagnostic CT	1
Pulmonary Medicine	Approval	71250 Computed tomography, thorax; without contrast material	; "There is NO evidence of a lung, mediastinal or chest mass noted within the last 30 days."; A Chest/Thorax CT is being ordered.; This study is being ordered for work-up for suspicious mass.; Yes this is a request for a Diagnostic CT	2
Pulmonary Medicine	Approval	71250 Computed tomography, thorax; without contrast material	; A Chest/Thorax CT is being ordered.; The study is being ordered for none of the above.; This study is being ordered for non of the above.; Yes this is a request for a Diagnostic CT	4

Pulmonary Medicine	Approval	71250 Computed tomography, thorax; without contrast material	; The patient is NOT presenting new signs or symptoms.; "There is radiologic evidence of sarcoidosis, tuberculosis or fungal infection."; There is NO radiologic evidence of non-resolving pneumonia for 6 weeks after antibiotic treatment was prescribed.; A Chest/Thorax CT is being ordered.; This study is being ordered for known or suspected inflammatory disease or pneumonia.; Yes this is a request for a Diagnostic CT	1
Pulmonary Medicine	Approval	71250 Computed tomography, thorax; without contrast material	1. Lung cancer &#x0D; &#x0D; HISTORY: This is a 62- year-old female smoker with COPD and lung cancer who returns for followup.&#x0D; &#x0D; She continues to smoke. She does not seem motivated to stop.&#x0D; &#x0D; She has a history of adenocarcinoma of the right upper lobe resected; This study is being ordered for a metastatic disease.; There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology 6 mo follow up of known pulmonary nodule; A Chest/Thorax CT is being ordered.; The study is being ordered for none of the above.; This study is being ordered for non of the above.; Yes this is a request for a Diagnostic CT	1
Pulmonary Medicine	Approval	71250 Computed tomography, thorax; without contrast material	A Chest/Thorax CT is being ordered.; This study is being ordered for known tumor.; Yes this is a request for a Diagnostic CT	1
Pulmonary Medicine	Approval	71250 Computed tomography, thorax; without contrast material	A Chest/Thorax CT is being ordered.; This study is being ordered for suspected pulmonary Embolus.; Yes this is a request for a Diagnostic CT	24
Pulmonary Medicine	Approval	71250 Computed tomography, thorax; without contrast material	A Chest/Thorax CT is being ordered.; This study is being ordered for none of the above.; This study is being ordered for non of the above.; Yes this is a request for a Diagnostic CT	4
Pulmonary Medicine	Approval	71250 Computed tomography, thorax; without contrast material	abnormal CT scan, greater than 8mm; A Chest/Thorax CT is being ordered.; The study is being ordered for none of the above.; This study is being ordered for non of the above.; Yes this is a request for a Diagnostic CT	1

Pulmonary Medicine	Approval	71250 Computed tomography, thorax; without contrast material	Abnormal finding on examination of the chest, chest wall and or lungs describes the reason for this request.; This is a request for a Chest CT.; Yes this is a request for a Diagnostic CT	44
Pulmonary Medicine	Approval	71250 Computed tomography, thorax; without contrast material	Abnormal finding on examination of the chest, chest wall and or lungs describes the reason for this request.; A Chest/Thorax CT is being ordered.; The study is being ordered for none of the above.; This study is being ordered for non of the above.; Yes this is a request for a Diagnostic CT	1
Pulmonary Medicine	Approval	71250 Computed tomography, thorax; without contrast material	Abnormal imaging test describes the reason for this request.; This is a request for a Chest CT.; Yes this is a request for a Diagnostic CT	72
Pulmonary Medicine	Approval	71250 Computed tomography, thorax; without contrast material	Abnormal laboratory test describes the reason for this request.; This is a request for a Chest CT.; Yes this is a request for a Diagnostic CT	1
Pulmonary Medicine	Approval	71250 Computed tomography, thorax; without contrast material	According to Dr. Walker and radiologist on 08/08/2017 :&#x0D; Impression: Stable cavitary change of right perihilar area. (RLL post/superior segement). Ongoing smoking&#x0D; Will repeat Ct in 6 months.&#x0D; Discussed smoking cessation.&#x0D; Given Rx for Chantix.&#x0D; Refill Sy; A Chest/Thorax CT is being ordered.; The study is being ordered for none of the above.; This study is being ordered for non of the above.; Yes this is a request for a Diagnostic CT	1
Pulmonary Medicine	Approval	71250 Computed tomography, thorax; without contrast material	According to Radiologist on 9/25/2017&#x0D; &#x0D; IMPRESSION: Interval decrease in size of soft tissue nodule in the&#x0D; lateral portion of the left upper lobe; currently measuring 1.5 x 0.8&#x0D; cm, previously it measured 1.8 x 1.1 cm.&#x0D; Slight interval decrease in size; A Chest/Thorax CT is being ordered.; The study is being ordered for none of the above.; This study is being ordered for non of the above.; Yes this is a request for a Diagnostic CT	1

Pulmonary Medicine	Approval	71250 Computed tomography, thorax; without contrast material	Assessment: Shortness of breath seems to be out of proportion to completely normal spirometry. Cardiac disease or occult interstitial lung disease could be causes of her dyspnea. Valvular heart disease could also cause dyspnea. Cough-potentially could; There is no radiologic evidence of mediastinal widening.; A Chest/Thorax CT is being ordered.; This study is being ordered for vascular disease other than cardiac.; Yes this is a request for a Diagnostic CT	1
Pulmonary Medicine	Approval	71250 Computed tomography, thorax; without contrast material	Chest pain describes the reason for this request.; Abnormal imaging (xray) finding was relevant in the diagnosis or suspicion of inflammatory lung disease; This study is being requested for known or suspected inflammatory disease such as sarcoidosis, pneumoconiosis, asbestosis, silicosis; This is a request for a Chest CT.; This study is being requested for none of the above.; Yes this is a request for a Diagnostic CT	1
Pulmonary Medicine	Approval	71250 Computed tomography, thorax; without contrast material	Chest pain describes the reason for this request.; Abnormal lab finding was relevant in the diagnosis or suspicion of inflammatory lung disease; This study is being requested for known or suspected inflammatory disease such as sarcoidosis, pneumoconiosis, asbestosis, silicosis; This is a request for a Chest CT.; This study is being requested for none of the above.; Yes this is a request for a Diagnostic CT	1
Pulmonary Medicine	Approval	71250 Computed tomography, thorax; without contrast material	Chest pain describes the reason for this request.; An abnormal imaging (xray) finding led to the suspicion of infection; This is a request for a Chest CT.; This study is being requested for known or suspected infection (pneumonia, abscess, empyema).; Yes this is a request for a Diagnostic CT	1
Pulmonary Medicine	Approval	71250 Computed tomography, thorax; without contrast material	Chest pain describes the reason for this request.; Another abnormality led to the suspicion of infection; This is a request for a Chest CT.; This study is being requested for known or suspected infection (pneumonia, abscess, empyema).; Yes this is a request for a Diagnostic CT	1

Pulmonary Medicine	Approval	71250 Computed tomography, thorax; without contrast material	Chest pain describes the reason for this request.; Restaging during ongoing treatment is related to this request for imaging of a known cancer or tumor; This is a request for a Chest CT.; This study is beign requested for known cancer or tumor; Yes this is a request for a Diagnostic CT	1
Pulmonary Medicine	Approval	71250 Computed tomography, thorax; without contrast material	Chest pain describes the reason for this request.; The patient had an abnormal lab finding related to the suspicion of cancer in this patient.; This is a request for a Chest CT.; This study is beign requested for suspected cancer or tumor.; Yes this is a request for a Diagnostic CT	1
Pulmonary Medicine	Approval	71250 Computed tomography, thorax; without contrast material	Chest pain describes the reason for this request.; This study is being requested for 'none of the above!'; This is a request for a Chest CT.; This study is being requested for none of the above.; Yes this is a request for a Diagnostic CT	2
Pulmonary Medicine	Approval	71250 Computed tomography, thorax; without contrast material	Evaluation with history of COPD. patient has an abcess; A Chest/Thorax CT is being ordered.; The study is being ordered for none of the above.; This study is being ordered for non of the above.; Yes this is a request for a Diagnostic CT	1
Pulmonary Medicine	Approval	71250 Computed tomography, thorax; without contrast material	follow up nodules.; A Chest/Thorax CT is being ordered.; The study is being ordered for none of the above.; This study is being ordered for non of the above.; Yes this is a request for a Diagnostic CT	1
Pulmonary Medicine	Approval	71250 Computed tomography, thorax; without contrast material	FOLLOW UP ON LUNG NODULE SEEN ON PREVIOUS SCAN; A Chest/Thorax CT is being ordered.; The study is being ordered for none of the above.; This study is being ordered for non of the above.; Yes this is a request for a Diagnostic CT	1
Pulmonary Medicine	Approval	71250 Computed tomography, thorax; without contrast material	Follow-up of pulmonary nodule 1.4 x1.4 cm Radiologist suggests follow-up within 3 months for stability; There is no radiologic evidence of mediastinal widening.; There is no physical or radiologic evidence of a chest wall abnormality.; A Chest/Thorax CT is being ordered.; The study is being ordered for none of the above.; This study is being ordered for follow up trauma.; Yes this is a request for a Diagnostic CT	1

Pulmonary Medicine	Approval	71250 Computed tomography, thorax; without contrast material	Has completed therapy and assessing if he has had resolution of brain abscess; This study is being ordered for Inflammatory/ Infectious Disease.; 5/12/2017; There has been treatment or conservative therapy.; confusion; He was treated for Norcardia with Bactrim for a lengthy period of time; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Pulmonary Medicine	Approval	71250 Computed tomography, thorax; without contrast material	HX OF CANCER, HAS Bronchiectasis,&#x0D; Hx of recurrent aspiration. Used to have PEG tube. Hx of head and neck cancer S/P radiation&#x0D; X-RAY FINDING &#x0D; IMPRESSION:&#x0D; 1. Airspace disease right lower lobe consistent with a history of prior aspiration pneumonia. &#x0D; 2; A Chest/Thorax CT is being ordered.; This study is being ordered for screening of lung cancer.; The patient is between 55 and 80 years old.; This patient is NOT a smoker nor do they have a history of smoking.; The patient has NOT had a Low Dose CT for Lung Cancer Screening or a Chest CT in the past 11 months.; Yes this is a request for a Diagnostic CT	1
Pulmonary Medicine	Approval	71250 Computed tomography, thorax; without contrast material	I saw the patient 3 months ago. She is still asymptomatic today. The repeat CT describes more prominent nodes. I examined th eimage and it shows enlarged 4L that was 1.8 mm and now is 1.9 mm. I don't know if this is really different. Station 10L is howev; A Chest/Thorax CT is being ordered.; This study is being ordered for screening of lung cancer.; The patient had a Low Dose CT for Lung Cancer Screening or a Chest CT in the past 11 months.; Yes this is a request for a Diagnostic CT	1
Pulmonary Medicine	Approval	71250 Computed tomography, thorax; without contrast material	Lung nodule F/U; A Chest/Thorax CT is being ordered.; The study is being ordered for none of the above.; This study is being ordered for non of the above.; Yes this is a request for a Diagnostic CT	1

Pulmonary Medicine	Approval	71250 Computed tomography, thorax; without contrast material	<p>nodule measures 10mm; "There IS evidence of a lung, mediastinal or chest mass noted within the last 30 days."; They had a previous Chest x-ray.; A Chest/Thorax CT is being ordered.; This study is being ordered for work-up for suspicious mass.; Yes this is a request for a Diagnostic CT</p>	1
Pulmonary Medicine	Approval	71250 Computed tomography, thorax; without contrast material	<p>'None of the above' describes the reason for this request.; Abnormal bronchoscopy finding was relevant in the diagnosis or suspicion of inflammatory lung disease; This study is being requested for known or suspected inflammatory disease such as sarcoidosis, pneumoconiosis, asbestosis, silicosis; This is a request for a Chest CT.; This study is being requested for none of the above.; Yes this is a request for a Diagnostic CT</p>	1
Pulmonary Medicine	Approval	71250 Computed tomography, thorax; without contrast material	<p>'None of the above' describes the reason for this request.; Abnormal finding on physical examination was relevant in the diagnosis or suspicion of inflammatory lung disease; This study is being requested for known or suspected inflammatory disease such as sarcoidosis, pneumoconiosis, asbestosis, silicosis; This is a request for a Chest CT.; This study is being requested for none of the above.; Yes this is a request for a Diagnostic CT</p>	1
Pulmonary Medicine	Approval	71250 Computed tomography, thorax; without contrast material	<p>'None of the above' describes the reason for this request.; Abnormal imaging (xray) finding was relevant in the diagnosis or suspicion of inflammatory lung disease; This study is being requested for known or suspected inflammatory disease such as sarcoidosis, pneumoconiosis, asbestosis, silicosis; This is a request for a Chest CT.; This study is being requested for none of the above.; Yes this is a request for a Diagnostic CT</p>	3
Pulmonary Medicine	Approval	71250 Computed tomography, thorax; without contrast material	<p>'None of the above' describes the reason for this request.; Abnormal mass in the chest, chest wall, or lung is related to this request for imaging of a known cancer or tumor; This is a request for a Chest CT.; This study is beign requested for known cancer or tumor; Yes this is a request for a Diagnostic CT</p>	1

Pulmonary Medicine	Approval	71250 Computed tomography, thorax; without contrast material	'None of the above' describes the reason for this request.; An abnormal finding on physical examination led to the suspicion of infection.; This is a request for a Chest CT.; This study is being requested for known or suspected infection (pneumonia, abscess, empyema).; Yes this is a request for a Diagnostic CT	1
Pulmonary Medicine	Approval	71250 Computed tomography, thorax; without contrast material	'None of the above' describes the reason for this request.; An abnormal imaging (xray) finding led to the suspicion of infection; This is a request for a Chest CT.; This study is being requested for known or suspected infection (pneumonia, abscess, empyema).; Yes this is a request for a Diagnostic CT	2
Pulmonary Medicine	Approval	71250 Computed tomography, thorax; without contrast material	'None of the above' describes the reason for this request.; Another abnormality is related to the suspicion of cancer in this patient.; This is a request for a Chest CT.; This study is beign requested for suspected cancer or tumor.; Yes this is a request for a Diagnostic CT	1
Pulmonary Medicine	Approval	71250 Computed tomography, thorax; without contrast material	'None of the above' describes the reason for this request.; Finding of cancer elsewhere is related to the suspicion of cnacer in this patient.; This is a request for a Chest CT.; This study is beign requested for suspected cancer or tumor.; Yes this is a request for a Diagnostic CT	1
Pulmonary Medicine	Approval	71250 Computed tomography, thorax; without contrast material	'None of the above' describes the reason for this request.; It is unknown if anything else was noted related to the suspicion of cancer in this patient.; This is a request for a Chest CT.; This study is beign requested for suspected cancer or tumor.; Yes this is a request for a Diagnostic CT	1
Pulmonary Medicine	Approval	71250 Computed tomography, thorax; without contrast material	'None of the above' describes the reason for this request.; Known tumor and new symptoms involving the chest, chest wall, lung or pelvis is related to this request for imaging of a known cancer or tumor; This is a request for a Chest CT.; This study is beign requested for known cancer or tumor; Yes this is a request for a Diagnostic CT	3

Pulmonary Medicine	Approval	71250 Computed tomography, thorax; without contrast material	'None of the above' describes the reason for this request.; 'None of the above' are related to this request for imaging of a known cancer or tumor; This is a request for a Chest CT.; This study is being requested for known cancer or tumor; Yes this is a request for a Diagnostic CT	2
Pulmonary Medicine	Approval	71250 Computed tomography, thorax; without contrast material	'None of the above' describes the reason for this request.; 'None of the above' were relevant in the diagnosis or suspicion of inflammatory lung disease; This study is being requested for known or suspected inflammatory disease such as sarcoidosis, pneumoconiosis, asbestosis, silicosis; This is a request for a Chest CT.; This study is being requested for none of the above.; Yes this is a request for a Diagnostic CT	1
Pulmonary Medicine	Approval	71250 Computed tomography, thorax; without contrast material	'None of the above' describes the reason for this request.; The patient had an abnormal imaging (xray) finding related to the suspicion of cancer in this patient.; This is a request for a Chest CT.; This study is being requested for suspected cancer or tumor.; Yes this is a request for a Diagnostic CT	5
Pulmonary Medicine	Approval	71250 Computed tomography, thorax; without contrast material	'None of the above' describes the reason for this request.; This is a request for a Chest CT.; This study is being requested for Screening of Lung Cancer.; It is unknown if the patient had a Low Dose CT for Lung Cancer Screening or a Chest CT in the past 11 months.; Yes this is a request for a Diagnostic CT	2
Pulmonary Medicine	Approval	71250 Computed tomography, thorax; without contrast material	'None of the above' describes the reason for this request.; This is a request for a Chest CT.; This study is being requested for Screening of Lung Cancer.; The patient had a Low Dose CT for Lung Cancer Screening or a Chest CT in the past 11 months.; Yes this is a request for a Diagnostic CT	2

Pulmonary Medicine	Approval	71250 Computed tomography, thorax; without contrast material	'None of the above' describes the reason for this request.; This is a request for a Chest CT.; This study is being requested for Screening of Lung Cancer.; The patient is between 55 and 80 years old.; This patient is a smoker or has a history of smoking.; It is unknown if the patient has a 30 pack per year history of smoking.; The patient has NOT had a Low Dose CT for Lung Cancer Screening or a Chest CT in the past 11 months.; Yes this is a request for a Diagnostic CT	1
Pulmonary Medicine	Approval	71250 Computed tomography, thorax; without contrast material	'None of the above' describes the reason for this request.; This is a request for a Chest CT.; This study is being requested for Screening of Lung Cancer.; The patient is between 55 and 80 years old.; This patient is a smoker or has a history of smoking.; The patient does NOT have a 30 pack per year history of smoking.; The patient has NOT had a Low Dose CT for Lung Cancer Screening or a Chest CT in the past 11 months.; Yes this is a request for a Diagnostic CT	1
Pulmonary Medicine	Approval	71250 Computed tomography, thorax; without contrast material	'None of the above' describes the reason for this request.; This is a request for a Chest CT.; This study is being requested for Screening of Lung Cancer.; The patient is between 55 and 80 years old.; This patient is a smoker or has a history of smoking.; The patient has a 30 pack per year history of smoking.; The patient did NOT quit smoking in the past 15 years.; The patient does NOT have signs or symptoms suggestive of lung cancer such as an unexplained cough, coughing up blood, unexplained weight loss or other condition.; The patient has NOT had a Low Dose CT for Lung Cancer Screening or a Chest CT in the past 11 months.; Yes this is a request for a Diagnostic CT	1

Pulmonary Medicine	Approval	71250 Computed tomography, thorax; without contrast material	'None of the above' describes the reason for this request.; This is a request for a Chest CT.; This study is being requested for Screening of Lung Cancer.; The patient is between 55 and 80 years old.; This patient is a smoker or has a history of smoking.; The patient has a 30 pack per year history of smoking.; The patient did NOT quit smoking in the past 15 years.; The patient has signs or symptoms suggestive of lung cancer such as an unexplained cough, coughing up blood, unexplained weight loss or other condition.; The patient has NOT had a Low Dose CT for Lung Cancer Screening or a Chest CT in the past 11 months.; Yes this is a request for a Diagnostic CT	1
Pulmonary Medicine	Approval	71250 Computed tomography, thorax; without contrast material	'None of the above' describes the reason for this request.; This is a request for a Chest CT.; This study is being requested for Screening of Lung Cancer.; The patient is between 55 and 80 years old.; This patient is a smoker or has a history of smoking.; The patient has a 30 pack per year history of smoking.; The patient quit smoking in the past 15 years.; The patient does NOT have signs or symptoms suggestive of lung cancer such as an unexplained cough, coughing up blood, unexplained weight loss or other condition.; The patient has NOT had a Low Dose CT for Lung Cancer Screening or a Chest CT in the past 11 months.; Yes this is a request for a Diagnostic CT	1
Pulmonary Medicine	Approval	71250 Computed tomography, thorax; without contrast material	'None of the above' describes the reason for this request.; This reason this study is being requested is unknown.; This is a request for a Chest CT.; This study is being requested for none of the above.; Yes this is a request for a Diagnostic CT	2

Pulmonary Medicine	Approval	71250 Computed tomography, thorax; without contrast material	'None of the above' describes the reason for this request.; This study is being requested for an unresolved cough; This is a request for a Chest CT.; This study is being requested for none of the above.; Yes this is a request for a Diagnostic CT	7
Pulmonary Medicine	Approval	71250 Computed tomography, thorax; without contrast material	'None of the above' describes the reason for this request.; This study is being requested for 'none of the above'.; This is a request for a Chest CT.; This study is being requested for none of the above.; Yes this is a request for a Diagnostic CT	5
Pulmonary Medicine	Approval	71250 Computed tomography, thorax; without contrast material	'None of the above' describes the reason for this request.; This study is being requested for suspicion of pulmonary embolism (PE); This is a request for a Chest CT.; This study is being requested for none of the above.; Yes this is a request for a Diagnostic CT	1

Pulmonary Medicine	Approval	71250 Computed tomography, thorax; without contrast material	Per patient she'll get recurrent infection. Sometimes she has a significant amount of cough and sputum production in the morning which is white to yellow in color. She has shortness of breath, wheezing, palpitations. She wears a CPAP at night and still ha; There is no radiologic evidence of asbestosis.; "There is no radiologic evidence of sarcoidosis, tuberculosis or fungal infection."; There is no radiologic evidence of a lung abscess or empyema.; There is no radiologic evidence of pneumoconiosis e.g. black lung disease or silicosis.; There is NO radiologic evidence of non-resolving pneumonia for 6 weeks after antibiotic treatment was prescribed.; A Chest/Thorax CT is being ordered.; This study is being ordered for known or suspected inflammatory disease or pneumonia.; Yes this is a request for a Diagnostic CT	1
Pulmonary Medicine	Approval	71250 Computed tomography, thorax; without contrast material	PET/CT scan&#x0D; &#x0D; IMPRESSION:&#x0D; 1. There is a stable 1.3 x 0.8-cm pleural-based nodule in the superior segment right&#x0D; lower lobe with only trace hypermetabolism, max SUV 1.4. This likely represents&#x0D; benign entity such as a solitary fibrous tumor of the pleura; A Chest/Thorax CT is being ordered.; The patient did NOT have a Chest x-ray in the past 2 weeks.; The study is being ordered for none of the above.; This study is being ordered for hemoptysis.; Yes this is a request for a Diagnostic CT	1
Pulmonary Medicine	Approval	71250 Computed tomography, thorax; without contrast material	Post-operative evaluation describes the reason for this request.; This is a request for a Chest CT.; Yes this is a request for a Diagnostic CT	2
Pulmonary Medicine	Approval	71250 Computed tomography, thorax; without contrast material	Pre-operative evaluation describes the reason for this request.; This is a request for a Chest CT.; Yes this is a request for a Diagnostic CT	2

Pulmonary Medicine	Approval	71250 Computed tomography, thorax; without contrast material	PT WITH BILATERAL INTERSTITIAL PROMINENCE, SLIGHTY HYPERINFLATED LUNGS IN THE APICES BILATERALLY AND THICKENING OF THE MINOR FISSURE. THERE ARE SOME CMALL GRANULOMATOUS LESIONS BILATERALLY.; It is not known if the patient is presenting new signs or symptoms.; "There is radiologic evidence of sarcoidosis, tuberculosis or fungal infection."; There is NO radiologic evidence of non-resolving pneumonia for 6 weeks after antibiotic treatment was prescribed.; A Chest/Thorax CT is being ordered.; This study is being ordered for known or suspected inflammatory disease or pneumonia.; Yes this is a request for a Diagnostic CT	1
Pulmonary Medicine	Approval	71250 Computed tomography, thorax; without contrast material	Pt. has had previous CT and multiple pulmonary nodules were found.; A Chest/Thorax CT is being ordered.; The study is being ordered for none of the above.; This study is being ordered for non of the above.; Yes this is a request for a Diagnostic CT	1
Pulmonary Medicine	Approval	71250 Computed tomography, thorax; without contrast material	pulmonary nodule this is a FU had a ct abdomen in aug for 7mm and this is a FU; "There is NO evidence of a lung, mediastinal or chest mass noted within the last 30 days."; A Chest/Thorax CT is being ordered.; This study is being ordered for work-up for suspicious mass.; Yes this is a request for a Diagnostic CT	1
Pulmonary Medicine	Approval	71250 Computed tomography, thorax; without contrast material	pulmonary nodule, f/u; "There is NO evidence of a lung, mediastinal or chest mass noted within the last 30 days."; A Chest/Thorax CT is being ordered.; This study is being ordered for work-up for suspicious mass.; Yes this is a request for a Diagnostic CT	1
Pulmonary Medicine	Approval	71250 Computed tomography, thorax; without contrast material	pulmonary hypertension restricted lung disease and prior hx if drug abuse cocaine and meth; A Chest/Thorax CT is being ordered.; The study is being ordered for none of the above.; This study is being ordered for non of the above.; Yes this is a request for a Diagnostic CT	1

Pulmonary Medicine	Approval	71250 Computed tomography, thorax; without contrast material	r/o cough and shortness of breath, possible lung cancer and COPD; A Chest/Thorax CT is being ordered.; The study is being ordered for none of the above.; This study is being ordered for non of the above.; Yes this is a request for a Diagnostic CT	1
Pulmonary Medicine	Approval	71250 Computed tomography, thorax; without contrast material	The patient is presenting new signs or symptoms.; "There is radiologic evidence of sarcoidosis, tuberculosis or fungal infection."; There is NO radiologic evidence of non-resolving pneumonia for 6 weeks after antibiotic treatment was prescribed.; A Chest/Thorax CT is being ordered.; This study is being ordered for known or suspected inflammatory disease or pneumonia.; Yes this is a request for a Diagnostic CT	2
Pulmonary Medicine	Approval	71250 Computed tomography, thorax; without contrast material	There is radiologic evidence of non-resolving pneumonia for 6 weeks after antibiotic treatment was prescribed.; A Chest/Thorax CT is being ordered.; This study is being ordered for known or suspected inflammatory disease or pneumonia.; Yes this is a request for a Diagnostic CT	6
Pulmonary Medicine	Approval	71250 Computed tomography, thorax; without contrast material	Trying to rule out bronchiectasis, patient has chronic bronchitis. Coughing constantly, current smoker.; There is no radiologic evidence of asbestosis.; "There is no radiologic evidence of sarcoidosis, tuberculosis or fungal infection."; There is no radiologic evidence of a lung abscess or empyema.; There is no radiologic evidence of pneumoconiosis e.g. black lung disease or silicosis.; There is NO radiologic evidence of non-resolving pneumonia for 6 weeks after antibiotic treatment was prescribed.; A Chest/Thorax CT is being ordered.; This study is being ordered for known or suspected inflammatory disease or pneumonia.; Yes this is a request for a Diagnostic CT	1
Pulmonary Medicine	Approval	71250 Computed tomography, thorax; without contrast material	Unexplained weight loss describes the reason for this request.; This is a request for a Chest CT.; Yes this is a request for a Diagnostic CT	2

Pulmonary Medicine	Approval	71250 Computed tomography, thorax; without contrast material	Unknown; "There IS evidence of a lung, mediastinal or chest mass noted within the last 30 days."; They had a previous Chest x-ray.; A Chest/Thorax CT is being ordered.; This study is being ordered for work-up for suspicious mass.; Yes this is a request for a Diagnostic CT unknown; A Chest/Thorax CT is being ordered.; The study is being ordered for none of the above.; This study is being ordered for non of the above.; Yes this is a request for a Diagnostic CT	1
Pulmonary Medicine	Approval	71250 Computed tomography, thorax; without contrast material		1
Pulmonary Medicine	Approval	71250 Computed tomography, thorax; without contrast material	Unknown; There is no radiologic evidence of asbestosis.; "There is no radiologic evidence of sarcoidosis, tuberculosis or fungal infection."; There is no radiologic evidence of a lung abscess or empyema.; There is no radiologic evidence of pneumoconiosis e.g. black lung disease or silicosis.; There is NO radiologic evidence of non-resolving pneumonia for 6 weeks after antibiotic treatment was prescribed.; A Chest/Thorax CT is being ordered.; This study is being ordered for known or suspected inflammatory disease or pneumonia.; Yes this is a request for a Diagnostic CT	1
Pulmonary Medicine	Approval	71275 Computed tomographic angiography, chest (noncoronary), with contrast material(s), including noncontrast images, if performed, and image postprocessing		1
Pulmonary Medicine	Approval	71275 Computed tomographic angiography, chest (noncoronary), with contrast material(s), including noncontrast images, if performed, and image postprocessing	&lt; Enter answer here - or Type In Unknown If No Info Given. &gt;; This study is not requested to evaluate suspected pulmonary embolus.; This study will not be performed in conjunction with a Chest CT.; This study is being ordered for another reason besides Known or Suspected Congenital Abnormality, Known or suspected Vascular Disease.; Yes, this is a request for a Chest CT Angiography.	1

Pulmonary Medicine	Approval	71275 Computed tomographic angiography, chest (noncoronary), with contrast material(s), including noncontrast images, if performed, and image postprocessing	pt has shortness of breath and chest pain; This study is not requested to evaluate suspected pulmonary embolus.; This study will not be performed in conjunction with a Chest CT.; This study is being ordered for another reason besides Known or Suspected Congenital Abnormality, Known or suspected Vascular Disease.; Yes, this is a request for a Chest CT Angiography.	1
Pulmonary Medicine	Approval	71275 Computed tomographic angiography, chest (noncoronary), with contrast material(s), including noncontrast images, if performed, and image postprocessing	right posterior lung nodule, sarcoidosis, dyspnea, lower extremity edema; The patient is over 17 years old.; This study is not requested to evaluate suspected pulmonary embolus.; It is not known if this study will be performed in conjunction with a Chest CT.; This study is being ordered for Known or Suspected Congenital Abnormality.; The abnormality is of a non-cardiac nature.; Yes, this is a request for a Chest CT Angiography.	1
Pulmonary Medicine	Approval	71275 Computed tomographic angiography, chest (noncoronary), with contrast material(s), including noncontrast images, if performed, and image postprocessing	This study is requested to evaluate suspected pulmonary embolus.; Yes, this is a request for a Chest CT Angiography.	8
Pulmonary Medicine	Approval	71275 Computed tomographic angiography, chest (noncoronary), with contrast material(s), including noncontrast images, if performed, and image postprocessing	unknown; It is not known whether this study is requested to evaluate suspected pulmonary embolus.; This study is being ordered for another reason besides Known or Suspected Congenital Abnormality, Known or suspected Vascular Disease.; Yes, this is a request for a Chest CT Angiography.	1
Pulmonary Medicine	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	This is a request for cervical spine MRI; Acute or Chronic neck and/or back pain; Yes, the patient demonstrate neurological deficits.; yes, there is a documented evidence of extremity weakness on physical examination.	1
Pulmonary Medicine	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	This is a request for cervical spine MRI; None of the above; Yes, the patient is experiencing or presenting new symptoms of upper extremity weakness.	1

Pulmonary Medicine	Approval	73220 Magnetic resonance (eg, proton) imaging, upper extremity, other than joint; without contrast material(s), followed by contrast material(s) and further sequences	The request is for an upper extremity non-joint MRI.; This is not a preoperative or recent postoperative evaluation.; There is not suspicion of upper extremity neoplasm or tumor or metastasis.; There is suspicion of upper extremity bone or soft tissue infection.	1
Pulmonary Medicine	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		1
Pulmonary Medicine	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	1. Lung cancer &#x0D; &#x0D; HISTORY: This is a 62-year-old female smoker with COPD and lung cancer who returns for followup.&#x0D; &#x0D; She continues to smoke. She does not seem motivated to stop.&#x0D; &#x0D; She has a history of adenocarcinoma of the right upper lobe resected; This study is being ordered for a metastatic disease.; There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Pulmonary Medicine	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)	; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1

Pulmonary Medicine	Approval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)	; The study is being ordered for suspected CAD.; The patient is presenting with symptoms of atypical chest pain and/or shortness of breath.; There are no documented clinical findings of hyperlipidemia.; There are no documented clinical findings of hypertension.; It is not known if the patient is diabetic.; The patient has not had a recent non-nuclear stress test.; "Patient is not clinically obese, nor has an emphysematous chest configuration."; The patient has not had a stress echocardiogram within the past eight weeks.; This is a request for Myocardial Perfusion Imaging (Nuclear Cardiology Study).; It is not known if the patient has a physical limitation to exercise.; The patient is male.; This is NOT a Medicare member.; The patient's age is between 45 and 64 years old.	1
Pulmonary Medicine	Approval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)	The patient is not diabetic.; The patient has not had a recent exercise treadmill test that was positive.; The patient has one or more of the following: heart transplant, aortic aneurysm, carotid artery narrowing or stenosis, and/ or peripheral vascular disease or narrowed blood vessels in the legs.; This is a request for Myocardial Perfusion Imaging (Nuclear Cardiology Study).; This is NOT a Medicare member.; The patient is less than 45 years old.	1
Pulmonary Medicine	Approval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)	This is a request for Myocardial Perfusion Imaging (Nuclear Cardiology Study).; The study is requested for known or suspected cardiac septal defect.	1

Pulmonary Medicine	Approval	78813 Positron emission tomography (PET) imaging; whole body	This is a request for a Tumor Imaging PET Scan; A nodule of less than 4 centimeters has been identified on recent imaging; This study is being ordered to evaluate a solitary pulmonary nodule.; The solitary pulmonary nodule was identified on an imaging study in the last 30 days.; This study is being requested for Lung Cancer.; This would be the first PET Scan performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	2
Pulmonary Medicine	Approval	78813 Positron emission tomography (PET) imaging; whole body	This is a request for a Tumor Imaging PET Scan; A nodule of less than 4 centimeters has been identified on recent imaging; This study is being ordered to evaluate a solitary pulmonary nodule.; The solitary pulmonary nodule was NOT identified on an imaging study in the last 30 days.; This study is being requested for Lung Cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Pulmonary Medicine	Approval	78813 Positron emission tomography (PET) imaging; whole body	This is a request for a Tumor Imaging PET Scan; A nodule of less than 4 centimeters has not been identified on recent imaging; This study is being ordered to evaluate a solitary pulmonary nodule.; This study is being requested for Lung Cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1

Pulmonary Medicine	Approval	78813 Positron emission tomography (PET) imaging; whole body	This is a request for a Tumor Imaging PET Scan; The suspicion of cancer is based on a more than 1 of the following; diagnostic test, imaging sstudy, or biopsy.; This study is being ordered to establish a cancer diagnosis.; This study is being ordered for something other than Breast CA, Lymphoma, Myeloma, Ovarian CA, Esophageal CA, Lung CA, Colorectal CA, Head/Neck CA, Melanoma, Soft Tissue Sarcoma, Pancreatic CA or Testicular CA.; This study is being requested for an other solid tumor.; This would be the first PET Scan performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Pulmonary Medicine	Approval	78813 Positron emission tomography (PET) imaging; whole body	This is a request for a Tumor Imaging PET Scan; The suspicion of cancer is based on an imaging study.; This study is being ordered to establish a cancer diagnosis.; This study is being requested for Lymphoma or Myeloma.; This would be the first PET Scan performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Pulmonary Medicine	Approval	78813 Positron emission tomography (PET) imaging; whole body	This is a request for a Tumor Imaging PET Scan; This study is being ordered for something other than Breast CA, Lymphoma, Myeloma, Ovarian CA, Esophageal CA, Lung CA, Colorectal CA, Head/Neck CA, Melanoma, Soft Tissue Sarcoma, Pancreatic CA or Testicular CA.; This study is not being ordered for Cervical CA, Brain Cancer/Tumor or Mass, Thyroid CA or other solid tumor.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	2
Pulmonary Medicine	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		7

Pulmonary Medicine	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body	This is a request for a Tumor Imaging PET Scan; A nodule of less than 4 centimeters has been identified on recent imaging; This study is being ordered to evaluate a solitary pulmonary nodule.; The solitary pulmonary nodule was identified on an imaging study in the last 30 days.; This study is being requested for Lung Cancer.; This would be the first PET Scan performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	2
Pulmonary Medicine	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body	This is a request for a Tumor Imaging PET Scan; It is unknown why the study is being ordered.; This study is being requested for Lymphoma or Myeloma.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Pulmonary Medicine	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body	This is a request for a Tumor Imaging PET Scan; The suspicion of cancer is based on a more than 1 of the following; diagnostic test, imaging sstudy, or biopsy.; This study is being ordered to establish a cancer diagnosis.; This study is being ordered for something other than Breast CA, Lymphoma, Myeloma, Ovarian CA, Esophageal CA, Lung CA, Colorectal CA, Head/Neck CA, Melanoma, Soft Tissue Sarcoma, Pancreatic CA or Testicular CA.; This study is being requested for an other solid tumor.; This would be the first PET Scan performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1

Pulmonary Medicine	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body	This is a request for a Tumor Imaging PET Scan; The suspicion of cancer is based on an imaging study.; This study is being ordered to establish a cancer diagnosis.; This study is being ordered for something other than Breast CA, Lymphoma, Myeloma, Ovarian CA, Esophageal CA, Lung CA, Colorectal CA, Head/Neck CA, Melanoma, Soft Tissue Sarcoma, Pancreatic CA or Testicular CA.; This study is being requested for an other solid tumor.; This would be the first PET Scan performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	2
Pulmonary Medicine	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body	This is a request for a Tumor Imaging PET Scan; This study is being ordered for initial treatment (after a diagnosis of Cancer has been made).; This study is being requested for Lung Cancer.; 1 PET Scans has already been performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Pulmonary Medicine	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body	This is a request for a Tumor Imaging PET Scan; This study is being ordered for initial treatment (after a diagnosis of Cancer has been made).; This study is being requested for Lung Cancer.; This would be the first PET Scan performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	2
Pulmonary Medicine	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body	This is a request for a Tumor Imaging PET Scan; This study is being ordered for something other than Breast CA, Lymphoma, Myeloma, Ovarian CA, Esophageal CA, Lung CA, Colorectal CA, Head/Neck CA, Melanoma, Soft Tissue Sarcoma, Pancreatic CA or Testicular CA.; This study is not being ordered for Cervical CA, Brain Cancer/Tumor or Mass, Thyroid CA or other solid tumor.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	2

Pulmonary Medicine	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body	This is a request for a Tumor Imaging PET Scan; This study is being ordered for subsequent treatment.; This study is being requested for Lung Cancer.; The patient has been diagnosed with NON small lung cancer.; The study is NOT being ordered after completing a course of treatment initiated in the last 8 weeks or because they are experiencing new sings or symptoms.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Pulmonary Medicine	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body	This is a request for a Tumor Imaging PET Scan; This study is being ordered to establish a cancer diagnosis.; This study is being requested for Lung Cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	2
Pulmonary Medicine	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body	This is a request for a Tumor Imaging PET Scan; This would be the first PET Scan performed on this patient for this cancer.; This is a Medicare member.; This study is being requested for None of the above; This Pet Scan is being ordered for something other than Prostate, Cervical, Breast Cancer or Melanoma; This study is being requested for Lung Cancer; This Pet Scan is being requested for Initial Treatment Strategy (Diagnosis and/or Staging); This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	2
Pulmonary Medicine	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body	This is a request for a Tumor Imaging PET Scan; Unknown if a nodule of less than 4 centimeters has been identified on recent imaging; This study is being ordered to evaluate a solitary pulmonary nodule.; This study is being requested for Lung Cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1

Pulmonary Medicine	Approval	93307 Echocardiography, transthoracic, real-time with image documentation (2D), includes M-mode recording, when performed, complete, without spectral or color Doppler echocardiography	This a request for an echocardiogram.; This is a request for a Transthoracic Echocardiogram.; This study is being ordered for another reason; The reason for ordering this study is unknown.	1
Pulmonary Medicine	Approval	93307 Echocardiography, transthoracic, real-time with image documentation (2D), includes M-mode recording, when performed, complete, without spectral or color Doppler echocardiography	This a request for an echocardiogram.; This is a request for a Transthoracic Echocardiogram.; This study is being ordered for another reason; This study is being ordered for evaluation of abnormal symptoms, physical exam findings, or diagnostic studies (chest x-ray or EKG) indicative of heart disease.; This is for the initial evaluation of abnormal symptoms, physical exam findings, or diagnostic studies (chest x-ray or EKG) indicatvie of heart disease.; The patient has shortness of breath; Known or suspected pulmonary hypertension	1
Pulmonary Medicine	Approval	93307 Echocardiography, transthoracic, real-time with image documentation (2D), includes M-mode recording, when performed, complete, without spectral or color Doppler echocardiography	This a request for an echocardiogram.; This is a request for a Transthoracic Echocardiogram.; This study is being ordered for Evaluation of Cardiac Valves.; This is an initial evaluation of suspected valve disease.	1
Pulmonary Medicine	Approval	93307 Echocardiography, transthoracic, real-time with image documentation (2D), includes M-mode recording, when performed, complete, without spectral or color Doppler echocardiography	This a request for an echocardiogram.; This is a request for a Transthoracic Echocardiogram.; This study is being ordered for Evaluation of Pulmonary Hypertension.	4
Pulmonary Medicine	Approval	G0297 LOW DOSE CT SCAN FOR LUNG CANCER SCREENING		2

Pulmonary Medicine	Approval	G0297 LOW DOSE CT SCAN FOR LUNG CANCER SCREENING		This request is for a Low Dose CT for Lung Cancer Screening.; This patient has NOT had a Low Dose CT for Lung Cancer Screening in the past 11 months.; The patient is between 55 and 80 years old.; This patient is a smoker or has a history of smoking.; The patient has a 30 pack per year history of smoking.; The patient is NOT presenting with pulmonary signs or symptoms of lung cancer nor are there other diagnostic test suggestive of lung cancer.; The patient has not quit smoking.	11
Pulmonary Medicine	Approval	G0297 LOW DOSE CT SCAN FOR LUNG CANCER SCREENING		This request is for a Low Dose CT for Lung Cancer Screening.; This patient has NOT had a Low Dose CT for Lung Cancer Screening in the past 11 months.; The patient is between 55 and 80 years old.; This patient is a smoker or has a history of smoking.; The patient has a 30 pack per year history of smoking.; The patient is NOT presenting with pulmonary signs or symptoms of lung cancer nor are there other diagnostic test suggestive of lung cancer.; The patient quit smoking less than 15 years ago.	10
Pulmonary Medicine	Disapproval	70450 Computed tomography, head or brain; without contrast material	Radiology Services Denied Not Medically Necessary	B; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; At least 1 year; There has been treatment or conservative therapy.; Syncope, dizziness, central sleep apnea, cough syncope, congestion. &#x0D; *Cough syncope, feels like he will black out off and on; At least 1 year; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology This is a request for a Sinus CT.; This study is being ordered for sinusitis.; It is unknown if the patient is immune-compromised.; The patient's current rhinosinusitis symptoms are described as Chronic	1
Pulmonary Medicine	Disapproval	70486 Computed tomography, maxillofacial area; without contrast material	Radiology Services Denied Not Medically Necessary	Rhinosinusitis (episode is greater than 12 weeks); Yes this is a request for a Diagnostic CT	1

Pulmonary Medicine	Disapproval	70486 Computed tomography, maxillofacial area; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for a Sinus CT.; This study is being ordered for sinusitis.; The patient is immune- compromised.; Yes this is a request for a Diagnostic CT This is a request for a Sinus CT.; This study is being ordered for sinusitis.; The patient is NOT immune- compromised.; The patient's current rhinosinusitis symptoms are described as Chronic Rhinosinusitis (episode is greater than 12 weeks); Yes this is a request for a Diagnostic CT	1
Pulmonary Medicine	Disapproval	70486 Computed tomography, maxillofacial area; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for a Sinus CT.; This study is being ordered for sinusitis.; The patient is NOT immune- compromised.; The patient's current rhinosinusitis symptoms are described as Recurrent Acute Rhinosinusitis (4 or more acute episodes per year); Yes this is a request for a Diagnostic CT	1
Pulmonary Medicine	Disapproval	70486 Computed tomography, maxillofacial area; without contrast material	Radiology Services Denied Not Medically Necessary	Unknown; This study is being ordered for Inflammatory/ Infectious Disease.; 11/13/2017; There has been treatment or conservative therapy.; Cough, low grade fever, SOB, sinus pressure; Antibiotics, cough worsened, throat feels like it's clogged up, put on cefbinir, Zyrtec, Amoxicillin, Cipro x 2,; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology ; A Chest/Thorax CT is being ordered.; The study is being ordered for none of the above.; This study is being ordered for non of the above.; Yes this is a request for a Diagnostic CT	1
Pulmonary Medicine	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	Abnormal finding on examination of the chest, chest wall and or lungs describes the reason for this request.;	3
Pulmonary Medicine	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for a Chest CT.; Yes this is a request for a Diagnostic CT	24
Pulmonary Medicine	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	Abnormal imaging test describes the reason for this request.; This is a request for a Chest CT.; Yes this is a request for a Diagnostic CT	23

Pulmonary Medicine	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	B; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; At least 1 year; There has been treatment or conservative therapy.; Syncope, dizziness, central sleep apnea, cough syncope, congestion. &#x0D; *Cough syncope, feels like he will black out off and on; At least 1 year; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Pulmonary Medicine	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	Chest pain describes the reason for this request.; Initial staging prior to treatment is related to this request for imaging of a known cancer or tumor; This is a request for a Chest CT.; This study is beign requested for known cancer or tumor; Yes this is a request for a Diagnostic CT	1
Pulmonary Medicine	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	Chest pain describes the reason for this request.; 'None of the above' led to the suspicion of infection; This is a request for a Chest CT.; This study is being requested for known or suspected infection (pneumonia, abscess, empyema).; Yes this is a request for a Diagnostic CT Coughing up blood (hemoptysis) describes the reason for this request.; This is a request for a Chest CT.; Yes this is a request for a Diagnostic CT	1
Pulmonary Medicine	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary		1

IMPRESSION: Sarcoidosis, improved. No evidence of recurrence after stopping methotrexate for two months. He has such extensive organ involvement diagnosis and recurrence after initially tapering steroids, but seems to be inactive at this time. He shou; This study is being ordered for Inflammatory/ Infectious Disease.; 12/01/2010; There has been treatment or conservative therapy.; HISTORY: This is a 35-year-old man with sarcoidosis diagnosed in 2010 by orchiectomy after presenting with lung, mediastinal, intraabdominal, and testicular involvement. ACE level is 120. He is on real complaint with some arthralgias in his feet. He w; HISTORY: This is a 35-year-old man with sarcoidosis diagnosed in 2010 by orchiectomy after presenting with lung, mediastinal, intraabdominal, and testicular involvement. ACE level is 120. He is on real complaint with some arthralgias in his feet. He w; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT

Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology

1

'None of the above' describes the reason for this request.; An abnormal lab finding led to the suspicion of infection; This is a request for a Chest CT.; This study is being requested for known or suspected infection (pneumonia, abscess, empyema).; Yes this is a request for a Diagnostic CT

1

'None of the above' describes the reason for this request.; 'None of the above' led to the suspicion of infection; This is a request for a Chest CT.; This study is being requested for known or suspected infection (pneumonia, abscess, empyema).; Yes this is a request for a Diagnostic CT

Pulmonary Medicine	Disapproval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)	Radiology Services Denied Not Medically Necessary	SOB; dyspnea on exertion; intermittent chest tightness;; The caller indicated that the study was not ordered for: Known or suspected coronary artery disease, post myocardial infarction evaluation, pre operative or post operative (Cardiac surgery, angioplasty or stent) evaluation.; The patient has not had a stress echocardiogram within the past eight weeks.; This is a request for Myocardial Perfusion Imaging (Nuclear Cardiology Study).; This is NOT a Medicare member.; The patient's age is between 45 and 64 years old.	1
Pulmonary Medicine	Disapproval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body	Radiology Services Denied Not Medically Necessary	This is a request for a Tumor Imaging PET Scan; This study is being ordered for something other than Breast CA, Lymphoma, Myeloma, Ovarian CA, Esophageal CA, Lung CA, Colorectal CA, Head/Neck CA, Melanoma, Soft Tissue Sarcoma, Pancreatic CA or Testicular CA.; This study is not being ordered for Cervical CA, Brain Cancer/Tumor or Mass, Thyroid CA or other solid tumor.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	2
Pulmonary Medicine	Disapproval	G0297 LOW DOSE CT SCAN FOR LUNG CANCER SCREENING	Radiology Services Denied Not Medically Necessary	Problem List/Impression: 1. COPD (chronic obstructive pulmonary disease)J44.9&#x0D; Comment/Status: moderately severe. symptoms are well controlled&#x0D; Plan : She could not tolerate Anoro due to side effects. back on advair. cont same. Full PFTs in 3 mon; This request is for a Low Dose CT for Lung Cancer Screening.; No, I do not want to request a Chest CT instead of a Low Dose CT for Lung Cancer Screening.; The patient is presenting with pulmonary signs or symptoms of lung cancer or there are other diagnostic test suggestive of lung cancer.	1

Pulmonary Medicine	Disapproval	G0297 LOW DOSE CT SCAN FOR LUNG CANCER SCREENING	Radiology Services Denied Not Medically Necessary	Problem List/Impression: 1. Obstructive lung disease J44.9&#x0D; Comment/Status: GOLD I. Group B ( CAT 20 and no exacerbations in a year time) &#x0D; Plan : SABa PRN. LAMA daily ( he was prescribed but was not using it). I also recommended refrral to pulm r; This request is for a Low Dose CT for Lung Cancer Screening.; No, I do not want to request a Chest CT instead of a Low Dose CT for Lung Cancer Screening.; The patient is presenting with pulmonary signs or symptoms of lung cancer or there are other diagnostic test suggestive of lung cancer.	1
Pulmonary Medicine	Disapproval	G0297 LOW DOSE CT SCAN FOR LUNG CANCER SCREENING	Radiology Services Denied Not Medically Necessary	Unknown; This request is for a Low Dose CT for Lung Cancer Screening.; No, I do not want to request a Chest CT instead of a Low Dose CT for Lung Cancer Screening.; The patient is presenting with pulmonary signs or symptoms of lung cancer or there are other diagnostic test suggestive of lung cancer.	1
Radiation Oncology	Approval	70450 Computed tomography, head or brain; without contrast material		There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Radiation Oncology	1
Radiation Oncology	Approval	70450 Computed tomography, head or brain; without contrast material		This is a request for a brain/head CT.; The patient has a known brain tumor.; Known or suspected tumor best describes the reason that I have requested this test.; There are documented neurologic findings suggesting a primary brain tumor.; This is NOT a Medicare member.	1
Radiation Oncology	Approval	70490 Computed tomography, soft tissue neck; without contrast material		There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Radiation Oncology	2
Radiation Oncology	Approval	70490 Computed tomography, soft tissue neck; without contrast material		There are 3 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Radiation Oncology	1

Radiation Oncology	Approval	70490 Computed tomography, soft tissue neck; without contrast material	This is a request for neck soft tissue CT.; It is unknown if there has been recent trauma or other injury to the neck.; There is suspicion of or known tumor, metastasis, lymphadenopathy, or mass.; Yes this is a request for a Diagnostic CT	1
Radiation Oncology	Approval	70490 Computed tomography, soft tissue neck; without contrast material	This is a request for neck soft tissue CT.; The study is being ordered for Initial Staging.; The patient has a known tumor or metastasis in the neck.; Yes this is a request for a Diagnostic CT	1
Radiation Oncology	Approval	70490 Computed tomography, soft tissue neck; without contrast material	This is a request for neck soft tissue CT.; There has not been recent trauma or other injury to the neck.; There is no suspicion of or known tumor, metastasis, lymphadenopathy, or mass.; It is unknown if there is a suspicion of an infection or abscess.; This is not being ordered by an ENT specialist.; Yes this is a request for a Diagnostic CT	1
Radiation Oncology	Approval	70490 Computed tomography, soft tissue neck; without contrast material	This is a request for neck soft tissue CT.; There has not been recent trauma or other injury to the neck.; There is suspicion of or known tumor, metastasis, lymphadenopathy, or mass.; Yes this is a request for a Diagnostic CT	1
Radiation Oncology	Approval	70540 Magnetic resonance (eg, proton) imaging, orbit, face, and/or neck; without contrast material(s)	This is a request for a sinus MRI.; This study is not being ordered in conjunction with a head or brain CT or MRI.; "There is evidence of tumor from a physical exam, plain sinus film, or previous CT or MRI study."	1
Radiation Oncology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		1
Radiation Oncology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	BRAIN LESION FOUND ON PET. MRI BRAIN BEING REQUESTED FOR SRS TREATMENT PLANNING; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Requested for evaluation of tumor; A biopsy has not been completed to determine tumor tissue type.; It is not known if there are recent neurological symptoms such as one-sided weakness, speech impairments, or vision defects.; There is not a new and sudden onset of headache (less than 1 week) not improved by pain medications.; The tumor is not a pituitary tumor or pituitary adenoma.	1

Radiation Oncology Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	follow eval post radiation.; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Requested for evaluation of tumor; A biopsy has not been completed to determine tumor tissue type.; There are not recent neurological symptoms such as one-sided weakness, speech impairments, or vision defects.; There is not a new and sudden onset of headache (less than 1 week) not improved by pain medications.; The tumor is not a pituitary tumor or pituitary adenoma.	1
Radiation Oncology Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	follow up to radiation treatment; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Not requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation,multiple sclerosis, or seizures; The condition is not associated with headache, blurred or double vision or a change in sensation noted on exam.; A metabolic work-up done including urinalysis, electrolytes, and complete blood count with results was not completed.; The patient does NOT have dizziness, fatigue or malaise, Bell's Palsy, a congenital abnormality, loss of smell, hearing loss or vertigo.	1
Radiation Oncology Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	hx neoplasm of the brain; lesion was treated w/surgery; this is surveillance; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Requested for evaluation of tumor; A biopsy has not been completed to determine tumor tissue type.; There are not recent neurological symptoms such as one-sided weakness, speech impairments, or vision defects.; There is not a new and sudden onset of headache (less than 1 week) not improved by pain medications.; The tumor is not a pituitary tumor or pituitary adenoma.	1
Radiation Oncology Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Malignant neoplasm of brain, unspecified; There are 4 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDS specialty is Radiation Oncology	1

Radiation Oncology Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	<p>newly diagnosed breast cancer, r/o mets to the brain; This request is for a Brain MRI; The study is being requested for evaluation of a headache.; This headache is not described as sudden, severe or chronic recurring.; The headache is not presenting with a sudden change in severity, associated with exertion, or a mental status change.; There are not recent neurological symptoms or deficits such as one sided weakness, speech impairments, or vision defects.; It is not known if there is a family history (parent, sibling or child of the patient) of AVM (arteriovenous malformation).</p>	1
Radiation Oncology Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	<p>Patient has been treated with SRS in November 2016. Patient is now being seen for follow up post SRS (stereotactic radiosurgery).; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Requested for evaluation of tumor; A biopsy has not been completed to determine tumor tissue type.; There are not recent neurological symptoms such as one-sided weakness, speech impairments, or vision defects.; There is not a new and sudden onset of headache (less than 1 week) not improved by pain medications.; The tumor is not a pituitary tumor or pituitary adenoma.</p>	1
Radiation Oncology Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	<p>Patient has been treated with SRS. This is a followup visit.; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Requested for evaluation of tumor; A biopsy has not been completed to determine tumor tissue type.; There are not recent neurological symptoms such as one-sided weakness, speech impairments, or vision defects.; It is not known if there is a new and sudden onset of headache (less than 1 week) not improved by pain medications.; The tumor is not a pituitary tumor or pituitary adenoma.</p>	1

Radiation Oncology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Recent ct head 02/21/18 shows new lesion and recommends MRI Brain-Radiation MD would like thin slices. 1. New 8 mm left posterior parietal calcification with surrounding edema, could represent microhemorrhage or new calcified metastasis. Recommend brain M; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Requested for evaluation of tumor; It is not known if a biopsy has been completed to determine tumor tissue type.; There are not recent neurological symptoms such as one-sided weakness, speech impairments, or vision defects.; There is not a new and sudden onset of headache (less than 1 week) not improved by pain medications.; It is not known if the tumor is a pituitary tumor or pituitary adenoma.	1
Radiation Oncology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Radiation Oncology	1
Radiation Oncology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	This request is for a Brain MRI; It is unknown if the study is being requested for evaluation of a headache.; Requested for evaluation of tumor; A biopsy has been completed to determine tumor tissue type.	1
Radiation Oncology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	This request is for a Brain MRI; It is unknown if the study is being requested for evaluation of a headache.; This study is being ordered for a tumor.	1
Radiation Oncology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The headache is described as chronic or recurring.; The headache is not presenting with a sudden change in severity, associated with exertion, or a mental status change.; There are recent neurological symptoms or deficits such as one sided weakness, speech impairments, or vision defects.	1

Radiation Oncology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The headache is described as chronic or recurring.; The headache is presenting with a sudden change in severity, associated with exertion, or a mental status change.	3
Radiation Oncology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Not requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation,multiple sclerosis, or seizures; The condition is associated with headache, blurred or double vision or a change in sensation noted on exam.; The patient does NOT have dizziness, fatigue or malaise, Bell's Palsy, a congenital abnormality, loss of smell, hearing loss or vertigo.	1
Radiation Oncology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Not requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation,multiple sclerosis, or seizures; The condition is not associated with headache, blurred or double vision or a change in sensation noted on exam.; A metabolic work-up done including urinalysis, electrolytes, and complete blood count with results completed.; The lab results were abnormal; The patient is experiencing fatigue or malaise.	1
Radiation Oncology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Requested for evaluation of tumor; A biopsy has been completed to determine tumor tissue type.	12
Radiation Oncology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Requested for evaluation of tumor; A biopsy has not been completed to determine tumor tissue type.; There are recent neurological symptoms such as one-sided weakness, speech impairments, or vision defects.	5

Radiation Oncology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; This study is being ordered for a tumor.	4
Radiation Oncology	Approval	71250 Computed tomography, thorax; without contrast material		1
Radiation Oncology	Approval	71250 Computed tomography, thorax; without contrast material	1 was done August 30, 2017 - multiple nodules - follow-up was recommended; "There is NO evidence of a lung, mediastinal or chest mass noted within the last 30 days."; A Chest/Thorax CT is being ordered.; This study is being ordered for work-up for suspicious mass.; Yes this is a request for a Diagnostic CT	1
Radiation Oncology	Approval	71250 Computed tomography, thorax; without contrast material	A Chest/Thorax CT is being ordered.; This study is being ordered for known tumor.; Yes this is a request for a Diagnostic CT	1
Radiation Oncology	Approval	71250 Computed tomography, thorax; without contrast material	Abnormal finding on examination of the chest, chest wall and or lungs describes the reason for this request.; This is a request for a Chest CT.; Yes this is a request for a Diagnostic CT	3
Radiation Oncology	Approval	71250 Computed tomography, thorax; without contrast material	Abnormal imaging test describes the reason for this request.; This is a request for a Chest CT.; Yes this is a request for a Diagnostic CT	4
Radiation Oncology	Approval	71250 Computed tomography, thorax; without contrast material	Chest pain describes the reason for this request.; It is unknown if anything else was noted related to the suspicion of cancer in this patient.; This is a request for a Chest CT.; This study is beign requested for suspected cancer or tumor.; Yes this is a request for a Diagnostic CT	1
Radiation Oncology	Approval	71250 Computed tomography, thorax; without contrast material	'None of the above' describes the reason for this request.; Restaging during ongoing treatment is related to this request for imaging of a known cancer or tumor; This is a request for a Chest CT.; This study is beign requested for known cancer or tumor; Yes this is a request for a Diagnostic CT	1
Radiation Oncology	Approval	71250 Computed tomography, thorax; without contrast material	'None of the above' describes the reason for this request.; Surveillance of a known cancer following treatment is related to this request for imaging of a known cancer or tumor; This is a request for a Chest CT.; This study is beign requested for known cancer or tumor; Yes this is a request for a Diagnostic CT	1

Radiation Oncology	Approval	71250 Computed tomography, thorax; without contrast material	patient has lung cancer so needs a follow up; A Chest/Thorax CT is being ordered.; The study is being ordered for none of the above.; This study is being ordered for non of the above.; Yes this is a request for a Diagnostic CT	1
Radiation Oncology	Approval	71250 Computed tomography, thorax; without contrast material	There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Radiation Oncology	4
Radiation Oncology	Approval	71250 Computed tomography, thorax; without contrast material	There are 3 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Radiation Oncology	2
Radiation Oncology	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Malignant neoplasm of brain, unspecified; There are 4 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Radiation Oncology	1
Radiation Oncology	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	Malignant neoplasm of brain, unspecified; There are 4 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Radiation Oncology	1
Radiation Oncology	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	This study is being ordered for follow-up.; The patient is undergoing active treatment for cancer.; This is a request for a thoracic spine MRI.; "The patient is being seen by or is the ordering physician an oncologist, neurologist, neurosurgeon, or orthopedist."; The study is being ordered due to known tumor with or without metastasis.	1
Radiation Oncology	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	This study is being ordered for staging.; This is a request for a thoracic spine MRI.; "The patient is being seen by or is the ordering physician an oncologist, neurologist, neurosurgeon, or orthopedist."; The study is being ordered due to known tumor with or without metastasis.	1

Radiation Oncology	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Malignant neoplasm of brain, unspecified; There are 4 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Radiation Oncology	1
Radiation Oncology	Approval	72196 Magnetic resonance (eg, proton) imaging, pelvis; with contrast material(s)	Prostate cancer,treatment and planning for radiation; This is a request for a Pelvis MRI.; The patient had previous abnormal imaging including a CT, MRI or Ultrasound.; An abnormality was found in something other than the bladder, uterus or ovary.; The study is being ordered for suspicion of tumor, mass, neoplasm, or metastatic disease.	1
Radiation Oncology	Approval	72196 Magnetic resonance (eg, proton) imaging, pelvis; with contrast material(s)	There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Radiation Oncology	1
Radiation Oncology	Approval	72196 Magnetic resonance (eg, proton) imaging, pelvis; with contrast material(s)	There are 3 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Radiation Oncology	1
Radiation Oncology	Approval	72196 Magnetic resonance (eg, proton) imaging, pelvis; with contrast material(s)	This is a request for a Pelvis MRI.; The request is for evaluation of the pelvis prior to surgery or laparoscopy.	1
Radiation Oncology	Approval	72196 Magnetic resonance (eg, proton) imaging, pelvis; with contrast material(s)	This is a request for a Pelvis MRI.; The request is for suspicion of tumor, mass, neoplasm, or metastatic disease?	4
Radiation Oncology	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	The requested study is a Shoulder MRI.; Study being ordered for suspicious mass/tumor/metastasis.; The patient has had recent plain films of the shoulder.; The plain films were not normal.	1

Radiation Oncology	Approval	73721 Magnetic resonance (eg, proton) imaging, any joint of lower extremity; without contrast material	This is a requests for a hip MRI.; This study is not being ordered in conjunction with a pelvic MRI.; "There is no a history (within the last six months) of significant trauma, dislocation, or injury to the hip."; There is not a suspicion of AVN.; The patient is not receiving long-term steriod therapy (Prednisone or Cortisone).; The patient does not have an abnormal plain film study of the hip other than arthritis.; The patient has not used a cane or crutches for greater than four weeks.; The patient has not been treated with and failed a course of supervised physical therapy.; There is not a mass near the hip.; The patient has not been treated with anti-inflammatory medications in conjunction with this complaint.; This is not for pre-operative planning.; The patient does not have a documented limitation of their range of motion.	1
Radiation Oncology	Approval	74150 Computed tomography, abdomen; without contrast material	There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Radiation Oncology	1
Radiation Oncology	Approval	74150 Computed tomography, abdomen; without contrast material	There are 3 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Radiation Oncology	1
Radiation Oncology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	post treatment; This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for acute pain.; There has been a physical exam.; The patient is female.; A pelvic exam was performed.; The results of the exam were abnormal.; Yes this is a request for a Diagnostic CT	1
Radiation Oncology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Radiation Oncology	1

Radiation Oncology	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)	grastic abd pain; This request is for an Abdomen MRI.; This study is not being ordered for known tumor, suspicious mass or suspected tumor/metastasis, organ enlargement, known or suspected vascular disease, hematuria, follow-up trauma, or a pre-operative evaluation.	1
Radiation Oncology	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)	This request is for an Abdomen MRI.; This study is being ordered for Known Tumor.; This study is being ordered for staging.; "The ordering physician is an oncologist, urologist, gastroenterologist, or surgeon."; Patient has been scheduled for a planning MRI of the stomach in treatment position to assist in target delineation.	1
Radiation Oncology	Approval	77058 Magnetic resonance imaging, breast, without and/or with contrast material(s); unilateral	&lt; Enter answer here - or Type In Unknown If No Info Given. &gt;; This is a request for Breast MRI.; This study is being ordered for something other than known breast cancer, known breast lesions, screening for known family history, screening following genetic testing or a suspected implant rupture.	1
Radiation Oncology	Approval	77058 Magnetic resonance imaging, breast, without and/or with contrast material(s); unilateral	; This is a request for Breast MRI.; This study is being ordered for something other than known breast cancer, known breast lesions, screening for known family history, screening following genetic testing or a suspected implant rupture.	1
Radiation Oncology	Approval	77058 Magnetic resonance imaging, breast, without and/or with contrast material(s); unilateral	This is a request for Breast MRI.; This study is being ordered as a screening examination for known family history of breast cancer.; No, this is not an individual who has known breast cancer in the contralateral (other) breast.; No, this is not a confirmed breast cancer.; No, this patient does not have axillary node adenocarcinoma.; Yes, there are anatomic factors (deformity or extreme density) that make a simple mammogram impossible.; It is unknown if there are benign lesions in the breast associated with an increased cancer risk.; There is NOT a pattern of breast cancer history in at least two first-degree relatives (parent, sister, brother, or children).	1
Radiation Oncology	Approval	77058 Magnetic resonance imaging, breast, without and/or with contrast material(s); unilateral	This is a request for Breast MRI.; This study is being ordered for a known history of breast cancer.; Yes, this is an individual who has known breast cancer in the contralateral (other) breast.	1

Radiation Oncology Approval	78813 Positron emission tomography (PET) imaging; whole body	This is a request for a Tumor Imaging PET Scan; This study is being ordered for subsequent treatment.; This study is being requested for Breast Cancer.; The patient completed a course of treatment initiated within the last 8 weeks.; 2 PET Scans have already been performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Radiation Oncology Approval	78813 Positron emission tomography (PET) imaging; whole body	This is a request for a Tumor Imaging PET Scan; This study is being ordered for subsequent treatment.; This study is being requested for Lymphoma or Myeloma.; The patient is experiencing new signs or symptoms indicating a reoccurrence of cancer.; 1 PET Scans has already been performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Radiation Oncology Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body	This is a request for a Tumor Imaging PET Scan; The suspicion of cancer is based on a biopsy.; This study is being ordered to establish a cancer diagnosis.; This study is being ordered for something other than Breast CA, Lymphoma, Myeloma, Ovarian CA, Esophageal CA, Lung CA, Colorectal CA, Head/Neck CA, Melanoma, Soft Tissue Sarcoma, Pancreatic CA or Testicular CA.; This study is being requested for an other solid tumor.; This would be the first PET Scan performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1

Radiation Oncology Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body	This is a request for a Tumor Imaging PET Scan; This study is being ordered for initial treatment (after a diagnosis of Cancer has been made).; This study is being ordered for something other than Breast CA, Lymphoma, Myeloma, Ovarian CA, Esophageal CA, Lung CA, Colorectal CA, Head/Neck CA, Melanoma, Soft Tissue Sarcoma, Pancreatic CA or Testicular CA.; This study is being requested for Cervical Cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Radiation Oncology Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body	This is a request for a Tumor Imaging PET Scan; This study is being ordered for initial treatment (after a diagnosis of Cancer has been made).; This study is being requested for Colo-rectal Cancer.; This would be the first PET Scan performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	2
Radiation Oncology Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body	This is a request for a Tumor Imaging PET Scan; This study is being ordered for initial treatment (after a diagnosis of Cancer has been made).; This study is being requested for Head/Neck Cancer.; The patient does NOT have Thyroid or Brain cancer.; This would be the first PET Scan performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	5
Radiation Oncology Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body	This is a request for a Tumor Imaging PET Scan; This study is being ordered for initial treatment (after a diagnosis of Cancer has been made).; This study is being requested for Lung Cancer.; This would be the first PET Scan performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	2

Radiation Oncology Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body	This is a request for a Tumor Imaging PET Scan; This study is being ordered for initial treatment (after a diagnosis of Cancer has been made).; This study is being requested for Soft Tissue Sarcoma, Pancreatic or Testicular Cancer.; This would be the first PET Scan performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Radiation Oncology Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body	This is a request for a Tumor Imaging PET Scan; This study is being ordered for something other than Breast CA, Lymphoma, Myeloma, Ovarian CA, Esophageal CA, Lung CA, Colorectal CA, Head/Neck CA, Melanoma, Soft Tissue Sarcoma, Pancreatic CA or Testicular CA.; This study is not being ordered for Cervical CA, Brain Cancer/Tumor or Mass, Thyroid CA or other solid tumor.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Radiation Oncology Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body	This is a request for a Tumor Imaging PET Scan; This study is being ordered for subsequent treatment.; This study is being requested for Breast Cancer.; The patient is experiencing new signs or symptoms indicating a reoccurrence of cancer.; This would be the first PET Scan performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Radiation Oncology Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body	This is a request for a Tumor Imaging PET Scan; This study is being ordered for subsequent treatment.; This study is being requested for Colo-rectal Cancer.; The patient completed a course of treatment initiated within the last 8 weeks.; 1 PET Scans has already been performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1

Radiation Oncology Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body	This is a request for a Tumor Imaging PET Scan; This study is being ordered for subsequent treatment.; This study is being requested for Colo-rectal Cancer.; The study is NOT being ordered after completing a course of treatment initiated in the last 8 weeks or because they are experiencing new signs, symptoms or a rising CEA.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Radiation Oncology Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body	This is a request for a Tumor Imaging PET Scan; This study is being ordered for subsequent treatment.; This study is being requested for Head/Neck Cancer.; The study is NOT being ordered after completing a course of treatment initiated in the last 8 weeks or because they are experiencing new signs or symptoms.; The patient does NOT have Thyroid or Brain cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Radiation Oncology Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body	This is a request for a Tumor Imaging PET Scan; This study is being ordered to establish a cancer diagnosis.; This study is being ordered for something other than Breast CA, Lymphoma, Myeloma, Ovarian CA, Esophageal CA, Lung CA, Colorectal CA, Head/Neck CA, Melanoma, Soft Tissue Sarcoma, Pancreatic CA or Testicular CA.; This study is being requested for Cervical Cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Radiation Oncology Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body	This is a request for a Tumor Imaging PET Scan; This study is being requested for Head/Neck Cancer.; It is unknown if the patient has Thyroid or Brain cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	3

Radiation Oncology	Disapproval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Radiology Services Denied Not Medically Necessary	This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Requested for evaluation of tumor; A biopsy has not been completed to determine tumor tissue type.; There are recent neurological symptoms such as one-sided weakness, speech impairments, or vision defects.	1
Radiation Oncology	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	'None of the above' describes the reason for this request.; Known tumor and new symptoms involving the chest, chest wall, lung or pelvis is related to this request for imaging of a known cancer or tumor; This is a request for a Chest CT.; This study is beign requested for known cancer or tumor; Yes this is a request for a Diagnostic CT	1
Radiation Oncology	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	'None of the above' describes the reason for this request.; Surveillance of a known cancer following treatment is related to this request for imaging of a known cancer or tumor; This is a request for a Chest CT.; This study is beign requested for known cancer or tumor; Yes this is a request for a Diagnostic CT	2
Radiation Oncology	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	'None of the above' describes the reason for this request.; This reason this study is being requested is unknown.; This is a request for a Chest CT.; This study is being requested for none of the above.; Yes this is a request for a Diagnostic CT	1
Radiation Oncology	Disapproval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Radiology Services Denied Not Medically Necessary	The requested study is a Shoulder MRI.; Study being ordered due to non-acute or chronic pain.; It is not known if the patient has completed and failed a course of conservative treatment.; left shoulder pain unable to left arm	1
Radiation Oncology	Disapproval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body	Radiology Services Denied Not Medically Necessary	This is a request for a Tumor Imaging PET Scan; It is unknown why the study is being ordered.; This study is being requested for Head/Neck Cancer.; The patient does NOT have Thyroid or Brain cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1

Radiology	Approval	70498 Computed tomographic angiography, neck, with contrast material(s), including noncontrast images, if performed, and image postprocessing	Yes, this is a request for CT Angiography of the Neck. Abnormal imaging test describes the reason for this request.; This is a request for a Chest CT.; Yes this is a request for a Diagnostic CT	2
Radiology	Approval	71250 Computed tomography, thorax; without contrast material		1
			&lt; Enter answer here - or Type In Unknown If No Info Given. &gt;; The patient is not undergoing active treatment for cancer.; This study is being ordered for known tumor, cancer, mass, or rule-out metastasis.; "The ordering physician is NOT an oncologist, urologist, gynecologist, gastroenterologist or surgeon or PCP ordering on behalf of a specialist who has seen the patient."; This study is not being ordered for initial staging.; The patient is presenting new signs (e.g. lab findings or imaging) or symptoms.; This is a request for a Pelvis CT.; Yes this is a request for a Diagnostic CT	1
Radiology	Approval	72192 Computed tomography, pelvis; without contrast material		
Radiology	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	This is a request for a Knee MRI.; The ordering physician is not an orthopedist.; Suspected meniscus, tendon, or ligament injury; No, there is no known trauma involving the knee.; Locking; Yes, the member experience a painful popping, snapping, or giving away of the knee.	1
Radiology	Approval	74150 Computed tomography, abdomen; without contrast material	This is a request for an Abdomen CT.; This study is being ordered for a known tumor, cancer, mass, or rule out metastases.; Yes, this is a request for follow up to a known tumor or abdominal cancer.; Yes this is a request for a Diagnostic CT	3

Radiology	Approval	74150 Computed tomography, abdomen; without contrast material	This is a request for an Abdomen CT.; This study is being ordered for a suspicious mass or tumor.; It is not known if there is a suspicious mass found using ultrasound, IVP, Endoscopy, colonoscopy, or sigmoidoscopy.; There are no new symptoms including hematuria.; It is not known if there are new lab results or other imaging studies including ultrasound, Doppler or plain films findings.; It is not known if there is a suspicion of an adrenal mass.; This is a request to confirm a suspicious renal mass suggested by physical exam, lab studies, IVP or ultrasound.; Yes this is a request for a Diagnostic CT	1
Radiology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is male.; A rectal exam was not performed.; Yes this is a request for a Diagnostic CT	1
Radiology	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)	This request is for an Abdomen MRI.; This study is being ordered for Known Tumor.; This study is being ordered for follow-up.; The patient is undergoing active treatment for cancer.; "The ordering physician is an oncologist, urologist, gastroenterologist, or surgeon."; Bernard D Cobbs is a 56 y.o. male to the Transplant Clinic to continue his follow up. Patient has been under evaluation for LT while undergoing treatment of his HCC.	1
Radiology	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)	This request is for an Abdomen MRI.; This study is being ordered for Known Tumor.; This study is being ordered for follow-up.; The patient is undergoing active treatment for cancer.; "The ordering physician is an oncologist, urologist, gastroenterologist, or surgeon."; follow up after treatment.	1

Radiology	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)	This request is for an Abdomen MRI.; This study is being ordered for Known Tumor.; This study is being ordered for follow-up.; The patient is undergoing active treatment for cancer.; "The ordering physician is an oncologist, urologist, gastroenterologist, or surgeon."; My review of the MRI shows a 1.8 cm arterially enhancing lesion in segment 8 of the liver. In segment 4 on the previous exam there is a 1.8 cm more wedge-shaped questionable lesion. Given her history of chronic hepatitis-C I think the lesion in segment 8	1
Radiology	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)	This request is for an Abdomen MRI.; This study is being ordered for suspicious mass or suspected tumor/metastasis.; "There are documented physical findings (painless hematuria, etc.) consistent with an abdominal mass or tumor."; "The patient has not had an abdominal ultrasound, CT, or MR study.";	1
Radiology	Approval	77058 Magnetic resonance imaging, breast, without and/or with contrast material(s); unilateral	abnormal mammogram; This is a request for Breast MRI.; This study is being ordered for known breast lesions.; There are NOT benign lesions in the breast associated with an increased cancer risk.	1
Radiology	Approval	G0297 LOW DOSE CT SCAN FOR LUNG CANCER SCREENING	This request is for a Low Dose CT for Lung Cancer Screening.; This patient has NOT had a Low Dose CT for Lung Cancer Screening in the past 11 months.; The patient is between 55 and 80 years old.; This patient is a smoker or has a history of smoking.; The patient has a 30 pack per year history of smoking.; The patient is NOT presenting with pulmonary signs or symptoms of lung cancer nor are there other diagnostic test suggestive of lung cancer.; The patient has not quit smoking.	2

Radiology	Approval	G0297 LOW DOSE CT SCAN FOR LUNG CANCER SCREENING		This request is for a Low Dose CT for Lung Cancer Screening.; This patient has NOT had a Low Dose CT for Lung Cancer Screening in the past 11 months.; The patient is between 55 and 80 years old.; This patient is a smoker or has a history of smoking.; The patient has a 30 pack per year history of smoking.; The patient is NOT presenting with pulmonary signs or symptoms of lung cancer nor are there other diagnostic test suggestive of lung cancer.; The patient quit smoking less than 15 years ago.	1
Radiology	Disapproval	70498 Computed tomographic angiography, neck, with contrast material(s), including noncontrast images, if performed, and image postprocessing	Radiology Services Denied Not Medically Necessary	Yes, this is a request for CT Angiography of the Neck. Abnormal imaging test describes the reason for this request.; This is a request for a Chest CT.; Yes this is a request for a Diagnostic CT	1
Radiology	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary		1
Radiology	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	&lt; Enter answer here - or Type In Unknown If No Info Given. &gt;; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; Tingling numbness, pain radiating down bilateral legs, radiculopathy; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	1
Radiology	Disapproval	75635 Computed tomographic angiography, abdominal aorta and bilateral iliofemoral lower extremity runoff, with contrast material(s), including noncontrast images, if performed, and image postprocessing	Radiology Services Denied Not Medically Necessary	Yes, this is a request for CT Angiography of the abdominal arteries.	1

Radiology	Disapproval	G0297 LOW DOSE CT SCAN FOR LUNG CANCER SCREENING	Radiology Services Denied Not Medically Necessary	<p>nodule found on August 23, 2017 Low Dose; six month follow up recommended; This request is for a Low Dose CT for Lung Cancer Screening.; No, I do not want to request a Chest CT instead of a Low Dose CT for Lung Cancer Screening.; The patient is presenting with pulmonary signs or symptoms of lung cancer or there are other diagnostic test suggestive of lung cancer.</p>	1
Rehabilitations	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		<p>; This is a request for cervical spine MRI; Acute or Chronic neck and/or back pain; It is not known if the patient does have new or changing neurologic signs or symptoms.; The patient has had back pain for over 4 weeks.; The patient has seen the doctor more then once for these symptoms.; The physician has directed conservative treatment for the past 6 weeks.; It is not known if the patient has completed 6 weeks of physical therapy?; The patient has been treated with medication.; other medications as listed.; It is not known if the patient has completed 6 weeks or more of Chiropractic care.; It is not known if the physician has directed a home exercise program for at least 6 weeks.;</p>	1
Rehabilitations	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material		<p>This is a request for cervical spine MRI; Acute or Chronic neck and/or back pain; The patient does not have new or changing neurologic signs or symptoms.; The patient has had back pain for over 4 weeks.; The patient has seen the doctor more then once for these symptoms.; The physician has directed conservative treatment for the past 6 weeks.; The patient has completed 6 weeks of physical therapy?;</p>	1

Rehabilitations	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	<p>; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; HPI&amp;#x0D; Patient reports 12 weeks. He reports Constantly. He reports Average pain level over the last week 8/10. He reports Low back Right and Leg(s) Right. He reports Burning, Tingling, and Numb. He reports Abrupt onset. He reports coughing/sneezing, standin; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.</p>	1
Rehabilitations	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	<p>Ms. Edmondson presents with 4 days of abrupt onset "dull" low back pain with numbness and fairly severe weakness in the left leg, which began after delivering her baby. She is concerned this may be related to the epidural.&amp;#x0D; &amp;#x0D; I spoke with Dr. Livers, who ; The study requested is a Lumbar Spine MRI.; Neurological deficits; The patient does have new or changing neurologic signs or symptoms.; There is reflex abnormality.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.; Lumbar Spine&amp;#x0D; Inspection: Normal alignment&amp;#x0D; Bony Palpation of the Lumbar Spine: No tenderness of the spinous processes, No tenderness to palpation of the sacroiliac joints, No tenderness to palpation of the greater trochanters, No tenderness of the coccyx</p>	1
Rehabilitations	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	<p>The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; It is not known if the patient does have new or changing neurologic signs or symptoms.; The patient has had back pain for over 4 weeks.; The patient has seen the doctor more then once for these symptoms.; The physician has directed conservative treatment for the past 6 weeks.; The patient has completed 6 weeks of physical therapy?</p>	1

Rehabilitations	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; The patient does have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.	1
Rehabilitations	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does not have new or changing neurologic signs or symptoms.; The patient has had back pain for over 4 weeks.; The patient has seen the doctor more then once for these symptoms.; The physician has directed conservative treatment for the past 6 weeks.; The patient has completed 6 weeks of physical therapy?	6
Rehabilitations	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does not have new or changing neurologic signs or symptoms.; The patient has had back pain for over 4 weeks.; The patient has seen the doctor more then once for these symptoms.; The physician has directed conservative treatment for the past 6 weeks.; The patient has not completed 6 weeks of physical therapy?; The patient has been treated with medication.; The patient was treated with an Epidural.	1
Rehabilitations	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Hye is unable to abduct left shoulder, which represents an abrupt change finding following the MVA. &#x0D; &#x0D; The MRI left shoulder is being ordered to delineate any soft tissue, nervous system, and/or other pathology which could account for the patient's persi; The requested study is a Shoulder MRI.; The pain is from a recent injury.; Surgery or arthrscopy is not scheduled in the next 4 weeks.; The request is for shoulder pain.; There is a suspicion of tendon, ligament, rotator cuff injury or labral tear.	1

Rehabilitations	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	; This is a request for cervical spine MRI; Trauma or recent injury; The patient does have new or changing neurologic signs or symptoms.; It is not known if there is weakness or reflex abnormality.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; There is not x-ray evidence of a recent cervical spine fracture.	1
Rehabilitations	Disapproval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	Radiology Services Denied Not Medically Necessary	; This is a request for a thoracic spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; It is not known if there is weakness or reflex abnormality.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is recent evidence of a thoracic spine fracture.	1
Rehabilitations	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does not have new or changing neurologic signs or symptoms.; The patient has had back pain for over 4 weeks.; The patient has seen the doctor more then once for these symptoms.; The physician has directed conservative treatment for the past 6 weeks.; The patient has not completed 6 weeks of physical therapy?; The patient has been treated with medication.; The patient was treated with oral analgesics.; The patient has not completed 6 weeks or more of Chiropractic care.; The physician has directed a home exercise program for at least 6 weeks.; The home treatment did include exercise, prescription medication and follow-up office visits.; Since 05/25/2017-Physical therapy for core and lumbar stabilization exercise program. Focus on Low impact exercise program, encouraged weight loss, quit smoking and healthy lifestyle	1
Rheumatology	Approval	70450 Computed tomography, head or brain; without contrast material		This is a request for a brain/head CT.; Known or suspected inflammatory disease best describes the reason that I have requested this test.	1

Rheumatology	Approval	70486 Computed tomography, maxillofacial area; without contrast material	; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI. This is a request for neck soft tissue CT.; There has not been recent trauma or other injury to the neck.; There is no suspicion of or known tumor, metastasis, lymphadenopathy, or mass.; There is a suspicion of an infection or abscess.; Yes this is a request for a Diagnostic CT	1
Rheumatology	Approval	70490 Computed tomography, soft tissue neck; without contrast material		1
Rheumatology	Approval	70544 Magnetic resonance angiography, head; without contrast material(s)	; This study is being ordered for Vascular Disease.; 12/20/2017; There has been treatment or conservative therapy.; gait instability; recent CVA; right upper and lower extremity weakness; angitis - PACNS suspected; prednisone; hydralazine; plavix; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Rheumatology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	; This study is being ordered for Vascular Disease.; 12/20/2017; There has been treatment or conservative therapy.; gait instability; recent CVA; right upper and lower extremity weakness; angitis - PACNS suspected; prednisone; hydralazine; plavix; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Rheumatology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Recent CVI and spontaneous cisternal subarachnoid hemorrhage found on CTA and need follow-up scans.; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; The patient has dizziness.; The patient had a recent onset (within the last 4 weeks) of neurologic symptoms.; This study is being ordered for stroke or TIA (transient ischemic attack).	1

Rheumatology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The headache is described as chronic or recurring.; The headache is presenting with a sudden change in severity, associated with exertion, or a mental status change.	1
Rheumatology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Requested for evaluation of infection or inflammation; Is is not known if the patient has a fever, stiff neck AND positive laboratory findings (like elevated WBC or abnormal Lumbar puncture fluid examination that indicate inflammatory disease or an infection.; The doctor notes on exam that the patient has delirium or acute altered mental status.; This is NOT a Medicare member.	1
Rheumatology	Approval	71250 Computed tomography, thorax; without contrast material	&lt; Enter answer here - or Type In Unknown If No Info Given. &gt;; "There IS evidence of a lung, mediastinal or chest mass noted within the last 30 days."; They had a previous Chest x-ray.; A Chest/Thorax CT is being ordered.; This study is being ordered for work-up for suspicious mass.; Yes this is a request for a Diagnostic CT	1
Rheumatology	Approval	71250 Computed tomography, thorax; without contrast material	&lt; Enter answer here - or Type In Unknown If No Info Given. &gt;; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Rheumatology	Approval	71250 Computed tomography, thorax; without contrast material	; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Rheumatology	Approval	71250 Computed tomography, thorax; without contrast material	; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; ; It is not known if there has been any treatment or conservative therapy.; ; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

Rheumatology	Approval	71250 Computed tomography, thorax; without contrast material	Abnormal finding on examination of the chest, chest wall and or lungs describes the reason for this request.; This is a request for a Chest CT.; Yes this is a request for a Diagnostic CT	2
Rheumatology	Approval	71250 Computed tomography, thorax; without contrast material	Abnormal imaging test describes the reason for this request.; This is a request for a Chest CT.; Yes this is a request for a Diagnostic CT	2
Rheumatology	Approval	71250 Computed tomography, thorax; without contrast material	Chest pain describes the reason for this request.; An abnormal imaging (xray) finding led to the suspicion of infection; This is a request for a Chest CT.; This study is being requested for known or suspected infection (pneumonia, abscess, empyema).; Yes this is a request for a Diagnostic CT	1
Rheumatology	Approval	71250 Computed tomography, thorax; without contrast material	No info given.; A Chest/Thorax CT is being ordered.; The study is being ordered for none of the above.; This study is being ordered for non of the above.; Yes this is a request for a Diagnostic CT	1
Rheumatology	Approval	71250 Computed tomography, thorax; without contrast material	'None of the above' describes the reason for this request.; This study is being requested for 'none of the above'.; This is a request for a Chest CT.; This study is being requested for none of the above.; Yes this is a request for a Diagnostic CT	1
Rheumatology	Approval	71250 Computed tomography, thorax; without contrast material	There is radiologic evidence of non-resolving pneumonia for 6 weeks after antibiotic treatment was prescribed.; A Chest/Thorax CT is being ordered.; This study is being ordered for known or suspected inflammatory disease or pneumonia.; Yes this is a request for a Diagnostic CT	1
Rheumatology	Approval	71250 Computed tomography, thorax; without contrast material	This is a request for a Thorax (Chest) CT.; Abnormal finding on examination of the chest, chest wall and or lungs describes the reason for this request.; Yes this is a request for a Diagnostic CT	1

Rheumatology	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	<p>; This is a request for cervical spine MRI; Neurological deficits; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; Cranial nerves 2-12 were intact, deep tendon reflexes were 2+ and symmetric and the motor exam was normal. &amp;#x0D; &amp;#x0D; Deep tendon reflexes: &amp;#x0D; Patella: right 2+, left 2+; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; There is not x-ray evidence of a recent cervical spine fracture.</p>	1
Rheumatology	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	<p>The patient has failed a course of anti-inflammatory medication or steroids.; This is a request for cervical spine MRI; There has been a supervised trial of conservative management for at least 6 weeks.; Acute or Chronic neck and/or back pain; It is not known if the patient demonstrate neurological deficits.; It is not known if this patient had a recent course of supervised physical Therapy.</p>	1
Rheumatology	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	<p>The patient has failed a course of anti-inflammatory medication or steroids.; This is a request for cervical spine MRI; There has been a supervised trial of conservative management for at least 6 weeks.; Acute or Chronic neck and/or back pain; No, the patient does not demonstrate neurological deficits.; No, this patient did not have a recent course of supervised physical Therapy.</p>	1
Rheumatology	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	<p>This is a request for cervical spine MRI; Acute or Chronic neck and/or back pain; It is not known if the patient does have new or changing neurologic signs or symptoms.; The patient has had back pain for over 4 weeks.; The patient has seen the doctor more then once for these symptoms.; The physician has directed conservative treatment for the past 6 weeks.; The patient has completed 6 weeks of physical therapy?</p>	1
Rheumatology	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	<p>This is a request for cervical spine MRI; Acute or Chronic neck and/or back pain; Yes, the patient demonstrate neurological deficits.; yes, there is a documented evidence of extremity weakness on physical examination.</p>	5

Rheumatology	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	This is a request for cervical spine MRI; Neurological deficits; Yes, the patient is experiencing or presenting new symptoms of upper extremity weakness.	2
Rheumatology	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	This is a request for cervical spine MRI; There has been a supervised trial of conservative management for at least 6 weeks.; Acute or Chronic neck and/or back pain; It is not known if the patient demonstrate neurological deficits.; Yes, this patient had a recent course of supervised physical Therapy.	1
Rheumatology	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	The patient does have neurological deficits.; This is a request for a thoracic spine MRI.; The study is being ordered due to chronic back pain or suspected degenerative disease.; ; The patient is experiencing or presenting symptoms of lower extremity weakness documented on physical exam.	1
Rheumatology	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	The patient does not have any neurological deficits.; This is a request for a thoracic spine MRI.; There has been a supervised trial of conservative management for at least 6 weeks.; The study is being ordered due to chronic back pain or suspected degenerative disease.	1
Rheumatology	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	This is a request for a thoracic spine MRI.; "The patient has been seen by, or the ordering physician is, a neuro-specialist, orthopedist, or oncologist.;" The study is being ordered due to follow-up to surgery or fracture within the last 6 months.	1
Rheumatology	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Elevated SED Rate; Sacroiliac Inflammation and chronic back pain.; This study is being ordered for Inflammatory/ Infectious Disease.; ; There has been treatment or conservative therapy.; ; ; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

Rheumatology	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; It is not known if the patient has new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is x-ray evidence of a recent lumbar fracture.	1
Rheumatology	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	The study requested is a Lumbar Spine MRI.; Neurological deficits; The patient does have new or changing neurologic signs or symptoms.; The patient does have a new foot drop.	1
Rheumatology	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has 6 weeks of completed conservative care in the past 3 months or had a spine injection	6
Rheumatology	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has Neurological deficit(s)	4
Rheumatology	Approval	72196 Magnetic resonance (eg, proton) imaging, pelvis; with contrast material(s)	; This study is being ordered for Inflammatory/ Infectious Disease.; ; There has been treatment or conservative therapy.; ; ; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Rheumatology	Approval	72196 Magnetic resonance (eg, proton) imaging, pelvis; with contrast material(s)	Abnormal x-ray; This is a request for a Pelvis MRI.; The study is being ordered for something other than suspicion of tumor, mass, neoplasm, metastatic disease, PID, abscess, Evaluation of the pelvis prior to surgery or laparoscopy, Suspicion of joint or bone infect	1

Rheumatology	Approval	72196 Magnetic resonance (eg, proton) imaging, pelvis; with contrast material(s)	Elevated SED Rate; Sacroiliac Inflammation and chronic back pain.; This study is being ordered for Inflammatory/ Infectious Disease.; ; There has been treatment or conservative therapy.; ; ; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Rheumatology	Approval	72196 Magnetic resonance (eg, proton) imaging, pelvis; with contrast material(s)	Richard Ainey is a 26 y.o. male for re evaluation of joint pain. He was seen here one time about 2 years ago, whe his exam and radiographs were showing mild OA&#x0D; He says the pain is worse&#x0D; His knees hurt a lot&#x0D; Weight bearing makes the knee pain worse&#x0D; No ; This is a request for a Pelvis MRI.; The request is not for any of the listed indications.	1
Rheumatology	Approval	72196 Magnetic resonance (eg, proton) imaging, pelvis; with contrast material(s)	This is a request for a Pelvis MRI.; The request is for suspicion of joint or bone infection.	8
Rheumatology	Approval	73200 Computed tomography, upper extremity; without contrast material	This is a request for an upper extremity, shoulder, scapula, elbow, hand, or wrist joint CT.; There is not a history of upper extremity joint or long bone trauma or injury.; This is not a preoperative or recent postoperative evaluation.; There is suspicion of upper extremity neoplasm or tumor or metastasis.; Yes this is a request for a Diagnostic CT	1
Rheumatology	Approval	73206 Computed tomographic angiography, upper extremity, with contrast material(s), including noncontrast images, if performed, and image postprocessing	Yes, this is a request for CT Angiography of the upper extremity.	1

Rheumatology	Approval	73220 Magnetic resonance (eg, proton) imaging, upper extremity, other than joint; without contrast material(s), followed by contrast material(s) and further sequences	; This study is being ordered for Inflammatory/ Infectious Disease.; ; It is not known if there has been any treatment or conservative therapy.; ; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Rheumatology	Approval	73220 Magnetic resonance (eg, proton) imaging, upper extremity, other than joint; without contrast material(s), followed by contrast material(s) and further sequences	The request is for an upper extremity non-joint MRI.; This is not a preoperative or recent postoperative evaluation.; There is not suspicion of upper extremity neoplasm or tumor or metastasis.; There is no suspicion of upper extremity bone or soft tissue infection.; The ordering physician is an orthopedist.	1
Rheumatology	Approval	73220 Magnetic resonance (eg, proton) imaging, upper extremity, other than joint; without contrast material(s), followed by contrast material(s) and further sequences	The request is for an upper extremity non-joint MRI.; This is not a preoperative or recent postoperative evaluation.; There is not suspicion of upper extremity neoplasm or tumor or metastasis.; There is no suspicion of upper extremity bone or soft tissue infection.; The ordering physician is not an orthopedist.; There is not a history of upper extremity trauma or injury.	4
Rheumatology	Approval	73220 Magnetic resonance (eg, proton) imaging, upper extremity, other than joint; without contrast material(s), followed by contrast material(s) and further sequences	The request is for an upper extremity non-joint MRI.; This is not a preoperative or recent postoperative evaluation.; There is not suspicion of upper extremity neoplasm or tumor or metastasis.; There is suspicion of upper extremity bone or soft tissue infection.	6
Rheumatology	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	; This study is being ordered for Inflammatory/ Infectious Disease.; April 2017; There has been treatment or conservative therapy.; ; Cant take NSAIDS due to stomach issues but has tried pt on right wrist in may with no success.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	2

Rheumatology	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	pt took medications; This study is being ordered for a neurological disorder.; 07/10/2017; There has been treatment or conservative therapy.; shoulder pain, tenderness, limited range of motion; injections; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	2
Rheumatology	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	The pain is described as chronic; The member has failed a 4 week course of conservative management in the past 3 months.; This is a request for an elbow MRI; The study is requested for evaluation of elbow pain.	2
Rheumatology	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	The pain is described as chronic; The member has failed a 4 week course of conservative management in the past 3 months.; This request is for a wrist MRI.; This study is requested for evaluation of wrist pain. The requested study is a Shoulder MRI.; Study being ordered due to non-acute or chronic pain.; The patient has completed and failed a course of conservative treatment of at least 4 weeks.; The ordering physician is not an orthopedist.; There is documented findings of severe pain on motion.	1
Rheumatology	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	This is a request for an upper extremity joint MRI.; The patient does have documented weakness or partial loss of feeling in the upper extremity.; There is no history of significant trauma, dislocation or injury to the joint within the past 6 weeks.; The patient does have an abnormal plain film study of the joint.; The patient has been treated with and failed a course of four weeks of supervised physical therapy.	8
Rheumatology	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)		3

Rheumatology	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	This is a request for an upper extremity joint MRI.; The patient does have documented weakness or partial loss of feeling in the upper extremity.; There is no history of significant trauma, dislocation or injury to the joint within the past 6 weeks.; The patient does not have an abnormal plain film study of the joint.; The patient has been treated with and failed a course of four weeks of supervised physical therapy.; The patient has a documented limitation of their range of motion.; The patient has experienced pain for greater than six weeks.; The patient has been treated with anti-inflammatory medication in conjunction with this complaint.	1
Rheumatology	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	This is a request for an upper extremity joint MRI.; The patient does not have documented weakness or partial loss of feeling in the upper extremity.; There is no history of significant trauma, dislocation or injury to the joint within the past 6 weeks.; The patient does not have an abnormal plain film study of the joint.; The patient has been treated with and failed a course of four weeks of supervised physical therapy.; The patient has a documented limitation of their range of motion.	1
Rheumatology	Approval	73700 Computed tomography, lower extremity; without contrast material	This is not a preoperative or recent postoperative evaluation.; There is suspicion of a lower extremity neoplasm, tumor or metastasis.; This is a request for a Knee CT; Yes this is a request for a Diagnostic CT	1

Rheumatology	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	decreased ROM, redness, pain aggravated by standing; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 01/01/2010; There has been treatment or conservative therapy.; Pain, swelling, burning sensation; PT and medication; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	2
Rheumatology	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	Her right knee was painful and swollen last week but this resolved after an IA steroid injection. SF was noninflammatory but showed MSU crystals. Serum uric acid was only 3.5 mg/dL. Today she c/o right ankle pain and swelling. DDX includes gouty arthritis; This is a request for an Ankle MRI.; Surgery or arthroscopy is not scheduled in the next 4 weeks.; The study is requested for ankle pain.; There is a suspicion of tendon or ligament injury.	1
Rheumatology	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	This is a request for a foot MRI.; "There is not a history (within the past six weeks) of significant trauma, dislocation, or injury to the foot."; There is a suspected tarsal coalition.; There is a history of new onset of severe pain in the foot within the last two weeks.	4
Rheumatology	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	This is a request for a foot MRI.; "There is not a history (within the past six weeks) of significant trauma, dislocation, or injury to the foot."; There is not a suspected tarsal coalition.; There is a history of new onset of severe pain in the foot within the last two weeks.; The patient has a documented limitation of their range of motion.	1

Rheumatology	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	This is a request for a foot MRI.; "There is not a history (within the past six weeks) of significant trauma, dislocation, or injury to the foot."; There is not a suspected tarsal coalition.; There is a history of new onset of severe pain in the foot within the last two weeks.; The patient has an abnormal plain film study of the foot other than arthritis.; The patient does not have a documented limitation of their range of motion.	1
Rheumatology	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	This is a request for a Knee MRI.; The ordering physician is not an orthopedist.; Non-acute Chronic Pain; Swelling greater than 3 days	4
Rheumatology	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	This is a request for a Knee MRI.; The ordering physician is not an orthopedist.; There is no suspected meniscus,pre-op or post-op evaluation,non-acute Chronic Pain,supsected tumor or Aseptic Necrosis; Swelling greater than 3 days	1
Rheumatology	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	This is a request for a Knee MRI.; The patient had recent plain films of the knee.; The plain films were normal.; The ordering physician is not an orthopedist.; Non-acute Chronic Pain; Pain greater than 3 days	3
Rheumatology	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	This is a request for a Knee MRI.; The patient had recent plain films of the knee.; The plain films were not normal.; The ordering physician is not an orthopedist.; Non-acute Chronic Pain; Pain greater than 3 days	1

Rheumatology	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	This is a request for a lower extremity MRI.; There is a pulsatile mass.; "There is evidence of tumor or mass from a previous exam, plain film, ultrasound, or previous CT or MRI."; There is a suspicion of an infection.	2
Rheumatology	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	This is a request for a lower extremity MRI.; This is not a pulsatile mass.; "There is no evidence of tumor or mass from a previous exam, plain film, ultrasound, or previous CT or MRI."; There is a suspicion of an infection.; The patient is not taking antibiotics.; This is a study for a fracture which does not show healing (non-union fracture).	1
Rheumatology	Approval	73721 Magnetic resonance (eg, proton) imaging, any joint of lower extremity; without contrast material	; This study is being ordered for Inflammatory/ Infectious Disease.; ; There has been treatment or conservative therapy.; ; ; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Rheumatology	Approval	73721 Magnetic resonance (eg, proton) imaging, any joint of lower extremity; without contrast material	This is a requests for a hip MRI.; The member has failed a 4 week course of conservative management in the past 3 months.; The hip pain is chronic.; The request is for hip pain.	1
Rheumatology	Approval	73721 Magnetic resonance (eg, proton) imaging, any joint of lower extremity; without contrast material	This is a requests for a hip MRI.; This study is being ordered in conjunction with a pelvic MRI.; "There is a history (within the last six months) of significant trauma, dislocation, or injury to the hip."; There is not a suspicion of AVN.; The patient is receiving long-term steroid therapy (Prednisone or Cortisone).; The patient had an abnormal plain film study of the hip other than arthritis.; The patient has a documented limitation of their range of motion.	1
Rheumatology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	&lt; Enter answer here - or Type In Unknown If No Info Given. &gt;; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1

Rheumatology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; ; It is not known if there has been any treatment or conservative therapy.; ; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Rheumatology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material 93307 Echocardiography, transthoracic, real-time with image documentation (2D), includes M-mode recording, when performed, complete, without spectral or color Doppler echocardiography		This is a request for an abdomen-pelvis CT combination.; This study is not being requested for abdominal and/or pelvic pain.; The study is requested for hematuria.; Yes this is a request for a Diagnostic CT	2
Rheumatology	Approval	70486 Computed tomography, maxillofacial area; without contrast material	Radiology Services Denied Not Medically Necessary	This a request for an echocardiogram.; This is a request for a Transthoracic Echocardiogram.; This study is being ordered for Evaluation of Pulmonary Hypertension. This is a request for a Sinus CT.; This study is being ordered for sinusitis.; The patient is NOT immune-compromised.; The patient's current rhinosinusitis symptoms are described as Chronic Rhinosinusitis (episode is greater than 12 weeks); Yes this is a request for a Diagnostic CT	1
Rheumatology	Disapproval				1

Rheumatology	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	&lt; Enter answer here - or Type In Unknown If No Info Given. &gt;; This study is being ordered for a neurological disorder.; MAY 24 2017; There has been treatment or conservative therapy.; SOB W EXERTION VASCULAR COMPROMISE AS A RESULT OF PERITONEAL FIBROSIS WHICH AFFECTS LOWER EXTREMITY BLOOD FLOW; PREDNISON AND MYCOTHENOLATE; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Rheumatology	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	Chest pain describes the reason for this request.; An abnormal finding on physical examination led to the suspicion of infection.; This is a request for a Chest CT.; This study is being requested for known or suspected infection (pneumonia, abscess, empyema).; Yes this is a request for a Diagnostic CT	1
Rheumatology	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	&lt; Enter answer here - or Type In Unknown If No Info Given. &gt;; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; muscle weakness , joint swelling and back pain, tenderness, morning stiffness; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	1

Rheumatology	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	&lt; Enter answer here - or Type In Unknown If No Info Given. &gt;; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 02-23-2018; There has been treatment or conservative therapy.; restrictive pain in L/Hip, and lower back pain; meds for pain.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology Unknown; The study requested is a Lumbar Spine MRI.; It is unknown if the patient has acute or chronic back pain.; This procedure is being requested for None of the above	1
Rheumatology	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	unknown; This study is being ordered for a neurological disorder.; 07/21/2016; There has not been any treatment or conservative therapy.; pain, numbness, and burning in the lower extremities, L3 and L4 ABN disk bulge.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

Rheumatology	Disapproval	72192 Computed tomography, pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	&lt; Enter answer here - or Type In Unknown If No Info Given. &gt;; This study is being ordered for a neurological disorder.; MAY 24 2017; There has been treatment or conservative therapy.; SOB W EXERTION VASCULAR COMPROMISE AS A RESULT OF PERITONEAL FIBROSIS WHICH AFFECTS LOWER EXTREMITY BLOOD FLOW; PREDNISONE AND MYCOTHENOLATE; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Rheumatology	Disapproval	72196 Magnetic resonance (eg, proton) imaging, pelvis; with contrast material(s)	Radiology Services Denied Not Medically Necessary		1
Rheumatology	Disapproval	72196 Magnetic resonance (eg, proton) imaging, pelvis; with contrast material(s)	Radiology Services Denied Not Medically Necessary	&lt; Enter answer here - or Type In Unknown If No Info Given. &gt;; This is a request for a Pelvis MRI.; The request is not for any of the listed indications.	2
Rheumatology	Disapproval	72196 Magnetic resonance (eg, proton) imaging, pelvis; with contrast material(s)	Radiology Services Denied Not Medically Necessary	&lt; Enter answer here - or Type In Unknown If No Info Given. &gt;; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 02-23-2018; There has been treatment or conservative therapy.; restrictive pain in L/Hip, and lower back pain; meds for pain.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

Rheumatology	Disapproval	72196 Magnetic resonance (eg, proton) imaging, pelvis; with contrast material(s)	Radiology Services Denied Not Medically Necessary	unknown; This study is being ordered for a neurological disorder.; 07/21/2016; There has not been any treatment or conservative therapy.; pain, numbness, and burning in the lower extremities, L3 and L4 ABN disk bulge.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Rheumatology	Disapproval	73220 Magnetic resonance (eg, proton) imaging, upper extremity, other than joint; without contrast material(s), followed by contrast material(s) and further sequences	Radiology Services Denied Not Medically Necessary	R/O rheumatoid arthritis; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 02/07/2018; There has not been any treatment or conservative therapy.; pain, swelling, and stiffness; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Rheumatology	Disapproval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Radiology Services Denied Not Medically Necessary	; This study is being ordered for Inflammatory/ Infectious Disease.; ; It is not known if there has been any treatment or conservative therapy.; ; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Rheumatology	Disapproval	73700 Computed tomography, lower extremity; without contrast material	Radiology Services Denied Not Medically Necessary	This is not a preoperative or recent postoperative evaluation.; There is no suspicion of a lower extremity neoplasm, tumor or metastasis.; There is suspicion of lower extremity bone or joint infection.; This is a request for a Knee CT; Yes this is a request for a Diagnostic CT	1

Rheumatology	Disapproval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	Radiology Services Denied Not Medically Necessary	&lt; Enter answer here - or Type In Unknown If No Info Given. &gt;; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 2/19/18; There has not been any treatment or conservative therapy.; PAIN; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	2
Rheumatology	Disapproval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	Radiology Services Denied Not Medically Necessary	Pt has been on meds; This is a request for a Knee MRI.; The patient has not had recent plain films of the knee.; The ordering physician is not an orthopedist.; There is no suspected meniscus,pre-op or post-op evaluation,non-acute Chronic Pain,suspected tumor or Aseptic Necrosis; There is no symptom of locking,Instability, Swelling,Redness,Limited range of motion or pain.; No, patient has not completed and failed a course of conservative treatment.	1
Rheumatology	Disapproval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	Radiology Services Denied Not Medically Necessary	This is a request for a lower extremity MRI.; This is not a pulsatile mass.; "There is no evidence of tumor or mass from a previous exam, plain film, ultrasound, or previous CT or MRI."; There is not a suspicion of an infection.; The patient is not taking antibiotics.; This is not a study for a fracture which does not show healing (non-union fracture).; This is not a pre-operative study for planned surgery.	1
Rheumatology	Disapproval	73721 Magnetic resonance (eg, proton) imaging, any joint of lower extremity; without contrast material	Radiology Services Denied Not Medically Necessary	This is a requests for a hip MRI.; This study is being ordered in conjunction with a pelvic MRI.; "There is no a history (within the last six months) of significant trauma, dislocation, or injury to the hip."; There is a suspicion of AVN.; The patient is receiving long-term steriod therapy (Prednisone or Cortisone).; The patient had an abnormal plain film study of the hip other than arthritis.; The patient has a documented limitation of their range of motion.	1

Rheumatology	Disapproval	74150 Computed tomography, abdomen; without contrast material	Radiology Services Denied Not Medically Necessary	&lt; Enter answer here - or Type In Unknown If No Info Given. &gt;; This study is being ordered for a neurological disorder.; MAY 24 2017; There has been treatment or conservative therapy.; SOB W EXERTION VASCULAR COMPROMISE AS A RESULT OF PERITONEAL FIBROSIS WHICH AFFECTS LOWER EXTREMITY BLOOD FLOW; PREDNISONONE AND MYCOTHENOLATE; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Rheumatology	Disapproval	74150 Computed tomography, abdomen; without contrast material	Radiology Services Denied Not Medically Necessary	R/O any mass that aren't being seen; This is a request for an Abdomen CT.; This study is being ordered for a known tumor, cancer, mass, or rule out metastases.; No, this is not a request for follow up to a known tumor or abdominal cancer.; It is unknown if this study is being ordered for staging of a known tumor (not) prostate, known prostate CA with PSA&gt; 10, abdominal mass, retroperitoneal mass or new symptoms including hematuria with known CA or tumor.; Yes this is a request for a Diagnostic CT	1
Rheumatology	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; A urinalysis has been completed.; This study is being requested for abdominal and/or pelvic pain.; It is not known if the urinalysis results were normal or abnormal.; It is not known if the pain is acute or chronic.; This is the first visit for this complaint.; It is unknown if the patient had an Amylase or Lipase lab test.; Yes this is a request for a Diagnostic CT	1
Sports Medicine	Approval	72125 Computed tomography, cervical spine; without contrast material		This study is to be part of a Myelogram.; This is a request for a Cervical Spine CT	1

Sports Medicine	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	The patient has failed a course of anti-inflammatory medication or steroids.; This is a request for cervical spine MRI; There has been a supervised trial of conservative management for at least 6 weeks.; Acute or Chronic neck and/or back pain; Yes, the patient demonstrate neurological deficits.; No, there is not a documented evidence of extremity weakness on physical examination.; No, there is no evidence of recent development of unilateral muscle wasting.; No, this patient did not have a recent course of supervised physical Therapy.	1
Sports Medicine	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	This is a request for cervical spine MRI; Acute or Chronic neck and/or back pain; The patient does not have new or changing neurologic signs or symptoms.; The patient has had back pain for over 4 weeks.; The patient has seen the doctor more then once for these symptoms.; The physician has directed conservative treatment for the past 6 weeks.; The patient has completed 6 weeks of physical therapy?	4
Sports Medicine	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	This is a request for cervical spine MRI; Acute or Chronic neck and/or back pain; Yes, the patient demonstrate neurological deficits.; yes, there is a documented evidence of extremity weakness on physical examination.	1
Sports Medicine	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	This is a request for cervical spine MRI; Neurological deficits; Yes, the patient is experiencing or presenting new symptoms of upper extremity weakness.	1
Sports Medicine	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	This is a request for cervical spine MRI; There has been a supervised trial of conservative management for at least 6 weeks.; Acute or Chronic neck and/or back pain; It is not known if the patient demonstrate neurological deficits.; Yes, this patient had a recent course of supervised physical Therapy.	1

Sports Medicine	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	<p>; This study is being ordered for trauma or injury.; ;  There has been treatment or conservative therapy.; ; ;  One of the studies being ordered is NOT a Breast MRI, CT  Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.;  The ordering MDs specialty is NOT  Hematologist/Oncologist, Thoracic Surgery, Oncology,  Surgical Oncology or Radiation Oncology</p>	1
Sports Medicine	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	<p>Ms. Harris is a forty-five-year-old who presents with  thoracolumbar pain. She states this began on  09/15/2017, whenever she lost control of her vehicle  and rolled it over four times. This occurred in Howe,  Oklahoma. Since that time she had lumbar spine; This is  a request for a thoracic spine MRI.; Trauma or recent  injury; The patient does not have new or changing  neurologic signs or symptoms.; The patient has had back  pain for over 4 weeks.; The patient has seen the doctor  more then once for these symptoms.; The physician has  directed conservative treatment for the past 6 weeks.;  The patient has not completed 6 weeks of physical  therapy?; The patient has been treated with medication.;  The patient was treated with oral analgesics.; It is not  known if the patient has completed 6 weeks or more of  Chiropractic care.; The physician has not directed a home  exercise program for at least 6 weeks.</p>	1
Sports Medicine	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	<p>The patient does not have any neurological deficits.;  This is a request for a thoracic spine MRI.; There has  been a supervised trial of conservative management for  at least 6 weeks.; The study is being ordered due to  chronic back pain or suspected degenerative disease.</p>	1
Sports Medicine	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	<p>This is a request for a thoracic spine MRI.; Acute or  Chronic back pain; The patient does not have new or  changing neurologic signs or symptoms.; The patient has  had back pain for over 4 weeks.; The patient has seen  the doctor more then once for these symptoms.; The  physician has directed conservative treatment for the  past 6 weeks.; The patient has completed 6 weeks of  physical therapy?</p>	1

Sports Medicine	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	<p>; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; ; There has been treatment or conservative therapy.; ; ; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology</p>	1
Sports Medicine	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	<p>; This study is being ordered for trauma or injury.; ; There has been treatment or conservative therapy.; ; ; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology</p>	1
Sports Medicine	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	<p>Her gait is normal. She is nontender in the neck. She has full range of motion of the head and neck in all directions. She has normal sensation in the upper extremities to touch. She has good strength and muscle tone in her arms and her deep tendon re; The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has none of the above</p>	1
Sports Medicine	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	<p>His gait is normal. He is nontender in the neck. He has full range of motion of the head and neck in all directions. He has normal sensation in the upper extremities to touch. He has good strength and muscle tone in the upper extremities. deep tendon ; The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has none of the above</p>	1

Sports Medicine	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does not have new or changing neurologic signs or symptoms.; The patient has had back pain for over 4 weeks.; The patient has seen the doctor more than once for these symptoms.; The physician has directed conservative treatment for the past 6 weeks.; The patient has completed 6 weeks of physical therapy?	8
Sports Medicine	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has 6 weeks of completed conservative care in the past 3 months or had a spine injection	4
Sports Medicine	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has Neurological deficit(s)	6
Sports Medicine	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	unknown; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; unknown; There has been treatment or conservative therapy.; unknown; unknown; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

Sports Medicine	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	WORSENING PAIN CONTINUES ON COMPLETION OF PHYS THERP&#x0D; SEVERE PAIN TO BIL HIPS AND LEG WEAKNESS TO LT LEG WITH NUMBNESS TO LOWER LEG INTO TOES&#x0D; ANSAID YES&#x0D; &#x0D; PLANNING INJECTIONS &#x0D; Mr. Schouweiler returns for followup of his chronic left sided sciati; The study requested is a Lumbar Spine MRI.; Neurological deficits; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; WEAKNESS TO LT LEG WITH NUMBNESS TO LOWER LEG INTO TOES; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	1
Sports Medicine	Approval	72196 Magnetic resonance (eg, proton) imaging, pelvis; with contrast material(s)	unknown; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; unknown; There has been treatment or conservative therapy.; unknown; unknown; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Sports Medicine	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	The pain is from an old injury.; The member has failed a 4 week course of conservative management in the past 3 months.; This is a request for an elbow MRI; The study is requested for evaluation of elbow pain.	1
Sports Medicine	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	The requested study is a Shoulder MRI.; Study being ordered due to non-acute or chronic pain.; The patient has completed and failed a course of conservative treatment of at least 4 weeks.; The ordering physician is an orthopedist.	2

Sports Medicine	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	The requested study is a Shoulder MRI.; Study being ordered due to non-acute or chronic pain.; The patient has not completed and failed a course of conservative treatment of at least 4 weeks.; trying to rule out rotator cuff tear patient fell a month ago	1
Sports Medicine	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	The requested study is a Shoulder MRI.; The pain is described as chronic; The request is for shoulder pain.; The physician has directed conservative treatment for the past 6 weeks.; The patient has not completed 6 weeks of physical therapy?; The patient has been treated with medication.; The patient received joint injection(s). The requested study is a Shoulder MRI.; The pain is from an old injury.; The request is for shoulder pain.; The physician has directed conservative treatment for the past 6 weeks.; The patient has completed 6 weeks of physical therapy?	1
Sports Medicine	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	The requested study is a Shoulder MRI.; The pain is from an old injury.; The request is for shoulder pain.; The physician has directed conservative treatment for the past 6 weeks.; The patient has completed 6 weeks of physical therapy?	1
Sports Medicine	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	This is a request for a foot MRI.; "There is a history (within the past six weeks) of significant trauma, dislocation, or injury to the foot."; There is not a suspected tarsal coalition.; There is not a history of new onset of severe pain in the foot within the last two weeks.; The patient does not have an abnormal plain film study of the foot other than arthritis.; The patient has used a cane or crutches for greater than four weeks.; The patient does not have a documented limitation of their range of motion.	1
Sports Medicine	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	This is a request for a Knee MRI.; The ordering physician is an orthopedist.; Suspected meniscus, tendon, or ligament injury	5

Sports Medicine	Disapproval	72131 Computed tomography, lumbar spine; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for a lumbar spine CT.; The patient does not have a history of severe low back trauma or lumbar injury.; This is not a preoperative or recent postoperative evaluation.; This study is not part of a myelogram or discogram.; The patient is not experiencing symptoms of radiculopathy for six weeks or more.; There is no neurologic symptoms of bowel or urinary bladder dysfunction.; There is no suspicion of lumbar spine neoplasm or tumor or metastasis.; Yes this is a request for a Diagnostic CT	1
Sports Medicine	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	; This study is being ordered for trauma or injury.; ; There has been treatment or conservative therapy.; ; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Sports Medicine	Disapproval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for cervical spine MRI; There has been a supervised trial of conservative management for at least 6 weeks.; Acute or Chronic neck and/or back pain; No, the patient does not demonstrate neurological deficits.; Yes, this patient had a recent course of supervised physical Therapy.	1
Sports Medicine	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	Ms. Torres is a thirty-seven-year-old who we have seen previously for chronic bilateral sciatica. She has had four previous lower back surgeries at the L5-S1 level. I last saw her for her lower back in September 2016. She has had no new injury. She has; The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has none of the above	1

Sports Medicine	Disapproval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Radiology Services Denied Not Medically Necessary	; This study is being ordered for trauma or injury.; ; There has been treatment or conservative therapy.; ; ; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Surgery	Approval	70450 Computed tomography, head or brain; without contrast material		; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; First visit to the mdo was 02/06/2018; There has not been any treatment or conservative therapy.; Pain; firm mass found; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Surgery	Approval	70450 Computed tomography, head or brain; without contrast material		This is a request for a brain/head CT.; 'None of the above' best describes the reason that I have requested this test.; None of the above best describes the reason that I have requested this test.	1
Surgery	Approval	70450 Computed tomography, head or brain; without contrast material		This is a request for a brain/head CT.; The study is NOT being requested for evaluation of a headache.; The patient does NOT have a recent onset (within the last 4 weeks) of neurologic symptoms.; This study is being ordered for trauma or injury.	1
Surgery	Approval	70450 Computed tomography, head or brain; without contrast material		This is a request for a brain/head CT.; The type of tumor is unknown.; Known or suspected tumor best describes the reason that I have requested this test.	2

Surgery	Approval	70490 Computed tomography, soft tissue neck; without contrast material	&lt; Enter answer here - or Type In Unknown If No Info Given. &gt;; This study is being ordered for a metastatic disease.; There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Surgery	Approval	70490 Computed tomography, soft tissue neck; without contrast material	; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; First visit to the mdo was 02/06/2018; There has not been any treatment or conservative therapy.; Pain; firm mass found; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Surgery	Approval	70490 Computed tomography, soft tissue neck; without contrast material	Re-curring mass; This is a request for neck soft tissue CT.; The patient has a neck lump or mass.; There is a palpable neck mass or lump.; The neck mass is larger than 1 cm.; A fine needle aspirate was NOT done.; Yes this is a request for a Diagnostic CT	1
Surgery	Approval	70490 Computed tomography, soft tissue neck; without contrast material	This is a request for neck soft tissue CT.; There has not been recent trauma or other injury to the neck.; There is suspicion of or known tumor, metastasis, lymphadenopathy, or mass.; Yes this is a request for a Diagnostic CT	4

Surgery	Approval	70490 Computed tomography, soft tissue neck; without contrast material	to investigate edenopathy; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 02/15/2018; There has not been any treatment or conservative therapy.; swelling, difficulty swallowing solid foods. thyroid nodule 8x5x8 ml.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Surgery	Approval	70496 Computed tomographic angiography, head, with contrast material(s), including noncontrast images, if performed, and image postprocessing	&lt; Enter answer here - or Type In Unknown If No Info Given. &gt;; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; ; There has been treatment or conservative therapy.; weakness confusion loss of balance speech Impairments headaches; Anti Coagulant medications; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Surgery	Approval	70498 Computed tomographic angiography, neck, with contrast material(s), including noncontrast images, if performed, and image postprocessing	Unknown; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 1/19/2017; There has not been any treatment or conservative therapy.; Pulmonary nodule and carotid stenosis; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

Surgery	Approval	70498 Computed tomographic angiography, neck, with contrast material(s), including noncontrast images, if performed, and image postprocessing	Yes, this is a request for CT Angiography of the Neck.	1
Surgery	Approval	70540 Magnetic resonance (eg, proton) imaging, orbit, face, and/or neck; without contrast material(s)	"This is a request for orbit,face, or neck soft tissue MRI.239.8"; The sudy is ordered for pre-operative evaluation	1
Surgery	Approval	70540 Magnetic resonance (eg, proton) imaging, orbit, face, and/or neck; without contrast material(s)	This is a request for an Orbit MRI.; There is a history of orbit or face trauma or injury.	1
Surgery	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	&lt; Enter answer here - or Type In Unknown If No Info Given. &gt;; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; ; There has been treatment or conservative therapy.; weakness confusion loss of balance speech Impairments headaches; Anti Coagulant medications; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Surgery	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Chief Complaint &#x0D; "I have a mass in my chest" &#x0D; &#x0D; &#x0D; History Of Present Illness &#x0D; The patient is a 62 year old Caucasian/White male, who presents on referral from William S. Alexander MD, for a surgical evaluation of a left lung mass found on chest CT and ; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1

Surgery	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Meds, white noise and headaches worsening; This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The patient has dizziness.; The patient has a sudden and severe headache.; The patient had a recent onset (within the last 3 months) of neurologic symptoms.	1
Surgery	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Pre-op evaluation; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Not requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation,multiple sclerosis, or seizures; The condition is not associated with headache, blurred or double vision or a change in sensation noted on exam.; A metabolic work-up done including urinalysis, electrolytes, and complete blood count with results was not completed.; The patient does NOT have dizziness, fatigue or malaise, Bell's Palsy, a congenital abnormality, loss of smell, hearing loss or vertigo.	1
Surgery	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Requested for evaluation of tumor; A biopsy has been completed to determine tumor tissue type.	1
Surgery	Approval	71250 Computed tomography, thorax; without contrast material		1
Surgery	Approval	71250 Computed tomography, thorax; without contrast material	&lt; Enter answer here - or Type In Unknown If No Info Given. &gt;; This study is being ordered for a metastatic disease.; There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

Surgery	Approval	71250 Computed tomography, thorax; without contrast material	; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 2014 RECCURENCE; There has been treatment or conservative therapy.; LOWER ABDOMEN PAIN; RESECTION/REPAIR; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Surgery	Approval	71250 Computed tomography, thorax; without contrast material	A Chest/Thorax CT is being ordered.; This study is being ordered for suspected pulmonary Embolus.; Yes this is a request for a Diagnostic CT	1
Surgery	Approval	71250 Computed tomography, thorax; without contrast material	Abnormal finding on examination of the chest, chest wall and or lungs describes the reason for this request.; This is a request for a Chest CT.; Yes this is a request for a Diagnostic CT	7
Surgery	Approval	71250 Computed tomography, thorax; without contrast material	Abnormal imaging test describes the reason for this request.; This is a request for a Chest CT.; Yes this is a request for a Diagnostic CT	5
Surgery	Approval	71250 Computed tomography, thorax; without contrast material	Chest pain describes the reason for this request.; This study is being requested for 'none of the above'.; This is a request for a Chest CT.; This study is being requested for none of the above.; Yes this is a request for a Diagnostic CT	1
Surgery	Approval	71250 Computed tomography, thorax; without contrast material	ENLARGING RIGHT SUBMANDIBULAR TISSUE IN LAST COUPLE OF MONTHS AND WAS TREATED WITH ANTIBIOTIC WITH SOME IMPROVEMENT; This study is being ordered for a metastatic disease.; There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

Surgery	Approval	71250 Computed tomography, thorax; without contrast material	FU to cancer diagnosis; This study is being ordered for a metastatic disease.; There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Surgery	Approval	71250 Computed tomography, thorax; without contrast material	INITIAL STAGING BREAST CANCER.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI. 'None of the above' describes the reason for this request.; It is unknown what if anything else is related to this request for imaging of a known cancer or tumor.; This is a request for a Chest CT.; This study is being requested for known cancer or tumor; Yes this is a request for a Diagnostic CT	1
Surgery	Approval	71250 Computed tomography, thorax; without contrast material	'None of the above' describes the reason for this request.; This reason this study is being requested is unknown.; This is a request for a Chest CT.; This study is being requested for none of the above.; Yes this is a request for a Diagnostic CT	1
Surgery	Approval	71250 Computed tomography, thorax; without contrast material	Patient has rectal mass, abnormal CT of liver and history of breast cancer.; This study is being ordered for a metastatic disease.; There are 3 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Surgery	Approval	71250 Computed tomography, thorax; without contrast material	Post-operative evaluation describes the reason for this request.; This is a request for a Chest CT.; Yes this is a request for a Diagnostic CT	1

Surgery	Approval	71250 Computed tomography, thorax; without contrast material	Preop CXR shows a nodular opacity in the Rt apex. Ct chest recommended for further evaluation. Will order and discuss results with pt at time of followup; "There IS evidence of a lung, mediastinal or chest mass noted within the last 30 days."; They had a previous Chest x-ray.; A Chest/Thorax CT is being ordered.; This study is being ordered for work-up for suspicious mass.; Yes this is a request for a Diagnostic CT	1
Surgery	Approval	71250 Computed tomography, thorax; without contrast material	Pre-operative evaluation describes the reason for this request.; This is a request for a Chest CT.; Yes this is a request for a Diagnostic CT	2
Surgery	Approval	71250 Computed tomography, thorax; without contrast material	The patient at this point has had a positive biopsy. The diagnosis was confirmed on 01/09/2018 with a needle biopsy. The pathology from this biopsy on the right breast. the histology is 12 oclock: Invasive ductal carcinoma, poorly-differentiated, Nottingham; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Surgery	Approval	71250 Computed tomography, thorax; without contrast material	There is radiologic evidence of non-resolving pneumonia for 6 weeks after antibiotic treatment was prescribed.; A Chest/Thorax CT is being ordered.; This study is being ordered for known or suspected inflammatory disease or pneumonia.; Yes this is a request for a Diagnostic CT	1
Surgery	Approval	71250 Computed tomography, thorax; without contrast material	Trying to determine if surgery is needed; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1

Surgery	Approval	71250 Computed tomography, thorax; without contrast material	Unknown; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 1/19/2017; There has not been any treatment or conservative therapy.; Pulmonary nodule and carotid stenosis; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Surgery	Approval	71250 Computed tomography, thorax; without contrast material 71275 Computed tomographic angiography, chest (noncoronary), with contrast material(s), including noncontrast images, if performed, and image postprocessing	Yes, the patient was seen by a specialist because of the traumatic injury.; Chest pain describes the reason for this request.; The patient was seen by a general surgeon.; This is a request for a Chest CT.; This study is beign requested for chest injury or trauma within the past 2 weeks.; Yes this is a request for a Diagnostic CT	1
Surgery	Approval	71550 Magnetic resonance (eg, proton) imaging, chest (eg, for evaluation of hilar and mediastinal lymphadenopathy); without contrast material(s)	This study is requested to evaluate suspected pulmonary embolus.; Yes, this is a request for a Chest CT Angiography.	1
Surgery	Approval	72131 Computed tomography, lumbar spine; without contrast material	This study is being ordered for pre-operative evaluation.; The ordering physician is an oncologist, surgeon, pulmonologist, or cardiologist.; This is a request for a chest MRI.	1
Surgery	Approval	72131 Computed tomography, lumbar spine; without contrast material	This is a request for a lumbar spine CT.; The patient does not have a history of severe low back trauma or lumbar injury.; This is a preoperative or recent post-operative evaluation.; Yes this is a request for a Diagnostic CT	1

Surgery	Approval	72131 Computed tomography, lumbar spine; without contrast material	This is a request for a lumbar spine CT.; The patient does not have a history of severe low back trauma or lumbar injury.; This is not a preoperative or recent postoperative evaluation.; This study is not part of a myelogram or discogram.; The patient is experiencing symptoms of radiculopathy for six weeks or more.; Yes this is a request for a Diagnostic CT	1
Surgery	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	&lt; Enter answer here - or Type In Unknown If No Info Given. &gt;; This is a request for cervical spine MRI; Acute or Chronic neck and/or back pain; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; Document exam findings; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; There is not x-ray evidence of a recent cervical spine fracture.	1
Surgery	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	This is a request for cervical spine MRI; It is not known if there is evidence of tumor or metastasis on bone scan or x-ray.; Suspected Tumor with or without Metastasis;	1
Surgery	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	This is a request for cervical spine MRI; There has been a supervised trial of conservative management for at least 6 weeks.; Acute or Chronic neck and/or back pain; No, the patient does not demonstrate neurological deficits.; Yes, this patient had a recent course of supervised physical Therapy.	1
Surgery	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; The patient does have a new foot drop.	1
Surgery	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has 6 weeks of completed conservative care in the past 3 months or had a spine injection	1

Surgery	Approval	72192 Computed tomography, pelvis; without contrast material	&lt; Enter answer here - or Type In Unknown If No Info Given. &gt;; This study is being ordered due to known or suspected infection.; "The ordering physician is a surgeon, gynecologist, urologist, gastroenterologist, or infectious disease specialist or PCP ordering on behalf of a specialist who has seen the patient."; This is a request for a Pelvis CT.; Yes this is a request for a Diagnostic CT	2
Surgery	Approval	72192 Computed tomography, pelvis; without contrast material	4 week followup for left groin pain. He states he still is having so much pain that he cannot go to work. He took the anti-inflammatories and stated that it helped but still has pain. When he was in the clinic last time, he would not let me examine him du; This study is being ordered as pre-operative evaluation.; "The ordering physician is an oncologist, urologist, gynecologist, gastroenterologist or surgeon or PCP ordering on behalf of a specialist who has seen the patient."; This is a request for a Pelvis CT.; Yes this is a request for a Diagnostic CT	1
Surgery	Approval	72192 Computed tomography, pelvis; without contrast material	Assessment &#x0D; Encounter for examination following surgery V67.00/Z09&#x0D; &#x0D; Benign stromal tumor of abdomen 215.5/D21.4&#x0D; Chief Complaint &#x0D; "Here for a follow-up." &#x0D; &#x0D; &#x0D; History Of Present Illness &#x0D; The patient is a 58 year old Caucasian/White female wh; The patient is not undergoing active treatment for cancer.; This study is being ordered for known tumor, cancer, mass, or rule-out metastasis.; "The ordering physician is NOT an oncologist, urologist, gynecologist, gastroenterologist or surgeon or PCP ordering on behalf of a specialist who has seen the patient."; The patient has had 3 or fewer pelvis CTs.; This study is not being ordered for initial staging.; The patient is not presenting new signs (e.g. lab findings or imaging) or symptoms.; This is a request for a Pelvis CT.; Yes this is a request for a Diagnostic CT	1

Surgery	Approval	72192 Computed tomography, pelvis; without contrast material	CHECKING FOR LEAKAGE OF THE ANASTOMIMOSIS BEFORE REVERSAL IS DONE; The patient is not undergoing active treatment for cancer.; This study is being ordered for known tumor, cancer, mass, or rule-out metastasis.; "The ordering physician is an oncologist, urologist, gynecologist, gastroenterologist or surgeon or PCP ordering on behalf of a specialist who has seen the patient."; The patient has had 3 or fewer pelvis CTs.; This study is not being ordered for initial staging.; The patient is not presenting new signs (e.g. lab findings or imaging) or symptoms.; This is a request for a Pelvis CT.; Yes this is a request for a Diagnostic CT	1
Surgery	Approval	72192 Computed tomography, pelvis; without contrast material	follow up after previous test 4wks ago, check leak; The patient is undergoing active treatment for cancer.; This study is being ordered for known tumor, cancer, mass, or rule-out metastasis.; "The ordering physician is an oncologist, urologist, gynecologist, gastroenterologist or surgeon or PCP ordering on behalf of a specialist who has seen the patient."; This study is not being ordered for initial staging.; This is a request for a Pelvis CT.; Yes this is a request for a Diagnostic CT	1
Surgery	Approval	72192 Computed tomography, pelvis; without contrast material	follow up for known mass; The patient is not undergoing active treatment for cancer.; This study is being ordered for known tumor, cancer, mass, or rule-out metastasis.; "The ordering physician is an oncologist, urologist, gynecologist, gastroenterologist or surgeon or PCP ordering on behalf of a specialist who has seen the patient."; The patient has had 3 or fewer pelvis CTs.; This study is not being ordered for initial staging.; The patient is not presenting new signs (e.g. lab findings or imaging) or symptoms.; This is a request for a Pelvis CT.; Yes this is a request for a Diagnostic CT	1

Surgery	Approval	72192 Computed tomography, pelvis; without contrast material	hip pain, lower abdominal pain; This study is being ordered as pre-operative evaluation.; "The ordering physician is an oncologist, urologist, gynecologist, gastroenterologist or surgeon or PCP ordering on behalf of a specialist who has seen the patient."; This is a request for a Pelvis CT.; Yes this is a request for a Diagnostic CT	1
Surgery	Approval	72192 Computed tomography, pelvis; without contrast material	Left inguinal pain, most likely due to a groin and rectus muscle strain.&#x0D; We'll order a CT scan to rule out recurrent hernia. uncomplicated left inguinal hernia repair 6 months ago.&#x0D; 3 days ago he was lifting 55 pound sacks, and felt significant pain in ; This study is being ordered as pre-operative evaluation.; "The ordering physician is an oncologist, urologist, gynecologist, gastroenterologist or surgeon or PCP ordering on behalf of a specialist who has seen the patient."; This is a request for a Pelvis CT.; Yes this is a request for a Diagnostic CT	1
Surgery	Approval	72192 Computed tomography, pelvis; without contrast material	Moderately differentiated invasive colorectal adenocarcinoma arising in a tubulovillous adenoma with high-grade dysplasia with probable lymph node metastasis (T3 N1 M0, clinically and radiographically).&#x0D; Multiple other colorectal polyps (tubular adenoma; The patient is undergoing active treatment for cancer.; This study is being ordered for known tumor, cancer, mass, or rule-out metastasis.; "The ordering physician is an oncologist, urologist, gynecologist, gastroenterologist or surgeon or PCP ordering on behalf of a specialist who has seen the patient."; This study is not being ordered for initial staging.; This is a request for a Pelvis CT.; Yes this is a request for a Diagnostic CT	1

Surgery	Approval	72192 Computed tomography, pelvis; without contrast material	Patient most likely has a medial quad muscle strain. Other possibilities would include occult fracture, bone lesion, possible recurrent hernia, not identifiable on exam; We'll order a CT scan of the pelvis and call with results. No recurrent hernia, we'; This study is being ordered as pre-operative evaluation.; "The ordering physician is an oncologist, urologist, gynecologist, gastroenterologist or surgeon or PCP ordering on behalf of a specialist who has seen the patient."; This is a request for a Pelvis CT.; Yes this is a request for a Diagnostic CT	1
Surgery	Approval	72192 Computed tomography, pelvis; without contrast material	Patient with pelvic pain. S/p gunshot wound now with possible abscess.; This study is being ordered as a follow-up to trauma.; "The ordering physician is a gastroenterologist, urologist, gynecologist, or surgeon or PCP ordering on behalf of a specialist who has seen the patient."; This is a request for a Pelvis CT.; Yes this is a request for a Diagnostic CT	1
Surgery	Approval	72192 Computed tomography, pelvis; without contrast material	Pt is having soft tissue swelling at her previous hernia site. she had a previous ultrasound that was inconclusive; This study is being ordered for some other reason than the choices given.; This is a request for a Pelvis CT.; Yes this is a request for a Diagnostic CT	1
Surgery	Approval	72192 Computed tomography, pelvis; without contrast material	This test is to r/o infection or abscess; This study is being ordered due to known or suspected infection.; "The ordering physician is a surgeon, gynecologist, urologist, gastroenterologist, or infectious disease specialist or PCP ordering on behalf of a specialist who has seen the patient."; This is a request for a Pelvis CT.; Yes this is a request for a Diagnostic CT	1
Surgery	Approval	72192 Computed tomography, pelvis; without contrast material	Ultrasound, no hernia seen and possibly has a hernia problem,; This study is being ordered due to known or suspected infection.; "The ordering physician is a surgeon, gynecologist, urologist, gastroenterologist, or infectious disease specialist or PCP ordering on behalf of a specialist who has seen the patient."; This is a request for a Pelvis CT.; Yes this is a request for a Diagnostic CT	1

Surgery	Approval	72196 Magnetic resonance (eg, proton) imaging, pelvis; with contrast material(s)	Large mass in stomach; This study is being ordered for a metastatic disease.; There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Surgery	Approval	72196 Magnetic resonance (eg, proton) imaging, pelvis; with contrast material(s)	Patient has rectal mass, abnormal CT of liver and history of breast cancer.; This study is being ordered for a metastatic disease.; There are 3 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Surgery	Approval	72196 Magnetic resonance (eg, proton) imaging, pelvis; with contrast material(s)	This is a request for a Pelvis MRI.; The request is for evaluation of the pelvis prior to surgery or laparoscopy.	1
Surgery	Approval	72196 Magnetic resonance (eg, proton) imaging, pelvis; with contrast material(s)	This is a request for a Pelvis MRI.; The request is for suspicion of tumor, mass, neoplasm, or metastatic disease?	3
Surgery	Approval	72196 Magnetic resonance (eg, proton) imaging, pelvis; with contrast material(s)	This is a request for a Pelvis MRI.; Yes, this is a preoperative study.; Surgery is planned for within 30 days.; The study is being ordered for suspicion of pelvic inflammatory disease or abscess.	1
Surgery	Approval	72196 Magnetic resonance (eg, proton) imaging, pelvis; with contrast material(s)	unknown; This is a request for a Pelvis MRI.; The request is not for any of the listed indications.	1
Surgery	Approval	73200 Computed tomography, upper extremity; without contrast material	This is a request for an upper extremity, shoulder, scapula, elbow, hand, or wrist joint CT.; There is a history of upper extremity joint or long bone trauma or injury.; Yes this is a request for a Diagnostic CT	5
Surgery	Approval	73200 Computed tomography, upper extremity; without contrast material	This is a request for an upper extremity, shoulder, scapula, elbow, hand, or wrist joint CT.; There is not a history of upper extremity joint or long bone trauma or injury.; This is a preoperative or recent postoperative evaluation.; Yes this is a request for a Diagnostic CT	4

Surgery	Approval	73206 Computed tomographic angiography, upper extremity, with contrast material(s), including noncontrast images, if performed, and image postprocessing	Yes, this is a request for CT Angiography of the upper extremity.	1
Surgery	Approval	73220 Magnetic resonance (eg, proton) imaging, upper extremity, other than joint; without contrast material(s), followed by contrast material(s) and further sequences	Concern about a possible radial sensory nerve injury.; This study is being ordered for trauma or injury.; 1/24/2018; It is not known if there has been any treatment or conservative therapy.; Burning pain starting at the height of where her soft tissue swelling and bruising were, and radiate proximally more so than distally. She has hypersensitivities. Concern about a possible radial sensory nerve injury.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	2
Surgery	Approval	73220 Magnetic resonance (eg, proton) imaging, upper extremity, other than joint; without contrast material(s), followed by contrast material(s) and further sequences	Symptoms consistent with inflammatory arthropaty; This study is being ordered for Inflammatory/ Infectious Disease.; Patient states years; There has been treatment or conservative therapy.; Swelling tightness and pain. Triggering of bilateral long fingers and carpal tunnel syndrome bilaterally; Therapy, chiropractics, massage therapist, anti-inflammatories topically and orally, splints, and rest/activity modifications.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

Surgery	Approval	73220 Magnetic resonance (eg, proton) imaging, upper extremity, other than joint; without contrast material(s), followed by contrast material(s) and further sequences	The request is for an upper extremity non-joint MRI.; This is a preoperative or recent postoperative evaluation.	10
Surgery	Approval	73220 Magnetic resonance (eg, proton) imaging, upper extremity, other than joint; without contrast material(s), followed by contrast material(s) and further sequences	The request is for an upper extremity non-joint MRI.; This is not a preoperative or recent postoperative evaluation.; There is not suspicion of upper extremity neoplasm or tumor or metastasis.; There is no suspicion of upper extremity bone or soft tissue infection.; The ordering physician is an orthopedist.	2
Surgery	Approval	73220 Magnetic resonance (eg, proton) imaging, upper extremity, other than joint; without contrast material(s), followed by contrast material(s) and further sequences	The request is for an upper extremity non-joint MRI.; This is not a preoperative or recent postoperative evaluation.; There is not suspicion of upper extremity neoplasm or tumor or metastasis.; There is suspicion of upper extremity bone or soft tissue infection.	3
Surgery	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Symptoms consistent with inflammatory arthropathy; This study is being ordered for Inflammatory/ Infectious Disease.; Patient states years; There has been treatment or conservative therapy.; Swelling tightness and pain. Triggering of bilateral long fingers and carpal tunnel syndrome bilaterally; Therapy, chiropractics, massage therapist, anti-inflammatories topically and orally, splints, and rest/activity modifications.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

Surgery	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	The requested study is a Shoulder MRI.; "The caller indicated the study was not ordered for: Known or Suspicious Mass or Tumor with or without metastasis, Known or suspected Joint Infection, Aseptic Necrosis, Trauma, Chronic Pain, or Pre or Post operative evaluation."; &lt; Enter answer here - or Type In Unknown If No Info Given. &gt;	1
Surgery	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	The requested study is a Shoulder MRI.; Study being ordered due to non-acute or chronic pain.; The patient has completed and failed a course of conservative treatment of at least 4 weeks.; The ordering physician is not an orthopedist.; There is documented findings of severe pain on motion.	1
Surgery	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	The requested study is a Shoulder MRI.; Study being ordered for pre-operative evaluation; This study is not being ordered prior to arthroscopic surgery.; "This study is not being ordered prior to a planned or scheduled open surgery (joint replacement, etc.)."; Chief Complaint &#x0D; "I have a lump" &#x0D; &#x0D; &#x0D; History Of Present Illness &#x0D; This is a 61 year old African American/Black male, who is referred by Terry Hunt MD for surgical evaluation of a subcutaneous mass on his shoulder. He notes that it has been present for	1
Surgery	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	The requested study is a Shoulder MRI.; The requested study is a Shoulder MRI.; Study being ordered due to non-acute or chronic pain.; Study being ordered for pre-operative evaluation; The patient has completed and failed a course of conservative treatment of at least 4 weeks.; This study is being ordered prior to arthroscopic surgery.; The ordering physician is an orthopedist.; &lt; Enter answer here - or Type In Unknown If No Info Given. &gt;	1
Surgery	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	This is a request for an upper extremity joint MRI.; The patient does have documented weakness or partial loss of feeling in the upper extremity.; There has has been a history of significant trauma, dislocation or injury to the joint within the past 6 weeks.; The patient does have an abnormal plain film study of the joint.	1

Surgery	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	This is a request for an upper extremity joint MRI.; The patient does have documented weakness or partial loss of feeling in the upper extremity.; There is no history of significant trauma, dislocation or injury to the joint within the past 6 weeks.; The patient does have an abnormal plain film study of the joint.; The patient has been treated with and failed a course of four weeks of supervised physical therapy.	4
Surgery	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	This is a request for an upper extremity joint MRI.; The patient does have documented weakness or partial loss of feeling in the upper extremity.; There is no history of significant trauma, dislocation or injury to the joint within the past 6 weeks.; The patient does have an abnormal plain film study of the joint.; The patient has not been treated with and failed a course of four weeks of supervised physical therapy.; The patient does not have a documented limitation of their range of motion.; The patient has experienced pain for greater than six weeks.; The patient has been treated with anti-inflammatory medication in conjunction with this complaint.; This study is being ordered by the operating surgeon for pre-operative planning.	2
Surgery	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	This is a request for an upper extremity joint MRI.; The patient does have documented weakness or partial loss of feeling in the upper extremity.; There is no history of significant trauma, dislocation or injury to the joint within the past 6 weeks.; The patient does have an abnormal plain film study of the joint.; The patient has not been treated with and failed a course of four weeks of supervised physical therapy.; The patient has a documented limitation of their range of motion.; The patient has experienced pain for greater than six weeks.; The patient has been treated with anti-inflammatory medication in conjunction with this complaint.	1

Surgery	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	<p>This is a request for an upper extremity joint MRI.; The patient does have documented weakness or partial loss of feeling in the upper extremity.; There is no history of significant trauma, dislocation or injury to the joint within the past 6 weeks.; The patient does have an abnormal plain film study of the joint.; The patient has not been treated with and failed a course of four weeks of supervised physical therapy.; The patient has a documented limitation of their range of motion.; The patient has experienced pain for greater than six weeks.; The patient has not been treated with anti-inflammatory medication in conjunction with this complaint.; This study is being ordered by the operating surgeon for pre-operative planning.</p>	1
---------	----------	---	--	---

Surgery	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	<p>This is a request for an upper extremity joint MRI.; The patient does have documented weakness or partial loss of feeling in the upper extremity.; There is no history of significant trauma, dislocation or injury to the joint within the past 6 weeks.; The patient does not have an abnormal plain film study of the joint.; The patient has been treated with and failed a course of four weeks of supervised physical therapy.; The patient has a documented limitation of their range of motion.; The patient has experienced pain for greater than six weeks.; The patient has been treated with anti-inflammatory medication in conjunction with this complaint.</p>	2
---------	----------	---	--	---

Surgery	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	<p>This is a request for an upper extremity joint MRI.; The patient does have documented weakness or partial loss of feeling in the upper extremity.; There is no history of significant trauma, dislocation or injury to the joint within the past 6 weeks.; The patient does not have an abnormal plain film study of the joint.; The patient has not been treated with and failed a course of four weeks of supervised physical therapy.; The patient does not have a documented limitation of their range of motion.; The patient has experienced pain for greater than six weeks.; The patient has been treated with anti-inflammatory medication in conjunction with this complaint.; This study is not being ordered by an operating surgeon for pre-operative planning.</p>	1
Surgery	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	<p>This is a request for an upper extremity joint MRI.; The patient does have documented weakness or partial loss of feeling in the upper extremity.; There is no history of significant trauma, dislocation or injury to the joint within the past 6 weeks.; The patient does not have an abnormal plain film study of the joint.; The patient has not been treated with and failed a course of four weeks of supervised physical therapy.; The patient has a documented limitation of their range of motion.; The patient has experienced pain for greater than six weeks.; The patient has been treated with anti-inflammatory medication in conjunction with this complaint.; This study is being ordered by the operating surgeon for pre-operative planning.</p>	2
Surgery	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	<p>This is a request for an upper extremity joint MRI.; The patient does not have documented weakness or partial loss of feeling in the upper extremity.; There has been a history of significant trauma, dislocation or injury to the joint within the past 6 weeks.; The patient does not have an abnormal plain film study of the joint.; The patient has not been treated with and failed a course of four weeks of supervised physical therapy.; The patient has a documented limitation of their range of motion.</p>	1

Surgery	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	This is a request for an upper extremity joint MRI.; The patient does not have documented weakness or partial loss of feeling in the upper extremity.; There is no history of significant trauma, dislocation or injury to the joint within the past 6 weeks.; The patient does have an abnormal plain film study of the joint.; The patient has not been treated with and failed a course of four weeks of supervised physical therapy.; The patient does not have a documented limitation of their range of motion.; The patient has experienced pain for greater than six weeks.	1
Surgery	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	This is a request for an upper extremity joint MRI.; The patient does not have documented weakness or partial loss of feeling in the upper extremity.; There is no history of significant trauma, dislocation or injury to the joint within the past 6 weeks.; The patient does have an abnormal plain film study of the joint.; The patient has not been treated with and failed a course of four weeks of supervised physical therapy.; The patient has a documented limitation of their range of motion.	3
Surgery	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	This is a request for an upper extremity joint MRI.; The patient does not have documented weakness or partial loss of feeling in the upper extremity.; There is no history of significant trauma, dislocation or injury to the joint within the past 6 weeks.; The patient does not have an abnormal plain film study of the joint.; The patient has been treated with and failed a course of four weeks of supervised physical therapy.; The patient does not have a documented limitation of their range of motion.; The patient has experienced pain for greater than six weeks.	2

Surgery	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	This is a request for an upper extremity joint MRI.; The patient does not have documented weakness or partial loss of feeling in the upper extremity.; There is no history of significant trauma, dislocation or injury to the joint within the past 6 weeks.; The patient does not have an abnormal plain film study of the joint.; The patient has not been treated with and failed a course of four weeks of supervised physical therapy.; The patient does not have a documented limitation of their range of motion.; The patient has experienced pain for greater than six weeks.; The patient has been treated with anti-inflammatory medication in conjunction with this complaint.; This study is being ordered by the operating surgeon for pre-operative planning.	1
Surgery	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	This is a request for an upper extremity joint MRI.; The patient does not have documented weakness or partial loss of feeling in the upper extremity.; There is no history of significant trauma, dislocation or injury to the joint within the past 6 weeks.; The patient does not have an abnormal plain film study of the joint.; The patient has not been treated with and failed a course of four weeks of supervised physical therapy.; The patient has a documented limitation of their range of motion.; The patient has experienced pain for greater than six weeks.; The patient has been treated with anti-inflammatory medication in conjunction with this complaint.; This study is being ordered by the operating surgeon for pre-operative planning.	1
Surgery	Approval	73700 Computed tomography, lower extremity; without contrast material	The patient at this point has had a positive biopsy. The diagnosis was confirmed on 01/09/2018 with a needle biopsy. The pathology from this biopsy on the right breast. the histology is 12 oclock: Invasive ductal carcinoma, poorly-differentiated, Nottingham; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1

Surgery	Approval	73700 Computed tomography, lower extremity; without contrast material	This is not a preoperative or recent postoperative evaluation.; There is no suspicion of a lower extremity neoplasm, tumor or metastasis.; There is no suspicion of lower extremity bone or joint infection.; There is a history of lower extremity joint or long bone trauma or injury.; This is a request for a Leg CT.; Yes this is a request for a Diagnostic CT	1
Surgery	Approval	73706 Computed tomographic angiography, lower extremity, with contrast material(s), including noncontrast images, if performed, and image postprocessing	Yes, this is a request for CT Angiography of the lower extremity.	1
Surgery	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	"There is not a history (within the past six weeks) of significant trauma, dislocation, or injury to the foot."; There is a suspected tarsal coalition.; There is not a history of new onset of severe pain in the foot within the last two weeks.; The patient has an abnormal plain film study of the foot other than arthritis.; The patient does not have a documented limitation of their range of motion.; This is a request for bilateral foot MRI.; wounds on both feet	2
Surgery	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	This is a request for a foot MRI.; "There is a history (within the past six weeks) of significant trauma, dislocation, or injury to the foot."; There is a suspected tarsal coalition.	1

Surgery                      Approval                      73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences

This is a request for a foot MRI.; "There is not a history (within the past six weeks) of significant trauma, dislocation, or injury to the foot."; There is not a suspected tarsal coalition.; There is not a history of new onset of severe pain in the foot within the last two weeks.; The patient does not have an abnormal plain film study of the foot other than arthritis.; The patient has not used a cane or crutches for greater than four weeks.; The patient has not been treated with and failed a course of supervised physical therapy.; The patient has not been treated with anti-inflammatory medications in conjunction with this complaint.; This is for pre-operative planning.; The patient does not have a documented limitation of their range of motion.

1

Surgery                      Approval                      73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences

This is a request for a foot MRI.; "There is not a history (within the past six weeks) of significant trauma, dislocation, or injury to the foot."; There is not a suspected tarsal coalition.; There is not a history of new onset of severe pain in the foot within the last two weeks.; The patient has an abnormal plain film study of the foot other than arthritis.; The patient has not used a cane or crutches for greater than four weeks.; The patient has not been treated with and failed a course of supervised physical therapy.; The patient has been treated with anti-inflammatory medications in conjunction with this complaint.; This is not for pre-operative planning.; The patient does not have a documented limitation of their range of motion.

1

Surgery	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	This is a request for a foot MRI.; "There is not a history (within the past six weeks) of significant trauma, dislocation, or injury to the foot."; There is not a suspected tarsal coalition.; There is not a history of new onset of severe pain in the foot within the last two weeks.; The patient has an abnormal plain film study of the foot other than arthritis.; The patient has not used a cane or crutches for greater than four weeks.; The patient has not been treated with and failed a course of supervised physical therapy.; The patient has not been treated with anti-inflammatory medications in conjunction with this complaint.; This is not for pre-operative planning.; The patient does not have a documented limitation of their range of motion.	1
Surgery	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	This is a request for a foot MRI.; Surgery or other intervention is planned in the next 4 weeks.; The study is being oordered for infection.; There are physical exam findings, laboratory results, other imaging including bone scan or plain film confirming infection, inflammation and or aseptic necrosis.	1
Surgery	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	This is a request for a lower extremity MRI.; This is not a pulsatile mass.; "There is evidence of tumor or mass from a previous exam, plain film, ultrasound, or previous CT or MRI."	1
Surgery	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	This is a request for a lower extremity MRI.; This is not a pulsatile mass.; "There is no evidence of tumor or mass from a previous exam, plain film, ultrasound, or previous CT or MRI."; There is a suspicion of an infection.; The patient is not taking antibiotics.; This is not a study for a fracture which does not show healing (non-union fracture).; This is not a pre-operative study for planned surgery.	1

Surgery	Approval	73721 Magnetic resonance (eg, proton) imaging, any joint of lower extremity; without contrast material	This is a requests for a hip MRI.; This study is not being ordered in conjunction with a pelvic MRI.; "There is no a history (within the last six months) of significant trauma, dislocation, or injury to the hip."; There is not a suspicion of AVN.; The patient is not receiving long-term steriod therapy (Prednisone or Cortisone).; The patient does not have an abnormal plain film study of the hip other than arthritis.; The patient has not used a cane or crutches for greater than four weeks.; The patient has not been treated with and failed a course of supervised physical therapy.; There is not a mass near the hip.; The patient has been treated with anti-inflammatory medications in conjunction with this complaint.; This is not for pre-operative planning.; The patient has a documented limitation of their range of motion.	1
Surgery	Approval	73725 Magnetic resonance angiography, lower extremity, with or without contrast material(s)	; Is this a request for one of the following? MR Angiogram lower extremity	1
Surgery	Approval	74150 Computed tomography, abdomen; without contrast material	&lt; Enter answer here - or Type In Unknown If No Info Given. &gt;; This is a request for an Abdomen CT.; This study is being ordered for another reason besides Kidney/Ureteral stone, &#x0D; Known Tumor, Cancer, Mass, or R/O metastases, Suspicious Mass or Tumor, Organ Enlargement, &#x0D; Known or suspected infection such as pancreatitis, etc..; There are no findings of Hematuria, Lymphadenopathy,weight loss,abdominal pain,diabetic patient with gastroparesis; Yes this is a request for a Diagnostic CT	2
Surgery	Approval	74150 Computed tomography, abdomen; without contrast material	; This is a request for an Abdomen CT.; This study is being ordered for a known tumor, cancer, mass, or rule out metastases.; No, this is not a request for follow up to a known tumor or abdominal cancer.; This study being ordered for a palpable, observed or imaged abdominal mass.; Yes this is a request for a Diagnostic CT	1

Surgery	Approval	74150 Computed tomography, abdomen; without contrast material	<p>; This is a request for an Abdomen CT.; This study is being ordered for another reason besides Kidney/Ureteral stone, &amp;#x0D; Known Tumor, Cancer, Mass, or R/O metastases, Suspicious Mass or Tumor, Organ Enlargement, &amp;#x0D; Known or suspected infection such as pancreatitis, etc..; There are no findings of Hematuria, Lymphadenopathy, weight loss, abdominal pain, diabetic patient with gastroparesis; Yes this is a request for a Diagnostic CT</p>	2
Surgery	Approval	74150 Computed tomography, abdomen; without contrast material	<p>Post op of distal pancreatectomy, splenectomy for intraductal papillary mucinous neoplasm of the pancreas. We'll get every 6 month CT scans for 2 years then yearly thereafter. Pt had tumor in tail of pancreas removal 11/18/16; This is a request for an Abdomen CT.; This study is being ordered as a pre-op or post op evaluation.; The requested study is for post-operative evaluation.; The requested study is not a first follow up study for a post operative complication.; Yes this is a request for a Diagnostic CT</p>	1
Surgery	Approval	74150 Computed tomography, abdomen; without contrast material	<p>This is a request for an Abdomen CT.; This study is being ordered as a pre-op or post op evaluation.; The requested study is for pre-operative evaluation.; The study is requested by a surgeon, specialist or PCP on behalf of a specialist who has seen the patient.; Yes this is a request for a Diagnostic CT</p>	6
Surgery	Approval	74150 Computed tomography, abdomen; without contrast material	<p>This is a request for an Abdomen CT.; This study is being ordered for a known tumor, cancer, mass, or rule out metastases.; This is a request for initial staging of a known tumor other than prostate.; No, this is not a request for follow up to a known tumor or abdominal cancer.; Yes this is a request for a Diagnostic CT</p>	1
Surgery	Approval	74150 Computed tomography, abdomen; without contrast material	<p>This is a request for an Abdomen CT.; This study is being ordered for a known tumor, cancer, mass, or rule out metastases.; Yes, this is a request for follow up to a known tumor or abdominal cancer.; Yes this is a request for a Diagnostic CT</p>	1

Surgery	Approval	74150 Computed tomography, abdomen; without contrast material	This is a request for an Abdomen CT.; This study is being ordered for a suspicious mass or tumor.; There is a suspicious mass found using ultrasound, IVP, Endoscopy, colonoscopy, or sigmoidoscopy.; Yes this is a request for a Diagnostic CT	2
Surgery	Approval	74150 Computed tomography, abdomen; without contrast material	This is a request for an Abdomen CT.; This study is being ordered for an infection such as pancreatitis, appendicitis, abscess, colitis and inflammatory bowel disease.; There are known or endoscopic findings of Diverticulitis.; Yes this is a request for a Diagnostic CT	1
Surgery	Approval	74174 Computed tomographic angiography, abdomen and pelvis, with contrast material(s), including noncontrast images, if performed, and image postprocessing	This is a request for CT Angiography of the Abdomen and Pelvis.	3
Surgery	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		1
Surgery	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	&lt; Enter answer here - or Type In Unknown If No Info Given. &gt;; This is a request for an abdomen-pelvis CT combination.; A urinalysis has been completed.; This study is being requested for abdominal and/or pelvic pain.; The results of the urinalysis were abnormal.; The urinalysis was positive for something other than billirubin, ketones, nitrites, hematuria/blood, glucose or protein.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; It is unknown if the patient had an Amylase or Lipase lab test.; Yes this is a request for a Diagnostic CT	1

Surgery	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	&lt; Enter answer here - or Type In Unknown If No Info Given. &gt;; This is a request for an abdomen-pelvis CT combination.; A urinalysis has not been completed.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; The patient did not have a amylase or lipase lab test.; Yes this is a request for a Diagnostic CT	1
Surgery	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	&lt; Enter answer here - or Type In Unknown If No Info Given. &gt;; This is a request for an abdomen-pelvis CT combination.; It is not known if a urinalysis has been completed.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; It is unknown if the patient had an Amylase or Lipase lab test.; Yes this is a request for a Diagnostic CT	2
Surgery	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	&lt; Enter answer here - or Type In Unknown If No Info Given. &gt;; This is a request for an abdomen-pelvis CT combination.; The reason for the study is none of the listed reasons.; It is not know if this study is being requested for abdominal and/or pelvic pain.; It is not known if the study is requested for hematuria.; Yes this is a request for a Diagnostic CT	1
Surgery	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	&lt; Enter answer here - or Type In Unknown If No Info Given. &gt;; This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for acute pain.; There has been a physical exam.; The patient is female.; A pelvic exam was NOT performed.; Yes this is a request for a Diagnostic CT	1
Surgery	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	&lt; Enter answer here - or Type In Unknown If No Info Given. &gt;; This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for acute pain.; There has been a physical exam.; The patient is female.; A pelvic exam was performed.; The results of the exam were abnormal.; Yes this is a request for a Diagnostic CT	1

Surgery	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	&lt; Enter answer here - or Type In Unknown If No Info Given. &gt;; This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for acute pain.; There has been a physical exam.; The patient is male.; A rectal exam was performed.; The results of the exam are unknown.; Yes this is a request for a Diagnostic CT	1
Surgery	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	&lt; Enter answer here - or Type In Unknown If No Info Given. &gt;; This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is male.; It is not known if a rectal exam was performed.; Yes this is a request for a Diagnostic CT	1
Surgery	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	; This is a request for an abdomen-pelvis CT combination.; A urinalysis has not been completed.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; The patient did not have a amylase or lipase lab test.; Yes this is a request for a Diagnostic CT	1
Surgery	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	; This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is female.; A pelvic exam was NOT performed.; Yes this is a request for a Diagnostic CT	2

Surgery	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	<p>; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 2014 RECCURENCE; There has been treatment or conservative therapy.; LOWER ABDOMEN PAIN; RESECTION/REPAIR; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology</p>	1
Surgery	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	<p>48 yr. old female pt w/ pain; diarrhea for two years.; This is a request for an abdomen-pelvis CT combination.; It is not known if a urinalysis has been completed.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; It is unknown if the patient had an Amylase or Lipase lab test.; Yes this is a request for a Diagnostic CT</p>	1
Surgery	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	<p>diverticulitis flare up; This is a request for an abdomen-pelvis CT combination.; A urinalysis has not been completed.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for acute pain.; There has not been a physical exam.; The patient did not have a amylase or lipase lab test.; Yes this is a request for a Diagnostic CT</p>	1
Surgery	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	<p>FU to cancer diagnosis; This study is being ordered for a metastatic disease.; There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology</p>	1

Surgery	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	INFLAMED OVARY; This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is female.; A pelvic exam was performed.; The results of the exam were abnormal.; Yes this is a request for a Diagnostic CT	1
Surgery	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	INITAL STAGING BREAST CANCER.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Surgery	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	Mr Brown is here today to discuss his weight loss. He has lost 105 pounds since his last visit! He has a upper abdominal pain and was concerned about a hernia. He is interested in bariatric surgery as well but his insurance will not cover this type of pro; This is a request for an abdomen-pelvis CT combination.; It is not known if a urinalysis has been completed.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; It is unknown if the patient had an Amylase or Lipase lab test.; Yes this is a request for a Diagnostic CT	1
Surgery	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	Ms. Johnson came in on Monday 2/19/2018 for her drain to be pulled. We had a very difficult time pulling her drain. She called today 2/22/2018 stating that she was having extreme pain at her drain site. Dr. Luttrell would like to get a CT abd/pelvis since; This is a request for an abdomen-pelvis CT combination.; A urinalysis has not been completed.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for acute pain.; There has not been a physical exam.; The patient did not have a amylase or lipase lab test.; Yes this is a request for a Diagnostic CT	1

Surgery	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	n/a; This is a request for an abdomen-pelvis CT combination.; A urinalysis has not been completed.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; The patient did not have a amylase or lipase lab test.; Yes this is a request for a Diagnostic CT	1
Surgery	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	pain; This is a request for an abdomen-pelvis CT combination.; It is not known if a urinalysis has been completed.; This study is being requested for abdominal and/or pelvic pain.; It is not known if the pain is acute or chronic.; This is the first visit for this complaint.; The patient did not have a amylase or lipase lab test.; Yes this is a request for a Diagnostic CT	1
Surgery	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	Patient has history of paraesophageal hernia repair, cholecystectomy, and recent negative EGD. She had negative troponin, cxr, and ckmb.;"The patient may also need a contrasted CT scan of her abdomen and lower chest to evaluate for the pain. Appeared; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; December 2017; There has been treatment or conservative therapy.; chest pain, abdominal pain, nausea, emesis; patient had negative egd on 2/9/2018. she went to ED on 12/20/2017. she had negative CXR, troponin, and ckmb; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

Surgery	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	<p>Patient has left groin pain radiating all the way down into the scrotum and perineum. The patient has had this pain for about 2 weeks. He describes it as being dull in character and rates it between 6 and 9 out of 10. He denies prior episode. He does not ; This is a request for an abdomen-pelvis CT combination.; A urinalysis has not been completed.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; The patient did not have a amylase or lipase lab test.; Yes this is a request for a Diagnostic CT</p>	1
Surgery	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	<p>Patient with left sided abdominal pain. She also has gallstones by ultrasound but pain is not consistent with gallbladder disease; This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is female.; A pelvic exam was NOT performed.; Yes this is a request for a Diagnostic CT</p>	1
Surgery	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	<p>Positive for abdominal pain and nausea. Abdominal: Soft. There is tenderness (at incision site).; This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is female.; It is not known if a pelvic exam was performed.; Yes this is a request for a Diagnostic CT</p>	1
Surgery	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	<p>Post-op for bowel obstruction; This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is male.; A rectal exam was not performed.; Yes this is a request for a Diagnostic CT</p>	1

Surgery	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	Pt has a history of hernias with past repairs. She presented to clinic with worsening abdominal pain with nausea.; This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for acute pain.; There has been a physical exam.; The patient is female.; A pelvic exam was NOT performed.; Yes this is a request for a Diagnostic CT	1
Surgery	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	see clinicals attached.; This is a request for an abdomen-pelvis CT combination.; A urinalysis has not been completed.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; The patient did not have a amylase or lipase lab test.; Yes this is a request for a Diagnostic CT	1
Surgery	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	Tammy Willhite is a 50 yo woman who is a 1 ppd smoker with history of multiple hernia repairs stemming from reported ex-lap for perforated appendicitis who presents to clinic for repair for recurrent abdominal hernia. She attempts to provide a timeline o; This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for acute pain.; There has been a physical exam.; The patient is female.; A pelvic exam was performed.; The results of the exam were abnormal.; Yes this is a request for a Diagnostic CT	1
Surgery	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	The patient at this point has had a positive biopsy. The diagnosis was confirmed on 01/09/2018 with a needle biopsy. The pathology from this biopsy on the right breast. the histology is 12 oclock: Invasive ductal carcinoma, poorly-differentiated, Nottingham; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1

Surgery	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	The patient is c/o abd pain, nausea, weight loss. He was referred to our office for an endoscopy work up, however it was determined that the patient needed a CT scan of the abd first.; This is a request for an abdomen-pelvis CT combination.; A urinalysis has not been completed.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; It is unknown if the patient had an Amylase or Lipase lab test.; Yes this is a request for a Diagnostic CT	1
Surgery	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	This is a request for an abdomen-pelvis CT combination.; A urinalysis has been completed.; This study is being requested for abdominal and/or pelvic pain.; It is not known if the urinalysis results were normal or abnormal.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; The patient had an amylase lab test.; The results of the lab test were unknown.; Yes this is a request for a Diagnostic CT	1
Surgery	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	This is a request for an abdomen-pelvis CT combination.; A urinalysis has been completed.; This study is being requested for abdominal and/or pelvic pain.; The results of the urinalysis were abnormal.; The urinalysis was positive for hematuria/blood.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; The patient did not have a amylase or lipase lab test.; Yes this is a request for a Diagnostic CT	1
Surgery	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	This is a request for an abdomen-pelvis CT combination.; A urinalysis has been completed.; This study is being requested for abdominal and/or pelvic pain.; The results of the urinalysis were abnormal.; The urinalysis was positive for something other than billirubin, ketones, nitrites, hematuria/blood, glucose or protein.; It is not known if the pain is acute or chronic.; This is the first visit for this complaint.; The patient did not have a amylase or lipase lab test.; Yes this is a request for a Diagnostic CT	1

Surgery	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	This is a request for an abdomen-pelvis CT combination.; A urinalysis has been completed.; This study is being requested for abdominal and/or pelvic pain.; The results of the urinalysis were normal.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; The patient did not have a amylase or lipase lab test.; Yes this is a request for a Diagnostic CT	3
Surgery	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	This is a request for an abdomen-pelvis CT combination.; A urinalysis has not been completed.; This study is being requested for abdominal and/or pelvic pain.; It is not known if the pain is acute or chronic.; This is the first visit for this complaint.; The patient did not have a amylase or lipase lab test.; Yes this is a request for a Diagnostic CT	2
Surgery	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	This is a request for an abdomen-pelvis CT combination.; A urinalysis has not been completed.; This study is being requested for abdominal and/or pelvic pain.; It is not known if the pain is acute or chronic.; This is the first visit for this complaint.; The patient had an amylase lab test.; The results of the lab test were unknown.; Yes this is a request for a Diagnostic CT	1
Surgery	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	This is a request for an abdomen-pelvis CT combination.; A urinalysis has not been completed.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for acute pain.; There has not been a physical exam.; The patient did not have a amylase or lipase lab test.; Yes this is a request for a Diagnostic CT	1
Surgery	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	This is a request for an abdomen-pelvis CT combination.; A urinalysis has not been completed.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; It is unknown if the patient had an Amylase or Lipase lab test.; Yes this is a request for a Diagnostic CT	5

Surgery	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	This is a request for an abdomen-pelvis CT combination.; A urinalysis has not been completed.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; The patient did not have a amylase or lipase lab test.; Yes this is a request for a Diagnostic CT	17
Surgery	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	This is a request for an abdomen-pelvis CT combination.; A urinalysis has not been completed.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; The patient had an lipase lab test.; The results of the lab test were normal.; Yes this is a request for a Diagnostic CT	1
Surgery	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	This is a request for an abdomen-pelvis CT combination.; It is not known if a urinalysis has been completed.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for acute pain.; It is unknown if there has been a physical exam.; It is unknown if the patient had an Amylase or Lipase lab test.; Yes this is a request for a Diagnostic CT	1
Surgery	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	This is a request for an abdomen-pelvis CT combination.; It is not known if a urinalysis has been completed.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; It is unknown if the patient had an Amylase or Lipase lab test.; Yes this is a request for a Diagnostic CT	5
Surgery	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	This is a request for an abdomen-pelvis CT combination.; It is not known if a urinalysis has been completed.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; The patient did not have a amylase or lipase lab test.; Yes this is a request for a Diagnostic CT	3

Surgery	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	This is a request for an abdomen-pelvis CT combination.; The reason for the study is follow up trauma.; It is not known if there is laboratory or physical evidence of an intra-abdominal bleed.; It is not known if there is physical or abnormal blood work consistent with peritonitis or abdominal abscess.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; Yes this is a request for a Diagnostic CT	1
Surgery	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	This is a request for an abdomen-pelvis CT combination.; The reason for the study is infection.; The patient does not have a fever and elevated white blood cell count or abnormal amylase/lipase.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; The patient has Diverticulitis.; Yes this is a request for a Diagnostic CT	1
Surgery	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	This is a request for an abdomen-pelvis CT combination.; The reason for the study is infection.; The patient has a fever and elevated white blood cell count or abnormal amylase/lipase.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; Yes this is a request for a Diagnostic CT	2
Surgery	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	This is a request for an abdomen-pelvis CT combination.; The reason for the study is known tumor.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; Yes this is a request for a Diagnostic CT	3
Surgery	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	This is a request for an abdomen-pelvis CT combination.; The reason for the study is none of the listed reasons.; It is not know if this study is being requested for abdominal and/or pelvic pain.; It is not known if the study is requested for hematuria.; Yes this is a request for a Diagnostic CT	1

Surgery	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	This is a request for an abdomen-pelvis CT combination.; The reason for the study is none of the listed reasons.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; Yes this is a request for a Diagnostic CT	2
Surgery	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	This is a request for an abdomen-pelvis CT combination.; The reason for the study is pre-op or post op evaluation.; It is not know if this study is being requested for abdominal and/or pelvic pain.; It is not known if the study is requested for hematuria.; Yes this is a request for a Diagnostic CT	1
Surgery	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	This is a request for an abdomen-pelvis CT combination.; The reason for the study is pre-op or post op evaluation.; The study is requested for post-op evaluation.; The study is requested as a first follow up study for a suspected or known post-op complication.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; Yes this is a request for a Diagnostic CT	4
Surgery	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	This is a request for an abdomen-pelvis CT combination.; The reason for the study is pre-op or post op evaluation.; The study is requested for preoperative evaluation.; Surgery is planned for within 30 days.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; Yes this is a request for a Diagnostic CT	3
Surgery	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	This is a request for an abdomen-pelvis CT combination.; The reason for the study is pre-op or post op evaluation.; This study is not being requested for abdominal and/or pelvic pain.; It is not known if the study is requested for hematuria.; Yes this is a request for a Diagnostic CT	1
Surgery	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	This is a request for an abdomen-pelvis CT combination.; The reason for the study is pre-op or post op evaluation.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; Yes this is a request for a Diagnostic CT	30

Surgery	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	This is a request for an abdomen-pelvis CT combination.; The reason for the study is suspicious mass or suspected tumor or metastasis.; The patient is not presenting new symptoms.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; The last Abdomen/Pelvis CT was performed more than 10 months ago.; The patient had an abnormal abdominal Ultrasound, CT or MR study.; The patient has NOT completed a course of chemotherapy or radiation therapy within the past 90 days.; Yes this is a request for a Diagnostic CT	1
Surgery	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	This is a request for an abdomen-pelvis CT combination.; The reason for the study is suspicious mass or suspected tumor or metastasis.; The patient is presenting new symptoms.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; The patient had an abnormal abdominal Ultrasound, CT or MR study.; The patient has NOT completed a course of chemotherapy or radiation therapy within the past 90 days.; Yes this is a request for a Diagnostic CT	1
Surgery	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	This is a request for an abdomen-pelvis CT combination.; The reason for the study is suspicious mass or suspected tumor or metastasis.; This study is not being requested for abdominal and/or pelvic pain.; It is not known if the study is requested for hematuria.; The patient did NOT have an abnormal abdominal Ultrasound, CT or MR study.; Yes this is a request for a Diagnostic CT	1
Surgery	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	This is a request for an abdomen-pelvis CT combination.; The reason for the study is suspicious mass or suspected tumor or metastasis.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; The patient did NOT have an abnormal abdominal Ultrasound, CT or MR study.; Yes this is a request for a Diagnostic CT	3

Surgery	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; It is not known if the pain is acute or chronic.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is female.; A pelvic exam was NOT performed.; Yes this is a request for a Diagnostic CT	1
Surgery	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; It is not known if the pain is acute or chronic.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is male.; A rectal exam was not performed.; Yes this is a request for a Diagnostic CT	1
Surgery	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for acute pain.; There has been a physical exam.; The patient is female.; A pelvic exam was NOT performed.; Yes this is a request for a Diagnostic CT	6
Surgery	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for acute pain.; There has been a physical exam.; The patient is female.; A pelvic exam was performed.; The results of the exam were abnormal.; Yes this is a request for a Diagnostic CT	1
Surgery	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for acute pain.; There has been a physical exam.; The patient is male.; A rectal exam was not performed.; Yes this is a request for a Diagnostic CT	4

Surgery	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for acute pain.; There has been a physical exam.; The patient is male.; A rectal exam was performed.; The results of the exam were abnormal.; Yes this is a request for a Diagnostic CT	1
Surgery	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is female.; A pelvic exam was NOT performed.; Yes this is a request for a Diagnostic CT	13
Surgery	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is female.; A pelvic exam was performed.; The results of the exam are unknown.; Yes this is a request for a Diagnostic CT	1
Surgery	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is female.; A pelvic exam was performed.; The results of the exam were abnormal.; Yes this is a request for a Diagnostic CT	2
Surgery	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is female.; A pelvic exam was performed.; The results of the exam were normal.; The patient had an Ultrasound.; The Ultrasound was abnormal.; The ultrasound showed a Kidney/Renal cyst(s); Yes this is a request for a Diagnostic CT	1

Surgery	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is female.; A pelvic exam was performed.; The results of the exam were normal.; The patient had an Ultrasound.; The Ultrasound was abnormal.; The ultrasound showed something other than Gall Stones, Kidney/Renal cyst, Aneurysm or a Pelvis Mass.; Yes this is a request for a Diagnostic CT	5
Surgery	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is female.; A pelvic exam was performed.; The results of the exam were normal.; The patient had an Ultrasound.; The Ultrasound was normal.; A contrast/barium x-ray has been completed.; The results of the contrast/barium x-ray were normal.; The patient had an endoscopy.; The endoscopy was normal.; Yes this is a request for a Diagnostic CT	1
Surgery	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is female.; It is not known if a pelvic exam was performed.; Yes this is a request for a Diagnostic CT	3
Surgery	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is male.; A rectal exam was not performed.; Yes this is a request for a Diagnostic CT	9

Surgery	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is male.; A rectal exam was performed.; The results of the exam are unknown.; Yes this is a request for a Diagnostic CT	1
Surgery	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is male.; A rectal exam was performed.; The results of the exam were abnormal.; Yes this is a request for a Diagnostic CT	3
Surgery	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; The patient had an amylase lab test.; The results of the lab test were abnormal.; Yes this is a request for a Diagnostic CT	1
Surgery	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	This is a request for an abdomen-pelvis CT combination.; This study is not being requested for abdominal and/or pelvic pain.; The study is requested for hematuria.; Yes this is a request for a Diagnostic CT	4
Surgery	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	This patient has a colovesicular fistula and anal stenosis. She has a possible rectal/colon mass seen on Barium enema that needs to be further evaluated. The patient is passing urine and air via her urethra and vagina.; This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is female.; A pelvic exam was performed.; The results of the exam were abnormal.; Yes this is a request for a Diagnostic CT	1

Surgery	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	ventral /incisional hernia. Had an incisional hernia repair w regular mesh done by Dr.Petrino.2 yrs ago. Need to reevaluate hernia; This is a request for an abdomen-pelvis CT combination.; The reason for the study is none of the listed reasons.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; Yes this is a request for a Diagnostic CT	1
Surgery	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)	&lt; Enter answer here - or Type In Unknown If No Info Given. &gt;; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 2 months; There has not been any treatment or conservative therapy.; weight loss and abdomen pain; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Surgery	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)	Large mass in stomach; This study is being ordered for a metastatic disease.; There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Surgery	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)	patient has elevated liver function test, epigastric pain and chest pain; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1

Surgery	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)	Patient has rectal mass, abnormal CT of liver and history of breast cancer.; This study is being ordered for a metastatic disease.; There are 3 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Surgery	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)	This request is for an Abdomen MRI.; This study is being ordered for organ enlargement.; There is an ultrasound or plain film evidence of an abdominal organ enlargement.; patient with dilated bile duct. Need MRCP to access	1
Surgery	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)	This request is for an Abdomen MRI.; This study is being ordered for pre-operative evaluation.; "The ordering physician is an oncologist, urologist, gastroenterologist, or surgeon."; &lt; Enter answer here - or Type In Unknown If No Info Given. &gt;	1
Surgery	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)	This request is for an Abdomen MRI.; This study is being ordered for pre-operative evaluation.; "The ordering physician is an oncologist, urologist, gastroenterologist, or surgeon."; 1. CT scan and MRI showed a dilated bile duct up to 12 mm and a dilated pancreatic duct up to 9 mm&#x0D; 2. Admission to the hospital for flareup of his pancreatitis.&#x0D; 3. Endoscopic ultrasound and biopsy which was suspicious.Mr Rhoden has a very difficult situ	1
Surgery	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)	This request is for an Abdomen MRI.; This study is being ordered for pre-operative evaluation.; "The ordering physician is an oncologist, urologist, gastroenterologist, or surgeon."; Pre operative evaluation	1

Surgery	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)	This request is for an Abdomen MRI.; This study is being ordered for pre-operative evaluation.; "The ordering physician is an oncologist, urologist, gastroenterologist, or surgeon."; to rule out stones in common bile duct. Pt had hida (normal) and liver function tests that were all normal. Continues to have ruq pain after she eats that goes through to back	1
Surgery	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)	This request is for an Abdomen MRI.; This study is being ordered for suspicious mass or suspected tumor/metastasis.; "There are documented physical findings (painless hematuria, etc.) consistent with an abdominal mass or tumor."; "The patient has had an abdominal ultrasound, CT, or MR study."; &lt; Enter answer here - or Type In Unknown If No Info Given. &gt;	1
Surgery	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)	This request is for an Abdomen MRI.; This study is being ordered for suspicious mass or suspected tumor/metastasis.; "There are no documented physical findings (painless hematuria, etc.) consistent with an abdominal mass or tumor."; "The patient has had an abdominal ultrasound, CT, or MR study."; ultrasound findings:&#xOD; &#xOD; 1. Echogenic masses in the liver. MRI of the abdomen performed both&#xOD; without and with intravenous gadolinium is recommended to confirm&#xOD; these represent cavernous hemangiomas.&#xOD; 2. Sludge balls versus polyps in the gallbladder. No g	1
Surgery	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)	This request is for an Abdomen MRI.; This study is being ordered for suspicious mass or suspected tumor/metastasis.; "There are no documented physical findings (painless hematuria, etc.) consistent with an abdominal mass or tumor."; "The patient has had an abdominal ultrasound, CT, or MR study."; ultrasound liver shows Hypodense lesion seen on recent CT scan not able to be visualized&#xOD; by ultrasound. Follow-up with CT or MRI utilizing a liver mass&#xOD; protocol may be of benefit.	1

Surgery	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)	This request is for an Abdomen MRI.; This study is not being ordered for known tumor, suspicious mass or suspected tumor/metastasis, organ enlargement, known or suspected vascular disease, hematuria, follow-up trauma, or a pre-operative evaluation.; & Enter answer here - or Type In Unknown If No Info Given. &	1
Surgery	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)	This request is for an Abdomen MRI.; This study is not being ordered for known tumor, suspicious mass or suspected tumor/metastasis, organ enlargement, known or suspected vascular disease, hematuria, follow-up trauma, or a pre-operative evaluation.; moderately dilated bio duct/	1
Surgery	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)	This request is for an Abdomen MRI.; This study is not being ordered for known tumor, suspicious mass or suspected tumor/metastasis, organ enlargement, known or suspected vascular disease, hematuria, follow-up trauma, or a pre-operative evaluation.; Reports RUQ pain, and diarrhea. Reports symptoms present for 6-7 months. Has HAD Lap chole in 2014. The patient tells me that his symptoms are similar to the symptoms that he had from his gallbladder. The patient tells me the pain happens for approximat	1
Surgery	Approval	75635 Computed tomographic angiography, abdominal aorta and bilateral iliofemoral lower extremity runoff, with contrast material(s), including noncontrast images, if performed, and image postprocessing	Yes, this is a request for CT Angiography of the abdominal arteries.	4
Surgery	Approval	77058 Magnetic resonance imaging, breast, without and/or with contrast material(s); unilateral		1
Surgery	Approval	77058 Magnetic resonance imaging, breast, without and/or with contrast material(s); unilateral	; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	2

Surgery	Approval	77058 Magnetic resonance imaging, breast, without and/or with contrast material(s); unilateral	; This is a request for Breast MRI.; This study is being ordered for known breast lesions.; There are NOT benign lesions in the breast associated with an increased cancer risk.	1
Surgery	Approval	77058 Magnetic resonance imaging, breast, without and/or with contrast material(s); unilateral	Population scale 13.4; This is a request for Breast MRI.; This study is being ordered as a screening examination for known family history of breast cancer.; There are NOT benign lesions in the breast associated with an increased cancer risk.; There is NOT a pattern of breast cancer history in at least two first-degree relatives (parent, sister, brother, or children).	1
Surgery	Approval	77058 Magnetic resonance imaging, breast, without and/or with contrast material(s); unilateral	Positive Braca Gene test tested for the BRACA 1; This is a request for Breast MRI.; This is a request for Breast MRI.; This study is being ordered as a screening examination for known family history of breast cancer.; This study is being ordered as a screening examination following genetic testing for breast cancer.; There are NOT benign lesions in the breast associated with an increased cancer risk.; There is NOT a pattern of breast cancer history in at least two first-degree relatives (parent, sister, brother, or children).; The patient has a lifetime risk score of greater than 20.	1
Surgery	Approval	77058 Magnetic resonance imaging, breast, without and/or with contrast material(s); unilateral	PT IS HAVING BILATERAL NIPPLE DISCHARGE WITH NEGATIVE MAMMOGRAM.; This is a request for Breast MRI.; This study is being ordered for something other than known breast cancer, known breast lesions, screening for known family history, screening following genetic testing or a suspected implant rupture.	1
Surgery	Approval	77058 Magnetic resonance imaging, breast, without and/or with contrast material(s); unilateral	The patient at this point has had a positive biopsy. The diagnosis was confirmed on 01/09/2018 with a needle biopsy. The pathology from this biopsy on the right breast. the histology is 12 o'clock: Invasive ductal carcinoma, poorly-differentiated, Nottingham; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1

Surgery	Approval	77058 Magnetic resonance imaging, breast, without and/or with contrast material(s); unilateral	This is a request for Breast MRI.; This study is being ordered as a screening examination following genetic testing for breast cancer.; The patient has a lifetime risk score of greater than 20.	1
Surgery	Approval	77058 Magnetic resonance imaging, breast, without and/or with contrast material(s); unilateral	This is a request for Breast MRI.; This study is being ordered as a screening examination for known family history of breast cancer.; There are benign lesions in the breast associated with an increased cancer risk.; There is NOT a pattern of breast cancer history in at least two first-degree relatives (parent, sister, brother, or children).	3
Surgery	Approval	77058 Magnetic resonance imaging, breast, without and/or with contrast material(s); unilateral	This is a request for Breast MRI.; This study is being ordered as a screening examination for known family history of breast cancer.; There is a pattern of breast cancer history in at least two first-degree relatives (parent, sister, brother, or children).	3
Surgery	Approval	77058 Magnetic resonance imaging, breast, without and/or with contrast material(s); unilateral	This is a request for Breast MRI.; This study is being ordered for a known history of breast cancer.; No, this is not an individual who has known breast cancer in the contralateral (other) breast.; Yes, this is a confirmed breast cancer.; Yes, the results of this MRI (size and shape of tumor) affect the patient's further management.	5
Surgery	Approval	77058 Magnetic resonance imaging, breast, without and/or with contrast material(s); unilateral	This is a request for Breast MRI.; This study is being ordered for a known history of breast cancer.; Yes, this is an individual who has known breast cancer in the contralateral (other) breast.	4
Surgery	Approval	77058 Magnetic resonance imaging, breast, without and/or with contrast material(s); unilateral	This is a request for Breast MRI.; This study is being ordered for known breast lesions.; There are benign lesions in the breast associated with an increased cancer risk.	5

Surgery	Approval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)	The study is being ordered for suspected CAD.; The patient is not presenting with symptoms of atypical chest pain and/or shortness of breath.; The patient has not had a recent non-nuclear stress test.; The patient had a recent abnormal EKG consistent with CAD.; The patient has not had a recent stress echocardiogram.; The patient has not had a stress echocardiogram within the past eight weeks.; This is a request for Myocardial Perfusion Imaging (Nuclear Cardiology Study).; The patient is female.; This is NOT a Medicare member.; The patient's age is between 45 and 64 years old.	1
Surgery	Approval	78813 Positron emission tomography (PET) imaging; whole body	; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Surgery	Approval	78813 Positron emission tomography (PET) imaging; whole body	Chief Complaint &#x0D; "I have a mass in my chest" &#x0D; &#x0D; &#x0D; History Of Present Illness &#x0D; The patient is a 62 year old Caucasian/White male, who presents on referral from William S. Alexander MD, for a surgical evaluation of a left lung mass found on chest CT and ; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Surgery	Approval	78813 Positron emission tomography (PET) imaging; whole body	This is a request for a Tumor Imaging PET Scan; This study is being ordered for initial treatment (after a diagnosis of Cancer has been made).; This study is being requested for Breast Cancer.; This is for evaluation of axillary lymph nodes.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Surgery	Approval	78813 Positron emission tomography (PET) imaging; whole body	This is a request for a Tumor Imaging PET Scan; This study is being ordered for initial treatment (after a diagnosis of Cancer has been made).; This study is being requested for Colo-rectal Cancer.; This would be the first PET Scan performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1

Surgery	Approval	78813 Positron emission tomography (PET) imaging; whole body	This is a request for a Tumor Imaging PET Scan; This study is being ordered to establish a cancer diagnosis.; There is existing evidence of metastasis or other tumor in the body.; This study is being requested for Head/Neck Cancer.; The patient does NOT have Thyroid or Brain cancer.; This would be the first PET Scan performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Surgery	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body	This is a request for a Tumor Imaging PET Scan; A nodule of less than 4 centimeters has been identified on recent imaging; This study is being ordered to evaluate a solitary pulmonary nodule.; The solitary pulmonary nodule was identified on an imaging study in the last 30 days.; This study is being requested for Lung Cancer.; This would be the first PET Scan performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Surgery	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body	This is a request for a Tumor Imaging PET Scan; This study is being ordered for initial treatment (after a diagnosis of Cancer has been made).; This study is being requested for Colo-rectal Cancer.; This would be the first PET Scan performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	2
Surgery	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body	This is a request for a Tumor Imaging PET Scan; This study is being ordered for subsequent treatment.; This study is being requested for Melanoma.; The study is NOT being ordered after completing a course of treatment initiated in the last 8 weeks or because they are experiencing new signs or symptoms.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Surgery	Approval	S8037 MAGNETIC RESONANCE CHOLANGIOPANCREATOGRAPHY (MRCP)	&lt; Enter answer here - or Type In Unknown If No Info Given. &gt;; This is a request for MRCP.; There is no reason why the patient cannot have an ERCP.	1

Surgery	Approval	S8037 MAGNETIC RESONANCE CHOLANGIOPANCREATOGRAPHY (MRCP)	&lt; Enter answer here - or Type In Unknown If No Info Given. &gt;; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 2 months; There has not been any treatment or conservative therapy.; weight loss and abdomen pain; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Surgery	Approval	S8037 MAGNETIC RESONANCE CHOLANGIOPANCREATOGRAPHY (MRCP)	Dilated intrahepatic bile duct; This is a request for MRCP.; There is no reason why the patient cannot have an ERCP.	1
Surgery	Approval	S8037 MAGNETIC RESONANCE CHOLANGIOPANCREATOGRAPHY (MRCP)	ELEVATED LIVER ENZYMES; This is a request for MRCP.; There is no reason why the patient cannot have an ERCP.	1

Surgery	Approval	S8037 MAGNETIC RESONANCE CHOLANGIOPANCREATOGRAPHY (MRCP)		PT. have history of Hep. C and chrissohis, abdominal US that showed common bile duct , possible obstruction, slightly elevated liver enzymes, rt. upper quad abdominal pain radiating into the back; This is a request for MRCP.; There is a reason why the patient cannot have an ERCP.; The patient has not undergone an unsuccessful ERCP.; The patient does not have an altered biliary tract anatomy that precludes ERCP.; The patient does not require evaluation for a congenital defect of the pancreatic or biliary tract.; It is not known if MRCP will be used to identify a pancreatic or biliary system obstruction that cannot be opened by ERCP.; It is not known if patient is an infant or young child, and not an adult who is debilitated or uncooperative in such a manner that ERCP is unsafe or cannot be performed.; "The patient has neither a documented allergy to iodine-based contrast materials, or a general history of allergic responses."; The patient does not have acute pancreatitis.	1
Surgery	Approval	S8037 MAGNETIC RESONANCE CHOLANGIOPANCREATOGRAPHY (MRCP)		severe rt. upper quad pain , vomiting, nueasua over a month, bowel sound active, not masses, no distension in abnormal liver normal, gall bladder has been removed; This is a request for MRCP.; There is no reason why the patient cannot have an ERCP.	1
Surgery	Approval	S8037 MAGNETIC RESONANCE CHOLANGIOPANCREATOGRAPHY (MRCP)		This is a request for MRCP.; There is a reason why the patient cannot have an ERCP.; The patient has not undergone an unsuccessful ERCP.; The patient has an altered biliary tract anatomy that precludes ERCP.	1
Surgery	Disapproval	70486 Computed tomography, maxillofacial area; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for a Sinus CT.; This study is being ordered for sinusitis.; The patient is NOT immune-compromised.; The patient's current rhinosinusitis symptoms are described as Recurrent Acute Rhinosinusitis (4 or more acute episodes per year); Yes this is a request for a Diagnostic CT	1

Surgery	Disapproval	70490 Computed tomography, soft tissue neck; without contrast material	Radiology Services Denied Not Medically Necessary	&lt; Enter answer here - or Type In Unknown If No Info Given. &gt;; This is a request for neck soft tissue CT.; The patient has a neck lump or mass.; There is a palpable neck mass or lump.; The size of the neck mass is unknown.; The neck mass has been examined twice at least 30 days apart.; The lump did not get smaller.; A fine needle aspirate was NOT done.; Yes this is a request for a Diagnostic CT	1
Surgery	Disapproval	70490 Computed tomography, soft tissue neck; without contrast material	Radiology Services Denied Not Medically Necessary	Wound infection after surgery, sequela; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 08/02/2017; There has not been any treatment or conservative therapy.; Recurrent abscess; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	2
Surgery	Disapproval	70498 Computed tomographic angiography, neck, with contrast material(s), including noncontrast images, if performed, and image postprocessing	Radiology Services Denied Not Medically Necessary	Yes, this is a request for CT Angiography of the Neck.	1
Surgery	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	&lt; Enter answer here - or Type In Unknown If No Info Given. &gt;; This study is being ordered for a neurological disorder.; 2 OR 3 MONTHS AGO; There has been treatment or conservative therapy.; PAIN; EDG; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

Surgery	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	Abnormal finding on examination of the chest, chest wall and or lungs describes the reason for this request.; This is a request for a Chest CT.; Yes this is a request for a Diagnostic CT	2
Surgery	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	Abnormal imaging test describes the reason for this request.; This is a request for a Chest CT.; Yes this is a request for a Diagnostic CT	1
Surgery	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	Patient has history of paraesophageal hernia repair, cholecystectomy, and recent negative EGD. She had negative troponin, cxr, and ckmb. "The patient may also need a contrasted CT scan of her abdomen and lower chest to evaluate for the pain. Appeared; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; December 2017; There has been treatment or conservative therapy.; chest pain, abdominal pain, nausea, emesis; patient had negative egd on 2/9/2018. she went to ED on 12/20/2017. she had negative CXR, troponin, and ckmb; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Surgery	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	Post-operative evaluation describes the reason for this request.; This is a request for a Chest CT.; Yes this is a request for a Diagnostic CT	1

Surgery	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	to investigate edenopathy; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 02/15/2018; There has not been any treatment or conservative therapy.; swelling, difficulty swallowing solid foods. thyroid nodule 8x5x8 ml.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Surgery	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	unknown; This study is being ordered for a metastatic disease.; There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Surgery	Disapproval	72125 Computed tomography, cervical spine; without contrast material	Radiology Services Denied Not Medically Necessary	ENLARGING RIGHT SUBMANDIBULAR TISSUE IN LAST COUPLE OF MONTHS AND WAS TREATED WITH ANTIBIOTIC WITH SOME IMPROVEMENT; This study is being ordered for a metastatic disease.; There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

Surgery	Disapproval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	Radiology Services Denied Not Medically Necessary	BACK TENDERNESS.; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; BACK TENDERNESS; It is not known if there has been any treatment or conservative therapy.; BACK TENDERNESS; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Surgery	Disapproval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	Radiology Services Denied Not Medically Necessary	unknown; This study is being ordered for trauma or injury.; 01/17/2018; There has not been any treatment or conservative therapy.; patient is having pain, inflammation, crepitus.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Surgery	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	BACK PAIN; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; It is not known if there is weakness or reflex abnormality.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	1

Surgery	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	BACK TENDERNESS.; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; BACK TENDERNESS; It is not known if there has been any treatment or conservative therapy.; BACK TENDERNESS; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Surgery	Disapproval	72192 Computed tomography, pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	Suspected Hurnia; This study is being ordered for some other reason than the choices given.; This is a request for a Pelvis CT.; Yes this is a request for a Diagnostic CT	1
Surgery	Disapproval	72196 Magnetic resonance (eg, proton) imaging, pelvis; with contrast material(s)	Radiology Services Denied Not Medically Necessary	PELVIC PAIN; This is a request for a Pelvis MRI.; The study is being ordered for something other than suspicion of tumor, mass, neoplasm, metastatic disease, PID, abscess, Evaluation of the pelvis prior to surgery or laparoscopy, Suspicion of joint or bone infect	1
Surgery	Disapproval	73220 Magnetic resonance (eg, proton) imaging, upper extremity, other than joint; without contrast material(s), followed by contrast material(s) and further sequences	Radiology Services Denied Not Medically Necessary	She cannot take anti-inflammatories due to the GI reaction, including topicals.; This study is being ordered for Inflammatory/ Infectious Disease.; About a year ago; It is not known if there has been any treatment or conservative therapy.; Greater than 1 year history of this right dorsal hand and wrist pain, that is now radiating up proximal to the elbow. Wakes her up at night and use to have numbness and tingling in the fingers but that has improved as time is gone, but not resolved. She f; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

Surgery	Disapproval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Radiology Services Denied Not Medically Necessary	She cannot take anti-inflammatories due to the GI reaction, including topicals.; This study is being ordered for Inflammatory/ Infectious Disease.; About a year ago; It is not known if there has been any treatment or conservative therapy.; Greater than 1 year history of this right dorsal hand and wrist pain, that is now radiating up proximal to the elbow. Wakes her up at night and use to have numbness and tingling in the fingers but that has improved as time is gone, but not resolved. She f; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Surgery	Disapproval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Radiology Services Denied Not Medically Necessary	This is a request for an upper extremity joint MRI.; The patient does not have documented weakness or partial loss of feeling in the upper extremity.; There is no history of significant trauma, dislocation or injury to the joint within the past 6 weeks.; The patient does not have an abnormal plain film study of the joint.; The patient has been treated with and failed a course of four weeks of supervised physical therapy.; The patient does not have a documented limitation of their range of motion.; The patient has experienced pain for greater than six weeks.	1
Surgery	Disapproval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	Radiology Services Denied Not Medically Necessary	unknown; This study is being ordered for trauma or injury.; 01/17/2018; There has not been any treatment or conservative therapy.; patient is having pain, inflammation, crepitus.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

Surgery	Disapproval	73721 Magnetic resonance (eg, proton) imaging, any joint of lower extremity; without contrast material	Radiology Services Denied Not Medically Necessary	hip pain; This study is being ordered for Inflammatory/ Infectious Disease.; approximately 11/2017. r/o inflammatory infectious disease due to severe hip pain.; There has been treatment or conservative therapy.; Left hip/leg pain when moving. pain causes pt to drop to his knees; Prescribed and OTC pain medication; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	2
Surgery	Disapproval	74150 Computed tomography, abdomen; without contrast material	Radiology Services Denied Not Medically Necessary	&lt; Enter answer here - or Type In Unknown If No Info Given. &gt;; This study is being ordered for a neurological disorder.; 2 OR 3 MONTHS AGO; There has been treatment or conservative therapy.; PAIN; EDG; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Surgery	Disapproval	74150 Computed tomography, abdomen; without contrast material	Radiology Services Denied Not Medically Necessary	RUQ PAIN, SUDDEN ONSET. MILD TO MODERATE INTENSITY, PAIN FOR THE PAST 4 YEARS, SHARP IN NATURE, NON-RADIATING, NO BACK PAIN, NO CHEST PAIN, NO FLANK PAIN, HURTS WHEN BENDING OVER. NO DYSPNEA, NO TRAUMA, NO NAUSEA AND; This is a request for an Abdomen CT.; This study is being ordered for another reason besides Kidney/Ureteral stone, &#x0D; Known Tumor, Cancer, Mass, or R/O metastases, Suspicious Mass or Tumor, Organ Enlargement, &#x0D; Known or suspected infection such as pancreatitis, etc..; There are no findings of Hematuria, Lymphadenopathy,weight loss,abdominal pain,diabetic patient with gastroparesis; Yes this is a request for a Diagnostic CT	1

Surgery	Disapproval	74175 Computed tomographic angiography, abdomen, with contrast material(s), including noncontrast images, if performed, and image postprocessing	Radiology Services Denied Not Medically Necessary	Yes, this is a request for CT Angiography of the abdomen.	1
Surgery	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	&lt; Enter answer here - or Type In Unknown If No Info Given. &gt;; This is a request for an abdomen-pelvis CT combination.; A urinalysis has not been completed.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; It is unknown if the patient had an Amylase or Lipase lab test.; Yes this is a request for a Diagnostic CT	1
Surgery	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	&lt; Enter answer here - or Type In Unknown If No Info Given. &gt;; This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is female.; A pelvic exam was NOT performed.; Yes this is a request for a Diagnostic CT	1
Surgery	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	&lt; Enter answer here - or Type In Unknown If No Info Given. &gt;; This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is female.; A pelvic exam was performed.; The results of the exam were normal.; The patient had an Ultrasound.; The Ultrasound was abnormal.; The ultrasound showed a pelvic mass.; Yes this is a request for a Diagnostic CT	1

Surgery	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	; This is a request for an abdomen-pelvis CT combination.; A urinalysis has not been completed.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; The patient did not have a amylase or lipase lab test.; Yes this is a request for a Diagnostic CT	1
Surgery	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	; This is a request for an abdomen-pelvis CT combination.; The reason for the study is suspicious mass or suspected tumor or metastasis.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; The patient did NOT have an abnormal abdominal Ultrasound, CT or MR study.; Yes this is a request for a Diagnostic CT	1
Surgery	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	; This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is male.; A rectal exam was performed.; The results of the exam were normal.; The patient did not have an Ultrasound.; Yes this is a request for a Diagnostic CT	1
Surgery	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	Open abdominal wall wound and mass.; This is a request for an abdomen-pelvis CT combination.; A urinalysis has not been completed.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; The patient did not have a amylase or lipase lab test.; Yes this is a request for a Diagnostic CT	1

Surgery	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	Patient has a left inguinal hernia and possibly one on the right. Patient is needing a CT of the abdomen and pelvis to rule out other etiologies. Patient has been having pain for about 4 week. He was lifting his kids when the pain started.; This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is male.; A rectal exam was not performed.; Yes this is a request for a Diagnostic CT	1
Surgery	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	Patient has nausea, vomiting, upper gastric pain, acid reflux, and constipation. Symptoms have gone of for 2 months. This is not gall bladder related. No chest pain or murmurs. No bloody stools. No rash or lesions. No numbness or seizures. No signs of her; This is a request for an abdomen-pelvis CT combination.; It is not known if a urinalysis has been completed.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; It is unknown if the patient had an Amylase or Lipase lab test.; Yes this is a request for a Diagnostic CT	1
Surgery	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	Pt has complained of groin/pelvic pain for more than 6 months. Has been on several medications with no help. Ct needed to further evaluate for possible lesion.; This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is male.; A rectal exam was performed.; The results of the exam were abnormal.; Yes this is a request for a Diagnostic CT	1

Surgery	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	Rule out kidney stones; This is a request for an abdomen-pelvis CT combination.; A urinalysis has not been completed.; This study is being requested for abdominal and/or pelvic pain.; It is not known if the pain is acute or chronic.; This is the first visit for this complaint.; It is unknown if the patient had an Amylase or Lipase lab test.; Yes this is a request for a Diagnostic CT	1
Surgery	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	study is to R/o a blood clot from a recent amputation; This is a request for an abdomen-pelvis CT combination.; A urinalysis has been completed.; This study is being requested for abdominal and/or pelvic pain.; The results of the urinalysis were normal.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; The patient did not have a amylase or lipase lab test.; Yes this is a request for a Diagnostic CT	1
Surgery	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; A urinalysis has been completed.; This study is being requested for abdominal and/or pelvic pain.; The results of the urinalysis were normal.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; It is unknown if the patient had an Amylase or Lipase lab test.; Yes this is a request for a Diagnostic CT	1
Surgery	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; A urinalysis has been completed.; This study is being requested for abdominal and/or pelvic pain.; The results of the urinalysis were normal.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; The patient had an amylase lab test.; The results of the lab test were normal.; Yes this is a request for a Diagnostic CT	1

Surgery	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; A urinalysis has not been completed.; This study is being requested for abdominal and/or pelvic pain.; It is not known if the pain is acute or chronic.; This is the first visit for this complaint.; It is unknown if the patient had an Amylase or Lipase lab test.; Yes this is a request for a Diagnostic CT	1
Surgery	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; A urinalysis has not been completed.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for acute pain.; There has not been a physical exam.; The patient did not have a amylase or lipase lab test.; Yes this is a request for a Diagnostic CT	1
Surgery	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; A urinalysis has not been completed.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; It is unknown if the patient had an Amylase or Lipase lab test.; Yes this is a request for a Diagnostic CT	6
Surgery	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; A urinalysis has not been completed.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; The patient did not have a amylase or lipase lab test.; Yes this is a request for a Diagnostic CT	10
Surgery	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; A urinalysis has not been completed.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; The patient had an amylase lab test.; The results of the lab test were normal.; Yes this is a request for a Diagnostic CT	2

Surgery	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; It is not known if a urinalysis has been completed.; This study is being requested for abdominal and/or pelvic pain.; It is not known if the pain is acute or chronic.; This is the first visit for this complaint.; It is unknown if the patient had an Amylase or Lipase lab test.; Yes this is a request for a Diagnostic CT	1
Surgery	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; It is not known if a urinalysis has been completed.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for acute pain.; It is unknown if there has been a physical exam.; It is unknown if the patient had an Amylase or Lipase lab test.; Yes this is a request for a Diagnostic CT	1
Surgery	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; It is not known if a urinalysis has been completed.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; It is unknown if the patient had an Amylase or Lipase lab test.; Yes this is a request for a Diagnostic CT	6
Surgery	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; The reason for the study is infection.; The patient does not have a fever and elevated white blood cell count or abnormal amylase/lipase.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; It is unknown if the patient has Crohn's Disease, Ulcerative Colitis or Diverticulitis.; Yes this is a request for a Diagnostic CT	1
Surgery	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; The reason for the study is none of the listed reasons.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; Yes this is a request for a Diagnostic CT	3

Surgery	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; The reason for the study is suspicious mass or suspected tumor or metastasis.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; The patient did NOT have an abnormal abdominal Ultrasound, CT or MR study.; Yes this is a request for a Diagnostic CT	1
Surgery	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for acute pain.; There has been a physical exam.; The patient is female.; A pelvic exam was NOT performed.; Yes this is a request for a Diagnostic CT	2
Surgery	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for acute pain.; There has been a physical exam.; The patient is female.; It is not known if a pelvic exam was performed.; Yes this is a request for a Diagnostic CT	1
Surgery	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for acute pain.; There has been a physical exam.; The patient is male.; A rectal exam was not performed.; Yes this is a request for a Diagnostic CT	1
Surgery	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for acute pain.; There has been a physical exam.; The patient is male.; A rectal exam was performed.; The results of the exam are unknown.; Yes this is a request for a Diagnostic CT	1

Surgery	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for acute pain.; There has been a physical exam.; The patient is male.; A rectal exam was performed.; The results of the exam were normal.; The patient had an Ultrasound.; The Ultrasound was normal.; A contrast/barium x-ray has NOT been completed.; The patient did not have an endoscopy.; Yes this is a request for a Diagnostic CT	1
Surgery	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is female.; A pelvic exam was NOT performed.; Yes this is a request for a Diagnostic CT	6
Surgery	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is female.; A pelvic exam was performed.; The results of the exam are unknown.; Yes this is a request for a Diagnostic CT	1
Surgery	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is female.; A pelvic exam was performed.; The results of the exam were abnormal.; Yes this is a request for a Diagnostic CT	1
Surgery	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is female.; It is not known if a pelvic exam was performed.; Yes this is a request for a Diagnostic CT	4

Surgery	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is male.; A rectal exam was not performed.; Yes this is a request for a Diagnostic CT	2
Surgery	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is male.; A rectal exam was performed.; The results of the exam were normal.; The patient had an Ultrasound.; The Ultrasound was normal.; A contrast/barium x-ray has NOT been completed.; The patient did not have an endoscopy.; Yes this is a request for a Diagnostic CT	1
Surgery	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is male.; It is not known if a rectal exam was performed.; Yes this is a request for a Diagnostic CT	1
Surgery	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	unknown; This is a request for an abdomen-pelvis CT combination.; A urinalysis has been completed.; This study is being requested for abdominal and/or pelvic pain.; The results of the urinalysis were normal.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; It is unknown if the patient had an Amylase or Lipase lab test.; Yes this is a request for a Diagnostic CT	1

Surgery	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	unknown; This is a request for an abdomen-pelvis CT combination.; It is not known if a urinalysis has been completed.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; It is unknown if the patient had an Amylase or Lipase lab test.; Yes this is a request for a Diagnostic CT	1
Surgery	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	unknown; This study is being ordered for a metastatic disease.; There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Surgery	Disapproval	74263 Computed tomographic (CT) colonography, screening, including image postprocessing	Radiology Services Denied Not Medically Necessary	This is a request for CT Colonoscopy for screening purposes only.	1
Surgery	Disapproval	77058 Magnetic resonance imaging, breast, without and/or with contrast material(s); unilateral	Radiology Services Denied Not Medically Necessary	Ms. Parnell is a 44-year-old female, who is on followup for breast pain. Seen on 11/29/2017. Mammograms in August and ultrasound just showing a left-sided breast cyst that was small. Describes periodic breast achiness in the left upper outer quadrant o; This is a request for Breast MRI.; This study is being ordered as a screening examination for known family history of breast cancer.; There are NOT benign lesions in the breast associated with an increased cancer risk.; There is NOT a pattern of breast cancer history in at least two first-degree relatives (parent, sister, brother, or children).	1
Surgery	Disapproval	78813 Positron emission tomography (PET) imaging; whole body	Radiology Services Denied Not Medically Necessary	This is a request for a Tumor Imaging PET Scan; This study is being ordered for initial treatment (after a diagnosis of Cancer has been made).; This study is being requested for Breast Cancer.; It is unknown if this is for an evaluation of axillary lymph nodes.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1

Surgery	Disapproval	S8037 MAGNETIC RESONANCE CHOLANGIOPANCREATOGRAPHY (MRCP)	Radiology Services Denied Not Medically Necessary	patient has elevated liver function test, epigastric pain and chest pain; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Surgical Oncology	Approval	70450 Computed tomography, head or brain; without contrast material		There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Surgical Oncology	2
Surgical Oncology	Approval	70490 Computed tomography, soft tissue neck; without contrast material		There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Surgical Oncology	1
Surgical Oncology	Approval	70490 Computed tomography, soft tissue neck; without contrast material		This is a request for neck soft tissue CT.; The study is being ordered for Initial Staging.; The patient has a known tumor or metastasis in the neck.; Yes this is a request for a Diagnostic CT	1
Surgical Oncology	Approval	70490 Computed tomography, soft tissue neck; without contrast material		This is a request for neck soft tissue CT.; There has not been recent trauma or other injury to the neck.; There is suspicion of or known tumor, metastasis, lymphadenopathy, or mass.; Yes this is a request for a Diagnostic CT	1
Surgical Oncology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Requested for evaluation of tumor; A biopsy has been completed to determine tumor tissue type.	1
Surgical Oncology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material		This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; This study is being ordered for a tumor.	1

Surgical Oncology	Approval	71250 Computed tomography, thorax; without contrast material	; A Chest/Thorax CT is being ordered.; This study is being ordered for screening of lung cancer.; The patient is between 55 and 80 years old.; This patient is a smoker or has a history of smoking.; The patient has a 30 pack per year history of smoking.; The patient did NOT quit smoking in the past 15 years.; The patient has signs or symptoms suggestive of lung cancer such as an unexplained cough, coughing up blood, unexplained weight loss or other condition.; The patient has NOT had a Low Dose CT for Lung Cancer Screening or a Chest CT in the past 11 months.; Yes this is a request for a Diagnostic CT	1
Surgical Oncology	Approval	71250 Computed tomography, thorax; without contrast material	A Chest/Thorax CT is being ordered.; This study is being ordered for known tumor.; Yes this is a request for a Diagnostic CT	1
Surgical Oncology	Approval	71250 Computed tomography, thorax; without contrast material	Abnormal imaging test describes the reason for this request.; This is a request for a Chest CT.; Yes this is a request for a Diagnostic CT	2
Surgical Oncology	Approval	71250 Computed tomography, thorax; without contrast material	Chest pain describes the reason for this request.; Known tumor and new symptoms involving the chest, chest wall, lung or pelvis is related to this request for imaging of a known cancer or tumor; This is a request for a Chest CT.; This study is beign requested for known cancer or tumor; Yes this is a request for a Diagnostic CT	1
Surgical Oncology	Approval	71250 Computed tomography, thorax; without contrast material	'None of the above' describes the reason for this request.; Known tumor and new symptoms involving the chest, chest wall, lung or pelvis is related to this request for imaging of a known cancer or tumor; This is a request for a Chest CT.; This study is beign requested for known cancer or tumor; Yes this is a request for a Diagnostic CT	1
Surgical Oncology	Approval	71250 Computed tomography, thorax; without contrast material	'None of the above' describes the reason for this request.; Restaging during ongoing treatment is related to this request for imaging of a known cancer or tumor; This is a request for a Chest CT.; This study is beign requested for known cancer or tumor; Yes this is a request for a Diagnostic CT	1

Surgical Oncology	Approval	71250 Computed tomography, thorax; without contrast material	'None of the above' describes the reason for this request.; Surveillance of a known cancer following treatment is related to this request for imaging of a known cancer or tumor; This is a request for a Chest CT.; This study is beign requested for known cancer or tumor; Yes this is a request for a Diagnostic CT	4
Surgical Oncology	Approval	71250 Computed tomography, thorax; without contrast material	Post-operative evaluation describes the reason for this request.; This is a request for a Chest CT.; Yes this is a request for a Diagnostic CT	1
Surgical Oncology	Approval	71250 Computed tomography, thorax; without contrast material	There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Surgical Oncology	26
Surgical Oncology	Approval	71250 Computed tomography, thorax; without contrast material	There are 3 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Surgical Oncology	1
Surgical Oncology	Approval	71250 Computed tomography, thorax; without contrast material	There is a known tumor.; Surgery is scheduled within the next 30 days.; A Chest/Thorax CT is being ordered.; The patient is NOT having an operation on the chest or lungs.; The study is being ordered for none of the above.; This study is being ordered for a pre-operative evaluation.; Yes this is a request for a Diagnostic CT	1
Surgical Oncology	Approval	72196 Magnetic resonance (eg, proton) imaging, pelvis; with contrast material(s)	There are 3 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Surgical Oncology	1
Surgical Oncology	Approval	72196 Magnetic resonance (eg, proton) imaging, pelvis; with contrast material(s)	This is a request for a Pelvis MRI.; Surgery is planned for within 30 days.; The study is being ordered for Evaluation of the pelvis prior to surgery or laparoscopy.	1
Surgical Oncology	Approval	72196 Magnetic resonance (eg, proton) imaging, pelvis; with contrast material(s)	This is a request for a Pelvis MRI.; The request is for suspicion of pelvic inflammatory disease or abscess.	1
Surgical Oncology	Approval	72196 Magnetic resonance (eg, proton) imaging, pelvis; with contrast material(s)	This is a request for a Pelvis MRI.; The request is for suspicion of tumor, mass, neoplasm, or metastatic disease?	2

Surgical Oncology	Approval	73220 Magnetic resonance (eg, proton) imaging, upper extremity, other than joint; without contrast material(s), followed by contrast material(s) and further sequences	The request is for an upper extremity non-joint MRI.; This is a preoperative or recent postoperative evaluation.	1
Surgical Oncology	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	The requested study is a Shoulder MRI.; The pain is from a known mass.; The diagnosis of Mass, Tumor, or Cancer has been established.; The study is requested for staging.; The request is for shoulder pain.	1
Surgical Oncology	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Surgical Oncology	1
Surgical Oncology	Approval	73700 Computed tomography, lower extremity; without contrast material	There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Surgical Oncology	1
Surgical Oncology	Approval	73700 Computed tomography, lower extremity; without contrast material	This is a request for a Lower Extremity CT.; This is a preoperative or recent postoperative evaluation.; Yes this is a request for a Diagnostic CT	1
Surgical Oncology	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Surgical Oncology This is a request for a lower extremity MRI.; There is a pulsatile mass.; "There is evidence of tumor or mass from a previous exam, plain film, ultrasound, or previous CT or MRI."; There is not a suspicion of an infection.; The patient is taking antibiotics.; This is not a study for a fracture which does not show healing (non-union fracture).; This is a pre-operative study for planned surgery.	1
Surgical Oncology	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences		1

Surgical Oncology	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	This is a request for a lower extremity MRI.; This is not a pulsatile mass.; "There is evidence of tumor or mass from a previous exam, plain film, ultrasound, or previous CT or MRI."	2
Surgical Oncology	Approval	73721 Magnetic resonance (eg, proton) imaging, any joint of lower extremity; without contrast material	This is a requests for a hip MRI.; This study is not being ordered in conjunction with a pelvic MRI.; "There is no a history (within the last six months) of significant trauma, dislocation, or injury to the hip."; There is not a suspicion of AVN.; The patient is not receiving long-term steroid therapy (Prednisone or Cortisone).; The patient had an abnormal plain film study of the hip other than arthritis.; The patient has not used a cane or crutches for greater than four weeks.; The patient has not been treated with and failed a course of supervised physical therapy.; There is a mass near the hip.; The patient does not have a documented limitation of their range of motion.	1
Surgical Oncology	Approval	74150 Computed tomography, abdomen; without contrast material	There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Surgical Oncology	2
Surgical Oncology	Approval	74150 Computed tomography, abdomen; without contrast material	This is a request for an Abdomen CT.; This study is being ordered as a pre-op or post op evaluation.; The requested study is for post-operative evaluation.; The requested study is a first follow up study for a post operative complication.; Yes this is a request for a Diagnostic CT	1
Surgical Oncology	Approval	74150 Computed tomography, abdomen; without contrast material	This is a request for an Abdomen CT.; This study is being ordered for a known tumor, cancer, mass, or rule out metastases.; Yes, this is a request for follow up to a known tumor or abdominal cancer.; Yes this is a request for a Diagnostic CT	1

Surgical Oncology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	6 month follow up; This is a request for an abdomen-pelvis CT combination.; The reason for the study is suspicious mass or suspected tumor or metastasis.; It is not known if this study is being requested for abdominal and/or pelvic pain.; It is not known if the study is requested for hematuria.; The patient did NOT have an abnormal abdominal Ultrasound, CT or MR study.; Yes this is a request for a Diagnostic CT	1
Surgical Oncology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Surgical Oncology	20
Surgical Oncology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	There are 3 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Surgical Oncology	1
Surgical Oncology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	This is a request for an abdomen-pelvis CT combination.; The reason for the study is known tumor.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; Yes this is a request for a Diagnostic CT	2
Surgical Oncology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	This is a request for an abdomen-pelvis CT combination.; The reason for the study is pre-op or post op evaluation.; The study is requested for post-op evaluation.; The study is requested as a first follow up study for a suspected or known post-op complication.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; Yes this is a request for a Diagnostic CT	1
Surgical Oncology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; The patient had an amylase lab test.; The results of the lab test were abnormal.; Yes this is a request for a Diagnostic CT	1

Surgical Oncology	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)	This request is for an Abdomen MRI.; This study is being ordered for Known Tumor.; The patient is not presenting new symptoms.; The patient has had 4 or more follow-up abdomen MRIs.; The last abdomen MRI was performed more than 6 months ago.; This study is being ordered for follow-up.; The patient is not undergoing active treatment for cancer.; "The ordering physician is an oncologist, urologist, gastroenterologist, or surgeon."; MRI abdomen performed 2/9/2017 IMPRESSION: The previously described lesions within the liver are grossly unchanged; in size and enhancing characteristics from the prior study. As described, these lesions demonstrate early arterial enhancement; per	1
Surgical Oncology	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)	This request is for an Abdomen MRI.; This study is being ordered for Known Tumor.; This study is being ordered for follow-up.; The patient is undergoing active treatment for cancer.; "The ordering physician is an oncologist, urologist, gastroenterologist, or surgeon.";	3
Surgical Oncology	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)	This request is for an Abdomen MRI.; This study is being ordered for Known Tumor.; This study is being ordered for staging.	1
Surgical Oncology	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)	This request is for an Abdomen MRI.; This study is being ordered for pre-operative evaluation.; "The ordering physician is an oncologist, urologist, gastroenterologist, or surgeon."; Imaging ordered prior to liver resection to be done on 2/14/2018 for metastatic liver disease. Prior cancer is colon.	1
Surgical Oncology	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)	This request is for an Abdomen MRI.; This study is being ordered for suspicious mass or suspected tumor/metastasis.; "There are documented physical findings (painless hematuria, etc.) consistent with an abdominal mass or tumor."; "The patient has had an abdominal ultrasound, CT, or MR study."; Restaging, previous MRI: 5 mm foci seen in the region of the neck of the pancreas.	1

Surgical Oncology	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)	This request is for an Abdomen MRI.; This study is being ordered for suspicious mass or suspected tumor/metastasis.; "There are no documented physical findings (painless hematuria, etc.) consistent with an abdominal mass or tumor."; "The patient has had an abdominal ultrasound, CT, or MR study."; Further evaluation needed prior to further treatment planning.	1
Surgical Oncology	Approval	77058 Magnetic resonance imaging, breast, without and/or with contrast material(s); unilateral	This is a request for Breast MRI.; This study is being ordered as a screening examination following genetic testing for breast cancer.; The patient has a lifetime risk score of greater than 20.	4
Surgical Oncology	Approval	77058 Magnetic resonance imaging, breast, without and/or with contrast material(s); unilateral	This is a request for Breast MRI.; This study is being ordered as a screening examination for known family history of breast cancer.; There is a pattern of breast cancer history in at least two first-degree relatives (parent, sister, brother, or children).	5
Surgical Oncology	Approval	77058 Magnetic resonance imaging, breast, without and/or with contrast material(s); unilateral	This is a request for Breast MRI.; This study is being ordered for a known history of breast cancer.; No, this is not an individual who has known breast cancer in the contralateral (other) breast.; Yes, this is a confirmed breast cancer.; Yes, the results of this MRI (size and shape of tumor) affect the patient's further management.	6
Surgical Oncology	Approval	77058 Magnetic resonance imaging, breast, without and/or with contrast material(s); unilateral	This is a request for Breast MRI.; This study is being ordered for a known history of breast cancer.; Yes, this is an individual who has known breast cancer in the contralateral (other) breast.	2
Surgical Oncology	Approval	77058 Magnetic resonance imaging, breast, without and/or with contrast material(s); unilateral	This is a request for Breast MRI.; This study is being ordered for known breast lesions.; There are benign lesions in the breast associated with an increased cancer risk.	1

Surgical Oncology	Approval	77058 Magnetic resonance imaging, breast, without and/or with contrast material(s); unilateral	This patient had a mammogram with heterogeneously dense breast tissue that could obscure small masses. The area of clinic concern was diffuse skin changes and skin thickening of the left breast. Aspiration was performed in office on the underlying tissue ; This is a request for Breast MRI.; This study is being ordered for something other than known breast cancer, known breast lesions, screening for known family history, screening following genetic testing or a suspected implant rupture.	1
Surgical Oncology	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body	There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Surgical Oncology	1
Surgical Oncology	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body	This is a request for a Tumor Imaging PET Scan; This is a Medicare member.; This study is being requested for None of the above; This Pet Scan is being ordered for Breast Cancer; This request is for the initial diagnosis and/or initial staging of axillary lymph nodes; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Surgical Oncology	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body	This is a request for a Tumor Imaging PET Scan; This study is being ordered for initial treatment (after a diagnosis of Cancer has been made).; This study is being requested for Lung Cancer.; This would be the first PET Scan performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1

Surgical Oncology	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body	This is a request for a Tumor Imaging PET Scan; This study is being ordered for something other than Breast CA, Lymphoma, Myeloma, Ovarian CA, Esophageal CA, Lung CA, Colorectal CA, Head/Neck CA, Melanoma, Soft Tissue Sarcoma, Pancreatic CA or Testicular CA.; This study is not being ordered for Cervical CA, Brain Cancer/Tumor or Mass, Thyroid CA or other solid tumor.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Surgical Oncology	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body	This is a request for a Tumor Imaging PET Scan; This study is being ordered for subsequent treatment.; This study is being requested for Melanoma.; The patient completed a course of treatment initiated within the last 8 weeks.; 1 PET Scans has already been performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Surgical Oncology	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body	This is a request for a Tumor Imaging PET Scan; This study is being ordered to establish a cancer diagnosis.; This study is being requested for Melanoma.; This is for evaluation of regional lymph nodes.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Surgical Oncology	Approval	G0297 LOW DOSE CT SCAN FOR LUNG CANCER SCREENING	This request is for a Low Dose CT for Lung Cancer Screening.; This patient has NOT had a Low Dose CT for Lung Cancer Screening in the past 11 months.; The patient is between 55 and 80 years old.; This patient is a smoker or has a history of smoking.; The patient has a 30 pack per year history of smoking.; The patient is NOT presenting with pulmonary signs or symptoms of lung cancer nor are there other diagnostic test suggestive of lung cancer.; The patient has not quit smoking.	2

Surgical Oncology	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	<p>; This study is being ordered for a metastatic disease.; There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology</p> <p>Abnormal finding on examination of the chest, chest wall and or lungs describes the reason for this request.;</p>	1
Surgical Oncology	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	<p>This is a request for a Chest CT.; Yes this is a request for a Diagnostic CT</p> <p>'None of the above' describes the reason for this request.; Initial staging prior to treatment is related to this request for imaging of a known cancer or tumor; This is a request for a Chest CT.; This study is beign requested</p>	1
Surgical Oncology	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	<p>for known cancer or tumor; Yes this is a request for a Diagnostic CT</p>	1
Surgical Oncology	Disapproval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Radiology Services Denied Not Medically Necessary	<p>The requested study is a Shoulder MRI.; Study being ordered due to trauma within past 72 hours.; It is not known if the patient has had recent plain films of the shoulder.;</p>	1
Surgical Oncology	Disapproval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	Radiology Services Denied Not Medically Necessary	<p>; This study is being ordered for a metastatic disease.; There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology</p>	1
Surgical Oncology	Disapproval	77058 Magnetic resonance imaging, breast, without and/or with contrast material(s); unilateral	Radiology Services Denied Not Medically Necessary	<p>This is a request for Breast MRI.; This study is being ordered as a screening examination for known family history of breast cancer.; There is a pattern of breast cancer history in at least two first-degree relatives (parent, sister, brother, or children).</p>	1
Thoracic Surgery	Approval	70498 Computed tomographic angiography, neck, with contrast material(s), including noncontrast images, if performed, and image postprocessing		<p>Yes, this is a request for CT Angiography of the Neck.</p>	4

Thoracic Surgery	Approval	71250 Computed tomography, thorax; without contrast material	Abnormal finding on examination of the chest, chest wall and or lungs describes the reason for this request.; This is a request for a Chest CT.; Yes this is a request for a Diagnostic CT	2
Thoracic Surgery	Approval	71250 Computed tomography, thorax; without contrast material	Abnormal imaging test describes the reason for this request.; This is a request for a Chest CT.; Yes this is a request for a Diagnostic CT	1
Thoracic Surgery	Approval	71250 Computed tomography, thorax; without contrast material	Chest pain describes the reason for this request.; This is a request for a Chest CT.; This study is being requested for Screening of Lung Cancer.; It is unknown if the patient had a Low Dose CT for Lung Cancer Screening or a Chest CT in the past 11 months.; Yes this is a request for a Diagnostic CT	1
Thoracic Surgery	Approval	71250 Computed tomography, thorax; without contrast material	'None of the above' describes the reason for this request.; This study is being requested for 'none of the above'.; This is a request for a Chest CT.; This study is being requested for none of the above.; Yes this is a request for a Diagnostic CT	1
Thoracic Surgery	Approval	71250 Computed tomography, thorax; without contrast material	Plural effusion; A Chest/Thorax CT is being ordered.; The study is being ordered for none of the above.; This study is being ordered for non of the above.; Yes this is a request for a Diagnostic CT	1
Thoracic Surgery	Approval	71250 Computed tomography, thorax; without contrast material	Post-operative evaluation describes the reason for this request.; This is a request for a Chest CT.; Yes this is a request for a Diagnostic CT	1
Thoracic Surgery	Approval	71250 Computed tomography, thorax; without contrast material	Pre-operative evaluation describes the reason for this request.; This is a request for a Chest CT.; Yes this is a request for a Diagnostic CT	2
Thoracic Surgery	Approval	71250 Computed tomography, thorax; without contrast material	There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Thoracic Surgery	2

Thoracic Surgery	Approval	71275 Computed tomographic angiography, chest (noncoronary), with contrast material(s), including noncontrast images, if performed, and image postprocessing	; This study is not requested to evaluate suspected pulmonary embolus.; This study will not be performed in conjunction with a Chest CT.; This study is being ordered for Known Vascular Disease.; It is not known if this is a pre-operative evaluation, post operative evaluation or follow up to a previous angiogram or MR angiogram.; Yes, this is a request for a Chest CT Angiography.	1
Thoracic Surgery	Approval	71275 Computed tomographic angiography, chest (noncoronary), with contrast material(s), including noncontrast images, if performed, and image postprocessing	6 month follow up for Ascending aortic aneurysm,Ascending aorta dilatation.; This study is not requested to evaluate suspected pulmonary embolus.; This study will not be performed in conjunction with a Chest CT.; This study is being ordered for Known Vascular Disease.; It is not known if this is a pre-operative evaluation, post operative evaluation or follow up to a previous angiogram or MR angiogram.; Yes, this is a request for a Chest CT Angiography.	1
Thoracic Surgery	Approval	71275 Computed tomographic angiography, chest (noncoronary), with contrast material(s), including noncontrast images, if performed, and image postprocessing	None; This study is not requested to evaluate suspected pulmonary embolus.; This study will not be performed in conjunction with a Chest CT.; This study is being ordered for Known Vascular Disease.; This is a Follow-up to a previous angiogram or MR angiogram.; There are new signs or symptoms indicative of a dissecting aortic aneurysm.; Yes, this is a request for a Chest CT Angiography.	1
Thoracic Surgery	Approval	71275 Computed tomographic angiography, chest (noncoronary), with contrast material(s), including noncontrast images, if performed, and image postprocessing	There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Thoracic Surgery	1
Thoracic Surgery	Approval	71275 Computed tomographic angiography, chest (noncoronary), with contrast material(s), including noncontrast images, if performed, and image postprocessing	This study is requested to evaluate suspected pulmonary embolus.; Yes, this is a request for a Chest CT Angiography.	1

Thoracic Surgery	Approval	72131 Computed tomography, lumbar spine; without contrast material	There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Thoracic Surgery	1
Thoracic Surgery	Approval	72192 Computed tomography, pelvis; without contrast material	There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Thoracic Surgery	1
Thoracic Surgery	Approval	74150 Computed tomography, abdomen; without contrast material	The reason for the study is suspicious mass or suspected tumor or metastasis. The patient had an abnormal abdominal Ultrasound, CT or MR study.; This is a request for an Abdomen CT.; This study is being ordered for another reason besides Kidney/Ureteral stone, &#x0D; Known Tumor, Cancer, Mass, or R/O metastases, Suspicious Mass or Tumor, Organ Enlargement, &#x0D; Known or suspected infection such as pancreatitis, etc..; There are no findings of Hematuria, Lymphadenopathy,weight loss,abdominal pain,diabetic patient with gastroparesis; Yes this is a request for a Diagnostic CT	1
Thoracic Surgery	Approval	74174 Computed tomographic angiography, abdomen and pelvis, with contrast material(s), including noncontrast images, if performed, and image postprocessing	There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Thoracic Surgery	1
Thoracic Surgery	Approval	74174 Computed tomographic angiography, abdomen and pelvis, with contrast material(s), including noncontrast images, if performed, and image postprocessing	This is a request for CT Angiography of the Abdomen and Pelvis.	4
Thoracic Surgery	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is Thoracic Surgery	2

Thoracic Surgery	Approval	75635 Computed tomographic angiography, abdominal aorta and bilateral iliofemoral lower extremity runoff, with contrast material(s), including noncontrast images, if performed, and image postprocessing		Yes, this is a request for CT Angiography of the abdominal arteries.	9
Thoracic Surgery	Approval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)		&lt; Enter answer here - or Type In Unknown If No Info Given. &gt;; The study is being ordered for known CAD.; The CAD diagnosis was established by something other than, a previous cardiac surgery / angioplasty, a previous MI, congestive heart failure or a previous stress echocardiogram, nuclear cardiology study or a stress EKG.; The patient has not had a stress echocardiogram within the past eight weeks.; This is a request for Myocardial Perfusion Imaging (Nuclear Cardiology Study).; This is NOT a Medicare member.; The patient's age is between 45 and 64 years old.	1
Thoracic Surgery	Approval	93307 Echocardiography, transthoracic, real-time with image documentation (2D), includes M-mode recording, when performed, complete, without spectral or color Doppler echocardiography		This a request for an echocardiogram.; This is a request for a Transthoracic Echocardiogram.; This study is being ordered for Evaluation of Congenital Heart Defect.; This is for evaluation of change of clinical status. Abnormal finding on examination of the chest, chest wall and or lungs describes the reason for this request.;	1
Thoracic Surgery	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for a Chest CT.; Yes this is a request for a Diagnostic CT	1
Thoracic Surgery	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	Abnormal imaging test describes the reason for this request.; This is a request for a Chest CT.; Yes this is a request for a Diagnostic CT	1
Thoracic Surgery	Disapproval	74174 Computed tomographic angiography, abdomen and pelvis, with contrast material(s), including noncontrast images, if performed, and image postprocessing	Radiology Services Denied Not Medically Necessary	This is a request for CT Angiography of the Abdomen and Pelvis.	1

Thoracic Surgery	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for acute pain.; There has been a physical exam.; The patient is male.; A rectal exam was not performed.; Yes this is a request for a Diagnostic CT	1
Unknown	Approval	70450 Computed tomography, head or brain; without contrast material		&lt; Enter answer here - or Type In Unknown If No Info Given. &gt;; This is a request for a brain/head CT.; The study is NOT being requested for evaluation of a headache.; The patient has dizziness.; This study is being ordered for something other than trauma or injury, evaluation of known tumor, stroke or aneurysm, infection or inflammation, multiple sclerosis or seizures.	1
Unknown	Approval	70450 Computed tomography, head or brain; without contrast material		; This study is being ordered for a metastatic disease.; There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Unknown	Approval	70450 Computed tomography, head or brain; without contrast material		Head injury; This is a request for a brain/head CT.; The study is NOT being requested for evaluation of a headache.; The patient has dizziness.; The patient had a recent onset (within the last 4 weeks) of neurologic symptoms.; This study is being ordered for trauma or injury.	1
Unknown	Approval	70450 Computed tomography, head or brain; without contrast material		Patient reports 3 episodes of syncope in the last month with coughing episodes in the last month. The last episode was 1.5 weeks ago.; This is a request for a brain/head CT.; The study is NOT being requested for evaluation of a headache.; The patient does not have dizziness, fatigue or malaise, sudden change in mental status, Bell's palsy, Congenital abnormality, loss of smell, hearing loss or vertigo.; This study is being ordered for something other than trauma or injury, evaluation of known tumor, stroke or aneurysm, infection or inflammation, multiple sclerosis or seizures.	1

Unknown	Approval	70450 Computed tomography, head or brain; without contrast material	This is a request for a brain/head CT.; Changing neurologic symptoms best describes the reason that I have requested this test.	5
Unknown	Approval	70450 Computed tomography, head or brain; without contrast material	This is a request for a brain/head CT.; Known or suspected blood vessel abnormality (AVM, aneurysm) with documented new or changing signs and or symptoms best describes the reason that I have requested this test.; This is NOT a Medicare member.	1
Unknown	Approval	70450 Computed tomography, head or brain; without contrast material	This is a request for a brain/head CT.; Known or suspected TIA (stroke) with documented new or changing neurologic signs and or symptoms best describes the reason that I have requested this test.; This is NOT a Medicare member.	1
Unknown	Approval	70450 Computed tomography, head or brain; without contrast material	This is a request for a brain/head CT.; 'None of the above' best describes the reason that I have requested this test.; None of the above best describes the reason that I have requested this test.	1
Unknown	Approval	70450 Computed tomography, head or brain; without contrast material	This is a request for a brain/head CT.; Recent (in the past month) head trauma with neurologic symptoms/findings best describes the reason that I have requested this test.	1
Unknown	Approval	70450 Computed tomography, head or brain; without contrast material	This is a request for a brain/head CT.; The patient has a history of cancer.; Headache best describes the reason that I have requested this test.	1
Unknown	Approval	70450 Computed tomography, head or brain; without contrast material	This is a request for a brain/head CT.; The patient has a known brain tumor.; Known or suspected tumor best describes the reason that I have requested this test.; There are documented neurologic findings suggesting a primary brain tumor.; This is NOT a Medicare member.	1
Unknown	Approval	70450 Computed tomography, head or brain; without contrast material	This is a request for a brain/head CT.; The study is NOT being requested for evaluation of a headache.; The patient does NOT have a recent onset (within the last 4 weeks) of neurologic symptoms.; This study is being ordered for stroke or aneurysm.; This study is being ordered for a previous stroke or aneurysm.	1

Unknown	Approval	70480 Computed tomography, orbit, sella, or posterior fossa or outer, middle, or inner ear; without contrast material	This is a request for an Internal Auditory Canal CT.; There is a suspected cholesteatoma of the ear.; The patient has not had a recent abnormal auditory brainstem response.; The patient had a recent abnormal brain CT or MRI.; There are neurological symptoms of one-sided hearing loss or sudden onset of ringing in 1 or both ears.; There is a new and sudden onset of one-sided ear pain not improved by pain medications.; The patient has not had a normal brain CT or MRI.; There is a suspected Acoustic Neuroma or tumor of the inner or middle ear.; This is not a pre-operative evaluation for a known tumor of the middle or inner ear.	1
Unknown	Approval	70486 Computed tomography, maxillofacial area; without contrast material	"This request is for face, jaw, mandible CT.239.8"; "There is a history of serious facial bone or skull, trauma or injury.fct"; Yes this is a request for a Diagnostic CT "This request is for face, jaw, mandible CT.239.8"; "There is not a history of serious facial bone or skull, trauma or injury.fct"; "There is suspicion of neoplasm, tumor or metastasis.fct"; Yes this is a request for a Diagnostic CT	2
Unknown	Approval	70486 Computed tomography, maxillofacial area; without contrast material	&lt; Enter answer here - or Type In Unknown If No Info Given. &gt;; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Unknown	Approval	70486 Computed tomography, maxillofacial area; without contrast material	&lt; Enter answer here - or Type In Unknown If No Info Given. &gt;; This study is being ordered for sinusitis.; This is a request for a Sinus CT.; The patient is NOT immune-compromised.; The patient's current rhinosinusitis symptoms are described as Chronic Rhinosinusitis (episode is greater than 12 weeks); Yes this is a request for a Diagnostic CT	1

Unknown	Approval	70486 Computed tomography, maxillofacial area; without contrast material	still with some nose bleeds from the right side. She has been congested. Purulent nasal discharge. Some improvement from Cipro, but not complete resolution. CT scan from 2 years ago showed scattered very mild sinus disease. She has been on nasal steroids.; This study is being ordered for sinusitis.; This is a request for a Sinus CT.; The patient is NOT immune-compromised.; The patient's current rhinosinusitis symptoms are described as Chronic Rhinosinusitis (episode is greater than 12 weeks); Yes this is a request for a Diagnostic CT	1
Unknown	Approval	70486 Computed tomography, maxillofacial area; without contrast material	This is a request for a Sinus CT.; This study is being ordered for sinusitis.; It is unknown if the patient is immune-compromised.; The patient's current rhinosinusitis symptoms are described as (sudden onset of 2 or more symptoms of nasal discharge, blockage or congestion, facial pain, pressure and reduction or loss of sense of smell, which are less than 12 wks in duration); It has been less than 14 days since onset; Yes this is a request for a Diagnostic CT	1
Unknown	Approval	70486 Computed tomography, maxillofacial area; without contrast material	This is a request for a Sinus CT.; This study is being ordered for sinusitis.; The patient is NOT immune-compromised.; The patient's current rhinosinusitis symptoms are described as Chronic Rhinosinusitis (episode is greater than 12 weeks); Yes this is a request for a Diagnostic CT	3
Unknown	Approval	70490 Computed tomography, soft tissue neck; without contrast material	&lt; Enter answer here - or Type In Unknown If No Info Given. &gt;; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Unknown	Approval	70490 Computed tomography, soft tissue neck; without contrast material	&lt; Enter answer here - or Type In Unknown If No Info Given. &gt;; This study is being ordered for a metastatic disease.; There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

Unknown	Approval	70490 Computed tomography, soft tissue neck; without contrast material	; This is a request for neck soft tissue CT.; The patient has a neck lump or mass.; There is a palpable neck mass or lump.; The size of the neck mass is unknown.; The neck mass has NOT been examined twice at least 30 days apart.; Yes this is a request for a Diagnostic CT	1
Unknown	Approval	70490 Computed tomography, soft tissue neck; without contrast material	; This study is being ordered for a metastatic disease.; There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	2
Unknown	Approval	70490 Computed tomography, soft tissue neck; without contrast material	; This study is being ordered for a metastatic disease.; There are 3 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Unknown	Approval	70490 Computed tomography, soft tissue neck; without contrast material	1.8cm cystic structure anterior to trachea found on CT from 12/3/2017. this is a f/u monitoring stability.; This is a request for neck soft tissue CT.; The patient has a neck lump or mass.; There is NOT a palpable neck mass or lump.; Yes this is a request for a Diagnostic CT	1
Unknown	Approval	70490 Computed tomography, soft tissue neck; without contrast material	Enter answer here - or Type In Unlisted CT/MRIUnknown If No Info Given.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Unknown	Approval	70490 Computed tomography, soft tissue neck; without contrast material	RESTAGING ACTIVE LYMPHOMA; This study is being ordered for a metastatic disease.; There are 3 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

Unknown	Approval	70490 Computed tomography, soft tissue neck; without contrast material	SURVEILLANCE; This study is being ordered for a metastatic disease.; There are 4 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Unknown	Approval	70490 Computed tomography, soft tissue neck; without contrast material	This is a request for neck soft tissue CT.; There has not been recent trauma or other injury to the neck.; There is no suspicion of or known tumor, metastasis, lymphadenopathy, or mass.; There is not a suspicion of an infection or abscess.; This is not being ordered by an ENT specialist.; Yes this is a request for a Diagnostic CT This is a request for neck soft tissue CT.; There has not been recent trauma or other injury to the neck.; There is suspicion of or known tumor, metastasis, lymphadenopathy, or mass.; Yes this is a request for a Diagnostic CT	2
Unknown	Approval	70490 Computed tomography, soft tissue neck; without contrast material	&lt; Enter answer here - or Type In Unknown If No Info Given. &gt;; This study is being ordered for a neurological disorder.; 2/23/2018; There has not been any treatment or conservative therapy.; dilated eye; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	7
Unknown	Approval	70496 Computed tomographic angiography, head, with contrast material(s), including noncontrast images, if performed, and image postprocessing	; This study is being ordered for Vascular Disease.; patient had CVA July 2016. Patient is still being treated for CVA but is having unexplained falls and loss of consciousness.; There has been treatment or conservative therapy.; recurrent unexplained falls and loss of consciousness; Rx therapy with Eliquis.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Unknown	Approval	70496 Computed tomographic angiography, head, with contrast material(s), including noncontrast images, if performed, and image postprocessing		1

Unknown	Approval	70496 Computed tomographic angiography, head, with contrast material(s), including noncontrast images, if performed, and image postprocessing	Yes, this is a request for CT Angiography of the brain.	1
Unknown	Approval	70498 Computed tomographic angiography, neck, with contrast material(s), including noncontrast images, if performed, and image postprocessing	&lt; Enter answer here - or Type In Unknown If No Info Given. &gt;; This study is being ordered for a neurological disorder.; 2/23/2018; There has not been any treatment or conservative therapy.; dilated eye; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Unknown	Approval	70498 Computed tomographic angiography, neck, with contrast material(s), including noncontrast images, if performed, and image postprocessing	; This study is being ordered for Vascular Disease.; patient had CVA July 2016. Patient is still being treated for CVA but is having unexplained falls and loss of consciousness.; There has been treatment or conservative therapy.; recurrent unexplained falls and loss of consciousness; Rx therapy with Eliquis.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Unknown	Approval	70498 Computed tomographic angiography, neck, with contrast material(s), including noncontrast images, if performed, and image postprocessing	Yes, this is a request for CT Angiography of the Neck.	3
Unknown	Approval	70540 Magnetic resonance (eg, proton) imaging, orbit, face, and/or neck; without contrast material(s)	This is a request for an Orbit MRI.; There is a history of orbit or face trauma or injury.	1

Unknown	Approval	70544 Magnetic resonance angiography, head; without contrast material(s)	; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Unknown	Approval	70544 Magnetic resonance angiography, head; without contrast material(s)	There is an immediate family history of aneurysm.; This is a request for a Brain MRA.	1
Unknown	Approval	70544 Magnetic resonance angiography, head; without contrast material(s)	There is not an immediate family history of aneurysm.; The patient does not have a known aneurysm.; The patient has had a recent MRI or CT for these symptoms.; There has not been a stroke or TIA within the past two weeks.; This is a request for a Brain MRA.	2
Unknown	Approval	70544 Magnetic resonance angiography, head; without contrast material(s)	There is not an immediate family history of aneurysm.; The patient does not have a known aneurysm.; The patient has not had a recent MRI or CT for these symptoms.; There has not been a stroke or TIA within the past two weeks.; This is a request for a Brain MRA.	1
Unknown	Approval	70544 Magnetic resonance angiography, head; without contrast material(s)	Unknown; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 02/01/2018; There has been treatment or conservative therapy.; headache, eye pain; Ibuprofen, steroid injections, mouth guard, referred to dentist and ophthalmologist; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Unknown	Approval	70547 Magnetic resonance angiography, neck; without contrast material(s)	; This is a request for a Neck MR Angiography.; It is unknown if the patient had an onset of neurologic symptoms within the last two weeks.; The patient has NOT been diagnosed with Coarctation of the aorta, Marfan's syndrome, Neurofibromatosis, or Moya-moya disease.; It is unknown if the patient had an ultrasound (doppler) of the neck or carotis arteries.; It is unknown if the patient had carotid (neck) artery surgery.	1

Unknown	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	&lt; Enter answer here - or Type In Unknown If No Info Given. &gt;; This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The headache is described as sudden and severe.; There are NO recent neurological deficits on exam such as one sided weakness, speech impairments or vision defects.; There is a new and sudden onset of a headache less than 1 week not improved by medications.; The headache is not described as a “thunderclap” or the worst headache of the patient’s life.	1
Unknown	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	&lt; Enter answer here - or Type In Unknown If No Info Given. &gt;; This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The patient has a chronic or recurring headache.	1
Unknown	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	&lt; Enter answer here - or Type In Unknown If No Info Given. &gt;; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 6/29/2018; There has been treatment or conservative therapy.; ; medication, physical therapy; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Unknown	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	. pt was recently severely beaten in the head and had bleeding from the ears and on exam had dried blood in ears. Pt has headache 3x per week with no improvement with NSAIDS. Pt also has bilateral constant hand tremors.; This request is for a Brain MRI; It is unknown if the study is being requested for evaluation of a headache.; The patient has dizziness.; The patient had a recent onset (within the last 4 weeks) of neurologic symptoms.; This study is being ordered for trauma or injury.	1

Unknown	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Unknown	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; The patient has dizziness.; It is unknown why this study is being ordered.	1
Unknown	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; The patient has vision changes.; The patient had a recent onset (within the last 4 weeks) of neurologic symptoms.; It is unknown if there has been a recent assessment of the patient's visual acuity.; This study is being ordered for stroke or TIA (transient ischemic attack).	1
Unknown	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Continuation of care for colon cancer, he has liver and lung metastatic disease; This study is being ordered for a metastatic disease.; There are 3 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Unknown	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	LUNG CANCER; This study is being ordered for a metastatic disease.; There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Unknown	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	na; This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The patient does not have a sudden severe, chronic or recurring or a thunderclap headache.	1

Unknown	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	positive for dizziness, tremors, seizures, syncope, speech difficulty, numbness; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; The patient has dizziness.; The patient had a recent onset (within the last 4 weeks) of neurologic symptoms.; This study is being ordered for stroke or TIA (transient ischemic attack).	1
Unknown	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Pt has had sudden onset of severe headache with nausea and vomiting. Use of medication have not helped the symptoms.; This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The patient has a sudden and severe headache.; The patient has NOT had a recent onset (within the last 3 months) of neurologic symptoms.	1
Unknown	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	RESTAGING LUNG CANCER; This study is being ordered for a metastatic disease.; There are 3 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Unknown	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	She complains of fairly severe dizziness for 2-3 weeks. She denies vertigo. She says she feels like her head is in a fish bowl. It is hard to concentrate. Movement of her head causes both dizziness and a strong headache. Rolling over in bed causes them; This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The patient has a chronic or recurring headache.	1
Unknown	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	This is a request for an Internal Auditory Canal MRI.; There is a suspected Acoustic Neuroma or tumor of the inner or middle ear.	1

Unknown	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The headache is described as chronic or recurring.; The headache is not presenting with a sudden change in severity, associated with exertion, or a mental status change.; There are recent neurological symptoms or deficits such as one sided weakness, speech impairments, or vision defects.	2
Unknown	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The headache is described as chronic or recurring.; The headache is presenting with a sudden change in severity, associated with exertion, or a mental status change.	9
Unknown	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	This request is for a Brain MRI; The study is being requested for evaluation of a headache.; The headache is described as sudden and severe.; There recent neurological deficits on exam such as one sided weakness, speech impairments or vision defects.	4
Unknown	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Not requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation,multiple sclerosis, or seizures; It is not known if the condition is associated with headache, blurred or double vision or a change in sensation noted on exam.; A metabolic work-up done including urinalysis, electrolytes, and complete blood count with results completed.; The lab results were abnormal; The patient does NOT have dizziness, fatigue or malaise, Bell's Palsy, a congenital abnormality, loss of smell, hearing loss or vertigo.	1

Unknown	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Not requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation,multiple sclerosis, or seizures; The condition is associated with headache, blurred or double vision or a change in sensation noted on exam.; The patient does NOT have dizziness, fatigue or malaise, Bell's Palsy, a congenital abnormality, loss of smell, hearing loss or vertigo.	1
Unknown	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Not requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation,multiple sclerosis, or seizures; The condition is associated with headache, blurred or double vision or a change in sensation noted on exam.; The patient is experiencing dizziness.	1
Unknown	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Not requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation,multiple sclerosis, or seizures; The condition is not associated with headache, blurred or double vision or a change in sensation noted on exam.; A metabolic work-up done including urinalysis, electrolytes, and complete blood count with results completed.; The lab results were abnormal; The patient does NOT have dizziness, fatigue or malaise, Bell's Palsy, a congenital abnormality, loss of smell, hearing loss or vertigo.	1

Unknown	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Not requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation,multiple sclerosis, or seizures; The condition is not associated with headache, blurred or double vision or a change in sensation noted on exam.; A metabolic work-up done including urinalysis, electrolytes, and complete blood count with results completed.; The lab results were abnormal; The patient is experiencing dizziness.	1
Unknown	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Not requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation,multiple sclerosis, or seizures; The condition is not associated with headache, blurred or double vision or a change in sensation noted on exam.; A metabolic work-up done including urinalysis, electrolytes, and complete blood count with results completed.; The lab results were abnormal; The patient is experiencing fatigue or malaise.	1
Unknown	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Requested due to trauma or injury.; There are new, intermittent symptoms or deficits such as one sided weakness, speech impairments, or vision defects.	1
Unknown	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; The patient has one sided arm or leg weakness.; The patient had a recent onset (within the last 4 weeks) of neurologic symptoms.; This study is being ordered for stroke or TIA (transient ischemic attack).	2
Unknown	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; This study is being ordered for a tumor.	3

Unknown	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Unknown; This study is being ordered for a neurological disorder.; 01/19/2018; There has not been any treatment or conservative therapy.; Complaint of leg pain, numbness & burning sensation. Complaint of= f back pain & legs not working properly.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Unknown	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Unknown; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 02/01/2018; There has been treatment or conservative therapy.; headache, eye pain; Ibuprofen, steroid injections, mouth guard, referred to dentist and ophthalmologist; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Unknown	Approval	71250 Computed tomography, thorax; without contrast material	"There IS evidence of a lung, mediastinal or chest mass noted within the last 30 days."; They did not have a previous Chest x-ray.; A Chest/Thorax CT is being ordered.; This study is being ordered for work-up for suspicious mass.; Yes this is a request for a Diagnostic CT	1
Unknown	Approval	71250 Computed tomography, thorax; without contrast material	&lt; Enter answer here - or Type In Unknown If No Info Given. &gt;; This study is being ordered for a metastatic disease.; There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

Unknown	Approval	71250 Computed tomography, thorax; without contrast material	; "There is NO evidence of a lung, mediastinal or chest mass noted within the last 30 days."; A Chest/Thorax CT is being ordered.; This study is being ordered for work-up for suspicious mass.; Yes this is a request for a Diagnostic CT	1
Unknown	Approval	71250 Computed tomography, thorax; without contrast material	; This study is being ordered for a metastatic disease.; There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	3
Unknown	Approval	71250 Computed tomography, thorax; without contrast material	; This study is being ordered for a metastatic disease.; There are 3 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Unknown	Approval	71250 Computed tomography, thorax; without contrast material	A Chest/Thorax CT is being ordered.; This study is being ordered for known tumor.; Yes this is a request for a Diagnostic CT	2
Unknown	Approval	71250 Computed tomography, thorax; without contrast material	Abnormal finding on examination of the chest, chest wall and or lungs describes the reason for this request.; This is a request for a Chest CT.; Yes this is a request for a Diagnostic CT	3
Unknown	Approval	71250 Computed tomography, thorax; without contrast material	Abnormal imaging test describes the reason for this request.; This is a request for a Chest CT.; Yes this is a request for a Diagnostic CT	12
Unknown	Approval	71250 Computed tomography, thorax; without contrast material	Abnormal laboratory test describes the reason for this request.; This is a request for a Chest CT.; Yes this is a request for a Diagnostic CT	1
Unknown	Approval	71250 Computed tomography, thorax; without contrast material	Chest pain describes the reason for this request.; Abnormal lab finding was relevant in the diagnosis or suspicion of inflammatory bowel disease; This is a request for a Chest CT.; This study is being requested for known or suspected blood vessel (vascular) disease; Yes this is a request for a Diagnostic CT	1

Unknown	Approval	71250 Computed tomography, thorax; without contrast material	Chest pain describes the reason for this request.; An abnormal bronchoscopy finding led to the suspicion of infection; This is a request for a Chest CT.; This study is being requested for known or suspected infection (pneumonia, abscess, empyema).; Yes this is a request for a Diagnostic CT	1
Unknown	Approval	71250 Computed tomography, thorax; without contrast material	Chest pain describes the reason for this request.; 'None of the above' were relevant in the diagnosis or suspicion of vascular disease; This is a request for a Chest CT.; This study is being requested for known or suspected blood vessel (vascular) disease; Yes this is a request for a Diagnostic CT	1
Unknown	Approval	71250 Computed tomography, thorax; without contrast material	Chest pain describes the reason for this request.; The patient had an abnormal imaging (xray) finding related to the suspicion of cancer in th is patient.; This is a request for a Chest CT.; This study is beign requested for suspected cancer or tumor.; Yes this is a request for a Diagnostic CT	1
Unknown	Approval	71250 Computed tomography, thorax; without contrast material	Continuation of care for colon cancer, he has liver and lung metastatic disease; This study is being ordered for a metastatic disease.; There are 3 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Unknown	Approval	71250 Computed tomography, thorax; without contrast material	Coughing up blood (hemoptysis) describes the reason for this request.; This is a request for a Chest CT.; Yes this is a request for a Diagnostic CT	2
Unknown	Approval	71250 Computed tomography, thorax; without contrast material	CT scan found , non calcified on the CT of your abdomen, and they suggest getting a CT of chest.; "Caller is NOT SURE if there is evidence of a lung, mediastinal or chest mass noted within the last 30 days."; A Chest/Thorax CT is being ordered.; This study is being ordered for work-up for suspicious mass.; Yes this is a request for a Diagnostic CT	1

			Enter answer here - or Type In Unlisted CT/MRIUnknown If No Info Given.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	
Unknown	Approval	71250 Computed tomography, thorax; without contrast material		1
Unknown	Approval	71250 Computed tomography, thorax; without contrast material	left flank pain; lung nodule; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; left flank pain; solitary lung nodule; There has been treatment or conservative therapy.; Patient has flank pain that has been treated with antibiotics; This is a followup chest CT to evaluate a lung nodule. Pulmonology suggested CT's every 1-2 years; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Unknown	Approval	71250 Computed tomography, thorax; without contrast material	Necessary to rule out pulmonary cause; Has a 60 pack year smoking history; Agreeable to CT chest with contrast for evaluation of mediastinum - parenchyma - pleura.; A Chest/Thorax CT is being ordered.; The study is being ordered for none of the above.; This study is being ordered for non of the above.; Yes this is a request for a Diagnostic CT	1
Unknown	Approval	71250 Computed tomography, thorax; without contrast material	'None of the above' describes the reason for this request.; An abnormal bronchoscopy finding led to the suspicion of infection; This is a request for a Chest CT.; This study is being requested for known or suspected infection (pneumonia, abscess, empyema).; Yes this is a request for a Diagnostic CT	1
Unknown	Approval	71250 Computed tomography, thorax; without contrast material	'None of the above' describes the reason for this request.; This study is being requested for an unresolved cough; This is a request for a Chest CT.; This study is being requested for none of the above.; Yes this is a request for a Diagnostic CT	1

Unknown	Approval	71250 Computed tomography, thorax; without contrast material	'None of the above' describes the reason for this request.; This study is being requested for suspicion of pulmonary embolism (PE); This is a request for a Chest CT.; This study is being requested for none of the above.; Yes this is a request for a Diagnostic CT	1
Unknown	Approval	71250 Computed tomography, thorax; without contrast material	One right external iliac and two inguinal nodes have a slight increase in size and activity.; These findings are not at the levels that would be considered malignant but since there has been an interval change recommend CT; followup; in 3-6 months to be ; This study is being ordered for a metastatic disease.; There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Unknown	Approval	71250 Computed tomography, thorax; without contrast material	PATIENT HAS CANCER; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Unknown	Approval	71250 Computed tomography, thorax; without contrast material	Post-operative evaluation describes the reason for this request.; This is a request for a Chest CT.; Yes this is a request for a Diagnostic CT	1
Unknown	Approval	71250 Computed tomography, thorax; without contrast material	Pre-operative evaluation describes the reason for this request.; This is a request for a Chest CT.; Yes this is a request for a Diagnostic CT	2
Unknown	Approval	71250 Computed tomography, thorax; without contrast material	RESTAGING ACTIVE LYMPHOMA; This study is being ordered for a metastatic disease.; There are 3 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

Unknown	Approval	71250 Computed tomography, thorax; without contrast material	RESTAGING COLON CANCER; This study is being ordered for a metastatic disease.; There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Unknown	Approval	71250 Computed tomography, thorax; without contrast material	RESTAGING DURING ONGOING TREATMENT ASSESS RESPONSE TO THERAPY; This study is being ordered for a metastatic disease.; There are 3 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Unknown	Approval	71250 Computed tomography, thorax; without contrast material	RESTAGING LUNG CANCER; This study is being ordered for a metastatic disease.; There are 3 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Unknown	Approval	71250 Computed tomography, thorax; without contrast material	RESTAGING RENAL CANCER; This study is being ordered for a metastatic disease.; There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

Unknown	Approval	71250 Computed tomography, thorax; without contrast material	RESTAGING SCANS CANCER; This study is being ordered for a metastatic disease.; There are 3 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Unknown	Approval	71250 Computed tomography, thorax; without contrast material	SURVEILLANCE; This study is being ordered for a metastatic disease.; There are 4 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Unknown	Approval	71250 Computed tomography, thorax; without contrast material	There is radiologic evidence of non-resolving pneumonia for 6 weeks after antibiotic treatment was prescribed.; A Chest/Thorax CT is being ordered.; This study is being ordered for known or suspected inflammatory disease or pneumonia.; Yes this is a request for a Diagnostic CT	2
Unknown	Approval	71250 Computed tomography, thorax; without contrast material	This is a request for a Thorax (Chest) CT.; 'None of the above' describes the reason for this request.; An abnormal imaging (xray) finding led to the suspicion of infection; This study is being requested for known or suspected infection (pneumonia, abscess, empyema).; Yes this is a request for a Diagnostic CT	1
Unknown	Approval	71250 Computed tomography, thorax; without contrast material	Unknown; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Unknown	Approval	71250 Computed tomography, thorax; without contrast material	Yes, the patient was seen by a specialist because of the traumatic injury.; Chest pain describes the reason for this request.; The patient was seen by a general surgeon.; This is a request for a Chest CT.; This study is being requested for chest injury or trauma within the past 2 weeks.; Yes this is a request for a Diagnostic CT	1

Unknown	Approval	71275 Computed tomographic angiography, chest (noncoronary), with contrast material(s), including noncontrast images, if performed, and image postprocessing	This study is requested to evaluate suspected pulmonary embolus.; Yes, this is a request for a Chest CT Angiography.	5
Unknown	Approval	72131 Computed tomography, lumbar spine; without contrast material	This is a request for a lumbar spine CT.; The patient does not have a history of severe low back trauma or lumbar injury.; This is not a preoperative or recent postoperative evaluation.; This study is not part of a myelogram or discogram.; The patient is experiencing symptoms of radiculopathy for six weeks or more.; Yes this is a request for a Diagnostic CT	1
Unknown	Approval	72131 Computed tomography, lumbar spine; without contrast material	This is a request for a lumbar spine CT.; The patient does not have a history of severe low back trauma or lumbar injury.; This is not a preoperative or recent postoperative evaluation.; This study is to be part of a myelogram or discogram.; Yes this is a request for a Diagnostic CT	1
Unknown	Approval	72131 Computed tomography, lumbar spine; without contrast material	This is a request for a lumbar spine CT.; The patient has a history of severe low back trauma or lumbar injury.; Yes this is a request for a Diagnostic CT	3
Unknown	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	&lt; Enter answer here - or Type In Unknown If No Info Given. &gt;; This is a request for cervical spine MRI; None of the above; It is not known if the patient does have new or changing neurologic signs or symptoms.; It is not known if the patient has had back pain for over 4 weeks.	1

Unknown	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	<p>&amp;lt; Enter answer here - or Type In Unknown If No Info Given. &amp;gt;; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 06/30/2017; There has been treatment or conservative therapy.; DOES NOT MOVE BOTH ARMS AND LEGS SYMMETRICALLY. UNABLE TO SIT SINCE UNABLE TO HOLD HER HEAD UP.; NICU, SPEECH; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology</p>	1
---------	----------	---	--	---

Unknown	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	<p>&amp;lt; Enter answer here - or Type In Unknown If No Info Given. &amp;gt;; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 2/6/2018; There has been treatment or conservative therapy.; mbr has weakness and numbness and pain in the hand and leg; Home exercises and Tylenol and heat and ice compression; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology</p>	1
---------	----------	---	--	---

Unknown	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	<p>&amp;lt; Enter answer here - or Type In Unknown If No Info Given. &amp;gt;; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 6/29/2018; There has been treatment or conservative therapy.; ; medication, physical therapy; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology</p>	1
Unknown	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	<p>; This is a request for cervical spine MRI; Acute or Chronic neck and/or back pain; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; DocumentPatient's hands are weak and she even dropped and cracked her phone due to the symptoms. Has seen a neurosurgeon but needs further evaluation with an MRI. Patient completed 6 weeks of PT WITH NO HELP; It is not known if the patient has new signs or symptoms of bladder or bowel dysfunction.; There is not x-ray evidence of a recent cervical spine fracture.</p>	1
Unknown	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	<p>neck and low back pain; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.</p>	1

Unknown	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	Pain getting severe, aching burning, throbbing, cold sensations in upper extremity;; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 2005; There has been treatment or conservative therapy.; Pain getting severe, aching burning, throbbing, cold sensations in upper extremity;; homes exercise, injections, medications; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Unknown	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	patient is needing needing to be evaluated .; This study is being ordered for a neurological disorder.; patient was seen on 2/28/2018; It is not known if there has been any treatment or conservative therapy.; neurological deficits; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Unknown	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	She had Dr. Irwin do some injections, she has had some physical therapy. What is not manageable now for her is neck pain with arm numbness and tingling. She does have a positive Phalen's, negative Tinel's, dense dysesthesia in C6 versus median nerve dist; This is a request for cervical spine MRI; Pre-Operative Evaluation; Surgery is not scheduled within the next 4 weeks.	1

Unknown	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	The patient has failed a course of anti-inflammatory medication or steroids.; This is a request for cervical spine MRI; There has been a supervised trial of conservative management for at least 6 weeks.; Acute or Chronic neck and/or back pain; No, the patient does not demonstrate neurological deficits.; No, this patient did not have a recent course of supervised physical Therapy.	1
Unknown	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	This is a request for cervical spine MRI; Acute or Chronic neck and/or back pain; It is not known if the patient does have new or changing neurologic signs or symptoms.; The patient has had back pain for over 4 weeks.; The patient has seen the doctor more then once for these symptoms.; The physician has directed conservative treatment for the past 6 weeks.; The patient has completed 6 weeks of physical therapy?	2
Unknown	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	This is a request for cervical spine MRI; Acute or Chronic neck and/or back pain; The patient does not have new or changing neurologic signs or symptoms.; The patient has had back pain for over 4 weeks.; The patient has seen the doctor more then once for these symptoms.; The physician has directed conservative treatment for the past 6 weeks.; The patient has completed 6 weeks of physical therapy?	9
Unknown	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	This is a request for cervical spine MRI; Acute or Chronic neck and/or back pain; The patient does not have new or changing neurologic signs or symptoms.; The patient has had back pain for over 4 weeks.; The patient has seen the doctor more then once for these symptoms.; The physician has directed conservative treatment for the past 6 weeks.; The patient has not completed 6 weeks of physical therapy?; The patient has been treated with medication.; The patient was treated with an Epidural.	1
Unknown	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	This is a request for cervical spine MRI; Acute or Chronic neck and/or back pain; Yes, the patient demonstrate neurological deficits.; yes, there is a documented evidence of extremity weakness on physical examination.	7

Unknown	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	This is a request for cervical spine MRI; Neurological deficits; The patient does have new or changing neurologic signs or symptoms.; The patient does have new signs or symptoms of bladder or bowel dysfunction.	1
Unknown	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	This is a request for cervical spine MRI; Neurological deficits; Yes, the patient is experiencing or presenting new symptoms of upper extremity weakness.	5
Unknown	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	This is a request for cervical spine MRI; Pre-Operative Evaluation; No, the last Cervical spine MRI was not performed within the past two weeks.	1
Unknown	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	This is a request for cervical spine MRI; There has been a supervised trial of conservative management for at least 6 weeks.; Acute or Chronic neck and/or back pain; No, the patient does not demonstrate neurological deficits.; Yes, this patient had a recent course of supervised physical Therapy.	7
Unknown	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	This is a request for cervical spine MRI; There has been a supervised trial of conservative management for at least 6 weeks.; Acute or Chronic neck and/or back pain; Yes, the patient demonstrate neurological deficits.; No, there is not a documented evidence of extremity weakness on physical examination.; No, there is no evidence of recent development of unilateral muscle wasting.; Yes, this patient had a recent course of supervised physical Therapy.	3
Unknown	Approval	72141 Magnetic resonance (eg, proton) imaging, spinal canal and contents, cervical; without contrast material	This is a request for cervical spine MRI; Trauma or recent injury; Yes, the patient have new or changing neurological signs or symptoms.; Yes, the patient is experiencing or presenting new symptoms of upper extremity weakness.	1

Unknown	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	<p>&amp;lt; Enter answer here - or Type In Unknown If No Info Given. &amp;gt;; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 06/30/2017; There has been treatment or conservative therapy.; DOES NOT MOVE BOTH ARMS AND LEGS SYMMETRICALLY. UNABLE TO SIT SINCE UNABLE TO HOLD HER HEAD UP.; NICU, SPEECH; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology</p>	1
Unknown	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	<p>&amp;lt; Enter answer here - or Type In Unknown If No Info Given. &amp;gt;; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 6/29/2018; There has been treatment or conservative therapy.; ; medication, physical therapy; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology</p>	1

Unknown	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	. Emerald D Johnson is a 14 y.o. 10 m.o. female with numbness and weakness of the lower extremities. There are other associated symptoms including transient vision disturbance and jaw numbness. There is a history of depression and previous suicide att; This study is being ordered for a neurological disorder.; 03/20/2018; There has not been any treatment or conservative therapy.; numbness and weakness of lower extremities, with transient visual disturbance and jaw numbness, possible conversion disorder; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Unknown	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	It is not known if the patient has any neurological deficits.; This is a request for a thoracic spine MRI.; The study is being ordered due to chronic back pain or suspected degenerative disease.; The patient is not experiencing sensory abnormalities such as numbness or tingling.; &lt;Enter Additional Clinical Information&gt;	1

Unknown	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	PATIENT HAS HAD XRAYS OF LUMBAR AND THORACIC SPINE PERFORMED. RADIOLOGIST RECOMMENDED MRI TO EVALUATE FOR OCCULT FRACTURES; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; UNKNOWN; There has been treatment or conservative therapy.; DEBILITATING PAIN, DIFFICULTY AMBULATING, WEAKNESS AND PARATHESIA; PATIENT WAS RX ANTI-INFLAMMATORY IN JANUARY 2018. &#xOD; PATIENT WAS RX NEURONTIN IN FEBRUARY 2018 AS WELL AS AN IM INJECTION OF 8 MG OF DECADRON.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Unknown	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	Spinal cord stimulation as a treatment option for post-laminectomy neuropathic pain.; This is a request for a thoracic spine MRI.; Pre-Operative Evaluation; It is not known when surgery is scheduled.	1
Unknown	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	The patient does not have any neurological deficits.; This is a request for a thoracic spine MRI.; There has been a supervised trial of conservative management for at least 6 weeks.; The study is being ordered due to chronic back pain or suspected degenerative disease.	2
Unknown	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	This is a request for a thoracic spine MRI.; Acute or Chronic back pain; The patient does not have new or changing neurologic signs or symptoms.; The patient has had back pain for over 4 weeks.; The patient has seen the doctor more then once for these symptoms.; The physician has directed conservative treatment for the past 6 weeks.; The patient has completed 6 weeks of physical therapy?	1

Unknown	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	This is a request for a thoracic spine MRI.; Follow-up to Surgery or Fracture within the last 6 months; The patient has been seen by or is the ordering physician an oncologist, neurologist, neurosurgeon, or orthopedist.	1
Unknown	Approval	72146 Magnetic resonance (eg, proton) imaging, spinal canal and contents, thoracic; without contrast material	This is a request for a thoracic spine MRI.; There is evidence of tumor or metastasis on a bone scan or x-ray.; The study is being ordered due to suspected tumor with or without metastasis.	1
Unknown	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	&lt; Enter answer here - or Type In Unknown If No Info Given. &gt;; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 06/30/2017; There has been treatment or conservative therapy.; DOES NOT MOVE BOTH ARMS AND LEGS SYMMETRICALLY. UNABLE TO SIT SINCE UNABLE TO HOLD HER HEAD UP.; NICU, SPEECH; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Unknown	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	&lt; Enter answer here - or Type In Unknown If No Info Given. &gt;; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 2/6/2018; There has been treatment or conservative therapy.; mbr has weakness and numbness and pain in the hand and leg; Home exercises and Tylenol and heat and ice compression; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

Unknown	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	<p>&amp;lt; Enter answer here - or Type In Unknown If No Info Given. &amp;gt;; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; Fracture at L-1 in 1996 mri 2012 was abnormal; There has been treatment or conservative therapy.; mbr has pain in low back and general pain all over with neck pain scale is 10 of 10 to upper and lower extremities; medication, ice, heat, stretching, tenn unit, there was a lumbar fusion in 4/2013; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology</p>	1
---------	----------	---	---	---

Unknown	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	<p>. Emerald D Johnson is a 14 y.o. 10 m.o. female with numbness and weakness of the lower extremities. There are other associated symptoms including transient vision disturbance and jaw numbness. There is a history of depression and previous suicide att; This study is being ordered for a neurological disorder.; 03/20/2018; There has not been any treatment or conservative therapy.; numbness and weakness of lower extremities, with transient visual disturbance and jaw numbness, possible conversion disorder; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology</p>	1
---------	----------	---	---	---

Unknown	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; ; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	1
Unknown	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; There is weakness.; The patient complains of pain that radiates into her left buttock and down the posterior aspect of her left leg, stopping at her ankle. She rates her pain an 8/10. She denies any numbness or tingling but does complain of weakness of her left leg. She is t; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	1
Unknown	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	; The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has none of the above	1
Unknown	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	3 mo hx low back pain w SI component and radiation into left leg. This includes tenderness and spasms. Numbness and tingling present LLE. OTC meds, home exercises done w/o relief. Steroids, opiates, muscle relaxants were given w/o relief. pt completed ; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; There is no weakness or reflex abnormality.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	1

Unknown	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Back Pain; Reported by patient; Location: pain radiating to the legs (left); Quality: tingling; Severity: worsening; interference with sleep; interference with work; Duration: intermittent; Onset/Timing: recurrent episode; Context: overuse; prior back; The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has none of the above	1
Unknown	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Chronic back pain- progressively getting worse; pain is moderate and aggravated with prolonged standing; associated with spasm; no weakness and numbness; tried ESI, opiates, muscle relaxants, ns aids and PT; seeking NSS opinion; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; There is no weakness or reflex abnormality.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	1
Unknown	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Enter answer here - or Type In Unknown If This 78 year old female presents with low back pain that radiates to her left hip. She also complains of left foot numbness after stretching one week ago. ; She has tried chiropractic care with relief until; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; There is reflex abnormality.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.; ankle jerks are 0-1+ on the right and left	1

Unknown	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	felt back crack; burning feeling in lower back; sharp stabbing pain; pain radiating down right buttock; having weakness in legs; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Unknown	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	hx of L1-L3 compression fx. status post lumbar trauma and L1-L3 kyphoplasty 2014 w neurosurgery. now presents w increased and constant pain w radiation on left side and affecting ADLs.; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; There is no weakness or reflex abnormality.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	1
Unknown	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Mrs. Montgomery presents for evaluation of 4 months low-back pain radiating to the left lower extremity. She has history of several years neck and low back pain and has had prior cervical and lumbar fusions. Her current pain increased after a fall 4 month; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; It is not known if the patient does have new or changing neurologic signs or symptoms.; The patient has had back pain for over 4 weeks.; The patient has seen the doctor more then once for these symptoms.; The physician has directed conservative treatment for the past 6 weeks.; The patient has not completed 6 weeks of physical therapy?; The patient has been treated with medication.; The patient was treated with oral analgesics.; It is not known if the patient has completed 6 weeks or more of Chiropractic care.; It is not known if the physician has directed a home exercise program for at least 6 weeks.	1
Unknown	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	neck and low back pain; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1

Unknown	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	patient is needing needing to be evaluated .; This study is being ordered for a neurological disorder.; patient was seen on 2/28/2018; It is not known if there has been any treatment or conservative therapy.; neurological defecits; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Unknown	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	pt with severe pain for 1 week - radiating to both buttocks - pain severe during day with standing and changing position - radiates to LLE to lateral calf &#x0D; XR lumbar - severe spondylolisthesis L5-S1&#x0D; Moderate degenerative disease of the lumbar spine. L3 ; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does not have new or changing neurologic signs or symptoms.; The patient has NOT had back pain for over 4 weeks.	1
Unknown	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	reports pain in his low back and legs has increased. He has had a lumbar xray in 2016 the past and PT with some improvment. He has tried NSAIDs. He reports the pain is getting worse with radiation down both legs.; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; There is no weakness or reflex abnormality.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	1
Unknown	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; It is not known if the patient does have new or changing neurologic signs or symptoms.; The patient has had back pain for over 4 weeks.; The patient has seen the doctor more then once for these symptoms.; The physician has directed conservative treatment for the past 6 weeks.; The patient has completed 6 weeks of physical therapy?	3

Unknown	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; The patient does have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.	1
Unknown	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does not have new or changing neurologic signs or symptoms.; The patient has had back pain for over 4 weeks.; The patient has seen the doctor more then once for these symptoms.; The physician has directed conservative treatment for the past 6 weeks.; It is not known if the patient has completed 6 weeks of physical therapy?; The patient has been treated with medication.; The patient was treated with an Epidural.	1
Unknown	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does not have new or changing neurologic signs or symptoms.; The patient has had back pain for over 4 weeks.; The patient has seen the doctor more then once for these symptoms.; The physician has directed conservative treatment for the past 6 weeks.; The patient has completed 6 weeks of physical therapy?	16
Unknown	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does not have new or changing neurologic signs or symptoms.; The patient has had back pain for over 4 weeks.; The patient has seen the doctor more then once for these symptoms.; The physician has directed conservative treatment for the past 6 weeks.; The patient has not completed 6 weeks of physical therapy?; The patient has been treated with medication.; other medications as listed.; The patient has completed 6 weeks or more of Chiropractic care.;	1

Unknown	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does not have new or changing neurologic signs or symptoms.; The patient has had back pain for over 4 weeks.; The patient has seen the doctor more then once for these symptoms.; The physician has directed conservative treatment for the past 6 weeks.; The patient has not completed 6 weeks of physical therapy?; The patient has been treated with medication.; the patient was treated with a facet joint injection.	1
Unknown	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	The study requested is a Lumbar Spine MRI.; Neurological deficits; The patient does have new or changing neurologic signs or symptoms.; The patient does have a new foot drop.	1
Unknown	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	The study requested is a Lumbar Spine MRI.; Neurological deficits; The patient does have new or changing neurologic signs or symptoms.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is x-ray evidence of a recent lumbar fracture.	1
Unknown	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has 6 weeks of completed conservative care in the past 3 months or had a spine injection	25
Unknown	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has an Abnormal x-ray indicating a significant abnormality	7
Unknown	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has completed Treatment with a facet joint or epidural injection in the past 6 weeks	1
Unknown	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has Neurological deficit(s)	12

Unknown	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Unknown; This study is being ordered for a neurological disorder.; 01/19/2018; There has not been any treatment or conservative therapy.; Complaint of leg pain, numbness & burning sensation. Complaint of f back pain & legs not working properly.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology &lt; Enter answer here - or Type In Unknown If No Info Given. &gt;; This study is being ordered as a follow-up to trauma.; "The ordering physician is a gastroenterologist, urologist, gynecologist, or surgeon or PCP ordering on behalf of a specialist who has seen the patient."; This is a request for a Pelvis CT.; Yes this is a request for a Diagnostic CT	1
Unknown	Approval	72192 Computed tomography, pelvis; without contrast material	&lt; Enter answer here - or Type In Unknown If No Info Given. &gt;; This study is being ordered due to known or suspected infection.; "The ordering physician is NOT a surgeon, gynecologist, urologist, gastroenterologist, or infectious disease specialist or PCP ordering on behalf of a specialist who has seen the patient."; "There are physical findings or abnormal blood work consistent with peritonitis, pelvic inflammatory disease, or appendicitis."; This is a request for a Pelvis CT.; Yes this is a request for a Diagnostic CT	1
Unknown	Approval	72192 Computed tomography, pelvis; without contrast material	; This study is being ordered because of a suspicious mass/ tumor.; "The patient has had a pelvic ultrasound, barium, CT, or MR study."; This is a request for a Pelvis CT.; There are documented physical findings (painless hematuria, etc.) consistent with an abdominal mass or tumor.; Yes this is a request for a Diagnostic CT	1

Unknown	Approval	72192 Computed tomography, pelvis; without contrast material	<p>Patient was seen in the clinic today for follow up after injury from sledding, patient stated that she is in severe pain, patient cant get comfortable when sitting or sitting to standing. Xray showed acute appearing distal sacral fracture with mild displa; This study is being ordered as a follow-up to trauma.; There is NO laboratory or physical evidence of a pelvic bleed.; There are no physical or abnormal blood work consistent with peritonitis or pelvic abscess.; There is physical or radiological evidence of a pelvic fracture.; "The ordering physician is not a gastroenterologist, urologist, gynecologist, or surgeon or PCP ordering on behalf of a specialist who has seen the patient."; This is a request for a Pelvis CT.; Yes this is a request for a Diagnostic CT</p>	1
Unknown	Approval	72192 Computed tomography, pelvis; without contrast material	<p>Progress Notes &amp;#x0D; &amp;#x0D; &amp;#x0D; &amp;#x0D;  HISTORY: Adrian is a 32-year-old male. At the time he was 16, he had an&amp;#x0D; acetabular fracture fixed here by Dr. Gruenwald. About 5 years after that,&amp;#x0D; he start having drainage from his right hip wound. It started out with&amp;#x0D; what s; This study is being ordered due to known or suspected infection.; "The ordering physician is a surgeon, gynecologist, urologist, gastroenterologist, or infectious disease specialist or PCP ordering on behalf of a specialist who has seen the patient."; This is a request for a Pelvis CT.; Yes this is a request for a Diagnostic CT</p>	1
Unknown	Approval	72192 Computed tomography, pelvis; without contrast material	<p>This is a follow-up CT scan with special attention after to the pelvic lymph nodes.; This study is being ordered because of a suspicious mass/ tumor.; "The patient has had a pelvic ultrasound, barium, CT, or MR study."; This is a request for a Pelvis CT.; It is not known if there documented physical findings (painless hematuria, etc.) consistent with an abdominal mass or tumor.; Yes this is a request for a Diagnostic CT</p>	1
Unknown	Approval	72196 Magnetic resonance (eg, proton) imaging, pelvis; with contrast material(s)	<p>This is a request for a Pelvis MRI.; The request is for suspicion of tumor, mass, neoplasm, or metastatic disease?</p>	1

Unknown	Approval	73200 Computed tomography, upper extremity; without contrast material	This is a request for an upper extremity, shoulder, scapula, elbow, hand, or wrist joint CT.; There is a history of upper extremity joint or long bone trauma or injury.; Yes this is a request for a Diagnostic CT	4
Unknown	Approval	73200 Computed tomography, upper extremity; without contrast material	This is a request for an upper extremity, shoulder, scapula, elbow, hand, or wrist joint CT.; There is not a history of upper extremity joint or long bone trauma or injury.; This is not a preoperative or recent postoperative evaluation.; There is suspicion of upper extremity neoplasm or tumor or metastasis.; Yes this is a request for a Diagnostic CT	1
Unknown	Approval	73220 Magnetic resonance (eg, proton) imaging, upper extremity, other than joint; without contrast material(s), followed by contrast material(s) and further sequences	The request is for an upper extremity non-joint MRI.; This is a preoperative or recent postoperative evaluation.	3
Unknown	Approval	73220 Magnetic resonance (eg, proton) imaging, upper extremity, other than joint; without contrast material(s), followed by contrast material(s) and further sequences	The request is for an upper extremity non-joint MRI.; This is not a preoperative or recent postoperative evaluation.; There is suspicion of upper extremity neoplasm or tumor or metastasis.	1
Unknown	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	&lt; Enter answer here - or Type In Unknown If No Info Given. &gt;; The requested study is a Shoulder MRI.; The pain is not from a recent injury, old injury, chronic pain or a mass.; The request is for shoulder pain.	1
Unknown	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Catching, Popping, Locking or instability: Yes&#x0D; Stiffness and or Start up pain: Yes Job:positive; The requested study is a Shoulder MRI.; The pain is from a recent injury.; It is not know if surgery or arthroscopy is scheduled in the next 4 weeks.; The request is for shoulder pain.; There is a suspicion of tendon, ligament, rotator cuff injury or labral tear.	1

Unknown	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Pain getting severe, aching burning, throbbing, cold sensations in upper extremity;; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 2005; There has been treatment or conservative therapy.; Pain getting severe, aching burning, throbbing, cold sensations in upper extremity;; homes exercise, injections, medications; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	2
Unknown	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	previous bilateral arthroscopic elbow joint debridement and loose body removal now with significant acute pain. Bilateral elbows are tender along the medial joint line as well as cubital tunnel. Possible recurrent cartilage damage and loose bodies; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; 10/06/2016; There has been treatment or conservative therapy.; Significant pain with increased catching sensation in bilateral elbows. He has tenderness along the medial joint line as well as cubital tunnel; Physical Therapy, steroid injections, surgical intervention; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	2
Unknown	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	suspected rotator cuff tear. limited and painful range of motion. unable to take anti inflammatories due to taking Xarelto; The requested study is a Shoulder MRI.; The pain is not from a recent injury, old injury, chronic pain or a mass.; The request is for shoulder pain.	1

Unknown	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	The requested study is a Shoulder MRI.; "The caller indicated the study was not ordered for: Known or Suspicious Mass or Tumor with or without metastasis, Known or suspected Joint Infection, Aseptic Necrosis, Trauma, Chronic Pain, or Pre or Post operative evaluation."; &lt; Enter answer here - or Type In Unknown If No Info Given. &gt;	1
Unknown	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	The requested study is a Shoulder MRI.; Study being ordered due to non-acute or chronic pain.; It is not known if the patient has completed and failed a course of conservative treatment.; Right shoulder pain for long period of time.	1
Unknown	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	The requested study is a Shoulder MRI.; Study being ordered due to non-acute or chronic pain.; The patient has completed and failed a course of conservative treatment of at least 4 weeks.; The ordering physician is an orthopedist.	6
Unknown	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	The requested study is a Shoulder MRI.; Study being ordered due to non-acute or chronic pain.; The patient has completed and failed a course of conservative treatment of at least 4 weeks.; The ordering physician is not an orthopedist.; The patient has a documented limited range of motion on physical examination.; There is no documented findings of severe pain on motion.	1
Unknown	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	The requested study is a Shoulder MRI.; Study being ordered due to non-acute or chronic pain.; The patient has completed and failed a course of conservative treatment of at least 4 weeks.; The ordering physician is not an orthopedist.; There is documented findings of severe pain on motion.	9
Unknown	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	The requested study is a Shoulder MRI.; Study being ordered due to non-acute or chronic pain.; The patient has not completed and failed a course of conservative treatment of at least 4 weeks.; MRI Right Shoulder Pain. PT has limited ROM. This is a chronic disease that she has suffered with for 2 - 3 years. X Ray from 2105 shows osteoarthritis. Denies any injuries. States within the last few days the pain has flared up. X Ray recommends correlat	1

Unknown	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	The requested study is a Shoulder MRI.; The pain is described as chronic; The request is for shoulder pain.; The physician has directed conservative treatment for the past 6 weeks.; The patient has completed 6 weeks of physical therapy?	4
Unknown	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	The requested study is a Shoulder MRI.; The pain is from a recent injury.; Surgery or arthroscopy is scheduled in the next 4 weeks.; The request is for shoulder pain.; There is a suspicion of tendon, ligament, rotator cuff injury or labral tear.	1
Unknown	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	The requested study is a Shoulder MRI.; The pain is from an old injury.; The request is for shoulder pain.; The physician has directed conservative treatment for the past 6 weeks.; The patient has completed 6 weeks of physical therapy?	2
Unknown	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	This is a request for an upper extremity joint MRI.; The patient does have documented weakness or partial loss of feeling in the upper extremity.; There has been a history of significant trauma, dislocation or injury to the joint within the past 6 weeks.; The patient does not have an abnormal plain film study of the joint.; The patient has been treated with and failed a course of four weeks of supervised physical therapy.	1
Unknown	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	This is a request for an upper extremity joint MRI.; The patient does have documented weakness or partial loss of feeling in the upper extremity.; There has been a history of significant trauma, dislocation or injury to the joint within the past 6 weeks.; The patient does not have an abnormal plain film study of the joint.; The patient has not been treated with and failed a course of four weeks of supervised physical therapy.; The patient does not have a documented limitation of their range of motion.; The patient has not experienced pain for greater than six weeks.; The patient has not been treated with anti-inflammatory medication in conjunction with this complaint.; This study is not being ordered by an operating surgeon for pre-operative planning.	1

Unknown	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	This is a request for an upper extremity joint MRI.; The patient does have documented weakness or partial loss of feeling in the upper extremity.; There is no history of significant trauma, dislocation or injury to the joint within the past 6 weeks.; The patient does have an abnormal plain film study of the joint.; The patient has not been treated with and failed a course of four weeks of supervised physical therapy.; The patient has a documented limitation of their range of motion.; The patient has experienced pain for greater than six weeks.; The patient has been treated with anti-inflammatory medication in conjunction with this complaint.	2
Unknown	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	This is a request for an upper extremity joint MRI.; The patient does have documented weakness or partial loss of feeling in the upper extremity.; There is no history of significant trauma, dislocation or injury to the joint within the past 6 weeks.; The patient does not have an abnormal plain film study of the joint.; The patient has been treated with and failed a course of four weeks of supervised physical therapy.; The patient has a documented limitation of their range of motion.; The patient has experienced pain for greater than six weeks.; The patient has been treated with anti-inflammatory medication in conjunction with this complaint.	1
Unknown	Approval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	This is a request for an upper extremity joint MRI.; The patient does not have documented weakness or partial loss of feeling in the upper extremity.; There has been a history of significant trauma, dislocation or injury to the joint within the past 6 weeks.; The patient does not have an abnormal plain film study of the joint.; The patient has not been treated with and failed a course of four weeks of supervised physical therapy.; The patient does not have a documented limitation of their range of motion.; The patient has experienced pain for greater than six weeks.	1

Unknown	Approval	73700 Computed tomography, lower extremity; without contrast material	abnormal x-ray on right knee showed fluid R/O a cult fracture; This is not a preoperative or recent postoperative evaluation.; There is no suspicion of a lower extremity neoplasm, tumor or metastasis.; There is no suspicion of lower extremity bone or joint infection.; There is not a history of lower extremity joint or long bone trauma or injury.; This is a request for a Knee CT; Yes this is a request for a Diagnostic CT	1
Unknown	Approval	73700 Computed tomography, lower extremity; without contrast material	This is a request for a hip CT.; This study is not being ordered in conjunction with a pelvic CT.; There is not a suspected infection of the hip.; "There is a history (within the last six months) of significant trauma, dislocation, or injury to the hip."; There is not a suspicion of AVN.; The patient has a documented limitation of their range of motion.; Yes this is a request for a Diagnostic CT	1
Unknown	Approval	73700 Computed tomography, lower extremity; without contrast material	This is a request for a hip CT.; This study is not being ordered in conjunction with a pelvic CT.; There is not a suspected infection of the hip.; The patient has been treated with and failed a course of supervised physical therapy.; "There is no a history (within the last six months) of significant trauma, dislocation, or injury to the hip."; There is not a suspicion of AVN.; The patient does not have an abnormal plain film study of the hip other than arthritis.; The patient has not used a cane or crutches for greater than four weeks.; The patient has a documented limitation of their range of motion.; Yes this is a request for a Diagnostic CT	1
Unknown	Approval	73700 Computed tomography, lower extremity; without contrast material	This is a request for a Lower Extremity CT.; This is a preoperative or recent postoperative evaluation.; Yes this is a request for a Diagnostic CT	1

Unknown	Approval	73700 Computed tomography, lower extremity; without contrast material	This is not a preoperative or recent postoperative evaluation.; There is no suspicion of a lower extremity neoplasm, tumor or metastasis.; There is no suspicion of lower extremity bone or joint infection.; There is a history of lower extremity joint or long bone trauma or injury.; This is a request for a Knee CT; Yes this is a request for a Diagnostic CT	1
Unknown	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; left knee pain x six months; right knee pain x 4 years; There has been treatment or conservative therapy.; left knee posterior pain and swelling x 6 months. Inability to obtain full extension at times. Buckles. hx patella tendon repair. suspected lateral meniscal tear.; Right knee anterior pain and swelling for 4 years.suspected medial meniscal tear; Ibuprofen, Mobic, rest; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	2
Unknown	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	patient has acute pain and swelling of left ankle joint with no known injury. Xray was done with no findings. Treatment of steroid injection and rest was unsuccessful, patient reported no improvement in symptoms.; This is a request for an Ankle MRI.; Surgery or arthroscopy is not scheduled in the next 4 weeks.; The study is requested for ankle pain.; There is a suspicion of tendon or ligament injury.	1
Unknown	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	Patient reports pain for 3 months with no known injury. No improvement with rest. Unable to take anti inflammatories. complains of sharp burning pain with associated stiffness; This is a request for a foot MRI.; The study is being ordered for foot pain.; The study is being ordered for acute pain.	1

Unknown	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	This is a request for a Knee MRI.; The ordering physician is an orthopedist.; Suspected meniscus, tendon, or ligament injury	17
Unknown	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	This is a request for a Knee MRI.; The ordering physician is not an orthopedist.; Non-acute Chronic Pain; Swelling greater than 3 days	2
Unknown	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	This is a request for a Knee MRI.; The ordering physician is not an orthopedist.; Suspected meniscus, tendon, or ligament injury; No, there is no known trauma involving the knee.; Swelling greater than 3 days; Yes, the member experience a painful popping, snapping, or giving away of the knee.	1
Unknown	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	This is a request for a Knee MRI.; The ordering physician is not an orthopedist.; Suspected meniscus, tendon, or ligament injury; Yes, there is a known trauma involving the knee.; Instability	3
Unknown	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	This is a request for a Knee MRI.; The ordering physician is not an orthopedist.; Suspected meniscus, tendon, or ligament injury; Yes, there is a known trauma involving the knee.; Limited range of motion	1
Unknown	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	This is a request for a Knee MRI.; The ordering physician is not an orthopedist.; There is no suspected meniscus,pre-op or post-op evaluation,non-acute Chronic Pain,suspected tumor or Aseptic Necrosis; Instability	1

Unknown	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	This is a request for a Knee MRI.; The ordering physician is not an orthopedist.; There is no suspected meniscus,pre-op or post-op evaluation,non-acute Chronic Pain,supsected tumor or Aseptic Necrosis; Locking	1
Unknown	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	This is a request for a Knee MRI.; The patient had recent plain films of the knee.; The plain films were normal.; The ordering physician is not an orthopedist.; Non-acute Chronic Pain; Pain greater than 3 days	1
Unknown	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	This is a request for a Knee MRI.; The patient had recent plain films of the knee.; The plain films were normal.; The ordering physician is not an orthopedist.; Suspected meniscus, tendon, or ligament injury; No, there is no known trauma involving the knee.; Pain greater than 3 days; Yes, the member experience a painful popping, snapping, or giving away of the knee.	1
Unknown	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	This is a request for a Knee MRI.; The patient had recent plain films of the knee.; The plain films were normal.; The ordering physician is not an orthopedist.; There is no suspected meniscus,pre-op or post-op evaluation,non-acute Chronic Pain,supsected tumor or Aseptic Necrosis; Pain greater than 3 days	1
Unknown	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	This is a request for a Knee MRI.; The patient had recent plain films of the knee.; The plain films were not normal.; It is not known if the ordering physician is an orthopedist.; Suspected meniscus, tendon, or ligament injury; Yes, there is a known trauma involving the knee.; Pain greater than 3 days	1
Unknown	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	This is a request for a Knee MRI.; The patient had recent plain films of the knee.; The plain films were not normal.; The ordering physician is not an orthopedist.; Non-acute Chronic Pain; Pain greater than 3 days	1

Unknown	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	This is a request for a Knee MRI.; The patient had recent plain films of the knee.; The plain films were not normal.; The ordering physician is not an orthopedist.; Suspected meniscus, tendon, or ligament injury; Yes, there is a known trauma involving the knee.; Pain greater than 3 days	1
Unknown	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	This is a request for a Knee MRI.; The patient had recent plain films of the knee.; The plain films were not normal.; This study is being ordered prior to arthroscopic surgery.; The ordering physician is an orthopedist.; Pre-operative Evaluation; Pain greater than 3 days	1
Unknown	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	This is a request for a Knee MRI.; The patient has not had recent plain films of the knee.; The ordering physician is not an orthopedist.; Non-acute Chronic Pain; Pain greater than 3 days; Yes, patient has completed and failed a course of conservative treatment.; Physical Therapy	1
Unknown	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	This is a request for a Knee MRI.; The patient has not had recent plain films of the knee.; The ordering physician is not an orthopedist.; Non-acute Chronic Pain; Pain greater than 3 days; Yes, patient has completed and failed a course of conservative treatment.; Physician directed course of non-steroidal anti-inflammatory medications	1
Unknown	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	This is a request for a Knee MRI.; The patient has not had recent plain films of the knee.; The ordering physician is not an orthopedist.; Suspected meniscus, tendon, or ligament injury; Yes, there is a known trauma involving the knee.; Pain greater than 3 days; Yes, patient has completed and failed a course of conservative treatment.; Physician directed course of non-steroidal anti-inflammatory medications	1

Unknown	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s); without contrast material(s) and further sequences	This is a request for a Knee MRI.; The study is requested for knee pain.; The pain is described as chronic; The member has failed a 4 week course of conservative management in the past 3 months.	1
Unknown	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	This is a request for a Knee MRI.; The study is requested for knee pain.; The pain is from a recent injury.; There is not a suspected meniscus, tendon, or ligament injury.; There is a suspicion of fracture not adequately determined by x-ray.	1
Unknown	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	This is a request for a Knee MRI.; This study is being ordered prior to arthroscopic surgery.; The ordering physician is an orthopedist.; Pre-operative Evaluation; Locking	1
Unknown	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	This is a request for a lower extremity MRI.; This is not a pulsatile mass.; "There is no evidence of tumor or mass from a previous exam, plain film, ultrasound, or previous CT or MRI."; There is not a suspicion of an infection.; The patient is not taking antibiotics.; This is not a study for a fracture which does not show healing (non-union fracture).; This is a pre-operative study for planned surgery.	1
Unknown	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	This is a request for an Ankle MRI.; "There is a history (within the past six weeks) of significant trauma, dislocation, or injury to the ankle."; There is a history of new onset of severe pain in the ankle within the last two weeks.; There is not a suspected tarsal coalition.	1

Unknown	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	WONT KNOW IF SURGERY IS NEEDS UNTIL MRI IS DONE.; This is a request for an Ankle MRI.; It is not know if surgery or arthrscopy is scheduled in the next 4 weeks.; The study is requested for ankle pain.; There is a suspicion of tendon or ligament injury.	1
Unknown	Approval	73721 Magnetic resonance (eg, proton) imaging, any joint of lower extremity; without contrast material	FINDINGS: The pelvic ring is intact. Mild sclerosis seen involving the pubic symphysis. The SI joints are unremarkable. The bilateral femoral heads are well seated within the acetabula. There is a subtle cortical irregularity along the inferior as; This is a requests for a hip MRI.; Surgery or arthrscopy is not scheduled in the next 4 weeks.; There is not a suspicion of fracture not adequately determined by x-ray.; It is not known if there is a suspicion of tendon or ligament injury.; The hip pain is due to a recent injury.; The request is for hip pain.	1
Unknown	Approval	73721 Magnetic resonance (eg, proton) imaging, any joint of lower extremity; without contrast material	Physical Therapy - no help Increase pain with weight bearing Pain has been present for 1 year; This is a requests for a hip MRI.; The hip pain is not due to a recent injury, old injury, Chronic Hip Pain or a Mass.; The request is for hip pain.	1
Unknown	Approval	73721 Magnetic resonance (eg, proton) imaging, any joint of lower extremity; without contrast material	PROGRESS NOTE: Mr. Hill returns today in follow-up. He was involved in a motor vehicle accident in the summer of 2016. We saw him last summer with complaints of neck and back pain. He had undergone physical therapy and a couple of epidural steroid injec; This is a requests for a hip MRI.; It is not known if the member has failed a 4 week course of conservative management in the past 3 months.; The hip pain is due to an old injury.; The request is for hip pain.	1

Unknown	Approval	73721 Magnetic resonance (eg, proton) imaging, any joint of lower extremity; without contrast material	<p>This is a requests for a hip MRI.; This is a requests for a hip MRI.; This study is not being ordered in conjunction with a pelvic MRI.; This study is not being ordered in conjunction with a pelvic MRI.; "There is no a history (within the last six months) of significant trauma, dislocation, or injury to the hip."; "There is no a history (within the last six months) of significant trauma, dislocation, or injury to the hip."; There is not a suspicion of AVN.; There is not a suspicion of AVN.; The patient is receiving long-term steriod therapy (Prednisone or Cortisone).; The patient is not receiving long-term steriod therapy (Prednisone or Cortisone).; The patient does not have an abnormal plain film study of the hip other than arthritis.; The patient has not used a cane or crutches for greater than four weeks.; The patient has been treated with and failed a course of supervised physical therapy.; The patient has a documented limitation of their range of motion.; The patient has a documented limitation of their range of motion.</p>	1
Unknown	Approval	73721 Magnetic resonance (eg, proton) imaging, any joint of lower extremity; without contrast material	<p>This is a requests for a hip MRI.; This study is not being ordered in conjunction with a pelvic MRI.; "There is a history (within the last six months) of significant trauma, dislocation, or injury to the hip."; There is a suspicion of AVN.</p>	1

Unknown	Approval	74150 Computed tomography, abdomen; without contrast material	<p>Limited evaluation due to the patient's large body habitus and shadowing bowel gas; 2. Borderline hepatomegaly; 3. Surgically absent gallbladder. presents with a f/u on his upper abdominal pain. Location of pain is epigastric. Gets worse at the end of ; This is a request for an Abdomen CT.; This study is being ordered for an infection such as pancreatitis, appendicitis, abscess, colitis and inflammatory bowel disease.; There are NO abnormal lab results or physical findings on exam such as rebound or guarding that are consistent with peritonitis, abscess, pancreatitis or appendicitis.; This study is being ordered for another reason besides Crohn's disease, Abscess, Ulcerative Colitis, Acute Non-ulcerative Colitis, Diverticulitis, or Inflammatory bowel disease.; There are no findings that confirm hepatitis C.; No, the patient has not been seen by a specialist or are the studies being requested on behalf of a specialist for an infection.; Yes this is a request for a Diagnostic CT</p>	1
Unknown	Approval	74150 Computed tomography, abdomen; without contrast material	<p>Patient had a CT abdomen and pelvis which showed incidental bilateral adrenal nodules that need to be followed up on for further evaluation; This is a request for an Abdomen CT.; This study is being ordered for a suspicious mass or tumor.; There is no suspicious mass found using ultrasound, IVP, Endoscopy, colonoscopy, or sigmoidoscopy.; There is suspicion of an adrenal mass (pheochromocytoma).; The suspicion of an adrenal mass was suggested by some type of imaging other than an Ultrasound.; Yes this is a request for a Diagnostic CT</p>	1

Unknown	Approval	74150 Computed tomography, abdomen; without contrast material	<p>Patient presents with c/o severe abdominal pain to paraumbilical region, nausea; x2days ago. Reports slight improvement yesterday, however returned worse last night. Patient reports pain continues; however now more of a dull, aching sensation (versus the ; This is a request for an Abdomen CT.; This study is being ordered for another reason besides Kidney/Ureteral stone, &amp;#x0D; Known Tumor, Cancer, Mass, or R/O metastases, Suspicious Mass or Tumor, Organ Enlargement, &amp;#x0D; Known or suspected infection such as pancreatitis, etc..; There are no findings of Hematuria, Lymphadenopathy,weight loss,abdominal pain,diabetic patient with gastroparesis; Yes this is a request for a Diagnostic CT</p>	1
Unknown	Approval	74150 Computed tomography, abdomen; without contrast material	<p>R/O APPENDICITIS OR GALL STONES; This is a request for an Abdomen CT.; This study is being ordered for an infection such as pancreatitis, appendicitis, abscess, colitis and inflammatory bowel disease.; There are NO abnormal lab results or physical findings on exam such as rebound or guarding that are consistent with peritonitis, abscess, pancreatitis or appendicitis.; This study is being ordered for another reason besides Crohn's disease, Abscess, Ulcerative Colitis, Acute Non-ulcerative Colitis, Diverticulitis, or Inflammatory bowel disease.; There are no findings that confirm hepatitis C.; No, the patient has not been seen by a specialist or are the studies being requested on behalf of a specialist for an infection.; Yes this is a request for a Diagnostic CT</p>	1
Unknown	Approval	74150 Computed tomography, abdomen; without contrast material	<p>This is a request for an Abdomen CT.; This study is being ordered for a suspicious mass or tumor.; There is a suspicious mass found using ultrasound, IVP, Endoscopy, colonoscopy, or sigmoidoscopy.; Yes this is a request for a Diagnostic CT</p>	1

Unknown	Approval	74150 Computed tomography, abdomen; without contrast material	This is a request for an Abdomen CT.; This study is being ordered for an infection such as pancreatitis, appendicitis, abscess, colitis and inflammatory bowel disease.; There are abnormal lab results or physical findings on exam such as rebound or guarding that are consistent with peritonitis, abscess, pancreatitis or appendicitis.; No, the patient has not been seen by a specialist or are the studies being requested on behalf of a specialist for an infection.; Yes this is a request for a Diagnostic CT	1
Unknown	Approval	74150 Computed tomography, abdomen; without contrast material	This is a request for an Abdomen CT.; This study is being ordered for an infection such as pancreatitis, appendicitis, abscess, colitis and inflammatory bowel disease.; There are known or endoscopic findings of Abscess.; Yes this is a request for a Diagnostic CT	1
Unknown	Approval	74150 Computed tomography, abdomen; without contrast material	This is a request for an Abdomen CT.; This study is being ordered for an infection such as pancreatitis, appendicitis, abscess, colitis and inflammatory bowel disease.; Yes, the patient has been seen by a specialist or are the studies being requested on behalf of a specialist for an infection.; Yes this is a request for a Diagnostic CT	1
Unknown	Approval	74175 Computed tomographic angiography, abdomen, with contrast material(s), including noncontrast images, if performed, and image postprocessing	Yes, this is a request for CT Angiography of the abdomen.	1
Unknown	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	&lt; Enter answer here - or Type In Unknown If No Info Given. &gt;; This is a request for an abdomen-pelvis CT combination.; A urinalysis has not been completed.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; The patient did not have a amylase or lipase lab test.; Yes this is a request for a Diagnostic CT	1

Unknown	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	&lt; Enter answer here - or Type In Unknown If No Info Given. &gt;; This is a request for an abdomen-pelvis CT combination.; The reason for the study is none of the listed reasons.; It is not know if this study is being requested for abdominal and/or pelvic pain.; It is not known if the study is requested for hematuria.; Yes this is a request for a Diagnostic CT	1
Unknown	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	; This study is being ordered for a metastatic disease.; There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	2
Unknown	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	; This study is being ordered for a metastatic disease.; There are 3 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Unknown	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	Continuation of care for colon cancer, he has liver and lung metastatic disease; This study is being ordered for a metastatic disease.; There are 3 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

Unknown	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	<p>generalized abdominal pain - the majority of pain seems to be mid abdomen - describes pain as sharp for past week with nausea and diarrhea started this morning. She describes stool as gray color; This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for acute pain.; There has been a physical exam.; The patient is female.; A pelvic exam was performed.; The results of the exam were abnormal.; Yes this is a request for a Diagnostic CT</p>	1
Unknown	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	<p>left flank pain; lung nodule; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; left flank pain; solitary lung nodule; There has been treatment or conservative therapy.; Patient has flank pain that has been treated with antibiotics; This is a followup chest CT to evaluate a lung nodule. Pulmonology suggested CT's every 1-2 years; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology</p>	1
Unknown	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	<p>LUNG CANCER; This study is being ordered for a metastatic disease.; There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology</p>	1

Unknown	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	One right external iliac and two inguinal nodes have a slight increase in size and activity. These findings are not at the levels that would be considered malignant but since there has been an interval change recommend CT followup; in 3-6 months to be ; This study is being ordered for a metastatic disease.; There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Unknown	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	PATIENT HAS CANCER; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Unknown	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	Patient has microscopic hematuria, urinary frequency enlarged prostate and back pain. Cause of hematuria is unknown.; This is a request for an abdomen-pelvis CT combination.; A urinalysis has been completed.; The reason for the hematuria is not known.; This study is not being requested for abdominal and/or pelvic pain.; The study is requested for hematuria.; The results of the urinalysis were abnormal.; The urinalysis was positive for bilirubin.; Yes this is a request for a Diagnostic CT	1
Unknown	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	patient presented to clinic complaining of abdominal pain and nausea and vomiting for 3 days. Patient was in the ER 3 days ago and had fever of 102. A KUB was performed on patient, and she had dilated loops in her small bowel. Patient also complains of; This is a request for an abdomen-pelvis CT combination.; A urinalysis has not been completed.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; The patient did not have a amylase or lipase lab test.; Yes this is a request for a Diagnostic CT	1

Unknown	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	Pt complains of abdominal pain, meds do not help. Ultrasound was normal; This is a request for an abdomen-pelvis CT combination.; A urinalysis has not been completed.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; The patient had an lipase lab test.; The results of the lab test were normal.; Yes this is a request for a Diagnostic CT	1
Unknown	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	Recurrent ventral hernia - He developed a colonic perforation with peritonitis resulting in a Hartmann's procedure in the construction of colostomy in 2015. This was then followed by a colostomy takedown. This was then followed by laparoscopic ventral her; This is a request for an abdomen-pelvis CT combination.; The reason for the study is pre-op or post op evaluation.; The study is requested for preoperative evaluation.; It is not known if surgery is planned for within 30 days.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; Yes this is a request for a Diagnostic CT	1
Unknown	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	RESTAGING ACTIVE LYMPHOMA; This study is being ordered for a metastatic disease.; There are 3 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Unknown	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	RESTAGING COLON CANCER; This study is being ordered for a metastatic disease.; There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

Unknown	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	RESTAGING DURING ONGOING TREATMENT ASSESS RESPONSE TO THERAPY; This study is being ordered for a metastatic disease.; There are 3 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Unknown	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	RESTAGING LUNG CANCER; This study is being ordered for a metastatic disease.; There are 3 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Unknown	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	RESTAGING RENAL CANCER; This study is being ordered for a metastatic disease.; There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Unknown	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	RESTAGING SCANS CANCER; This study is being ordered for a metastatic disease.; There are 3 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

Unknown	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	This is a request for an abdomen-pelvis CT combination.; A urinalysis has been completed.; The reason for the hematuria is not known.; This study is not being requested for abdominal and/or pelvic pain.; The study is requested for hematuria.; The results of the urinalysis were abnormal.; The urinalysis was positive for hematuria/blood.; Yes this is a request for a Diagnostic CT	1
Unknown	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	This is a request for an abdomen-pelvis CT combination.; A urinalysis has been completed.; This study is being requested for abdominal and/or pelvic pain.; The results of the urinalysis were abnormal.; The urinalysis was positive for hematuria/blood.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; The patient did not have a amylase or lipase lab test.; Yes this is a request for a Diagnostic CT	4
Unknown	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	This is a request for an abdomen-pelvis CT combination.; A urinalysis has not been completed.; The reason for the study is renal calculi, kidney or ureteral stone.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; Yes this is a request for a Diagnostic CT	1
Unknown	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	This is a request for an abdomen-pelvis CT combination.; A urinalysis has not been completed.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; The patient did not have a amylase or lipase lab test.; Yes this is a request for a Diagnostic CT	2
Unknown	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	This is a request for an abdomen-pelvis CT combination.; It is not know if this study is being requested for abdominal and/or pelvic pain.; The study is requested for hematuria.; Yes this is a request for a Diagnostic CT	1

Unknown	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	This is a request for an abdomen-pelvis CT combination.; The reason for the study is infection.; The patient does not have a fever and elevated white blood cell count or abnormal amylase/lipase.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; The patient has Diverticulitis.; Yes this is a request for a Diagnostic CT	1
Unknown	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	This is a request for an abdomen-pelvis CT combination.; The reason for the study is known tumor.; This is not request for evaluation of prostate cancer.; This study is being ordered for follow-up.; It is not know if this study is being requested for abdominal and/or pelvic pain.; It is not known if the study is requested for hematuria.; The patient is male.; The patient completed a course of chemotherapy or radiation therapy within the past 90 days.; Yes this is a request for a Diagnostic CT	1
Unknown	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	This is a request for an abdomen-pelvis CT combination.; The reason for the study is known tumor.; This is not request for evaluation of prostate cancer.; This study is being ordered for follow-up.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; The patient is male.; The patient completed a course of chemotherapy or radiation therapy within the past 90 days.; Yes this is a request for a Diagnostic CT	1
Unknown	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	This is a request for an abdomen-pelvis CT combination.; The reason for the study is known tumor.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; Yes this is a request for a Diagnostic CT	1

Unknown	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	This is a request for an abdomen-pelvis CT combination.; The reason for the study is organ enlargement.; It is not known if there is ultrasound or plain film evidence of an abdominal organ enlargement.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; Yes this is a request for a Diagnostic CT	1
Unknown	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	This is a request for an abdomen-pelvis CT combination.; The reason for the study is pre-op or post op evaluation.; The study is requested for post-op evaluation.; The study is requested as a first follow up study for a suspected or known post-op complication.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; Yes this is a request for a Diagnostic CT	1
Unknown	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	This is a request for an abdomen-pelvis CT combination.; The reason for the study is pre-op or post op evaluation.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; Yes this is a request for a Diagnostic CT	1
Unknown	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	This is a request for an abdomen-pelvis CT combination.; The reason for the study is suspicious mass or suspected tumor or metastasis.; The patient is not presenting new symptoms.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; The last Abdomen/Pelvis CT was performed more than 10 months ago.; The patient had an abnormal abdominal Ultrasound, CT or MR study.; The patient has NOT completed a course of chemotherapy or radiation therapy within the past 90 days.; Yes this is a request for a Diagnostic CT	1

Unknown	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	This is a request for an abdomen-pelvis CT combination.; The reason for the study is suspicious mass or suspected tumor or metastasis.; The patient is presenting new symptoms.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; The patient had an abnormal abdominal Ultrasound, CT or MR study.; The patient has NOT completed a course of chemotherapy or radiation therapy within the past 90 days.; Yes this is a request for a Diagnostic CT	4
Unknown	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for acute pain.; There has been a physical exam.; The patient is female.; A pelvic exam was NOT performed.; Yes this is a request for a Diagnostic CT	4
Unknown	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for acute pain.; There has been a physical exam.; The patient is male.; A rectal exam was not performed.; Yes this is a request for a Diagnostic CT	3
Unknown	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is female.; A pelvic exam was NOT performed.; Yes this is a request for a Diagnostic CT	1
Unknown	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is female.; It is not known if a pelvic exam was performed.; Yes this is a request for a Diagnostic CT	1

Unknown	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; The patient had an lipase lab test.; The results of the lab test were abnormal.; Yes this is a request for a Diagnostic CT	1
Unknown	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	This is a request for an abdomen-pelvis CT combination.; This study is not being requested for abdominal and/or pelvic pain.; The study is requested for hematuria.; Yes this is a request for a Diagnostic CT	9
Unknown	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	Unknown; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Unknown	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	unknown; This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for acute pain.; There has been a physical exam.; The patient is male.; A rectal exam was performed.; The results of the exam were normal.; The patient had an Ultrasound.; The Ultrasound was abnormal.; The ultrasound showed a pelvic mass.; Yes this is a request for a Diagnostic CT	1
Unknown	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)	Abnormal Findings on Ultrasound; This request is for an Abdomen MRI.; This study is being ordered for known or suspected infection.; There are NO physical findings or abnormal blood work consistent with peritonitis, pancreatitis or appendicitis.; There is active or clinical findings of ulcerative colitis, bowel inflammation or diverticulitis.	1
Unknown	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)	Patient had hepatitis C and alcoholic cirrhosis and now has an elevated AFP. Ordering MRI to rule out Hepatocellular carcinoma.; This request is for an Abdomen MRI.; This study is not being ordered for known tumor, suspicious mass or suspected tumor/metastasis, organ enlargement, known or suspected vascular disease, hematuria, follow-up trauma, or a pre-operative evaluation.	1

Unknown	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)	This request is for an Abdomen MRI.; This study is being ordered for organ enlargement.; There is an ultrasound or plain film evidence of an abdominal organ enlargement.; &lt; Enter answer here - or Type In Unknown If No Info Given. &gt;	1
Unknown	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)	This request is for an Abdomen MRI.; This study is being ordered for suspicious mass or suspected tumor/metastasis.; "There are documented physical findings (painless hematuria, etc.) consistent with an abdominal mass or tumor."; "The patient has had an abdominal ultrasound, CT, or MR study."; Ill-defined 6.1 cm region of mild hyperenhancement in the right lobe of the liver with mild ill-defined biliary ductal dilatation in this&#x0D; region. Differentials include cholangitis versus ill-defined infiltrative neoplasm versus unusual hemangioma versus	1
Unknown	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)	This request is for an Abdomen MRI.; This study is being ordered for suspicious mass or suspected tumor/metastasis.; "There are documented physical findings (painless hematuria, etc.) consistent with an abdominal mass or tumor."; "The patient has had an abdominal ultrasound, CT, or MR study."; Pt had ultrasound due to abdominal pain. Result showed 2 suspicious hepatic lesions that should be evaluated.	1
Unknown	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)	This request is for an Abdomen MRI.; This study is not being ordered for known tumor, suspicious mass or suspected tumor/metastasis, organ enlargement, known or suspected vascular disease, hematuria, follow-up trauma, or a pre-operative evaluation.; Patient had MRI done in 2016 that showed multiple liver lesions. It was recommended that she followed up on those now that she's off her birth control	1

Unknown	Approval	75572 Computed tomography, heart, with contrast material, for evaluation of cardiac structure and morphology (including 3D image postprocessing, assessment of cardiac function, and evaluation of venous structures, if performed)	This is a request for a Heart CT.	1
Unknown	Approval	75574 Computed tomographic angiography, heart, coronary arteries and bypass grafts (when present), with contrast material, including 3D image postprocessing (including evaluation of cardiac structure and morphology, assessment of cardiac function, and evaluation of venous structures, if performed)	The patient has three or more of the following conditions: age over 50, diabetes, history of hypertension, history of LDL cholesterol above 130, history of HDL cholesterol below 35, obesity (BMI above 35), and/or active history of smoking.; This request is for a Coronary CT Angiography study.; No, patient did not have a Nuclear Cardiology study within the past six months.; This study is being ordered for suspected Coronary Artery Disease (CAD) and symptomatic?; No, patient does not have new onset congestive heart failure.; Patient with an equivocal stress test still having complaint of chest pain. Patient has a history of tobacco use, decreased exercise tolerance, hypertension, and fatigue; Yes, there is Chronic Chest Pain.	1
Unknown	Approval	75574 Computed tomographic angiography, heart, coronary arteries and bypass grafts (when present), with contrast material, including 3D image postprocessing (including evaluation of cardiac structure and morphology, assessment of cardiac function, and evaluation of venous structures, if performed)	The patient has three or more of the following conditions: age over 50, diabetes, history of hypertension, history of LDL cholesterol above 130, history of HDL cholesterol below 35, obesity (BMI above 35), and/or active history of smoking.; This request is for a Coronary CT Angiography study.; No, patient did not have a Nuclear Cardiology study within the past six months.; This study is being ordered for suspected Coronary Artery Disease (CAD) and symptomatic?; No, patient does not have new onset congestive heart failure.; Patient with complaint of chest pain that is intermittent. Patient had a negative stress test. Patient has a history of tobacco use, hypertension, GERD, asthma, and hyperlipidemia.; Yes, there is Chronic Chest Pain.	1

Unknown	Approval	75635 Computed tomographic angiography, abdominal aorta and bilateral iliofemoral lower extremity runoff, with contrast material(s), including noncontrast images, if performed, and image postprocessing	Yes, this is a request for CT Angiography of the abdominal arteries.	1
Unknown	Approval	77058 Magnetic resonance imaging, breast, without and/or with contrast material(s); unilateral	; This is a request for Breast MRI.; This study is being ordered for known breast lesions.; There are NOT benign lesions in the breast associated with an increased cancer risk.	1
Unknown	Approval	77058 Magnetic resonance imaging, breast, without and/or with contrast material(s); unilateral	CYSTS; This is a request for Breast MRI.; This study is being ordered as a screening examination for known family history of breast cancer.; There are NOT benign lesions in the breast associated with an increased cancer risk.; There is NOT a pattern of breast cancer history in at least two first-degree relatives (parent, sister, brother, or children).	1
Unknown	Approval	77058 Magnetic resonance imaging, breast, without and/or with contrast material(s); unilateral	MRI is needed to further evaluate and stage her newly diagnosed breast cancer.; This is a request for Breast MRI.; This study is being ordered for a known history of breast cancer.; It is not known if this is an individual who has known breast cancer in the contralateral (other) breast.	1
Unknown	Approval	77058 Magnetic resonance imaging, breast, without and/or with contrast material(s); unilateral	THE PATIENT HAS AN INCONCLUSIVE MAMMO AND IS NEEDING FURTHER EVALUATION.; This is a request for Breast MRI.; This study is being ordered for something other than known breast cancer, known breast lesions, screening for known family history, screening following genetic testing or a suspected implant rupture.	1
Unknown	Approval	77058 Magnetic resonance imaging, breast, without and/or with contrast material(s); unilateral	This is a request for Breast MRI.; This study is being ordered as a screening examination for known family history of breast cancer.; There is a pattern of breast cancer history in at least two first-degree relatives (parent, sister, brother, or children).	2

Unknown	Approval	77058 Magnetic resonance imaging, breast, without and/or with contrast material(s); unilateral	This is a request for Breast MRI.; This study is being ordered for a known history of breast cancer.; No, this is not an individual who has known breast cancer in the contralateral (other) breast.; Yes, this is a confirmed breast cancer.; Yes, the results of this MRI (size and shape of tumor) affect the patient's further management.	1
Unknown	Approval	77058 Magnetic resonance imaging, breast, without and/or with contrast material(s); unilateral	This is a request for Breast MRI.; This study is being ordered for a known history of breast cancer.; Yes, this is an individual who has known breast cancer in the contralateral (other) breast.	1
Unknown	Approval	77084 Magnetic resonance (eg, proton) imaging, bone marrow blood supply	; This is a request for an MRI Bone Marrow.	1
Unknown	Approval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)	; The patient has had a stress echocardiogram within the past eight weeks.; This is a request for Myocardial Perfusion Imaging (Nuclear Cardiology Study).; This is NOT a Medicare member.; The patient's age is between 45 and 64 years old.	1
Unknown	Approval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)	KIDNEY TRANSPLANT; This study is being ordered as a pre-operative evaluation.; The patient is not presenting with symptoms of atypical chest pain and/or shortness of breath.; The patient has not had a recent non-nuclear stress test.; The patient has not had a recent abnormal EKG consistent with CAD.; The patient has not had a recent stress echocardiogram.; The patient has not had a recent stress echocardiogram.; The patient has suspected CAD.; The patient has not had a stress echocardiogram within the past eight weeks.; This evaluation is prior to major surgery involving general anesthesia.; This is a request for Myocardial Perfusion Imaging (Nuclear Cardiology Study).; This is NOT a Medicare member.; The patient's age is between 45 and 64 years old.	1

Unknown	Approval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)	The patient is diabetic.; This is a request for Myocardial Perfusion Imaging (Nuclear Cardiology Study).; This is NOT a Medicare member.; The patient is less than 45 years old.	1
Unknown	Approval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)	The patient is presenting with symptoms of atypical chest pain and/or shortness of breath.; This is a request for Myocardial Perfusion Imaging (Nuclear Cardiology Study).; The patient does not have diabetes.; This is a Medicare member.	2
Unknown	Approval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)	The study is being ordered for known CAD.; The patient is presenting new symptoms of chest pain or increasing shortness of breath.; This patient had a previous cardiac surgery or angioplasty.; The patient has not had a stress echocardiogram within the past eight weeks.; This is a request for Myocardial Perfusion Imaging (Nuclear Cardiology Study).; This is NOT a Medicare member.; The patient's age is between 45 and 64 years old.	3

Unknown	Approval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)	The study is being ordered for known CAD.; The patient is presenting new symptoms of chest pain or increasing shortness of breath.; This patient had a previous myocardial infarction.; The patient has not had a stress echocardiogram within the past eight weeks.; This is a request for Myocardial Perfusion Imaging (Nuclear Cardiology Study).; This is NOT a Medicare member.; The patient's age is between 45 and 64 years old.	1
Unknown	Approval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)	The study is being ordered for suspected CAD.; The patient is presenting with symptoms of atypical chest pain and/or shortness of breath.; There are documented clinical findings of hyperlipidemia.; The patient has not had a recent non-nuclear stress test.; The patient has not had a stress echocardiogram within the past eight weeks.; This is a request for Myocardial Perfusion Imaging (Nuclear Cardiology Study).; The patient has a physical limitation to exercise.; This is NOT a Medicare member.; The patient's age is between 45 and 64 years old.	5
Unknown	Approval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)	The study is being ordered for suspected CAD.; The patient is presenting with symptoms of atypical chest pain and/or shortness of breath.; There are no documented clinical findings of hyperlipidemia.; The patient has not had a recent non-nuclear stress test.; This patient is clinically obese or has an emphysematous chest configuration.; The patient has not had a stress echocardiogram within the past eight weeks.; This is a request for Myocardial Perfusion Imaging (Nuclear Cardiology Study).; The patient has a physical limitation to exercise.; This is NOT a Medicare member.; The patient's age is between 45 and 64 years old.	2

Unknown	Approval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)	The study is being ordered for suspected CAD.; The patient is presenting with symptoms of atypical chest pain and/or shortness of breath.; There are no documented clinical findings of hyperlipidemia.; There are documented clinical findings of hypertension.; The patient has not had a recent non-nuclear stress test.; "Patient is not clinically obese, nor has an emphysematous chest configuration."; The patient has not had a stress echocardiogram within the past eight weeks.; This is a request for Myocardial Perfusion Imaging (Nuclear Cardiology Study).; The patient has a physical limitation to exercise.; This is NOT a Medicare member.; The patient's age is between 45 and 64 years old.	1
Unknown	Approval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)	This is a request for Myocardial Perfusion Imaging (Nuclear Cardiology Study).; The patient has 3 or more cardiac risk factors; The study is not requested for pre op evaluation, cardiac mass, CHF, septal defects, or valve disorders.; The study is requested for suspected coronary artery disease.; The member has known or suspected coronary artery disease.; The BMI is 40 or greater	1
Unknown	Approval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)	This is a request for Myocardial Perfusion Imaging (Nuclear Cardiology Study).; The patient has diabetes.; This is NOT a Medicare member.; The patient is 65 or older.	1

Unknown	Approval	78459 Myocardial imaging, positron emission tomography (PET), metabolic evaluation	This is a request for a Cardiac-imaging PET scan.; This study is being ordered to identify a myocardial perfusion defect.; This patient has had a SPECT scan within the past eight (8) weeks.; Yes, the patient has symptoms including chest tightness, angina and/or shortness of breath on exertion.; The SPECT scan was inconclusive.	1
Unknown	Approval	78813 Positron emission tomography (PET) imaging; whole body	This is a request for a Tumor Imaging PET Scan; This study is being ordered for initial treatment (after a diagnosis of Cancer has been made).; This study is being ordered for something other than Breast CA, Lymphoma, Myeloma, Ovarian CA, Esophageal CA, Lung CA, Colorectal CA, Head/Neck CA, Melanoma, Soft Tissue Sarcoma, Pancreatic CA or Testicular CA.; This study is being requested for Thyroid Cancer.; This would be the first PET Scan performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Unknown	Approval	78813 Positron emission tomography (PET) imaging; whole body	This is a request for a Tumor Imaging PET Scan; This study is being ordered for subsequent treatment.; This study is being requested for Lymphoma or Myeloma.; The patient completed a course of treatment initiated within the last 8 weeks.; 2 PET Scans have already been performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Unknown	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body	RESTAGING METASTATIC COLORECTAL CANCER; This study is being ordered for a metastatic disease.; There are 3 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

Unknown	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body	RESTAGING NSCLC MOST RECENT SCANS SHOWED ADRENAL NODULES WHICH MERASTATIC DISEASE COULD NOT BE EXCLUDED.; This study is being ordered for a metastatic disease.; There are 3 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Unknown	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body	RESTAGING SCANS CANCER; This study is being ordered for a metastatic disease.; There are 3 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Unknown	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body	SURVEILLANCE; This study is being ordered for a metastatic disease.; There are 4 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Unknown	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body	This is a request for a Tumor Imaging PET Scan; 1 PET Scans has already been performed on this patient for this cancer.; This is a Medicare member.; This study is being requested for None of the above; This Pet Scan is being ordered for Breast Cancer; This request is NOT for the initial diagnosis and/or initial staging of axillary lymph nodes; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1

Unknown	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body	This is a request for a Tumor Imaging PET Scan; This is a Medicare member.; This study is being requested for None of the above; This Pet Scan is being ordered for something other than Prostate, Cervical, Breast Cancer or Melanoma; This study is being requested for Other, not listed above; This Pet Scan is being requested for None of the above; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Unknown	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body	This is a request for a Tumor Imaging PET Scan; This study is being ordered for initial treatment (after a diagnosis of Cancer has been made).; This study is being ordered for something other than Breast CA, Lymphoma, Myeloma, Ovarian CA, Esophageal CA, Lung CA, Colorectal CA, Head/Neck CA, Melanoma, Soft Tissue Sarcoma, Pancreatic CA or Testicular CA.; This study is being requested for an other solid tumor.; This would be the first PET Scan performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Unknown	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body	This is a request for a Tumor Imaging PET Scan; This study is being ordered for initial treatment (after a diagnosis of Cancer has been made).; This study is being requested for Colo-rectal Cancer.; 1 PET Scans has already been performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Unknown	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body	This is a request for a Tumor Imaging PET Scan; This study is being ordered for initial treatment (after a diagnosis of Cancer has been made).; This study is being requested for Head/Neck Cancer.; The patient does NOT have Thyroid or Brain cancer.; This would be the first PET Scan performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1

Unknown	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body	This is a request for a Tumor Imaging PET Scan; This study is being ordered for initial treatment (after a diagnosis of Cancer has been made).; This study is being requested for Head/Neck Cancer.; The patient has Thyroid cancer.; 3 PET Scans have already been performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Unknown	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body	This is a request for a Tumor Imaging PET Scan; This study is being ordered for initial treatment (after a diagnosis of Cancer has been made).; This study is being requested for Lymphoma or Myeloma.; This would be the first PET Scan performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Unknown	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body	This is a request for a Tumor Imaging PET Scan; This study is being ordered for something other than Breast CA, Lymphoma, Myeloma, Ovarian CA, Esophageal CA, Lung CA, Colorectal CA, Head/Neck CA, Melanoma, Soft Tissue Sarcoma, Pancreatic CA or Testicular CA.; This study is not being ordered for Cervical CA, Brain Cancer/Tumor or Mass, Thyroid CA or other solid tumor.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Unknown	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body	This is a request for a Tumor Imaging PET Scan; This study is being ordered for subsequent treatment.; This study is being requested for Breast Cancer.; The patient is experiencing new signs or symptoms indicating a reoccurrence of cancer.; More than 4 PET Scans have already been performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1

Unknown	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body	This is a request for a Tumor Imaging PET Scan; This study is being ordered for subsequent treatment.; This study is being requested for Breast Cancer.; The study is NOT being ordered after completing a course of treatment initiated in the last 8 weeks or because they are experiencing new signs or symptoms.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Unknown	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body	This is a request for a Tumor Imaging PET Scan; This study is being ordered for subsequent treatment.; This study is being requested for Head/Neck Cancer.; The patient is experiencing new signs or symptoms indicating a reoccurrence of cancer.; The patient does NOT have Thyroid or Brain cancer.; 1 PET Scans has already been performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Unknown	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body	This is a request for a Tumor Imaging PET Scan; This study is being ordered for subsequent treatment.; This study is being requested for Lung Cancer.; The patient has been diagnosed with NON small lung cancer.; The patient is experiencing new signs or symptoms indicating a reoccurrence of cancer.; 2 PET Scans have already been performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Unknown	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body	This is a request for a Tumor Imaging PET Scan; This study is being ordered for subsequent treatment.; This study is being requested for Lymphoma or Myeloma.; The patient is experiencing new signs or symptoms indicating a reoccurrence of cancer.; 1 PET Scans has already been performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1

Unknown	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body	This is a request for a Tumor Imaging PET Scan; This study is being ordered for subsequent treatment.; This study is being requested for Lymphoma or Myeloma.; The patient is experiencing new signs or symptoms indicating a reoccurrence of cancer.; This would be the first PET Scan performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Unknown	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body	This is a request for a Tumor Imaging PET Scan; This study is being ordered for subsequent treatment.; This study is being requested for Lymphoma or Myeloma.; The study is NOT being ordered after completing a course of treatment initiated in the last 8 weeks or because they are experiencing new signs or symptoms.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	2
Unknown	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body	This is a request for a Tumor Imaging PET Scan; This study is being ordered for subsequent treatment.; This study is being requested for Ovarian or Esophageal Cancer.; The patient is experiencing new signs or symptoms indicating a reoccurrence of cancer.; This would be the first PET Scan performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Unknown	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body	This is a request for a Tumor Imaging PET Scan; This study is being ordered to establish a cancer diagnosis.; There is existing evidence of metastasis or other tumor in the body.; This study is being requested for Head/Neck Cancer.; The patient does NOT have Thyroid or Brain cancer.; This would be the first PET Scan performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1

Unknown	Approval	93307 Echocardiography, transthoracic, real-time with image documentation (2D), includes M-mode recording, when performed, complete, without spectral or color Doppler echocardiography	RESTAGING DURING ONGOING TREATMENT ASSESS RESPONSE TO THERAPY; This study is being ordered for a metastatic disease.; There are 3 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Unknown	Approval	93307 Echocardiography, transthoracic, real-time with image documentation (2D), includes M-mode recording, when performed, complete, without spectral or color Doppler echocardiography	This a request for an echocardiogram.; This is a request for a Transthoracic Echocardiogram.; This study is being ordered for another reason; The reason for ordering this study is unknown.	1
Unknown	Approval	93307 Echocardiography, transthoracic, real-time with image documentation (2D), includes M-mode recording, when performed, complete, without spectral or color Doppler echocardiography	This a request for an echocardiogram.; This is a request for a Transthoracic Echocardiogram.; This study is being ordered for another reason; This study is being ordered for evaluation of abnormal symptoms, physical exam findings, or diagnostic studies (chest x-ray or EKG) indicative of heart disease.; This is for the initial evaluation of abnormal symptoms, physical exam findings, or diagnostic studies (chest x-ray or EKG) indicatvie of heart disease.; This study is NOT being requested for the initial evaluation of frequent or sustained atrial or ventricular cardiac arrhythmias.; The patient has an abnormal EKG	1
Unknown	Approval	93307 Echocardiography, transthoracic, real-time with image documentation (2D), includes M-mode recording, when performed, complete, without spectral or color Doppler echocardiography	This a request for an echocardiogram.; This is a request for a Transthoracic Echocardiogram.; This study is being ordered for Evaluation of Cardiac Murmur.; This request is for initial evaluation of a murmur.; It is unknown if the murmur is grade III (3) or greater.; It is unknown if there is clinical symptoms supporting a suspicion of structural heart disease.; This is NOT a request for follow up of a known murmur.	1

Unknown	Approval	93307 Echocardiography, transthoracic, real-time with image documentation (2D), includes M-mode recording, when performed, complete, without spectral or color Doppler echocardiography	This a request for an echocardiogram.; This is a request for a Transthoracic Echocardiogram.; This study is being ordered for Evaluation of Cardiac Murmur.; This request is for initial evaluation of a murmur.; It is unknown if the murmur is grade III (3) or greater.; There are clinical symptoms supporting a suspicion of structural heart disease.	1
Unknown	Approval	93307 Echocardiography, transthoracic, real-time with image documentation (2D), includes M-mode recording, when performed, complete, without spectral or color Doppler echocardiography	This a request for an echocardiogram.; This is a request for a Transthoracic Echocardiogram.; This study is being ordered for Evaluation of Cardiac Valves.; The patient has suspected prolapsed mitral valve.	1
Unknown	Approval	93307 Echocardiography, transthoracic, real-time with image documentation (2D), includes M-mode recording, when performed, complete, without spectral or color Doppler echocardiography	This a request for an echocardiogram.; This is a request for a Transthoracic Echocardiogram.; This study is being ordered for Evaluation of Cardiac Valves.; This is an initial evaluation of suspected valve disease.	1
Unknown	Approval	93307 Echocardiography, transthoracic, real-time with image documentation (2D), includes M-mode recording, when performed, complete, without spectral or color Doppler echocardiography	This a request for an echocardiogram.; This is a request for a Transthoracic Echocardiogram.; This study is being ordered for Evaluation of Heart Failure; This is for the initial evaluation of heart failure.	1
Unknown	Approval	93307 Echocardiography, transthoracic, real-time with image documentation (2D), includes M-mode recording, when performed, complete, without spectral or color Doppler echocardiography	This a request for an echocardiogram.; This is a request for a Transthoracic Echocardiogram.; This study is being ordered for Evaluation of Left Ventricular Function.; It is unknown if the patient has a history of a recent heart attack or hypertensive heart disease.	1
Unknown	Approval	93307 Echocardiography, transthoracic, real-time with image documentation (2D), includes M-mode recording, when performed, complete, without spectral or color Doppler echocardiography	This a request for an echocardiogram.; This is a request for a Transthoracic Echocardiogram.; This study is being ordered for Evaluation of Left Ventricular Function.; The patient does not have a history of a recent heart attack or hypertensive heart disease.	1

Unknown	Approval	93307 Echocardiography, transthoracic, real-time with image documentation (2D), includes M-mode recording, when performed, complete, without spectral or color Doppler echocardiography		This a request for an echocardiogram.; This is a request for a Transthoracic Echocardiogram.; This study is being ordered for Evaluation of Left Ventricular Function.; The patient has a history of hypertensive heart disease.; There is a change in the patient's cardiac symptoms.	2
Unknown	Approval	93312 Echocardiography, transesophageal, real-time with image documentation (2D) (with or without M-mode recording); including probe placement, image acquisition, interpretation and report		This a request for an echocardiogram.; This is a request for a Transesophageal Echocardiogram.; This study is being requested for evaluation of atrial fibrillation or flutter to determine the presence or absence of left atrial thrombus or evaluate for radiofrequency ablation procedure.	1
Unknown	Approval	93350 Echocardiography, transthoracic, real-time with image documentation (2D), includes M-mode recording, when performed, during rest and cardiovascular stress test using treadmill, bicycle exercise and/or pharmacologically induced stress, with interpretation and report;		This is a request for a Stress Echocardiogram.; The patient has NOT had cardiac testing including Stress Echocardiogram, Nuclear Cardiology (SPECT/MPI), Coronary CT angiography (CCTA) or Cardiac Catheterization in the last 2 years.; The member has known or suspected coronary artery disease.	3
Unknown	Disapproval	70450 Computed tomography, head or brain; without contrast material	Radiology Services Denied Not Medically Necessary	&lt; Enter answer here - or Type In Unknown If No Info Given. &gt;; This is a request for a brain/head CT.; The study is NOT being requested for evaluation of a headache.; The patient has a sudden change in mental status.; This study is being ordered for something other than trauma or injury, evaluation of known tumor, stroke or aneurysm, infection or inflammation, multiple sclerosis or seizures.	1

Unknown	Disapproval	70450 Computed tomography, head or brain; without contrast material	Radiology Services Denied Not Medically Necessary	patient was in a mva; This study is being ordered for trauma or injury.; 01/26/18; It is not known if there has been any treatment or conservative therapy.; motor vehicle accident, neck pain, headache; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Unknown	Disapproval	70450 Computed tomography, head or brain; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for a brain/head CT.; Changing neurologic symptoms best describes the reason that I have requested this test.	1
Unknown	Disapproval	70450 Computed tomography, head or brain; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for a brain/head CT.; The patient has a chronic headache, longer than one month; Headache best describes the reason that I have requested this test.	1
Unknown	Disapproval	70450 Computed tomography, head or brain; without contrast material	Radiology Services Denied Not Medically Necessary	Unknown; This is a request for a brain/head CT.; The study is being requested for evaluation of a headache.; The headache is described as chronic or recurring.	1
Unknown	Disapproval	70486 Computed tomography, maxillofacial area; without contrast material	Radiology Services Denied Not Medically Necessary	referred for evaluation of chronic sinus drainage. He has significant green crusting of his nose. This has been going on for 47 years he says. Recent allergy testing was significant only for sensitivity to chemicals. No imaging. Preformed rounds of antibi; This study is being ordered for sinusitis.; This is a request for a Sinus CT.; The patient is NOT immune-compromised.; The patient's current rhinosinusitis symptoms are described as (sudden onset of 2 or more symptoms of nasal discharge, blockage or congestion, facial pain, pressure and reduction or loss of sense of smell, which are less than 12 wks in duration); It has been 14 or more days since onset AND the patient failed a course of antibiotic treatment; Yes this is a request for a Diagnostic CT	1

Unknown	Disapproval	70486 Computed tomography, maxillofacial area; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for a Sinus CT.; This study is being ordered for sinusitis.; The patient is NOT immune-compromised.; The patient's current rhinosinusitis symptoms are described as (sudden onset of 2 or more symptoms of nasal discharge, blockage or congestion, facial pain, pressure and reduction or loss of sense of smell, which are less than 12 wks in duration); It has been 14 or more days since onset AND the patient failed a course of antibiotic treatment; Yes this is a request for a Diagnostic CT	1
Unknown	Disapproval	70486 Computed tomography, maxillofacial area; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for a Sinus CT.; This study is being ordered for sinusitis.; The patient is NOT immune-compromised.; The patient's current rhinosinusitis symptoms are described as Recurrent Acute Rhinosinusitis (4 or more acute episodes per year); Yes this is a request for a Diagnostic CT	1
Unknown	Disapproval	70490 Computed tomography, soft tissue neck; without contrast material	Radiology Services Denied Not Medically Necessary	Chronic sore throat on left side. Does use tobacco. Trying to rule out cancer; This is a request for neck soft tissue CT.; Surgery is NOT scheduled within the next 30 days.; The patient has a suspicious infection or abscess.; Yes this is a request for a Diagnostic CT	1
Unknown	Disapproval	70490 Computed tomography, soft tissue neck; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for neck soft tissue CT.; There has not been recent trauma or other injury to the neck.; It is unknown if there is suspicion of or known tumor, metastasis, lymphadenopathy, or mass.; There is not a suspicion of an infection or abscess.; This is not being ordered by an ENT specialist.; Yes this is a request for a Diagnostic CT	1
Unknown	Disapproval	70544 Magnetic resonance angiography, head; without contrast material(s)	Radiology Services Denied Not Medically Necessary	; There is not an immediate family history of aneurysm.; The patient does not have a known aneurysm.; The patient has had a recent MRI or CT for these symptoms.; There has not been a stroke or TIA within the past two weeks.; This is a request for a Brain MRA.	1
Unknown	Disapproval	70544 Magnetic resonance angiography, head; without contrast material(s)	Radiology Services Denied Not Medically Necessary	; There is not an immediate family history of aneurysm.; The patient does not have a known aneurysm.; The patient has not had a recent MRI or CT for these symptoms.; There has not been a stroke or TIA within the past two weeks.; This is a request for a Brain MRA.	1

Unknown	Disapproval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Radiology Services Denied Not Medically Necessary	&lt; Enter answer here - or Type In Unknown If No Info Given. &gt;; This study is being ordered for a neurological disorder.; 12/20/2017; There has been treatment or conservative therapy.; &lt; Describe primary symptoms here - or Type In Unknown If No Info Given &gt;; meds; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Unknown	Disapproval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Radiology Services Denied Not Medically Necessary	; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Not requested for evaluation of trauma/injury, tumor, stroke/aneurysm, infection/inflammation,multiple sclerosis, or seizures; The condition is not associated with headache, blurred or double vision or a change in sensation noted on exam.; A metabolic work-up done including urinalysis, electrolytes, and complete blood count with results was not completed.; The patient does NOT have dizziness, fatigue or malaise, Bell's Palsy, a congenital abnormality, loss of smell, hearing loss or vertigo.	1
Unknown	Disapproval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Radiology Services Denied Not Medically Necessary	; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; The patient has vision changes.; The patient had a recent onset (within the last 4 weeks) of neurologic symptoms.; This study is being ordered for trauma or injury.	1
Unknown	Disapproval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Radiology Services Denied Not Medically Necessary	; This study is being ordered for a neurological disorder.; Unknown; It is not known if there has been any treatment or conservative therapy.; Migraines; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

Unknown	Disapproval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Radiology Services Denied Not Medically Necessary	3/22/2017: Malignant neoplasm of unsp site of unspecified female breast; 3/22/2017: Malignant neoplasm of central portion of right female breast; 3/22/2017: Malig neopl of upper-inner quadrant of right female breast ; Persistent Dizziness; This study is being ordered for a metastatic disease.; There are 3 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Unknown	Disapproval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Radiology Services Denied Not Medically Necessary	Complains of over the past 7 months he has had worsened episodes of anger outburst and anxiety. They are happening almost daily now. He has also been becoming dizzy to to the point of falling and has even had LOC. He has struck his head a couple of times ; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; The patient has dizziness.; The patient had a recent onset (within the last 4 weeks) of neurologic symptoms.; This study is being ordered for trauma or injury.	1
Unknown	Disapproval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	Radiology Services Denied Not Medically Necessary	Numbness/Tingling; This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Requested for evaluation of infection or inflammation; The patient does not have a fever, stiff neck AND positive laboratory findings (like elevated WBC or abnormal Lumbar puncture fluid examination that indicate inflammatory disease or an infection.; The doctor does not note on exam that the patient has delirium or acute altered mental status.; The patient does not have a Brain CT showing abscess, brain infection, meningitis or encephalitis.; This is NOT a Medicare member.	1

Unknown	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	PATIENT HAS HAD XRAYS OF LUMBAR AND THORACIC SPINE PERFORMED. RADIOLOGIST RECOMMENDED MRI TO EVALUATE FOR OCCULT FRACTURES; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; UNKNOWN; There has been treatment or conservative therapy.; DEBILITATING PAIN, DIFFICULTY AMBULATING, WEAKNESS AND PARATHESIA; PATIENT WAS RX ANTI-INFLAMMATORY IN JANUARY 2018. &#x0D; PATIENT WAS RX NEURONTIN IN FEBRUARY 2018 AS WELL AS AN IM INJECTION OF 8 MG OF DECADRON.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Unknown	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	Patient is having chronic low back pain. X ray revealed compression deformity on L3 and degenerative changes. &#x0D; Patient is needing MRI for further evaluation in order to be referred to specialist; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does have new or changing neurologic signs or symptoms.; It is not known if there is weakness or reflex abnormality.; The patient does not have new signs or symptoms of bladder or bowel dysfunction.; The patient does not have a new foot drop.; There is not x-ray evidence of a recent lumbar fracture.	1

Unknown	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	Standing for long periods and driving really makes her pain worse. She feels that the pain is progressively getting worse and it is harder for her to work and perform her daily chores. Her last CT was about 5 years ago.; RECOMMEND MRI LUMBAR SPINE -.; M; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; The patient does not have new or changing neurologic signs or symptoms.; It is not known if the patient has had back pain for over 4 weeks.	1
Unknown	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	Unknown; The study requested is a Lumbar Spine MRI.; Acute or Chronic back pain; It is not known if the patient does have new or changing neurologic signs or symptoms.; The patient has had back pain for over 4 weeks.; The patient has seen the doctor more then once for these symptoms.; The physician has directed conservative treatment for the past 6 weeks.; The patient has not completed 6 weeks of physical therapy?; The patient has been treated with medication.; The patient was treated with oral analgesics.; The patient has not completed 6 weeks or more of Chiropractic care.; It is not known if the physician has directed a home exercise program for at least 6 weeks.	1
Unknown	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	Unknown; The study requested is a Lumbar Spine MRI.; It is unknown if the patient has acute or chronic back pain.; This procedure is being requested for None of the above	1
Unknown	Disapproval	73200 Computed tomography, upper extremity; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an upper extremity, shoulder, scapula, elbow, hand, or wrist joint CT.; There is not a history of upper extremity joint or long bone trauma or injury.; This is not a preoperative or recent postoperative evaluation.; There is not suspicion of upper extremity neoplasm or tumor or metastasis.; There is not suspicion of upper extremity bone or joint infection.; The ordering physician is not an orthopedist or rheumatologist.; Yes this is a request for a Diagnostic CT	1

Unknown	Disapproval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Radiology Services Denied Not Medically Necessary	; The requested study is a Shoulder MRI.; The pain is from a recent injury.; Surgery or arthroscopy is not scheduled in the next 4 weeks.; The request is for shoulder pain.; There is a suspicion of tendon, ligament, rotator cuff injury or labral tear.	1
Unknown	Disapproval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Radiology Services Denied Not Medically Necessary	Patient has pain radiating from back to front. Patient is unable to lift arm. Patient also has decreased active motion and decreased passive motion.; The requested study is a Shoulder MRI.; The pain is described as chronic; The request is for shoulder pain.; The physician has directed conservative treatment for the past 6 weeks.; The patient has not completed 6 weeks of physical therapy?; The patient has been treated with medication.; The patient has not completed 6 weeks or more of Chiropractic care.; It is not known if the physician has directed a home exercise program for at least 6 weeks.; The patient received oral analgesics.	1
Unknown	Disapproval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Radiology Services Denied Not Medically Necessary	Positive for feels weak in the left hand&#x0D; Mrs. WILLIAMS complains of left wrist pain. It is located over left pisiform. The precipitating event was car wreck last month. The actual mechanism of the injury was unsure, the area was bruised and swollen at; The pain is from a recent injury.; Surgery or arthroscopy is not scheduled in the next 4 weeks.; There is a suspicion of tendon or ligament injury.; This request is for a wrist MRI.; This study is requested for evaluation of wrist pain.	1
Unknown	Disapproval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Radiology Services Denied Not Medically Necessary	post injury-pain + swelling; The requested study is a Shoulder MRI.; The pain is from a recent injury.; Surgery or arthroscopy is not scheduled in the next 4 weeks.; The request is for shoulder pain.; There is a suspicion of tendon, ligament, rotator cuff injury or labral tear.	1

Unknown	Disapproval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Radiology Services Denied Not Medically Necessary	Pt c/o of constant aching pain in Right Shoulder and swelling with no relief for several months. Pt has had therapy, Home Exercise and pain medicine and shots with no relief. X Ray recommend MRI of Right Shoulder.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	2
Unknown	Disapproval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Radiology Services Denied Not Medically Necessary	The requested study is a Shoulder MRI.; "The caller indicated the study was not ordered for: Known or Suspicious Mass or Tumor with or without metastasis, Known or suspected Joint Infection, Aseptic Necrosis, Trauma, Chronic Pain, or Pre or Post operative evaluation."; Trying to rule out a torn Rotator cuff.Pt complaint of pain to right shoulder X 4 weeks. Pt has taken OTC Medication with no relief. X Ray recommend correlation with an MRI may be of value in the appropriate clinical setting. &#x0D; No acute frac	1
Unknown	Disapproval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Radiology Services Denied Not Medically Necessary	The requested study is a Shoulder MRI.; Study being ordered due to non-acute or chronic pain.; The patient has not completed and failed a course of conservative treatment of at least 4 weeks.;	1
Unknown	Disapproval	73221 Magnetic resonance (eg, proton) imaging, any joint of upper extremity; without contrast material(s)	Radiology Services Denied Not Medically Necessary	The requested study is a Shoulder MRI.; Study being ordered due to non-acute or chronic pain.; The patient has not completed and failed a course of conservative treatment of at least 4 weeks.; Pt moved his shoulder point, felt like it needed to pop, but never would. Pain immediately followed and is getting worse.	1
Unknown	Disapproval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	Radiology Services Denied Not Medically Necessary	Numbness, Weakness, Tingling.; This study is being ordered for a neurological disorder.; 110/1/2017; There has been treatment or conservative therapy.; Low back, leg and hip pain.; PT, MEDS, Chio, home exercise.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

Unknown	Disapproval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	Radiology Services Denied Not Medically Necessary	The patient complains of pain at Knee. He describes the quality of pain as aching, burning, deep, pins and needle, sharp, stabbing and throbbing. Pain radiates to lower back and into back sides of both thighs. The patient complains of pain in lower back a; This is a request for a Knee MRI.; It is not known if patient had recent plain films of the knee.; The ordering physician is not an orthopedist.; Non-acute Chronic Pain; Pain greater than 3 days	1
Unknown	Disapproval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	Radiology Services Denied Not Medically Necessary	This is a request for a foot MRI.; "There is not a history (within the past six weeks) of significant trauma, dislocation, or injury to the foot."; There is not a suspected tarsal coalition.; There is not a history of new onset of severe pain in the foot within the last two weeks.; The patient does not have an abnormal plain film study of the foot other than arthritis.; The patient has not used a cane or crutches for greater than four weeks.; The patient has not been treated with and failed a course of supervised physical therapy.; The patient has not been treated with anti-inflammatory medications in conjunction with this complaint.; This is not for pre-operative planning.; The patient does not have a documented limitation of their range of motion.	1
Unknown	Disapproval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	Radiology Services Denied Not Medically Necessary	This is a request for a lower extremity MRI.; This is not a pulsatile mass.; "There is no evidence of tumor or mass from a previous exam, plain film, ultrasound, or previous CT or MRI."; There is not a suspicion of an infection.; The patient is not taking antibiotics.; This is not a study for a fracture which does not show healing (non-union fracture).; This is not a pre-operative study for planned surgery.	1

Unknown	Disapproval	73721 Magnetic resonance (eg, proton) imaging, any joint of lower extremity; without contrast material	Radiology Services Denied Not Medically Necessary	; This study is being ordered for trauma or injury.; About 3 wks ago; There has been treatment or conservative therapy.; pain; meds; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Unknown	Disapproval	73721 Magnetic resonance (eg, proton) imaging, any joint of lower extremity; without contrast material	Radiology Services Denied Not Medically Necessary	Unknown; This study is being ordered for something other than: known trauma or injury, metastatic disease, a neurological disorder, inflammatory or infectious disease, congenital anomaly, or vascular disease.; patient has had pain for years; It is not known if there has been any treatment or conservative therapy.; osteoarthritis of hips; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	2
Unknown	Disapproval	74150 Computed tomography, abdomen; without contrast material	Radiology Services Denied Not Medically Necessary	3/22/2017: Malignant neoplasm of unsp site of unspecified female breast&#x0D; 3/22/2017: Malignant neoplasm of central portion of right female breast&#x0D; 3/22/2017: Malig neoplsm of upper-inner quadrant of right female breast &#x0D; Persistent Dizziness; This study is being ordered for a metastatic disease.; There are 3 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

Unknown	Disapproval	74175 Computed tomographic angiography, abdomen, with contrast material(s), including noncontrast images, if performed, and image postprocessing	Radiology Services Denied Not Medically Necessary	Yes, this is a request for CT Angiography of the abdomen.	1
Unknown	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary		1
Unknown	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	&lt; Enter answer here - or Type In Unknown If No Info Given. &gt;; This study is being ordered for a metastatic disease.; There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Unknown	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	; This is a request for an abdomen-pelvis CT combination.; A urinalysis has been completed.; This study is being requested for abdominal and/or pelvic pain.; The results of the urinalysis were normal.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; The patient did not have a amylase or lipase lab test.; Yes this is a request for a Diagnostic CT	1
Unknown	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	; This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for acute pain.; There has been a physical exam.; The patient is female.; A pelvic exam was performed.; The results of the exam were normal.; The patient did not have an Ultrasound.; Yes this is a request for a Diagnostic CT	1

Unknown	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	is female.; A pelvic exam was NOT performed.; Yes this is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is female.; A pelvic exam was NOT performed.; Yes this is a request for a Diagnostic CT	1
Unknown	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	; This study is being ordered for a metastatic disease.; There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Unknown	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	LEFT LOWER QUADRANT TENDERNESS; This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for acute pain.; There has been a physical exam.; The patient is female.; A pelvic exam was NOT performed.; Yes this is a request for a Diagnostic CT	1
Unknown	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	patient is having right lower quadrant abdominal pain with tenderness; This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for acute pain.; There has been a physical exam.; The patient is female.; A pelvic exam was NOT performed.; Yes this is a request for a Diagnostic CT	1
Unknown	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	Patient states he has noticed an increasing in size lump/mass to his abd while bending lifting and performing exercises it is more prominent while doing crunches.; This is a request for an abdomen-pelvis CT combination.; A urinalysis has not been completed.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; The patient did not have a amylase or lipase lab test.; Yes this is a request for a Diagnostic CT	1

Unknown	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	RESTAGING METASTATIC COLORECTAL CANCER; This study is being ordered for a metastatic disease.; There are 3 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Unknown	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	RESTAGING NSCLC MOST RECENT SCANS SHOWED ADRENAL NODULES WHICH MERASTATIC DISEASE COULD NOT BE EXCLUDED.; This study is being ordered for a metastatic disease.; There are 3 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Unknown	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; A urinalysis has been completed.; This study is being requested for abdominal and/or pelvic pain.; The results of the urinalysis were normal.; It is not known if the pain is acute or chronic.; This is the first visit for this complaint.; The patient did not have a amylase or lipase lab test.; Yes this is a request for a Diagnostic CT	1
Unknown	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; A urinalysis has been completed.; This study is being requested for abdominal and/or pelvic pain.; The results of the urinalysis were normal.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; It is unknown if the patient had an Amylase or Lipase lab test.; Yes this is a request for a Diagnostic CT	1

Unknown	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; A urinalysis has been completed.; This study is being requested for abdominal and/or pelvic pain.; The results of the urinalysis were normal.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; The patient had an lipase lab test.; The results of the lab test were normal.; Yes this is a request for a Diagnostic CT	1
Unknown	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; A urinalysis has not been completed.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; The patient did not have a amylase or lipase lab test.; Yes this is a request for a Diagnostic CT	2
Unknown	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; A urinalysis has not been completed.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; The patient had an amylase lab test.; The results of the lab test were unknown.; Yes this is a request for a Diagnostic CT	1
Unknown	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; It is not known if a urinalysis has been completed.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; It is unknown if the patient had an Amylase or Lipase lab test.; Yes this is a request for a Diagnostic CT	1
Unknown	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for acute pain.; There has been a physical exam.; The patient is female.; A pelvic exam was NOT performed.; Yes this is a request for a Diagnostic CT	2

Unknown	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for acute pain.; There has been a physical exam.; The patient is female.; A pelvic exam was performed.; The results of the exam were abnormal.; Yes this is a request for a Diagnostic CT	2
Unknown	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for acute pain.; There has been a physical exam.; The patient is female.; A pelvic exam was performed.; The results of the exam were normal.; The patient did not have an Ultrasound.; Yes this is a request for a Diagnostic CT	1
Unknown	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for acute pain.; There has been a physical exam.; The patient is male.; A rectal exam was not performed.; Yes this is a request for a Diagnostic CT	3
Unknown	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for acute pain.; There has been a physical exam.; The patient is male.; A rectal exam was performed.; The results of the exam were abnormal.; Yes this is a request for a Diagnostic CT	1
Unknown	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; It is not known if this is the first visit for this complaint.; There has been a physical exam.; The patient is female.; A pelvic exam was NOT performed.; Yes this is a request for a Diagnostic CT	1

Unknown	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is female.; A pelvic exam was NOT performed.; Yes this is a request for a Diagnostic CT	4
Unknown	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is male.; A rectal exam was not performed.; Yes this is a request for a Diagnostic CT	1
Unknown	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	Unknown; This is a request for an abdomen-pelvis CT combination.; A urinalysis has been completed.; This study is being requested for abdominal and/or pelvic pain.; The results of the urinalysis were normal.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has not been a physical exam.; The patient did not have a amylase or lipase lab test.; Yes this is a request for a Diagnostic CT	1
Unknown	Disapproval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)	Radiology Services Denied Not Medically Necessary	This request is for an Abdomen MRI.; This study is not being ordered for known tumor, suspicious mass or suspected tumor/metastasis, organ enlargement, known or suspected vascular disease, hematuria, follow-up trauma, or a pre-operative evaluation.; &lt; Enter answer here - or Type In Unknown If No Info Given. &gt;	1
Unknown	Disapproval	75557 Cardiac magnetic resonance imaging for morphology and function without contrast material;	Radiology Services Denied Not Medically Necessary	This is a request for a heart or cardiac MRI	1

Unknown	Disapproval	75574 Computed tomographic angiography, heart, coronary arteries and bypass grafts (when present), with contrast material, including 3D image postprocessing (including evaluation of cardiac structure and morphology, assessment of cardiac function, and evaluation of venous structures, if performed)	Radiology Services Denied Not Medically Necessary	There is "Acute Chest Pain" or Angina.; This request is for a Coronary CT Angiography study.; No, patient did not have a Nuclear Cardiology study within the past six months.; This study is being ordered for suspected Coronary Artery Disease (CAD) and symptomatic?; No, patient does not have new onset congestive heart failure.; family history of premature CAD. Chest pain x 2 weeks. tingling in neck to left shoulder.; No, there is no Chronic Chest Pain.	1
Unknown	Disapproval	75635 Computed tomographic angiography, abdominal aorta and bilateral iliofemoral lower extremity runoff, with contrast material(s), including noncontrast images, if performed, and image postprocessing	Radiology Services Denied Not Medically Necessary	Yes, this is a request for CT Angiography of the abdominal arteries.	1
Unknown	Disapproval	77058 Magnetic resonance imaging, breast, without and/or with contrast material(s); unilateral	Radiology Services Denied Not Medically Necessary	Breast MRI is being requested due to the patient having breast implants.; This is a request for Breast MRI.; This study is being ordered for something other than known breast cancer, known breast lesions, screening for known family history, screening following genetic testing or a suspected implant rupture.	1
Unknown	Disapproval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)	Radiology Services Denied Not Medically Necessary	; The patient has had a stress echocardiogram within the past eight weeks.; This is a request for Myocardial Perfusion Imaging (Nuclear Cardiology Study).; This is NOT a Medicare member.; The patient's age is between 45 and 64 years old.	1

Unknown	Disapproval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)	Radiology Services Denied Not Medically Necessary	; This is a request for Myocardial Perfusion Imaging (Nuclear Cardiology Study).; The patient has not had other testing done to evaluate new or changing symptoms.; The patient has 1 or less cardiac risk factors; The study is not requested for pre op evaluation, cardiac mass, CHF, septal defects, or valve disorders.; There are new or changing cardiac symptoms including atypical chest pain (angina) and/or shortness of breath.; The study is requested for suspected coronary artery disease.; The member has known or suspected coronary artery disease.; The BMI is 20 to 29	1
Unknown	Disapproval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)	Radiology Services Denied Not Medically Necessary	FAMILY HISTORY OF HEART DISEASE, CHEST PAIN GOING ON FOR MONTHS. AFIB, PALPITATIONS AND NEAR SYNCOPE.; The patient is not diabetic.; The patient has not had a recent exercise treadmill test that was positive.; The patient has NONE of the following: heart transplant, aortic aneurysm, carotid artery narrowing or stenosis, and/ or peripheral vascular disease or narrowed blood vessels in the legs.; This is a request for Myocardial Perfusion Imaging (Nuclear Cardiology Study).; This is NOT a Medicare member.; The patient is less than 45 years old.	1
Unknown	Disapproval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)	Radiology Services Denied Not Medically Necessary	patient having chest pain with breathing, and syncope; This is a request for Myocardial Perfusion Imaging (Nuclear Cardiology Study).; The patient has 3 or more cardiac risk factors; The study is requested for congestive heart failure.; The study is requested for suspected coronary artery disease.; The member has known or suspected coronary artery disease.; The BMI is 20 to 29	1

Unknown	Disapproval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)	Radiology Services Denied Not Medically Necessary	Patient was seen in ED with syncopal episodes and chest pain. She states her vision went white and got very dizzy. Patient had echocardiogram in ED on 03/10/18 which showed Summary#x0D; Normal LV size#x0D; Normal visualized wall motion#x0D; The Ejection Fraction ; This is a request for Myocardial Perfusion Imaging (Nuclear Cardiology Study).; The patient has 3 or more cardiac risk factors; The study is requested for congestive heart failure.; The study is requested for suspected coronary artery disease.; The member has known or suspected coronary artery disease.; The BMI is 30 to 39	1
Unknown	Disapproval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)	Radiology Services Denied Not Medically Necessary	This is a request for Myocardial Perfusion Imaging (Nuclear Cardiology Study).; The study is requested for congestive heart failure.; The member does not have known or suspected coronary artery disease	1
Unknown	Disapproval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)	Radiology Services Denied Not Medically Necessary	This is a request for Myocardial Perfusion Imaging (Nuclear Cardiology Study).; The study is requested for known or suspected valve disorders.	1

Unknown	Disapproval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body	Radiology Services Denied Not Medically Necessary	This is a request for a Tumor Imaging PET Scan; This study is being ordered for initial treatment (after a diagnosis of Cancer has been made).; This study is being requested for Lymphoma or Myeloma.; 1 PET Scans has already been performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Unknown	Disapproval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body	Radiology Services Denied Not Medically Necessary	This is a request for a Tumor Imaging PET Scan; This study is being ordered for subsequent treatment.; This study is being requested for Lymphoma or Myeloma.; The patient is experiencing new signs or symptoms indicating a reoccurrence of cancer.; 3 PET Scans have already been performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Unknown	Disapproval	93307 Echocardiography, transthoracic, real-time with image documentation (2D), includes M-mode recording, when performed, complete, without spectral or color Doppler echocardiography	Radiology Services Denied Not Medically Necessary	This a request for an echocardiogram.; This is a request for a Transthoracic Echocardiogram.; This study is being ordered for Evaluation of Left Ventricular Function.; The patient does not have a history of a recent heart attack or hypertensive heart disease.	1
Unknown	Disapproval	G0297 LOW DOSE CT SCAN FOR LUNG CANCER SCREENING	Radiology Services Denied Not Medically Necessary	; This request is for a Low Dose CT for Lung Cancer Screening.; This patient has NOT had a Low Dose CT for Lung Cancer Screening in the past 11 months.; The patient is 54 years old or younger.; The patient is NOT presenting with pulmonary signs or symptoms of lung cancer nor are there other diagnostic test suggestive of lung cancer.; Patients who are NOT between the ages of 55 and 81 years of age do not meet the criteria for lung cancer screening.	1

Urology	Approval	70551 Magnetic resonance (eg, proton) imaging, brain (including brain stem); without contrast material	This request is for a Brain MRI; The study is NOT being requested for evaluation of a headache.; Requested for evaluation of tumor; A biopsy has not been completed to determine tumor tissue type.; There are not recent neurological symptoms such as one-sided weakness, speech impairments, or vision defects.; There is not a new and sudden onset of headache (less than 1 week) not improved by pain medications.; The tumor is a pituitary tumor or pituitary adenoma.; There are physical findings or laboratory values indicating abnormal pituitary hormone levels.; This is NOT a Medicare member.	1
Urology	Approval	71250 Computed tomography, thorax; without contrast material		1
Urology	Approval	71250 Computed tomography, thorax; without contrast material	&lt; Enter answer here - or Type In Unknown If No Info Given. &gt;; This study is being ordered for a metastatic disease.; There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Urology	Approval	71250 Computed tomography, thorax; without contrast material	; A Chest/Thorax CT is being ordered.; This study is being ordered for screening of lung cancer.; The patient is 54 years old or younger.; The patient has NOT had a Low Dose CT for Lung Cancer Screening or a Chest CT in the past 11 months.; Yes this is a request for a Diagnostic CT	1
Urology	Approval	71250 Computed tomography, thorax; without contrast material	; This study is being ordered for a metastatic disease.; There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Urology	Approval	71250 Computed tomography, thorax; without contrast material	Abnormal finding on examination of the chest, chest wall and or lungs describes the reason for this request.; This is a request for a Chest CT.; Yes this is a request for a Diagnostic CT	1

Urology	Approval	71250 Computed tomography, thorax; without contrast material	Abnormal imaging test describes the reason for this request.; This is a request for a Chest CT.; Yes this is a request for a Diagnostic CT	7
Urology	Approval	71250 Computed tomography, thorax; without contrast material	No info given.; This study is being ordered for a metastatic disease.; There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology 'None of the above' describes the reason for this request.; Initial staging prior to treatment is related to this request for imaging of a known cancer or tumor; This is a request for a Chest CT.; This study is beign requested for known cancer or tumor; Yes this is a request for a Diagnostic CT	1
Urology	Approval	71250 Computed tomography, thorax; without contrast material	'None of the above' describes the reason for this request.; Known tumor and new symptoms involving the chest, chest wall, lung or pelvis is related to this request for imaging of a known cancer or tumor; This is a request for a Chest CT.; This study is beign requested for known cancer or tumor; Yes this is a request for a Diagnostic CT	1
Urology	Approval	71250 Computed tomography, thorax; without contrast material	'None of the above' describes the reason for this request.; Surveillance of a known cancer following treatment is related to this request for imaging of a known cancer or tumor; This is a request for a Chest CT.; This study is beign requested for known cancer or tumor; Yes this is a request for a Diagnostic CT	4
Urology	Approval	71250 Computed tomography, thorax; without contrast material	Patient is having CT abd/pelvis to check for known prostate cancer mets and CT of chest to check lung nodule seen on xray; This study is being ordered for a metastatic disease.; There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

Urology	Approval	71250 Computed tomography, thorax; without contrast material	PROSTATE CANCER; A Chest/Thorax CT is being ordered.; The study is being ordered for none of the above.; This study is being ordered for non of the above.; Yes this is a request for a Diagnostic CT	1
Urology	Approval	71250 Computed tomography, thorax; without contrast material	pt has a rising AFP; This study is being ordered for a metastatic disease.; There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Urology	Approval	71250 Computed tomography, thorax; without contrast material	Surveillance; This study is being ordered for a metastatic disease.; There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Urology	Approval	71250 Computed tomography, thorax; without contrast material	The patient has a history of left renal carcinoma. He underwent left nephrectomy on 3/31/2015 and has had no evidence of recurrence since. Scan is being performed for routine surveillance; This study is being ordered for a metastatic disease.; There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

Urology	Approval	71250 Computed tomography, thorax; without contrast material	The patient has a history of left renal cell carcinoma. He underwent a partial left nephrectomy on 4/27/2016. No evidence of recurrence since. Previous CT scan showed a right 10th rib fx that is being followed. Scan is being performed for routine surveil; This study is being ordered for a metastatic disease.; There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Urology	Approval	71250 Computed tomography, thorax; without contrast material	The Pt had biopsy 02/15/2015. Pt has known prostate cancer. 6-12 gleason 7 Psa 4.26.; This study is being ordered for a metastatic disease.; There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Urology	Approval	71250 Computed tomography, thorax; without contrast material	UNKNOWN; This study is being ordered for a metastatic disease.; There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	2
Urology	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	The study requested is a Lumbar Spine MRI.; It is unknown if the patient has acute or chronic back pain.; This procedure is being requested for Known or suspected tumor with or without metastasis	1
Urology	Approval	72192 Computed tomography, pelvis; without contrast material	&lt; Enter answer here - or Type In Unknown If No Info Given. &gt;; The patient has painful hematuria.; The patient has not had an IVP.; This study is being ordered due to hematuria.; This is a request for a Pelvis CT.; Yes this is a request for a Diagnostic CT	1

Urology	Approval	72192 Computed tomography, pelvis; without contrast material	; This study is being ordered because of a suspicious mass/ tumor.; "The patient has NOT had a pelvic ultrasound, barium, CT, or MR study."; This is a request for a Pelvis CT.; There are documented physical findings (painless hematuria, etc.) consistent with an abdominal mass or tumor.; Yes this is a request for a Diagnostic CT Known distal ureteral stone that is not visualized on xray; The patient has painful hematuria.; The patient has had an IVP.; This study is being ordered due to hematuria.; This is a request for a Pelvis CT.; Yes this is a request for a Diagnostic CT	1
Urology	Approval	72192 Computed tomography, pelvis; without contrast material		1
Urology	Approval	72192 Computed tomography, pelvis; without contrast material	None; This study is being ordered due to known or suspected infection.; "The ordering physician is a surgeon, gynecologist, urologist, gastroenterologist, or infectious disease specialist or PCP ordering on behalf of a specialist who has seen the patient."; This is a request for a Pelvis CT.; Yes this is a request for a Diagnostic CT	1
Urology	Approval	72192 Computed tomography, pelvis; without contrast material	pt has on going scrotal pain..after vasectomy, possible epididymitis and spermatocele..needs ct of pelvis to evaluate pain and infection; This study is being ordered due to known or suspected infection.; "The ordering physician is a surgeon, gynecologist, urologist, gastroenterologist, or infectious disease specialist or PCP ordering on behalf of a specialist who has seen the patient."; This is a request for a Pelvis CT.; Yes this is a request for a Diagnostic CT	1
Urology	Approval	72192 Computed tomography, pelvis; without contrast material	referred by pcp for elevated psa of 41.09 on 1/29/18; This study is being ordered for known tumor, cancer, mass, or rule-out metastasis.; "The ordering physician is an oncologist, urologist, gynecologist, gastroenterologist or surgeon or PCP ordering on behalf of a specialist who has seen the patient."; This study is being ordered for initial staging.; This is a request for a Pelvis CT.; Yes this is a request for a Diagnostic CT	1

Urology	Approval	72192 Computed tomography, pelvis; without contrast material	Status post bladder injury repair. Requesting CT Cystogram prior to catheter removal to check for bladder leaks.; This study is being ordered as a follow-up to trauma.; "The ordering physician is a gastroenterologist, urologist, gynecologist, or surgeon or PCP ordering on behalf of a specialist who has seen the patient."; This is a request for a Pelvis CT.; Yes this is a request for a Diagnostic CT	1
Urology	Approval	72192 Computed tomography, pelvis; without contrast material	Status post surgery; Pelvic abscess.; Extensive ascites.; Urinary leak, site unspecified. ; surgery on patient cystoscopy, bilateral retrograde pyelograms, bilateral ureteral stent placement, exploratory laparotomy, and repair of cystotomy. She will need ; This study is being ordered as pre-operative evaluation.; "The ordering physician is an oncologist, urologist, gynecologist, gastroenterologist or surgeon or PCP ordering on behalf of a specialist who has seen the patient."; This is a request for a Pelvis CT.; Yes this is a request for a Diagnostic CT	1
Urology	Approval	72192 Computed tomography, pelvis; without contrast material	THE NM BONE SCAN FINDINGS ARE ABNORMAL LINEAR UPTAKE WITHIN LEFT ANTEROLATERAL RIBS EXTENDING FROM THE THIRD TO NINTH RIB, METS CANNOT BE EXCLUDED ALSO ON MRI ABNL AS WELL... CA BIOPSY PROVEN CA OF PROSTATE ... TRYING TO RULE OUT METS; It is not known if the patient is undergoing active treatment for cancer.; This study is being ordered for known tumor, cancer, mass, or rule-out metastasis.; "The ordering physician is an oncologist, urologist, gynecologist, gastroenterologist or surgeon or PCP ordering on behalf of a specialist who has seen the patient."; This study is not being ordered for initial staging.; The patient is presenting new signs (e.g. lab findings or imaging) or symptoms.; This is a request for a Pelvis CT.; Yes this is a request for a Diagnostic CT	1

Urology	Approval	72192 Computed tomography, pelvis; without contrast material	unknown; This study is being ordered for known tumor, cancer, mass, or rule-out metastasis.; "The ordering physician is an oncologist, urologist, gynecologist, gastroenterologist or surgeon or PCP ordering on behalf of a specialist who has seen the patient."; This study is being ordered for initial staging.; This is a request for a Pelvis CT.; Yes this is a request for a Diagnostic CT & Enter answer here - or Type In Unknown If No Info Given. &; This is a request for a Pelvis MRI.; The patient has NOT had previous abnormal imaging including a CT, MRI or Ultrasound.; The study is being ordered for suspicion of tumor, mass, neoplasm, or metastatic disease.	1
Urology	Approval	72196 Magnetic resonance (eg, proton) imaging, pelvis; with contrast material(s)	& Enter answer here - or Type In Unknown If No Info Given. &; This is a request for a Pelvis MRI.; The study is being ordered for something other than suspicion of tumor, mass, neoplasm, metastatic disease, PID, abscess, Evaluation of the pelvis prior to surgery or laparoscopy, Suspicion of joint or bone infect ; This is a request for a Pelvis MRI.; The patient had previous abnormal imaging including a CT, MRI or Ultrasound.; An abnormality was found in something other than the bladder, uterus or ovary.; The study is being ordered for suspicion of tumor, mass, neoplasm, or metastatic disease.	2
Urology	Approval	72196 Magnetic resonance (eg, proton) imaging, pelvis; with contrast material(s)	Benign prostatic hyperplasia with lower urinary tract symptoms & Gross hematuria; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Urology	Approval	72196 Magnetic resonance (eg, proton) imaging, pelvis; with contrast material(s)	Elevated PSA: pt had PSA (2/23/18) 9.9 w/ PCP (Dr. Motes). Pt reports he had a negative prostate biopsy in approx 2000. Pt reports that his PSA has ran approx 7.0 for years. Pt admits nocturia (2-4x). FH of prostate cancer (brother; passed away at 53 yo).; This is a request for a Pelvis MRI.; The patient has NOT had previous abnormal imaging including a CT, MRI or Ultrasound.; The study is being ordered for suspicion of tumor, mass, neoplasm, or metastatic disease.	1
Urology	Approval	72196 Magnetic resonance (eg, proton) imaging, pelvis; with contrast material(s)		

Urology	Approval	72196 Magnetic resonance (eg, proton) imaging, pelvis; with contrast material(s)	Elevated PSA; This is a request for a Pelvis MRI.; The patient has NOT had previous abnormal imaging including a CT, MRI or Ultrasound.; The study is being ordered for suspicion of tumor, mass, neoplasm, or metastatic disease.	1
Urology	Approval	72196 Magnetic resonance (eg, proton) imaging, pelvis; with contrast material(s)	elevated psa; This is a request for a Pelvis MRI.; The study is being ordered for something other than suspicion of tumor, mass, neoplasm, metastatic disease, PID, abscess, Evaluation of the pelvis prior to surgery or laparoscopy, Suspicion of joint or bone infect	1
Urology	Approval	72196 Magnetic resonance (eg, proton) imaging, pelvis; with contrast material(s)	Hospital Course: Sheryl Shumate is a 54 y.o. female admitted with Left flank pain for couple months associated with about 20 lb weight loss. CT suggested diverticulitis and also found to have right renal mass. She was placed on IV Cipro/Flagyl. She ; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Urology	Approval	72196 Magnetic resonance (eg, proton) imaging, pelvis; with contrast material(s)	n/a; This is a request for a Pelvis MRI.; The patient has NOT had previous abnormal imaging including a CT, MRI or Ultrasound.; The study is being ordered for suspicion of tumor, mass, neoplasm, or metastatic disease.	1
Urology	Approval	72196 Magnetic resonance (eg, proton) imaging, pelvis; with contrast material(s)	This is a request for a Pelvis MRI.; The request is for suspicion of tumor, mass, neoplasm, or metastatic disease?	32
Urology	Approval	72196 Magnetic resonance (eg, proton) imaging, pelvis; with contrast material(s)	unknown; This is a request for a Pelvis MRI.; It is unknown if the patient had previous abnormal imaging including a CT, MRI or Ultrasound.; The study is being ordered for suspicion of tumor, mass, neoplasm, or metastatic disease.	1
Urology	Approval	72196 Magnetic resonance (eg, proton) imaging, pelvis; with contrast material(s)	unknown; This is a request for a Pelvis MRI.; The patient had previous abnormal imaging including a CT, MRI or Ultrasound.; An abnormality was found in something other than the bladder, uterus or ovary.; The study is being ordered for suspicion of tumor, mass, neoplasm, or metastatic disease.	1

Urology	Approval	74150 Computed tomography, abdomen; without contrast material	&lt; Enter answer here - or Type In Unknown If No Info Given. &gt;; This is a request for an Abdomen CT.; This study is being ordered as a pre-op or post op evaluation.; The requested study is for post-operative evaluation.; The requested study is not a first follow up study for a post operative complication.; Yes this is a request for a Diagnostic CT	1
---------	----------	---	---	---

Urology	Approval	74150 Computed tomography, abdomen; without contrast material	&lt; Enter answer here - or Type In Unknown If No Info Given. &gt;; This is a request for an Abdomen CT.; This study is being ordered for a known tumor, cancer, mass, or rule out metastases.; This is not a request for initial staging of a known tumor other than prostate.; There are no new signs or symptoms including hematuria, presenting with known cancer or tumor.; This patient does NOT have known prostate cancer with a PSA (prostate-specific antigen) greater than 10.; No, this is not a request for follow up to a known tumor or abdominal cancer.; No, there is a palpable or observed abdominal mass.; No,there is not an abdominal and pelvic or retroperitoneal mass that has been confirmed.; Yes this is a request for a Diagnostic CT	1
---------	----------	---	--	---

Urology	Approval	74150 Computed tomography, abdomen; without contrast material	hydronephrosis; This is a request for an Abdomen CT.; This study is being ordered for another reason besides Kidney/Ureteral stone, &#x0D; Known Tumor, Cancer, Mass, or R/O metastases, Suspicious Mass or Tumor, Organ Enlargement, &#x0D; Known or suspected infection such as pancreatitis, etc.; There are no findings of Hematuria, Lymphadenopathy,weight loss,abdominal pain,diabetic patient with gastroparesis; Yes this is a request for a Diagnostic CT	1
---------	----------	---	---	---

Urology	Approval	74150 Computed tomography, abdomen; without contrast material	RENAL CYST; This is a request for an Abdomen CT.; This study is being ordered for another reason besides Kidney/Ureteral stone, &#x0D; Known Tumor, Cancer, Mass, or R/O metastases, Suspicious Mass or Tumor, Organ Enlargement, &#x0D; Known or suspected infection such as pancreatitis, etc.; There are no findings of Hematuria, Lymphadenopathy, weight loss, abdominal pain, diabetic patient with gastroparesis; Yes this is a request for a Diagnostic CT	1
Urology	Approval	74150 Computed tomography, abdomen; without contrast material	This is a request for an Abdomen CT.; This study is being ordered as a pre-op or post op evaluation.; The requested study is for pre-operative evaluation.; The study is requested by a surgeon, specialist or PCP on behalf of a specialist who has seen the patient.; Yes this is a request for a Diagnostic CT	1
Urology	Approval	74150 Computed tomography, abdomen; without contrast material	This is a request for an Abdomen CT.; This study is being ordered for a known tumor, cancer, mass, or rule out metastases.; Yes, this is a request for follow up to a known tumor or abdominal cancer.; Yes this is a request for a Diagnostic CT	15
Urology	Approval	74150 Computed tomography, abdomen; without contrast material	This is a request for an Abdomen CT.; This study is being ordered for a kidney/ureteral stone.; There is a known or a strong suspicion of kidney or ureteral stones.; Yes this is a request for a Diagnostic CT	2
Urology	Approval	74150 Computed tomography, abdomen; without contrast material	This is a request for an Abdomen CT.; This study is being ordered for a suspicious mass or tumor.; There is a suspicious mass found using ultrasound, IVP, Endoscopy, colonoscopy, or sigmoidoscopy.; Yes this is a request for a Diagnostic CT	3
Urology	Approval	74150 Computed tomography, abdomen; without contrast material	This is a request for an Abdomen CT.; This study is being ordered for an infection such as pancreatitis, appendicitis, abscess, colitis and inflammatory bowel disease.; Yes, the patient has been seen by a specialist or are the studies being requested on behalf of a specialist for an infection.; Yes this is a request for a Diagnostic CT	1

Urology	Approval	74150 Computed tomography, abdomen; without contrast material	This is a request for an Abdomen CT.; This study is being ordered for another reason besides Kidney/Ureteral stone, &#x0D; Known Tumor, Cancer, Mass, or R/O metastases, Suspicious Mass or Tumor, Organ Enlargement, &#x0D; Known or suspected infection such as pancreatitis, etc..; There are clinical findings or indications of Hematuria.; Yes this is a request for a Diagnostic CT	2
Urology	Approval	74174 Computed tomographic angiography, abdomen and pelvis, with contrast material(s), including noncontrast images, if performed, and image postprocessing	This is a request for CT Angiography of the Abdomen and Pelvis.	2
Urology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material		7
Urology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	&lt; Enter answer here - or Type In Unknown If No Info Given. &gt;; This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for acute pain.; There has been a physical exam.; The patient is female.; A pelvic exam was NOT performed.; Yes this is a request for a Diagnostic CT	1
Urology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	&lt; Enter answer here - or Type In Unknown If No Info Given. &gt;; This study is being ordered for a metastatic disease.; There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

Urology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	<p>; This is a request for an abdomen-pelvis CT combination.; A urinalysis has been completed.; The reason for the study is renal calculi, kidney or ureteral stone.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; The results of the urinalysis were abnormal.; The urinalysis was positive for protein.; Yes this is a request for a Diagnostic CT</p>	1
Urology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	<p>; This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is female.; A pelvic exam was performed.; The results of the exam were abnormal.; Yes this is a request for a Diagnostic CT</p>	2
Urology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	<p>; This study is being ordered for a metastatic disease.; There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology</p>	1
Urology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	<p>Back pain/history of kidney stones; This is a request for an abdomen-pelvis CT combination.; A urinalysis has been completed.; The reason for the study is renal calculi, kidney or ureteral stone.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; The results of the urinalysis were normal.; Yes this is a request for a Diagnostic CT</p>	1
Urology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	<p>chronic Cystitis.; This is a request for an abdomen-pelvis CT combination.; The reason for the study is none of the listed reasons.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; Yes this is a request for a Diagnostic CT</p>	1

Urology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	Follow up of complex Ureteroscopy; This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is male.; It is not known if a rectal exam was performed.; Yes this is a request for a Diagnostic CT	1
Urology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	GROSS HEMATURIA AND RECURRENT UTI; This is a request for an abdomen-pelvis CT combination.; A urinalysis has been completed.; The reason for the hematuria is not known.; This study is not being requested for abdominal and/or pelvic pain.; The study is requested for hematuria.; The results of the urinalysis were abnormal.; The urinalysis was positive for something other than billirubin, ketones, nitrites, hematuria/blood, glucose or protein.; Yes this is a request for a Diagnostic CT	1
Urology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	Has been followed for OAB. Seems to be having different problems now with extreme pelvic pain associated with urgency. Myrbetriq hasn't helped much. Genitourinary: Positive for frequency and pelvic pain. CT abd/pelvis w/w contrast and RTC for cystoscopy; This is a request for an abdomen-pelvis CT combination.; A urinalysis has been completed.; This study is being requested for abdominal and/or pelvic pain.; The results of the urinalysis were normal.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; The patient did not have an amylase or lipase lab test.; Yes this is a request for a Diagnostic CT	1

Urology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	Here for renal US review of 24hr urine lab results and for renal US to evaluate s/p right PCNL for large right renal stones, has had 2 ESWL procedures in El Salvador in 2012. Renal Ultrasound performed Bilateral non-obstructing nephrolithiasis not; This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is female.; A pelvic exam was NOT performed.; Yes this is a request for a Diagnostic CT	1
Urology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	history of uretal stones; This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for acute pain.; There has been a physical exam.; The patient is female.; A pelvic exam was performed.; The results of the exam are unknown.; Yes this is a request for a Diagnostic CT	1
Urology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	HPI Presents for TRUSP with selective Bx. Indications PSA 6.4 elevating from 3.7 2 yrs ago. DRE palpates nodule left lobe. Strong family history with brother and father having CaP.; This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is male.; A rectal exam was performed.; The results of the exam were abnormal.; Yes this is a request for a Diagnostic CT	1
Urology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	KIDNEY STONES AND RENAL CYST; This is a request for an abdomen-pelvis CT combination.; A urinalysis has not been completed.; The reason for the study is renal calculi, kidney or ureteral stone.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; Yes this is a request for a Diagnostic CT	1

Urology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	KIDNEY STONES; This is a request for an abdomen-pelvis CT combination.; A urinalysis has not been completed.; The reason for the study is renal calculi, kidney or ureteral stone.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; Yes this is a request for a Diagnostic CT	1
Urology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	No info given.; This study is being ordered for a metastatic disease.; There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Urology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	PAIN IN TESTICLE AND RETENTION OF URINE; This is a request for an abdomen-pelvis CT combination.; The reason for the study is none of the listed reasons.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; Yes this is a request for a Diagnostic CT	1
Urology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	Patient is having CT abd/pelvis to check for known prostate cancer mets and CT of chest to check lung nodule seen on xray; This study is being ordered for a metastatic disease.; There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

Urology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	PATIENT WITH 3.4 CM LEFT SEPTATED RENAL MASS AND SENT FOR CT A/P RENAL MASS HOWEVER THE SCAN WAS DONE WITHUT CONTRAST. PATIENT WITH RIGHT LOWER BACK PAIN WORSE WITH ACTIVY. NEEDING CT WITH CONTRAST SINCE IT WASNT DONE ON LAST CT.NEEDING TO RULE OUT RENAL ; This is a request for an abdomen-pelvis CT combination.; The reason for the study is suspicious mass or suspected tumor or metastasis.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; The patient did NOT have an abnormal abdominal Ultrasound, CT or MR study.; Yes this is a request for a Diagnostic CT	1
Urology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	Prostate cancer checking to see if spreading; This is a request for an abdomen-pelvis CT combination.; The reason for the study is none of the listed reasons.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; Yes this is a request for a Diagnostic CT	1
Urology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	PROSTATE CANCER; This is a request for an abdomen-pelvis CT combination.; The reason for the study is none of the listed reasons.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; Yes this is a request for a Diagnostic CT	1
Urology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	pt has a rising AFP; This study is being ordered for a metastatic disease.; There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

Urology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	PT has had previous kidney stones. Has had vomiting and chills.; This is a request for an abdomen-pelvis CT combination.; It is not known if a urinalysis has been completed.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; The patient did not have a amylase or lipase lab test.; Yes this is a request for a Diagnostic CT	1
Urology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	Pt has hematuria.; This is a request for an abdomen-pelvis CT combination.; It is not known if a urinalysis has been completed.; This study is being requested for abdominal and/or pelvic pain.; It is not known if the pain is acute or chronic.; This is the first visit for this complaint.; It is unknown if the patient had an Amylase or Lipase lab test.; Yes this is a request for a Diagnostic CT	1
Urology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	Pt has history of kidney stones and is havning similar pain.; This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is female.; It is not known if a pelvic exam was performed.; Yes this is a request for a Diagnostic CT	1
Urology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	Pt is having saevere abdominal flank pain, personal history of kidney stones.; This is a request for an abdomen-pelvis CT combination.; A urinalysis has been completed.; The reason for the study is renal calculi, kidney or ureteral stone.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; The results of the urinalysis were normal.; Yes this is a request for a Diagnostic CT	1

Urology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	<p>Pt returns for follow up for renal stones. She states that she has had pain since her last appointment. She has not passed anything that she knows of. She states that her pain is on the right side. She is drinking plenty of water. She has nausea that star; This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is female.; A pelvic exam was performed.; The results of the exam were normal.; The patient did not have an Ultrasound.; Yes this is a request for a Diagnostic CT</p>	1
Urology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	<p>Referred by Dr. Garrett. Says he has passed 30 stones in the past year, usually hurts on the left. Stones are the size of a pea. Had a stone analysis at NW recently, no x-rays. CT abd/pelvis wo contrast and RTC. May need a stone metabolic eval. Get stone; This is a request for an abdomen-pelvis CT combination.; A urinalysis has been completed.; The reason for the study is renal calculi, kidney or ureteral stone.; It is not know if this study is being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; The results of the urinalysis were normal.; Yes this is a request for a Diagnostic CT</p>	1
Urology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	<p>Surgery done check for stones; This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; It is not known if the pain is acute or chronic.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is male.; It is not known if a rectal exam was performed.; Yes this is a request for a Diagnostic CT</p>	1

Urology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	Surveillance; This study is being ordered for a metastatic disease.; There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Urology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	The patient has a history of left renal carcinoma. He underwent left nephrectomy on 3/31/2015 and has had no evidence of recurrence since. Scan is being performed for routine surveillance; This study is being ordered for a metastatic disease.; There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Urology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	The patient has a history of left renal cell carcinoma. He underwent a partial left nephrectomy on 4/27/2016. No evidence of recurrence since. Previous CT scan showed a right 10th rib fx that is being followed. Scan is being performed for routine surveil; This study is being ordered for a metastatic disease.; There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

Urology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	The Pt had biopsy 02/15/2015. Pt has known prostate cancer. 6-12 gleason 7 Psa 4.26.; This study is being ordered for a metastatic disease.; There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Urology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	This is a request for an abdomen-pelvis CT combination.; A urinalysis has been completed.; The reason for the hematuria is not known.; This study is not being requested for abdominal and/or pelvic pain.; The study is requested for hematuria.; The results of the urinalysis were abnormal.; The urinalysis was positive for hematuria/blood.; Yes this is a request for a Diagnostic CT	26
Urology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	This is a request for an abdomen-pelvis CT combination.; A urinalysis has been completed.; The reason for the study is renal calculi, kidney or ureteral stone.; It is not know if this study is being requested for abdominal and/or pelvic pain.; It is not known if the study is requested for hematuria.; It is not known if the urinalysis results were normal or abnormal.; Yes this is a request for a Diagnostic CT	1
Urology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	This is a request for an abdomen-pelvis CT combination.; A urinalysis has been completed.; The reason for the study is renal calculi, kidney or ureteral stone.; It is not know if this study is being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; It is not known if the urinalysis results were normal or abnormal.; Yes this is a request for a Diagnostic CT	1

Urology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	This is a request for an abdomen-pelvis CT combination.; A urinalysis has been completed.; The reason for the study is renal calculi, kidney or ureteral stone.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; It is not known if the urinalysis results were normal or abnormal.; Yes this is a request for a Diagnostic CT	1
Urology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	This is a request for an abdomen-pelvis CT combination.; A urinalysis has been completed.; The reason for the study is renal calculi, kidney or ureteral stone.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; The results of the urinalysis were abnormal.; It is not known if the urinalysis was positive for bilirubin, ketones, nitrites, hematuria/blood, glucose or protein.; Yes this is a request for a Diagnostic CT	1
Urology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	This is a request for an abdomen-pelvis CT combination.; A urinalysis has been completed.; The reason for the study is renal calculi, kidney or ureteral stone.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; The results of the urinalysis were abnormal.; The urinalysis was positive for bilirubin.; Yes this is a request for a Diagnostic CT	2
Urology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	This is a request for an abdomen-pelvis CT combination.; A urinalysis has been completed.; The reason for the study is renal calculi, kidney or ureteral stone.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; The results of the urinalysis were abnormal.; The urinalysis was positive for glucose.; Yes this is a request for a Diagnostic CT	1

Urology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	This is a request for an abdomen-pelvis CT combination.; A urinalysis has been completed.; The reason for the study is renal calculi, kidney or ureteral stone.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; The results of the urinalysis were abnormal.; The urinalysis was positive for hematuria/blood.; Yes this is a request for a Diagnostic CT	40
Urology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	This is a request for an abdomen-pelvis CT combination.; A urinalysis has been completed.; The reason for the study is renal calculi, kidney or ureteral stone.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; The results of the urinalysis were abnormal.; The urinalysis was positive for ketones.; Yes this is a request for a Diagnostic CT	3
Urology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	This is a request for an abdomen-pelvis CT combination.; A urinalysis has been completed.; The reason for the study is renal calculi, kidney or ureteral stone.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; The results of the urinalysis were abnormal.; The urinalysis was positive for something other than bilirubin, ketones, nitrites, hematuria/blood, glucose or protein.; Yes this is a request for a Diagnostic CT	3
Urology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	This is a request for an abdomen-pelvis CT combination.; A urinalysis has been completed.; The reason for the study is renal calculi, kidney or ureteral stone.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; The results of the urinalysis were normal.; Yes this is a request for a Diagnostic CT	7

Urology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	This is a request for an abdomen-pelvis CT combination.; A urinalysis has been completed.; This study is being requested for abdominal and/or pelvic pain.; It is not known if the urinalysis results were normal or abnormal.; It is not known if the pain is acute or chronic.; This is not the first visit for this complaint.; There has not been a physical exam.; It is unknown if the patient had an Amylase or Lipase lab test.; Yes this is a request for a Diagnostic CT	1
Urology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	This is a request for an abdomen-pelvis CT combination.; A urinalysis has been completed.; This study is being requested for abdominal and/or pelvic pain.; It is not known if the urinalysis results were normal or abnormal.; It is not known if the pain is acute or chronic.; This is the first visit for this complaint.; The patient did not have a amylase or lipase lab test.; Yes this is a request for a Diagnostic CT	1
Urology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	This is a request for an abdomen-pelvis CT combination.; A urinalysis has been completed.; This study is being requested for abdominal and/or pelvic pain.; It is not known if the urinalysis results were normal or abnormal.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; The patient did not have a amylase or lipase lab test.; Yes this is a request for a Diagnostic CT	1
Urology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	This is a request for an abdomen-pelvis CT combination.; A urinalysis has been completed.; This study is being requested for abdominal and/or pelvic pain.; The results of the urinalysis were abnormal.; It is not known if the urinalysis was positive for billirubin, ketones, nitrites, hematuria/blood, glucose or protein.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; The patient did not have a amylase or lipase lab test.; Yes this is a request for a Diagnostic CT	1

Urology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	This is a request for an abdomen-pelvis CT combination.; A urinalysis has been completed.; This study is being requested for abdominal and/or pelvic pain.; The results of the urinalysis were abnormal.; The urinalysis was positive for bilirubin.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; The patient did not have a amylase or lipase lab test.; Yes this is a request for a Diagnostic CT	1
Urology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	This is a request for an abdomen-pelvis CT combination.; A urinalysis has been completed.; This study is being requested for abdominal and/or pelvic pain.; The results of the urinalysis were abnormal.; The urinalysis was positive for hematuria/blood.; It is not known if the pain is acute or chronic.; This is the first visit for this complaint.; It is unknown if the patient had an Amylase or Lipase lab test.; Yes this is a request for a Diagnostic CT	3
Urology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	This is a request for an abdomen-pelvis CT combination.; A urinalysis has been completed.; This study is being requested for abdominal and/or pelvic pain.; The results of the urinalysis were abnormal.; The urinalysis was positive for hematuria/blood.; It is not known if the pain is acute or chronic.; This is the first visit for this complaint.; The patient did not have a amylase or lipase lab test.; Yes this is a request for a Diagnostic CT	4
Urology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	This is a request for an abdomen-pelvis CT combination.; A urinalysis has been completed.; This study is being requested for abdominal and/or pelvic pain.; The results of the urinalysis were abnormal.; The urinalysis was positive for hematuria/blood.; The study is being ordered for acute pain.; There has not been a physical exam.; The patient did not have a amylase or lipase lab test.; Yes this is a request for a Diagnostic CT	1

Urology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	This is a request for an abdomen-pelvis CT combination.; A urinalysis has been completed.; This study is being requested for abdominal and/or pelvic pain.; The results of the urinalysis were abnormal.; The urinalysis was positive for hematuria/blood.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; It is unknown if there has been a physical exam.; It is unknown if the patient had an Amylase or Lipase lab test.; Yes this is a request for a Diagnostic CT	1
Urology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	This is a request for an abdomen-pelvis CT combination.; A urinalysis has been completed.; This study is being requested for abdominal and/or pelvic pain.; The results of the urinalysis were abnormal.; The urinalysis was positive for hematuria/blood.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; It is unknown if the patient had an Amylase or Lipase lab test.; Yes this is a request for a Diagnostic CT	7
Urology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	This is a request for an abdomen-pelvis CT combination.; A urinalysis has been completed.; This study is being requested for abdominal and/or pelvic pain.; The results of the urinalysis were abnormal.; The urinalysis was positive for hematuria/blood.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; The patient did not have a amylase or lipase lab test.; Yes this is a request for a Diagnostic CT	14
Urology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	This is a request for an abdomen-pelvis CT combination.; A urinalysis has been completed.; This study is being requested for abdominal and/or pelvic pain.; The results of the urinalysis were abnormal.; The urinalysis was positive for something other than bilirubin, ketones, nitrites, hematuria/blood, glucose or protein.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; It is unknown if the patient had an Amylase or Lipase lab test.; Yes this is a request for a Diagnostic CT	2

Urology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	This is a request for an abdomen-pelvis CT combination.; A urinalysis has been completed.; This study is being requested for abdominal and/or pelvic pain.; The results of the urinalysis were normal.; It is not known if the pain is acute or chronic.; This is not the first visit for this complaint.; There has not been a physical exam.; The patient did not have a amylase or lipase lab test.; Yes this is a request for a Diagnostic CT	1
Urology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	This is a request for an abdomen-pelvis CT combination.; A urinalysis has been completed.; This study is being requested for abdominal and/or pelvic pain.; The results of the urinalysis were normal.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; It is unknown if the patient had an Amylase or Lipase lab test.; Yes this is a request for a Diagnostic CT	2
Urology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	This is a request for an abdomen-pelvis CT combination.; A urinalysis has been completed.; This study is being requested for abdominal and/or pelvic pain.; The results of the urinalysis were normal.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; The patient did not have a amylase or lipase lab test.; Yes this is a request for a Diagnostic CT	4
Urology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	This is a request for an abdomen-pelvis CT combination.; A urinalysis has not been completed.; The reason for the study is renal calculi, kidney or ureteral stone.; It is not know if this study is being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; Yes this is a request for a Diagnostic CT	1
Urology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	This is a request for an abdomen-pelvis CT combination.; A urinalysis has not been completed.; The reason for the study is renal calculi, kidney or ureteral stone.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; Yes this is a request for a Diagnostic CT	4

Urology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	This is a request for an abdomen-pelvis CT combination.; A urinalysis has not been completed.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; The patient did not have a amylase or lipase lab test.; Yes this is a request for a Diagnostic CT	1
Urology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	This is a request for an abdomen-pelvis CT combination.; It is not know if this study is being requested for abdominal and/or pelvic pain.; The study is requested for hematuria.; Yes this is a request for a Diagnostic CT	7
Urology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	This is a request for an abdomen-pelvis CT combination.; It is not known if a urinalysis has been completed.; This study is being requested for abdominal and/or pelvic pain.; It is not known if the pain is acute or chronic.; It is not known if this is the first visit for this complaint.; It is unknown if there has been a physical exam.; It is unknown if the patient had an Amylase or Lipase lab test.; Yes this is a request for a Diagnostic CT	1
Urology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	This is a request for an abdomen-pelvis CT combination.; It is not known if a urinalysis has been completed.; This study is being requested for abdominal and/or pelvic pain.; It is not known if the pain is acute or chronic.; This is the first visit for this complaint.; It is unknown if the patient had an Amylase or Lipase lab test.; Yes this is a request for a Diagnostic CT	1
Urology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	This is a request for an abdomen-pelvis CT combination.; The hematuria is due to Renal Calculi/kidney/ ureteral stone.; It is not know if this study is being requested for abdominal and/or pelvic pain.; The study is requested for hematuria.; Yes this is a request for a Diagnostic CT	6
Urology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	This is a request for an abdomen-pelvis CT combination.; The hematuria is due to Renal Calculi/kidney/ ureteral stone.; This study is not being requested for abdominal and/or pelvic pain.; The study is requested for hematuria.; Yes this is a request for a Diagnostic CT	15

Urology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	This is a request for an abdomen-pelvis CT combination.; The reason for the study is infection.; The patient does not have a fever and elevated white blood cell count or abnormal amylase/lipase.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; It is unknown if the patient has Crohn's Disease, Ulcerative Colitis or Diverticulitis.; Yes this is a request for a Diagnostic CT	1
Urology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	This is a request for an abdomen-pelvis CT combination.; The reason for the study is infection.; The patient has a fever and elevated white blood cell count or abnormal amylase/lipase.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; Yes this is a request for a Diagnostic CT	1
Urology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	This is a request for an abdomen-pelvis CT combination.; The reason for the study is known tumor.; This is a request for evaluation of prostate cancer.; There is a PSA greater than 10.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; The patient is male.; The patient did not have a prior Abdomen/Pelvis CT.; Yes this is a request for a Diagnostic CT	1
Urology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	This is a request for an abdomen-pelvis CT combination.; The reason for the study is known tumor.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; Yes this is a request for a Diagnostic CT	35
Urology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	This is a request for an abdomen-pelvis CT combination.; The reason for the study is none of the listed reasons.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; Yes this is a request for a Diagnostic CT	22

Urology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	This is a request for an abdomen-pelvis CT combination.; The reason for the study is pre-op or post op evaluation.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; Yes this is a request for a Diagnostic CT	6
Urology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	This is a request for an abdomen-pelvis CT combination.; The reason for the study is suspicious mass or suspected tumor or metastasis.; It is not known if the patient is presenting new symptoms.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; The last Abdomen/Pelvis CT was performed more than 10 months ago.; The patient had an abnormal abdominal Ultrasound, CT or MR study.; The patient has NOT completed a course of chemotherapy or radiation therapy within the past 90 days.; Yes this is a request for a Diagnostic CT	1
Urology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	This is a request for an abdomen-pelvis CT combination.; The reason for the study is suspicious mass or suspected tumor or metastasis.; The patient is not presenting new symptoms.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; The last Abdomen/Pelvis CT was performed more than 10 months ago.; The patient had an abnormal abdominal Ultrasound, CT or MR study.; The patient has NOT completed a course of chemotherapy or radiation therapy within the past 90 days.; Yes this is a request for a Diagnostic CT	4

Urology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	This is a request for an abdomen-pelvis CT combination.; The reason for the study is suspicious mass or suspected tumor or metastasis.; The patient is not presenting new symptoms.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; The last Abdomen/Pelvis CT was performed within the past 10 months.; The patient had an abnormal abdominal Ultrasound, CT or MR study.; The patient has NOT completed a course of chemotherapy or radiation therapy within the past 90 days.; Yes this is a request for a Diagnostic CT	1
Urology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	This is a request for an abdomen-pelvis CT combination.; The reason for the study is suspicious mass or suspected tumor or metastasis.; The patient is presenting new symptoms.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; The patient had an abnormal abdominal Ultrasound, CT or MR study.; The patient has NOT completed a course of chemotherapy or radiation therapy within the past 90 days.; Yes this is a request for a Diagnostic CT	6
Urology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	This is a request for an abdomen-pelvis CT combination.; The reason for the study is suspicious mass or suspected tumor or metastasis.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; The patient did NOT have an abnormal abdominal Ultrasound, CT or MR study.; Yes this is a request for a Diagnostic CT	2
Urology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	This is a request for an abdomen-pelvis CT combination.; There is a known or a strong suspicion of kidney or ureteral stones.; Kidney/Ureteral stone; Yes this is a request for a Diagnostic CT	1

Urology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; It is not known if the pain is acute or chronic.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is female.; A pelvic exam was performed.; The results of the exam are unknown.; Yes this is a request for a Diagnostic CT	1
Urology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for acute pain.; There has been a physical exam.; The patient is female.; A pelvic exam was NOT performed.; Yes this is a request for a Diagnostic CT	5
Urology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for acute pain.; There has been a physical exam.; The patient is female.; A pelvic exam was performed.; The results of the exam are unknown.; Yes this is a request for a Diagnostic CT	1
Urology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for acute pain.; There has been a physical exam.; The patient is female.; A pelvic exam was performed.; The results of the exam were normal.; It is unknown if the patient had an Ultrasound.; Yes this is a request for a Diagnostic CT	1
Urology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for acute pain.; There has been a physical exam.; The patient is female.; A pelvic exam was performed.; The results of the exam were normal.; The patient did not have an Ultrasound.; Yes this is a request for a Diagnostic CT	1

Urology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for acute pain.; There has been a physical exam.; The patient is male.; A rectal exam was not performed.; Yes this is a request for a Diagnostic CT	7
Urology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for acute pain.; There has been a physical exam.; The patient is male.; A rectal exam was performed.; The results of the exam were normal.; The patient had an Ultrasound.; The Ultrasound was abnormal.; The ultrasound showed something other than Gall Stones, Kidney/Renal cyst, Aneurysm or a Pelvis Mass.; Yes this is a request for a Diagnostic CT	1
Urology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for acute pain.; There has been a physical exam.; The patient is male.; It is not known if a rectal exam was performed.; Yes this is a request for a Diagnostic CT	1
Urology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is female.; A pelvic exam was NOT performed.; Yes this is a request for a Diagnostic CT	10
Urology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is female.; A pelvic exam was performed.; The results of the exam are unknown.; Yes this is a request for a Diagnostic CT	2

Urology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is female.; A pelvic exam was performed.; The results of the exam were abnormal.; Yes this is a request for a Diagnostic CT	1
Urology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is female.; A pelvic exam was performed.; The results of the exam were normal.; The patient did not have an Ultrasound.; Yes this is a request for a Diagnostic CT	2
Urology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is female.; It is not known if a pelvic exam was performed.; Yes this is a request for a Diagnostic CT	1
Urology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is male.; A rectal exam was not performed.; Yes this is a request for a Diagnostic CT	4
Urology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is male.; A rectal exam was performed.; The results of the exam were normal.; The patient did not have an Ultrasound.; Yes this is a request for a Diagnostic CT	1

Urology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is male.; A rectal exam was performed.; The results of the exam were normal.; The patient had an Ultrasound.; The Ultrasound was normal.; A contrast/barium x-ray has NOT been completed.; The patient did not have an endoscopy.; Yes this is a request for a Diagnostic CT	1
Urology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is male.; A rectal exam was performed.; The results of the exam were normal.; The patient had an Ultrasound.; The Ultrasound was normal.; A contrast/barium x-ray has NOT been completed.; The patient had an endoscopy.; The endoscopy was normal.; Yes this is a request for a Diagnostic CT	1
Urology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	This is a request for an abdomen-pelvis CT combination.; This study is not being requested for abdominal and/or pelvic pain.; The study is requested for hematuria.; Yes this is a request for a Diagnostic CT	250
Urology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	unknown.; This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for acute pain.; There has been a physical exam.; The patient is male.; A rectal exam was not performed.; Yes this is a request for a Diagnostic CT	1

Urology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	unknown.; This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is male.; It is not known if a rectal exam was performed.; Yes this is a request for a Diagnostic CT	1
Urology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	unknown; This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; It is not known if the pain is acute or chronic.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is male.; It is not known if a rectal exam was performed.; Yes this is a request for a Diagnostic CT	1
Urology	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	UNKNOWN; This study is being ordered for a metastatic disease.; There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	3
Urology	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)	Benign prostatic hyperplasia with lower urinary tract symptoms &#x0D; Gross hematuria; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Urology	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)	Hospital Course: Sheryl Shumate is a 54 y.o. female admitted with Left flank pain for couple months associated with about 20 lb weight loss. CT suggested diverticulitis and also found to have right renal mass. She was placed on IV Cipro/Flagyl. She ; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1

Urology	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)	PT WAS SEEN IN THE ER 1/20/18 FOR SEVERE FLANK PAIN. NO HX OF STONES BUT WAS FOUND TO HAVE STONES AND AN INCIDENTAL FINDING OF A LIVER LESION ON CT. 3 X 3.4 X 3.4CM RIGHT LIVER LESION WITH HOUNSFIELD DENSITY OF 40 AND MRI ABD WAS RECCOMENDED; This request is for an Abdomen MRI.; This study is being ordered for suspicious mass or suspected tumor/ metastasis.; The patient had previous abnormal imaging including a CT, MRI or Ultrasound.; A liver abnormality was found on a previous CT, MRI or Ultrasound.; It is unknown if there is suspicion of metastasis.	1
Urology	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)	This request is for an Abdomen MRI.; This study is being ordered for hematuria.; "The patient has had an abdominal ultrasound, CT, or MR study."; It is not known if the hematuria is painful.; 2.6.17 CT A/P w/o: Small, about 13 mm, hypodensity in the lower pole right kidney probably reflecting a complex cyst now with associated punctate high density or calcification. UA: blo/moderate	1
Urology	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)	This request is for an Abdomen MRI.; This study is being ordered for Known Tumor.; This study is being ordered for follow-up.; The patient is undergoing active treatment for cancer.; "The ordering physician is an oncologist, urologist, gastroenterologist, or surgeon."; pt has renal insufficiency.	1
Urology	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)	This request is for an Abdomen MRI.; This study is being ordered for Known Tumor.; This study is being ordered for staging.; "The ordering physician is an oncologist, urologist, gastroenterologist, or surgeon."; &lt; Enter answer here - or Type In Unknown If No Info Given. &gt;	1

Urology	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)	This request is for an Abdomen MRI.; This study is being ordered for suspicious mass or suspected tumor/metastasis.; "There are documented physical findings (painless hematuria, etc.) consistent with an abdominal mass or tumor."; "The patient has had an abdominal ultrasound, CT, or MR study."; 1/16/18 CT IMPRESSION: Abnormal upper pole right kidney with a intermediate density cystic structure in the upper pole 5 x 3 cm which may be a dilated upper pole; obstructed calyx with hydronephrosis of the upper pole or a; complicated or infected cyst	1
Urology	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)	This request is for an Abdomen MRI.; This study is being ordered for suspicious mass or suspected tumor/metastasis.; "There are documented physical findings (painless hematuria, etc.) consistent with an abdominal mass or tumor."; "The patient has had an abdominal ultrasound, CT, or MR study."; 3.7cm lesion found on previous CT.	1
Urology	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)	This request is for an Abdomen MRI.; This study is being ordered for suspicious mass or suspected tumor/metastasis.; "There are documented physical findings (painless hematuria, etc.) consistent with an abdominal mass or tumor."; "The patient has had an abdominal ultrasound, CT, or MR study."; Ct was done on 9/2017 that showed a 1.2 CM Mass	1
Urology	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)	This request is for an Abdomen MRI.; This study is being ordered for suspicious mass or suspected tumor/metastasis.; "There are documented physical findings (painless hematuria, etc.) consistent with an abdominal mass or tumor."; "The patient has had an abdominal ultrasound, CT, or MR study."; L renal cysts: Per MRI (04/26/17) Bosniak type 2 cysts. Largest measuring 3.8 mm on the left, 9 mm on the right. CT (04/11/17) showed a mildly complex cyst in the L kidney and multiple other cysts.	1

Urology	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)	This request is for an Abdomen MRI.; This study is being ordered for suspicious mass or suspected tumor/metastasis.; "There are documented physical findings (painless hematuria, etc.) consistent with an abdominal mass or tumor."; "The patient has had an abdominal ultrasound, CT, or MR study."; PT HAD CT WITH & W/O CONTRAST ON 2-8-18. STATES RIGHT LATERAL MID 3.2 CM MASS COMPATIBLE WITH RENAL CELL CARCINOMA. PATIENT HAS HAD HEMATURIA CT DONE ON 12-8-17 SIZE WAS AT 5 MM.	1
Urology	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)	This request is for an Abdomen MRI.; This study is being ordered for suspicious mass or suspected tumor/metastasis.; "There are documented physical findings (painless hematuria, etc.) consistent with an abdominal mass or tumor."; "The patient has had an abdominal ultrasound, CT, or MR study."; The patient has a 15mm low density nodule in the upper pole of the right kidney that was found on a CT scan. Radiologist recommended an abdominal MRI to further characterize the lesion. Pt is having painless microscopic hematuria	1
Urology	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)	This request is for an Abdomen MRI.; This study is being ordered for suspicious mass or suspected tumor/metastasis.; It is not known if there are documented physical findings consistent with an abdominal mass or tumor.; "The patient has had an abdominal ultrasound, CT, or MR study."; (3.1.17) CT: Increased masslike enlargement at the cryoablation site, today 5.3 x 5.2 x 4.4 cm. Residual/recurrent neoplasm is a concern. &#x0D; (6.5.17) MRI: Interval worsening imaging characteristics of the 4.3 cm exophytic heterogeneous cystic/solid mass fr	1

Urology	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)	This request is for an Abdomen MRI.; This study is being ordered for suspicious mass or suspected tumor/metastasis.; It is not known if there are documented physical findings consistent with an abdominal mass or tumor.; "The patient has had an abdominal ultrasound, CT, or MR study."; (L) Adrenal gland mass: Indeterminate 3.3cm low density left adrenal gland mass seen on Chest CT w contrast (11-2-17	1
Urology	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)	This request is for an Abdomen MRI.; This study is being ordered for suspicious mass or suspected tumor/metastasis.; It is not known if there are documented physical findings consistent with an abdominal mass or tumor.; "The patient has had an abdominal ultrasound, CT, or MR study."; Tiny T2 hyperintense left renal cortical lesion. This statistically favors a cyst. There are numerous small retroperitoneal lymph nodes. Largest node anterior to the inferior vena cava measures 1.7 x 0.8 cm&#x0D; 8.2.17 CT: Nonobstructive right lower pole ren	1
Urology	Approval	74181 Magnetic resonance (eg, proton) imaging, abdomen; without contrast material(s)	This request is for an Abdomen MRI.; This study is not being ordered for known tumor, suspicious mass or suspected tumor/metastasis, organ enlargement, known or suspected vascular disease, hematuria, follow-up trauma, or a pre-operative evaluation.; &lt; Enter answer here - or Type In Unknown If No Info Given. &gt;	1
Urology	Approval	78071 Parathyroid planar imaging (including subtraction, when performed); with tomographic (SPECT)	This is a request for Parathyroid SPECT imaging.;	1
Urology	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		1

Urology	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; A nodule of less than 4 centimeters has been identified on recent imaging; This study is being ordered to evaluate a solitary pulmonary nodule.; The solitary pulmonary nodule was identified on an imaging study in the last 30 days.; This study is being requested for Lung Cancer.; This would be the first PET Scan performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Urology	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered for initial treatment (after a diagnosis of Cancer has been made).; This study is being ordered for something other than Breast CA, Lymphoma, Myeloma, Ovarian CA, Esophageal CA, Lung CA, Colorectal CA, Head/Neck CA, Melanoma, Soft Tissue Sarcoma, Pancreatic CA or Testicular CA.; This study is being requested for an other solid tumor.; This would be the first PET Scan performed on this patient for this cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Urology	Approval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body		This is a request for a Tumor Imaging PET Scan; This study is being ordered for something other than Breast CA, Lymphoma, Myeloma, Ovarian CA, Esophageal CA, Lung CA, Colorectal CA, Head/Neck CA, Melanoma, Soft Tissue Sarcoma, Pancreatic CA or Testicular CA.; This study is not being ordered for Cervical CA, Brain Cancer/Tumor or Mass, Thyroid CA or other solid tumor.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1
Urology	Disapproval	71250 Computed tomography, thorax; without contrast material	Radiology Services Denied Not Medically Necessary	'None of the above' describes the reason for this request.; Surveillance of a known cancer following treatment is related to this request for imaging of a known cancer or tumor; This is a request for a Chest CT.; This study is beign requested for known cancer or tumor; Yes this is a request for a Diagnostic CT	2

Urology	Disapproval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	Radiology Services Denied Not Medically Necessary	lower back pain that radiates to testicles, Schedule lumbar MRI to rule out nerve issues that may be causing testicular pain; The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has none of the above	1
Urology	Disapproval	72192 Computed tomography, pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	; This study is being ordered because of a suspicious mass/ tumor.; "The patient has NOT had a pelvic ultrasound, barium, CT, or MR study."; This is a request for a Pelvis CT.; There are documented physical findings (painless hematuria, etc.) consistent with an abdominal mass or tumor.; Yes this is a request for a Diagnostic CT	1
Urology	Disapproval	74150 Computed tomography, abdomen; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an Abdomen CT.; This study is being ordered for a known tumor, cancer, mass, or rule out metastases.; Yes, this is a request for follow up to a known tumor or abdominal cancer.; Yes this is a request for a Diagnostic CT	1
Urology	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	; This is a request for an abdomen-pelvis CT combination.; A urinalysis has not been completed.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; The patient did not have a amylase or lipase lab test.; Yes this is a request for a Diagnostic CT	1
Urology	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	Fever 102.9, bilateral flank pain; This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is female.; A pelvic exam was NOT performed.; Yes this is a request for a Diagnostic CT	1

Urology	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	here to evaluate exacerbation of LUTS, on Keflex and Flomax. Noted no improvement in pelvic pain, previously treated with multiple courses of Finasteride, Cipro, Bactrim and Doxycycline and prior evaluation with CT and cystoscopy in 2015. Severity:seve; This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is male.; A rectal exam was performed.; The results of the exam were abnormal.; Yes this is a request for a Diagnostic CT	1
Urology	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	Kidney was lacerated. Following up to make sure healing correctly.; This is a request for an abdomen-pelvis CT combination.; The reason for the study is follow up trauma.; There is not laboratory or physical evidence of an intra-abdominal bleed.; There is not physical or abnormal blood work consistent with peritonitis or abdominal abscess.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; Yes this is a request for a Diagnostic CT	1
Urology	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	n/a; This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is male.; A rectal exam was not performed.; Yes this is a request for a Diagnostic CT	1

Urology	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	prostate cancer, gleason score: 3+3=6. Last PSA 5.25 on 1/17/18; This is a request for an abdomen-pelvis CT combination.; The reason for the study is known tumor.; This is a request for evaluation of prostate cancer.; There is not a PSA greater than 10.; There is not a Gleason Score (sum) 7 or greater.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; The patient is male.; The patient did not have a prior Abdomen/Pelvis CT.; Yes this is a request for a Diagnostic CT	1
Urology	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; A urinalysis has been completed.; The reason for the hematuria is not known.; This study is not being requested for abdominal and/or pelvic pain.; The study is requested for hematuria.; The results of the urinalysis were abnormal.; The urinalysis was positive for hematuria/blood.; Yes this is a request for a Diagnostic CT	1
Urology	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; A urinalysis has been completed.; The reason for the study is renal calculi, kidney or ureteral stone.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; It is not known if the urinalysis results were normal or abnormal.; Yes this is a request for a Diagnostic CT	1
Urology	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; A urinalysis has been completed.; The reason for the study is renal calculi, kidney or ureteral stone.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; The results of the urinalysis were abnormal.; The urinalysis was positive for hematuria/blood.; Yes this is a request for a Diagnostic CT	2

Urology	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; A urinalysis has been completed.; The reason for the study is renal calculi, kidney or ureteral stone.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; The results of the urinalysis were abnormal.; The urinalysis was positive for protein.; Yes this is a request for a Diagnostic CT	1
Urology	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; A urinalysis has been completed.; The reason for the study is renal calculi, kidney or ureteral stone.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; The results of the urinalysis were abnormal.; The urinalysis was positive for something other than bilirubin, ketones, nitrites, hematuria/blood, glucose or protein.; Yes this is a request for a Diagnostic CT	1
Urology	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; A urinalysis has been completed.; The reason for the study is renal calculi, kidney or ureteral stone.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; The results of the urinalysis were normal.; Yes this is a request for a Diagnostic CT	11
Urology	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; A urinalysis has been completed.; This study is being requested for abdominal and/or pelvic pain.; It is not known if the urinalysis results were normal or abnormal.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; The patient did not have a amylase or lipase lab test.; Yes this is a request for a Diagnostic CT	1

Urology	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; A urinalysis has been completed.; This study is being requested for abdominal and/or pelvic pain.; The results of the urinalysis were abnormal.; The urinalysis was positive for something other than billirubin, ketones, nitrites, hematuria/blood, glucose or protein.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has not been a physical exam.; It is unknown if the patient had an Amylase or Lipase lab test.; Yes this is a request for a Diagnostic CT	1
Urology	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; A urinalysis has been completed.; This study is being requested for abdominal and/or pelvic pain.; The results of the urinalysis were normal.; It is not known if the pain is acute or chronic.; This is the first visit for this complaint.; It is unknown if the patient had an Amylase or Lipase lab test.; Yes this is a request for a Diagnostic CT	1
Urology	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; A urinalysis has been completed.; This study is being requested for abdominal and/or pelvic pain.; The results of the urinalysis were normal.; It is not known if the pain is acute or chronic.; This is the first visit for this complaint.; The patient did not have a amylase or lipase lab test.; Yes this is a request for a Diagnostic CT	1
Urology	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; A urinalysis has been completed.; This study is being requested for abdominal and/or pelvic pain.; The results of the urinalysis were normal.; The study is being ordered for acute pain.; It is unknown if there has been a physical exam.; The patient did not have a amylase or lipase lab test.; Yes this is a request for a Diagnostic CT	1

Urology	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; A urinalysis has been completed.; This study is being requested for abdominal and/or pelvic pain.; The results of the urinalysis were normal.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; It is unknown if the patient had an Amylase or Lipase lab test.; Yes this is a request for a Diagnostic CT	1
Urology	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; A urinalysis has been completed.; This study is being requested for abdominal and/or pelvic pain.; The results of the urinalysis were normal.; The study is being ordered for chronic pain.; This is the first visit for this complaint.; The patient did not have a amylase or lipase lab test.; Yes this is a request for a Diagnostic CT	2
Urology	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; A urinalysis has not been completed.; The reason for the study is renal calculi, kidney or ureteral stone.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; Yes this is a request for a Diagnostic CT	4
Urology	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; A urinalysis has not been completed.; This study is being requested for abdominal and/or pelvic pain.; It is not known if the pain is acute or chronic.; This is the first visit for this complaint.; It is unknown if the patient had an Amylase or Lipase lab test.; Yes this is a request for a Diagnostic CT	1
Urology	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; It is not known if a urinalysis has been completed.; The reason for the study is renal calculi, kidney or ureteral stone.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; Yes this is a request for a Diagnostic CT	1

Urology	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; It is not known if a urinalysis has been completed.; This study is being requested for abdominal and/or pelvic pain.; It is not known if the pain is acute or chronic.; This is not the first visit for this complaint.; There has not been a physical exam.; It is unknown if the patient had an Amylase or Lipase lab test.; Yes this is a request for a Diagnostic CT	2
Urology	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; The reason for the study is infection.; The patient does not have a fever and elevated white blood cell count or abnormal amylase/lipase.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; The patient does not have Crohn's Disease, Ulcerative Colitis or Diverticulitis.; Yes this is a request for a Diagnostic CT	1
Urology	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; The reason for the study is none of the listed reasons.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; Yes this is a request for a Diagnostic CT	10
Urology	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; The reason for the study is organ enlargement.; There is not ultrasound or plain film evidence of an abdominal organ enlargement.; This study is not being requested for abdominal and/or pelvic pain.; The study is not requested for hematuria.; Yes this is a request for a Diagnostic CT	1
Urology	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; It is not known if the pain is acute or chronic.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is female.; A pelvic exam was performed.; The results of the exam were abnormal.; Yes this is a request for a Diagnostic CT	1

Urology	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; It is not known if the pain is acute or chronic.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is female.; It is not known if a pelvic exam was performed.; Yes this is a request for a Diagnostic CT	1
Urology	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; It is not known if the pain is acute or chronic.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is male.; A rectal exam was not performed.; Yes this is a request for a Diagnostic CT	1
Urology	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for acute pain.; There has been a physical exam.; The patient is female.; A pelvic exam was NOT performed.; Yes this is a request for a Diagnostic CT	1
Urology	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for acute pain.; There has been a physical exam.; The patient is male.; A rectal exam was not performed.; Yes this is a request for a Diagnostic CT	2
Urology	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for acute pain.; There has been a physical exam.; The patient is male.; A rectal exam was performed.; The results of the exam were normal.; The patient did not have an Ultrasound.; Yes this is a request for a Diagnostic CT	1

Urology	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is female.; A pelvic exam was NOT performed.; Yes this is a request for a Diagnostic CT	1
Urology	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for chronic pain.; This is not the first visit for this complaint.; There has been a physical exam.; The patient is male.; A rectal exam was performed.; The results of the exam are unknown.; Yes this is a request for a Diagnostic CT	1
Urology	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	This is a request for an abdomen-pelvis CT combination.; This study is not being requested for abdominal and/or pelvic pain.; The study is requested for hematuria.; Yes this is a request for a Diagnostic CT	2
Urology	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	unknown; This study is being ordered for a metastatic disease.; There are 2 exams are being ordered.; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Urology	Disapproval	78813 Positron emission tomography (PET) imaging; whole body	Radiology Services Denied Not Medically Necessary	This is a request for a Tumor Imaging PET Scan; This study is being ordered for subsequent treatment.; This study is being requested for Soft Tissue Sarcoma, Pancreatic or Testicular Cancer.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	1

Urology	Disapproval	78816 Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body	Radiology Services Denied Not Medically Necessary	This is a request for a Tumor Imaging PET Scan; This study is being ordered for something other than Breast CA, Lymphoma, Myeloma, Ovarian CA, Esophageal CA, Lung CA, Colorectal CA, Head/Neck CA, Melanoma, Soft Tissue Sarcoma, Pancreatic CA or Testicular CA.; This study is not being ordered for Cervical CA, Brain Cancer/Tumor or Mass, Thyroid CA or other solid tumor.; This is NOT a Medicare member.; This is for a Routine/Standard PET Scan using FDG (fluorodeoxyglucose)	2
Vascular Surgery	Approval	70498 Computed tomographic angiography, neck, with contrast material(s), including noncontrast images, if performed, and image postprocessing		Ms. Enole presents to clinic to be evaluated for history of subclavian steal syndrome. She reports at least several-month history of right arm fatigue, drop attacks, and unsteadiness when working overhead. Additionally, she notes a history of discrepant; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Vascular Surgery	Approval	70498 Computed tomographic angiography, neck, with contrast material(s), including noncontrast images, if performed, and image postprocessing		Yearly follow up for a variant right subclavian artery.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Vascular Surgery	Approval	71250 Computed tomography, thorax; without contrast material		Angela Taylor is a 44 yo WF w h/o RA, and PEs who presents as referral from Dr. Hendrich for a retrohepatic caval mass that extends into her heart. The patient states she was first diagnosed with PE 2 years ago when she presented to the ED for chest pain.; This study is being ordered for Vascular Disease.; 02/09/16; There has not been any treatment or conservative therapy.; retrohepatic caval mass that extends into her heart causing chest pain; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

Vascular Surgery	Approval	71275 Computed tomographic angiography, chest (noncoronary), with contrast material(s), including noncontrast images, if performed, and image postprocessing	&lt; Enter answer here - or Type In Unknown If No Info Given. &gt;; This study is being ordered for Congenital Anomaly.; UNKNOWN; There has been treatment or conservative therapy.; &lt; Describe primary symptoms here - or Type In Unknown If No Info Given &gt;; NONE; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Vascular Surgery	Approval	71275 Computed tomographic angiography, chest (noncoronary), with contrast material(s), including noncontrast images, if performed, and image postprocessing	&lt; Enter answer here - or Type In Unknown If No Info Given. &gt;; This study is not requested to evaluate suspected pulmonary embolus.; This study will not be performed in conjunction with a Chest CT.; This study is being ordered for Known Vascular Disease.; It is not known if this is a pre-operative evaluation, post operative evaluation or follow up to a previous angiogram or MR angiogram.; Yes, this is a request for a Chest CT Angiography.	1
Vascular Surgery	Approval	71275 Computed tomographic angiography, chest (noncoronary), with contrast material(s), including noncontrast images, if performed, and image postprocessing	AORTIC THROMBUS; This study is not requested to evaluate suspected pulmonary embolus.; This study will not be performed in conjunction with a Chest CT.; This study is being ordered for Known Vascular Disease.; This is a pre-operative evaluation.; This surgery is not scheduled/ planned.; Yes, this is a request for a Chest CT Angiography.	1

Vascular Surgery	Approval	71275 Computed tomographic angiography, chest (noncoronary), with contrast material(s), including noncontrast images, if performed, and image postprocessing	Mr. Garrett is a 85y M w/ PMHx of a-fib on propafenone, fibromyalgia on gabapentin, gout, and CHF s/p AVR (pig valve) and CABG x2 in 2/2017 done at Baptist. He is transferred from National Park 2/5/18 w/ back pain, new type B aortic dissection, and BP in ; This study is being ordered for Vascular Disease.; 02/04/18; There has not been any treatment or conservative therapy.; 85 y.o. male admitted overnight for acute type B dissection. Patient said his severe back pain started suddenly around 5:30 last night, but has since resolved. Currently on esmolol and cardene drips Denies any chest pain, SOB, abdominal pain, back pain, ; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Vascular Surgery	Approval	71275 Computed tomographic angiography, chest (noncoronary), with contrast material(s), including noncontrast images, if performed, and image postprocessing	Ms. Enole presents to clinic to be evaluated for history of subclavian steal syndrome. She reports at least several-month history of right arm fatigue, drop attacks, and unsteadiness when working overhead. Additionally, she notes a history of discrepant; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Vascular Surgery	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has an Abnormal nerve study involving the lumbar spine	1
Vascular Surgery	Approval	72148 Magnetic resonance (eg, proton) imaging, spinal canal and contents, lumbar; without contrast material	The study requested is a Lumbar Spine MRI.; The patient has acute or chronic back pain.; The patient has Neurological deficit(s)	1

Vascular Surgery	Approval	73720 Magnetic resonance (eg, proton) imaging, lower extremity other than joint; without contrast material(s), followed by contrast material(s) and further sequences	&lt; Enter answer here - or Type In Unknown If No Info Given. &gt;; This study is being ordered for trauma or injury.; july 2017; There has not been any treatment or conservative therapy.; swelling and blood clout; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Vascular Surgery	Approval	73725 Magnetic resonance angiography, lower extremity, with or without contrast material(s)	&lt; Enter answer here - or Type In Unknown If No Info Given. &gt;; This study is being ordered for trauma or injury.; july 2017; There has not been any treatment or conservative therapy.; swelling and blood clout; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Vascular Surgery	Approval	74150 Computed tomography, abdomen; without contrast material	This is a request for an Abdomen CT.; This study is being ordered for a vascular disease.; The requested studies are being ordered for known or suspected blood clot, thrombosis, or stenosis and are being ordered by a surgeon or by the attending physician on behalf of a surgeon.; Yes this is a request for a Diagnostic CT	1

Vascular Surgery	Approval	74174 Computed tomographic angiography, abdomen and pelvis, with contrast material(s), including noncontrast images, if performed, and image postprocessing	Mr. Garrett is a 85y M w/ PMHx of a-fib on propafenone, fibromyalgia on gabapentin, gout, and CHF s/p AVR (pig valve) and CABG x2 in 2/2017 done at Baptist. He is transferred from National Park 2/5/18 w/ back pain, new type B aortic dissection, and BP in ; This study is being ordered for Vascular Disease.; 02/04/18; There has not been any treatment or conservative therapy.; 85 y.o. male admitted overnight for acute type B dissection. Patient said his severe back pain started suddenly around 5:30 last night, but has since resolved. Currently on esmolol and cardene drips Denies any chest pain, SOB, abdominal pain, back pain, ; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Vascular Surgery	Approval	74174 Computed tomographic angiography, abdomen and pelvis, with contrast material(s), including noncontrast images, if performed, and image postprocessing	This is a request for CT Angiography of the Abdomen and Pelvis.	10
Vascular Surgery	Approval	74175 Computed tomographic angiography, abdomen, with contrast material(s), including noncontrast images, if performed, and image postprocessing	&lt; Enter answer here - or Type In Unknown If No Info Given. &gt;; This study is being ordered for Congenital Anomaly.; UNKNOWN; There has been treatment or conservative therapy.; &lt; Describe primary symptoms here - or Type In Unknown If No Info Given &gt;; NONE; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1

Vascular Surgery	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	Angela Taylor is a 44 yo WF w h/o RA, and PEs who presents as referral from Dr. Hendrich for a retrohepatic caval mass that extends into her heart. The patient states she was first diagnosed with PE 2 years ago when she presented to the ED for chest pain.; This study is being ordered for Vascular Disease.; 02/09/16; There has not been any treatment or conservative therapy.; retrohepatic caval mass that extends into her heart causing chest pain; One of the studies being ordered is NOT a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.; The ordering MDs specialty is NOT Hematologist/Oncologist, Thoracic Surgery, Oncology, Surgical Oncology or Radiation Oncology	1
Vascular Surgery	Approval	74176 Computed tomography, abdomen and pelvis; without contrast material	This is a request for an abdomen-pelvis CT combination.; It is not known if a urinalysis has been completed.; The reason for the study is renal calculi, kidney or ureteral stone.; It is not know if this study is being requested for abdominal and/or pelvic pain.; It is not known if the study is requested for hematuria.; Yes this is a request for a Diagnostic CT	1
Vascular Surgery	Approval	75635 Computed tomographic angiography, abdominal aorta and bilateral iliofemoral lower extremity runoff, with contrast material(s), including noncontrast images, if performed, and image postprocessing	Yes, this is a request for CT Angiography of the abdominal arteries.	4

Vascular Surgery	Approval	78451 Myocardial perfusion imaging, tomographic (SPECT) (including attenuation correction, qualitative or quantitative wall motion, ejection fraction by first pass or gated technique, additional quantification, when performed); single study, at rest or stress (exercise or pharmacologic)		This study is being ordered as a pre-operative evaluation.; The patient is presenting with symptoms of atypical chest pain and/or shortness of breath.; There are no documented clinical findings of hyperlipidemia.; The patient has not had a recent non-nuclear stress test.; The patient has not had a recent stress echocardiogram.; The patient has suspected CAD.; This patient is clinically obese or has an emphysematous chest configuration.; The patient has not had a stress echocardiogram within the past eight weeks.; This evaluation is prior to major surgery involving general anesthesia.; This is a request for Myocardial Perfusion Imaging (Nuclear Cardiology Study).; The patient has a physical limitation to exercise.; This is NOT a Medicare member.; The patient's age is between 45 and 64 years old.	2
Vascular Surgery	Disapproval	70496 Computed tomographic angiography, head, with contrast material(s), including noncontrast images, if performed, and image postprocessing	Radiology Services Denied Not Medically Necessary	Yearly follow up for a variant right subclavian artery.; One of the studies being ordered is a Breast MRI, CT Colonoscopy, EBCT, MRS, PET Scan, or Unlisted CT/MRI.	1
Vascular Surgery	Disapproval	71275 Computed tomographic angiography, chest (noncoronary), with contrast material(s), including noncontrast images, if performed, and image postprocessing	Radiology Services Denied Not Medically Necessary	Pt presents for follow up s/p TEVAR for dissection and subsequent right femoral endarterectomy due to injury likely during TEVAR.; This study is not requested to evaluate suspected pulmonary embolus.; This study will not be performed in conjunction with a Chest CT.; This study is being ordered for Known Vascular Disease.; This is a post-operative evaluation.; There is no physical evidence of re-bleed or re-stenosis.; There is no physical evidence of an infection or other complication.; Yes, this is a request for a Chest CT Angiography.	1

Vascular Surgery	Disapproval	74176 Computed tomography, abdomen and pelvis; without contrast material	Radiology Services Denied Not Medically Necessary	to rule out a hernia she has pain; This is a request for an abdomen-pelvis CT combination.; This study is being requested for abdominal and/or pelvic pain.; The study is being ordered for acute pain.; There has been a physical exam.; The patient is female.; A pelvic exam was NOT performed.; Yes this is a request for a Diagnostic CT
